Company Overview

As a next generation renewable energy company, WeGen harnesses the main source of energy on earth- the power of the sun and the benefits of solar energy.

WeGen specializes in state-of-the-art solar PV systems for homes, infrastructures from small, medium and big business, government buildings, large industrial and commercial properties, resorts, churches, schools, and off-grid communities and islands.

WeGen is enabling partners and communities to shift to a new source of affordable, reliable, clean and sustainable energy anytime, anywhere and for everyone.

Product Name	Product Description
Grid-tied solar PV system packages	1.52 kWp System Package 2.66 kWp System Package 3.80 kWp System Package 4.56 kWp System Package 6.08 kWp System Package 7.60 kWp System Package 10.26 kWp System Package 14.06 kWp System Package
Hybrid solar PV system packages	2.66 kWp System Package 3.80 kWp System Package 4.56 kWp System Package 6.08 kWp System Package 7.60 kWp System Package 10.26 kWp System Package 14.06 kWp System Package
