Company Overview

ABET Co. Inc. is a renewable energy company engaged in the distribution of Diesel and Biogas-Fueled MAN Engines® made in Germany, BioGasclean® Biogas Cleaner made in Thailand under license from BioGasclean® head office in Denmark, Mecc Alte® Alternators made in Italy, and Motortech® Genset Controller from Germany or Huegli Tech® Genset Controller from Switzerland.

Between the year 2000 and 2010, ABET Co. Inc. have constructed and commissioned five (5) biogas projects in Thailand, one (1) biogas project in Fujian China, one (1) biogas project in Indonesia (Palm and Cattle Industry), one (1) biogas project in Malaysia (Palm Oil), and thirty-one (31) BOT biogas projects in the Philippines under Philippine Bio-Sciences (PhilBio).

ABET Co. Inc. was officially established in May 01, 2010 with office located in Caloocan City, Philippines.

At present, ABET Co. Inc. have installed biogas facilities on more than a hundred locations; four projects are owned by Charoen Pokphand Foods Philippines Corporation (CPF), and three projects owned by Universal Robina Corporation (URC).

Product Name	Product Description	Photo of Sample Product
Biogas cleaner, Biogas chiller, Biogas heat Exchanger	BioGasclean®'s desulphurization technology is biological. This gives very low operational costs as the gas cleaners do not consume caustic soda or similar chemicals. The only residual product from the process is a valuable fertilizer. Therefore, a gas cleaner from BioGasclean® is not only economical but also an environmentally good investment.	

Biogas Gen Set

MAN Engines® originally made in Germany is far reliable in performance. For high quality, efficiency, and durability that lasts, MAN Engines® driven generator set will be your best choice.
