Company Overview

Since 2016, Helios Optimum has offered sustainable energy sources to clients in the home, commercial, and industrial sectors.

Helios Optimum is created to provide materials and services for solar system installations. The company's advocacy is that "Solar doesn't have to be complicated". It offers products which are ready to use, less complexities and less intimidating and partnered with top tier brands to provide the most competitive quality and price of solar materials such as LiFePO4 batteries, PV panels, inverters, etc.
