Company Overview
Mecaro Rio Vista Energy Corporation (MOREnergy) is a Philippine-based company specializing in renewable energy solutions. Their services include energy consulting, feasibility studies, design and engineering, turnkey installations, monitoring installations, and after-sales support. The company also offers small horizontal-axis wind turbines.

Product Name	Product Description
Wind turbines (small) horizontal axis.	The Spiral Magnus is the World's Most Stable Horizontal Axis Wind Turbine that can be installed in mountainous regions, coastal areas, urban areas, buildings, parks and host of other application. It makes use of cylinder-shaped blades with spirally arranged fins attached around the cylinders, that results to a higher efficiency in lower wind speeds and environment friendly than traditional wind turbines. It employs the proven Magnus Effect, which turns the turbines that generates electricity by spinning cylinders in a wind stream.
