Company Overview

At PROINSO, believe that solar energy is on a path to become central to powering our homes and businesses. It aims to be at the forefront of this energy revolution. Solar Energy Solidarity started in 2011 as a solidarity initiative, carried out by PROINSO, to embrace corporate social responsibility and commit to providing off-grid communities with the technical tools to use solar power as a source of clean energy. Solar Energy Solidarity is aligned with the United Nations 2030 Agenda for Sustainable Development to empower communities worldwide. Our goal is to create tangible, measurable impact in diverse areas in alignment with the UN's Sustainable Development Goals.

Product Name	Product Description
SMA inverters	SMA inverters are known for their technological, operating, and warranty excellence. Inverters manufactured by SMA Solar Technology AG have been officially crowned zero-carbon following an independent audit.
Jinko Solar Panels	JinkoSolar pioneered the "vertical integration" capacity from silicon wafer and cell to module production in the industry.
Solar Panel Tracker	The Tracker SUN RIDER© structure represents the culmination of 15 years of development of Trackers by MECASOLAR. SUN RIDER© is prepared to withstand the most adverse weather conditions, having been simulated in several wind tunnels and its stability analyzed with the most advanced SW on the market.
Tesvolt batteries	Tesvolt specialises in commercial-enterprise lithium-ion battery storage that operates at both low and high voltages and can connect to all power generators including solar, wind, water, biogas, and combined heat and power.
