

AQUA DOS AÇORES

atlantic ocean

Nature. Ocean. Sustainability. —

Nature

Our fragrances are characterized by the high concentration of natural raw materials and essential oils sourced from plants growing in the archipelago.

Ocean

The collection was born as an olfactory travel diary. A sensorial tale of one of the most beautiful and preserved places in the world.

Sustainability

Our fragrances are produced responsibly protecting the environment and are paraben, silicone, and petroleum free, plus vegan and cruelty-free. The concept of use and reuse is a priority for the brand.

Much more than a simple perfumery brand –

A research perfumery brand
founded in and inspired by the
Azorean Islands, in the heart
of the Atlantic Ocean.

A mix of nature and sustainability
sets this young brand apart and
makes it unique.

EAU DE PARFUM —

Fragrances that capture the
very essence of the islands
through their scents.
