EXPERIENCE

Frontend Developer - Parasight Solutions In-office - July, 2025 - Present
Building responsive UIs for national and international web products. Collaborating with design and backend teams to deliver production-ready features. Enhancing performance and maintaining scalable frontend architecture.

Web Development Intern - GrowthLink Remote - Mar, 2025 - Apr, 2025
Coordinated with a team, developed Jober, a platform that offers a seamless experience for both employers to post jobs and manage job applications, and for job seekers to find and apply for positions.

ACHIEVEMENTS & CERTIFICATIONS

- 1st Runner-up at the Beachack Season 6 Hackathon.
- Finalist at AceHack 5.0 & Participated in 4+ Hackathons.
- Google Certified UI/UX Developer.

PROJECTS

Refilla — React, TailwindCSS, Node, Leaflet Maps, Supabase
A sustainability-focused web application that enables users to discover, add, and review free water refill stations. Promotes eco-friendly behavior by reducing plastic waste and encouraging local businesses to offer refill access points. ([Github](#))

GhumoAI — React, TailwindCSS, Node, OpenAI, Leaflet Maps, Supabase
An intelligent travel planning platform that generates personalized city tour itineraries based on user preferences. It features real-time AI assistance, vehicle rentals, refill station locators, and seamless travel experiences - all in one web app. ([Github](#))

Jober — TypeScript, React, TailwindCSS, Node, Supabase
Jober is a modern job portal platform, designed to connect employers with job seekers. The platform offers a seamless experience for both employers to post jobs and manage applications, and for job seekers to find and apply for positions. ([Github](#))

VConnect — React, Node, Express, Firebase
VConnect is a gamified web platform that connects volunteers with organizers by offering event management tools, a points-based reward system (AURA), and social features to make volunteering engaging and rewarding. ([Github](#))
