Future-Ready ICT & AI Skills for Students and Educators

# Redesigning Learning for a Future Driven by Technology

We equip schools, colleges and universities with **cutting-edge curriculum**, comprehensive **training programs**, and **digital ecosystems** that prepare students, and the educators, for tomorrow's challenges.

Collaborated with **25+ leading institutions** for workshops, seminars and trainings.

**7000+**  
Students Impacted

**400+**  
Educators Empowered

**1000+**  
Students Trained

Education is changing faster than ever, and I believe every student, and every educator, deserves to be prepared for the world they are stepping into.

**Sukhsagar Singh**

## Where It All Began (2015)

My journey began not with an intention to teach, but with a deep desire to understand how technology shapes human potential.

During my MCA at GNDU, I explored everything, from app development to student leadership, from hackathons to digital marketing. I founded **Code Warriors**, a community where students could experiment, build, and create.

These early years taught me something priceless:

**Technology becomes powerful only when people learn how to use it with purpose.**

This belief shaped my career and continues to guide my work with schools, colleges, and educators today. For the past 10 years, I have dedicated myself to transforming how schools and colleges adopt ICT, digital literacy, and Generative AI.

- **ICT & AI Curriculum Designer**
- **Guest Speaker (GDG DevFest, Universities, EdTech Events)**
- **Guest Faculty (Chitkara University)**
- **Trainer for Students, Teachers & Academic Institutions**
- **Digital Strategy & EdTech Consultant**

# Professional Career

Educator | Technologist | Consultant | Public Speaker

2018–Present

*Curriculum, Mentoring, Teacher Training, Digital Strategy*

**Chief Technical Officer**

Cambridge International School, Amritsar

2019–2023

*EdTech, Training, Client Strategy*

**Chief Technical Officer**

Webcooks Technologies Pvt Ltd

2022–Present

*Growth Marketing and IT Consultancy*

**Co-founder**

SilverPlexus

2025 – Present

*AI Solutions & Digital Consulting*

**Co-founder**

VIBX Consulting

Every stage of my career has strengthened my belief that:

**Education must evolve, and educators must evolve with it.**

My mission is simple; to make technology easy to understand, practical to use, and meaningful to learn.

# Building Meaningful Learning Experiences

I believe that ICT education should give students more than technical skills, it should give them **confidence**, **curiosity**, and **creativity**.

That's why I design curriculum that allows students to **think**, **build**, and **innovate**.

## Highlights:

- Developed ICT pathways from KG to Grade IX that build logical thinking early
- Created custom, activity-based textbooks for digital skills & coding
- Introduced hands-on programs in schools on:
  - Scratch & Block Coding
  - Web Development
  - Python & Data Science
  - Cyber Security Essentials
  - Generative AI for Students (Prompting, Tools, AI Ethics)
- Built Innovation Lab Program for a K-12 school
- Organized state-level digital marketing and coding events
- Designed the program '*Future Proofing with AI*' for a Canadian Company, BrandMamba
- Conducted teacher development sessions to help educators integrate AI confidently

## Student-led Innovation:

- Guided students to state-level awards, including recognition from the Hon. Governor of Punjab
- Organized Technophilia, a tech fest with 200+ students from 30+ schools
- Conducted Digital Marketing & AI Hackathons for Grades IX–XII
- Delivered 100+ workshops that inspire students to explore technology with curiosity and purpose

# Technical Trainings

## Helping educators confidently adopt:

- Generative AI in teaching & assessments
- ICT tools for classroom engagement
- AI ethics & Digital safety (Cyber Security)
- Productivity and automation skills

## Helping learners understand:

- How AI works
- How to use technology responsibly
- How to turn ideas into projects
- How to think creatively and solve real problems

Every workshop, session, and curriculum I design is driven by a single vision:  
To build a generation that can **think, create, innovate,**  
and **lead with technology.**

For  
Teachers

For  
Students
