# BASECAMP

Protection and Flexibility for Training Without Limits

**Basecamps** are the perfect combination of strength, flexibility, and protection.

They are created by connecting two or more modular units with a dome, shelter, or cover that protects both the equipment and users from weather conditions. The containers that make up the Basecamps can be either 20 or 40 feet and can be customized according to space needs.

The distance between them can vary from 6 to 10 meters, depending on the area and desired design, but it's also possible to create larger, custom structures to fit any environment or requirement. With a Basecamp, you ensure that outdoor training can be conducted comfortably and safely at any time of the year.

Design your custom Basecamp and discover how to transform any space into a functional and protected gym.

# BASECAMP

Protection and Flexibility for Training Without Limits

Our **BASECAMP** is a tensioned fabric structure that provides an ideal and protected space for physical training and equipment storage.

# CUSTOMIZATION

Transform Your Outdoor Fitness Space

Fortress Factory models are not only robust and functional but also highly customizable to suit your specific needs and preferences.

We offer a variety of options to ensure your gym integrates perfectly into any environment and meets all your expectations.

## CUSTOMIZATION OPTIONS

### AESTHETIC INTEGRATION

Choose from a wide range of exterior finishes to ensure your gym blends seamlessly with its surroundings, whether it's in a garden, terrace, or public space.

### ELECTRICAL INSTALLATION

Add a complete electrical installation, with outlets and connections for all your devices.

### LIGHTNING

Incorporate spotlights and LED lights to create an ideal training environment, even in low-light conditions.

### MOTORIZED DOOR

Choose a motorized folding door for added convenience and ease of use.

### ADDITIONAL EQUIPMENT

Customize your gym with the additional equipment you need, such as more training materials, racks, functional training stations, and more.

### RENEWABLE ENERGY

Include solar panels and batteries for a self-sufficient and eco-friendly gym.

### PERSONALIZED ASSISTANCE

Contact us for more options and personalized assistance in creating the perfect gym for you.

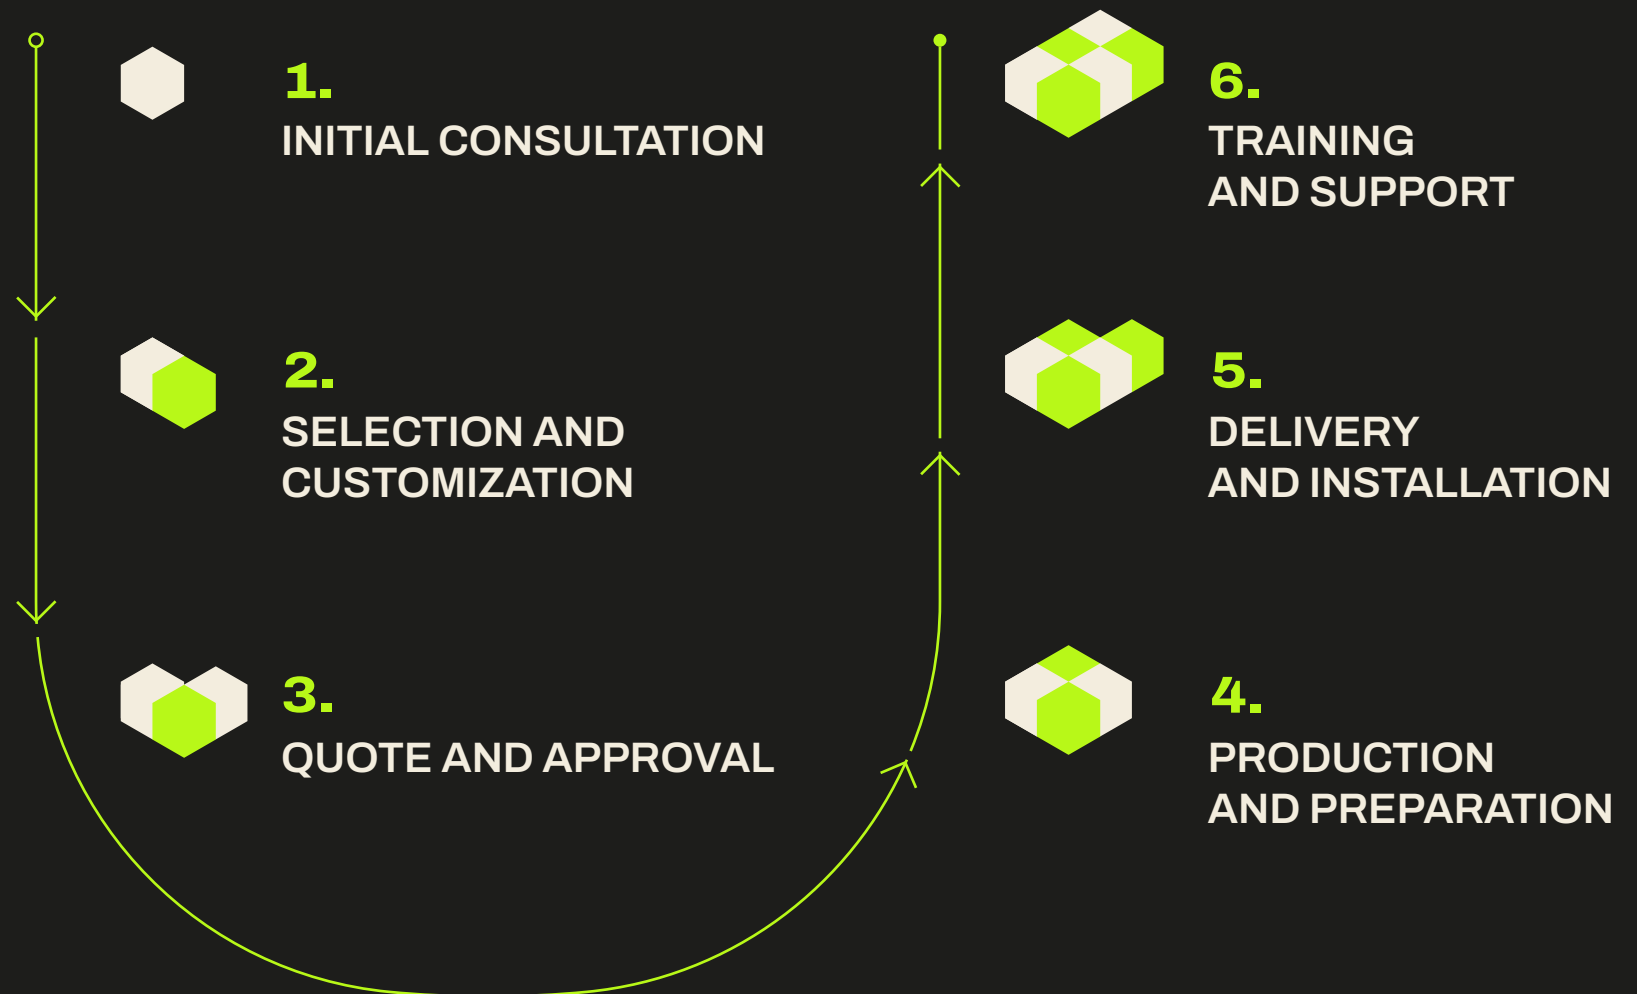

# EASY AND FAST

The Path to Your Modular Gym

Acquiring your gym is a simple and efficient process.
