The Critical Market Gap

High-volume BTC traders currently face 6-8% price concessions for efficient conversion.

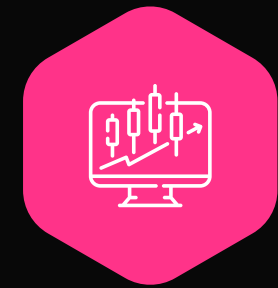

Traditional exchanges offer inadequate liquidity depth and market inefficiencies.

Market maker algorithms and slippage significantly impact execution prices.

Existing regulatory frameworks (KYC/AML) restrict market access and trading velocity.

\$1.8T daily trading volume seeking streamlined execution solutions.

Complex and time-intensive process for large-scale P2P trading pair matching.

Market Size / Potential

A. Centralized Exchange Valuations

✦ **Binance**

Market Cap: Estimated to be in the range of \$4-5 billion for its native token (BNB).

Trading Volume: Often over \$1 billion daily, making it the largest exchange by trading volume.

✦ **Coinbase**

Market Cap: Approximately \$10 billion.

Trading Volume: Around \$500 million to \$1 billion daily, depending on market conditions.

✦ **Kraken**

Market Cap: Roughly \$2 billion for its native token (if applicable) or estimated enterprise value.

Trading Volume: About \$200 million to \$500 million daily.

Market Size / Potential

B. Decentralized Exchange Valuations

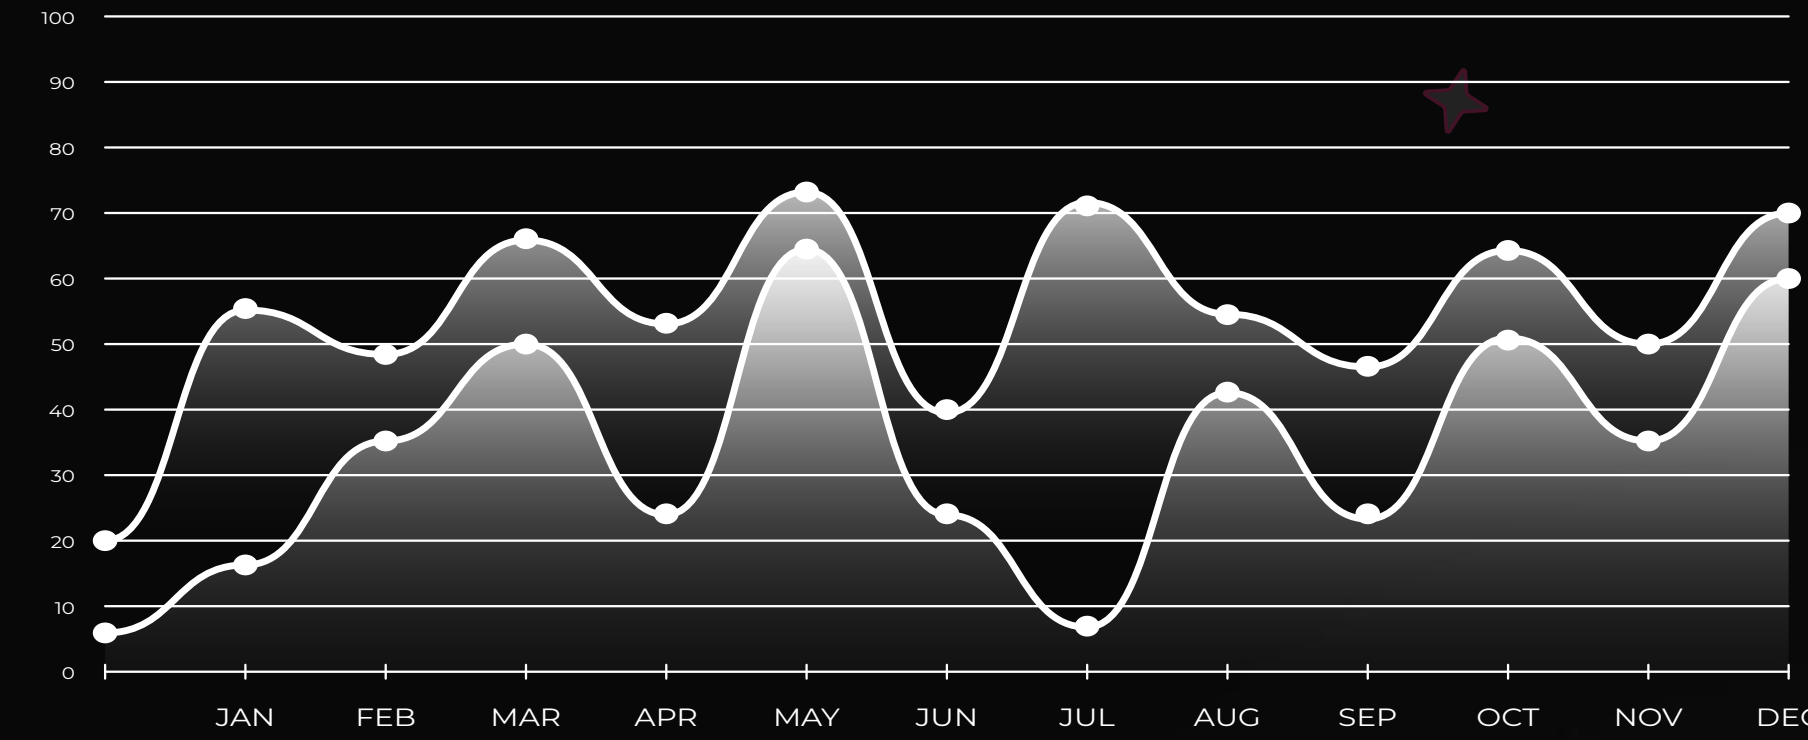

✦ Uniswap

Market cap \$4.81 B

✦ SushiSwap

Market cap \$171.6M

✦ PancakeSwap

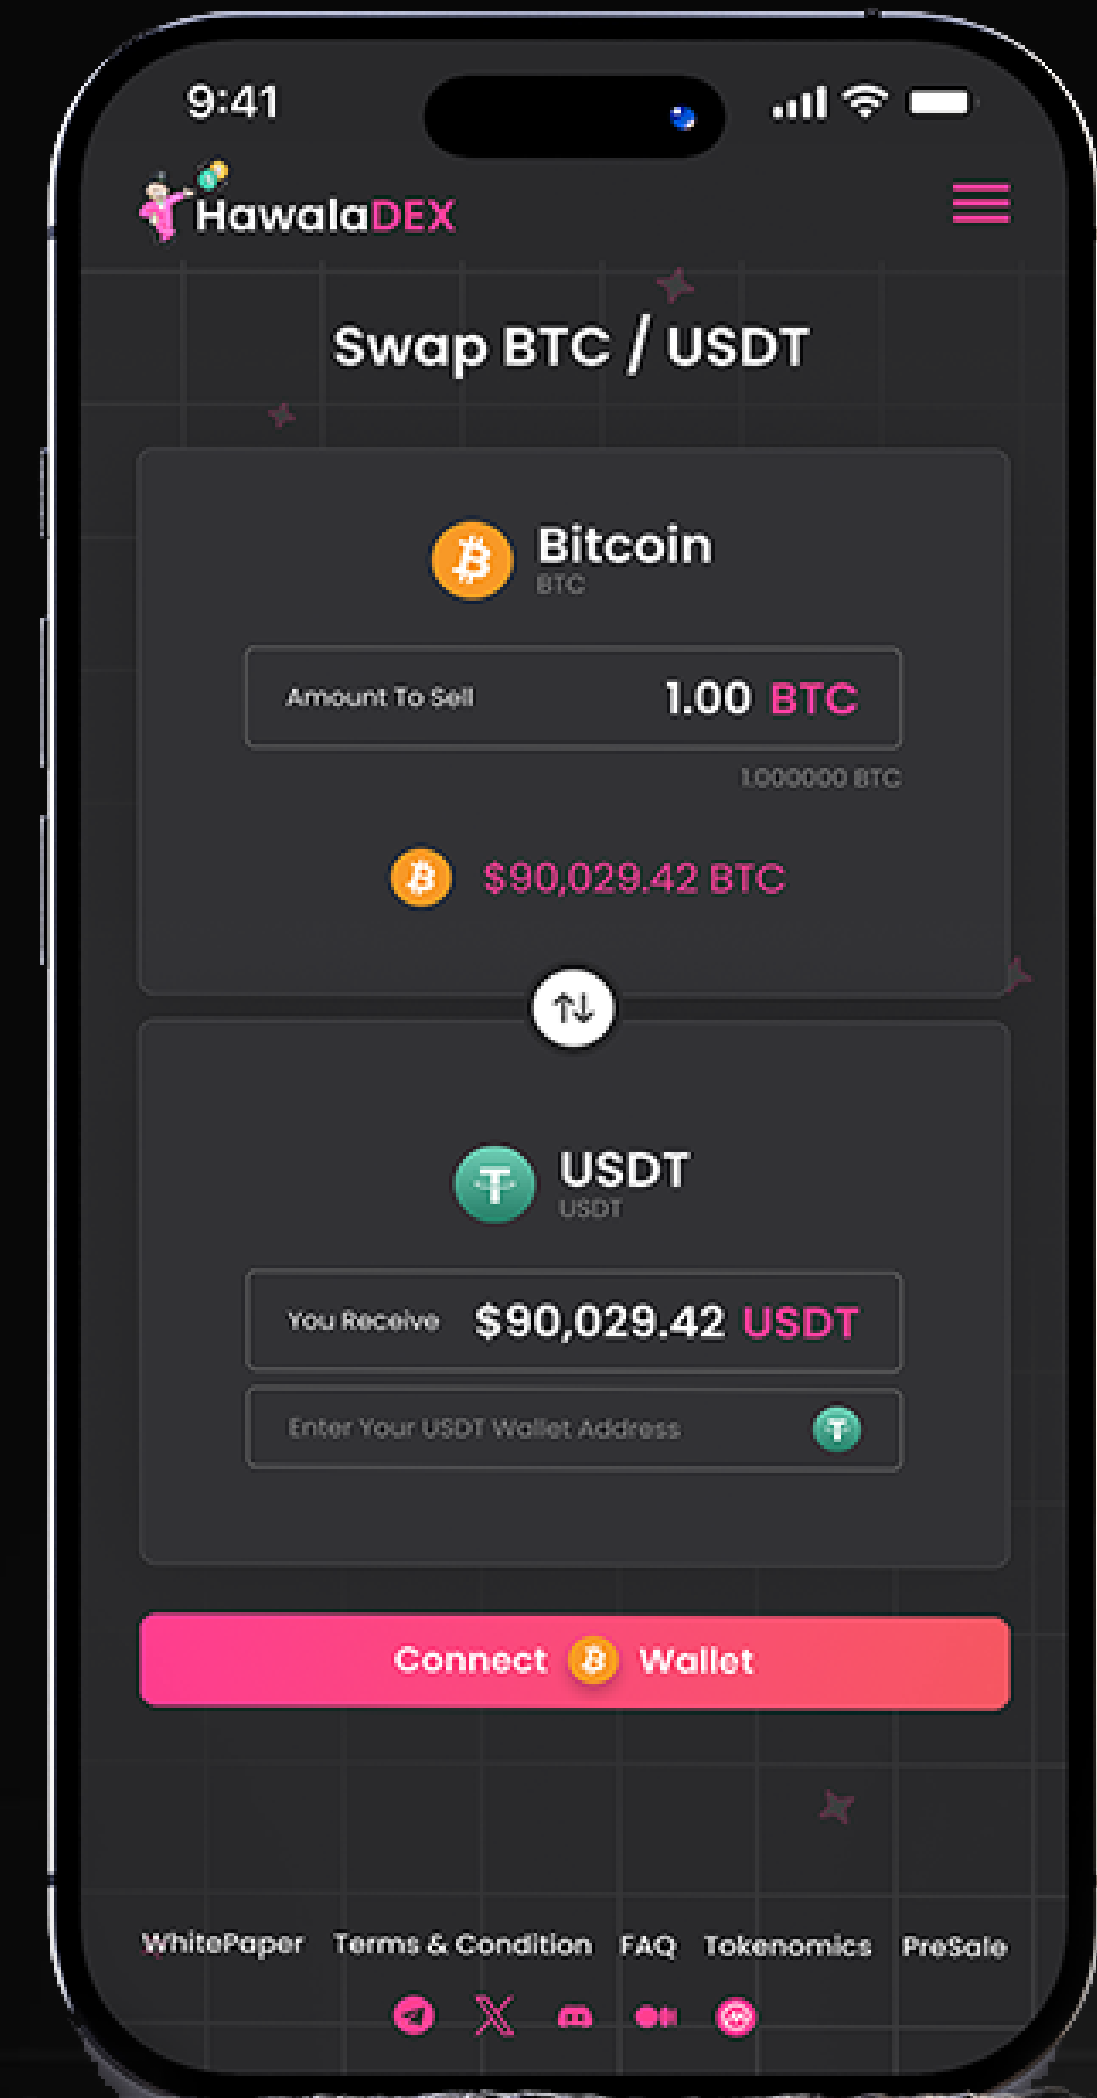

Market cap \$514.1M

- ✦ All Trades always affect price
- ✦ No order Book
- ✦ Transactions Size Limits
- ✦ No Cross Chain Transactions

Next Generation Decentralised Cryptocurrency Exchange

- ✦ First-ever combination of peer to peer spot market and fixed price mechanisms
- ✦ Buy and sell order book
- ✦ Zero slippage for unlimited transaction sizes
- ✦ Web3 trustless cross-chain atomic swaps (starting with BTC-USDT)
- ✦ Smart contract-governed P2P trading
- ✦ No KYC, No AML, No transaction limits
- ✦ Dynamic commission pricing
- ✦ Commission sharing with Worldwide Dealer Agent Network
- ✦ Trading rewards
- ✦ Distributed governance system (DAO)
- ✦ Trading Bot for TON network

HawalaDEX Agent Network

Authorized Agents can leverage their existing client base and attract new customers through the HawalaDEX platform.

Agent Benefits:

- ✦ *Commissions on all transactions*
- ✦ *Customer protection, agents receive commissions even if they go directly through <https://hawaladex.com/agent>*
- ✦ *Separate website to improve credentials and trust*

DEX AI Integration

A. User Experience:

- ✦ Personalized trading interfaces based on user behavior and preferences
- ✦ Smart order routing to optimize execution across liquidity pools

C. Security:

- ✦ Fraud detection in user behavior and trading patterns
- ✦ Automated circuit breakers based on market conditions

B. Functionality:

- ✦ Price prediction models to improve limit order placement
- ✦ Anomaly detection for market manipulation attempts

Hawala Foundation Governance

- ✦ Governance Vote Subjects
- ✦ Forest Land Regions
- ✦ New DEX Chains
- ✦ New DEX Pairs
- ✦ Trading Plantaton amounts
- ✦ DEX Trading Fees
- ✦ Airdrop distribution timescales

The screenshot displays the HawalaDEX Governance interface. At the top, it shows the user's wallet balance (0.0000) and the total supply (\$00000). The interface is set to 'Fixed' order book mode. There are two 'Connect' buttons for wallet integration.

The main section is titled 'Governance Token' and shows 'Votes' as the active category. There are buttons for 'Create Vote', 'Pair Listings', and 'Request Pairing'. Below these are tabs for different governance subjects: 'Fees', 'AirDrop', 'Carbon Footprint', 'Carbon Credits', and 'Forest Land'. The 'Fees' tab is currently selected.

Two voting polls are active under the 'Fees' category:

- What Should Be Market Price Trading Fees ?**
 - 0.125% (45 Vote)
 - 0.175% (54 Vote)
 - 0.2% (65 Vote)
- What Should Be Order Book Trading Fees ?**
 - 2.00% (45 Vote)
 - 2.25% (54 Vote)
 - 2.50% (65 Vote)

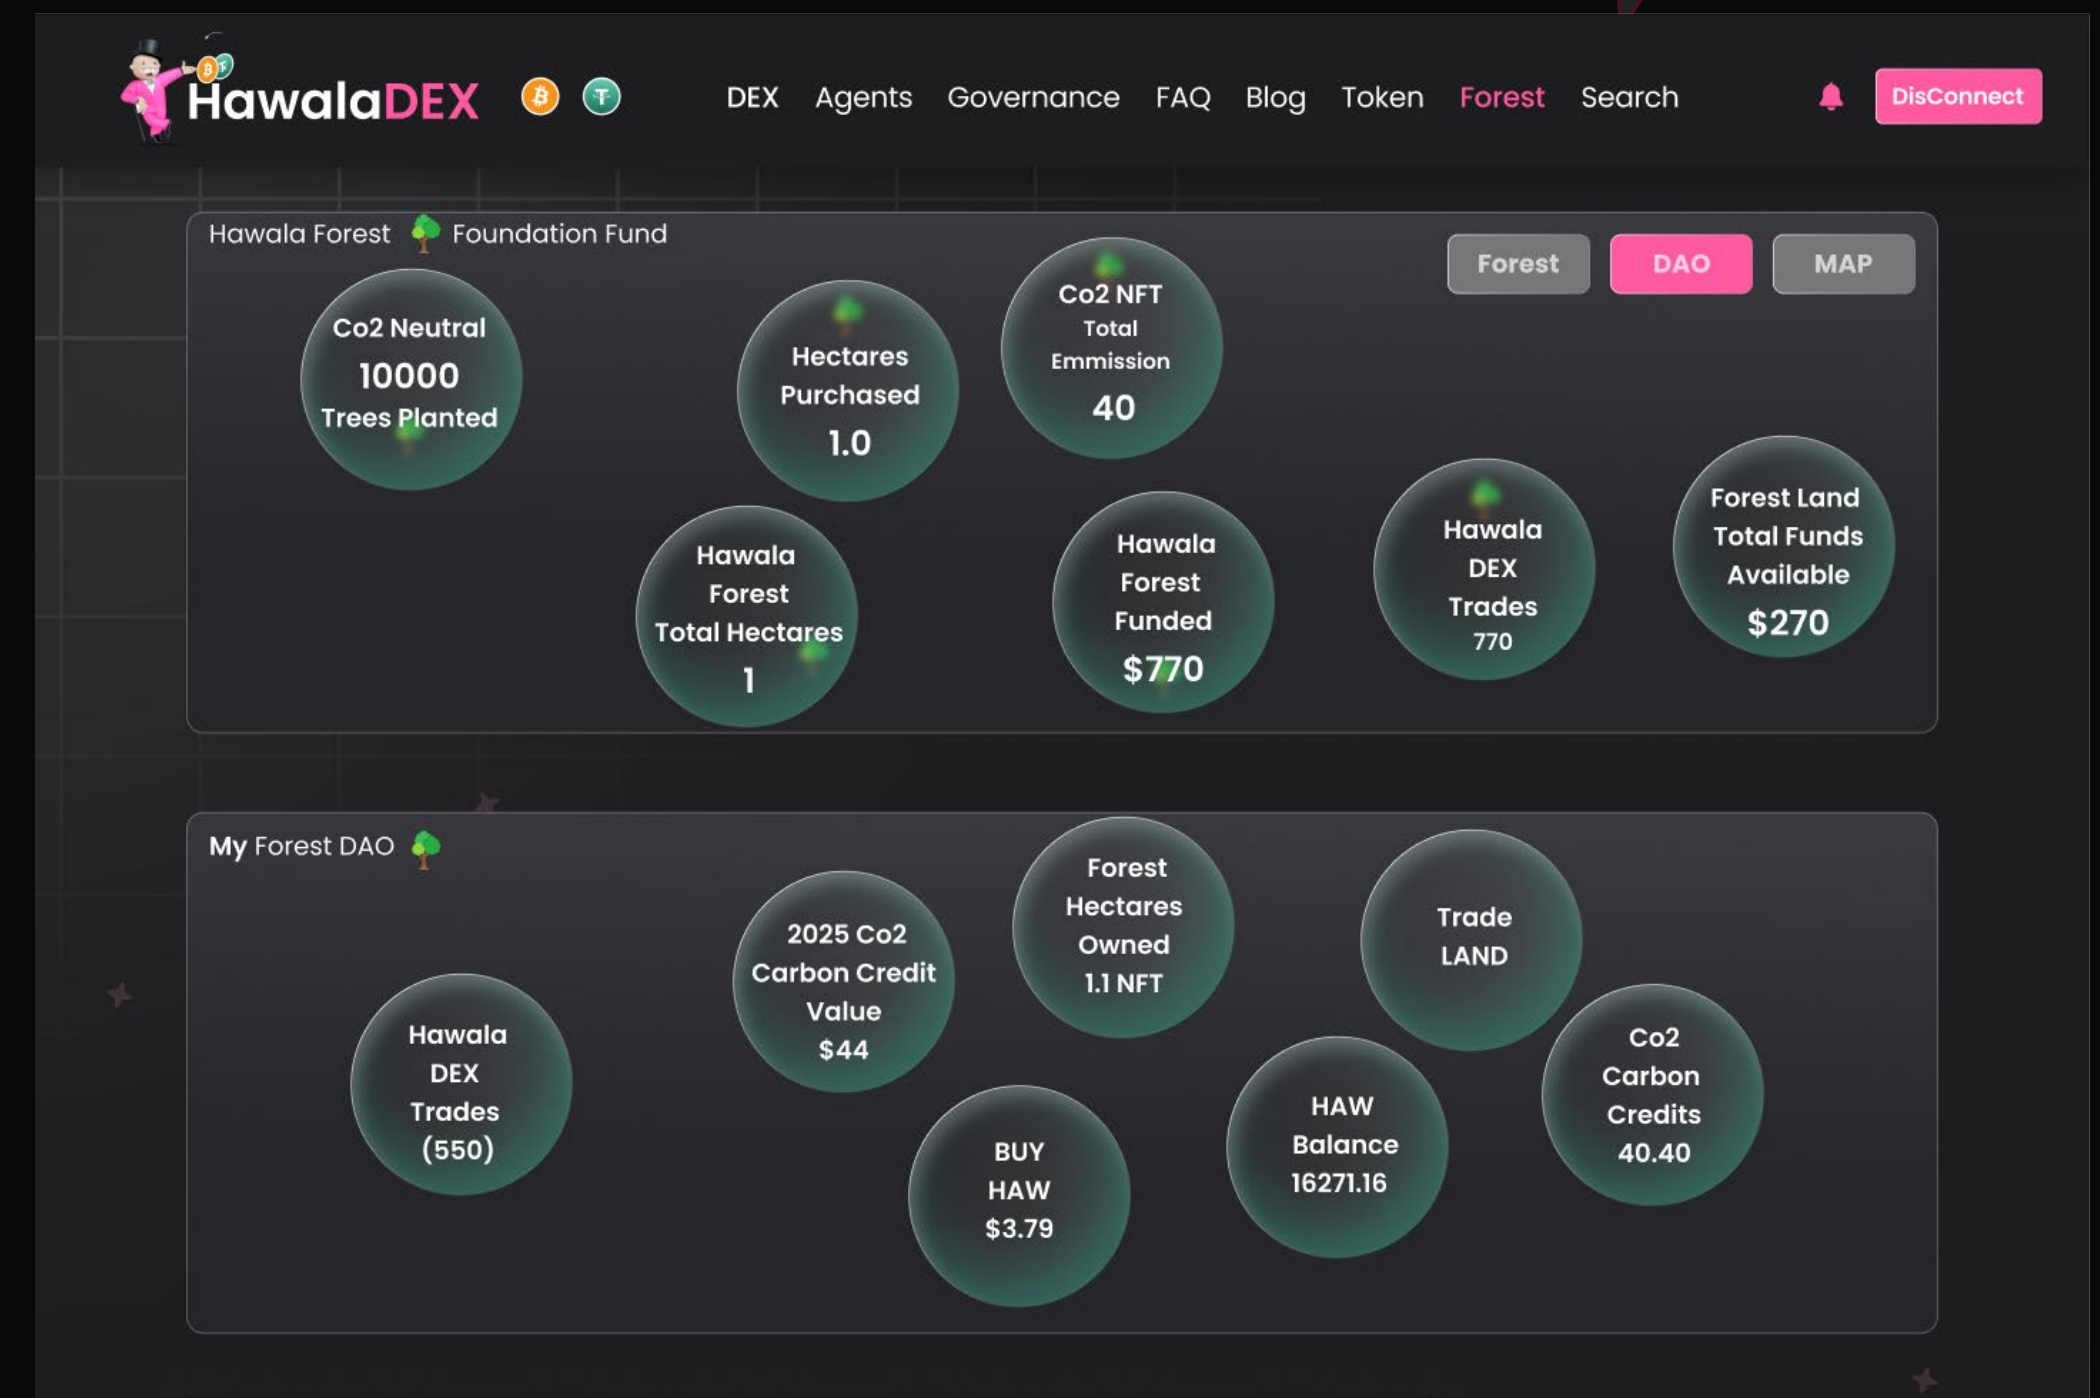

Each poll shows a progress bar and a 'Vote Now' button. The total number of votes for each poll is 164.

At the bottom, there is a 'Stats' table showing the current state of the governance:

Wallet	Balance	Voting Power	Category	Votes
25679099....	88,123,789	108,107,395	Fees	0.125%
25679099....	77,022,307	88,123,041	Fees	0.125%
25679099....	88,123,789	108,107,395	Airdrop	0.125%
25679099....	88,123,789	108,107,395	Airdrop	0.125%
25679099....	88,123,789	108,107,395	Pair Listing	0.125%

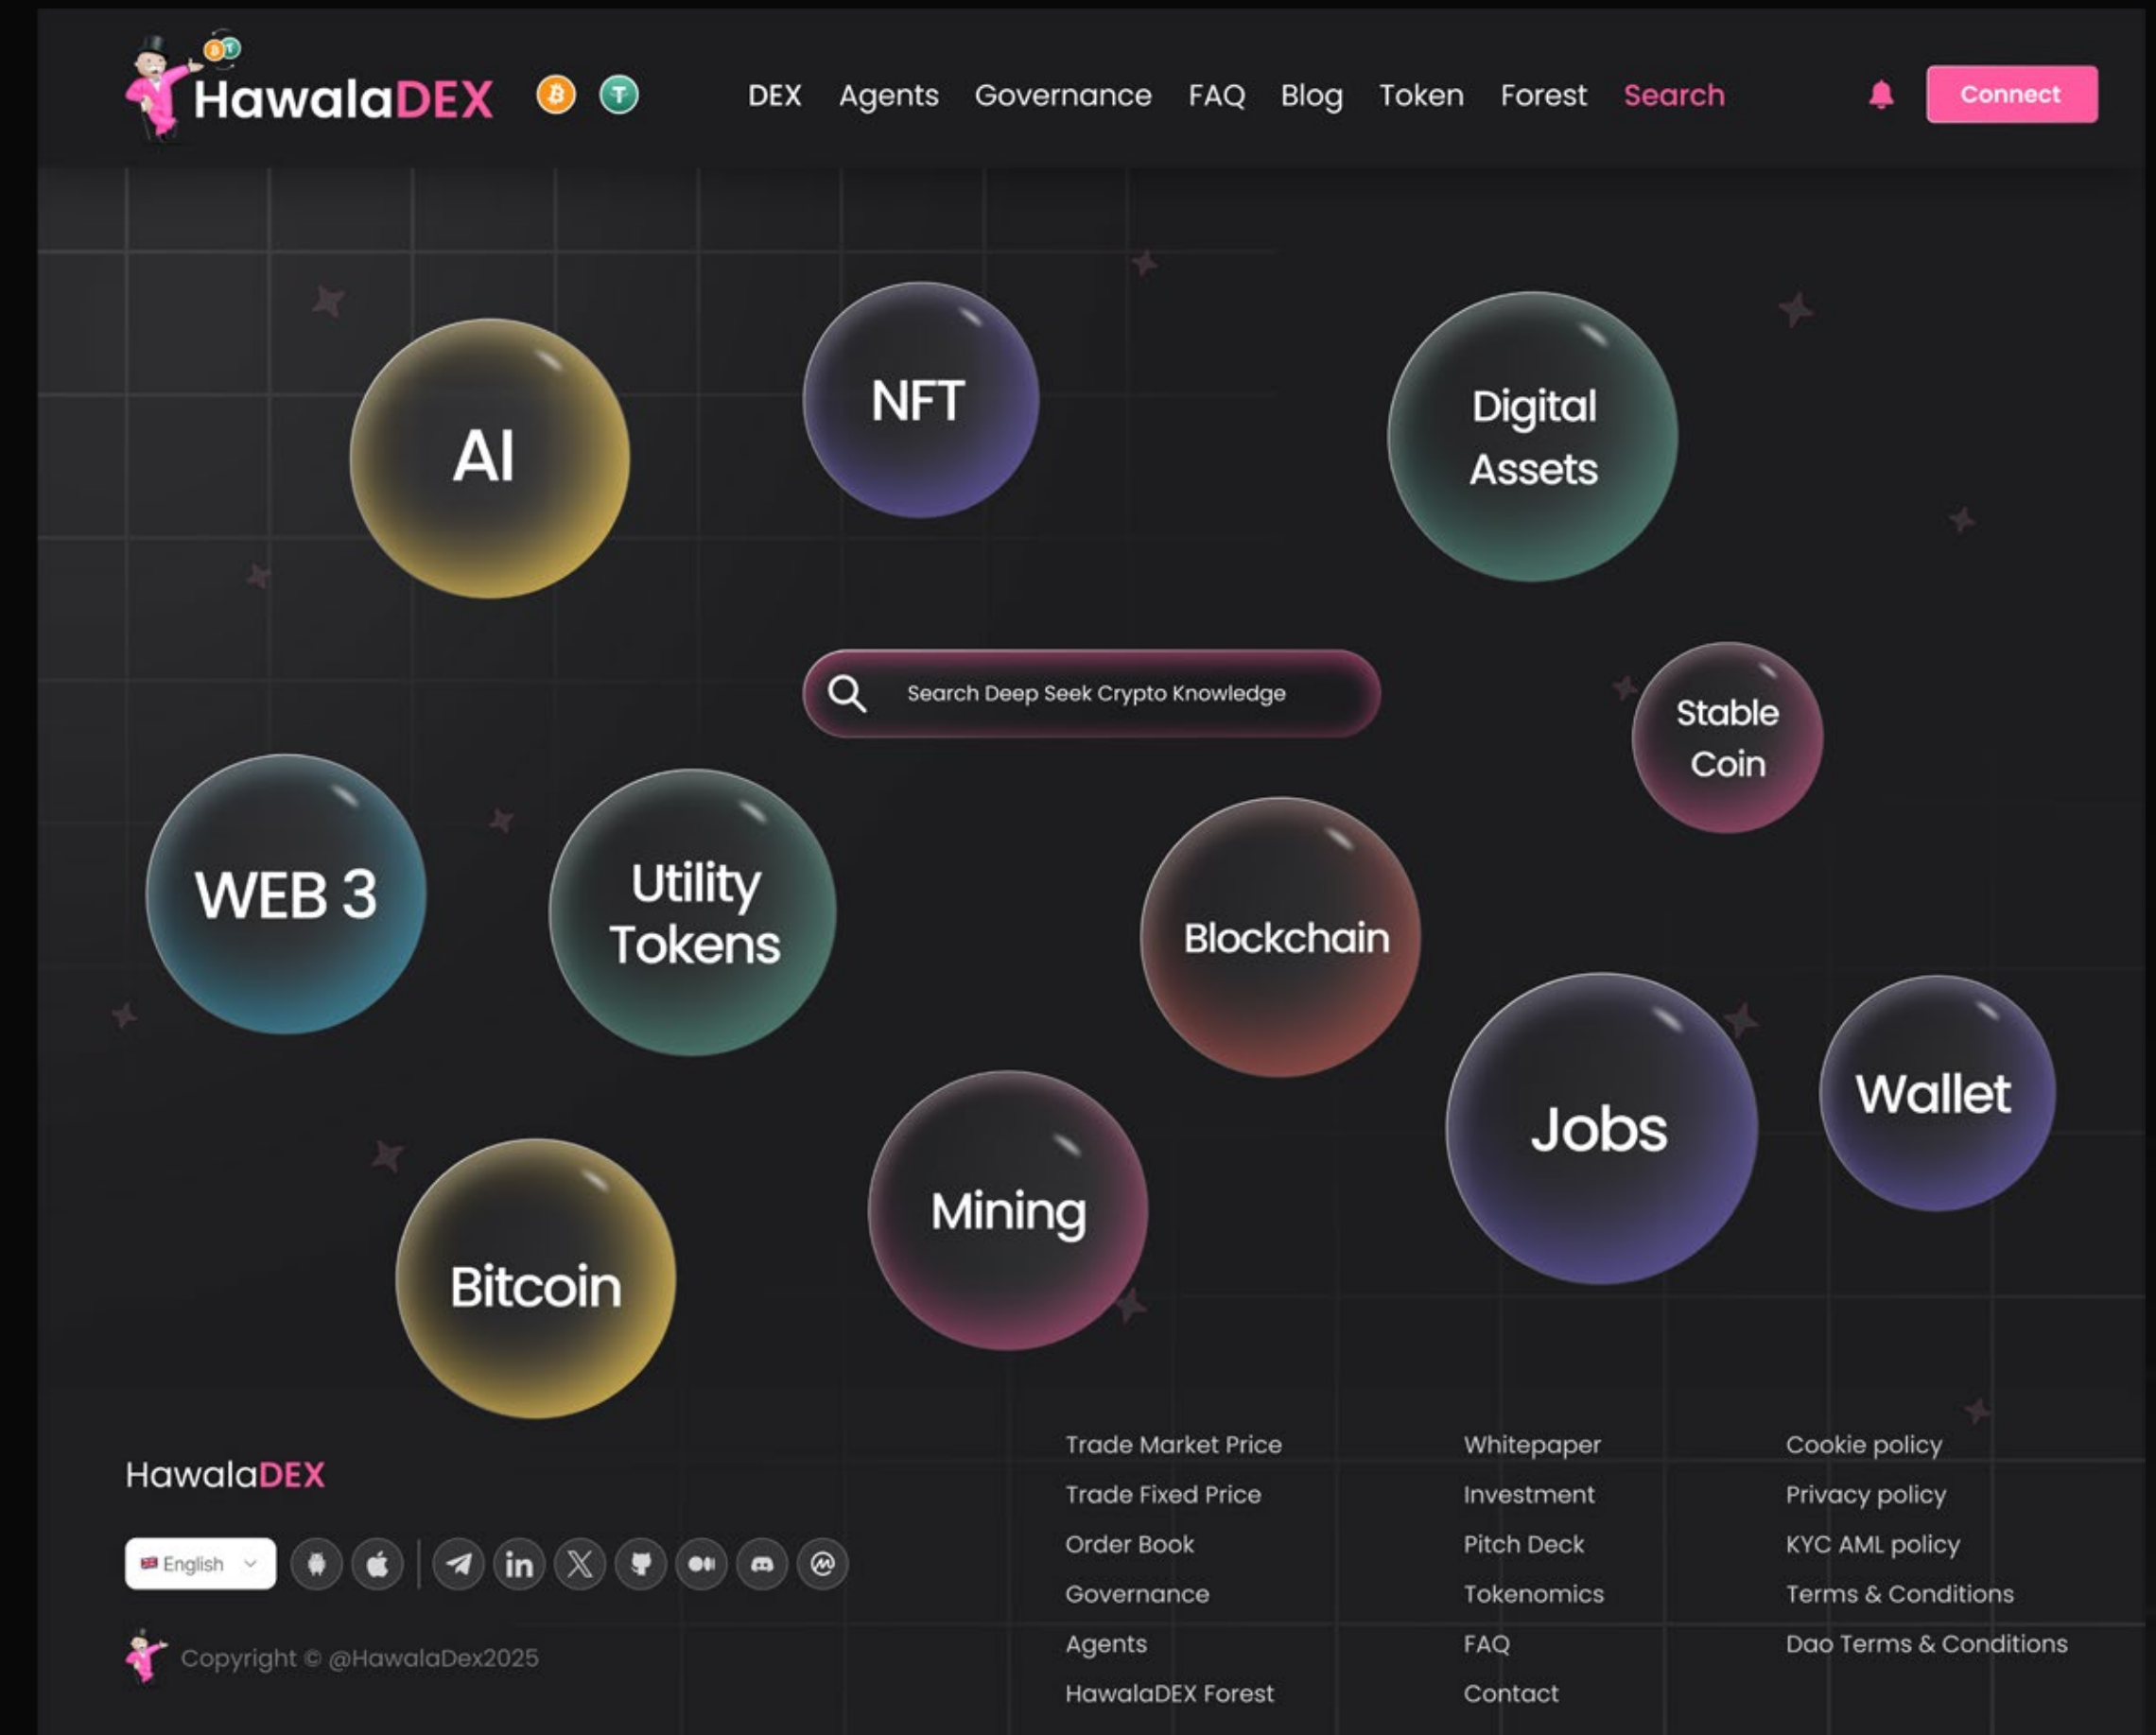

Carbon Credits and Energy Neutral Trading

- ✦ \$1 Trading Tax on every DEX trade
- ✦ Used to buy physical land
- ✦ 10,000 Tree Seeds planted per Hectare
- ✦ Each Hectare Forest Land Collects 40–50 Carbon Credits per Annum
- ✦ Dao manages users fractionalised land ownership and Carbon Credits earned using NFT

Search Bubbles

- ✦ Powered By Deep Seek Artificial Intelligence
- ✦ Crypto knowledge Search Engine
- ✦ True definitions without advertising or political interference

Web3 Social Network Hawala Forest
