

# LEADING THE NEW ERA OF BULLION BANK

# LEADING THE NEW ERA OF BULLION BANK

2025 marks a historic milestone and signifies a new chapter for Bank Syariah Indonesia (BSI). An era where trust, values, and the future converge through the emergence of the Bullion Bank. As the first Bullion Bank in Indonesia, this achievement is driven by the belief that gold is more than a symbol of wealth, but also represents stability, continuity, and value preserved across generations. By integrating the historic role of gold in Islamic tradition with the power of modern technology, BSI affirms its commitment to delivering financial services that are fair, accessible, and meaningful for all.

In this new era, the Bullion Bank becomes more than a product innovation, it represents a paradigm shift in how gold is viewed as a new pillar of the sharia economy. BSI opens wider access for individuals to utilize gold as an instrument for future planning, while strengthening a sharia ecosystem that supports empowerment, economic resilience, and community well-being. Through broader collaboration, progressive digital initiatives, and a strong governance foundation, BSI stands as a leader that provides direction and confidence amid dynamic industry transformation.

With this spirit, we move forward together into an era where gold becomes more than a valuable asset, it becomes a symbol of opportunity, blessing, and an inclusive future. This is BSI's commitment as the Bullion Bank: to lead the journey toward a stronger, more resilient sharia financial landscape that delivers sustainable benefit for Indonesia.

## 2025

### LEADING THE NEW ERA OF BULLION BANK

2025 marks a new chapter for BSI as it enters the era of the Bullion Bank through Indonesia's first sharia-based gold banking service. This milestone reflects a renewed perspective that positions gold as a symbol of stability, sustainability, and long-term value. By combining Islamic heritage with modern technology, BSI expands access to gold as a future-planning instrument while strengthening a sharia ecosystem that supports empowerment and economic resilience. Through broader collaboration, progressive digital initiatives, and strong governance, BSI steps forward as a leader guiding the industry toward a more inclusive and sustainable future for Indonesia.

## 2024

### Level Up to The Next Journey

The year 2024 is a remarkable year for PT Bank Syariah Indonesia Tbk (BSI). BSI has set its course to "Level Up to the Next Journey" after successfully navigating its first three years with numerous achievements worth celebrating. This level-up initiative is being carried out across various aspects, including enhancing employee competencies and capabilities, as well as improving BSI's financial performance to strengthen its competitiveness in the global market. In 2024, BSI will continue to move forward and transform towards a new era that is more advanced, innovative and in line with the needs of the times. BSI strives to continue to develop, strengthen its position in the market, and become more relevant to technological developments, economic dynamics, and the public's desire for more modern and sustainable banking products.

BSI has carried out digital transformation and innovation in products and services. This bank is committed to providing services that are more efficient and more in line with technological developments. To be able to adapt to global trends and existing challenges, the bank is making innovations in sharia financial products, sustainability, as well as efforts to reach more new customers, especially through digital platforms. The various transformations that the bank has carried out in 2024 have achieved good performance in terms of asset growth, increased profits, as well as wider expansion throughout Indonesia and the global market. Going forward, the bank will be able to strengthen its competitiveness in both the domestic and international sharia banking markets. In this way, BSI is increasingly recognized as a superior sharia bank, which is able to compete with conventional banks and other financial institutions.

## THEME CONTINUITY

2023

Expanding, Accelerating,  
Sustainable Growth

The year 2023 marks a significant milestone for Bank Syariah Indonesia (BSI). On August 17, 2023, the Bank upgraded its representative office in Dubai, United Arab Emirates, to a full branch office. This change in status will greatly help BSI expand and maximize its global market potential. This strategic policy is projected to help the Bank accomplish its goal of being a "Top 10 Global Islamic Bank".

The Bank's expansion extends beyond the improvement of its international operational network and finance disbursement. Acceleration activities continue to be carried out by developing digital services to give clients with the most comprehensive, secure, and convenient services while expanding market access. The Bank continues to ensure the security and confidentiality of data from digital access through the implementation of governance and risk management in information technology.

In order to support these expansion and acceleration operations, BSI created Business Continuity Management (BCM) procedures and reinforced its organizational management. BSI anticipates that the strategic policies and achievements in 2023 will contribute to higher growth in the Bank's performance.

The many initiatives and innovations implemented have resulted in continuous, balanced, and long-term performance growth for BSI. This is also a positive step in boosting the national economy.

At the same time, as Indonesia's largest Sharia bank, BSI continues to develop and help MSMEs in progressing to the next level. The Bank is also working to strengthen the "Islamic Ecosystem" in order to become more competitive on a global scale.

2022

Collaboration to  
Accelerate Growth

The year 2022 marks the first full year of PT Bank Syariah Indonesia Tbk's ("BSI") operations to be conducted comprehensively and integrative, following the establishment of "Operational Day 1" on November 1, 2021. Throughout the year, BSI consistently built synergies between the strengths of three large Islamic banks into one, both in terms of capital, information technology, service infrastructure and a variety of products and services. BSI also moved quickly to collaborate with various elements in Indonesia's Islamic economic ecosystem. These synergy and collaboration steps have proven to be able to drive BSI's performance to a satisfactory level, as the spearhead

2021

New Energy  
for Indonesia

PT Bank Syariah Indonesia Tbk (BSI) is just one year old, being formed by the merging of 3 (three) Islamic banks that are members of the Association of State-Owned Banks (Himbara). The establishment of this bank on February 1, 2021, was immediately inaugurated by President Ir. H. Joko Widodo at the State Palace.

BSI has accomplished incredible things at such a young age. The average financial performance increased. The integration of legacy banks' operating functions is also going well. BSI has also opened a representative office in Dubai, the world's financial capital.

All of this is due to the hard work, innovation, and dedication of all BSI employees, as well as the support of stakeholders, who enable the Bank to provide excellent services. On this foundation, we will all strengthen our commitment and renew our passion to make Bank Syariah Indonesia stronger so that it can become New Energy for Indonesia.

### Shareholder composition

## Bullion Bank License – 2025

BSI Leads Gold Market Transformation as Indonesia's first Bullion Bank

New Customer

New Income

New Business

**BSI strengthened its strategic advantage as Indonesia's first bullion bank, supported by robust growth in gold financing and the scaling-up of its digital gold offering as of December 2025.**

Gold Installment recorded 358,400 new customers with disbursement reaching IDR 14,413 billion, while Gold Pawning added 21,623 new customers with disbursement of IDR 32,478 billion. This expansion lifted Gold Installment interest income to IDR 769 billion (+126.84% YoY) and increased Gold Pawning fee-based income to IDR 1,398 billion (+50.32% YoY). Digital Gold further reinforced BSI's gold ecosystem by adding 531,229 new customers (+417.28% YTD), increasing gold balance to 1,844 kg (+315.44% YTD), and raising fee-based income to IDR 270.13 billion (+2,271.64% YoY), underscoring the new value created through BSI's Bullion Bank services.

**Collectively, these achievements underscore the expansion of BSI's gold ecosystem and the new value created through its Bullion Bank proposition.**

# BYOND

**BYOND makes gold investment accessible to everyone, offering ownership starting from Rp50,000 and physical gold printing from 2 grams.**

The platform enables seamless gram-based transactions with real-time buy and sell available 24/7. Its value proposition focuses on affordability, liquidity, and safety, supported by competitive pricing, trusted and secure processes, physical gold backing, and a hassle-free user experience.

## BYOND – Bringing Gold Investment Closer to Everyone

Gold ownership starts from **IDR 50,000**

Print gold starts from **2 gram**

**Realtime** Buy & Sell Available **24/7**

**Seamless** Rp Grams Transaction

### AFFORDABILITY, LIQUID & SAFETY

**Competitive** Pricing

Trusted, Authentic **Safe & Secure**

Backed by **physical gold**

**Hassle Free**

**BSI continued to strengthen low-cost funding through Hajj Savings, supported by the expanding national Hajj ecosystem and stronger customer acquisition via digital channels.** This momentum broadened BSI's customer base, with total customers rising from 17.78 million in 2022 to 23.14 million in 2025. The growth was primarily driven by Hajj Savings reaching 6.63 million customers, digital gold with 531 thousand customers, and gold financing serving 681 thousand customers. The expansion of this ecosystem also enhanced BSI's appeal to both Muslim and non-Muslim customers, as reflected in the increase in the share of non-Muslim customers from 9.01% to 13.30%.

## Dual-Licensed Platform Unlocks Strong, Multi-Year Customer Expansion

Dual-Licensed Platform Unlocks Strong, Multi-Year Customer Expansion

Growing participation from non-Muslim customer

**As part of Bank Syariah Indonesia's (BSI) social commitment, the distribution of social and religious funds is carried out in a structured manner through BSI Maslahat as the Bank's partner in managing Zakat, Infaq, Sadaqah, and Waqf (ZISWAF), ensuring that BSI's social contributions deliver measurable, targeted, and sustainable impact.** During the reporting period, BSI Maslahat channeled ZISWAF funds across five priority areas, education amounting to Rp114.8 billion, healthcare Rp11.8 billion, social empowerment Rp148.8 billion, economic development Rp26.4 billion, and Islamic programs Rp38.2 billion, collectively reaching tens of hundreds of beneficiaries across Indonesia. In line with this, the distribution of zakat funds to zakat management entities continued to show an upward trend, from Rp268 billion in 2024 to Rp316 billion as of December 2025, bringing the total to Rp1,103 billion since 2021, reflecting BSI's increasingly solid financial performance while further strengthening the Bank's role in promoting social welfare and sustainable development through the trustworthy and professional management of ZISWAF.

## Progressive Contribution to Indonesia

### BSI MASLAHAT

BSI Maslahat serves as BSI's vehicle for ZISWAF (Zakat, Infaq, Sadaqah, and Waqf) distribution, focusing on the following areas:

### Zakat Distribution

The distribution of zakat funds in 2025 increased in line with the rise in recorded profitability.

BSI's ESG progress continues to strengthen across banking, operations, and social outreach. The sustainable financing portfolio reaches **Rp73.92 trillion**, consisting of Rp15.66 trillion in green financing, Rp58.26 trillion in social financing, and Rp396 billion in electric vehicle financing, supported by the issuance of Rp5 trillion Sustainability Sukuk Phase II. **Operational initiatives included the launch of the BSI Landmark Aceh and BSI Tower green buildings, the installation of solar panels, recycling machines, electric charging stations, and the operation of 144 electric vehicles**, accompanied by the launch of digital carbon tracking for Scope 1 and Scope 2 emissions. BSI also enhanced data privacy, cybersecurity compliance, and gender inclusivity, with women accounting for 41% of employees. **Furthermore, beyond banking collaborated with BSI Maslahat to distribute Rp400 billion.**

**BSI continues to strengthen the implementation of sustainable finance in line with POJK No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Service Institutions, Issuers, and Public Companies, as reflected in the steady growth of social- and green-based financing. The composition of the green financing portfolio demonstrates significant contributions across various environmental segments.** As of December 2025, the Company's green financing portfolio was primarily driven by eco-efficient products at 41.15%, followed by management of biological natural resources and sustainable land use at 36.90%, eco-friendly business operations and related activities at 10.14%, green transportation at 6.05%, renewable energy at 4.54%, sustainable buildings compliant with recognized standards at 0.65%, and sustainable water and wastewater management at 0.58%. This composition reflects BSI's commitment to strengthening environmental and social impact through a diversified sustainable financing portfolio.

On 20 June 2025, the Bank reissued the Long-Term Restricted Mudharabah Sukuk Without Public Offering I PT Bank BSI Tbk Year 2025 Phase IV ("Sukuk Mudharabah Muqayyadah I Phase IV") with a nominal value of Rp8,260. The total ceiling for Muqayyadah Mudharabah Sukuk issuance is Rp100,000. The respective nisbah are 36.34%, 19.75%, 19.84%, and 20.32%, which is indicated at 0.55% per year. Sukuk funds and profit sharing are paid every 3 (three) months and will mature on 26 December 2035, 26 June 2036, 20 December 2036 and 20 March 2038, respectively.

The issuance of the sukuk was carried out in the context of cooperation between the Bank and BP Tapera as the sole investor where BSI was appointed as the Bank that distributes Tapera Syariah KPR to BP Tapera participants. This cooperation scheme is regulated in Law No. 4 Year 2016 and Government Regulation No. 25 Year 2020 concerning the implementation of public housing savings. The Bank has paid the profit sharing on schedule as stated in the issuance agreement. The profit sharing for sukuk mudharabah muqayyadah for the nine-months period ended 31 December 2025 and 2024 are Rp128 and Rp55, respectively.

## ISSUED MUDHARABAH SUKUK

On 30 June 2025, Continuous Sustainability Sukuk Mudharabah Phase II issued through a public offering was listed on the Indonesia Stock Exchange (IDX). The Continuous Sustainability Sukuk Mudharabah I Bank BSI Phase II Year 2025 was issued without script, except for the Sukuk Mudharabah Jumbo Certificate which was issued to be registered in the name of KSEI as proof of ownership for the benefit of the sukuk mudharabah holders. The Continuous Sustainability Sukuk Mudharabah I Bank BSI Phase II Year 2025 was issued with a rating of idAAA(sy) (Triple A Sharia).

The amount of Continuous Sustainability Sukuk Mudharabah I Bank BSI Phase II Year 2025 is Rp5,000,000, consisting of:

- Series A Sukuk Mudharabah with total mudharabah sukuk funds of Rp2,445,000 with a term of 370 calendar days from the issuance date and will mature on 6 July 2026;
- Series B Sukuk Mudharabah with total mudharabah sukuk funds of Rp175,000 with a term of 2 (two) years from the issuance date and will mature on 26 June 2027; and
- Series C Sukuk Mudharabah with total sukuk mudharabah funds amounting to Rp2,380,000 with a term of 3 (three) years from the issuance date and will mature on 26 June 2028.

Acting as trustee of Continuous Sustainability Sukuk Mudharabah I Bank BSI Phase II Year 2025 is PT Bank Tabungan Negara (Persero) Tbk. The Bank has paid the profit sharing on schedule as stated in the issuance agreement. The profit sharing for continuous sustainability sukuk for the year ended on 31 December 2025 and 2024 are Rp311,400 and Rp108,999, respectively.

Detailed on this Continuous Sustainability Sukuk Mudharabah Phase II issued is presented in the appendix of Financial Statements Note 28 in this Annual Report.

## TEMPORARY TRADING SUSPENSION AND/OR DELISTING

As of December 31, 2025, BSI has never been subject to any trading suspension or delisting sanctions from the stock exchange.

## MANAGEMENT REPORTS

With clear vision and strong leadership, BSI moved through every dynamic with optimism and prudence. Management's commitment remained the main force in sustaining growth that is sound, sustainable, and meaningful.

## BOARD OF COMMISSIONERS REPORT

Throughout 2025, the Board of Commissioners exercised active oversight from strategy formulation to execution, ensuring that BSI's grand strategy and key initiatives were implemented in alignment with regulations, sound risk management, sharia principles, and ESG commitments. Through structured engagements with the Board of Directors and the supporting Committees, the Board of Commissioners provided timely guidance and constructive oversight to safeguard sustainable value creation. We commend the Board of Directors for disciplined strategy execution and solid performance delivery, while encouraging continued prudence and execution excellence in navigating the evolving landscape.

## BOARD OF COMMISSIONERS REPORT

DISTINGUISHED SHAREHOLDERS AND  
STAKEHOLDERS,**Assalamu'alaikum Warahmatullahi  
Wabarakatuh**

We express our gratitude to Allah SWT for His grace and blessings, through which the Company successfully navigated 2025 with increasingly solid performance and sustained business growth. During the reporting period, the Board of Commissioners continued to strengthen its synergy with the Board of Directors in enhancing BSI's capacity and capabilities as the largest Islamic bank in Indonesia.

The Board of Commissioners fully supported the Board of Directors' strategic initiatives to strengthen the halal economic and financial ecosystem, which contributes to national economic growth. These efforts were accompanied by the implementation of sustainability aspects through social and environmental responsibility programs and the enhancement of corporate governance practices in line with environmental, social, and governance (ESG) principles.

In carrying out its governance responsibilities, the Board of Commissioners consistently performed its oversight function over the management of the Company by the Board of Directors. The Board also provided direction and advice to ensure that the execution of strategic initiatives remained aligned with prevailing regulations and upheld high standards of business ethics.

This report of the Board of Commissioners presents its views on the performance of the Board of Directors, the effectiveness of governance implementation throughout the reporting year, and the assessment of the Company's business prospects. The preparation of this report reflects the Board of Commissioners' commitment to transparency and accountability in fulfilling the mandate entrusted by the shareholders.

**BOARD OF DIRECTORS' PERFORMANCE  
ASSESSMENT**

In assessing the performance of the Board of Directors throughout 2025, the Board of Commissioners applied objective and measurable parameters, including the implementation of resolutions of the General Meeting of Shareholders (GMS), execution of the Company's grand strategy and key strategic initiatives, achievement of Key Performance Indicator (KPI) targets, and implementation of sustainability aspects covering environmental, social, and governance dimensions. The assessment also considered developments in the global and domestic landscape, competition within the national Islamic banking industry, and the impact of monetary and fiscal policies on management decisions and the Company's overall performance.

In the context of business management, the Board of Commissioners considers that the Board of Directors has effectively consolidated the management of the Company's five business segments, namely Corporate Banking, Commercial Banking, Institutional Relations, Retail, as well as Treasury and Head Office, enabling each segment to function as a measurable and accountable growth engine. This business management practice is supported by the recording of business acquisition based on segment-specific business codes, as well as inter-segment collaboration through wholesale-retail and retail-retail strategies that are monitored and reported regularly in monthly performance achievement meetings.

During 2025, the global economy faced heightened uncertainty, including the impact of reciprocal tariff policies implemented by the United States government toward several trading partners, which exerted pressure on global supply chains. The International Monetary Fund (IMF), in its latest World Economic Outlook, projected global economic growth of 3.3%, relatively unchanged from the previous year, accompanied by moderate inflation and declining prices of crude oil and mining commodities.

A full-body portrait of Muhadjir Effendy, a man with glasses and a black cap, sitting on a black stool. He is wearing a dark blue suit, a light blue shirt, and a light blue tie. His hands are clasped in his lap. The background features a decorative wall with a repeating geometric pattern and a window with a similar pattern on the left. The floor is a light-colored, textured surface.

## BOARD OF COMMISSIONERS REPORT

In global financial markets, the Fed Funds Rate showed a downward trend, reaching 3.50%–3.75% by year-end, signaling the end of the monetary tightening phase and the beginning of global liquidity easing.

Amid these global conditions, Indonesia's economy demonstrated strong resilience. Based on data from Statistics Indonesia (Badan Pusat Statistik), the national economy grew by 5.11%, supported by increased domestic demand, investment, government spending, as well as export performance. From the expenditure side, growth was mainly supported by household consumption and Gross Fixed Capital Formation (GFCF), which cumulatively contributed 1.58% to economic growth, with household consumption growing by 5.11% in line with maintained purchasing power and controlled inflation at 2.92%. Investment also recorded year-on-year growth of 12.7% with realization reaching Rp1,931.2 trillion, driven by the downstreaming program, which contributed significantly to total investment.

Real exports of goods and services increased by 3.25% year-on-year, contributing to a trade surplus and strengthening foreign exchange reserves to US\$156.5 billion at year-end. From the production perspective, the other service and corporate service sectors, as the largest contributors to the national economy, grew by 9.93% and 9.10%, respectively. Meanwhile, to maintain exchange rate stability amid external pressures, Bank Indonesia reduced the benchmark interest rate to 4.75%, supporting the Rupiah's stability, which depreciated by 3.48% against the US dollar during the year.

In line with stable domestic economic conditions, the national Islamic banking industry recorded positive growth, with total assets reaching Rp1,067 trillion, increasing by 8.92% year-on-year. Intermediation functions also improved, as reflected in financing growth of 9.58% to Rp705.2 trillion and third-party funds increasing by 10.14% to Rp830 trillion. Industry resilience was supported by adaptability to market needs through digital service innovation, improved efficiency in industry structure, and the development of Islamic investment instruments such as the Sharia Restricted Investment Account (SRIA).

Within this dynamic external environment, the Board of Commissioners considers that the Board of Directors successfully implemented the Company's grand strategy by optimizing its dual license as both an Islamic Bank and a Gold Bank, thereby strengthening the Company's capacity and capabilities within the national banking industry. The implementation of key strategies focused on low-cost fund acquisition, asset quality maintenance, and productivity improvement was carried out in a disciplined manner, supported by service innovation, professional human resources, and ongoing digital transformation.

In line with the Company's new role as a Bullion Bank, the Board of Commissioners also exercised intensive oversight over the development of the gold business, both through monthly performance evaluation meetings with the Board of Directors and through quarterly joint meetings with the Board of Directors and the Sharia Supervisory Board. In addition, the Board of Commissioners held dedicated discussions with the director overseeing the gold business and the director overseeing risk management to ensure that all risks arising from the implementation of the gold business had been properly identified and mitigated comprehensively and in line with prudential principles. The Board of Commissioners is of the view that the success of the gold business must also be supported by competent human capital, reliable IT systems, and resilient business processes so that services can be delivered quickly, conveniently, safely, and securely to customers.

Operationally, the Board of Commissioners observed increasing public trust in the Company, as reflected in the growth of its customer base, including expansion within the gold ecosystem following government support through the issuance of the Gold Bank license. The Company also supported government programs by distributing Rp10 trillion in Excess Budget Balance (SAL) funds to strengthen financing in productive sectors and by enhancing the hajj and umrah ecosystem through extensive promotion of Hajj savings programs.

The implementation of the grand strategy and key initiatives contributed to strengthened intermediation performance, with financing reaching Rp318.84 trillion, representing a 14.49%

## BOARD OF COMMISSIONERS REPORT

year-on-year increase, primarily distributed to community-oriented segments. Financing growth was accompanied by maintained asset quality, as reflected in gross Non-Performing Financing (NPF) of 1.81% and net NPF of 0.47%.

On the funding side, third-party funds grew by 16.20% to Rp380 trillion, with a funding structure dominated by low-cost funds (CASA) at 61.62%. Financing and funding growth supported total asset expansion to Rp456 trillion, representing an increase of 11.64% year-on-year. Financing growth and digital service innovation, including the BYOND by BSI mobile banking platform, supported profitability, with income as mudharib increasing to Rp28.26 trillion and other operating income reaching Rp6.94 trillion. Operating profit and net profit increased to Rp10.01 trillion and Rp7.57 trillion, respectively.

In the view of the Board of Commissioners, these achievements reflect the Board of Directors' ability to execute the Bank's strategic focus consistently through monthly monitoring of strategy effectiveness and discussions to address implementation constraints as they arise. In its execution, this direction was further reinforced through the 3-on-3 approach focusing on winning low cost fund, maintaining asset quality, and productivity enhancement in order to sustain healthy and sustainable performance, including strengthening the positioning of the Company's gold business. The Board of Commissioners also noted that the Company faced challenges in maintaining operational efficiency and cash flow stability, particularly in relation to the investment required to enhance the reliability of IT systems and supporting infrastructure, which resulted in higher depreciation expenses, as well as the need for more aggressive promotion amid intense competition and tight liquidity. Nevertheless, through disciplined control and periodic evaluation, the Board of Directors was considered able to maintain the cost efficiency ratio and preserve net profit achievement in line with, and even exceeding, the target. This assessment was also reinforced by reviews of the Bank's bankwide performance by business segment and benchmarking against leading banks in Indonesia and global Islamic banks.

In addition to financial performance, the Board of Commissioners acknowledges the Board of Directors' commitment to implementing strategic ESG initiatives. From an environmental perspective, the Company disbursed sustainable financing of Rp73.92 trillion, primarily allocated to empowering and enhancing the capacity of micro, small, and medium enterprises and green financing initiatives. The Company also implemented various environmentally responsible operational initiatives, including green building development, renewable energy utilization, electric vehicle infrastructure, waste management programs, and digital carbon tracking systems.

From a social perspective, the Board of Directors consistently implemented the Principles for Responsible Banking through various initiatives, including zakat distribution, educational scholarship programs, humanitarian assistance, community empowerment initiatives, healthcare support, and disaster relief programs. These social responsibility programs not only fulfilled regulatory requirements but also strengthened social cohesion and the Company's contribution to society.

Based on performance achievements, strategic implementation, and commitment to sustainability principles, the Board of Commissioners concludes that the Board of Directors carried out its duties and responsibilities very effectively throughout 2025.

In performing its supervisory function, the Board of Commissioners exercised oversight from the strategy formulation stage through implementation through a structured coordination mechanism. At the planning stage, the Board of Commissioners conducted a comprehensive review of the business plan proposed by the Board of Directors by considering its alignment with the Company's vision, mission, long-term objectives, risk profile, and sustainability agenda.

During the implementation stage, progress in performance was reviewed monthly through the Performance Evaluation Meeting Forum involving the Board of Commissioners and the Board of Directors, and quarterly through Joint Meetings among the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board for the

## BOARD OF COMMISSIONERS REPORT

March, June, September, and December reporting periods. In addition, the Board of Commissioners also held follow-up discussions with the relevant directors and special meetings to discuss the Sustainable Finance Action Plan in order to ensure that sustainability initiatives were implemented effectively and supported the execution of the Bank's Business Plan. All such discussions were documented and followed up as part of the implementation of good corporate governance.

### VIEWS ON THE BUSINESS OUTLOOK PREPARED BY THE BOARD OF DIRECTORS

The Board of Commissioners views BSI's business outlook for 2026 as being shaped by several interrelated factors, including global and domestic economic conditions, developments in the banking industry, regulatory changes, and the pace of digital technology adoption.

From the global perspective, economic conditions are expected to remain subject to elevated uncertainty, driven primarily by strengthening trade protectionism and ongoing geopolitical tensions. US import tariff policies may shift at any time and could disrupt global supply chains and international trade flows. Geopolitical risks also persist in several regions, including the Russia-Ukraine conflict and the Middle East. In addition, fiscal pressures in a number of countries may constrain the pace of global recovery. In line with these conditions, the IMF, in its latest World Economic Outlook, projects global economic growth of 3.1% in 2026, lower than the prior year's realized growth.

Against this backdrop, gold is expected to remain a relevant hedge asset amid global uncertainty. While price increases are projected to be more moderate than in the previous year, central banks worldwide are expected to continue expanding gold reserves as part of strengthening monetary resilience.

Domestically, several multilateral institutions, including the IMF and the World Bank, expect Indonesia's economy to grow at a stable pace in 2026. The Government targets economic growth of 5.4%, supported by downstreaming

initiatives in large-scale strategic projects across manufacturing, energy, and agriculture. This outlook is accompanied by an inflation target of  $2.5\% \pm 1\%$  and a stable Rupiah exchange rate in the range of Rp16,500 per US dollar.

Consistent with these projections, Bank Indonesia expects banking financing to grow within the range of 8%–12% in 2026, while maintaining sound financing quality. Within the same context, BSI projects total Islamic banking assets to reach Rp1,205 trillion, with financing of approximately Rp794 trillion, growing by nearly 11.9%, and third-party funds (TPF) reaching Rp952.9 trillion, growing by 12.55%.

The halal ecosystem is also expected to sustain its growth trajectory. Domestic halal product consumption is projected to reach US\$259.8 billion in 2026, growing by approximately 5.88% and contributing more than 30% of national household consumption. On the export side, halal products are estimated to account for around 20% of Indonesia's total non-oil-and-gas exports and are projected to increase to US\$73.9 billion, growing by approximately 8.73%, including contributions from non-palm-oil exports.

To optimize these growth opportunities, the Board of Directors has maintained BSI's focus as a provider of financial, social, and spiritual solutions through the development of an Islamic ecosystem tailored to targeted segments. In its implementation, the Board of Directors has consolidated the management of all of the Company's key business segments in an integrated manner, enabling business growth, service enhancement, and profitability improvement to progress in line with customer needs and the Company's business development direction.

The performance of these core segments is expected to be supported by enhanced service infrastructure, including the development of physical platforms such as branches and BSI Agents, as well as electronic channels such as BYOND by BSI, BEWIZE, ATM, EDC, and QRIS, complemented by inorganic platforms and subsidiaries. Internally, continued efforts to improve workforce productivity and competencies are also positioned to support the achievement of business targets.

## BOARD OF COMMISSIONERS REPORT

Based on these considerations, the Board of Commissioners expresses full support for BSI's 2026 business outlook as prepared by the Board of Directors. The Board of Commissioners considers that the outlook reflects the Company's efforts to optimize its comparative and competitive advantages and remains aligned with the Government's Asta Cita priority agenda. At the same time, the Board of Commissioners advises that this optimism be accompanied by prudence, with due attention to potential risks that may affect performance realization.

In addition, the Board of Commissioners considers that the Company's readiness to capture future opportunities in the sustainability sector remains well maintained through its 2026–2030 medium-term strategic direction, namely to become a Top 5 Global Islamic Bank by Market Capitalisation. This direction is supported by four strategic pillars, namely Unique Syariah Business, Wholesale-Retail-Consumer & Transactional Business, Gold Business, and Integrated Islamic Financial Services, with ES-GRC serving as an enabler to safeguard governance quality, profitability, and the sustainability of growth. In developing the gold business, the Board of Commissioners also considers that the Board of Directors has demonstrated progressive steps through the strengthening of bullion business licensing, the expansion of supplier cooperation, the provision of a gold savings platform on BYOND by BSI, and the expansion of customer gold storage capacity. In line with this, the Board of Commissioners recommends that the Bank's strategy remain adaptive to global dynamics, macroeconomic and geopolitical risks, and decarbonization trends, while continuing to strengthen the Islamic ecosystem and sustainable financing in line with sharia principles and ESG.

### VIEWS ON THE BANK GOVERNANCE IMPLEMENTATION

The Board of Commissioners considers that BSI has consistently implemented the principles of Good Corporate Governance (GCG) across all operational activities as a foundation for sustainable business growth. In performing its supervisory role, the Board of Commissioners ensures that the management of the Bank by the Board of Directors

complies with internal policies, prevailing laws and regulations, and established business ethics. The implementation of GCG at BSI is reflected in the following governance components.

#### Effectiveness of Sharia Principles Implementation

BSI continues to enhance the effectiveness of Sharia governance through the implementation of the roles and responsibilities of the Sharia Supervisory Board, strengthening Sharia compliance functions, applying Sharia risk management, conducting Sharia internal audits, and performing external reviews of Sharia governance practices. In this regard, the Board of Commissioners maintains close coordination with the Board of Directors and the Sharia Supervisory Board to ensure effective implementation of Sharia principles in accordance with applicable requirements. The strengthening of sharia governance was also directed to remain aligned with the implementation of POJK No. 2 of 2024 and SEOJK No. 15/SEOJK.03/2024 concerning the Implementation of Sharia Governance for Islamic Commercial Banks and Sharia Business Units, including through the strengthening of the Sharia Combine Assurance initiative and the expansion of the Syariah Compliance Dashboard implementation at the bankwide level.

#### Risk Management

BSI has implemented an integrated risk management framework and conducts periodic evaluations of its effectiveness. The Bank also promotes risk awareness across all organizational levels to strengthen its risk culture. Based on reviews and discussions with Management, the Risk Monitoring Committee, the Audit Committee, Internal Audit, External Auditors, and related units, the Board of Directors and the Board of Commissioners concluded that risk management implementation in 2025 was effective.

In risk management, the Board of Commissioners considers that the effectiveness of the Company's risk management framework is also supported by the role of the Risk Management Committee as a strategic oversight forum and the Risk Management Work Unit as the executor of policy in day-to-day operations. In line with the obligation to implement the Sustainable Finance Action Plan and strengthen sustainability objectives, the Company has begun integrating sustainability

## BOARD OF COMMISSIONERS REPORT

risk into its Enterprise Risk Management framework, adjusting risk limits in relevant sectors, strengthening financing due diligence, and encouraging the development of products and financing that support a sustainable transition. The Board of Commissioners also encourages periodic policy updates, the conduct of stress tests on key risks, and the strengthening of human capital competence and IT support in order to maintain the effectiveness of risk management implementation.

### Internal Control System

The implementation of BSI's Internal Control System is aligned with POJK No. 35/SEOJK.03/2017 concerning Standard Guidelines for Internal Control Systems for Commercial Banks. The system is reflected in internal control policies based on the COSO model, covering the control environment, objective setting, event identification, risk assessment, risk response, control activities, information and communication, and monitoring.

The Board of Directors is responsible for ensuring the implementation of a reliable and effective internal control system, including strengthening risk awareness throughout the organization. Internal Audit is responsible for evaluating and continuously improving the effectiveness of the internal control system through periodic and incidental audits of all operational activities. Evaluation results are reported to the Board of Directors and the Board of Commissioners for follow-up and oversight. Based on the 2025 evaluation, both Boards concluded that BSI's internal control system operated effectively.

### Whistleblowing System

BSI has implemented a Whistleblowing System (WBS) as a mechanism for preventing and detecting early any actions by management or employees that may adversely affect the Bank. The system regulates reporting procedures, reporting channels, verification processes, and protection for whistleblowers and relevant parties.

The function responsible for managing the WBS reports to the President Director or a designated Director and maintains direct communication and reporting lines to the Board of Commissioners. In its oversight capacity, the Board of Commissioners reviews the results of special audits arising from WBS reports.

The Company also continuously conducted dissemination regarding WBS reporting channels and the anti-gratuity policy to all employees, customers, business partners, and the public through various communication channels. Throughout 2025, the WBS recorded 118 complaints, of which 11 complaints had been followed up, 3 were still in process, 8 had not yet been followed up, and 96 were declared not feasible to be followed up. Of the reports that were followed up, 11 reports were proven and sanctions had been imposed in accordance with the applicable provisions. Based on this, the Board of Commissioners assessed that the implementation of the WBS throughout 2025 operated optimally in supporting the prevention and mitigation of violation risks.

### Sustainability Governance

BSI demonstrates a strong commitment to implementing the objectives of Maqashid Sharia, which include the protection of religion, life, intellect, wealth, lineage, and the environment. Substantively, these principles are aligned with the Sustainable Development Goals (SDGs) and are integrated into environmental, social, and governance (ESG)-based sustainability practices.

To enhance the effectiveness of ESG implementation, BSI has established a sustainability governance structure in accordance with its ESG Guiding Principle. In its implementation, the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board provide active oversight of sustainable finance initiatives, including the preparation of the Sustainable Finance Action Plan, Sustainability Report, and sustainability strategy.

BSI has also strengthened its sustainability governance structure through the establishment of an ESG Working Group under the supervision of Vice President Director, appointment of a Personal Data Protection Officer under the supervision of Director of Compliance and Human Capital, and the formation of an ESG Sub-Committee under the Risk Management Committee. The Company also has developed and issued sustainable finance standard operating procedures and ESG Guiding Principles and established a sustainable finance framework aligned with the Company's sustainability vision.

## BOARD OF COMMISSIONERS REPORT

This framework comprises three strategic pillars: Sustainable Banking, Sustainable Operation, and Sustainable Beyond Banking. The Board of Commissioners considers that BSI continued to enhance the effectiveness of the implementation of these three pillars throughout 2025 in order to generate long-term value for shareholders and deliver benefits to all stakeholders.

The Company has also prepared for and begun implementing climate risk management in alignment with the principles of IFRS S1 (PSPK 1) and IFRS S2 (PSPK 2). These efforts are supported by the establishment of policy instruments and procedures, including the Sustainable Finance Standard Operating Procedure, the ESG Guiding Principle, and the Industry Acceptance Criteria Guideline, as well as the identification and mapping of climate-change impact transmission to credit, market, operational, and liquidity risks. In addition, the Company has carried out the Climate Risk Scenario Analysis initiated by OJK as part of strengthening its climate-risk measurement and management capacity.

### PERFORMANCE ASSESSMENT OF COMMITTEES UNDER THE BOARD OF COMMISSIONERS

In carrying out its supervisory function, the Board of Commissioners is supported by its committees, the Audit Committee, the Risk Monitoring Committee, and the Remuneration and Nomination Committee. The Board conducts annual performance assessments of these committees based on established procedures and objective evaluation criteria.

The Audit Committee assists the Board of Commissioners in overseeing the management of the Bank, particularly with respect to the reliability of financial information, the effectiveness of the internal control system, and the implementation and effectiveness of examinations conducted by internal and external auditors. Throughout 2025, the scope of the Audit Committee's attention also included the evaluation of IT development, the implementation of Internal Control over Financial Reporting (ICOFR), and anti-fraud strategy. The Board of Commissioners considers that the role of the Audit Committee should continue to be strengthened through competency enhancement, including training and certification, as well as

more active communication with Management in supporting accountability and the oversight of sustainability risks.

The Nomination and Remuneration Committee supports the Board of Commissioners in matters related to nomination and remuneration policies for members of the Board of Directors and the Board of Commissioners, ensuring the application of sound governance principles in strategic human capital management. In 2025, the Remuneration and Nomination Committee held 4 meetings and provided recommendations to the Board of Commissioners regarding candidates for the Board of Commissioners and the Board of Directors, including support in analysing candidates from the senior executive level as well as updating the Company's Human Capital policy. The Board of Commissioners considers that this contribution supported leadership continuity, organizational alignment, and the development of a remuneration system that is aligned with the Bank's business transformation needs.

Meanwhile, the Risk Monitoring Committee assists the Board of Commissioners in overseeing and providing recommendations to the Board of Directors regarding the implementation of the Bank's risk management practices, including monitoring the effectiveness of risk management policies and processes. In 2025, the Remuneration and Nomination Committee held 4 meetings and provided recommendations to the Board of Commissioners regarding candidates for the Board of Commissioners and the Board of Directors, including support in analysing candidates from the senior executive level as well as updating the Company's Human Capital policy. The Board of Commissioners considers that this contribution supported leadership continuity, organizational alignment, and the development of a remuneration system that is aligned with the Bank's business transformation needs.

Based on objective procedures and evaluation criteria, the Board of Commissioners concluded that the Audit Committee, the Remuneration and Nomination Committee, and the Risk Monitoring Committee performed their duties and responsibilities effectively throughout 2025 in supporting the Board of Commissioners' supervisory function.

## CHANGES IN THE COMPOSITION OF THE BOARD OF COMMISSIONERS

In 2025, the Company implemented changes to the composition of the Board of Commissioners based on the resolution of the Annual General Meeting of Shareholders (AGMS) for the 2024 financial year, held on May 16, 2025. The changes were made based on the resolution of the GMS as part of adjustments to the governance structure and the strengthening of the Company's supervisory function.

### Composition of the Board of Commissioners of BSI Before the 2024 Financial Year Annual GMS

Prior to the implementation of the Annual General Meeting of Shareholders (AGMS) for the 2024 Financial Year, the composition of the Board of Commissioners of BSI was as follows:

- Muliaman Dharmansyah Hadad, President Commissioner concurrently Independent Commissioner
- Adiwarman Azwar Karim, Vice President Commissioner concurrently Independent Commissioner
- Masduki Baidlowi, Commissioner
- Suyanto, Commissioner
- Abu Rokhmad, Commissioner
- Fauzi, Commissioner
- Nazaruddin, Commissioner
- Komaruddin Hidayat, Independent Commissioner
- Mohamad Nasir, Independent Commissioner
- Felicitas Tallulembang, Independent Commissioner

### Composition of the Board of Commissioners After the 2024 Financial Year Annual GMS

Through the Annual GMS held on May 16, 2025, the shareholders resolved to:

1. Honorably dismiss Muliaman D. Hadad as President Commissioner concurrently Independent Commissioner; Adiwarman Azwar Karim as Vice President Commissioner concurrently Independent Commissioner; Mohamad Nasir and Komaruddin Hidayat as Independent Commissioners; and Suyanto, Masduki Baidlowi, Fauzi, Abu Rokhmad, and Nazaruddin, respectively, as Commissioners.

2. Appoint Muhadjir Effendy as President Commissioner; Nizar Ahmad Saputra, Muhammad Syafii Antonio, and Addin Jauharudin as Independent Commissioners; and Meidy Ferdiansyah, Kamaruddin Amin, and Mochamad Agus Rofiudin as Commissioners.

Following the implementation of the Annual GMS for the 2024 Financial Year, the total number of members of the Board of Commissioners of BSI became 8 (eight) persons, consisting of 1 (one) President Commissioner, 3 (three) Commissioners, and 4 (four) Independent Commissioners. The composition of the Board of Commissioners of BSI after the Annual GMS on May 16, 2025, is as follows:

- Muhadjir Effendy, President Commissioner
- Felicitas Tallulembang, Independent Commissioner
- Kamaruddin Amin, Commissioner
- Mochamad Agus Rofiudin, Commissioner
- Nizar Ahmad Saputra, Independent Commissioner
- Addin Jauharudin, Independent Commissioner
- Muhammad Syafii Antonio\*, Independent Commissioner
- Meidy Ferdiansyah\*, Commissioner

\*Effective after obtaining OJK approval for the fit and proper test.

With this composition, the Board of Commissioners considers that the changes in membership during 2025 have further strengthened the Company's supervisory and governance functions through a complementary combination of backgrounds and experience. Going forward, the Board of Commissioners will also continue to strengthen its strategic oversight capacity, including enhancing its understanding in the areas of sustainable finance, green taxonomy, and the implementation of Sustainability Disclosure Standards that will take effect in January 2027, so that the Company is better prepared to respond to regulatory developments and business needs.

## CLOSING

On behalf of the Board of Commissioners, we extend our appreciation to the Board of Directors for the effective management of the Company throughout 2025. We also express our gratitude to the management team and all employees for their dedication and contributions, which supported the Company in achieving solid performance growth.

The Board of Commissioners further conveys its sincere appreciation to the shareholders for their continued trust and support. We also acknowledge the Government of the Republic of Indonesia for its support, including the granting of a dual license to BSI as an Islamic Bank and a Gold Bank, which has contributed to strengthening the Company's capacity and business development. In addition, we extend our gratitude to all strategic partners, customers, the community, and other stakeholders for their trust and cooperation.

The Board of Commissioners also expresses its appreciation for the contribution of all employees and strategic partners in supporting the success of the Company's sustainability journey. Strengthening performance, supported by human capital competence, stronger IT systems, and robust risk management, constitutes an important foundation for the Company in facing the challenges of 2026 and maintaining healthy, sustainable business growth while delivering benefits to all stakeholders.

Entering 2026, the Company remains committed to its role as a provider of financial, social, and spiritual solutions through the development of the Islamic ecosystem, while supporting the Government's Asta Cita priority programs to advance national economic growth.

May Allah SWT continue to provide guidance and ease in all endeavors undertaken.

## BOARD OF DIRECTORS REPORT

In 2025, BSI's strategy was focused on strengthening capabilities and achieving healthy and sustainable performance through the optimization of its dual licenses as an Islamic Bank and a Bullion Bank. In line with BSI's commitment to providing a one-stop solution for customers' financial, social, and spiritual needs, the dual license strategy became the main foundation for expanding the business and strengthening its competitive differentiation as an Islamic Bank. Disciplined execution across funding, financing, and digital transformation businesses drove solid intermediation growth, resilient asset quality, and sustainable profitability. As the first Bullion Bank in Indonesia, BSI continued to expand customer access to gold investment while supporting the halal ecosystem and the national downstream program. All of these achievements were underpinned by strong governance, prudent risk management, and compliance with Sharia principles.

## BOARD OF DIRECTORS REPORT

DISTINGUISHED SHAREHOLDERS AND  
STAKEHOLDERS,**Assalamualaikum Warahmatullahi  
Wabarakatuh**

We express our gratitude to Allah SWT for His blessings and guidance, which enabled PT Bank Syariah Indonesia (Persero), Tbk (BSI) to navigate the challenges of 2025 while maintaining solid and sustainable performance. Throughout the reporting year, the Company strengthened its intermediation function and profitability, reinforced its capital structure, enhanced customer trust, and continued to implement sustainability principles through the advancement of environmental, social, and governance (ESG) practices.

In line with its business growth, BSI actively contributed to supporting the priority programs of the Government of the Republic of Indonesia under the Asta Cita agenda. These contributions include providing virtual account services for partners of the National Nutrition Agency in the Free Nutritious Meal program, supporting the development of Merah Putih Village/Sub-district Cooperatives, extending financing under the People's Business Credit (Kredit Usaha Rakyat) program, and facilitating Housing Financing Liquidity Facilities to support the development of three million subsidized homes.

To further strengthen its position and competitiveness in the national banking industry, the Company optimized its dual licensing as both an Islamic Bank and a Bullion Bank. As the largest Islamic bank in Indonesia, BSI continues to support the development of the halal economy and Islamic finance ecosystem, including the Hajj and Umrah ecosystem, which has contributed to the expansion of its customer base and growth in low-cost funds (CASA). In addition, through its role as a Bullion Bank, the Company offers various gold-based products that support customers

in preserving asset value while contributing to downstream development initiatives.

The Board of Directors presents this Report as a form of accountability for the mandate entrusted by shareholders and as part of the implementation of good corporate governance principles. This Report outlines the Company's performance achievements, implementation of strategies and key policies, governance practices, and BSI's business outlook.

**BANK PERFORMANCE ANALYSIS**

BSI's performance achievement in 2025 was influenced by the dynamics of the global and domestic business environment. At the global level, rising uncertainty was driven by escalating geopolitical tensions in several regions, including the Russia-Ukraine conflict and the conflict in the Middle East, as well as the reciprocal import tariff policy imposed by the United States Government. These conditions heightened global risks and affected the stability of the world economy.

In its January 2026 World Economic Outlook report, the International Monetary Fund (IMF) projected global economic growth of 3.3% in 2025, relatively stagnant compared to the previous year. These conditions were accompanied by increasing economic fragmentation among countries as well as fiscal risks in several countries related to debt repayment capacity.

The United States economy showed a slowdown, with gross domestic product growth of 2.2% year-on-year in 2025, lower than the growth recorded in the previous year. This slowdown was influenced by the realization of fourth-quarter economic growth of only 1.4% yoy due to the government shutdown, weakening domestic consumption, and the not-yet-optimal recovery of the labor market.

## BOARD OF DIRECTORS REPORT

Moderate global growth conditions with relatively manageable inflationary pressures prompted a number of central banks to lower their benchmark interest rates. Throughout 2025, the European Central Bank lowered its benchmark interest rate four times to 2.15%. Meanwhile, the United States Central Bank (The Federal Reserve) adopted a more cautious policy by beginning to lower the Fed Funds Rate in October 2025, bringing it to the range of 3.50%–3.75% by the end of the year.

Amid these global conditions, Indonesia's economy continued to demonstrate resilient performance. Based on data from Statistics Indonesia, national economic growth reached 5.11% yoy in 2025, driven by stronger domestic demand, increased investment, government spending, and stable export performance. Household consumption became the highest source of growth at 2.62% yoy, followed by Gross Fixed Capital Formation (GFCF) with a growth contribution of 1.58% yoy.

From the production side, the manufacturing, trade, and agriculture sectors were the main contributors to national economic growth, with growth of 5.30% yoy, 5.49% yoy, and 5.33% yoy, respectively. These three sectors contributed the largest share to the domestic economy in line with government policies related to downstreaming, the Free Nutritious Meals (MBG) program, and the expansion of social assistance programs that maintained the purchasing power of lower-middle-income communities.

Meanwhile, several sectors with the highest growth were other services (9.93% yoy), business services (9.10% yoy), and transportation (8.78% yoy). The high growth of these three sectors indicates the continued momentum of increasing mobility, tourism, and the recreational economy such as concerts and other events.

From the monetary policy side, Bank Indonesia lowered its benchmark interest rate by 125 basis points from 6.00% at the beginning of the year to 4.75% at the end of 2025 as an effort to encourage economic growth and maintain Rupiah exchange rate stability amid external pressures.

The policy mix implemented by the authorities also maintained financial system stability and encouraged the growth of the national banking industry. Banking loan disbursement reached Rp8,586 trillion or grew by 9.63% yoy, with most loans disbursed to the manufacturing sector (14.9% of total national banking loans) and trade (14.32%), followed by consumer loans, namely multipurpose loans (11.05%) and mortgages (8.91%). The increase in loan disbursement was accompanied by maintained asset quality, as reflected in a gross Non-Performing Loan (NPL) ratio of 2.05% and a net NPL ratio of 0.79%, as well as a relatively stable Loan at Risk (LaR) of 8.77%.

Third-Party Funds (TPF) collection also showed growth of 13.83% yoy to Rp10,059 trillion, consisting of current accounts, savings, and time deposits, which grew by 19.07% yoy, 8.19% yoy, and 14.28% yoy, respectively. These conditions reflect the public's level of trust in the national banking system. From the capital side, the national banking industry recorded a Capital Adequacy Ratio (CAR) of 25.87% with adequate liquidity, as reflected in a Loan to Deposit Ratio (LDR) of 85.35%.

The national Islamic banking industry also recorded positive growth. As of December 2025, total industry assets reached Rp1,067.73 trillion or grew by 8.92% yoy. Financing disbursement increased to Rp705.22 trillion or grew by 9.58% yoy, while TPF collection reached Rp829.99 trillion or grew by 10.14% yoy on an annual basis. This growth was supported by the implementation of strategic industry policies as well as regulator support in encouraging product innovation and strengthening the Islamic banking portfolio.

In order to strengthen the development of the Islamic banking industry, the Financial Services Authority had previously issued a number of new product guidelines, including Mudharabah Financing Products, the implementation of Sharia Restricted Investment Account (SRIA) with the Mudharabah Muqayyadah contract, as well as the implementation of Cash Waqf Linked Deposit (CWLD).

## BOARD OF DIRECTORS REPORT

Taking into account external dynamics and market conditions, as well as based on internal assessments, BSI set a financing disbursement target of Rp310.36 trillion and a TPF collection target of Rp348.85 trillion in 2025. To support the achievement of these targets, the Company established policies related to the percentage of returns on fund collection and fund disbursement during the reporting year.

### STRATEGIC DIRECTION AND KEY POLICIES FOR 2025

In order to achieve the Company's objectives, in 2025 BSI directed its strategy and strategic policies through the optimization of its dual licenses as an Islamic Bank and a Bullion Bank. The utilization of these licenses provided opportunities for the Company to expand its customer segments, increase industry penetration, and support the downstreaming program for gold commodities in line with government policy.

In optimizing its role as an Islamic bank, the Company facilitated Hajj Savings products as part of its efforts to strengthen a more competitive funding structure. The Company also continued to develop product and service innovations supported by the implementation of digital technologies to enhance the ease, efficiency, and convenience of customer transactions.

As the first Bullion Bank in Indonesia, the Company holds a strategic position in expanding its customer base and supporting the development of the Islamic economic and financial ecosystem. Gold-based products, including Gold Pawn and Gold Installment financing, provide customers with alternative solutions to preserve asset value and optimize investment management amid fluctuations in gold prices.

The implementation of this grand strategy was carried out through key initiatives focusing on strengthening a competitive funding structure (winning low-cost funds), maintaining asset quality, and improving productivity.

Efforts to strengthen the funding structure were undertaken through the enhancement of transaction solutions, optimization of dual licensing, and expansion of retail funding. The provision of reliable, accessible, and convenient banking transaction services was supported by ongoing digital transformation initiatives, including the development of the BYOND by BSI SuperApp, which contributed to the growth of fee-based income. In addition, the Company gradually shifted transactions from branch offices to electronic and digital channels while advancing the digitalization of business processes.

The Company also leveraged its competitive advantage as a dual license holder by developing innovative gold-based products, including BSI Gold Installment and BSI Gold Pawn, which support the growth of low-cost funds. Furthermore, the Company strengthened its savings portfolio through retail funding expansion and explored long-term funding sources, including the issuance of sustainable sukuk.

In parallel with strengthening its funding structure, the Company maintained asset quality by prioritizing financing activities that deliver optimal value while adhering to prudent principles. Throughout the reporting year, financing was primarily directed toward six priority sectors, namely consumer or household, education, social and religious activities, government, healthcare, and portfolio investment sectors.

The expansion of financing in productive and consumer sectors was accompanied by the management of non-performing financing in accordance with sharia principles and applicable regulations. In its implementation, the Company emphasized solution-oriented approaches, including financing restructuring, while maintaining customer interests and business sustainability.

The Company also continued to adapt to developments in digital systems and services following system upgrades, including the utilization of platforms such as BYOND by BSI and BSI Net to support seamless transaction processing and operational activities.

## BOARD OF DIRECTORS REPORT

From a productivity perspective, performance improvements were pursued through the optimization of the Company's infrastructure and business network. This strategy was implemented through workforce realignment to strengthen business functions, accompanied by initiatives to enhance employee skills and competencies. The Company also continued to develop its digital technology systems and infrastructure, including the enhancement of features within the BYOND by BSI SuperApp to improve the customer experience.

In addition, productivity improvements were supported by communication and promotional activities related to the Company's products and services to enhance public awareness and understanding of the Company's offerings.

### Role of the Board of Directors in Formulating and Implementing Strategic Policies

In order to achieve the Company's objectives, in 2025 BSI directed its strategy and strategic policies through the optimization of its dual licenses as an Islamic Bank and a Bullion Bank. The utilization of these licenses provided opportunities for the Company to expand its customer segments, increase industry penetration, and support the downstream program for gold commodities in line with government policy.

In performing its strategic function, the Board of Directors undertakes all actions related to the management of the Company in accordance with its objectives and business purpose. The Board establishes policies deemed appropriate for the management of the Company, including human capital management, operational policies, and the implementation of business activities, while adhering to the Company's Articles of Association, resolutions of the General Meeting of Shareholders, and prevailing laws and regulations.

Furthermore, the Board of Directors is responsible for preparing the Company's long-term plans and work plans, ensuring that business activities are conducted in line with corporate objectives, and preparing reports as part of its accountability to shareholders and stakeholders. These

responsibilities are carried out in accordance with principles of professionalism, transparency, accountability, and prudence in decision-making processes.

### Process of the Board of Directors in Ensuring Strategy Implementation

To ensure the effective implementation of the Company's strategy, the Board of Directors performs its management function by establishing governance policies and overseeing the execution of business activities in accordance with corporate policies and applicable regulations. The Board ensures that operational execution remains aligned with the Company's strategic direction and supports the sustainable achievement of corporate objectives.

The Board of Directors also monitors and evaluates the implementation of policies and business activities through structured management and control mechanisms. In performing this function, the Board provides periodic reports to the Board of Commissioners, delivers necessary explanations, and ensures the adequacy of internal control systems and corporate administration as part of the overall governance and accountability framework.

In addition, to support the effective implementation of strategic initiatives and policies, the Board of Directors may establish committees and conduct periodic performance assessments. The Board also ensures transparency in organizational management, including the disclosure of strategic policies related to human capital management, as part of its efforts to maintain effective strategy execution and sound corporate governance practices.

## BOARD OF DIRECTORS REPORT

### ACHIEVEMENT OF 2025 PERFORMANCE TARGETS

The effective implementation of strategic initiatives and policies contributed to BSI solid and sustainable performance growth throughout 2025. These achievements were reflected in the Company's operational and financial performance, demonstrating strengthened intermediation functions, maintained asset quality, and improved profitability in line with the Company's strategic direction.

#### Operational and Financial Performance

Amid the challenging macroeconomic conditions in 2025, the intermediation function of PT Bank Syariah Indonesia Tbk (BSI) throughout 2025 continued to operate optimally. The Company succeeded in disbursing financing amounting to Rp318.84 trillion, or growing by 14.49% yoy. The financing disbursement was distributed across the Wholesale, Retail, and Consumer segments, while continuing to prioritize segments capable of providing optimal returns with maintained financing quality. This was reflected in the well-maintained asset quality, as indicated by a gross Non-Performing Financing (NPF) ratio of 1.81%, or improving compared to 1.90% in 2024, and a net NPF ratio of 0.47% in 2025. This achievement demonstrates the effectiveness of disciplined risk management implementation, in line with business segmentation and customer risk profiles managed prudently.

From the fund collection side, the Company recorded Third-Party Funds (TPF) of Rp380.49 trillion, or an increase of 16.20% yoy. This growth was mainly supported by the increase in low-cost funds (Current Account Saving Account/CASA), which reached Rp234.45 trillion or 61.62% of total TPF. The largest contribution came from savings products, which reached Rp162.63 trillion in 2025, growing by 15.72% compared to the previous year. This solid fund collection performance also supported the growth of the Company's assets, which reached Rp456.19 trillion or increased by 11.64% yoy. Meanwhile, the equity position also strengthened to Rp51.95 trillion or increased by 15.34% yoy, reflecting the Bank's increasingly stronger financial fundamentals.

Healthy financing growth as well as increased digital transaction activity also drove the increase in the Company's income. In 2025, the Bank's income was recorded at Rp19.04 trillion or increased by 9.93% yoy. In addition, other operating income or fee-based income derived from e-channel services, gold business, treasury, mutual funds and bancassurance, trade services, as well as other commission-based income sources reached Rp6.90 trillion or grew by 25.06% yoy. Along with increased organizational productivity and operational efficiency supported by digital transformation, BSI succeeded in recording a net profit of Rp7.57 trillion in 2025 or growing by 8.02% compared to the previous year.

The Company's financial performance was also reflected in profitability ratios that remained at healthy levels throughout the reporting period. Return on Assets (ROA) was recorded at 2.38%, Return on Equity (ROE) at 16.85%, and Net Imbalan (NI) at 5.59%. In addition, the Bank's capital and liquidity conditions remained strong and adequate to support business expansion, as reflected in a capital adequacy ratio (KPMM) of 22% and a Financing to Deposit Ratio (FDR) of 83.74%. These achievements indicate that the Company was able to maintain a balance between business growth, profitability, and sustainable risk management.

#### Comparison Between Achieved Results and Targets

In 2025, PT Bank Syariah Indonesia (persero), Tbk (BSI) recorded performance achievements reflecting the effective implementation of its business strategies and policies. These results demonstrate strengthened performance across key indicators under the Board of Directors' oversight, particularly in maintaining business growth, strengthening the Company's financial structure, and generating value for stakeholders.

From the intermediation function side, the Company realized financing disbursement of Rp318.84 trillion and Third-Party Funds (TPF) collection of Rp380.49 trillion. These achievements reflect the Company's consistency in expanding financing selectively and prudently, as well as the effectiveness of its funding strategy in

## BOARD OF DIRECTORS REPORT

maintaining liquidity and operational stability. From the operational performance side, the Bank's income was realized at Rp19.04 trillion, while net profit reached Rp7.57 trillion, demonstrating the Company's ability to maintain operational stability and profitability amid the dynamics of the economy and the banking industry. The Company's financial position also showed strengthening, with total assets reaching Rp456.19 trillion, reflecting an increase in the Company's business capacity.

Apart from financial performance, the Company was supported by extensive infrastructure and service networks. As of December 31, 2025, the Company operated 1,049 branches, approximately 6 thousand ATM/CRM units, and 126 thousand laku pandai services (BSI Agents). The Company also collaborated with 21 thousand EDC merchants and 563 thousand QRIS merchants. The strengthening of digital services was reflected in 5.9 million users of the BYOND by BSI mobile banking application and 43 thousand users of the BEWIZE application. As of the end of the reporting year, the Company served 23.1 million customers.

In addition, the Company also gained the trust of the Government through the Ministry of Finance of the Republic of Indonesia to channel funds from the Budget Surplus Balance (Saldo Anggaran Lebih/SAL) as part of efforts to support the strengthening of financing for productive sectors and to encourage national economic growth. In 2025, BSI obtained an SAL fund allocation of Rp10 trillion, which was disbursed to various productive financing sectors, particularly business segments that make significant contributions to economic activity and value creation. The disbursement of these funds reflects BSI's strategic role as a government partner in expanding access to financing and strengthening Islamic banking intermediation in support of national economic development.

Through the utilization of these SAL funds, the Company also contributed to encouraging increased business activity, strengthening the resilience of the real sector, and expanding the impact of inclusive and sustainable financing. Overall, the Company's performance achievements

throughout 2025 reflect BSI's consistency in maintaining a balance between business growth, asset quality, and profitability levels, while also ensuring operational stability and supporting the sustainable implementation of the Company's business strategy.

### CHALLENGES AND MITIGATIONS

In developing its business activities throughout 2025, BSI encountered several challenges arising from industry dynamics and market conditions. One of the primary challenges relates to the relatively limited level of public literacy in Islamic finance compared to the conventional financial system. This condition affects demand for Islamic banking products and services and requires continuous efforts to enhance public understanding of Sharia financial principles and benefits.

In response to this challenge, the Company, both independently and in collaboration with industry participants, continued to conduct various initiatives to promote sharia financial literacy, including exhibitions, seminars, and other educational programs. These efforts were undertaken to support greater financial inclusion and strengthen the Company's customer base.

In addition, the Company faced increasingly intense competition within the banking industry, particularly in fund mobilization. To address this challenge, the Company strengthened its transaction solutions supported by digital transformation initiatives, including the development of the BYOND by BSI SuperApp, while optimizing its competitive advantages through its dual licensing as an Islamic Bank and a Bullion Bank.

## BOARD OF DIRECTORS REPORT

### BUSINESS OUTLOOK

The Company views that global uncertainty is expected to continue in line with geopolitical dynamics that have yet to subside, including the Russia-Ukraine conflict and tensions in the Middle East region. However, the trend of global trade protectionism is expected to gradually ease as a number of trade agreements are reached, helping to reduce the escalation of global risks. In its January 2026 World Economic Outlook report, the International Monetary Fund (IMF) revised upward its projections for global economic growth in 2025 and 2026. This change was supported by investment in the technology sector, looser and more accommodative monetary and fiscal policy support, as well as the adaptability of the private sector. In this context, global economic growth in 2026 is projected at 3.3%, relatively stable compared to the previous year.

Amid global challenges, Indonesia's economy is projected to remain resilient, with a growth target of 5.4% in 2026, higher than the 5.11% growth recorded in 2025. National economic growth is expected to be supported by the implementation of strategic programs in the manufacturing, agriculture, and energy sectors, with inflation projected to remain within the target range of 1.5%–3.5% and the Rupiah exchange rate expected to remain relatively stable at around Rp16,500 per US dollar. Nevertheless, the Company continues to monitor domestic risks, particularly the potential increase in the fiscal deficit and possible shortfalls in tax revenue, which may affect investor confidence and economic resilience.

Based on internal assessments, the national economic outlook for 2026 is supported by several factors, including the normalization of global trade, asset reallocation to emerging markets, the attractiveness of the Rupiah, the continuation of government priority programs, supportive economic policies, resilient domestic consumption, downstream development initiatives, and projected key economic indicators. Despite persistent external risks, these factors provide a relatively strong foundation for national economic growth.

In line with these conditions, Bank Indonesia projects national banking credit growth in the range of 8%–12% in 2026, with financing quality remaining well maintained. The Company's internal assessment also indicates projected growth in the Islamic banking industry, with total assets estimated to reach Rp1,205 trillion, financing around Rp794 trillion or growing by nearly 11.9%, and Islamic banking Third-Party Funds (TPF) reaching Rp952.9 trillion or growing by 12.55%.

In addition, the halal industry is expected to become a key driver of national trade and consumption performance. Domestic consumption of halal products is projected to reach US\$259.8 billion in 2026, representing growth of approximately 5.88% and contributing more than 30% to national household consumption. From an export perspective, halal products are estimated to account for around 20% of Indonesia's total non-oil and gas exports and are projected to increase to US\$73.9 billion, with growth of approximately 8.73%.

In line with these developments, the Company views that its business prospects going forward will continue to be supported by the optimization of its dual licenses as an Islamic Bank and a Bullion Bank, the continuation of digital transformation to enhance competitiveness, as well as support for the Government's priority economic programs as part of the Company's business development strategy.

### CORPORATE GOVERNANCE

BSI consistently implements sound corporate governance practices across all operational activities, including the application of Sharia governance as an integral component of its business operations. The implementation of Sharia governance encompasses the duties and responsibilities of the Sharia Supervisory Board, the application of Sharia compliance functions, Sharia risk management, Sharia internal audit functions, and external reviews of Sharia governance practices. The effectiveness of its implementation is measured through periodic self-assessment conducted in accordance with Financial Services Authority regulations, covering governance

## BOARD OF DIRECTORS REPORT

structure, governance process, and governance outcome, including the implementation of Sharia principles in the Bank's operations.

The Company conducts Sharia governance self-assessments on a semiannual basis, at the end of June and December each year. The results of the assessments for June and December 2025 indicated a rating of 2 (two) or "Good." These results reflect the effectiveness of Sharia governance implementation and serve as a basis for continuous improvement of governance practices.

In applying corporate governance comprehensively, the Company applies Good Corporate Governance (GCG) principles across all operational activities. The transparency principle is implemented through the provision of adequate access to information for shareholders and stakeholders regarding products, services, governance practices, and financial performance developments through the Company's official website. The Company also publishes its Annual Report and Sustainability Report, which contain comprehensive information on financial performance, strategic achievements, risk management, social responsibility, compliance with Sharia principles, and the realization of sustainability commitments in environmental, social, and governance aspects. Transparency is further reflected in the provision of complete information on products and services, including terms and conditions, benefits, costs, risks, and usage procedures as part of customer education.

The accountability principle is reflected in the implementation of roles and responsibilities of all corporate organs. Throughout 2025, the Board of Directors carried out its management responsibilities, including convention of the Annual GMS, preparation of Long-Term Corporate Plan (RJPP), Bank Business Plan (RBB), Corporate Work Plan and Budget (RKAP), Sustainable Finance Action Plan (RAKB), and other work plans aligned with the Company's vision, mission, and objectives. The Board of Commissioners performed its oversight function on the Bank's management by the Board of Directors, including oversight on RBB implementation, internal controls, the Bank's soundness level, risk management, compliance

implementation, information technology, and human resource development, as well as providing approval for matters requiring Board of Commissioners approval in line with prevailing regulations. Meanwhile, the Sharia Supervisory Board provided advice, recommendations, and guidance to the Board of Directors to ensure compliance with Sharia principles in accordance with the fatwas of the National Sharia Council.

The principle of responsibility is reflected in the Company's compliance with prevailing laws and regulations, adherence to Sharia principles, and the implementation of corporate social responsibility. The Company has also adopted various national and international governance standards, including the OECD Principles of Corporate Governance, the ASEAN Corporate Governance Scorecard, the Indonesian Corporate Governance Guidelines (PUGKI), and the Principles for Enhancing Corporate Governance issued by the Basel Committee on Banking Supervision.

The principle of independence is implemented through decision-making processes that are free from conflicts of interest and undue external influence, as well as through the optimization of complementary corporate functions to establish an effective control environment and ensure the integrity of information used for reporting and decision-making. This approach supports the strengthening of the three lines model in risk management and internal control.

Meanwhile, the principle of fairness is reflected in the Company's commitment to treating all stakeholders equitably and without discrimination. The Company ensures equal rights for shareholders and stakeholders in accessing information, applies fairness in decision-making and dispute resolution processes, provides equal employment opportunities through transparent recruitment, promotion, and merit-based career development, and ensures transparency in products and services while safeguarding customer rights and data in accordance with applicable regulations.

## BOARD OF DIRECTORS REPORT

As part of its evaluation of GCG implementation, the Company participates in the Corporate Governance Perception Index (CGPI) assessment conducted by The Indonesian Institute for Corporate Governance. In 2025, the Company obtained a score of 92.25 with the rating “Highly Trusted,” reflecting the Company’s commitment to consistently implementing sound corporate governance principles in its operations.

### ASSESSMENT OF COMMITTEES UNDER THE BOARD OF DIRECTORS

In carrying out its management and operational oversight functions, the Board of Directors is supported by seven committees under its authority, namely the Risk Management Committee, IT Steering Committee, Policy & Procedure Committee, Business Committee, Human Capital Committee, Asset and Liability Committee, and the Steering Committee for Crisis Management – Business Continuity Management. These committees support the Board of Directors in enhancing the effectiveness of decision-making processes, operational control, and the management of risks and business activities.

The Board of Directors applies established criteria and procedures in evaluating the performance of the committees under its supervision. The evaluation is conducted based on the implementation of duties and responsibilities as well as meeting attendance. Based on the assessment results, the Board of Directors concluded that all committees performed their roles and responsibilities optimally throughout 2025 in accordance with their respective mandates.

### CHANGES IN THE COMPOSITION OF THE BOARD OF DIRECTORS

In 2025, PT Bank Syariah Indonesia (Persero), Tbk (BSI) implemented changes to the composition of its Board of Directors in accordance with the Company’s organizational needs and strategic direction. These changes were resolved at the Annual General Meeting of Shareholders (AGMS) held on May 16, 2025, as part of the Company’s commitment to good corporate governance and to ensure the effectiveness of the management and oversight of its business activities.

### Composition of the Board of Directors Prior to the 2025 Annual GMS

Prior to the Annual General Meeting of Shareholders (AGMS) on May 16, 2025, BSI’s Board of Directors consisted of 10 (ten) members, comprising 1 (one) President Director, 1 (one) Vice President Director, and 8 (eight) Directors, as follows:

- Hery Gunardi, President Director
- Bob Tyasika Ananta, Vice President Director
- Tribuana Tunggadewi, Director of Compliance & Human Capital
- Anton Sukarna, Director of Sales & Distribution
- Ade Cahyo Nugroho, Director of Finance & Strategy
- Zaidan Novari, Director of Wholesale Transaction Banking
- Saladin Dharma Nugraha Effendi, Director of Information Technology
- Grandhis Helmi Harumansyah, Director of Risk Management
- Harry Gusti Utama, Director of Retail Banking
- Ari Rizaldi, Director of Treasury & International Banking

The AGMS held on May 16, 2025 resolved the following matters:

1. Ratification of honorable dismissal:
  - Mr. Hery Gunardi as President Director effective March 24, 2025.
  - Mr. Saladin Dharma Nugraha Effendi as Director of Information Technology effective March 24, 2025.
  - Mr. Ari Rizaldi as Director of Treasury & International Banking effective March 25, 2025.
2. Honorable dismissal:
  - Mr. Bob Tyasika Ananta as Vice President Director.
  - Ms. Tribuana Tunggadewi as Director of Compliance & Human Capital.
  - Mr. Harry Gusti Utama as Director of Retail Banking.
  - Mr. Zaidan Novari as Director of Wholesale Transaction Banking.
3. Appointment of Board members:
  - Mr. Anggoro Eko Cahyo as President Director.
  - Mr. Bob Tyasika Ananta as Vice President Director.

## BOARD OF DIRECTORS REPORT

- Mr. Firman Nugraha as Director of Treasury & International Banking.
- Mr. Zaidan Novari as Director of Wholesale Transaction Banking.
- Mr. Muharto Hadi Suprpto as Director of Information Technology.
- Mr. Arief Adhi Sanjaya as Director of Compliance & Human Capital.
- Mr. Kemas Erwan Husainy as Director of Retail Banking.

Following the AGMS on May 16, 2025, the Board of Directors remained at 10 (ten) members, consisting of 1 (one) President Director, 1 (one) Vice President Director, and 8 (eight) Directors, as follows:

- Anggoro Eko Cahyo, Direktur Utama
- Bob Tyasika Ananta, Wakil Direktur Utama
- Anton Sukarna, Direktur Sales & Distribution
- Ade Cahyo Nugroho, Direktur Finance & Strategy
- Zaidan Novari, Direktur Wholesale Transaction Banking
- Grandhis Helmi Harumansyah, Direktur Risk Management
- Kemas Erwan Husainy, Direktur Retail Banking
- Muharto Hadi Suprpto, Direktur Information Technology

- Firman Nugraha, Direktur Treasury & International Banking
- Arief Adhi Sanjaya, Direktur Compliance & Human Capital

### CLOSING

The Company's solid and sustainable performance achievements throughout 2025 were supported by the contributions and commitment of all stakeholders, including shareholders, central and regional governments, all BSI employees, customers, and strategic partners. The strong synergy and collaboration established among these parties have been essential in supporting the continuity and development of the Company's business.

The Board of Directors expresses its appreciation and gratitude for the trust, support, and commitment extended by all stakeholders to the Company. Such support serves as a fundamental basis for the Company in carrying out its business activities and fulfilling its management responsibilities on a sustainable basis.

May Allah SWT continue to provide guidance and blessings in all of the Company's efforts in carrying out its mandate in the future. Amen.

## SHARIA SUPERVISORY BOARD REPORT

Sharia supervision is a mandate to ensure that every aspect of the Bank's business activities remains aligned with sharia principles, justice, and the broader public good. Through independent and continuous oversight, the Sharia Supervisory Board safeguards the integrity of Islamic governance and ensures compliance with applicable regulations.

PROF. DR. KH.  
**HASANUDIN, M.AG**  
Ketua Dewan Pengawas Syariah

## SHARIA SUPERVISORY BOARD REPORT

DISTINGUISHED SHAREHOLDERS AND  
STAKEHOLDERS,***Assalamualaikum Warahmatullahi  
Wabarakatuh***

Praise be to Allah SWT for His blessings and grace, which have enabled the Sharia Supervisory Board to fulfil its mandate in overseeing the implementation of sharia principles and regulations at PT Bank Syariah Indonesia Tbk throughout 2025.

In performing its supervisory function, the Sharia Supervisory Board continuously strives to enhance the quality of oversight over the Bank's products, services, and operational activities, in line with the Company's dual license as an Islamic Bank and Gold Bank. These efforts aim to ensure that the Bank's business activities remain aligned with sharia principles and objectives as part of the implementation of sound sharia governance.

The implementation of the supervisory function over sharia aspects refers to the Company's Articles of Association as well as the Decree of the Sharia Supervisory Board of PT Bank Syariah Indonesia Tbk No. 05/DPS-BSI/2025, which regulates the requirements, duties and responsibilities, main functions, prohibitions, term of office, dismissal mechanism, as well as the meeting policy of the Sharia Supervisory Board.

Throughout the reporting period, the Sharia Supervisory Board provided advice and recommendations to the Board of Directors through regular meetings and discussions with the Bank's management and relevant parties to ensure that all operational activities comply with sharia principles and the fatwas issued by the National Sharia Council of the Indonesian Ulema Council (DSN-MUI).

To strengthen the supervisory function, the Sharia Supervisory Board maintains close coordination with the Board of Commissioners and the Board of

Directors to ensure the effective implementation of sharia governance in accordance with prevailing regulations. In addition, the Sharia Supervisory Board continuously enhances its competencies through participation in training programs, seminars, and workshops to support the effective execution of its sharia supervisory responsibilities.

**IMPLEMENTATION OF SHARIA  
SUPERVISORY BOARD ACTIVITIES IN  
2025**

Throughout 2025, the Sharia Supervisory Board performed its supervisory functions independently and on a continuous basis to ensure that all business activities of PT Bank Syariah Indonesia Tbk were conducted in accordance with sharia principles, regulatory requirements, and the objectives of Maqashid Sharia, which uphold justice, public benefit, and sustainability. The supervisory function was carried out through the following activities:

**1. Conduct of Sharia Supervisory Board  
Meetings**

In accordance with prevailing regulations, the Sharia Supervisory Board convenes meetings at least once each month as part of its decision-making process and oversight of sharia implementation. All decisions of the Sharia Supervisory Board are determined through deliberation and consensus and documented in meeting minutes maintained by the Bank as a form of accountability and transparency in the implementation of sharia governance.

In addition to internal meetings, the Sharia Supervisory Board holds joint meetings with the Board of Directors and the Board of Commissioners at least once every four months to ensure coordination and alignment of policies and operations with sharia

## SHARIA SUPERVISORY BOARD REPORT

principles. Meetings are conducted with the attendance of the majority of members of the Sharia Supervisory Board and the majority of members of the Board of Directors and Board of Commissioners in accordance with applicable provisions.

Throughout 2025, the Sharia Supervisory Board conducted 28 (twenty-eight) internal meetings, 6 (six) joint meetings with the Board of Commissioners and the Board of Directors and participated in 2 (two) Annual General Meetings of Shareholders.

### 2. Frequency and Mechanism of Providing Advice and Monitoring Sharia Compliance

In carrying out its supervisory role, the Sharia Supervisory Board actively provided advice, recommendations, and opinions through various mechanisms to ensure the implementation of sharia principles across all operational and business activities of the Bank. Guidance was delivered through regular meetings and discussions with the Bank's management and relevant parties to address policies, business activities, and operational matters requiring sharia oversight.

Throughout 2025, the Sharia Supervisory Board issued minutes of meetings or opinions related to BSI's business and operational activities, and prepared written reports containing the results of sharia audits and supervision, including the necessary recommendations and corrective actions to ensure compliance with the fatwas of the National Sharia Council – Indonesian Ulama Council (DSN-MUI). The number of opinions issued by the Sharia Supervisory Board in 2025 was recorded at 59 (fifty-nine) opinions.

### 3. Results of Sharia Supervisory Activities

During the reporting period, the Sharia Supervisory Board submitted its Supervisory Reports in a timely manner in accordance with applicable regulations. These reports included evaluations of policies and management actions undertaken by the Board of Directors related to the implementation of sharia principles, the provision of advice and opinions to the Board of Directors, opinions regarding sharia compliance to committees supporting the Board of Commissioners, and the implementation of other Sharia Supervisory Board programs.

These supervisory activities reflect the Sharia Supervisory Board's commitment to ensuring compliance with sharia principles and supporting the implementation of sound sharia governance that delivers sustainable value and benefit to all stakeholders.

## PERFORMANCE ASSESSMENT OF THE SHARIA SUPERVISORY BOARD

The performance assessment of the Sharia Supervisory Board is conducted through a self-assessment mechanism carried out periodically on a semi-annual basis as part of the evaluation of the effectiveness of its sharia supervisory functions. The results of the assessment are reported to the Financial Services Authority (OJK) in accordance with applicable regulations.

As part of its supervisory responsibilities, the Sharia Supervisory Board also fulfils its obligation to submit the Sharia Supervisory Board Supervisory Reports on a semi-annual basis to the Islamic Banking Department of the Financial Services Authority (OJK) and the National Sharia Council – Indonesian Ulama Council (DSN-MUI).

Throughout 2025, the Sharia Supervisory Board carried out its duties and responsibilities in accordance with prevailing regulations and effectively performed its supervisory functions in ensuring the implementation of sharia principles in the Bank's business activities.

## CHANGES IN THE COMPOSITION OF THE SHARIA SUPERVISORY BOARD

Throughout 2025, there were no changes in the composition of the Sharia Supervisory Board of PT Bank Syariah Indonesia Tbk. The stability of the Board's composition reflects continuity in the execution of sharia supervisory functions and consistency in maintaining the effectiveness of the Bank's Islamic governance implementation.

## SHARIA SUPERVISORY BOARD REPORT

As of December 31, 2025, the composition of the Bank's Sharia Supervisory Board was as follows:

Prof. Dr. KH. Hasanudin, M.Ag:  
Chairman of the Sharia Supervisory Board  
Dr. H. Mohamad Hidayat, MBA, M.H:  
Member of the Sharia Supervisory Board  
Dr. H. Oni Sahroni, MA:  
Member of the Sharia Supervisory Board  
Dr. KH. Abdul Ghofur Maimoen, M.A.:  
Member of the Sharia Supervisory Board  
Prof. Dr. Jaih Mubarak, SE, M.H, M.Ag:  
Member of the Sharia Supervisory Board

### CLOSING

All praise be to Allah SWT, the Sharia Supervisory Board has carried out its supervisory responsibilities over the implementation of sharia principles across all business and operational activities of PT Bank Syariah Indonesia Tbk throughout 2025. The execution of these supervisory functions

represents the Board's mandate to ensure the Bank's compliance with sharia requirements and to support the implementation of sound Islamic governance grounded in the values of justice, public benefit, and sustainability.

The Sharia Supervisory Board expresses its appreciation to the Shareholders, Board of Commissioners, Board of Directors, management, and all stakeholders for their support and constructive collaboration in maintaining adherence to sharia principles. This support reinforces BSI's commitment as the largest Islamic bank and the first Gold Bank in Indonesia to conduct its business activities in alignment with sharia values and to deliver meaningful benefits to society.

The Sharia Supervisory Board prays that Allah SWT will continue to provide guidance and blessings to BSI in strengthening its role in the development of the Islamic economic and financial ecosystem and in contributing to the welfare of the ummah.

## COMPANY BRAND

The BSI logo, which consists of a wordmark (brand name) and an icon (five-pointed star), is designed to convey a clear brand message and build clear recognition. The BSI five-pointed star icon has three main meanings:

- ★ Representing the “guiding light” which symbolizes our vision, which is to exist as a means to inspire goodness and positivity. This vision is guided by the verse of the Koran, Surah Ibrahim, verse 1: Alif Lam Ra.(This is) the Book that We have sent down to you (Muhammad), hence, you can bring humanity out of darkness into bright light with God’s permission, towards the path of God, the Almighty, the Most Praiseworthy.
- ★ Representing the five pillars of Islam, which guide every Muslim to a wise and meaningful life.
- ★ Represents the five principles of Pancasila, the philosophy that is the foundation of the Indonesian state to advance the nation and improve the welfare of all its people.

## BRIEF COMPANY HISTORY

PT Bank Syariah Indonesia Tbk (the “Bank”) was established through the merger of several Islamic banks in Indonesia. Prior to adopting its current name, the Bank originated from PT Bank BRISyariah Tbk.

PT Bank BRISyariah Tbk (“BRIS”) is located in Jakarta, Indonesia, and initially established under the name of PT Bank Jasa Arta (“BJA”) based on the Deed of Establishment No. 4 dated 3 April 1969 made before Liem Toeng Kie, S.H., notary in Jakarta.

BJA changed its name to PT Bank Syariah BRI (“BSBRI”) based on Shareholders’ Decision Statement, as stated in the Deed No. 45 dated 22 April 2008 of Fathiah Helmi, S.H., notary in Jakarta and obtained a license from Bank Indonesia to change its business activities, from a conventional bank into a commercial bank based on sharia principles effective from 16 October 2008. In 2009, BSBRI changed its name to PT Bank BRISyariah based on Shareholders’ Decision Statement, as stated in Notarial Deed No. 18 dated 14 April 2009 made before Fathiah Helmi, S.H., notary in Jakarta.

PT Bank BRISyariah changed its name to PT Bank BRISyariah Tbk as approved, accepted and recorded by the Ministry of Laws and Human Rights of the Republic of Indonesia No. AHU-0000386.AH.01.02 Year 2018 dated 10 January 2018.

In January 2021, there was a merger of PT Bank BRISyariah Tbk with PT Bank Syariah Mandiri and PT Bank BNI Syariah. The merger has received approval from Financial Services Authority (“OJK”) of Capital Market through its letter No. S-289/D.04/2020 dated 11 December 2020 and OJK Board of Commissioners Number 4/KDK.03/2021 dated 27 January 2021 concerning the Granting of Permit to Merge PT Bank Syariah Mandiri and PT Bank BNI Syariah into PT Bank BRISyariah Tbk and a Name Change Permit Using a Business License from PT Bank BRISyariah Tbk to become a Business License on behalf of PT Bank Syariah Indonesia Tbk (“BSI”) as the Merged Bank. PT Bank

Mandiri (Persero) Tbk is the Bank’s parent entity after the merger.

In June 2022, there was change in the share’s classification in the Articles of Association as stated in the Deed of Statement of Meeting Resolutions on the Amendments to the Articles of Association of PT Bank Syariah Indonesia Tbk No.146 dated 24 June 2022 made before Notary Jose Dima Satria, S.H., M.Kn., notary in Jakarta, in connection with:

- the implementation of the classification of shares in the Bank into Series A Dwiwarna share which is share with special rights and Series B common share which is ordinary share; and
- reclassification of 1 (one) share owned by the Republic of Indonesia in the Bank into 1 (one) Series A Dwiwarna share and all shares owned by other shareholders into Series B common shares.

This change was accepted and recorded by the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-AH.01.03-0269107 dated 22 July 2022.

The latest amendment to the Bank’s Articles of Association in relation to the amendments of BSI’s Articles of Association with new provisions relating to BSI as a Sharia Commercial Bank as outlined in the Deed of Meeting Resolutions on Amendments to the Articles of Association of PT Bank Syariah Indonesia Tbk No. 37 dated 17 May 2024 made before Notary Ashoya Ratam, S.H., M.Kn. notary in Jakarta. This amendment was approved by the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-0035266.AH.01.02.Year 2024 dated 13 June 2024 and was received and recorded by the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-AH.01.03-0145286 dated 13 June 2024.

## PRIORITAS

# 04 MANAGEMENT DISCUSSION & ANALYSIS

Amid shifts in the economic and industry landscape, BSI remained focused on resilience, growth, and long-term value creation. Every strategy was carried out with discipline to strengthen competitiveness and expand future opportunities.

## ECONOMIC REVIEW

### ONE STRATEGY, DUAL STRENGTH

**In 2025, Bank Syariah Indonesia optimised its dual license as a Sharia Bank and Indonesia's first Bullion Bank to strengthen competitiveness and broaden growth. Sharia-based funding, including Hajj savings, was complemented by integrated gold services such as financing and digital gold. Rising demand for gold supported funding growth, increased non-interest income, and reinforced the development of a sustainable sharia financial ecosystem.**

### GLOBAL ECONOMIC ANALYSIS

Throughout 2025, the global economy experienced heightened volatility, primarily driven by international trade dynamics associated with the implementation of import tariffs by the United States on all its trading partners. This policy weighed on global market sentiment during the year. Nevertheless, the adverse impact gradually moderated as several trade agreements were reached, contributing to a partial easing of global uncertainty.

Against this backdrop, the World Economic Outlook (WEO) January 2026 edition published by the International Monetary Fund (IMF) revised upward its projection for global economic growth in 2025 to 3.2% (yoy), 3.3% (yoy), representing an increase of 0.2 percentage points compared with the October 2025 projection. With this revision, the projected growth rate is now in line with the previous year's realized global growth of 3.3% (yoy), reflecting a gradual recovery in the global economy.

## ECONOMIC REVIEW

The United States economy showed mixed growth in the second half of 2025. Although real GDP growth in the fourth quarter of 2025 was lower than in the previous quarter, the labor market showed a recovery and a decline in the unemployment rate. Meanwhile, economic growth in the European region remained constrained by weak industrial activity and investment, although inflationary pressures showed a declining trend. Global trade uncertainty arising from U.S. tariff policy dynamics continued to weigh on business sentiment and hinder the region's economic recovery. Nonetheless, the outlook for recovery remains supported by a more accommodative monetary policy stance, increased government spending, and relatively stable labor market conditions. Within this environment, the manufacturing sector demonstrated resilience, underpinned by optimism surrounding increased investment in defense and infrastructure.

In China, the economic recovery continues to face several structural challenges. Persistently low inflation reflects subdued domestic demand, excess capacity in the manufacturing sector, and ongoing pressures in the property market. In response, the Chinese government has continued to implement stimulus measures, including interest rate cuts, to support economic activity. Despite these challenges, China's export performance remained resilient, recording growth of 8.3% in September 2025, exceeding market expectations amid ongoing trade tensions with the United States. This export growth was supported by stronger demand from the European Union, ASEAN, Africa, and Latin America, which offset weaker exports to the United States.

In China, although the economy recorded relatively stable growth, the economic recovery continues to face several structural challenges. Persistently low inflation reflects subdued domestic demand, excess capacity in the manufacturing sector, and ongoing pressures in the property market. In response, the Chinese government has continued to implement stimulus measures, including fiscal support and maintaining an accommodative interest rate environment, to support economic activity. Despite these challenges, China's export performance remained resilient, recording growth of 5.5% throughout 2025, thereby supporting the government's economic growth target of 5.0% despite weak domestic demand. This export

growth was supported by stronger demand from the European Union, ASEAN, Africa, and Latin America, which offset weaker exports to the United States.

Meanwhile, global commodity prices generally tended to ease throughout 2025, in line with slowing global demand amid relatively adequate supply conditions. Oil prices had risen to US\$78.85 per barrel due to the 14-day open military conflict between Iran and Israel involving the United States. However, oil prices corrected again as the conflict subsided and OPEC+ gradually increased production.

At the same time, global inflation remained relatively contained, including in advanced economies such as the United States and the Euro area. This environment prompted several central banks to begin easing monetary policy. The European Central Bank (ECB) and the Bank of England (BoE) reduced their policy rates 4 (four) times in 2025. In contrast, the Federal Reserve adopted a more cautious stance, with its first reduction in the Fed Funds Rate occurring in September 2025, reflecting continued vigilance toward inflation risks associated with U.S. tariff policies.

Amid ongoing policy uncertainty and a weakening trend in the U.S. Dollar Index (DXY), demand for gold as a hedging asset increased significantly. Gold prices briefly surpassed US\$5,417 per ounce in late December 2025, reflecting heightened risk perception among global market participants.

## NATIONAL ECONOMIC ANALYSIS

Amid the ongoing global economic recovery and the gradual stabilization of trade policies and geopolitical conditions, Indonesia's economy continued to demonstrate resilience. Gross Domestic Product (GDP) grew by 5.11% year-on-year (yoy) throughout 2025, marking the highest annual growth recorded over the past three years. This performance is expected to be continue in 2026, supported by solid household consumption, accelerated government spending realization, an expansionary manufacturing sector, and continued growth in direct investment, which collectively strengthened domestic economic

## ECONOMIC REVIEW

fundamentals. This condition is also reflected in the increase in the Consumer Confidence Index since the fourth quarter of 2025, indicating improved public optimism regarding the national economic outlook.

From an external perspective, a consistently positive trade balance through December 2025 continued to support Indonesia's external resilience and foreign exchange reserves. At the same time, fiscal discipline remained intact, with the preliminary realization of the state budget deficit at 2.92%, below the statutory ceiling of 3% as stipulated under the State Finance Law. These conditions underscored the strength of Indonesia's national economic fundamentals amid ongoing global uncertainty.

In terms of price developments, inflation rose to 2.92% (yoy) in December 2025, primarily driven by higher jewelry gold prices following the global gold price rally, as well as increases in food prices toward year-end and supply disruptions amid natural disasters affecting several regions of Indonesia. Nevertheless, inflation remained within Bank Indonesia's target range of 1.5%–3.5%, reflecting domestic price stability. This stability was further reflected in the Consumer Confidence Index, which continued to signal optimism regarding the national economic outlook.

Throughout 2025, monetary policy was directed toward maintaining a balance between macroeconomic stability and supporting economic growth. Following a series of gradual rate cuts since mid-2024, Bank Indonesia maintained the BI-Rate at 4.75% throughout the remainder of 2025 to safeguard stability and ensure effective policy transmission amid heightened global uncertainty. The commitment to exchange rate stability was reinforced through intervention in the spot market and Domestic Non-Deliverable Forward (DNDF) transactions. These measures were complemented by the optimization of Bank Indonesia securities instruments, including SRBI, SVBI, and SUVBI, to deepen financial markets and maintain adequate liquidity.

In line with these policies, domestic financial markets remained broadly stable despite elevated global uncertainty. In the bond market, yields on 10-year government bonds declined significantly from 6.99% at the beginning of the year to approximately 6.07% in late December 2025,

reflecting lower risk premiums and positive investor responses to a more accommodative monetary policy stance. The Rupiah experienced temporary depreciation to Rp16,690 per USD during the same period. Portfolio capital flows remained volatile, recording a net inflow of Rp25.97 trillion in December 2025 from government bonds, equities, and SRBI instruments. Foreign direct investment throughout 2025 also recorded a positive trend. Overall, these developments reflected cautious market sentiment while maintaining confidence in Indonesia's macroeconomic stability.

Banking system liquidity remained ample throughout 2025, supported by accommodative monetary policy and close coordination with fiscal policy. The Liquid Assets to Third Party Funds (LA/TPF) ratio stood at 28.57% as of December 2025, indicating sufficient liquidity to support credit expansion. Bank lending grew by 9.63% (yoy), driven primarily by investment loans, while third party funds recorded growth of 13.83% (yoy).

To further strengthen intermediation, Bank Indonesia continued to implement the Macroprudential Liquidity Incentive (KLM) policy, with total incentives amounting to Rp388.1 trillion disbursed to priority sectors, including agriculture, industry and downstreaming, construction, real estate and housing, and MSMEs. Financial system stability remained well maintained, as reflected in a Capital Adequacy Ratio (CAR) of 25.89% and a gross Non-Performing Loan (NPL) ratio of 2.05%, underscoring the resilience of the banking sector in supporting sustainable national economic growth.

### NATIONAL BANKING INDUSTRY ANALYSIS

Changes in the monetary policy stance throughout 2025 continued to influence the growth dynamics of Indonesia's banking industry. Following a prolonged period of contractionary monetary policy since 2022, its lagged effects became increasingly evident in the moderation of banking sector growth during the first half of 2025. As monetary policy gradually shifted from a stability-oriented approach toward a more growth-supportive stance, the cumulative reduction of

## ECONOMIC REVIEW

the BI-Rate by 125 basis points throughout 2025 has translated into a significant improvement of banking performance by the end of the year.

Despite the moderation in growth, banking intermediation continued to expand, supported by a well-managed risk profile. As of December 2025, total bank loans/financing grew by 9.63% (yoy) to Rp8,043 trillion. Loan growth was primarily driven by investment loans, which increased by 20.81% (yoy), followed by consumer loans growing by 6.58% (yoy), while working capital loans recorded more modest growth of 34.52% (yoy). Investment credit growth increased significantly compared to the end of 2024, reaching 13.85%. However, working capital and consumer credit growth was lower than in 2024, when consumer credit grew 10.61% (yoy) and working capital credit grew 8.35% (yoy). Among these three segments, working capital credit experienced the most significant slowdown throughout 2025, in line with the business community's increasingly cautious attitude. Consumer credit also experienced a slowdown in line with weakening purchasing power throughout 2025.

On the funding side, banking system Third Party Funds grew by 13.83% (yoy) to Rp10,059 trillion as of December 2025. This growth was supported by strong current account growth of 19.07% (yoy), alongside savings growth of 8.19% (yoy) and time deposits growth of 14.28% (yoy). In line with these developments, overall banking system liquidity improved. The Liquid Assets to Non-Core Deposits (LA/NCD) ratio increased to 126.15% as of December 2025, compared with 112.87% at the end of 2024. The Liquid Assets to Third Party Funds (LA/TPF) ratio also rose to 28.57% from 25.59%. Meanwhile, the Liquidity Coverage Ratio (LCR) declined to 200.97% from 213.23% at year-end 2024, although it remained well above the regulatory minimum, indicating ample liquidity buffers.

Asset quality across the banking industry remained well controlled. The gross Non-Performing Loan (NPL) ratio stood at 2.05%, representing a decrease of 0.03 percentage points from December 2024,

while the net NPL ratio rose by 0.05 percentage points to 0.79%. These increases remained within manageable levels. Loan at Risk (LaR) was recorded at 8.77%, still below the previous year level of 9.27% as of December 2024. Overall profitability remained sound, despite a modest decline in Return on Assets (ROA) to 2.53% from 2.69% at the end of 2024.

From a capital perspective, the banking sector remained well capitalized, with a Capital Adequacy Ratio (CAR) of 25.89%, slightly lower than the 26.68% recorded at the end of 2024. Nevertheless, capital levels remained sufficient to absorb potential risks and to support the resilience of the banking industry amid ongoing global economic and geopolitical uncertainty.

*Source: Financial Services Authority (OJK), December 2025*

## SHARIA BANKING INDUSTRY ANALYSIS

As of December 2025, the Sharia banking industry continued to record positive growth amid ongoing developments in the national financial sector. Total Sharia banking assets reached Rp1.067,33 trillion, growing by 8.92% (yoy) and accounting for a market share of 7.69%. In line with asset growth, Sharia financing expanded by 9.58% (yoy) to Rp705,22 trillion, while TPF increased by 10.14% (yoy) to Rp829,99 trillion, reflecting the continued effectiveness of Sharia banking intermediation.

From a liquidity perspective, Sharia banking liquidity declined compared with the position at the end of 2024. The Liquid Assets to Non-Core Deposits (LA/NCD) ratio decreased from 154.52% to 142.13% as of December 2025, while the Liquid Assets to Third Party Funds (LA/TPF) ratio declined from 32.09% to 30.01%. Despite this moderation, both ratios remained above the national banking average and well above the regulatory minimum thresholds of 50% and 10%, respectively, indicating that liquidity conditions remained adequate.

## ECONOMIC REVIEW

In line with these developments, financing risk remained manageable, although a modest increase was observed. The gross Non-Performing Financing (NPF) ratio stood at 2.16%, representing an increase of 0.04 percentage points from December 2024, while net NPF rose by 0.04 percentage points to 0.83%. These increases remained lower than those recorded in the national banking sector, where net NPL increased by 0.05 percentage points. Meanwhile, profitability and capitalization experienced a limited decline, with Return on Assets (ROA) easing from 2.04% at the end of 2024 to 1.98%, and the Capital Adequacy Ratio (CAR) declining from 25.04% to 25.07%. Overall, these indicators underscored the resilience of Sharia banking in maintaining performance amid liquidity challenges and moderately rising risk levels.

Several factors supported the resilience of the Sharia banking industry throughout 2025, including its ability to adapt to market demand through product innovation and improved industry efficiency. This strengthening was supported by the development of new products, notably the legalization and implementation of Bullion Banking services starting in early 2025,

which created opportunities for new revenue streams from gold trading and asset management activities. In addition, the expansion of investment products such as the Sharia Restricted Investment Account (SRIA) facilitated more structured and transparent funding of large-scale projects, while enhancing the competitiveness of Sharia banking within the broader financial market.

Furthermore, pursuant to Financial Services Authority Regulation (POJK) No.12/2023, the mandatory spin-off of Sharia Business Units (UUS) into fully fledged Sharia Commercial Banks (BUS), once UUS assets reach at least Rp50 trillion or exceed 50% of the parent bank's total assets, is expected to strengthen the scale and capital base of the Sharia banking industry, particularly by reinforcing capital adequacy ratios, over the 2025–2026 period. During 2025, several initial spin-off initiatives were undertaken through mergers and acquisitions. These actions are expected to improve industry efficiency and support the resilience of Sharia banking growth amid global uncertainty and tighter liquidity conditions.

## ANALYSIS OF BSI'S POSITION IN THE BANKING INDUSTRY

A comparison of BSI's performance relative to the Sharia banking industry and the national banking industry is presented in the Table of Banking Industry, Sharia Banking Industry, and BSI Performance (in Rp billion). This analysis provides an overview of BSI's relative positioning within the industry and serves as a basis for assessing the Bank's performance against broader industry trends.

| Performance | Banking Industry |             |        | Sharia Banking Industry |             |        | BSI         |             |        |
|-------------|------------------|-------------|--------|-------------------------|-------------|--------|-------------|-------------|--------|
|             | Dec '24          | Dec '25     | Growth | Dec '24                 | Dec '25     | Growth | Dec '24     | Dec '25     | Growth |
|             | Rp Trillion      | Rp Trillion | %      | Rp Trillion             | Rp Trillion | %      | Rp Trillion | Rp Trillion | %      |

### BSI's Position in the National Banking Industry

Amid the challenges faced by the banking industry throughout 2025, BSI demonstrated relatively resilient performance through December 2025. During the period, BSI strengthened its financing market share, while recording modest adjustments in asset and TPF market shares, reflecting heightened competition and moderating funding growth across the national banking industry.

## ECONOMIC REVIEW

In terms of assets, BSI's market share within the national banking industry stood at 3.34% as of December 2025, compared with 3.28% in December 2024. This increase indicates BSI's capability to improve its competitiveness despite intensified competition within the banking industry.

Conversely, BSI recorded an improvement in its financing market share, which increased to 3.71% as of December 2025 from 3.56% at the end of 2024. This development reflects BSI's continued focus on financing expansion and its role in supporting real sector activities.

Meanwhile, BSI's TPF market share was recorded at 3.78% as of December 2025, compared with 3.71% in December 2024, in line with the broader increase in deposit growth across the banking industry. This achievement is supported by BSI's strategy to strengthen its funding base through product innovation and sustained customer confidence, supporting funding stability amid evolving industry conditions.

### BSI Market Share compared to the National Banking Industry December 2025

Source: OJK, BSI Quarterly Financial Report, December 2025

### BSI's Position in the Sharia Banking Industry

Throughout 2025, BSI maintained a strong position within Indonesia's Sharia banking industry, as reflected in increased market shares across assets, financing, and TPF. These developments indicate the continuity of BSI's role in the industry amid competitive dynamics and balance sheet optimization initiatives.

In terms of assets, BSI's market share reached 42.73% as of December 2025, up from 41.68% in December 2024. This increase in market share occurred in line with an increase in total assets from Rp409 trillion at the end of 2024 to Rp456 trillion as of December 2025, reflecting BSI's capabilities improvement, marked by sustaining business expansion.

Consistent with this trend, BSI's financing market share strengthened significantly, reaching 45.21% as of December 2025, compared with 43.27% at the end of 2024. This improvement reflects BSI's continued expansion of its financing portfolio into strategic sectors, while maintaining prudent risk management practices.

Meanwhile, BSI's TPF market share increased to 45.84% as of December 2025, from 43.45% in December 2024. This performance was supported by funding strategies centered on product innovation, including the development of bullion banking services, as well as ongoing digitalization initiatives. In addition, the improvement in Sharia financial inclusion contributed to deposit growth, as reflected in a survey by the Financial Services Authority (OJK), which recorded an increase in the Sharia financial inclusion index from 12.88% in 2024 to 13.41% in 2025.

## ECONOMIC REVIEW

## BSI Market Share compared to the Islamic Banking Industry December 2025

Source: OJK, BSI Quarterly Financial Report, December 2025

## Performance Analysis of the National Banking Industry and Sharia Banking Industry

The performance of the national banking industry and the Sharia banking industry through December 2025 continued to indicate positive growth compared with December 2024. This analysis covers five key indicators, assets, financing, funding, equity, and net profit, with a focus on year-on-year (yoy) growth. However, in 2025, the Islamic banking industry recorded growth slightly below that of the national banking sector.

Islamic banking assets grew by 8.92% (yoy), below the national banking sector's growth of 9.51% (yoy). Furthermore, Islamic banking third party funds (DPK) grew by 10.14%, below the national banking third party fund growth of 13.83% due to the Ministry of Finance's policy of placing higher amount of the excess budget balances (SAL) in conventional banks. Despite these conditions, Islamic banking financing still managed to reach 9.58%, only slightly below the national banking credit growth of 9.63%. This development demonstrates the increasingly demanding condition of the Islamic financial industry to increase its competitiveness to compete with national banks, particularly for smaller-scale Islamic banks (BUS) and Islamic business units (UUS).

Meanwhile, the national banking industry's performance through the end of 2025 demonstrated resilience and adaptability amid a complex macroeconomic environment. Key challenges included global geopolitical conflicts and trade tensions, domestic political transition, weakening purchasing power, and potential liquidity constraints. Within this context, BSI

maintained relatively solid performance while retaining a strong position within the Sharia banking industry.

## 1. Banking Assets

On an aggregate, the Islamic banking industry's assets recorded 8.92% yoy growth, compared to 9.51% yoy. During the same period, BSI's assets increased even further, reaching Rp456 trillion by December 2025. This development reflects BSI's ability to continue expanding its financial services business amidst various domestic and global economic challenges.

## 2. Banking Financing

National banking loans grew by 9.63% YoY to Rp8,586 trillion, while Sharia financing expanded by 9.58% YoY to Rp705.22 trillion. BSI recorded financing growth of 14.49% yoy to Rp318.8 trillion, exceeding the growth of both the Sharia banking industry and the national banking industry. This performance reflects the implementation of a selective financing strategy supported by prudent risk management amid weakening domestic purchasing power.

## 3. Third Party Funds (TPF)

Third Party Funds (TPF) in the national banking industry increased by 8.51% YoY to Rp9,385 trillion as of August 2025, while TPF in the Sharia banking industry grew by 7.37% YoY to Rp757.2 trillion. Embracing potential liquidity expansion, BSI recorded TPF growth of 16.2% YoY, reaching Rp380.49 trillion as of December 2025, providing an adequate liquidity base to support sustainable financing growth.

## ECONOMIC REVIEW

### 4. Equity

From a capitalization perspective, BSI's equity strengthened through September 2025, increasing by 15.34% yoy from Rp45.04 trillion at the end of 2024 to Rp51.95 trillion. This improvement reflects a solid capital position, providing buffers to support business strategies and mitigate potential market volatility.

Overall, BSI's performance throughout 2025 reflected relatively stronger growth in financing, capital strengthening, and net profit compared with the average Sharia banking industry. These outcomes indicate BSI's readiness to balance business opportunities and risk management in supporting sustainable growth amid ongoing domestic and global economic challenges.

### 5. Net Profit

In terms of profitability, BSI recorded net profit growth of 8.02% YoY through the end of 2025, reaching Rp7.568 trillion. This performance was supported by maintained operational efficiency and relatively stable revenue generation amid competitive industry conditions.

## CORPORATE STRATEGY

PT Bank Syariah Indonesia Tbk (BSI) was formed on 1 February 2021 through the merger of three SOE sharia banks, namely Bank Syariah Mandiri, BNI Syariah, and BRI Syariah. This integration was part of the SOE consolidation strategy aimed at enhancing operational effectiveness and strengthening business governance to deliver optimal value for the nation. Through the unification of these three entities, Indonesia now has the largest sharia bank capable of competing at the global level.

The Company's Long-Term Plan was prepared with reference to POJK No. 12/POJK.03/2021 concerning Commercial Banks. The year 2025 marked the end of the First Phase Corporate Plan transformation with the vision of "Becoming a Top 10 Global Islamic Bank" in terms of market capitalization.

To support the achievement of this vision and mission, BSI developed a house of strategy in which BSI established 5 strategic focus areas, namely Healthy and Sustainable Business Growth, Liquidity Management Optimization, Digital Transformation, Islamic Ecosystem Penetration, and Efficiency and Productivity Improvement. BSI will strengthen its Fundamental Enablers, which include aspects of Human Capital, Information Technology, and Environmental, Social, Governance, Risk & Compliance (ES-GRC). BSI aspires to serve more than 40 million customers in the coming years by providing universal and comprehensive access to sharia financial solutions, with high-quality digital products and services that are relevant to customers' needs

and preferences. Going forward, BSI will become an Integrated Sharia Financial Services provider to deliver access to financial solutions, where customers can obtain a one stop solution for all financial needs, including those related to social and spiritual needs.

In September 2024, for the first time, BSI entered the ranks of the top 10 Global Islamic Banks. BSI even reached rank 9 based on a market capitalization of Rp138.85 trillion. In other words, the vision set out in the Company's Long-Term Plan was achieved earlier than expected. This also made BSI the only Islamic bank in Indonesia to be included in the Top 10 Global Islamic Banks.

## CORPORATE STRATEGY

## Grand Strategy

BSI's strategy in 2025 was focused on strengthening capabilities and achieving healthy and sustainable performance through the optimization of its dual licenses as an Islamic Bank and a Bullion Bank. In line with its commitment to providing a one stop solution for customers' financial, social, and spiritual needs, the dual license strategy became the

main foundation for expanding the business model and strengthening competitive differentiation. As an Islamic Bank, BSI offers a unique value proposition through product innovation and distinctive sharia solutions, including its strategic role as an organizer of Hajj savings with a relatively low and stable cost of fund structure, thereby strengthening competitiveness and funding structure.

On the other hand, the Bullion Bank license obtained in 2025 positioned BSI as the first Gold Bank in Indonesia and opened new sources of growth through the development of an integrated gold ecosystem, ranging from investment and custody to gold-based financing. The synergy of these two licenses forms a dual engine growth model that drives income diversification, customer base expansion, as well as contributions to strengthening the sharia financial ecosystem and the sustainable downstream development of the national gold industry.

In addition, in 2025, the macroeconomic environment was quite challenging, with liquidity conditions in Indonesia's financial market experiencing significant pressure as a result of benchmark interest rates remaining higher for longer over the past three years. The Government also planned to issue Government Securities in 2025 to finance government projects, thereby driving an increase in the cost of fund and intensifying competition for third-party fund collection, which in turn put pressure on Net Return (NI) and the potential increase in credit risk that still needs to be anticipated, particularly in certain segments that are sensitive to economic movements.

In this context, the national banking industry was required to maintain a balance between growth and quality, with more disciplined liquidity management, cost of fund efficiency, and strengthened risk management in order to maintain asset quality. These conditions became the basis for BSI to formulate adaptive and resilient strategies in responding to the challenging dynamics of the industry.

## CORPORATE STRATEGY

Furthermore, BSI's key strategy for 2025 is implemented through the 3-on-3 Strategy, which focuses on Winning Low-Cost Fund, Maintaining Asset Quality, and Productivity Enhancement. This strategy is designed to support healthy and sustainable performance, with each strategic focus further translated into three derivative initiatives, as outlined below.

## Core Strategy: 3-on-3 Strategy

## CORPORATE STRATEGY

intensity of transactions at BSI. In the retail consumer segment, BSI encourages increased transaction activity by expanding the base of active mobile banking users, while at the same time minimizing cash out through ecosystem strengthening (closed loop transaction). This strategy is reinforced by increasing the penetration of electronic channels such as QRIS and EDC, thereby encouraging more stable and sustainable low-cost fund growth.

#### (ii) Unique Sharia Funding

By having unique value as both an Islamic bank and a bullion bank, BSI optimizes its strategic position to strengthen low-cost fund collection through the development of gold-based products in accordance with sharia principles, such as BSI Gold Installment, BSI Gold Pawn, and gold trading. These products not only meet customers' investment and financing needs, but also become strategic instruments in expanding a more stable and sustainable funding base.

In addition, BSI continues to increase Third-Party Funds (DPK) penetration through the strengthening of unique sharia funding, which constitutes the Company's competitive advantage, including Hajj Savings and E-Mas Savings, which at the same time open new business potential in the Islamic banking industry. These efforts are complemented by optimizing the potential of wadiah-based payroll in target segments, as well as extending services to priority customers, in order to expand transactional relationships and increase the depth of banking relationships sustainably in response to customers' needs for sharia-based products.

under control, maintain asset quality, and support healthy and sustainable business growth.

#### (ii) Optimal Recovery Collection

In order to maintain asset quality and increase the recovery rate of non-performing financing, BSI implements an optimal recovery collection strategy carried out in a structured and disciplined manner, and in line with sharia principles and prudential principles. This strategy focuses on accelerating the resolution of non-performing financing through the optimization of selective restructuring, more intensive collection efforts, and effective collateral management in accordance with applicable provisions. This approach is intended to maximize the recovery rate, reduce potential losses, and maintain the stability of the financing portfolio quality.

To support the effective implementation of this strategy, BSI strengthens the use of data and portfolio analysis to identify potential deterioration in financing quality at an earlier stage and determine the appropriate handling measures. In addition, the Company continues to enhance the capabilities of human resources in remedial and collection functions, including in the aspects of restructuring analysis, collection strategy, and customer relationship management. Through an integrated approach between strengthening systems, processes, and HR competencies, BSI seeks to ensure that the financing recovery process runs optimally so that it can support healthy and sustainable financial performance.

#### (iii) Expansion into High

Yield & Prudent Financing Segments  
BSI implements a selective expansion strategy by directing financing growth

support, BSI seeks to create an organization that is more agile, productive, and adaptive in facing the dynamics of the banking industry.

#### (ii) Optimizing Current IT Development

BSI carries out a productivity enhancement strategy through optimizing information technology development that supports business process efficiency and service quality improvement. The use of technology is directed at simplifying operational processes, accelerating service time, as well as improving data accuracy and integration in supporting business activities. Through strengthening system capabilities and digital infrastructure, BSI seeks to create more efficient, responsive, and integrated work processes across all lines of the organization.

In line with this, BSI continues to develop and improve various digital platforms and internal systems to support employee productivity and optimize operational performance. This initiative includes strengthening the core banking system, developing business applications, as well as utilizing automation and data analytics to support faster and more informed decision-making. With the ongoing optimization of IT development, BSI is committed to creating a more agile organization, improving operational cost efficiency, and strengthening competitiveness in facing the increasingly digitalized banking industry dynamics.

#### (iii) Prioritizing Branding & Promotion

In addition, BSI also ensures that the branding side remains productive through

## CORPORATE STRATEGY

**(iii) Tactical Fund**

BSI continues its retail fund strengthening strategy by prioritizing the growth of savings products as a stable and sustainable source of low-cost funds. BSI also continues to expand its customer base and deepen relationships in tactical fund segments, in order to create a more diversified and sustainable funding structure. BSI is also exploring diversification of alternative funding sources, including the issuance of sustainable sukuk as part of its strategy to manage an optimal and prudent funding structure.

This step is intended to ensure a more solid and diverse customer composition, while at the same time maintaining healthy liquidity conditions in line with the provisions and prudential principles set by the regulator.

toward segments with optimal yield potential (high yield) while remaining within the corridor of prudential principles. This strategy is carried out through sharpening the focus on sectors and financing segments that have measurable risk profiles and provide better margin contributions to the Company. Through this approach, BSI seeks to improve the quality of financing growth while maintaining a balance between profitability and risk management.

The implementation of this strategy is supported by strengthening the financing selection process through the application of Risk Acceptance Criteria (RAC), a comprehensive underwriting process, and continuous portfolio monitoring. BSI also diversifies its financing portfolio into sectors that are resilient to economic dynamics, so as to maintain asset quality while optimizing financing performance. Through this measured and prudent expansion approach, BSI is committed to creating healthy, quality, and sustainable financing growth.

the prioritization of branding and promotion activities that are more targeted and have high impact. The Company ensures that every expenditure related to marketing and corporate communication is managed selectively with a focus on programs capable of increasing brand visibility, strengthening BSI's positioning as a modern Islamic bank, and driving customer acquisition and transaction activities.

The implementation of this strategy is carried out through more effective management of the marketing budget, utilization of digital channels and social media, as well as integration of communication campaigns aligned with the development of BSI's leading products and services. Through this approach, BSI can optimize the impact of promotional activities on business growth while maintaining operational cost discipline. This strategy is expected to strengthen brand awareness, increase customer loyalty, and support the sustainable achievement of the Company's performance.

# MARKETING ASPECT

## MARKETING STRATEGY

Throughout 2025, BSI implemented an integrated and sustainable marketing strategy aimed at expanding market penetration, strengthening competitiveness, and enhancing brand awareness. The strategy was designed to maintain consistency in positioning BSI as a modern, inclusive, and globally oriented Sharia bank, while addressing the diverse needs of customers across multiple segments.

In 2024, the Bank's marketing efforts were primarily focused on strengthening brand awareness and increasing adoption of the BYOND by BSI SuperApp as a representation of BSI's digital transformation. To support this objective, BSI executed broad-based marketing campaigns across Above The Line (ATL) and Below The Line (BTL) channels, including media exposure and large-scale national activation programs.

Entering 2025, BSI continued the established marketing direction with sharper focus and a more measurable approach. Marketing efforts were concentrated on BSI's key product champions, Payroll, Hajj, and Gold, as the main drivers of business growth. Strategic adjustments were made to ensure that the high level of base brand awareness achieved could be more effectively converted into higher consideration levels and business conversion.

At the beginning of 2025, the implementation of the marketing strategy included the organization of a series of BYONDFEST events at major shopping centers in Jakarta and other large cities across Indonesia, including BYONDFEST Ramadan and BYOND by BSI-themed homecoming service posts. These initiatives served as key pillars in expanding communication reach and enhancing public awareness and understanding of BSI's digital ecosystem.

During the Ramadan period, BSI consistently leveraged heightened customer activity through targeted publications and communication exposure at various prominent touchpoints. This approach aimed to reinforce the relevance of the BSI brand in customers' daily lives while highlighting the practical value of Sharia banking products and services.

In mid-2025, BSI further strengthened its global positioning through the organization of the BSI International Expo. The event not only recorded higher business achievements compared with the previous year but also served a role in introducing the Sharia financial ecosystem in a more comprehensive manner, thereby reinforcing BSI's global orientation.

The Marketing Communication Group actively supported management's direction by aligning communication campaigns and marketing activities with various strategic moments beyond the Ramadan period. From an activation perspective, BSI enhanced experiential marketing approaches through activities aligned with societal values and lifestyles, including international concerts, religious study events, and sports events held across multiple cities in Indonesia. These initiatives contributed positively to both awareness enhancement and business performance.

As a result of consistent strategy execution and clear focus, BSI recorded (yoy) brand awareness growth of 7% at the end of 2025. This momentum was utilized to further strengthen the marketing strategy through periodic data-driven measurement and evaluation, serving as the basis for future strategic planning and refinement.

Overall, BSI's marketing strategy in 2025 remained aligned with the approach implemented in 2024, while being executed with sharper focus on key products and a more robust measurement framework, supporting sustainable brand and business growth.

### Marketing Strategy Focus

The marketing strategy focus in 2025 is implemented on a sustained basis as a continuation of the strategy adopted in the previous year. This strategy is directed toward supporting balanced business growth, strengthening the customer base, and enhancing the quality of revenue contribution, while continuing to uphold prudential principles, cost efficiency, and compliance with applicable regulations.

## MARKETING ASPECT

## MARKET SHARE

BSI holds the largest market share within Indonesia's Sharia banking industry, as reflected in its relative position across key indicators, including assets, financing, and TPF. This position highlights the scale and role of BSI within the Sharia banking sector.

In conducting its business activities, BSI competes directly with other Sharia banks and, more broadly, with the national banking industry as a whole. Competitive dynamics are reflected in the efforts of banks to expand and maintain market share, which are commonly assessed based on asset size, financing distribution, and funding mobilization.

Accordingly, BSI's market shares relative to the Sharia banking industry, and the national banking industry is presented in the following section to provide an overview of the Bank's competitive positioning within the industry.

The following outlines BSI's market share position within the national banking industry:

## BSI Market Share in the Sharia Banking Industry

## MARKETING ASPECT

## BSI Market Share Compared to the Islamic Banking Industry December 2025

## BSI Market Share Compared to the Islamic Banking Industry December 2024

In 2025, BSI recorded relatively solid performance, as reflected in the development of market share across asset, financing, and third-party funds indicators. Changes in market share reflect the dynamics of BSI's growth relative to the Islamic banking industry as a whole.

- Asset Market Share**

BSI's asset market share was recorded at 42.73% in 2025, increasing compared to 41.68% in 2024. This increase in market share occurred in line with the growth in BSI's total assets from Rp409 trillion at the end of 2024 to Rp456 trillion in December 2025. This condition reflects BSI's improving capabilities, which continue to be in a phase of business expansion.

- Financing Market Share**

In line with this, BSI's financing market share showed significant strengthening, reaching 45.21% in December 2025, up from 43.27% in December 2024. This increase reflects the expansion of BSI's financing portfolio into strategic sectors, while continuing to observe prudential principles and measured risk management.

## MARKETING ASPECT

- **Third-Party Funds (DPK) Market Share**

Meanwhile, BSI's DPK market share was recorded at 45.84% in December 2025, increasing from 43.45% in December 2024. This performance was supported by the fund-raising strategy through product innovation, including the development of bullion banking services, as well as the strengthening of service digitalization. In addition, the increase in Islamic financial inclusion also supported DPK growth, as reflected in the Financial Services Authority (OJK) survey, which showed an increase in the Islamic financial inclusion index from 12.88% in 2024 to 13.41% in 2025.

## BSI Market Share compared to the National Banking Industry December 2025

(In %)

## BSI Market Share compared to the National Banking Industry December 2024

(In %)

## MARKETING ASPECT

**BSI's Position in the National Banking Industry**

Amid the various challenges faced by the banking industry throughout 2025, BSI demonstrated relatively resilient performance through December 2025. During this period, BSI succeeded in increasing its financing market share, while asset and DPK market shares experienced limited adjustments. This development reflects intensifying competition as well as the trend of moderating funding growth in the national banking industry.

- **Asset Market Share**

BSI's asset market share within the national banking industry reached 3.34% as of December 2025, increased from 3.22% in the same period of 2024. This improvement reflects the effectiveness of BSI's strategy in strengthening capacity and competitiveness, despite intensified competition across the national banking sector.

- **Financing Market Share**

BSI's financing market share amounted to 3.71% as of December 2025, increased from 3.48% in the corresponding period of 2024. This development reflects year-on-year financing growth, supported by BSI's efforts to expand its financing portfolio into strategic sectors that support the growth of Indonesia's Sharia economy, as well as a significant increase in gold financing portfolios.

- **Third Party Funds (TPF) Market Share**

BSI's TPF market share reached 3.78% as of December 2025, increased from 3.64% in the same period of 2024. This achievement indicates BSI's ability to maintain funding stability through product innovation and sustained customer confidence.

## CUSTOMER COMPLAINT HANDLING

The procedures and workflow for handling customer complaints at BSI are outlined in the following section:

Customers may submit complaints verbally through the BSI Call Center at 14040 and will receive a complaint reference number. Written complaints may be submitted through all **cabang Bank Syariah Indonesia, branch offices, the Head Office, BSI Mobile, BYOND by BSI, or via email at [contactus@bankbsi.co.id](mailto:contactus@bankbsi.co.id).**

Customer complaints will be processed by the designated complaint handling unit of Bank Syariah Indonesia.

Customers will receive information on the resolution of their complaints within a maximum of 10 business days and, where necessary, this period may be extended by a further 10 business days..

### Complaint Submission Requirements

| Type of Complaints                                                                                                                                                        | Customers                                                                                                                                               | Customer's Representatives                                                                                                                                                                                                                                                                                                                                                                         |

Complaint handling may also be pursued by customers through the Alternative Dispute Resolution Institution (LAPS), Bank Indonesia's mediation services, or the Financial Services Authority (OJK), provided that the complaint has first been submitted to and addressed by Bank Syariah Indonesia.

# BUSINESS PROSPECT AND 2026 STRATEGY

## BUSINESS PROSPECT AND 2026 STRATEGY

Global economic uncertainty is expected to persist, driven by ongoing trade protectionism and heightened geopolitical tensions across several regions. The implementation of reciprocal tariff policies by the United States government may disrupt global supply chains, increase economic fragmentation, and weigh on global growth momentum.

Referring to the January 2026 World Economic Outlook released by the International Monetary Fund (IMF), unilateral tariff policies implemented by the United States are projected to reduce imports while supporting exports, thereby lifting overall growth. Investment activity is expected to improve moderately, strengthening domestic demand, consumption, and labor market

conditions, with U.S. growth projected at 2.4%, up from 2.1% in the previous year. Nevertheless, the IMF highlights the significant increase in federal government debt as an additional risk to both U.S. and global stability.

Advanced European economies are projected to gradually adjust their recovery, supported by improved consumption amid monetary easing, fiscal stimulus, and front-loading of exports ahead of trade arrangements with the U.S. Meanwhile, emerging economies, including India and ASEAN+ countries, are expected to remain resilient and post growth above the global average, although trade tensions with the U.S. may moderate growth in China, India, and several Latin American countries. Overall, the IMF projects global growth in 2026 at 3.3%, unchanged from 2025.

### Global Economic Growth Forecast

Geopolitical tensions, fragmented economic growth, and prolonged uncertainty are projected to weigh on global trade volumes and lead to lower primary energy commodity prices, while global inflation is expected to continue declining. Ongoing uncertainty has also triggered capital outflows from Emerging Markets toward safe haven assets, particularly U.S. bonds and gold. Data from the World Gold Council (WGC) show that central banks added 53 tons of gold to their reserves in October 2025, a significant increase from 19 tons in August 2025.

## BUSINESS PROSPECT AND 2026 STRATEGY

Amid the global slowdown, Indonesia's economy is expected to remain resilient in 2026. The Government has set an economic growth target of 5.4%, higher than the 2025 realization, supported by strengthening performance in strategic sectors such as manufacturing, agriculture, and energy. This outlook is further underpinned by relatively stable household purchasing power and a conducive investment climate, supported by continued efforts to enhance legal certainty and enforcement.

Macroeconomic stability is expected to be maintained, with inflation projected to remain within target range of 1.5%–3.5%, and the Rupiah exchange rate remaining relatively stable at around Rp16,500 per US dollar.

Based on the assessment of BSI's economic team, the 2026 outlook is supported by eight key pillars, namely the normalization of global trade, asset reallocation to emerging markets, increasing attractiveness of the Rupiah, continuity of priority government programs, the impact of economic policy ("Purbaya Effect"), resilient domestic consumption, the downstreaming agenda, and projections of key economic indicators. The combination of these factors provides a relatively strong foundation for Indonesia's economy, although external risks remain elevated.

Domestic optimism is expected to support banking credit and financing growth, which Bank Indonesia projects to grow in the range of 8%–12% in 2026, accompanied by sound asset quality.

In line with this outlook, BSI projects that total Sharia banking assets will reach Rp1,205 trillion, with financing of approximately Rp794 trillion, representing growth of nearly 11.9%, and TPF of Rp952.9 trillion, grew by 12.55%.

At the downstream level, the halal industry is expected to become a key driver of trade and consumption performance. Domestic halal product consumption is projected to reach US\$259.8 billion in 2026, growing by approximately 5.88% and accounting for more than 30% of national household consumption. On the export side, halal products contribute around 20% of Indonesia's total non-oil and gas exports and are projected to increase to US\$73.9 billion,

with growth of approximately 8.73%, including continued expansion of non-palm-oil exports.

## SWOT ANALYSIS

BSI continuously monitors global and domestic developments that may affect the Bank's performance and risk profile. To assess its competitive positioning and support informed strategic decision-making, BSI conducts a Strengths, Weaknesses, Opportunities, and Threats (SWOT) analysis.

The SWOT analysis evaluates both internal and external factors relevant to the Bank's operations. Internal factors are reflected in the assessment of strengths and weaknesses, while external factors are analyzed through the identification of opportunities and threats. The outcomes of this analysis serve as an important input in formulating BSI's strategic direction and strengthening its ongoing risk management framework.

## BUSINESS PROSPECT AND 2026 STRATEGY

### Strengths

- BSI has the largest scale of assets, financing, and network in the national Islamic banking industry.
- Ownership of both Islamic Bank and Bullion Bank licenses provides unique differentiation in the banking industry, opening opportunities in the gold business and expanding sources of income.
- Has an office network totaling more than 1,000 outlets in Indonesia, as well as overseas office networks.
- Has a large customer base, thereby providing potential for product cross selling.
- Digital platforms such as BYOND by BSI, BSI Net, BeWize, QRIS, ATM, and EDC support the increase of digital transactions and service efficiency.

### Opportunities

- Indonesia has the largest Muslim population in the world, which represents significant potential for the development of Islamic finance. Growth in the global and national sharia economy.
- The Bullion Bank license opens opportunities for the development of gold investment products, gold custody, and gold-based financing.
- The growth of halal industries such as halal food, halal tourism, and halal lifestyle opens new financing opportunities for BSI.
- BSI's positioning in the Islamic banking industry is strong.
- Government policy support in the development of the national sharia economy serves as a catalyst for BSI's growth.

### Weaknesses

- The level of public understanding regarding Islamic banking products remains a challenge in business expansion.
- The low-cost fund structure (CASA) still needs to be improved to become more competitive.
- The transformation of systems and business processes still requires continuous refinement.

### Threats

- Conventional banks and fintech companies offer increasingly competitive digital services.
- Rising global interest rates, liquidity pressures, and economic uncertainty may affect business growth.
- Liquidity competition among banks may increase the cost of funds and put pressure on margins.
- Digital transformation increases the need for technology investment as well as the strengthening of system security.

## STRATEGY FOR 2026

In 2026, PT Bank Syariah Indonesia Tbk (BSI) will continue its growth strategy while maintaining the Winning Game Plan that has proven to provide added value in the previous year. This strategy is implemented through the 3-on-3 Strategy framework, strengthened by the Better Way of Working approach to respond to new opportunities and challenges in the financial industry, including competitive dynamics, changes in customer behavior, and the strengthening of BSI's role in the National Sharia Economic ecosystem.

The 3-on-3 Strategy focuses on three main pillars. The first pillar is Winning Low-Cost Fund, which is directed at strengthening the funding structure through the development of transaction solutions, optimization of funding sources based on Unique Sharia Funding, and effective management of tactical funds. The second pillar is Maintaining Asset Quality, which emphasizes disciplined financing quality management through strategies to control net downgrade, optimize recovery collection, and selectively expand financing into segments with optimal yield potential (high yield) while still prioritizing prudential principles. The third pillar is Productivity Enhancement, which

## BUSINESS PROSPECT AND 2026 STRATEGY

focuses on improving organizational productivity through strengthening employee performance, optimizing information technology development, and managing operational expenditures more efficiently through the prioritization of high-impact branding and promotion activities.

In line with the strengthening of this strategy, BSI is also introducing the 2026 Game Changer by utilizing its “dual license,” leveraging the advantages of its dual licenses as an Islamic Bank and a Bullion Bank. This approach is strengthened through the implementation of Better Way of Working, which emphasizes leadership based on segments, products, and sales (segment leadership, product leadership, and sales leadership) to strengthen market mastery and accelerate the development of sharia and bullion products. In addition, BSI is also driving regional expansion, particularly in the Greater Jakarta area, accelerating IT and digital service transformation,

strengthening independent risk management particularly in Bullion risk management, as well as instilling a culture of service based on the values of empathy, service, and the spirit of wholehearted service to customers.

Through the combination of the 3-on-3 Strategy, strengthening the dual-engine Sharia & Bullion Bank, and transforming ways of working to become more agile and collaborative, BSI is optimistic that it can strengthen competitiveness, expand the sharia financial ecosystem, and drive healthy and sustainable business growth in 2026 and beyond.

Net profit of the segment after zakat and tax amounted to Rp1.00 trillion, an increase of Rp97.53 billion or 10.78% compared to 2024 of Rp904.53 billion. The increase in net profit was mainly influenced by an increase in other operating income.

# PIONEERING AND STRENGTHENING SUSTAINABLE BUSINESS

## COMMITMENT TO SUSTAINABLE DEVELOPMENT GOALS

As part of the global effort to balance economic, social, and environmental performance, nearly all member states of the United Nations (UN) have agreed to adopt the Sustainable Development Goals (SDGs) as a framework for national development. The SDGs comprise 17 global goals to be achieved during the 2016–2030 period and serve as a reference for policy formulation and development programs across member countries.

To support and monitor the achievement of SDG targets, regular meetings are conducted through the Conference of the Parties (COP), coordinated by the United Nations Framework Convention on Climate Change (UNFCCC). This forum functions as a global platform for addressing climate change and advancing sustainable development initiatives.

As one of the leading players in Indonesia's Islamic banking industry, BSI is not solely focused on financial performance, but also places strong emphasis on environmental, social, and governance (ESG) impacts. BSI implements various sustainability initiatives across economic, social, and environmental dimensions, and regularly reports both plans and realizations through its Sustainable Finance Action Plan to the Financial Services Authority, as well as through its Sustainability Report to investors. These efforts demonstrate BSI's commitment to supporting the achievement of the SDGs in a structured and measurable manner.

As the largest Islamic bank by assets in Indonesia, BSI fully supports the Government of Indonesia's targets as outlined in the National Action Plan (RAN) for Sustainable Development, including the commitment to reduce greenhouse gas (GHG) emissions by 29% through domestic efforts and up to 41% with international support by 2030, using 2019 as the baseline year.

## BSI'S PARTICIPATION IN CLIMATE CHANGE MITIGATION EFFORTS

The increasing frequency and intensity of extreme weather events across various regions have led to significant economic losses and social challenges. In response, the UNFCCC has facilitated the development of a global roadmap through Nationally Determined Contributions (NDCs), aiming to limit global warming by reducing global GHG emissions by 60% by 2035, based on 2019 emission levels.

At COP 30, the UNFCCC presented an ambitious target to achieve Net Zero Emissions by 2060. The forum also outlined an estimated global funding requirement of up to US\$1.3 trillion to support energy transition efforts in developing countries. The allocation of funding contributions from developed countries remains subject to further discussion at COP 31 in Turkey. As of COP 30, a consensus on the phased-out use of fossil energy had not yet been reached.

Indonesia has actively contributed to global climate mitigation efforts. In 2021, Indonesia submitted its First NDC, committing to reduce GHG emissions by 29% independently and up to 41% with international support by 2030. This was followed by the Enhanced NDC in 2022, which increased emission reduction targets to 31.89% through domestic efforts and 43.2% with international support. In 2025, Indonesia submitted its Second NDC, maintaining the same reduction targets while transitioning from a business-as-usual approach to an absolute emissions level target, serving as a policy framework for the 2031–2035 period.

To strengthen the domestic regulatory framework, in 2023 OJK issued POJK No.17/2023 on Governance Implementation for Commercial Banks, which requires banks to mitigate climate change risks affecting asset quality, in line with the adoption of IFRS 1 and IFRS 2 in financial reporting. Several major banks in Indonesia have disclosed their compliance efforts through Annual Reports and Sustainability Reports submitted to OJK.

## PIONEERING AND STRENGTHENING SUSTAINABLE BUSINESS

In line with these requirements, BSI has progressively undertaken various initiatives to identify, manage, and mitigate climate-related risks within its operations, as part of strengthening sustainable governance and integrated risk management.

### **BSI Initiatives in Complying with POJK No. 17/2023 and Preparation of IFRS S1 and IFRS S2 Application**

In response to the issuance of POJK No. 17/2023 and in line with the preparation for the implementation of the IFRS Sustainability Disclosure Standards (IFRS S1 and IFRS S2), which have been adopted into PSPK 1 and PSPK 2 in Indonesia, PT Bank Syariah Indonesia Tbk (BSI) has undertaken various strategic initiatives and preparatory measures. During the initial phase of adoption, the Bank has prioritized its efforts on IFRS S2, focusing on climate-related risks and opportunities.

The initiatives undertaken and planned by BSI include the following:

- **Strengthening Governance and Internal Capacity Building**

BSI has actively participated in the standard-setting and consultation process by submitting responses to the Exposure Drafts of PSPK 1 and PSPK 2 issued by the Financial Services Authority (OJK). In addition, BSI took part in the Roundtable Discussion on ESG IFRS S1 and S2 for Islamic Banking and the establishment of an ESG Working Group organized by Asbisindo.

To enhance internal capabilities, BSI participated in several training programs and workshops, including Sustainability Mastery with IFRS training organized by the Indonesian Institute of Accountants (IAI) through BSI Corporate University, as well as workshops on the implementation of PSPK 1 and PSPK 2 for Mandiri subsidiaries. Internally, BSI has conducted cross-unit discussions related to the implementation of PSPK 1 and PSPK 2 and performed self-assessments to evaluate existing readiness and alignment with the requirements of the standards.

BSI has also reviewed best practices through various reference materials, including Climate-Related Reports, TCFD Reports, IFRS S1 and S2 Reports, and Sustainability Reports from institutions that have implemented similar standards.

- **Integration of Climate Change Risks into the Risk Management Framework**

In line with its initial focus on IFRS S2, BSI is gradually developing and strengthening its Climate Risk Management and Scenario Analysis (CRMS) framework as an integral part of the Bank's overall risk management system. This framework aims to enhance understanding of the potential impacts of physical and transition climate risks on the Bank's financing portfolio, asset quality, and overall risk profile.

- **Strengthening Financing Policies and Environmentally Responsible Portfolio Management**

BSI has implemented environmentally friendly Sharia-compliant financing and currently maintains a portfolio across seven Environmentally Sustainable Business Activities (KUBL), namely:

- Sustainable Management of Living Natural Resources and Land Use
- Products that Reduce Resource Consumption and Generate Less Pollution
- Renewable Energy
- Other Environmentally Sustainable Business Activities
- Green Buildings that Meet National, Regional, or International Standards or Certifications
- Sustainable Water and Wastewater Management
- Environmentally Friendly Transportation

## PIONEERING AND STRENGTHENING SUSTAINABLE BUSINESS

To mitigate potential risks and protect asset quality, BSI has incorporated environmental aspects into its Operational Technical Guidelines (PTO) Industry Acceptance Criteria (IAC). Furthermore, the Green Transportation sector and the Sustainable Management of Living Natural Resources and Land Use sector have been designated as new industry classes under the Standard Business Procedure (SPB) Portfolio Guideline.

Through these initiatives, BSI remains committed to ensuring that climate change risk management is proportionally integrated into the Bank's governance and risk management framework, thereby supporting asset quality resilience and the long-term sustainability of business performance.

- **Enhancement of Systems, Data, and Sustainability Reporting Readiness**

BSI continues to enhance system readiness, data governance, and supporting infrastructure to ensure the availability of reliable sustainability-related risk and opportunity data. These efforts support effective risk monitoring, management decision-making, and the gradual improvement of sustainability disclosures, particularly climate-related disclosures, in an integrated manner with the Bank's financial reporting.

## OPERATIONAL REVIEW PER BUSINESS SEGMENT

The segment performance discussion in this Annual Report is prepared with reference to the “Segment Information” note presented in the Audited Financial Statements for the year ended 2025. This presentation is intended to provide a clear and consistent overview of the Bank’s financial and operational performance across its distinct lines of business.

Since 2022, BSI has implemented changes to the presentation of operating segments used in internal management performance reporting. These changes were made to enhance the relevance and transparency of performance information in line with the Bank’s management structure and decision-making processes.

Accordingly, the Bank identifies and discloses financial information based on its principal business activities (operating segments), which are classified into Corporate Banking, Commercial Banking, Institutional Relationship, Retail, as well as Treasury Banking and Head Office. This segmentation reflects management’s approach to resource allocation, performance monitoring, and focused risk management across the Bank’s business portfolio.

### BSI as Indonesia’s First Bullion Bank

BSI is the first bank in Indonesia to obtain regulatory approval to conduct integrated fund collection and distribution activities alongside licensed gold trading operations. Under this mandate, BSI carries out core activities that support gold ownership and trading, both through installment-based financing and pawn-based structures, as part of its asset-backed Islamic banking services.

To optimize this opportunity, BSI offers two primary gold acquisition channels, namely Gold Financing and Digital Gold. These services are designed to provide customers with flexible access to gold investment instruments that align with their financial needs and risk preferences.

In line with the growing perception of gold as a preferred investment and hedging asset, transaction volumes for gold purchases throughout 2025, across both Gold Financing and Digital Gold, continued to increase. This trend has contributed positively to the Bank’s funding growth and the expansion of non-interest income derived from gold ownership and trading activities.

# CORPORATE BANKING

## PERFORMANCE HIGHLIGHTS 2025

### Financing

Rp **70.84** trillion  
 ▲ Rp **12.12** trillion  
 20.65% yoy

**2024:** Rp58.72 trillion

### Funding

Rp **44.36** trillion  
 ▲ Rp **22.74** trillion  
 105.21% yoy

**2024:** Rp21.62 triliun

### Net Profit (after zakat & tax)

Rp **1.00** billion  
 ▲ Rp **97.53** billion  
 10.78%

**2024:** Rp904.53 billion

### Business Scope

The Corporate Banking segment serves large scale business entities, including State-Owned Enterprises (SOEs) and their subsidiaries, state institutions, multinational companies, non-bank financial institutions (including non-linkage venture capital), syndicated financing, publicly listed companies, as well as securities companies. A description of Corporate Banking products and services is presented in the Profile section – Products and Services Subsection of this Annual Report.

### Competitive Advantages and Innovation

In 2025, BSI's Corporate Banking segment was supported by its position as the largest Islamic bank in Indonesia, offering end-to-end Sharia-compliant corporate financing capabilities, a

robust halal ecosystem, and strong networks and synergies with SOEs and the government.

BSI continued to advance innovation through enhanced digital corporate banking and integrated cash management services, more flexible Sharia-based financing and treasury solutions tailored to corporate needs, and optimized ecosystem and value-chain approaches. These initiatives aim to improve efficiency, customer loyalty, and fee-based income.

### Strategy in 2025

To address challenges within the Corporate Banking segment, BSI implemented strategies focused on strengthening risk management and improving financing quality, sharpening priorities

## CORPORATE BANKING

on key sectors and the halal ecosystem, and diversifying Sharia-based products and services, including cash management and trade finance.

On the funding side, BSI strengthened the acquisition of low-cost funds from corporate customers through service digitalization. Overall, the Corporate Banking segment continued the sustainable strategies adopted in the previous year, with adjustments to sector priorities, risk management, and accelerated execution in line with prevailing conditions during 2025.

**Productivity, Revenue, and Profitability**

Pada aspek pendanaan, terjadi peningkatan sebesar Rp22,75 triliun atau 105,21% yoy dibandingkan tahun 2024 sebesar Rp21,62 triliun.

Net profit of the segment after zakat and tax amounted to Rp1.00 trillion, an increase of Rp97.53 billion or 10.78% compared to 2024 of Rp904.53 billion. The increase in net profit was mainly influenced by an increase in other operating income.

| (1)                                     | (2)        | (3)        | (4)=(3)-(2) | (5)=(4/2) |
| Total Financing                         | 58,719,889 | 70,842,980 | 12,123,092  | 20.65%    |
| NPF (%)                                 | 2.24%      | 1.76%      | (0.48%)     | (21.43%)  |
| Total Funding / Third Party Funds (TPF) | 21,619,859 | 44,366,869 | 22,747,010  | 105.21%   |
| Net Fund Management Income              | 1,076,107  | 1,042,480  | (33,627)    | (3.12%)   |
| Other Operating Income                  | 374,100    | 444,885    | 70,785      | 18.92%    |
| Operating Expenses                      | (151,526)  | (233,113)  | (81,587)    | 53.84%    |
| Allowance for Impairment Losses (CKPN)  | (109,297)  | 61,612     | 170,909     | (156.37%) |
| Profit After Zakat and Tax              | 904,526    | 1,002,058  | 97,532      | 10.78%    |

**Business Outlook and Strategy for 2026**

Looking ahead, the Corporate Banking segment is expected to maintain a positive outlook, supported by improvements in financing quality and profitability, as reflected in financing growth and a declining NPF ratio. The development direction for 2026 and beyond will focus on selective and high-quality growth by prioritizing key sectors, particularly strategic industries, SOEs, government projects, and Indonesia's halal ecosystem.

Business development will also emphasize strengthening fee-based income through optimized cash management, trade finance, and Sharia treasury services, alongside sustained cost efficiency and prudent risk management. Continued digitalization of corporate banking services and ecosystem-based approaches are expected to enhance customer loyalty, deepen business relationships, and support the segment's sustainable contribution to BSI's overall performance.

The Commercial Banking segment serves medium-sized enterprises, including Regional-Owned Enterprises (BUMD) and their subsidiaries, regional governments, hospitals (except those governed under special products), and public and private universities (foundations managing higher education institutions). Descriptions of Commercial Banking products and services are presented in the Profile – Products and Services section of this Annual Report.

### Competitive Advantages and Innovation in 2025

In 2025, the Commercial Banking segment of BSI demonstrated competitive advantages supported by cross-unit collaboration and ecosystem development, with the following key focuses:

1. Lead Collaboration with MUF in Joint Financing  
Commercial Banking acts as the leading Business Unit in developing joint financing collaboration with MUF for the Wholesale segment, covering Commercial and Corporate customers.
2. Retail and Consumer Business Collaboration  
The segment serves as an entry point for retail and consumer business development, contributing to growth in third-party funds (TPF) and financing.

## CORPORATE BANKING

3. Hospital Business Financing – Top Branding Commercial Banking positions BSI as an advanced bank in hospital financing management, with a portfolio of Rp8.67 trillion and approximately 560 hospital customers.
4. Highest DPK Impact  
Strengthened collaboration with PP Muhammadiyah resulted in 24.30% growth in PP Muhammadiyah's TPF at BSI during 2025.

### Strategy in 2025

The 2025 Commercial Banking strategy focused on four main pillars:

- Target Segment
  - » Acquisition of Top Players in Indonesia
    - Conglomerates and business groups of BUMD and reputable private entities within the Commercial segment.
    - Potential existing non-borrower TPF customers (in collaboration with managing branches).
    - Prominent entrepreneurs in each RCB/ACB region (local champions).
    - Collaboration with branches managing wealth/priority customers who are entrepreneurs.
  - » Layer 2 (L2) of BSI Corporate Business Customers
    - Targeting L2 of approximately 128 Corporate Business customers with performing status or in line with recommendations.
    - Intensive coordination with Corporate Business 1 (CB1), Corporate Business 2 (CB2), and Corporate Business 3 (CB3) to explore and access potential L2 customers.
- People Organization
  - » Enhancing Employee Capabilities
    - Collaboration with Risk Unit Pairing and BSU to develop sector-focused financing training syllabi.
    - Industry and priority-sector seminars.
    - Mandatory training and competency certification aligned with job levels.

- » Rewards and Benefits for High-Performing Employees
  - Structured mutation and promotion system based on proper talent pooling.
  - Performance-based rewards aligned with organizational needs.

- Product / Program
  - » Joint Financing Program with MUF for Wholesale Customers
    - Refreshment and program socialization.
    - Preparation of booking gimmicks in collaboration with MUF.
  - » Supply chain ecosystem development through Distributor Financing.
  - » Healthcare ecosystem development through BPJS Kesehatan Supply Chain Financing (SCF).
- Campaign
  - » Event sponsorships based on requests from customers, prospective customers, and business communities.
  - » Vendor gatherings and other sponsorship activities.
  - » Collaborative initiatives with Commercial Banking customers and related Business Units.

### Productivity, Revenue, and Profitability

Total financing in the Commercial Banking segment as of December 2025 was recorded at Rp19.96 trillion, increasing by Rp1.46 trillion or 7.89% compared to Rp18.50 trillion in 2024. Total funding also increased from Rp12.01 trillion in 2024 to Rp21.05 trillion in 2025.

Net fund management income was recorded at Rp519.29 billion, increasing by Rp55.45 billion or 11.95% compared to Rp463.84 billion in 2024. Segment net profit after zakat and tax amounted to Rp300.39 billion, up by Rp55.83 billion or 22.83% compared to Rp244.56 billion in 2024.

## Business Outlook and Strategy for 2026

The 2026 Commercial Banking outlook and strategy are structured around four approaches: Optimization, Collaboration, Expansion, and Program-Based:

- Optimization
  - Optimization of the withdrawal flexibility of established financing facilities.
  - Continuous fulfillment of customer needs through investment financing to maintain outstanding balances and long-term loyalty.
- Collaboration
  - Wholesale-retail collaboration to capture potential value chain financing and corporate customer groups.
  - Synergy in accelerating SLA through the risk pairing group.
- Expansion
  - Expansion of sector focus beyond the sectors currently dominated by commercial, namely education, healthcare, and trade.
- Program-Based
  - Strengthening cooperation such as with PP Muhammadiyah and NU through business ecosystem development.

# INSTITUTIONAL RELATIONSHIP

## PERFORMANCE HIGHLIGHTS 2025

### Funding

Rp **103.83** trillion

▲ Rp **14.37** trillion  
16.07% yoy

**2024:** Rp89.46 trillion

### Net Fund Management Income

Rp **5,203.79** billion

▲ Rp **460.79** billion  
9.72% yoy

**2024:** Rp4,743.00 billion

### Net Profit (after zakat & tax)

Rp **261.58** billion

### Business Scope

The Institutional Relations segment is focused on fund management and financial transactions of institutional customers that do not have financing facilities (financing line). This segment serves, among others, Ministries, State Institutions, Public Service Agencies (Badan Layanan Umum or BLU), sui generis institutions, SOEs and their subsidiaries, Regional-Owned Enterprises (BUMD) and their subsidiaries, Regional Governments, Regional Public Service Agencies (BLUD) and their subordinate units, Government Working Units under Ministries, State Universities, Hospitals (owned by the Government, Ministries, SOEs, BUMD, and State Institutions), and Public Private Companies. A description of Institutional Relations products and services is presented in the Profile section – Products and Services subsection of this Annual Report.

### Competitive Advantages and Innovation

In 2025, the Institutional Relationship segment of BSI continued to strengthen synergies and collaboration with institutional partners through

the development of transaction, operational, and technology-based solutions. These initiatives aim to deliver added value and support institutional operational needs in an effective and sustainable manner.

The segment's competitive advantage is underpinned by the utilization of integrated technology-based services, including the Cash Management System (CMS), BSI e-Health, BSI Institutional Payment (BPI), and system integration for reporting and transaction needs through Application Programming Interface (API) and/or Host-to-Host (H2H) connectivity. Continuous innovation enables BSI to address the evolving operational requirements of Ministries and Institutions with greater reliability and efficiency.

### Strategy in 2025

In 2025, the Institutional Relationship segment implemented a sustainability-oriented strategy to support performance, with the following key priorities:

- Increasing institutional transaction current

## INSTITUTIONAL RELATIONSHIP

accounts through the utilization of the BEWIZE application for targeted institutions.

- Driving fund growth, particularly placement and transaction current accounts, through optimized institutional collaboration and programs.
- Enhancing understanding of customer needs through analysis of institutional cash in and cash out patterns to deliver more effective solutions.
- Optimizing the placement of institutional funds while managing customer concentration risk in accordance with the Bank's risk management policies.
- Expanding the institutional customer base through ecosystem development across Ministries and Government Institutions, Regional Governments, Public Universities, State-Owned Hospitals, subsidiaries of Regional-Owned Enterprises, and publicly listed private companies.

### Productivity, Revenue, and Profitability

Total funding in the Institutional Relations segment in December 2025 was recorded at Rp103.83 trillion, increasing by Rp14.37 trillion or 16.07% YoY compared to Rp89.46 trillion in 2024.

Fund management income as mudharib in 2025 was recorded at Rp5,203.79 billion, increasing by 9.72% compared to Rp4,743.00 billion in 2024. Profit in 2025 was recorded at Rp261.58 billion

Segment performance was influenced by several key factors:

- Effective collaboration with institutional customers through a combination of technology solutions, strong products and after-sales services, competitive profit-sharing schemes, capable relationship managers, and the Bank's established reputation.
- Strong institutional trust, positioning BSI as a strategic partner in facilitating customer operations.
- System stability for both institutional users and civil servants, reinforcing trust at both institutional and individual levels.

### Institutional Relations Segment Performance

(In Rp million)

| Description                             | 2024       | 2025        | Growth      |           |
|-----------------------------------------|------------|-------------|-------------|-----------|

### Business Outlook and Strategy for 2026

Looking ahead to 2026, the outlook for the Institutional Relationship segment is expected to be increasingly dynamic, with heightened competition and complexity. To address these conditions, BSI has outlined the following strategic directions:

- Focusing on Pareto customers among Ministries and Government Institutions with the largest state budget allocations, by optimizing fund placements and developing ancillary businesses such as payroll services, Hajj Savings, Gold Savings, and consumer financing.
- Optimizing institutional fund placements while managing concentration risk in line with management policies.
- Increasing fund growth, particularly placement current accounts and derived transactions, through strengthened ecosystems within Regional Governments, Public Universities, State-Owned Hospitals, and targeted government institutions, thereby maintaining close-loop fund flows and sustaining Third Party Funds within BSI.
- Consistently maintaining relationships with key institutional stakeholders and responding proactively to organizational and nomenclature changes within Ministries and Institutions.

### Business Scope

BSI's Retail Segment comprises three main sub-segments: Retail Small and Medium Enterprise (SME), Retail Micro, and Retail Consumer. These sub-segments serve a significant role in supporting the Bank's intermediation function while contributing to the expansion of Islamic financial inclusion.

The Retail SME sub-segment serves private business entities, both incorporated and unincorporated, for productive purposes, including working capital and investment financing. The Retail Micro sub-segment focuses on individual customers and micro-entrepreneurs, including the distribution of subsidized financing to support government programs aimed at empowering community-based businesses. Meanwhile, the Retail Consumer sub-segment provides financing to individuals for consumptive and multipurpose needs, including housing, multipurpose, vehicle, pension, financing cards, gold installment, gold pawning, and government-supported financing programs.

Further details on Retail Segment products are presented in the Product and Services subsection of the Bank Profile section of this Annual Report.

### Competitive Advantages and Innovation

The Retail Segment benefits from competitive advantages derived from long-term relationships with individual customers and the availability of comprehensive transactional data, enabling more targeted and relevant product offerings. To support funding stability, the segment emphasizes the growth of low-cost funds (Current Account Saving Account/CASA).

In line with the Bank's digital transformation agenda, the Retail Segment continues to enhance service innovation, particularly through the strengthening of the BYOND by BSI SuperApps to support daily transactions, investment activities, and integrated Islamic financial services. Digitalization of processes and service channels is directed at improving productivity, reducing reliance on physical transactions, and enhancing operational efficiency on a sustainable basis.

## RETAIL

### Retail Segment Strategy in 2025

In 2025, the Retail Segment focused its strategy on increasing CASA growth through a cluster-based approach, encompassing office clusters, residential clusters, and entrepreneur or business clusters. This strategy is implemented through a one-stop solution concept, providing comprehensive banking products and services to support customers' financial activities.

### Productivity, Revenue, and Profitability

Ongoing digital transformation initiatives have contributed positively to improvements in Retail Segment productivity. Continuous development of digital channels has reduced reliance on physical transactions and supported improvements in efficiency ratios. As a result, savings growth reached 12.92% year-on-year (yoy) as of September 2025. Overall TPF growth was driven primarily by the retail and individual segments, with a focus on CASA growth, thereby supporting a lower cost of funds.

Total financing in the Retail Segment as of December 2025 was recorded at Rp228.04 trillion,

increasing by Rp26.78 trillion or 13.31% year-to-year (yoy) compared to Rp201.26 trillion in 2024. The increase was primarily driven by Retail Consumer growth, which contributed Rp13.77 trillion. On the funding side, total Retail Segment funding increased by 2.75%, from Rp205.23 trillion in 2024 to Rp210.86 trillion in 2025.

Net fund management income of the Retail Segment as of December 2025 reached Rp14.64 trillion, increasing by Rp1.18 trillion or 8.79% yoy compared to Rp13.46 trillion in 2024. Other operating income also increased by 1.75% ytd, from Rp2.26 trillion in 2024 to Rp2.30 trillion in 2025. However, the Retail Segment's impairment expenses (CKPN) rose significantly by Rp552.99 billion or 31.47% compared to 2024. This increase was attributable to the Bank's risk mitigation measures through additional CKPN provisioning as an anticipatory step against potential defaults from customers affected by the Sumatra (Aceh) disaster. As a result, profit after zakat and tax declined by 2.54%, from Rp5.93 trillion in 2024 to Rp5.78 trillion in 2025.

### Business Outlook and Retail Segment Strategy for 2026

Amid expectations of a stable and resilient banking industry in 2026, the Retail Segment is well positioned to continue its growth trajectory. Going forward, the segment will focus on increasing savings while maintaining the distinctive strengths of Islamic banking services.

Key savings products include Easy Savings for individual customers, Payroll Savings for institutional customers conducting payroll through BSI, including BO2, SOEs, hospitals, and private sector institutions, Business Savings for entrepreneurs offering free transactions and competitive limits through entrepreneur and MSME communities, and Hajj Savings to support planning, registration, and settlement of pilgrimage activities.

### Business Scope

Treasury Banking and Head Office segment functions as a supporting segment encompassing liquidity management, financial markets, and centralized banking functions. This segment comprises:

- Treasury Banking, which includes the Bank's treasury activities, such as foreign exchange transactions, money market operations, fixed income instruments, international banking activities, capital markets, and supervision of Overseas Branches.
- Head Office, which covers the management of assets and liabilities not allocated to other operating segments, including cost allocations for centralized services provided to other segments, as well as income and expenses not specifically attributable to other reportable segments.

Further details on Treasury Banking and Head Office products and services are presented in the Profile – Products and Services subsection of this Annual Report.

### Competitive Advantages and Treasury Innovation

- BSI's Treasury & Global Market (TGM) continues to develop competitive and innovative Sharia-compliant treasury products and services to support both retail and institutional customers. Key competitive strengths include:
- Provision of integrated one-stop treasury solutions for Sharia-compliant transactions.
- Treasury products and services supporting the Hajj and Umrah ecosystem.
- Strategic partnership role in deepening the Islamic financial market through the development and implementation of Sharia-compliant foreign exchange and money market instruments.
- Active participation in the development of the Government Sukuk (SBSN) market, both as a Primary Dealer and through secondary market trading.
- An active role as a market maker in the Rupiah and foreign exchange money markets, as well as in the Sharia Government Securities (SBSN) market, supporting market liquidity and the orderly functioning of Islamic financial markets.

TREASURY BANKING AND HEAD OFFICE

- Extensive domestic and international counterparty networks.

**Treasury Banking Strategy in 2025**

To support treasury business growth, TGM BSI implemented the following key strategies in 2025:

  - **Product and Service Development**  
Expansion of Sharia-compliant hedging products, including Islamic Forward, Islamic Hedging Multiple Spot (Par Forward), and Islamic Swap, retailization of SBSN, alternative treasury funding products, and Sharia money market instruments tailored to retail and institutional needs.
  - **Strengthening Partnerships and Business Networks**  
Execution of Memoranda of Understanding and cooperation agreements related to the Sharia Master Hedging Agreement, Sharia Repurchase Agreements, and Sharia money market transactions under Wakalah Bi Al Istitsmar with strategic partners.
  - **Infrastructure Strengthening and Cross-Unit Synergy**  
Establishment of Transaction Banking Foreign Exchange (TBFX) units in Aceh, Medan, Bandung, and Surabaya in collaboration with the Transaction Banking Wholesale Group, aimed at strengthening organizational capabilities and optimizing network potential, including expansion of domestic and international remittance segments.
- **Revenue Optimization and Cost of Fund (CoF) Monitoring**  
Implementation of liquidity management mechanisms to maintain an efficient Cost of Fund while optimizing fund deployment through financing and treasury transaction services.
  - **Bullion Bank Ecosystem Development**  
Expansion of the bullion banking ecosystem through increased transaction volumes, strengthened digital services, and more efficient gold inventory management to support customer growth and new revenue sources.

**Productivity, Revenue, and Profitability**

As of December 2025, net fund management income of the Treasury Banking and Head Office Segment was recorded at Rp1.72 trillion, increasing by Rp12.38 billion or 0.73% year-to-year compared to Rp1.71 trillion in 2024. In addition, other operating income rose significantly by 48.19% year-to-year, from Rp2.73 trillion in 2024 to Rp4.04 trillion in 2025.

## TREASURY BANKING AND HEAD OFFICE

### Business Outlook and Treasury Strategy for 2026

Based on the 2026 financial projections, Treasury & Global Market has formulated strategic initiatives to enhance fee-based income, particularly through transaction intensification across priority customer segments, Hajj and Umrah travel participants, and remittance companies.

The 2026 Treasury strategy focuses on:

- Achievement of Fee-Based Income (FBI) Targets
  - Provision of Sharia-compliant treasury transaction products through nationwide branch network synergies.
  - Digitalization of Sharia foreign exchange and Sukuk transaction services via BSI's digital platforms.
  - Expansion of SBSN retailization programs and potential customer ecosystems.
  - Development of alternative Sharia money market transaction products.
  - Broader customer segmentation and expansion of strategic counterparties.
  - Enhancement of wholesale transaction performance through cross-group collaboration to increase share of wallet.
  - Further development of bullion banking products and services aligned with customer needs.
- Business Process Improvement
  - Development of Sharia contracts, products, and treasury services in coordination with regulators, industry associations, and financial market participants.
  - Strengthening treasury system infrastructure to support digitalization.
  - Enhancement of treasury human capital competencies.
  - Refinement of internal business processes to improve service quality and prudential standards.
  - Implementation of targeted marketing strategies aligned with customer characteristics and needs.

# FINANCIAL REVIEW

The following financial review is based on the Financial Statements of BSI for the year ended 31 December 2025, as presented in this Annual Report. The Financial Statements have been audited by Purwanto Susanti and Surja, an independent public accounting firm.

The independent auditor has expressed an opinion that the Financial Statements present fairly, in all material respects, the financial position of BSI as of 31 December 2025, as well as its financial performance and cash flows for the year then ended. The Financial Statements comprise the statements of profit or loss and other comprehensive income, cash flows, reconciliation of income and profit-sharing, sources and distribution of zakat funds, and sources and uses of benevolent funds, and have been prepared in accordance with Indonesian Financial Accounting Standards.

## FINANCIAL PERFORMANCE

The financial performance of BSI for the reporting year reflects the results of integrated and prudent financial management. The presentation of the Bank's financial performance comprises the Statement of Financial Position, the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Cash Flows, the Statement of Reconciliation of Income and Profit-Sharing, the Statement of Sources and Distribution of Zakat Funds, and the Statement of Sources and Uses of Benevolent Funds, as discussed in the following sections:

## FINANCIAL REVIEW

### TOTAL ASSETS

Total assets of BSI stood at Rp456.19 trillion in December 2025, increased by Rp47.58 trillion or 11.64% year on year (yoy) compared to Rp408.61 trillion in 2024. The increase in assets was primarily driven by growth in net financing of Rp39.67 trillion, net fixed assets and right-of-use assets of Rp3.70 trillion, as well as an increase in other net assets of Rp3.19 trillion.

#### Cash

The cash position as of December 2025 was Rp8.69 trillion, increased by Rp610.08 billion or 7.55% yoy compared to Rp8.08 trillion in 2024. The increase mainly came from cash in transit amounting to Rp291.17 billion and ATM cash amounting to Rp208.97 billion.

#### Current Accounts and Placements with Bank Indonesia

Current accounts and placements with Bank Indonesia stood at Rp51.60 trillion in December 2025, increased by Rp1.64 trillion or 3.28% yoy compared to Rp49.97 trillion in 2024. The increase was mainly attributable to the increase in Wadiah current accounts with Bank Indonesia.

#### Current Accounts and Placements with Other Banks

Current accounts and placements with other banks (net) stood at Rp4.55 trillion in December 2025, rose by Rp685 billion or 17.71% yoy compared to Rp3.87 trillion in 2024. The increase was attributable to current accounts with other banks, which increased by Rp1.24 trillion compared to 2024.

#### Investments in Securities

Net investment in securities decreased by Rp2.57 trillion, from Rp62.22 trillion in December 2024 to Rp59.65 trillion in December 2025. The decrease mainly occurred in SUKBI instruments amounting to Rp3.20 trillion.

#### Acceptance Receivables

Acceptances receivable (net) was recorded at Rp686.19 billion in December 2025, an increase of Rp502.89 billion compared to 2024 of Rp183.29 billion. The increase was mainly attributable to the growth in import LC and SKBDN acceptance receivables of Rp498.60 billion, from Rp133.30 billion in 2024 to Rp631.90 billion in 2025.

#### Receivables

Receivables increased to Rp149.49 trillion in December 2025, up by Rp5.03 trillion or 3.48% yoy compared to Rp144.46 trillion in 2024. Primarily driven by growth in the consumer sector of Rp3.67 trillion, trade of Rp1.34 trillion, and agriculture of Rp740.53 billion.

#### Funds of Qardh

Qardh financing was recorded at Rp17.72 trillion in December 2025, increased by Rp3.95 trillion or 28.66% yoy compared to Rp13.77 trillion in 2024. This growth was primarily supported by an increase in gold pawn (rahn) financing of Rp3.98 trillion, from Rp8.08 trillion in 2024 to Rp12.06 trillion in 2025.

#### Financing

Financing reached Rp147.76 trillion in December 2025, increased by Rp30.64 trillion or 26.16% yoy compared to Rp117.12 trillion in 2024. Financing growth was driven by the consumer sector amounting to Rp16.28 trillion, trade amounting to Rp9.66 trillion, and business services amounting to Rp2.99 trillion.

#### Assets Acquired for Ijarah

Net assets acquired for ijarah were recorded at Rp3.86 trillion in December 2025, rose by Rp743.84 billion or 23.82% yoy compared to Rp3.12 trillion in 2024. The growth was primarily driven by the transportation equipment sector amounting to Rp720.61 billion and the property sector amounting to Rp464.67 billion.

#### Property, Equipment, and Right-of-Use Assets

Net fixed assets and right-of-use assets increased significantly to Rp11.42 trillion in December 2025, grew by Rp3.70 trillion or 47.87% yoy compared to Rp7.72 trillion in 2024. The increase was mainly driven by higher right-of-use assets amounted to Rp2.65 trillion and office equipment amounted to Rp1.37 trillion.

#### Intangible Assets

Net intangible assets amounted to Rp2.44 trillion in December 2025, rose by Rp334 billion or 15.88% compared to Rp2.10 trillion in 2024. The increase was primarily related to additional information technology licenses, including strengthening system security and developing the BYOND by BSI application.

## FINANCIAL REVIEW

**Deferred Tax Assets**

Deferred tax assets stood at Rp1.88 trillion, decreased by Rp181.40 billion or 8.82% compared to Rp2.06 trillion in 2024. The decline was influenced by the implementation of the Minister of Finance of the Republic of Indonesia Regulation No. 74 of 2024 concerning the establishment of allowance for doubtful accounts deductible from gross income, which resulted in adjustments to the deferred tax asset balance.

**Other Assets**

Other assets consist of, among others, prepaid expenses, SKBDN receivables from customers, foreclosed collateral, securities income receivables, accrued financing income, office supplies and stamp inventories, third-party receivables, ATM receivables, security deposits, and other items.

Other assets (net) were recorded at Rp7.42 trillion in December 2025, increased by Rp3.19 trillion or 75.44% yoy compared to Rp4.23 trillion in 2024. The increase was primarily driven by the growth in SKBDN receivables from customers of Rp1.41 trillion and prepaid expenses of Rp440 billion.

**TOTAL LIABILITIES**

Total liabilities of BSI stood at Rp104.93 trillion in December 2025, increased by Rp2.65 trillion or 2.59% yoy compared to Rp102.28 trillion in 2024. The increase in liabilities was supported by higher wadiah deposits and deposits from other banks.

**Obligations Due Immediately**

Obligations due immediately stood at Rp937.35 billion in December 2025, rose by Rp78.71 billion or 9.17% yoy compared to Rp858.64 billion in 2024. The increase mainly came from liabilities to third parties amounting to Rp81,93 billion.

**Undistributed Revenue Sharing**

Undistributed profit sharing was recorded at Rp258.52 billion in December 2025, down by Rp33.06 billion or 11.34% yoy compared to Rp291.58 billion in 2024. The decrease was caused by the decline in undistributed profit sharing on non-bank current accounts amounting to Rp18.26 billion, PASBI profit sharing amounting to Rp6.40 billion, and undistributed profit sharing on non-bank deposits amounting to Rp13.66 billion.

**Wadiah Deposits**

Wadiah deposits, consisting of wadiah current accounts and wadiah savings, stood at Rp91.10 trillion in December 2025, increased by Rp16.67 trillion or 22.40% compared to Rp74.43 trillion in 2024. This growth was driven by an increase in wadiah current accounts of Rp8.64 trillion and wadiah savings of Rp8.03 trillion, reflecting the stability of transaction-based funds.

**Deposits from Other Banks**

Deposits from other banks were recorded at Rp2.80 trillion in December 2025, increased by Rp2.01 trillion compared to Rp784.70 billion in 2024. The increase in Interbank Fund Management Certificates Based on Sharia Principles (SIPA) amounting to Rp2.09 trillion was the main factor behind the increase in deposits from other banks.

**Liabilities to Bank Indonesia**

As of December 2025, BSI had no liabilities to Bank Indonesia. In comparison, liabilities to Bank Indonesia stood at Rp18.42 trillion in 2024.

**Borrowings**

In both 2025 and 2024, BSI did not have any borrowings outstanding.

**Acceptance Liabilities**

Acceptance liabilities stood at Rp693.12 billion as of December 2025, increased by Rp507.97 billion compared to Rp185.15 billion in 2024. The increase was primarily attributable to L/C & SKBDN Import of Rp472.20 billion.

## FINANCIAL REVIEW

### Tax Payables

Taxes payable were recorded at Rp439.41 billion in December 2025, decreased by Rp450.23 billion compared to Rp889.64 billion in 2024. The decrease was mainly caused by Article 25/29 Income Tax amounting to Rp454.24 billion, from Rp674.84 billion in 2024 to Rp220.60 billion in 2025.

### Employee Benefits Liabilities

Employee benefit liabilities stood at Rp578.15 billion in December 2025, increased by Rp43.42 billion or 8.12% yoy compared to Rp534.73 billion in 2024.

### Estimated Losses on Commitments and Contingencies

Estimated losses on commitments and contingencies stood at Rp26.18 billion in December 2025, up by Rp2.14 billion or 8.89% yoy compared to Rp24.04 billion in 2024. The increase was in line with the higher outstanding commitment liabilities.

### Other Liabilities

Other liabilities stood at Rp8.10 trillion in December 2025, increased by Rp2.23 trillion or 37.96% yoy compared to Rp5.87 trillion in 2024. The increase was primarily driven by higher lease liabilities, which rose by Rp2.53 trillion.

## TOTAL TEMPORARY SYIRKAH FUNDS

Temporary syirkah funds consisted of mudharabah current accounts, mudharabah savings, mudharabah deposits, interbank mudharabah investment certificates (SIMA), subordinated mudharabah sukuk, issued mudharabah sukuk, as well as mudharabah term financing.

Total temporary syirkah funds stood at Rp299.31 trillion in December 2025, increased by Rp38.02 trillion or 14.55% compared to Rp261.29 trillion in 2024. The increase was primarily driven by growth in mudharabah current accounts, savings, and time deposits, which rose by Rp36.44 trillion in 2025, reflecting a strengthening of the profit-sharing-based funding base.

### Mudharabah Current Accounts

Mudharabah current accounts stood at Rp44.09 trillion in December 2025, increased by Rp6.85 trillion or 18.41% yoy compared to Rp37.24 trillion in 2024. The increase mainly came from the growth in mudharabah current accounts for SBSN funds amounting to Rp4.05 billion.

### Mudharabah Savings

Mudharabah savings stood at Rp99.93 trillion in December 2025, increased by Rp14.14 trillion or 16.49% yoy compared to Rp85.79 trillion in 2024. The increase mainly came from growth in business savings products amounting to Rp6.58 trillion, easy mudharabah savings amounting to Rp3.44 trillion, and regular Tapenas amounting to Rp1.42 trillion.

### Mudharabah Time Deposits

Mudharabah time deposits stood at Rp146.12 trillion in December 2025, grew by Rp15.44 trillion or 11.81% yoy compared to Rp130.68 trillion in 2024. The growth was primarily supported by an increase in third-party mudharabah deposits of Rp6.49 trillion and related-party deposits of Rp8.95 trillion in 2025.

### Subordinated Mudharabah Sukuk

Subordinated mudharabah sukuk stood at Rp200.00 billion in December 2025, unchanged compared to 2024.

### Issued Mudharabah Sukuk

Mudharabah sukuk issued stood at Rp6.32 trillion in December 2025, up by Rp3.31 trillion or 109.53% yoy compared to Rp3.02 trillion in 2024. In June 2025, BSI issued Phase II of its Sustainable (ESG) Sukuk amounting to Rp5.00 trillion, strengthening its medium- to long-term funding alternatives.

### Mudharabah Term Financing

As of December 2025, BSI did not have any mudharabah term financing outstanding. In comparison, mudharabah term financing stood at Rp1.00 trillion in 2024.

## FINANCIAL REVIEW

**EQUITY**

Equity of BSI stood at Rp51.95 trillion in December 2025, rising by Rp6.91 trillion or 15.34% yoy compared to Rp45.04 trillion in 2024. The increase in equity was primarily driven by higher retained earnings, reflecting the Bank's ability to generate sustainable profitability.

**Issued and Fully Paid Capital**

Issued and fully paid-up capital stood at Rp23.06 trillion in December 2025, unchanged compared to 2024.

**Additional Paid-in Capital**

Additional paid-in capital stood at Rp3.93 trillion in December 2025, unchanged from the previous year.

**Revaluation Surplus on Fixed Assets**

The gain on revaluation of fixed assets stood at Rp553.44 billion in December 2025, unchanged compared to 2024.

**Remeasurement of Defined Benefit Plans – Net of Tax**

Remeasurement of the defined benefit plan, net of tax, stood at Rp352.93 billion, rose by Rp5.29 billion or 1.52% compared to Rp347.64 billion in 2024. The increase reflects changes in actuarial assumptions, which had a limited impact on the Bank's equity position.

**Unrealized Gains/(Losses) on Securities Measured at Fair Value through Other Comprehensive Income**

As of December 2025, BSI recorded unrealized gains on securities measured at fair value through other comprehensive income (net of tax) amounting to Rp332.56 billion. In comparison, 2024 reflected unrealized losses of Rp56.81 billion, indicating improved market conditions and a stronger valuation of the securities portfolio.

**Retained Earnings**

Retained earnings stood at Rp31.58 trillion in December 2025, rose by Rp6.52 trillion or 26.00% yoy compared to Rp25.06 trillion in 2024. The increase was driven by growth in both appropriated and unappropriated retained earnings, in line with the Bank's financial performance throughout the period..

## FINANCIAL REVIEW

**INCOME FROM FUND MANAGEMENT BY THE BANK AS MUDHARIB**

Income from fund management by the Bank as mudharib stood at Rp28.27 trillion in December 2025, grew by Rp2.97 trillion or 11.73% yoy compared to Rp25.30 trillion in 2024. The increase was primarily supported by higher profit-sharing income of Rp2.13 trillion and trading income of Rp1.11 trillion, which drove the growth in fund management income.

**Income from Sale and Purchase Transactions**

Income from sale and purchase transactions stood at Rp14.51 trillion, increased by Rp1.11 trillion or 8.26% yoy compared to Rp13.40 trillion in 2024. The expansion of murabahah receivables and the maintained quality of receivables disbursed were the main factors supporting the increase in trading income in 2025.

**Income from Profit Sharing**

Profit-sharing income reached Rp10.13 trillion, increased by Rp2.13 trillion or 26.56% yoy compared to Rp8.00 trillion in the previous year. The growth was primarily driven by income from musyarakah financing, which rose by Rp2.14 trillion or 27.26% compared to last year.

**Net Ijarah Income**

Income from ijarah, net, was recorded at Rp128.54 billion, down by Rp63.59 billion compared to Rp192.12 billion in 2024.

**Other Main Operating Income**

Other main operating income was recorded at Rp3.50 trillion, decreased by Rp200.77 billion or 5.43% yoy compared to Rp3.70 trillion in 2024. The item that declined was investment income from securities.

**Share of Profit Attributable to Third Parties**

Third parties' share in profit-sharing stood at Rp9.14 trillion, grew by Rp1.25 trillion or 15.81% yoy compared to Rp7.89 trillion in the previous year. The largest increases were recorded in profit-sharing on mudharabah time deposits amounting to Rp1.05 trillion, sustainable sukuk of Rp202.40 billion, and mudharabah current accounts of Rp197.79 billion.

**OTHER OPERATING INCOME**

Other operating income, consisting of banking service fees, gains on investment securities, and other income, stood at Rp6.94 trillion in December 2025, grew by Rp1.38 trillion or 24.84% yoy compared to Rp5.56 trillion in 2024. The largest increase was recorded in banking service fee income.

**Fee-Based Income**

Banking service fee income stood at Rp4.63 trillion, grew by Rp952.94 billion or 25.91% yoy compared to Rp3.68 trillion in the previous year. There were increases in rahn income amounting to Rp519.50 billion, gold margin income amounting to Rp255.21 billion, and internet and mobile banking service income amounting to Rp87.43 billion.

**Gains on Investment Securities**

Gains on investment securities stood at Rp1.00 trillion, grew by Rp413.36 billion or 70.40% yoy compared to Rp587.20 billion in 2024. The increase was primarily driven by income from the disposal of securities and higher fair value gains on securities measured at fair value.

**Other Income**

Other income was recorded at Rp1.30 trillion, up by Rp13.82 billion or 1.07% yoy compared to Rp1.29 trillion in 2024. The increase came from recoveries of receivables and financing that had been written off.

**OPERATING EXPENSES**

Operating expenses stood at Rp13.70 trillion in December 2025, increased by Rp1.91 trillion or 16.17% compared to Rp11.79 trillion in 2024. The increase was primarily driven by higher general and administrative expenses amounting to Rp1.77 trillion and salary and allowance expenses of Rp212.48 billion.

**Salaries and Benefits**

Salary and allowance expenses rose by Rp212.48 billion or 4.02% yoy, from Rp5.28 trillion in 2024 to Rp5.50 trillion in 2025.

## FINANCIAL REVIEW

### General and Administrative Expenses

General and administrative expenses were recorded at Rp8.11 trillion, up by Rp1.77 trillion or 27.86% yoy compared to Rp6.34 trillion in 2024. The increase mainly came from depreciation of fixed assets and amortization of intangible assets amounting to Rp575.56 billion, rental expenses amounting to Rp213.92 billion, and outsourcing expenses amounting to Rp111.27 billion.

### Wadiah Bonus

Wadiah bonus expense stood at Rp651 million, increasing by Rp65 million or 11.09% compared to Rp586 million in 2024.

### Others

Other expenses stood at Rp93.98 billion, declining significantly by Rp72.31 billion or 43.48% yoy compared to Rp166.29 billion in 2024.

### ALLOWANCE FOR IMPAIRMENT LOSSES ON EARNINGS AND NON-EARNINGS ASSETS – NET

Net impairment losses on productive and non-productive assets stood at Rp2.36 trillion in December 2025, rising by Rp463.08 billion or 24.45% yoy compared to Rp1.89 trillion in 2024. The increase in CKPN expense was in line with higher financing disbursement by the Bank and risk mitigation measures related to the Sumatra disaster.

### OPERATING PROFIT

Operating profit stood at Rp10.01 trillion, grew by Rp729.87 billion or 7.87% yoy compared to Rp9.28 trillion in 2024. The growth in operating profit was primarily driven by higher fund management income and other operating income, which rose by Rp2.97 trillion and Rp1.38 trillion, respectively.

### NON-OPERATING INCOME – NET

Non-operating income – net stood at Rp3.69 billion, declining by Rp624 million or 14.47% yoy compared to Rp4.31 billion in 2024.

### PROFIT BEFORE ZAKAT AND INCOME TAX

Profit before zakat and tax expense stood at Rp10.01 trillion, grew by Rp729.25 billion or 7.86% yoy compared to Rp9.28 trillion in 2024.

### ZAKAT

As of December 2025, zakat on BSI's business profit was recorded at Rp250.29 billion, increased by Rp18.23 billion or 7.86% compared to Rp232.06 billion in 2024.

### INCOME TAX EXPENSE

Tax expense stood at Rp2.19 trillion, increased by Rp149.38 billion or 7.31% yoy compared to Rp2.04 trillion in 2024.

### NET PROFIT

Net profit stood at Rp7.57 trillion, grew by Rp561.64 billion or 8.02% yoy compared to Rp7.01 trillion in 2024.

### OTHER COMPREHENSIVE INCOME

Other comprehensive income stood at Rp394.66 billion, grew by Rp242.54 billion or 159.43% yoy compared to Rp152.12 billion in 2024. The increase was primarily driven by unrealized gains on securities measured at fair value through other comprehensive income.

### COMPREHENSIVE INCOME

Comprehensive income stood at Rp7.96 trillion, grew by Rp804.17 billion or 11.23% yoy compared to Rp7.16 trillion in 2024.

## CASH FLOWS FROM OPERATING ACTIVITIES

As of December 2025, BSI recorded net cash used in operating activities amounting to Rp14.17 trillion. Operating cash flows were primarily driven by an increase in temporary syirkah funds of Rp6.95 trillion and higher wadiah deposits of Rp10.12 trillion. In comparison, in 2024 BSI recorded net cash generated from operating activities of Rp6.82 trillion. This shift reflects liquidity management dynamics in line with the Bank's funding structure and operational activities.

## CASH FLOWS FROM INVESTING ACTIVITIES

Net cash generated from investing activities in December 2025 was recorded at Rp6.41 trillion, up by Rp68.34 billion or 1.08% compared to Rp6.34 trillion in 2024. Cash flow from investing activities mainly came from the sale or disposal of investments in securities. The decline in investing cash flow reflected changes in the Bank's investment portfolio management strategy.

## STATEMENTS OF CASH FLOWS

## CASH FLOWS FROM FINANCING ACTIVITIES

As of December 2025, net cash used in financing activities amounted to Rp17.64 trillion. The cash outflow was primarily related to the settlement of liabilities to Bank Indonesia amounting to Rp18.42 trillion, the repayment of securities issued totaling Rp1.70 trillion, and the repayment of mudharabah term financing of Rp2.40 trillion. These cash flows reflect the Bank's commitment to fulfilling its funding obligations and distributions to shareholders.

## CASH AND CASH EQUIVALENTS AT THE END OF THE PERIOD

Cash and cash equivalents of BSI at the end of December 2025 stood at Rp64.86 trillion, up by Rp2.93 trillion or 4.74% compared to Rp61.93 trillion in 2024. The increase was primarily attributable to cash utilization to support operating and investing activities throughout the period.

### INCOME FROM FUND MANAGEMENT AS MUDHARIB

Income from fund management by BSI as mudharib was recorded at Rp28.27 trillion in December 2025, up by Rp2.97 trillion or 11.73% compared to Rp25.30 trillion in 2024. The increase was mainly driven by higher income from profit-sharing of Rp2.12 trillion, or 26.56% yoy, in line with the dynamics of the financing portfolio and market conditions throughout the period.

### CURRENT-YEAR INCOME NOT YET RECEIVED IN CASH OR CASH EQUIVALENTS

Current-year income not yet received in cash or cash equivalents reached Rp2.58 trillion as of December 2025, increased by Rp794.16 billion or 44.43% yoy from Rp1.79 trillion in 2024. The increase was mainly driven by higher sales-based income of Rp925.25 billion, along with an increase in profit-sharing income of Rp97.97 billion, reflecting timing differences in cash receipts from operating activities.

### PRIOR-YEAR INCOME RECEIVED IN CASH OR CASH EQUIVALENTS IN THE CURRENT YEAR

Income from the previous year for which cash or cash equivalents were received in the current year was recorded at Rp1.79 trillion in December 2025, increased by Rp96.49 billion or 5.71% yoy compared to Rp1.69 trillion in 2024. This increase was mainly driven by higher other main operating income of Rp90.40 billion, profit-sharing income

of Rp34.86 billion, and ijarah income of Rp3.45 billion, reflecting the realization of cash receipts for income that had been recognized in the previous period.

### INCOME AVAILABLE FOR PROFIT-SHARING

Income available for profit-sharing was recorded at Rp27.47 trillion in December 2025, increased by Rp2.27 trillion or 9.01% yoy compared to Rp25.20 trillion in 2024. The main factor contributing to the increase in income available for profit-sharing was the growth in the Bank's main income derived from financing activities (trade-based and profit-sharing).

### BANK'S SHARE OF PROFIT

The profit-sharing income attributable to BSI stood at Rp18.33 trillion as of December 2025, increased by Rp1.02 trillion or 5.90% yoy compared to Rp17.31 trillion in 2024.

### THIRD PARTIES' SHARE OF PROFIT

Third-party rights to profit sharing were recorded at Rp9.14 trillion in December 2025, or 15.81% yoy compared to Rp7.89 trillion in 2024, in line with the adjustment in the performance of temporary syirkah funds during the period.

# STATEMENTS ON SOURCES AND DISBURSEMENT OF ZAKAT FUNDS

## Sources and Disbursement of Zakat Funds

Zakat contributions from employees, customers, and the general public represent individual zakat payments collected through BSI's e-channel platforms and subsequently distributed to authorized zakat management institutions. This mechanism supports structured, transparent, and Sharia-compliant zakat distribution in accordance with applicable regulations.

## SOURCES OF ZAKAT FUNDS

Zakat fund sources stood at Rp334.15 billion in December 2025, increased by Rp26.89 billion or 8.75% yoy compared to Rp307.26 billion in 2024. The growth was primarily driven by higher internal bank zakat contributions amounting to Rp18.23 billion or 7.86% in 2025. This development reflects the dynamics of the Bank's financial performance as well as internal policies affecting the formation of zakat fund sources.

## DISBURSEMENT OF ZAKAT FUNDS

Zakat fund distribution reached Rp316.14 billion in December 2025, grew by Rp47.79 billion or 17.81% yoy compared to Rp268.35 billion in 2024. All zakat funds were disbursed through zakat institutions and amil bodies accredited by the relevant authorities, underscoring BSI's commitment to accountable governance, prudent management, and effective zakat disbursement aligned with Sharia principles.

Referring to DSN-MUI Fatwa No. 123/DSN-MUI/XI/2018, Qardhul Hasan Funds are derived from funds that are not permitted to be recognized as income (Non-Recognizable Income Funds). These funds originate, among others, from transactions that are unavoidable yet not compliant with Sharia principles, including interest (riba); Sharia transactions that do not fulfill the required contractual elements and conditions; penalty or sanction funds arising from non-compliance with agreed obligations; as well as funds whose owners are unknown, cannot be located, or where the cost of returning the funds exceeds the amount involved.

Operationally, Qardhul Hasan Funds comprise social funds derived from penalties, non-Sharia-compliant transactions, as well as infaq and sadaqah collected through BSI's electronic channels. Infaq and sadaqah represent voluntary contributions made by fund owners, either with specified purposes or without restriction. Other components include temporary accounts for financing installments, liabilities to third parties, administrative accounts, clearing settlement intermediaries, and other related items.

## SOURCES OF QARDHUL HASAN FUNDS

Sources of Qardhul Hasan Funds stood at Rp142.78 billion in December 2025, increased by Rp30.78 billion or 27.48% yoy compared to Rp112 billion in 2024. The movement was mainly influenced by higher receipts of infaq and shadaqah amounting to Rp15.19 billion and non-halal income of Rp9.96 billion in 2025.

## USE OF QARDHUL HASAN FUNDS

The use of Qardhul Hasan Funds for charitable activities reached Rp130.95 billion in December 2025, increasing by Rp13.92 billion or 11.89% yoy compared to Rp117.03 billion in 2024. The distribution of Qardhul Hasan Funds is carried out in accordance with prudential principles, Sharia compliance requirements, and applicable governance standards.

# STATEMENTS OF PROFIT SHARING DISTRIBUTION

During the 2024–2025 period, the distribution of profit sharing from fund acquisition and financing activities is presented in the table below. This information reflects the performance of fund acquisition and the income base used for profit-sharing distribution in accordance with Sharia principles.

## FUND ACQUISITION

As of December 2025, the average balance of fund acquisition amounted to Rp279.21 trillion, with total income available for profit sharing of Rp2 trillion.

This represents an increase compared to 2024, when the average balance of fund acquisition stood at Rp231.61 trillion, with income available for profit sharing totaling Rp1.74 trillion.

The growth in average fund acquisition balances reflects an expansion in third-party funds, which in turn contributed to a higher income base for profit-sharing distribution. This development was managed prudently, with due consideration given to maintaining an optimal balance between fund growth and cost of funds.

## FUND DISBURSEMENT

As of September 2025, the average balance of fund disbursement amounted to Rp321.23 trillion, with total income available for profit sharing of Rp2.18 trillion. This represents an increase compared to 2024, when the average balance of fund disbursement stood at Rp290.48 trillion, with income available for profit sharing totaling Rp2.09 trillion.

The higher average balance of fund disbursement reflects growth in financing activities, which contributed to an increase in the profit-sharing income base. This growth was managed in line with prudent banking principles, with due consideration given to financing quality and the balance between returns and inherent risks.

# SOLVENCY AND RECEIVABLES COLLECTABILITY

## SOLVENCY

### Protection of Creditors' Rights

BSI has established comprehensive policies to ensure the fulfillment of creditors' rights, including those of Mudharabah Sukuk holders. The rights of Mudharabah Sukuk holders rank pari passu (on an equal basis), without preference, with the rights of other BSI creditors, whether existing or arising in the future, except for obligations that are specifically secured by BSI's assets, whether existing or to be created in the future.

Within this framework, creditor protection includes BSI's obligation to settle all amounts payable to Mudharabah Sukuk holders, comprising the Mudharabah Sukuk principal, profit-sharing income, and any applicable late payment penalties. Such payments are made on the principal repayment date and/or the profit-sharing distribution date, in accordance with the provisions stipulated in the Mudharabah Sukuk Trustee Agreement, as applicable.

### Short-Term Solvency (Liquidity)

BSI's liquidity position is influenced by its financing structure, asset liquidity profile, third-party liabilities, and financing commitments to customers. The adequacy of the Bank's liquidity is primarily assessed through the Financing to Deposit Ratio (FDR).

The calculation and disclosure of the FDR are conducted in accordance with the Circular Letter of the Financial Services Authority (SEOJK) No. 10/SEOJK.03/2020 on Transparency and Publication of Reports for Sharia Banks and Sharia Business Units. This ratio serves as a key indicator in evaluating the Bank's capacity to meet short-term obligations in a timely manner, while maintaining prudent liquidity risk management practices.

### Short-Term Solvency

| Description                      | 2024   | 2025   | Increase/Decrease |
|----------------------------------|--------|--------|-------------------|
| (1)                              | (2)    | (3)    | (4)=(3)-(2)       |
| Financing to Deposit Ratio (FDR) | 84.97% | 83.74% | (1.23%)           |

### Increase/Decrease

As of December 2025, BSI's Financing to Deposit Ratio (FDR) stood at 83.74%, declining from 84.97% in 2024. The lower ratio reflects the Bank's stronger Third-Party Funds mobilization throughout 2025, while maintaining prudential principles and adequate liquidity to support its intermediation activities.

### Long-Term Solvency (Solvency)

BSI assesses its long-term solvency through the Capital Adequacy Ratio (CAR). The Bank consistently maintains sufficient capital buffers to absorb potential risks arising from credit risk, market risk, and operational risk.

The calculation and management of the CAR are conducted in accordance with Financial Services Authority Regulation (POJK) No. 21/POJK.03/2014 on Minimum Capital Requirements for Sharia Commercial Banks. This ratio serves as a key indicator of the Bank's capital resilience in supporting sustainable business growth and maintaining long-term financial stability.

## SOLVENCY AND RECEIVABLES COLLECTABILITY

### Long-Term Solvency

| Description                  | 2024   | 2025   | Increase/Decrease |
|------------------------------|--------|--------|-------------------|
| (1)                          | (2)    | (3)    | (4)= (3)-(2)      |
| Capital Adequacy Ratio (CAR) | 21.40% | 22.00% | 0.6%              |

#### Capital Adequacy Ratio (CAR)

In 2025, BSI's Capital Adequacy Ratio (CAR) stood at 22.00%, an increase from 21.40% in 2024. This improvement reflects a strengthening of the Bank's capital position in supporting long-term obligations and sustaining business growth.

Furthermore, BSI's CAR remains above the minimum regulatory requirement set by the Financial Services Authority. This indicates that the Bank maintains sufficient capital buffers to anticipate and absorb potential risks arising from credit risk, market risk, and operational risk.

#### Solvency from Issued Securities

BSI's ability to meet its debt obligations is also reflected in the credit ratings assigned to its issued securities, particularly sukuk. The securities issued by the Bank are subject to periodic assessments by independent rating agencies to support their creditworthiness and market acceptance.

The quality and rating of such securities are primarily determined by the issuer's capacity to repay principal at maturity and to meet periodic profit-sharing or coupon payments throughout the tenor of the issuance. Accordingly, sukuk ratings serve as a key indicator of the Bank's capability to manage long-term funding obligations in a prudent and sustainable manner.

|---------------|-----------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Pefindo       | idAAA(sy) | The highest rating category, indicating that the issuer has an exceptionally strong capacity to meet its financial obligations.         |
|               | idAA(sy)  | A high rating category, indicating a very strong capacity to meet financial obligations, slightly below the highest rating level (AAA). |

### RECEIVABLE COLLECTIBILITY

The calculation of BSI's non-performing financing ratios for 2025 and 2024 is based on Financial Services Authority Circular Letter No. 10/SEOJK.03/2020 dated 1 July 2020 regarding Transparency and Publication of Reports for Islamic Commercial Banks and Islamic Business Units.

#### Bank Non-Performing Financing Ratio

| Uraian                               | 2024  | 2025  | Increase/Decrease |
|--------------------------------------|-------|-------|-------------------|
| (1)                                  | (2)   | (3)   | (4)= (3)-(2)      |
| Non Performing Financing (NPF) Gross | 1.90% | 1.81% | (0.09%)           |
| Non Performing Financing (NPF) Net   | 0.50% | 0.47% | (0,03%)           |

As of December 2025, the gross Non-Performing Financing (NPF) ratio, before deducting allowance for impairment losses, stood at 1.81%, improving from 1.90% in 2024. Meanwhile, the net NPF ratio also strengthened by 0.03 percentage point, from 0.50% in 2024 to 0.47% in 2025.

Overall, financing quality remained well maintained. The continued enhancement and disciplined implementation of risk management practices contributed to effective control of problem financing, supporting a prudent and manageable financing risk profile.

## EARNINGS ASSET QUALITY ANALYSIS

As of December 2025, BSI's total earning assets from both related and third parties amounted to Rp385.75 trillion, an increase of 11.30% compared with Rp346.58 trillion in 2024. The growth in earning assets was primarily driven by an increase in financing of Rp40,36 billion, reflecting the Bank's continued expansion in fund distribution while maintaining prudent risk management practices.

In terms of asset quality, earning assets classified as current dominated the portfolio, totaling Rp374.60 trillion as of December 2025. Earning assets classified as special mention amounted to Rp5.40 trillion, substandard to Rp1.37 trillion, doubtful to Rp793.09 billion, and loss to Rp3.59 trillion. Overall, the composition indicates that asset quality remained generally well maintained alongside the growth in earning assets.

## EARNINGS ASSET QUALITY ANALYSIS

Financing collectibility reflects the quality of repayment performance on financing extended to customers. The assessment of collectibility is conducted to evaluate the timeliness of customer payments and the effectiveness of financing risk management practices. Details of financing outstanding along with their collectibility classifications are presented in the following table, providing an overview of the overall quality of BSI's earning assets.

### Receivables by Collectability Classification

Total financing of BSI amounted to Rp318.84 trillion as of December 2025, an increase of Rp40.36 trillion compared with Rp278.48 trillion in 2024. This growth reflects continued financing expansion supported by prudent risk management practices.

Of the total receivables and financing outstanding, Rp307.66 trillion was classified as current. Financing under special mention amounted to Rp5.43 trillion, substandard financing totaled Rp1.37 trillion, doubtful financing reached Rp793.09 billion, and non-performing financing stood at Rp3.20 trillion. This composition indicated that asset quality remained relatively well maintained, supported by the continued strengthening of financing risk management.

## CAPITAL STRUCTURE

BSI consistently maintains a sound, strong, and regulatory-compliant capital structure to support sustainable business growth and prudent expansion. Capital management is conducted with due consideration of the Bank's risk profile, business growth requirements, and resilience against potential external shocks.

### Capital Structure Breakdown

BSI's capital structure comprises Core Capital (Tier 1) and Supplementary Capital (Tier 2), in accordance with applicable capital adequacy regulations. This capital composition is designed to ensure sufficient loss-absorbing capacity against credit, market, and operational risks, while maintaining an adequate capital buffer in line with the Bank's asset and financing growth. Details of BSI's capital structure are presented in the following table.

## CAPITAL STRUCTURE

### Management Policy on Capital Structure and Basis for Capital Structure Decisions

BSI formulates its capital plan based on the latest assessment of economic conditions and outlook, as well as analysis of regulatory capital requirements. The capital plan is prepared by the Directors as an integral part of BSI's Business Plan and is subsequently approved by the Board of Commissioners.

BSI regularly conducts comprehensive planning and reviews of its capital needs, supported by relevant data and analytical assessments. In this process, the Bank consistently aligns its financial objectives and capital adequacy with its risk

profile, ensuring that business activities remain in compliance with regulatory capital and liquidity requirements.

Capital management is aimed at safeguarding BSI's ability to maintain business continuity on a going-concern basis. An optimal capital structure enables the Bank to deliver reasonable returns to shareholders, generate sustainable value for stakeholders, and manage its cost of capital efficiently. In assessing capital adequacy, BSI refers to Financial Services Authority Regulation (POJK) No. 21/POJK.03/2014 concerning the Minimum Capital Adequacy Requirement for Islamic Commercial Banks.

## STRUKTUR MODAL

As of December 2025, BSI's Capital Adequacy Ratio (CAR), after taking into account credit, operational, and market risks, stood at 22.00%, an increase from 21.40% in 2024. This level remains well above the minimum capital requirement adjusted for the Bank's risk profile, which stood at 9.99%, reflecting a strong and adequate capital position.

## RISK EXPOSURE AND CAPITAL INFORMATION

Further information on BSI's risk exposure and capital position is presented in the Risk Management section of this Annual Report.

## MATERIAL COMMITMENTS ON CAPITAL INVESTMENTS

In 2025 and 2024, BSI did not have any material commitments related to capital expenditures. Accordingly, information regarding the purpose of such commitments, the expected sources of funding, the currency denomination, and planned measures to mitigate foreign exchange risk associated with such commitments is not disclosed in this Annual Report.

### CAPITAL EXPENDITURES

Realized additions to BSI's capital expenditures amounted to Rp2.68 trillion as of December 2025, a decrease of Rp1.16 trillion compared with Rp3.85 trillion in 2024. This decline reflects adjustments in investment requirements in line with business development priorities and ongoing capital expenditure efficiency initiatives.

constituted the capital expenditure component with the largest decrease in value, amounting to Rp1.14 trillion. This movement reflects the continued implementation of investment projects that remain under completion, in line with the Bank's operational development plan.

### Types and Value of Capital Expenditures

Details of the types and realized value of BSI's capital expenditures for the 2024–2025 period are presented in the table below:

(In Rp million)

| Type<br>(1)               | Additional Investment |                  |
|---------------------------|-----------------------|------------------|

| Assets Under Construction | 3,398,166             | 2,253,376        |
| <b>Total</b>              | <b>3,846,284</b>      | <b>2,679,968</b> |

### Purpose of Capital Expenditure

BSI undertakes capital expenditure in a prudent and measured manner to support the Bank's overall operational activities. Such investments are intended to ensure the availability of adequate infrastructure, systems, and supporting facilities necessary to achieve business targets, while maintaining operational continuity in line with business requirements and applicable regulatory standards.

## COMMITMENTS & CONTINGENCIES

The Bank has receivables and liabilities arising from commitments and contingencies incurred in the course of its banking operations. These commitments and contingencies represent potential off-balance sheet rights and obligations that may affect the Bank's future financial position, in accordance with the applicable terms and agreements. Details of the Bank's commitment and contingency receivables and liabilities are presented below:

(In Rp million)

## COMMITMENTS & CONTINGENCIES

In the normal course of its banking operations, the Bank enters into commitment and contingency transactions that carry credit risk. These transactions primarily relate to conditional rights and obligations recorded in administrative accounts and may give increment to potential credit exposure in the future. Commitment and contingency transactions that occur in the Bank's normal activities that have financing risks are as follows:

(In Rp million)

| Description<br>(1)            | 2024<br>(2)      | 2025<br>(3)      |
|-------------------------------|------------------|------------------|
| Guarantees issued             | 2,040,725        | 2,480,440        |
| Undrawn financing facilities  | 2,138,888        | 5,690,458        |
| Irrevocable letters of credit | 364,587          | 108,178          |
| <b>Total</b>                  | <b>4,544,200</b> | <b>8,279,076</b> |

Accordingly, the collectability of commitments and contingencies with credit risk exposure recorded in administrative accounts is presented to reflect the quality of such exposures and the effectiveness of the Bank's credit risk management. Collectability of commitments and contingencies on administrative accounts that have financing risks is as follows:

(In Rp million)

| Description<br>(1) | 2024<br>(2)      | 2025<br>(3)      |
|--------------------|------------------|------------------|
| Current            | 4,542,007        | 8,225,630        |
| Special Mention    | 2,193            | 53,446           |
| Substandard        | –                | –                |
| Doubtful           | –                | –                |
| Loss               | –                | –                |
| <b>Total</b>       | <b>4,544,200</b> | <b>8,279,076</b> |

Furthermore, movements in the allowance for impairment losses on estimated commitments and contingencies are disclosed to illustrate adjustments made by the Bank in anticipation of potential losses arising from these exposures. Changes in the allowance for impairment losses on estimated commitments and contingencies are as follows:

(In Rp million)

| Description<br>(1)          | 2024<br>(2)   | 2025<br>(3)   |
|-----------------------------|---------------|---------------|
| Opening balance             | 32,017        | 24,045        |
| Provision during the year   | (8,443)       | 1,776         |
| Foreign exchange difference | 471           | 362           |
| <b>Closing balance</b>      | <b>24,045</b> | <b>26,183</b> |

Management is of the opinion that the allowance for impairment losses on estimated commitments and contingencies has been established at an adequate level and is in compliance with the applicable regulations issued by OJK, taking into account the Bank's risk profile and prudential principles.

# MATERIAL INFORMATION AND SUBSEQUENT EVENTS

## Amendment to Articles of Association and Issuance of Special Power of Attorney (SKK)

The Bank convened an Extraordinary General Meeting of Shareholders on 22 December 2025 ("EGMS"), with one of the agenda items being the approval of amendments to the Articles of Association ("AoA"). One of the key amendments to the Bank's AoA was the addition of special rights for Series A Dwiwarna shareholders in accordance with the SOE Law. The amendment to the Company's Articles of Association has obtained approval from the Ministry of Law of the Republic of Indonesia under Decree No. AHU-0003351.AH.01.02.TAHUN 2026 regarding the Approval of Amendment to Articles of Association of PT Perusahaan Perseroan (Persero) PT Bank Syariah Indonesia Tbk dated 23 January 2026, and Receipt of Notification of Amendment to Articles of Association from the Ministry of Law of the Republic of Indonesia under No. AHU AH.01.03-0019406 dated 23 January 2026.

Following the effectiveness of amendment to the Company's Articles of Association, administratively the Company has officially assumed the status of a Persero. Accordingly, the Company's name as stated in Article 1 of the Articles of Association has been adjusted to "PT Bank Syariah Indonesia (Persero) Tbk," in adherence with the prevailing laws and regulations.

Following the amendment to the Company's Articles of Association, the State-Owned Regulatory Agency/ BP BUMN (formerly known as the Ministry of SOEs), representing the Government as the holder of Series A Dwiwarna shares in the Company, issued a Special Power of Attorney ("SKK") No. SKK-7/BPU/01/2026 dated 27 January 2026. This SKK delegates part of the rights and authorities of the Dwiwarna shareholder to PT Danantara Asset Management ("DAM") as the SOE Operational Holding in accordance with the SOE Law, and revokes the previous SKK granted to PT Bank Mandiri (Persero) Tbk, one of the Bank's shareholders ("Bank Mandiri").

As a result of the above, Bank Mandiri has lost control over the Bank in accordance with the criteria under the prevailing Financial Accounting Standards in Indonesia effective 27 January 2026, as such control has been transferred to DAM.

## TARGET AND ACHIEVEMENT IN 2025

### COMPARISON OF 2025 FINANCIAL TARGETS AND REALIZATION

Information on the comparison between the financial targets and their realization in 2025 is presented as follows.

As of the third quarter of 2025, BSI's total assets amounted to Rp456.19 trillion, exceeding the RKAP/RBB target by 108.74%. This achievement was supported by the Bank's effective intermediation function, as reflected in the growth of financing disbursement and third-party funds. Amid relatively stable market conditions, BSI was able to optimize its asset management, thereby supporting resilient and sustainable growth.

## TARGET AND ACHIEVEMENT IN 2025

Total financing disbursed reached Rp318.84 trillion in 2025, surpassing the RKAP/RBB target by 102,73%. Financing growth was recorded across all segments, including wholesale, retail, and consumer. In line with its sustainable growth strategy, BSI continued to prioritize sound financing quality by maintaining a prudent balance between business expansion and risk management through disciplined risk management practices.

Third-party funds in 2025 amounted to Rp380.49 trillion, with an achievement rate of 109,07% against the RKAP/RBB target. The funding strategy focused on increasing the proportion of Current Account Saving Account (CASA), particularly savings deposits, to strengthen a stable and cost-efficient funding structure.

Net profit in 2025 was recorded at Rp7.57 trillion, exceeding the RKAP/RBB target with an achievement rate of 100.96%. This performance was driven by higher margin and profit-sharing income, as well as continued growth in fee-based income. Ongoing cost efficiency initiatives and the maintenance of sound asset quality also contributed to the improvement in the Bank's profitability.

### COMPARISON OF 2025 CAPITAL STRUCTURE TARGETS AND REALIZATION

Information on the comparison between capital structure targets and their realization is presented as follows:

(In Rp million)

| Description<br>(1)             | RKAP 2025<br>(2)  | Realization 2025<br>(3) | Results<br>(4)= (3)/(2) |
|--------------------------------|-------------------|-------------------------|-------------------------|
| Core Capital (Tier 1)          | 46,687,952        | 48,109,082              | 97.05%                  |
| Supplementary Capital (Tier 2) | 2,541,194         | 2,464,058               | 103.13%                 |
| <b>Total Capital</b>           | <b>49,229,146</b> | <b>50,573,140</b>       | <b>97.34%</b>           |

Based on the comparison between the 2025 RKAP target and the realization up to the end of 2025 (Q4), the Bank's capital structure showed stronger performance than planned. BSI's total capital in December 2025 was recorded at Rp50,573,140 million, higher than the RKAP target of Rp49,229,146 million. This increase reflects the strengthening of the Bank's capital structure, supported by the Company's solid performance throughout the year.

This solid capital structure provides adequate room for the Bank to support productive asset growth, maintain financial stability, and strengthen resilience in facing the dynamics of the banking industry.

## COMPARISON OF 2025 HUMAN CAPITAL DEVELOPMENT TARGETS AND REALIZATION

Information on the comparison between human capital development targets and their realization in 2025 is presented as follows:

(In Rp million)

| Description                             | RKAP 2025       | Realization 2025 | Results       |
|-----------------------------------------|-----------------|------------------|---------------|
| (1)                                     | (2)             | (3)              | (4) = (2)/(3) |
| Human Capital Development Expenses (Rp) | 145,000,000,000 | 141,773,826,444  | 98%           |

The realization of human capital development expenditure in 2025 amounted to Rp141.77 billion, representing 98% of the RKAP 2025 budgeted amount of Rp145 billion.

BSI continues to enhance human capital capabilities as part of its strategy to support long-term business objectives. These efforts are carried out through training programs and other development initiatives to ensure the availability of competent personnel aligned with organizational needs and the evolving dynamics of the Islamic banking industry.

## 2026 TARGETS/PROJECTIONS

### ASSUMPTIONS IN DEVELOPING 2026 TARGETS/ PROJECTIONS

The preparation of PT Bank Syariah Indonesia Tbk's (BSI) performance targets and projections for 2026 is based on a number of key assumptions that reflect Management's view on developments in macroeconomic conditions, the direction of monetary policy, and the dynamics of the banking industry both globally and domestically. The formulation of these assumptions takes into account various external factors that may affect the stability of the financial system, including economic growth prospects, inflationary pressures, global liquidity conditions, and geopolitical developments that may impact the performance of the financial sector. Within this framework, the economic assumptions used include key macro indicators such as Gross Domestic Product (GDP) growth, inflation rate, the Rupiah exchange rate against the United States Dollar, and the Bank Indonesia benchmark interest rate (BI 7-Day Reverse Repo Rate). These indicators form the basis for formulating projections on financing growth, third-party fund collection, margin levels, and other financial performance indicators.

In determining these targets and projections, Management continues to prioritize prudential principles, strengthening risk management, and maintaining capital and liquidity resilience in order to ensure the sustainability of the Bank's performance amid dynamic economic conditions. Management also realizes that future performance realization may be influenced by various external and internal factors that develop dynamically. Therefore, the assumptions used in preparing the projections will be evaluated periodically by taking into account actual economic and industry developments, so that the strategies and targets set remain relevant, adaptive, and aligned with the business environment faced by the Bank.

| Description             | Projection 2026 |
|-------------------------|-----------------|
| (1)                     | (2)             |
| Economic growth         | 5.11%           |
| Inflation rate          | 2.34%           |
| Rp/USD exchange rate    | Rp16,224        |
| 7-Day Reverse Repo Rate | 4.25            |

### 2025 Financial Targets/Projections

Information on BSI's financial targets and projections for 2025 is prepared based on the approved Corporate Business Plan (RKAP), taking into account macroeconomic conditions, the outlook of the Islamic banking industry, and the Bank's risk profile. These targets and projections serve as a reference for management in directing business strategies and managing performance on a sustainable basis. Information regarding the 2025 financial targets/projections is as follows:

| Description         | Projection 2026 |
|---------------------|-----------------|
| (1)                 | (2)             |
| Financing Growth    | 10% - 14%       |
| Cost of Credit      | < 0,84 %        |
| Net Interest Margin | > 5,50 %        |

### Dividend Policy Targets/Projections for 2025

The dividend distribution policy of PT Bank Syariah Indonesia Tbk (BSI) is determined through the resolution of the General Meeting of Shareholders (GMS) by upholding the principles of good corporate governance and equal treatment for all shareholders. Each shareholder has the same right to receive dividends in accordance with their share ownership proportion. In formulating its dividend policy, the Company considers various strategic aspects, including the Bank's financial condition and capability, reserve requirements to strengthen the capital structure, business development plans, as well as compliance with the provisions of laws and regulations applicable in Indonesia.

## 2026 TARGETS/PROJECTIONS

By considering the Bank's financial condition and overall performance, BSI's dividend policy is directed toward the distribution of cash dividends to shareholders after taking into account capital adequacy to support business expansion and maintain long-term business sustainability. The determination of the dividend payout ratio and timing of payment is fully under the authority of the GMS, taking into account various factors such as retained earnings, operational performance, cash flow, business prospects, banking industry conditions, as well as general economic conditions. In line with prudential principles, the dividend policy may be reviewed and adjusted periodically in accordance with developments in the Company's financial performance, economic dynamics, and changes in applicable regulatory provisions.

### 2026 Marketing Target/Projection

Information regarding BSI's marketing targets and projections for 2026 is prepared by taking into account the Bank's strategic direction, market conditions, and growth opportunities in key segments. This projection serves as the basis for strengthening market penetration, optimizing distribution networks, as well as developing products and services according to customer needs. Information related to the 2026 marketing projection is as follows:

| No. | Types of New Bank Products                                     | Planned Implementation Timeline | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 1   | Gold-Collateralized Qardh Limit                                | Q1-2026                         | The Gold-Collateralized Qardh Limit may be granted up to a maximum of Rp1,000,000,000.00 (one billion rupiah) for each customer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2   | Cash Waqf Linked Deposit (CWLD)                                | Q1-2026                         | The Cash Waqf Linked Deposit (CWLD) product is a basic deposit product in which the principal value will function as temporary cash waqf, while the profit-sharing from the deposit can be directly utilized for social projects to be determined in accordance with the program established for each issuance series. CWLD is a more advanced development of BSI Waqf Deposit. Through CWLD, social projects can be realized earlier without waiting for the completion of all profit-sharing payments from the deposit principal. Funds for the realization of social programs can be implemented through a bundling mechanism with financing, where the installment is taken from the monthly profit-sharing earned from the deposit. Under this scheme, the project will be realized earlier without waiting for all profit-sharing to be fully paid. |
| 3   | BSI Multicurrency Foreign Currency Savings                     | Q1-2026                         | Addition of 5 currencies to the BSI Wadiah Foreign Currency Savings Product (6009), namely SGD, SAR, AUD, JPY, and EUR, through the instrument of adding account opening and transactions in the Core system.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4   | Islamic Structured Account (ISRA)                              | Q1-2026                         | Islamic Structured Account (ISRA) is a Third-Party Funds (DPK) deposit product in the form of savings and current accounts based on the Mudharabah Muqayyadah contract, whereby the deposited funds are specifically used for foreign exchange transaction activities by the Treasury work unit.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5   | Addition of the MMQ contract for BSI Griya Indent disbursement | Q1-2026                         | The development of the MMQ contract for indent mortgage financing is an initiative by the Bank to improve the contract previously used in the Indent Mortgage product. The contract previously used in the Indent Mortgage product was a murabahah contract for land and building materials. The Bank seeks to improve the financing contract for indent mortgages so that it is more aligned with sharia principles by developing the MMQ contract for indent mortgage disbursement.                                                                                                                                                                                                                                                                                                                                                                     |
| 6   | BSI Hasanah Card Contactless                                   | Q1-2026                         | Addition of the BSI Hasanah Card feature with contactless capability embedded in all BSI Hasanah Card cards and their derivatives.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

**Human Capital Development Targets/Projections for 2026**

Information on BSI's human capital development targets and projections for 2026 is designed to support the achievement of the Bank's medium- and long-term business strategies. Human capital development expenses for 2026 are projected to reach Rp147.77 billion, representing an increase of 1.29% compared with the realized human capital development expenses in 2025. Information related to the projection of human resource development in 2026 is as follows:

(In Rp million)

| Description                             | Projection 2026 |
|-----------------------------------------|-----------------|
| (1)                                     | (2)             |
| Human Capital Development Expenses (Rp) | 147,779,000,000 |

Investment in human capital development is directed toward ensuring the availability of competent and adaptable talent aligned with organizational needs, while also supporting the strengthening of governance, risk management, and the Bank's sustainable operational performance.

## DIVIDEND POLICY, ANNOUNCEMENT AND PAYOUT

BSI may declare and distribute dividends in Indonesian Rupiah on an annual basis, provided that the Bank records a positive retained earnings balance. In accordance with applicable regulations, a portion of the Bank's net income, as determined by the Annual General Meeting of Shareholders (AGMS) and after corporate income tax, must be allocated to the mandatory statutory reserve until such reserve reaches at least 20% of the Bank's paid-in capital. There is no specified timeframe for achieving the minimum statutory reserve level.

The remaining portion of net income, after allocation to the statutory reserve, may be distributed to shareholders as final dividends, unless otherwise resolved by the AGMS. In addition, the Bank may declare special dividends on an ad hoc basis, subject to approval by the General Meeting of Shareholders (GMS), while taking into consideration the Bank's financial condition and prevailing regulatory requirements.

The allocation of net income for the 2024 financial year was approved by the AGMS held on May 17, 2024, as was the allocation of net income for the 2023 financial year. The allocation of net income for the 2025 financial year will be determined at the AGMS scheduled to be held in 2026.

## MATERIAL INFORMATION ON INVESTMENT, EXPANSION, DIVESTMENT, MERGER/ CONSOLIDATION, ACQUISITION, DEBT/CAPITAL RESTRUCTURING, MATERIAL TRANSACTIONS, AFFILIATED TRANSACTIONS, AND CONFLICT OF INTEREST TRANSACTIONS

### Investment

In 2025 and 2024, BSI invested in securities issued by both the Government and corporate entities. These investments formed part of the Bank's asset portfolio management strategy, aimed at maintaining an appropriate balance between liquidity, returns, and risk exposure. Details of BSI's securities investments as of September 30, 2025, and December 31, 2024, are presented in the table below:

Throughout 2025, BSI did not undertake any business expansion activities.

### Divestment

Throughout 2025, BSI did not carry out any divestment activities.

### Merger/Business Consolidation

Throughout 2025, BSI did not engage in any merger or business consolidation activities.

### Acquisition

Throughout 2025, BSI did not conduct any acquisition activities.

### Debt/Capital Restructuring

Throughout 2025, BSI did not undertake any debt or capital restructuring activities.

## INFORMATION ON MATERIAL TRANSACTIONS INVOLVING CONFLICTS OF INTEREST AND/OR AFFILIATED PARTY TRANSACTIONS

### MATERIAL TRANSACTIONS

In accordance with Financial Services Authority Regulation (POJK) No.17/POJK.04/2020 on Material Transactions and Changes in Business Activities, a Material Transaction is defined as any transaction carried out by a public company or its controlled company with a value equal to or exceeding 20% of the public company's equity. Throughout 2025, BSI did not undertake any transactions that met the criteria for a Material Transaction under the regulation.

### CONFLICT OF INTEREST TRANSACTIONS

Pursuant to POJK No. 42/POJK.04/2020 on Affiliated Transactions and Conflict of Interest Transactions, a Conflict of Interest arises when there is a divergence between the economic interests of a public company and the personal economic interests of members of the Directors, Board of Commissioners, Controlling Shareholders, or Controllers that may be detrimental to the company. In 2025, BSI did not enter into any transactions involving a Conflict of Interest.

### AFFILIATED TRANSACTIONS

Under POJK No. 42/POJK.04/2020, an Affiliation includes, among others:

- Family relationships by marriage or lineage up to the second degree, horizontally or vertically;
- Relationships between a party and the employees, Directors, or Commissioners of that party;
- Relationships between two companies with one or more common members of the Directors or Board of Commissioners;
- Relationships between a company and a party that directly or indirectly controls or is controlled by the company;
- Relationships between two companies under direct or indirect common control; or
- Relationships between a company and its Controlling Shareholder.

An Affiliated Transaction refers to any activity and/or transaction conducted by a public company or its controlled company with an Affiliate, including transactions carried out for the benefit of Affiliates of the Directors, Board of Commissioners, Controlling Shareholders, or Controllers.

## INFORMATION ON MATERIAL TRANSACTIONS INVOLVING CONFLICTS OF INTEREST AND/OR AFFILIATED PARTY TRANSACTIONS

### Affiliated Transactions Conducted in the Ordinary Course of Business

In accordance with Articles 8 and 9 of POJK 42/2020, certain affiliated transactions constitute part of BSI's ordinary business activities to generate operating income and are conducted on a routine, recurring, and/or ongoing basis. These transactions are disclosed in the related party transactions section. BSI has identified and recorded such transactions, including transaction values, counterparties, and the nature of relationships, all of which are disclosed in Note 44 to the Financial Statements.

### Transaction Fairness and Regulatory Compliance

All transactions carried out by BSI have complied with POJK No. 42/POJK.04/2020 at the time the transactions were executed. Transactions were conducted based on prevailing market practices, applying the arm's length principle, driven by legitimate business needs, and free from conflicts of interest. In 2025, no affiliated or related party transactions required approval from the General Meeting of Shareholders (GMS).

### Statement of the Directors on Affiliated Transactions

In conducting transactions, particularly with affiliated and/or related parties, BSI has established internal procedures in line with regulatory requirements. The Directors is involved in reviewing transaction plans, implementation, and evaluations. Based on this process, the Directors is of the view that all related party transactions have been conducted through adequate procedures, in accordance with sound business practices, and in compliance with prevailing laws and regulations.

### Board of Commissioners and Audit Committee's Roles

Dalam pelaksanaan transaksi, khususnya dengan pihak afiliasi dan/atau berelasi, BSI telah memiliki prosedur internal yang sesuai dengan ketentuan regulator. Direksi terlibat dalam proses penelaahan atas rencana, realisasi, dan evaluasi transaksi. Berdasarkan prosedur tersebut, Direksi berpendapat bahwa seluruh transaksi pihak berelasi telah dilakukan melalui proses yang memadai, selaras dengan praktik bisnis

yang berlaku umum, serta mematuhi peraturan perundang-undangan yang berlaku.

### Peran Dewan Komisaris dan Komite Audit

The Audit Committee is responsible for monitoring the follow-up of audit findings to assess the adequacy of the internal control system, including the financial reporting process. The Audit Committee also reviews financial information to be disclosed to the public and ensures compliance with applicable regulations. Accordingly, affiliated and related party transactions fall within the scope of the Audit Committee's review and oversight.

The Audit Committee reports its findings to the Board of Commissioners, which exercises supervisory oversight of the Bank's business activities. The roles of the Audit Committee and the Board of Commissioners are integral to ensuring that transactions are conducted in compliance with regulations and in accordance with the arm's length principle.

## RELATED PARTY TRANSACTIONS

BSI engages in transactions with related parties as defined under PSAK 224 Related Party Disclosures and Regulation No. VIII.G.7 on the Presentation and Disclosure of Financial Statements of Issuers or Public Companies. Related parties include, among others:

- Parties that directly or indirectly control, are controlled by, or are under common control with the Bank;
- Entities within the same business group as the Bank;
- Joint ventures in which the Bank acts as a venturer;
- Members of the Bank's key management personnel;
- Close family members of such individuals;
- Entities controlled or significantly influenced by individuals with significant voting rights; and
- Post-employment benefit plans for employees of the Bank or related entities.

| Percentage of total syirkah fund temporer of related parties to total syirkah fund temporer | 22.82%      | 23.14%      |

### Reference to Financial Statement Disclosures

Detailed information on the names of related parties and the realized values of related party transactions is disclosed in Note 45 to the Financial Statements, which forms an integral part of this Annual Report. These related party transactions constitute business activities undertaken to generate operating income and are carried out on a routine, recurring, and/or ongoing basis in line with the Bank's operational activities.

## INFORMATION ON MATERIAL TRANSACTIONS INVOLVING CONFLICTS OF INTEREST AND/OR AFFILIATED PARTY TRANSACTIONS

### Fairness and Rationale of Transactions

All related party transactions were conducted on an arm's length basis, under normal commercial terms, and in compliance with prevailing laws and regulations. Such transactions were undertaken solely to support BSI's operational and business requirements and were free from any conflicts of interest.

### Compliance with Laws and Regulations

Throughout 2025 and 2024, BSI recorded no violations of laws and regulations related to related party transactions or transactions involving conflicts of interest. BSI engages in transactions with related parties as defined under PSAK 224 on Related Party Disclosures and Regulation No. VIII.G.7 on Presentation and Disclosure of Financial Statements of Issuers or Public Companies. All related party transactions were conducted in accordance with mutually agreed policies and terms. In 2025, there were no related party transactions requiring approval from the General Meeting of Shareholders (GMS).

### Directors Statement on Related Party Transactions

In conducting transactions, particularly with related parties, BSI has established internal procedures in accordance with regulatory requirements. The B Directors is actively involved in reviewing the planning, realization, and evaluation of such transactions. Based on these processes, the Directors is of the view that all related party transactions have been executed through adequate procedures, aligned with generally accepted business practices, and in compliance with prevailing laws and regulations, while upholding the arm's length principle.

### Board of Commissioners and Audit Committee's Roles

The Audit Committee is tasked with monitoring the follow-up of audit findings to assess the adequacy of the internal control system, including the reliability of the financial reporting process. In addition, the Audit Committee reviews financial information to be disclosed to the public or other stakeholders and evaluates compliance with prevailing laws and regulations. Accordingly, related party transactions fall within the scope of the Audit Committee's review and oversight.

As an organ under the Board of Commissioners, the Audit Committee periodically reports the results of its duties to the Board of Commissioners, which exercises supervisory functions over the Bank's business activities. The coordinated role of the Audit Committee and the Board of Commissioners is essential in ensuring that all transactions undertaken by the Bank comply with applicable regulations and are conducted in accordance with sound business practices and the arm's length principle.

### Policy on Financing to Members of the Board of Commissioners and the Directors

The policy governing the provision of financing to members of the Directors and/or the Board of Commissioners, whether as related or unrelated parties, as well as to state-owned enterprises, regionally owned enterprises, local governments, and foreign currency financing, is stipulated in the 2024 BSI Financing Policy. Financing to members of the Directors and the Board of Commissioners is extended under the same terms and conditions applicable to prospective BSI customers, based on prevailing market rates and fair value (arm's length basis), while consistently applying the prudential principle.

## CHANGES IN LAWS AND REGULATIONS AND THEIR IMPACT

During 2025, several changes in laws and regulations relevant to banking operations came into effect. The impact of these regulatory developments on BSI is outlined in this section, including their implications for policies, operational processes, and the Bank's ongoing compliance with applicable requirements. Management continues to monitor regulatory developments to ensure timely adaptation and alignment of internal policies with the prevailing regulatory framework. Information on changes to legislation in 2025 and their impact on BSI is explained as follows:

| No. | Laws and Regulations                                                                                                                                                                                          | Key Provisions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Adjustment Information Implemented by BSI                                                                                                                                                                                                                                                         | Impact on the Financial Statements                                                                                                       |

## CHANGES IN ACCOUNTING POLICIES

### RATIONALE FOR CHANGES IN ACCOUNTING POLICIES

Changes in accounting policies were implemented to ensure compliance with applicable and relevant Financial Accounting Standards (PSAK) in accordance with BSI's operational activities. These adjustments aim to enhance the quality of financial statement presentation and to maintain the consistency and reliability of financial information provided to stakeholders.

### INFORMATION ON CHANGES IN ACCOUNTING POLICIES

New financial accounting standards, amendments, and interpretations that became effective as of January 1, 2025, are presented in this section. The implementation of these standards has been carried out in accordance with the applicable provisions, with due consideration given to their impact on BSI's financial statements. The following are new financial accounting standards, changes and interpretations of financial accounting standards that are effective from January 1, 2025:

| No. | Changes to Financial Accounting Standards                                                                       | Impact of Changes in Accounting Standards on Financial Statements                                                                                                                                                       |
|-----|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.  | Amendment to PSAK 221: "The Effects of Changes in Foreign Exchange Rates" regarding lack of interchangeability. | The implementation of these standards does not result in substantial changes to the Bank's accounting policies and does not have a material impact on the Bank's financial statements in the current or previous years. |

## BANK SOUNDNESS LEVEL

The Bank's soundness level is assessed in accordance with Financial Services Authority (OJK) Regulation No. 08/POJK.03/2014 dated June 11, 2014, concerning the Soundness Assessment of Islamic Commercial Banks and Islamic Business Units, using a risk-based approach (Risk-Based Bank Rating/RBBR). This assessment encompasses four key factors: Risk Profile, Good Corporate Governance (GCG), Earnings, and Capital.

Based on the RBBR assessment, BSI's soundness level is rated at Composite Rating 2 (CR-2). This rating indicates that the Bank is generally in a sound condition and is considered capable of withstanding significant adverse impacts arising from changes in business conditions and other external factors, while maintaining prudent risk management practices and effective corporate governance.

| Assessment Factors                      | December 31, 2024 | September 31, 2025 |
|-----------------------------------------|-------------------|--------------------|
| Risk Profile                            | 2                 | 2                  |
| Good Corporate Governance (GCG)         | 2                 | 2                  |
| Earnings                                | 1                 | 1                  |
| Capitalization                          | 1                 | 1                  |

# GOING CONCERN INFORMATION

## FACTORS POTENTIALLY HAVING A SIGNIFICANT IMPACT ON GOING CONCERN

Management has conducted an evaluation of BSI's ability to maintain its going concern in the foreseeable future. Based on the results of this evaluation, Management concludes that there are no significant factors that could materially affect BSI's going concern. The assessment encompasses a comprehensive review of operational, financial, and market-related aspects, indicating that the Bank maintains strong fundamentals and adaptive strategies to respond to changes in economic conditions and the banking industry.

## MANAGEMENT'S ASSESSMENT OF FACTORS POTENTIALLY AFFECTING GOING CONCERN

Management continuously performs evaluations and assessments of factors that may have a significant impact on the Bank's going concern. This assessment is conducted through a SWOT analysis, which identifies internal factors in the form of Strengths and Weaknesses, as well as external factors comprising Opportunities and Threats. The results of this analysis serve as a fundamental basis for assessing the sustainability of the Bank's business.

In addition, BSI conducts a bank soundness assessment using a risk-based approach to evaluate the Bank's capacity to withstand significant adverse impacts arising from changes in economic conditions and developments within the banking industry.

Based on the results of the SWOT analysis and the bank soundness assessment, Management concludes that there are no conditions that could materially affect BSI's going concern. Supported by solid internal strengths, favorable external opportunities, and effective risk and threat management, BSI remains well positioned to sustain its business operations and pursue sustainable growth.

## ASSUMPTIONS USED BY MANAGEMENT IN THE ASSESSMENT

In performing the going concern assessment, Management applies several key assumptions and considerations. In addition to the assumptions underlying the SWOT analysis, Management also relies on the assumptions used in the bank soundness assessment. This assessment is based on four principal factors: risk profile, implementation of Good Corporate Governance (GCG), earnings, and capital, which collectively reflect the Bank's ability to maintain business continuity.

# DISCLOSURE OF THE TAX GOVERNANCE, MANAGEMENT, AND CONTROL FRAMEWORK

As a corporate taxpayer operating in the banking industry, BSI consistently manages and controls its tax matters in compliance with prevailing tax laws and regulations. The Bank's tax management covers the fulfillment of corporate income tax obligations as well as tax obligations arising from its role as a withholding or collecting agent.

Tax management at BSI is carried out by the Corporate Finance & Accounting Group under the authority and oversight of the Finance & Strategy Director. In implementing its tax obligations, BSI is supported by an adequate tax governance framework, including policies and procedures that govern the entire tax management cycle, from identifying taxable transactions to tax payment and reporting administration, as well as tax risk management.

This tax governance framework is implemented through structured and comprehensive processes, including the following:

## Tax Standard Operating Procedures (SOPs)

BSI has established Tax Standard Operating Procedures that are periodically reviewed to ensure alignment with developments in applicable tax regulations. These SOPs serve as guidance for all business units in fulfilling the Bank's tax obligations. In addition, BSI regularly conducts tax socialization programs and training sessions to enhance employee awareness and compliance with tax regulations.

## Centralized Tax Administration

BSI implements centralized administration for tax payments and reporting for all branches across Indonesia at the Head Office level. This process is supported by cooperation with tax application service providers recognized by the tax authority. Centralization aims to improve efficiency, consistency, and accuracy in tax reporting, while also mitigating the risk of administrative penalties resulting from late tax payments and/or filings. As BSI operates exclusively within Indonesia, all tax reporting is conducted solely for the Indonesian jurisdiction.

## Contribution to the Country

## LEGAL LENDING LIMIT (LLL)

The provision of funds to related parties is governed by Financial Services Authority (OJK) Regulation No. 26/POJK.03/2021 on the Legal Lending Limit (LLL) and Large Exposures for Islamic Commercial Banks. Under this regulation, a large exposure is defined as the provision of funds to an individual or a group of non-related parties amounting to 10% or more of the Bank's core capital.

In aggregate, large exposures to related parties are limited to a maximum of 10% of the Bank's core capital. Meanwhile, exposures to non-related parties are capped at a maximum of 25% of the Bank's core capital (Tier 1). The LLL regulation for Islamic Commercial Banks has been effective since January 1, 2022.

BSI has established the 2025 BSI Financing Policy, which governs the provision of financing to related and non-related parties, including State-Owned Enterprises (SOEs), Regional-Owned Enterprises (ROEs), regional governments, as well as foreign currency financing. This policy is implemented consistently in compliance with applicable banking regulations.

Financing to related parties is conducted through procedures equivalent to those applied to other customers, with due regard to arm's length principles and prudential standards. As part of risk management, large exposures to a single borrower or a group of borrowers reaching 10% or more of the Bank's core capital are subject to heightened scrutiny. Approval of such financing is closely overseen by the Financing Committee, comprising authorized and competent members, including the President Director. In the event that the President Director is unavailable, the Vice President Director may assume this role in accordance with prevailing provisions.

Throughout 2025, BSI recorded no violations of the Legal Lending Limit requirements, nor any breaches of the maximum exposure thresholds.

### Provision of Funds to Related Parties and Major Debtors

| No.                       | Fund Providers      | 2025                |                      |

## SPOT AND FORWARD TRANSACTIONS

Information on BSI's spot and forward transactions is presented to provide an overview of the Bank's foreign exchange activities undertaken to manage exchange rate risk and to support operational and business requirements. These transactions include both hedging and non-hedging activities, as well as the resulting receivables and liabilities, as detailed in the following table:

| No.          | Transaction               | 2024           |               |                |                             |             | 2025             |               |                  |                             |             |

# HUMAN CAPITAL

## PEOPLE AT THE CORE OF SUSTAINABLE TRANSFORMATION

“Human Capital is the core foundation of the Bank’s transformation and sustainable performance. Through integrated management across the employee life cycle, strengthened capabilities, leadership, culture, and reward systems, the Bank is committed to fostering a productive, adaptive, and value-driven work environment that supports long-term value creation.

# HUMAN CAPITAL STRATEGY AND POLICY

As a foundation for long-term sustainability, BSI's Human Capital strategy is designed to ensure organisational and talent readiness in supporting the Bank's transformation.

BSI's transformation into a globally competitive Sharia banking institution is driven not only by business growth and technological advancement, but also by its people as the key agents of change. Accordingly, Human Capital is positioned as a strategic element in sustaining performance and strengthening organisational resilience amid an evolving industry landscape.

In support of its aspiration to become a Top 5 Global Sharia Bank, in 2025 the Bank introduced the Human Capital House of Strategy as an integrated human capital management framework. This framework aligns policy direction, organisational development, and talent management to ensure that all Human Capital initiatives remain consistent with the Bank's corporate vision, business strategy, and employee life cycle.

## HUMAN CAPITAL STRATEGY AND POLICY

The Human Capital House of Strategy is built on three interconnected strategic pillars: Productivity Enhancement, Optimizing Capacity & Engagement, and Leader Creation. These pillars represent a continuous transformation process aimed at strengthening productivity, building an adaptive organisation, and ensuring leadership sustainability as the Bank navigates future business complexity.

All pillars are supported by the organisation development function, which ensures alignment across organisational structure, processes, and culture with the Bank's strategic direction. This framework is underpinned by well-targeted Human Capital policies, an effective operating model, and leadership grounded in Sharia values and Good Corporate Governance principles. Its implementation is enabled by integrated systems, the use of data analytics, and the application of artificial intelligence (AI) to enhance the effectiveness of human capital management.

### Pillar 1: Productivity Enhancement – Strengthening the Performance Foundation

Through the Productivity Enhancement pillar, the Bank strengthened its performance management system by reinforcing a clear link between targets, contributions, and rewards. As recognition for performance and employee well-being, the Bank implemented annual increments and bonus policies, provided umrah appreciation for top-performing employees, and delivered integrated well-being programs.

The well-being initiatives covered physical, mental, social, and financial aspects. Physical health was supported through Health Talks, Virtual Sport Competitions, and Activity Challenges. Mental well-being was addressed through psychological consultation services and Islamic healing initiatives. Financial literacy was enhanced through Financial Talks, while employee clubs were facilitated to support engagement, interests, and a sense of belonging.

To foster a productive and inclusive workplace, the Bank conducted an Employee Engagement Survey (EES) in 2025. The survey measured employee engagement and satisfaction and served as a basis for strengthening work culture, enhancing employee well-being, and supporting sustainable performance management.

### Pillar 2: Optimizing Capacity & Engagement – Building an Adaptive and Relevant Organisation

Sustainable productivity requires the right organisational capacity and structure. Through the Optimizing Capacity & Engagement pillar, the Bank continuously refined its organisational setup to remain aligned with evolving business needs.

These efforts were guided by the Corporate Plan of PT Bank Syariah Indonesia Tbk 2022–2032, which targets BSI's positioning as a Top 5 Global Sharia Bank. Organisational reviews focused on aligning structure and business processes to support key performance metrics, including customer growth, profitability, and asset expansion.

Key initiatives included structure simplification and strengthening business processes, enhancing information technology functions, expanding digital business and operations, leveraging automation and data-driven technologies, strengthening workforce capabilities, and advancing Sharia product innovation and business diversification, including bullion business management.

## HUMAN CAPITAL STRATEGY AND POLICY

### Pillar 3: Leader Creation – Developing Future-Ready Leadership

The sustainability of the Bank's transformation is closely linked to the availability of capable and principled leaders. Through the Leader Creation pillar, the Bank consistently developed leadership capabilities across early career, managerial, and strategic levels in 2025 through a structured leadership pipeline.

This approach focused on building leadership from within, managing talent based on potential and performance, and ensuring succession readiness for key positions. Leadership development was implemented through initiatives such as the Staff Development Program (SDP), Officer Development Program (ODP), cross-institutional talent assignments to broaden experience, and Master's scholarship programs for selected talents at the world's top 50 universities.

#### A Continuous Process

The Human Capital House of Strategy represents a continuous process to build a resilient and competitive organisation. Supported by organisation development, Sharia-based policies, GCG principles, and the use of data analytics and

AI, the Bank remains committed to strengthening human capital quality as a core foundation for long-term value creation for stakeholders.

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

As part of its efforts to build a sustainable organisation, the Bank manages its human capital through an integrated and continuous human capital management approach. This approach is based on the employee life cycle, covering the entire employee journey from recruitment and competency development to performance and career management, and through to retirement.

By adopting this approach, each phase of human capital management is designed in an integrated manner to support organisational needs, enhance employee contribution, and sustain the Bank's performance, in alignment with Sharia principles and sound corporate governance.

#### RECRUITING THE BEST TALENTS

To realize PT Bank Syariah Indonesia Tbk's aspiration of becoming "The Employer of Choice and a Source of Pride for Indonesia's Best Talents," the Company manages Employee Branding to communicate BSI's work culture in order to attract the interest of the best candidates and talents, through the BSI Scholarship program, Global Talent Management, Campus Roadshows, the recruitment process for Officer Development Program (ODP) talents through the BSI ROCK (BSI Recruitment on Campus for Knowledge) program, and other programs implemented by BSI.

The recruitment of the best talents is conducted through both internal and external sources, encompassing needs identification, qualification definition, candidate sourcing, selection, and placement. Priority is given to internal talent development through rotation, mutation,

## HUMAN CAPITAL STRATEGY AND POLICY

promotion, and the Internal Job Posting (IJP) mechanism.

Internal Job Posting (IJP) is a strategic policy that supports internal mobility and career development through an open, transparent, and competitive system. It provides employees with opportunities to apply for available positions based on their competencies. Beyond fulfilling role requirements, IJP serves as a talent development strategy to enhance capabilities, broaden cross-functional experience, strengthen talent sustainability, and support employee retention.

External recruitment of the best talents is conducted through the following pathways:

1. **Regular Recruitment**  
A recruitment pathway for fresh graduates to fill Staff-level positions at the Head Office, Regional Offices, and units under Regional Office coordination.
2. **Professional Hire**  
A recruitment pathway for experienced professionals with relevant expertise and qualifications to fill Officer, Manager, Middle Manager, and Senior Manager positions.

3. **Officer Development Program (ODP)**  
A recruitment pathway for fresh graduates who are developed to assume Officer-level roles and prepared as future leaders of the Bank.

In 2025, ODP talent recruitment was carried out through the BSI ROCK (BSI Recruitment on Campus for Knowledge) program, which integrates one-stop recruitment, employer branding, knowledge sharing, and business engagement. A key component of the program included knowledge-sharing sessions on career opportunities at BSI, industry-required skills, and strategic insights, featuring speakers from BSI's Board of Directors. The ODP selection process in Q3 2025 was conducted through on-site recruitment activities across eight major cities: Banda Aceh, Medan, Palembang, Makassar, Surabaya, Jakarta, Bandung, and Yogyakarta.

In 2025, BSI conducted external recruitment to meet talent requirements aligned with the Bank's strategic direction and business priorities. The recruitment focused on strengthening organisational capabilities, fulfilling strategic talent needs, and preparing future leaders to support the sustainability of the Bank's transformation.

Details of BSI's external recruitment activities throughout 2025 are presented as follows:

| Programs                | Recruitment Channels                                      | Total Employee |
|-------------------------|-----------------------------------------------------------|----------------|
| Non Development Program | Regular                                                   | 153            |
|                         | Professional Hire (Pro-Hire)                              |                |
| Development Program     | Officer Development Program (ODP) General, Wholesale, IT. | 62             |

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

### DEVELOPING COMPETENCE AND LEADERSHIPS

#### POLICY

Competency development is a key pillar of the Bank's Human Capital management to ensure employee readiness in navigating industry dynamics and supporting the achievement of business strategy. The Bank's competency development policy and implementation are designed in a structured and sustainable manner to build relevant and adaptive capabilities, aligned with Sharia values and the Bank's transformation agenda.

#### COMPETENCY MODEL ARCHITECTURE

The Competency Model Architecture represents the structure and framework that outlines the composition and interlinkages of competencies required for employees. This architecture is designed comprehensively to form a cohesive and mutually reinforcing system that supports performance and continuous employee development.

Core Behaviour serves as the primary foundation, reflecting the core behaviours expected of all employees. This foundation emphasises the internalisation of the BSI People Code, which consists of Beyond the Limit, Dynamic Action, Growth Mindset, and Purposeful Work, as the behavioural values guiding day-to-day conduct.

Built upon this foundation are the functional competency pillars that support the overall competency structure. These pillars comprise Soft Functional Competency and Hard

Functional Competency, which together form employees' functional capabilities in line with role requirements, responsibilities, and organisational needs.

Leadership Competency functions as the overarching element that integrates and directs all underlying foundations and pillars. It ensures that Core Behaviour, Soft Functional Competency, and Hard Functional Competency are consistently applied and aligned with the Bank's strategy, Sharia values, and long-term objectives.

#### IMPLEMENTATION OF COMPETENCY DEVELOPMENT

To ensure employee capability development remains aligned with the Bank's strategic direction, BSI has established a Capability Framework as the foundation of its human capital competency

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

development. The framework is designed to accelerate employee capabilities through structured, continuous, and tiered learning programmes aligned with job levels and organisational needs, while fostering a culture of continuous learning.

As part of its commitment to strengthening employee capabilities, the Bank continuously delivers a range of competency development programs designed to meet the requirements of each role. Throughout 2025, more than 190,000 participants took part in competency development programmes, with the following breakdown of training activities:

### Competence Development 2025

| No | Subject                           | Total Participants | Objectives                                                                                                                                                                                                                                                                                                                          |
|----|-----------------------------------|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | Accounting & Tax                  | 547                | The ability to understand, execute, and analyse financial transactions, develop accounting and taxation policies, and prepare financial statements in accordance with applicable accounting standards and regulatory requirements.                                                                                                  |
| 2  | Anti Fraud Management             | 19                 | The ability to identify, detect, investigate, and evaluate anti-fraud frameworks, including the effectiveness of measures to prevent and address fraud.                                                                                                                                                                             |
| 3  | Applying expertise and technology | 13.830             | The ability to apply appropriate technical expertise and technology in various situations to achieve desired outcomes, including the ability to continuously update knowledge in line with evolving technologies.                                                                                                                   |
| 4  | APUPPT & PPPSPM                   | 16.401             | The ability to identify and analyse financial transactions related to money laundering, terrorism financing, and the financing of the proliferation of weapons of mass destruction, in accordance with applicable laws and regulations.                                                                                             |
| 5  | Artificial Intelligence Literacy  | 15.036             | The ability to understand and process data and to leverage technologies and applications with artificial intelligence capabilities as work tools to communicate and collaborate effectively.                                                                                                                                        |
| 6  | Asset & Liability Management      | 162                | The ability to manage the Bank's balance sheet by optimising the balance between assets and liabilities, taking into account risk factors and regulatory requirements, to support financial stability and bank profitability.                                                                                                       |
| 7  | Banking Operations                | 483                | The ability to manage operational activities related to cash and non-cash financial transactions, validate requirements and fund transfers in accordance with applicable regulations, perform transaction settlement, verify exchange rates, and conduct reconciliations, including reporting of unsettled or unusual transactions. |
| 8  | Beyond The Limit                  | 114                | A character that demonstrates the drive to go beyond intended goals, the courage to face challenges in a measured manner, and the determination to achieve outcomes that may initially appear unattainable.                                                                                                                         |
| 9  | BSI People Code                   | 15.155             | Employee DNA that supports the Company's sustainable vision.                                                                                                                                                                                                                                                                        |
| 10 | Building Trust and Credibility    | 30                 | The ability to build trust with sincerity, encompassing character and ethical standards in line with prevailing norms, to establish credibility as a leader.                                                                                                                                                                        |
| 11 | Business Continuity               | 11.490             | The ability to plan, implement, and maintain comprehensive programme strategies, including organisational assessment, preparedness, and adaptation to disruptions, through the integration of new technologies and risk management to ensure effective and sustainable business continuity.                                         |

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

| No | Subject                                     | Total Participants | Objectives                                                                                                                                                                                                                                                                                       |

| 26 | Dynamic Action                      | 114                | A character that demonstrates the ability to think and act flexibly (agile) and responsively in addressing change and challenges, by adjusting thinking and actions based on evolving situations, enabling individuals or teams to adapt quickly and effectively toward defined objectives.                                                            |
| 27 | Interpersonal Communication         | 173                | The ability to build effective relationships through clear, empathetic, and responsive communication, including strong listening skills, understanding others' perspectives, and delivering messages in an appropriate and constructive manner.                                                                                                        |
| 28 | Environmental, Social, & Governance | 16.193             | The ability to understand, implement, and manage Environmental, Social, and Governance (ESG) aspects in banking activities to support business sustainability and regulatory compliance.                                                                                                                                                               |
| 29 | Islamic Ethical & Accountability    | 30                 | The ability to consistently uphold professional trust with honesty, fairness, and accountability in accordance with Sharia principles, Islamic ethics, the code of conduct, and banking regulations, with a focus on delivering benefits to individuals, the organisation, and the ummah, while ensuring effective risk mitigation.                    |
| 30 | Financial Management                | 60                 | The ability to prepare budgets, control and analyse financial performance, identify costs, and provide financial management recommendations as a basis for management decision-making.                                                                                                                                                                 |
| 31 | Financing Analysis                  | 516                | The ability to conduct comprehensive analysis of financing needs, risks, feasibility, and financing strategies in accordance with banking policies and regulations, including in-depth understanding of financial and business aspects as well as external factors influencing financing decisions, to deliver high-quality and sustainable financing. |
| 32 | Fiqh Muamalah Maaliyah              | 14.239             | The ability to understand, implement, and integrate Islamic legal principles related to banking transactions, including Sharia contracts and their modifications, halal and haram rules, and muamalah mechanisms, in accordance with applicable regulations and fatwas.                                                                                |
| 33 | Giving Effective Feedback           | 114                | The ability to provide constructive feedback to support teams in achieving their objectives and to promote organisational sustainability.                                                                                                                                                                                                              |
| 34 | Global Business Acumen              | 30                 | The ability to understand, analyse, and respond to global business dynamics to make strategic decisions and drive the organisation's competitive advantage.                                                                                                                                                                                            |
| 35 | Growth Mindset                      | 114                | A character that believes abilities and intelligence can be developed through effort, learning, and experience, recognising that capabilities are not fixed but can be enhanced through hard work, dedication, and perseverance.                                                                                                                       |
| 36 | Hedging Management                  | 48                 | Knowledge, skills, and expertise related to Sharia hedging portfolio management in derivatives, taking into account Sharia banking risk aspects, particularly liquidity risk, credit risk, operational risk, and market risk.                                                                                                                          |
| 37 | Industry Expertise                  | 113                | The ability to identify and analyse strategic industry sectors, including key players, business models, industry trends, and market data, to formulate industry insight-based strategies while considering risk factors, macroeconomic changes, and business sustainability.                                                                           |

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

| No | Subject                                      | Total Participants | Objectives                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|----|----------------------------------------------|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 38 | Influencing & Networking                     | 89                 | The ability to build, maintain, and leverage effective professional relationships, both internally and externally, to achieve strategic objectives, support collaboration, and create impact at local, national, and global levels.                                                                                                                                                                                                                          |
| 39 | Internal Audit                               | 3                  | The ability to conduct risk-based audit, assessment, and/or investigative activities and to provide objective, independent, systematic, and structured recommendations to safeguard the efficiency and effectiveness of the Bank's performance, in line with Bank policies, standard operating, laws, internal audit professional standards, and prevailing regulations.                                                                                     |
| 40 | International banking transaction            | 47                 | The ability to understand and manage cross-border (international) banking transactions, including compliance with global regulations, risk management, and the legal aspects of global transactions.                                                                                                                                                                                                                                                         |
| 41 | Investment Strategy and Portfolio Management | 60                 | The ability to manage and develop portfolios of investment products, capital market instruments, taxation regulations and planning, as well as retirement and inheritance planning, both conventional and Sharia-based, to deliver sound investment outcomes by taking into account specific investment profiles, returns, and risks, and to build optimal portfolios supported by orderly investment administration processes and optimum customer service. |
| 42 | IT Security                                  | 15.480             | The ability to implement, manage, and design information technology security measures aimed at protecting systems, data, and digital assets from internal and external threats.                                                                                                                                                                                                                                                                              |
| 43 | Leading Change                               | 30                 | The ability to adapt to change and to effectively manage and lead organisational change.                                                                                                                                                                                                                                                                                                                                                                     |
| 44 | Leading Teams                                | 30                 | The ability to lead teams composed of individuals with diverse backgrounds, skills, and perspectives to work collaboratively in achieving the Bank's objectives.                                                                                                                                                                                                                                                                                             |
| 45 | Legal Banking                                | 434                | The ability to understand and apply applicable legal principles, provisions, and regulations related to Sharia banking operations, including prudential principles, legality, customer authority to act, contractual arrangements, and collateral.                                                                                                                                                                                                           |
| 46 | Legal litigation                             | 20                 | The ability to represent the Bank in judicial proceedings and other dispute resolution forums.                                                                                                                                                                                                                                                                                                                                                               |
| 47 | Liquidity Management                         | 45                 | The ability to manage the Bank's liquidity and prepare cash flow statements in line with applicable requirements and regulations.                                                                                                                                                                                                                                                                                                                            |
| 48 | Market Research                              | 28                 | The ability to gather, explore, analyse, and interpret market data and information to understand trends, customer needs, competitor behaviour, and business opportunities, as well as to design appropriate research methodologies.                                                                                                                                                                                                                          |
| 49 | Operation Control                            | 30                 | The ability to develop, implement, and monitor operational activities to ensure compliance with applicable standard operating procedures.                                                                                                                                                                                                                                                                                                                    |
| 50 | Personal Productivity                        | 116                | The ability to manage time and energy effectively, set priorities, and maintain focus to meet the demands of both work and personal life.                                                                                                                                                                                                                                                                                                                    |
| 52 | Procurement Operation                        | 15                 | The ability to manage and develop procurement processes for goods and services using available resources in accordance with defined scope and timelines.                                                                                                                                                                                                                                                                                                     |

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

| No | Subject                             | Total Participants | Objectives                                                                                                                                                                                                                                                                                                                                                                                           |

| 53 | Product Knowledge                   | 1.194              | The ability in in-depth understanding of the Bank's features, Sharia contracts (akad), benefits, usage, competitive advantages, market segmentation, pricing structures and promotional policies, customer testimonials and reviews, after-sales services, as well as regulations and policies related to the Bank's products, and services.                                                         |
| 54 | Project Management                  | 103                | The ability to plan, coordinate, monitor, communicate, control, evaluate outcomes, and mitigate risks in the integrated execution of projects to achieve the Bank's objectives.                                                                                                                                                                                                                      |
| 55 | Public Communication & Presenting   | 48                 | The ability to deliver messages effectively to audiences through various verbal and non-verbal communication techniques, including public speaking skills, presentation material development, audience engagement management, and the ability to influence and inspire.                                                                                                                              |
| 57 | Regulatory Compliance               | 14.193             | The ability to align the Bank's strategies and policies with relevant regulations, including the application of Sharia principles, to ensure the Bank's sustainability and compliance.                                                                                                                                                                                                               |
| 58 | Relationship and Account Management | 128                | The ability to build, maintain, and develop strategic customer relationships, as well as to manage customer account portfolios effectively to support business growth.                                                                                                                                                                                                                               |
| 59 | Risk Management                     | 20.925             | The ability to implement and develop risk management processes aligned with the Bank's strategy and objectives, encompassing risk identification, measurement, monitoring, and control, as well as continuous risk communication and the establishment of mitigation policies to support the Bank's sustainability.                                                                                  |
| 60 | Sales Performance Management        | 163                | The ability to develop plans and utilise established sales plans, and to adjust strategies in response to dynamic market conditions, including the management of sales forces and growth points, as well as the evaluation of sales performance.                                                                                                                                                     |
| 61 | Selling Skill                       | 907                | The ability to identify, explain, persuade, address objections, and effectively sell products or services by understanding customer needs, offering appropriate solutions, and building strong relationships to achieve sales agreements.                                                                                                                                                            |
| 62 | Stakeholder Management              | 30                 | The ability to manage expectations and foster constructive relationships with stakeholders, as well as to communicate Bank-related information to stakeholders effectively.                                                                                                                                                                                                                          |
| 63 | Strategic Formulation               | 30                 | The ability to formulate appropriate steps or work plans to support the achievement of the Bank's objectives.                                                                                                                                                                                                                                                                                        |
| 64 | Strategic Thinking                  | 208                | The ability to understand and analyse complex and dynamic situations, solve problems, and identify opportunities to support long-term planning with a meaningful impact on the Bank.                                                                                                                                                                                                                 |
| 65 | Talent Management                   | 30                 | The ability to manage talent in an end-to-end manner, encompassing talent identification, development, retention, and succession preparation, by integrating all human capital life cycle processes (recruitment, onboarding, assessment, training, rewards, career development, and offboarding) to ensure the organisation consistently has the right people in the right roles at the right time. |
| 66 | The Transition to Leadership        | 30                 | The capability to navigate the significant transition experienced when moving from an individual contributor role to a managerial role, including changes in responsibility, identity, and mindset, as well as the ability to manage resources effectively, execute work in a timely and appropriate manner, and deliver impact in line with assigned duties and responsibilities.                   |

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

| No | Subject                        | Total Participants | Objectives                                                                                                                                                                                                                                                    |
|----|--------------------------------|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 67 | Treasury Dealing               | 52                 | The ability to analyse market price movements, manage positions, and execute transactions in Sharia financial instruments, including foreign exchange, money markets, and Sharia securities.                                                                  |
| 68 | Treasury Portfolio Management  | 29                 | Knowledge, skills, and expertise related to investment portfolio management across money market and capital market instruments, taking into account Sharia banking risk aspects, particularly liquidity risk, credit risk, operational risk, and market risk. |
| 69 | Dynamic Technical Capabilities | 9,378              | Adaptive technical capabilities that continue to develop in line with changes in the Bank's business and technology.                                                                                                                                          |

## EVALUATION OF COMPETENCY DEVELOPMENT IMPLEMENTATION

To measure the effectiveness of competency development in a structured manner, the Bank applies the Competency Performance Index (CPI) as an assessment indicator. The CPI covers improvements in knowledge, skills enhancement, and changes in work behaviour. Each Work Unit and employee is assigned an average CPI target of 3.00 on a 4.00 scale. Based on data as of 31 December 2025, the average Employee CPI achievement was recorded at 3.63, reflecting the effectiveness of employee competency development implementation.

## COMPETENCE DEVELOPMENT COSTS

Total expenditures for the competence development reached Rp141,774 billion in 2025 allocated for 187 training programs.

### 2025 HR Development Cost

| 2025 RKAP         | 2025 Realization  | Achievement |
|-------------------|-------------------|-------------|
| Rp140,222,762,400 | Rp141,773,826,444 | 101%        |

### 2026 HR Development Projection

| 2026 HR Development Cost Projection | Number of Training Programs | Number of Participants |
|-------------------------------------|-----------------------------|------------------------|
| Rp147,779,000                       | 195                         | 209,000                |

## DRIVING PROGRESSIVE CAREER DEVELOPMENT

As part of its commitment to sustainable talent development, the Bank manages employee career progression through a structured and development-oriented approach. Improvements in competency and performance achievements form the basis for broader career opportunities. Accordingly, the Bank implements a systematic promotion mechanism through two main pathways.

### 1. Position Promotion

Position promotion refers to the placement of employees from lower job levels to positions with greater responsibilities. In 2025, the promotion process was supported by the use of data analytics to identify alignment between employee profiles and target position qualifications. For Senior Manager roles, the Bank applied a Bench Strength Ratio of 1:3 as part of its Succession Management process, providing wider opportunities for career growth and the assumption of more strategic roles that contribute to the Bank's performance.

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

### 2. Grade Promotion

In addition to position promotion, the Bank also provides career advancement through grade promotion, which involves upgrading an employee's grade level. In 2025, the Bank updated its grade promotion policy by introducing parameter categories: Fast Track, Medium, and Normal. This approach accelerated promotion for high-performing and high-potential employees, while ensuring alignment with employee readiness, capability requirements, and the Bank's business needs and targets.

### OPTIMISING PERFORMANCE TO ENHANCE COMPETITIVENESS

To ensure performance remains aligned with strategy and supports competitive advantage, the Bank implements a performance assessment system designed in accordance with the principles of transparency and accountability. The system serves not only as a performance evaluation tool, but also as a foundation for fostering a healthy work culture with the following objectives:

1. To drive the achievement of organisational goals through optimal employee performance.
2. To cultivate a positive work culture that emphasises productivity and professionalism.
3. To strengthen employee engagement and active participation in the organisation's direction and development.

Performance management is carried out on a continuous basis by ensuring alignment from corporate goals down to unit-level targets and individual objectives. Through this approach, corporate strategy is consistently translated to the individual level, while maintaining a clear linkage between employee performance and the Bank's overall performance.

The annual performance management cycle consists of three main stages:

1. Performance Planning, establishment of Key Performance Indicators (KPIs).
2. Performance Monitoring, reviewing performance targets and determining improvement actions to achieve the defined objectives.

3. Performance Evaluation, assessing achievement of targets and objectives to determine employee performance results at the end of the period.

In 2025, BSI strengthened its performance management practices to align with the Bank's strategy and business plan and to enhance employee productivity through the following initiatives:

1. Updating KPIs for Branch Network employees to align with business strategies and priorities at the Regional, Area, and Branch levels.
2. Strengthening KPI cascading guidelines for Head Office employees to ensure clear alignment between Individual, Unit, and Bank KPIs.
3. Enhancing the implementation of Development Dialogue between employees and managers to foster constructive two-way communication, support performance improvement, and develop Individual Development Plans.
4. Updating Performance Evaluation policies to strengthen assessment accountability and alignment across individual, unit, and Bank performance.

All performance management processes are conducted online through Employee Information System (SIP), enabling employees to access performance information easily and transparently.

### MANAGING COMPETITIVE AND SUSTAINABLE REMUNERATION

In ensuring compliance and fairness for all employees, the Bank designs its remuneration policy by referring to applicable regulations, including the fulfilment of minimum wage standards across all operational regions. This approach serves as the foundation for establishing a sustainable remuneration system aligned with the Bank's competitiveness strategy.

As part of responsible remuneration governance, remuneration implementation is guided by the principles of competitiveness and fairness, incorporating performance and risk considerations, and aligned with best practices

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

in the banking industry. To remain responsive to labour market developments, the Bank regularly participates in Annual Salary Surveys conducted by independent institutions as a benchmark for setting and reviewing remuneration policies.

Through a well-directed remuneration policy, the Bank seeks to maintain its competitive position in the labour market, strengthen talent retention and engagement, and motivate employees to deliver optimal performance. In line with this commitment, in 2025 the Bank enhanced its remuneration system, covering both financial and non-financial components, including adjustments to salary structures and levels based on market conditions and the Bank's financial capacity.

### FACILITATING A COMFORTABLE AND WELL-PLANNED RETIREMENT TRANSITION

In supporting employee well-being through the final stage of service, the Bank places strong emphasis on ensuring that the transition into retirement is comfortable and well planned. This approach reflects the Bank's commitment to preparing employees to enter the next phase of life with confidence and security.

As part of this effort, the Bank has established structured retirement preparation programmes for employees and their spouses, supported by clearly defined curricula and schedules. Through comprehensive pre-retirement programmes, the Bank facilitates financial, psychological, and social readiness, enabling retirees to experience a meaningful retirement period. This initiative underscores BSI's commitment to delivering long-term value across the employee life cycle, including at the final stage of the professional journey.

### HUMAN CAPITAL SYSTEM TRANSFORMATION THROUGHOUT 2025

As part of its digital transformation agenda, throughout 2025 the Bank continued to strengthen its Human Capital information systems to enhance service quality, process effectiveness, and employee experience. These efforts focused

not only on technological upgrades, but also on ensuring that the systems developed remained aligned with operational needs and organisational dynamics.

On system development, key focuses are simplifying human capital administrative processes, improving data accuracy, and integrating modules that previously operated independently. Through a centralised system application, core functions such as employee data management, leave and attendance, business travel, and reimbursement processes could be executed more efficiently, transparently, and with stronger documentation.

For employees, the implementation of the Human Capital system enabled greater convenience through self-service access to Human Capital services. Employees are able to submit administrative requests, track application status, and access personnel information in real time without reliance on manual processes. This has directly enhanced work convenience, service certainty, and trust in the Bank's internal processes.

From the Human Capital function's perspective, the system developed throughout 2025 serves as a critical foundation for data-driven decision-making. More structured and consistent data availability supports deeper analysis related to workforce planning, talent development, and succession readiness. As a result, the Human Capital function has evolved beyond an administrative role to become a strategic partner in supporting the Bank's business sustainability.

Overall, the Human Capital system transformation in 2025 reflects the Bank's commitment to building a modern, efficient, and employee-centric work ecosystem. This initiative represents an important early step in establishing an adaptive and sustainable system foundation to address future organisational needs.

In line with the direction of the Board of Directors and oversight by the Board of Commissioners, the development of the Human Capital system in 2025 was also positioned as part of the Bank's strategic agenda to strengthen governance, risk management, and organisational continuity. The system functions as a strategic enabler by

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

providing comprehensive visibility into workforce profiles, talent readiness, and the effectiveness of Human Capital policies. This approach equips the Board of Directors and Board of Commissioners with more accurate and timely data to support strategic decision-making, particularly in succession planning, leadership development, and organisational structure adjustments.

Grounded in good corporate governance principles and compliance with applicable internal and regulatory requirements, the Human Capital system transformation throughout 2025 forms a key foundation for accountable, transparent, and integrity-driven human capital management. Beyond supporting operational effectiveness and strategic decisions, the system strengthens internal controls, compliant processes, and compliance risk mitigation, thereby providing assurance to the Board of Directors, Board of Commissioners, and stakeholders regarding the quality of Human Capital governance.

### STRENGTHENING CULTURE IMPLEMENTATION AS A PILLAR OF TRANSFORMATION TOWARDS VISION 2030

The year 2025 marked a new chapter in BSI's transformation journey. After going through the initial phase of consolidation and fundamental strengthening, BSI has now entered Transformation Phase 2 with a bigger vision: to become a Top 5 Global Islamic Bank by 2030. At this stage, culture acceleration has become the main focus, as we believe that the success of transformation depends not only on business strategy, but also on the strength of the culture that lives within every BSI employee.

In supporting sustainable business, the gesture #butuhNYALIuntukNYALA (Customer Focus, Strengthening Integrity, Collaboration, Maximum Contribution) as the cultural theme in 2025 and the Melayani Sepenuh Hati value initiated by Danantara continue to be consistently internalized so that they become employee behavior within the Company, as part of Customer Focus. Throughout the year, various initiatives were carried out to ensure that culture is not merely a slogan, but a real practice that drives the organization. One manifestation of this is the implementation of Nonton Bareng NYALI NYALA

(NOBAR) every Monday morning across all work units. This program serves as an effective internal communication channel to convey management's strategic direction and priority program information, so that all employees remain aligned with the Company's vision and mission.

In addition, the Company strengthened the role of Change Agents as the driving force of change at the work unit level. Through a comprehensive onboarding/Change Agent Empowerment program, Change Agents are equipped with adequate competencies to ensure that cultural transformation is carried out in a tangible and sustainable manner and that a collaborative spirit is present in all Work Units.

Commitment to innovation also became an inseparable part of culture acceleration. Through the BSI Excellence Award (BEA), the Company gives appreciation to the best units/individuals as well as innovative ideas that make a significant Maximum Contribution to business sustainability. In terms of innovation, the Company grants awards in the categories of Best Implementation, Best Idea, and One Unit One Implemented Innovation, reflecting the Company's courage to continue innovating and creating added value.

On the other hand, strengthening integrity and compliance with regulations remains a top priority. Through the Know Your Employee (KYE) program, the Company conducts self-assessments and supervisor validation to identify employees who require further assistance or coaching. This step is intended not only to minimize fraud risk, but also to strengthen the value of trustworthiness as the foundation of trust.

In addition to the above, various other culture internalization programs were also implemented, such as Culture Pulse Check, Culture Meet Up with Leaders (BOD), Leaders Alignment Session (LAS), Change Agent Onboarding, New Employee Induction Program, Friday Blessing & Friday Munajat, BRADER (Clean, Neat and Well-Maintained), Retirement Appreciation, Pre-Retirement Preparation Training (PPMP), Employee Engagement Survey (EES), Hope & Fear Survey, Behavior Maturity Index (BMI), Operational Innovation Mentoring in the IOBS event, Innovation Expert Sharing, and other programs.

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

All of these efforts demonstrate that strengthening culture is not merely a program, but a journey of building positive behavior within the Company. With a strong cultural foundation, sustainable innovation, and maintained integrity, the Company is optimistic that it can move steadily toward its grand vision of becoming a Top 5 Global Islamic Bank by 2030.

### PROGRESSIVELY ENHANCING EMPLOYEE INFORMATION LITERACY

To support work effectiveness and sound decision-making, the Bank continuously enhances employee information literacy through integrated, accessible, and transparent Human Capital systems. This effort aims to ensure that employees are able to understand, utilise, and manage human capital information effectively in support of performance and accountability.

One of the main initiatives implemented by the Bank is the SIP (Employee Information System) application, which organizes Human Resource management functions based on competency and performance. SIP is designed as an integrated platform to provide accurate, up-to-date, and structured employee data and information in support of the achievement of the Company's strategic objectives.

Through SIP, the Bank provides comprehensive employee information for the purposes of HR planning, development, and control for employees as well as heads of work units at both Head Office and Non-Head Office. The utilization of this system strengthens data-driven decision making, improves transparency in HR management, and promotes an information-based work culture throughout the organization.

### SYSTEM AND INFRASTRUCTURE HUMAN CAPITAL

As a foundation for modern human capital management, the Bank has developed Human Capital systems and infrastructure designed to support strategic and integrated workforce management. These systems play a key role in ensuring data accuracy, process efficiency, and easy access to information for both employees and management.

Through enhancement of its Human Capital systems and infrastructure, the Bank ensures that all employment processes, from administration, career management, performance to competency development, are managed consistently, well-documented, and aligned with organisational and business objectives. The following are elaboration of core elements of the infrastructure and system:

- a. Organisation
  1. Organisational Structure  
Organisation chart and job descriptions
  2. Company Regulations  
Company regulations in accordance with applicable labour laws and internal policies
- b. Employee
  1. Employee Information  
Detailed personal employee information
  2. Employee Letter  
Employee appointment and assignment letters
  3. Employee Request  
List of employee transaction requests
  4. Employee Work Status  
Information on employee surveys and/or work status, including during pandemic conditions
  5. Curriculum Vitae  
Summary of employee personal data, training history, career progression, achievements, and disciplinary records
- c. Career
  1. Award  
Employee award records
  2. Career Request  
Career applications submitted through branch administrators
  3. Discipline  
Employee disciplinary records
  4. Career Transition  
Career change records submitted through Head Office administrators
- d. Time & Attendance
  1. Attendance  
Individual employee attendance records
  2. Attendance Data  
Organisation-wide attendance data (based on authority)
  3. Employee Logbook  
Employee work activity records
  4. Attendance Correction Request  
Requests for attendance data correction
  5. Leave  
Employee leave applications

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

- 6. Overtime  
Employee overtime applications
- 7. On Duty / Business Travel  
Business travel applications
- e. Reimbursement
  - 1. Reimbursement List  
List of reimbursement claims
  - 2. Reimbursement Submission  
Reimbursement claim submissions
  - 3. Reimbursement Cancellation  
Cancellation of reimbursement claims
- f. Loan  
Employee financing / FPP applications
- g. Payroll
  - 1. Salary History / Payslip
  - 2. Salary Data
- h. Performance
  - 1. Key Performance Indicators (KPI)  
Employee performance measurement aligned with the Bank's strategy
  - 2. Competency-Based Assessment  
Assessment based on target achievement and work behaviour in line with organisational values
- i. Training  
Employee training records
- j. Recruitment  
Internal and external employee recruitment

## DISCLOSURE OF INFORMATION TO EMPLOYEES

The Secretary of the Policy & Procedure Committee (Policy & Procedure work unit) conducts socialization of the Bank's provisions together with the Owner Work Unit, through several socialization media, namely:

1. Preparation of provision socialization through infographics and Executive Summaries.
2. Sharing Knowledge  
The Secretary of the Policy & Procedure Committee (Policy & Procedure Work Unit), together with the Owner Work Unit as speakers in the provision sharing session for all BSI employees, coordinates with BSU.
3. Refreshment and Quiz  
Employees access reading materials through the New Policy System and complete the Refreshment through the Learning Management System (SMILE). The Refreshment and Quiz are conducted at least 2 (two) times in one year, in collaboration with BSU.

The following is a description of the Socialization, Sharing Knowledge, Refreshment, and Quiz data for the period from January to December 2025, as follows:

| Implementation of the Outreach Program for the Period from January to December 2025 |                                  |                   |             |          |
|-------------------------------------------------------------------------------------|----------------------------------|-------------------|-------------|----------|
| Scope of the Regulations                                                            | Sosialisasi (Exsum & Infografis) | Activity          |             |          |
|                                                                                     |                                  | Sharing Knowledge | Refreshment | Quiz     |

## HUMAN CAPITAL MANAGEMENT IMPLEMENTATION

### STRENGTHENING THE HUMAN CAPITAL GOVERNANCE STRUCTURE

To ensure effective implementation of the Human Capital Framework in alignment with the employee journey or employee life cycle, BSI has established an integrated and strategically oriented Human Capital governance structure. This structure is designed to strengthen policy formulation, operational service effectiveness, capability development, and direct support for business unit performance.

BSI's Human Capital organisational structure comprises the Human Capital Strategy & Policy Group, which is responsible for policy and strategy formulation; the Human Capital Services Group, which manages operational human capital services; BSI Corporate University, which oversees learning and development programs; and Human Capital Business Partner 1 and Human Capital Business Partner 2 (HCBP1 and HCBP2), which act as strategic partners to business units in achieving performance targets and business objectives.

#### b. Leadership Engine

Aimed at preparing leaders across all organisational levels through structured leadership development programs and succession planning, to build strong, adaptive, and sustainable leadership.

#### c. Culture Engine

Designed to reinforce a positive work culture by managing the employee experience, strengthening engagement, and implementing recognition systems that encourage collaboration and collective performance.

#### d. Reward Engine

Focused on ensuring a fair and competitive reward system, covering both financial and non-financial aspects, including personal development support, work flexibility, and well-being programs to enhance overall employee welfare.

### HUMAN CAPITAL WORK PLAN 2026

Entering 2026, the Bank has established an integrated Human Capital work plan to strengthen organisational capability and foster a productive and high-quality work environment. This strategy is designed to enhance employee performance while cultivating a positive and sustainable employee experience, supported by four key pillars:

#### a. Capability Engine

Focused on developing employee competencies through targeted recruitment, business-relevant learning programs, and the use of technology to support performance monitoring and continuous productivity improvement.

Through the implementation of these four pillars, 2026 marks an important starting point for sustainable Human Capital transformation, supporting the creation of a productive organisation and positioning the Bank as an employer of choice.

# INFORMATION TECHNOLOGY

## DIGITAL STRENGTH FOR TRUSTED GROWTH

“BSI positions Information Technology as a strategic enabler to deliver a stable, secure, and scalable sharia digital ecosystem. Through strengthened reliability, enhanced cybersecurity, and the adoption of data, AI, and automation, the Bank advances business transformation while ensuring governance discipline. This integrated approach enables BSI to elevate customer experience, expand its digital reach, and support sustainable growth.”

## MASTER PLAN AND INFORMATION

Aligned with its aspiration to become a Top 5 Global Islamic Bank by Market Capitalisation by 2030, BSI positioned Information Technology as a strategic backbone within its House of Strategy. Information Technology was designed not only to support day-to-day operations, but also to enable long-term business transformation and value creation. Within this framework, IT & Digital Platform Stability was prioritised as a core enabler, ensuring that business expansion, increasing digital adoption, and end-to-end operational execution were underpinned by resilient, secure, and scalable technology foundations capable of supporting sustainable growth.

During 2025, the IT agenda was translated into five focused strategic initiatives designed to strengthen performance and enable sustainable growth:

1. **IT RASS (Reliability, Availability, Scalability, Security):** A strategic initiative to address fundamental requirements (hygiene factors), enabling sustainable business operations and accelerating digital transformation.
2. **Digital Solution for Customer & Retail:** Development of digital solutions to support retail transactions across BSI's channel platforms.
3. **Digital Solution for Wholesale:** Enhancement of digital transaction services for wholesale segment to increase corporate engagement and transactions.

### 4. Business & Operation Transformation:

A strategic effort to refine and digitalise financing and operational processes through targeted initiatives, aimed at improving efficiency, service speed, and achievement of business objectives.

### 5. ES-GRC (Enterprise Security, Governance, Risk & Compliance):

Strategic initiatives related to ESG, risk, and compliance to strengthen data security, regulatory compliance, more effective risk management, and support BSI's sustainability agenda.

These initiatives were delivered through the IT House of Strategy, structured around three core pillars:

1. **People:** Strengthening the capacity, capability, and culture of IT HR through recruitment, training, and development programs.
2. **Process:** Continuous improvement of IT processes, including governance of IT development management (SDLC) to operations.
3. **Technology:** Implementation of strategic IT initiatives across 4 (four) architecture domains, covering applications, infrastructure, data, and security.

## INFORMATION TECHNOLOGY INNOVATION

In 2025, BSI continued to strengthen its Information Technology capabilities through the development of both technology and infrastructure to support sustainable business growth. These initiatives were directed at enhancing system resilience, expanding digital capacity, and ensuring that IT platforms were able to support increasing business scale and complexity. As part of this ongoing effort, the Bank implemented a number of technology development innovations throughout 2025, including the following initiatives:

### 1. IT RASS (Reliability, Availability, Scalability, Security)

Optimisation and modernisation of applications and infrastructure were undertaken to enhance and maintain the quality of customer transaction experiences. In parallel, reliable Data Center infrastructure was strengthened to improve service quality and overall system resilience.

### 2. Digital Solution for Customer & Retail

Feature development and service capability enhancements of BYOND by BSI were carried out to drive growth in the number

## INOVASI TEKNOLOGI INFORMASI

of customers and active users, as well as transaction frequency, contributing to higher Fee Based Income (FBI).

Innovations introduced in BYOND by BSI included **Cardless Withdrawal at other banks, QRIS Cross-border, Online Mutual Funds, and BYOND Lyfe** services (Umrah packages, KAI train tickets, flight tickets, and BSI OTO). As the only bank holding a Bullion Bank license, BSI also launched **Bank Emas** services through BYOND by BSI. To further expand service reach, collaboration with strategic partners to enable seamless utilisation of BSI services continued to be strengthened. BSI also expanded partnerships and the Islamic digital ecosystem through **Open API** integration aligned with the **SNAP BI** standard.

### 3. Digital Solution for Wholesale

To support the digital transformation agenda and enhance service quality for corporate customers, the Bank continuously strengthened digital solutions in the wholesale segment.

These efforts were realised through the development of **BEWIZE**, which is equipped with three core services: **Cash Management, Value Chain, and Trade Finance**. **BEWIZE Cash Management** has been enhanced with fraud detection capabilities and optimised services for securities companies through Customer Fund Account (RDN) transactions. In addition, **BEWIZE Trade**, as one of BSI's digital trade finance services, has been equipped with customer onboarding capabilities. For financing services, **BEWIZE Value Chain** now supports Supplier, Buyer, and Distributor Financing.

Collectively, these initiatives improved transaction speed, strengthened security, enhanced operational efficiency, and delivered a better overall experience for corporate customers.

### 4. Business & Operation Transformation

Financing processes were optimised through Business Process Re-Engineering (BPR) to accelerate service level agreements (SLA) for Griya financing, digitalise workflows, and enable end-to-end data integration with the Customer Relationship Management (CRM) and Financing Operation systems. CRM development was further strengthened by enhancing a 360-degree customer view, increasing customer engagement, and supporting cross-segment product sales to improve the Product Holding Ratio (PHR). In parallel, branch operational processes continued to undergo transformation through service digitalisation, including the implementation of web-based forms for customer transactions.

### 5. ES-GRC (Enterprise Security, Governance, Risk & Compliance)

Financing processes were optimised through Business Process Re-Engineering (BPR) to accelerate service level agreements (SLA) for Griya financing, digitalise workflows, and enable end-to-end data integration with the Customer Relationship Management (CRM) and Financing Operation systems. CRM development was further strengthened by enhancing a 360-degree customer view, increasing customer engagement, and supporting cross-segment product sales to improve the Product Holding Ratio (PHR). In parallel, branch operational processes continued to undergo transformation through service digitalisation, including the implementation of web-based forms for customer transactions.

The information technology innovations implemented in 2025 delivered tangible benefits in improving both operational efficiency and service quality for customers. System modernisation and infrastructure optimisation strengthened transaction reliability, reduced processing time, and enhanced system resilience, enabling the Bank to manage higher transaction volumes with greater stability and control. The digitalisation of financing and operational processes streamlined

## INOVASI TEKNOLOGI INFORMASI

workflows, reduced manual intervention, and improved turnaround times, supporting more efficient resource utilisation across business units.

From a customer perspective, enhanced digital platforms expanded access to banking services, increased transaction speed, and improved service convenience across retail and wholesale

segments. Integrated digital solutions enabled more seamless interactions, stronger security controls, and more responsive service delivery. Collectively, these innovations strengthened customer experience, reinforced trust in digital channels, and supported sustainable business growth by aligning operational efficiency with service excellence at Bank Syariah Indonesia.

## INFORMATION AND TECHNOLOGY INFRASTRUCTURE

Throughout 2025, BSI refined its Information Technology governance structure to better support business growth and accelerate digital transformation. This adjustment was aimed at ensuring that technology capabilities evolved in line with expanding business needs and increasing digital adoption. Key efforts included strengthening Data Center infrastructure to support high availability and system resilience, adopting more modern, modular, and scalable technologies, and leveraging cloud technology to enable greater flexibility and faster innovation. These initiatives played a critical role in supporting the reliability and performance of core operational channels, including the BYOND by BSI superapp, while ensuring that digital services remained responsive, secure, and ready to scale.

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

Within its Information Technology governance framework, BSI places strong emphasis on ensuring that technology adoption is conducted in a controlled, secure, and accountable manner. IT governance is designed to align technology initiatives with business priorities, manage risks effectively, and safeguard the reliability of digital services as the Bank continues to scale its operations and expand digital engagement. As digitalisation deepens across products and channels, cybersecurity has become an integral component of governance to protect customer data, transaction integrity, and business continuity.

BSI's cybersecurity capability enhancement strategy is built on three core pillars: **People**, **Process**, and **Technology**. From the technology perspective, the Bank strengthened its layered defence through the deployment of advanced security solutions, including endpoint security, application security, and threat intelligence, to mitigate increasingly complex cyber threats. These measures are supported by structured processes and governance controls to ensure timely detection, response, and recovery, as well as continuous capability development of personnel responsible for managing cyber risks. Collectively,

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

this integrated approach reinforces BSI's cyber resilience and supports secure, sustainable digital banking operations.

### PEOPLE

As part of efforts to enhance human resource capabilities, 3 (three) key actions were undertaken as follows:

1. Adjustment of the CSO Office organisational structure, including:
  - The transformation of Security Project & QA into Security Advisory to ensure that strategic IT initiatives are well planned, properly designed, and executed efficiently in support of the Bank's business plans in accordance with applicable requirements. This function is structured into Security Project & Budgeting, Security Control & Management, and Security Business Partners teams.
  - The establishment of Security Assurance to ensure that all configurations are properly implemented and that critical assets and services are thoroughly evaluated, providing an adequate level of assurance and confidence regarding security posture and minimising risk exposure to the Bank. This function comprises Product Security, Vulnerability Assessment & Penetration Testing (VAPT), and Security Red Teaming teams.
  - The establishment of Security Compliance to ensure that all security activities are conducted in alignment with Technical Operational Guidelines and regulatory compliance requirements set by regulators or other stakeholders of the Bank. This function includes Security Certification, Security Risk & Third-Party Management, and Security Operational Compliance teams.
  - The transformation of Application Identity Management into Security Identity, Application, and Data Management to expand the scope of identity management, application security, and data protection in a more comprehensive manner. This function covers Application Identity Management, Infrastructure Identity Management, Endpoint Identity Management, Data Encryption & Key Management, Database Security &

Protection Management, Directory Service & Collaboration Management, and Security Identity, Application & Data Management staff.

- The restructuring of IT Security Services and IT Security Operations into Security Platform Management to integrate security management across systems, infrastructure, networks, databases, and web services. This function consists of ATM & Network Security, Endpoint Security, Cloud & Perimeter Security, and Security Change & Configuration Management teams.
  - The transformation of the Security Operations Center into Security Monitoring & Incident Management to strengthen threat detection, incident investigation, and the implementation of faster and more coordinated corrective and preventive actions. This function includes Threat Hunting, Security Platform Detection, Security Application Detection, Incident Response & Digital Forensic, and Security Monitoring & Incident Management staff.
2. Pemenuhan kompetensi SDM CSO yang berproses dengan pelatihan dan sertifikasi.
  3. Pelaksanaan *Phising Simulation* terhadap pegawai internal BSI untuk meningkatkan kesadaran keamanan siber.

### PROCESS

The process aspect was also a concern in enhancing cybersecurity capabilities, with the following actions undertaken:

1. Surveillance audit for ISO 27001:2022.
2. Optimisation of proactive security activities, such as threat hunting on the dark web and takedown services for fake accounts or websites impersonating BSI.
3. A proactive approach to accelerating digital initiatives, in which the CSO evolved from a security reviewer into a trusted business enabler by implementing security by design and privacy by design from the design stage across BSI's entire SDLC, ensuring that every innovation is secure, compliant, and reliable from initiation.

### TECHNOLOGY

BSI continued to strategically strengthen its cybersecurity capabilities on the technology

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

aspect as part of its efforts to safeguard the reliability and sustainability of banking services. These enhancements were reflected in the following:

1. The consistent achievement of an “A” score on the Rating Scorecard, the maintenance of uninterrupted operations without material cybersecurity incidents, and the improvement of cybersecurity maturity levels in line with OJK parameters throughout 2025.
2. Strengthened security across BSI mobile applications (BYOND, BSIM, Ikurma, Smart Agent), resulting in a reduction in mobile application fraud rates as of June, with further improvement recorded by September 2025.
3. Enhanced security at very critical and critical application levels, as per Business Impact Analysis (BIA) of Business Continuity Management (BCM) Group, through the integration of user access into a single ID and layered protection using Multi-Factor Authentication (MFA).
4. Improved Security Assurance for very critical and critical applications throughout the application development lifecycle (SDLC), from securing source code and application libraries against potential security vulnerabilities.
5. Strengthened security monitoring capabilities through expanded monitoring coverage, faster threat response and isolation, and improved accuracy in detecting attack patterns.

Going forward, BSI is committed to continuing capability enhancement and continuous improvement in support of its 2030 vision and mission to become a leading global Islamic bank with strong cybersecurity excellence. Strengthening strategies will be implemented in an integrated manner across the people, process, and technology aspects to achieve strong public and internal ratings, drive sustainable growth in cybersecurity maturity, and build a lean and proactive organisation in managing cybersecurity risks.

### MECHANISM OF DISRUPTION IDENTIFICATION

BSI has established a structured framework to anticipate and manage potential disruptions to business operations. This framework is governed under the Bank’s Business Continuity Management (BCM) policy and operationalised through the Business Continuity Plan (BCP) Technical Operating Guidelines. In the event of an information technology disruption, incidents are assessed through defined disaster identification stages to determine the appropriate response. Follow-up actions are then executed in accordance with the assessment results and the delegated authority of the Crisis Management Team (CMT), ensuring timely coordination and effective recovery.

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

### CYBERSECURITY STRATEGY

BSI consistently enforces comprehensive information technology policies and standard operating procedures across the organisation. These measures are designed to ensure that information managed by all IT user units is adequately protected against potential threats that could result in data leakage or the loss of critical information. Security oversight is embedded in every system development and modification process, with independent controls in place to assess cyber resilience and security, separate from day-to-day IT operations. Through this approach, BSI upholds core cybersecurity principles that serve as the foundation of its technology risk management framework, including the following:

1. Information is an asset
2. Risk compatibility
3. Compliance with regulations
4. Granting of approval
5. Adaptable and measurable
6. System safe by design
7. Layered defense
8. Segregation of duties and access restrictions
9. Accountability
10. Audit
11. Continuous improvement

Criteria in the Cyber security controls used:

1. Confidentiality
2. Integrity
3. Availability

BSI has established a Chief Security Officer Office Group (CSO) unit assigns to manage cybersecurity focusing on the following 6 aspects:

1. Security Project & QA
2. Application Identity Management
3. Network Access & Data Protection
4. IT Security Services
5. IT Security Operations
6. Security Operation Center

As BSI expands its digital banking services, cybersecurity is embedded to protect digital platforms from both internal and external threats. BSI applies the NIST Cybersecurity Framework alongside other globally recognised standards used in the financial industry to ensure structured and resilient cyber risk management.

From January to December 2024, BSI's cybersecurity posture consistently achieved a Strong **"A" rating**, outperforming the global financial industry average, which remained at a "B" rating. This assessment was conducted independently by SecurityScorecard, a United States-based organisation specialising in global cybersecurity ratings.

In line with prevailing industry practices, Bank Syariah Indonesia has held ISO 27001:2022 certification since February 2024, awarded by the British Standards Institution (BSI) as an internationally recognised information security standard. In addition, the Bank recorded a "High" cybersecurity maturity level (Level 2) based on an independent assessment conducted by Ernst & Young (EY), using cybersecurity measurement criteria stipulated under SEOJK No. 29 of 2022.

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

BSI remains committed to continuously strengthening its cybersecurity strategy and execution to ensure that customers consistently receive secure and reliable services, in line with the Bank's role as a trusted financial, social, and spiritual partner.

### DISASTER RECOVERY STRATEGY/PROCESS

In crisis situations, the Bank's primary objective is to restore business operations to a stable and normal condition. The disaster recovery approach is designed as an integrated framework that brings together Emergency Response (ER), Business Continuity (BC), and Data Recovery (DR), ensuring coordinated actions across entire elements during disruptive events.

To support this objective, BSI has established

structured crisis handling procedures from early disruption identification through crisis declaration and the activation of recovery measures. These procedures are set out in the Crisis Management Plan, which serves as a guideline for decision-making, assignment of roles and responsibilities, and control of recovery processes to ensure the Bank's critical services and functions are restored timely and in a controlled manner. The Crisis Management Plan procedure flow is as follows:

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

### Crisis Management Procedure Overview

#### Disruption Identification & Escalation

Operational disruptions are detected by affected units and addressed through initial corrective actions. Incidents are reported, assessed by CM, ER, BC, and DR coordinators, and escalated to the Chairman of the Crisis Management Team (CMT) when potential crisis thresholds are identified.

#### Crisis Declaration

The Chairman of the CMT reviews and verifies the incident analysis to determine the level of impact and risk. A formal crisis declaration is made when the disruption cannot be managed under normal operational conditions.

#### Crisis Command Center Activation

Following the crisis declaration, the Crisis Management Team Crisis Center (CMTCC) is activated under the direction of the CMT Chairman, either virtually or physically, to enable structured coordination and decision-making.

#### Recovery Execution & Periodic Reporting

Recovery activities are led by the CMT Chairman and executed by CM, ER, BC, and DR teams in accordance with approved recovery plans. Progress is monitored and reported regularly to ensure effective and timely restoration of services.

#### Crisis Information Management

Potentially material information or negative media coverage is identified, analysed, and addressed through a structured communication strategy. All messaging is implemented with CMT approval and monitored continuously to manage reputational risk.

#### Crisis Communication & Media Handling

External communication materials are prepared by the Communication Team in line with CMT direction. Press releases or press conferences are conducted when required, with messages delivered by the designated Bank Spokesperson.

#### Crisis Closure & Return to Normal Operations

Once recovery is completed and services are stabilised, the crisis status is formally closed. A post-crisis evaluation is conducted, and operational oversight is returned to the Business Continuity Management function.

#### Note:

CM: Crisis Management  
ER: Emergency Response  
BC: Business Continuity  
DR: Disaster Recovery  
BCM: Business Continuity Management  
CMT: Crisis Management Team

## INFORMATION TECHNOLOGY GOVERNANCE & CYBERSECURITY STRATEGY

### System of Reporting to the Board of Directors

In relation to reporting on developments and dynamics in the Information Technology area, Bank Syariah Indonesia has established a structured reporting mechanism to ensure the Board of Directors receives timely, relevant, and comprehensive information. This reporting process supports effective oversight, informed decision-making, and alignment between technology initiatives and the Bank's strategic objectives, as illustrated below.

## INFORMATION TECHNOLOGY MANAGEMENT STRUCTURE

In 2025, Bank Syariah Indonesia adjusted its Information Technology management structure to address increasing business complexity and to accelerate digital transformation. These adjustments were designed to enhance the responsiveness of the IT function to technological developments while strengthening its role in delivering strategic value aligned with the Bank's long-term vision.

As part of this refinement, leadership structure of IT and digital function was strengthened through the appointment of SEVP IT Development and Operations and SEVP Digital Banking. This structure ensures end-to-end accountability for BSI Digital services, from solution development to operational execution, and strengthen alignment between digital innovation and business priorities.

To further strengthen digital capabilities, BSI established the Digital Banking Wholesale Group under the supervision of the SEVP Digital Banking. This group focuses on the innovation and development of products and digital channels tailored to the specific needs of the wholesale banking segment.

In response to the growing importance of data-driven decision-making and Artificial Intelligence (AI), BSI also formed the Data & Analytics Services (DAS) group under the SEVP Digital Banking. The DAS group is responsible for optimising enterprise-wide data management and utilisation, as well as advancing the adoption of AI and Machine Learning to support sustainable business growth through insights, automation, and enhanced operational effectiveness.

## INFORMATION TECHNOLOGY WORK PLAN FOR 2026

Entering 2026, BSI positions Information Technology as a key enabler to strengthen competitiveness, enhance service quality, and support sustainable business growth. Building on the established transformation foundation, IT development is structured in an integrated manner to support Phase II of BSI's Transformation and the achievement of the Company's vision and mission. The IT development roadmap is focused on **"Becoming Customers' First Choice by Delivering a Stable, Secure, and Trusted Global Islamic Digital Ecosystem"**, which will be realised through:

1. Ensuring IT reliability, availability, scalability, and security in line with international standards.
  2. Supporting sharia business transformation to deliver the best customer experience.
  3. Driving digital platforms to expand the customer base to up to 40 million.
  4. Developing Data, AI, and Automation capabilities to enable insight-driven services.
  5. Strengthening technology governance and innovation to deliver service excellence.
- The five missions are implemented through 7 Key Programs, which will serve as the focus for execution and resource allocation. These key programs include:
1. **Enhancement of Stable, Reliable, and Scalable IT Services:** Refreshing and optimising infrastructure to ensure high system availability online with strong performance, and sufficient capacity to support business growth.
  2. **Cybersecurity Enhancement:** Strengthening layered cyber defences to mitigate risks to customer data security and respond to increasingly sophisticated digital threats.
  3. **Development of Sharia Digital Ecosystem Platform:** Building open and integrated, API-based digital platforms to enable connectivity with halal ecosystem partners and third-party services.
  4. **Acceleration of Business Process Transformation:** Leveraging digital technologies to modernise workflows, reduce manual processes, and improve operational efficiency across business lines.
  5. **Empowerment of Data Analytics and AI:** Leveraging advanced analytics and sustainable AI capabilities to enhance organisational competitiveness through insight-driven decision-making and integrated process automation.
  6. **Enhancement of IT Organisational Capability and Capacity:** Developing technical and managerial competencies within IT teams while expanding resource capacity to support the execution of strategic initiatives.
  7. **Strengthening of IT Governance, Risk, and Compliance (GRC):** Implementing best-practice IT governance and disciplined risk management to ensure compliance, transparency, and alignment between IT strategy and business objectives.

# 05

## CORPORATE GOVERNANCE

### **GOVERNANCE AS THE ANCHOR OF TRANSFORMATION**

In a period of rapid transformation, strong governance serves as BSI's anchor, ensuring that innovation, digitalization, and the initiative progress with integrity, resilience, and long-term accountability.

# ACHIEVEMENT OF GOVERNANCE IMPLEMENTATION

## Largest Sharia Bank in Indonesia

Driving the vision to become the top 5 global islamic bank, reinforcing trust, integrity, and long-term value creation

## Most Trusted Corporate Governance

BSI received the “Most Trusted” predicate in the Corporate Governance Perception Index (CGPI), reflecting excellence in implementing transparent, accountable, and sustainable governance practices, carried out in accordance with sharia principles.

## Maqashid Syariah as the Core Pillar

Sharia values embedded as the foundation of governance and business conduct

## ACHIEVEMENT OF GOVERNANCE IMPLEMENTATION

### International Governance & Risk Certifications

- Compliance Management System
- Anti-Bribery Management System
- Quality Management System
- Business Continuity Management
- Information Security Management

### Governance & Sharia Integration 2025

ESG Unit established and ESG Guiding Principles signed by all management, aligned with maqashid syariah

### Innovative Islamic Instruments

Linking Finance, Philanthropy, and Productivity

- Sharia Restricted Investment Account (SRIA)
  - Cash Waqf Linked Deposit (CWLD)
- Innovations that bridge social impact with productive economic sectors.

### Global & National Recognition

Recognised for Governance and Impact

- Euromoney 2025
  - » World's Best Islamic Bank for ESG
  - » Asia's Best Islamic Bank for Wealth Management
- BWI Award 2025
  - » Strategic Partner in Waqf Development

# COMMITMENT TO THE IMPLEMENTATION OF GOOD CORPORATE GOVERNANCE

## Implementing Governance as a Strategic Foundation for Sustainable Growth

2025 marks an important moment for Bank Syariah Indonesia ("BSI" or "Bank") as the Bank enters a new era through the introduction of the Bullion Bank service. As the first Sharia bank in Indonesia to provide a dedicated Bullion Bank offering, this transformation reflects BSI's commitment to placing trust, values, and long-term sustainability at the core of its business strategy. Gold is positioned not merely as a financial asset, but as a symbol of stability, intergenerational value, and resilience, principles that are deeply rooted in Islamic tradition and reinforced through modern financial innovation.

In navigating this strategic milestone, BSI continues to strengthen the implementation of Good Corporate Governance (GCG) as an integral part of its overall business direction. The Bank consistently aligns its governance framework with prevailing national regulations and relevant international standards, while continuously updating internal policies to remain responsive to evolving regulatory developments, industry dynamics, and increasingly complex risk landscapes. Strong governance and disciplined risk management ensure that every innovation, business strategy, and work plan of the Bank, including the development of digital services and the expansion of the Bullion Bank, is carried out on a secure, transparent, and accountable foundation, while remaining guided by sharia principles and applicable laws and regulations.

The effective implementation of GCG plays a critical role in safeguarding the Bank's sustainability and long-term performance. By embedding ethical conduct, accountability, transparency, and sustainability principles across all organizational levels, BSI reinforces stakeholder confidence and supports balanced value creation. Governance practices are closely integrated with environmental and social responsibility initiatives, enabling the Bank to strengthen its reputation, respond to market expectations, and support inclusive economic growth.

Through robust governance, prudent risk management, and continuous improvement, BSI affirms its commitment to leading the development of a resilient Sharia financial ecosystem. This commitment underpins the Bank's role as the Bullion Bank, providing direction, confidence, and sustainable benefits for stakeholders, while contributing meaningfully to Indonesia's long-term economic and social progress.

# BASIS AND GUIDELINES FOR IMPLEMENTING GCG

As a sharia bank, the primary foundation for implementing Sharia principles in all activities of BSI is the Quran and Hadith. These Sharia principles are executed by BSI with good corporate governance, which adheres to various provisions and laws of the Republic of Indonesia regulating BSI as a limited liability company, bank, and publicly listed company, as follows:

1. Law No. 40 of 2007 concerning Limited Liability Companies as amended by Government Regulation in Lieu of Law No. 2 of 2022 concerning Job Creation as stipulated into Law based on Law No. 6 of 2023 concerning the Enactment of Government Regulation in Lieu of Law No. 2 of 2022 concerning Job Creation into Law.
2. Law No. 8 of 1995 concerning the Capital Market as amended by Law No. 4 of 2023 concerning the Development and Strengthening of the Financial Sector ("UU P2SK").
3. Law No. 21 of 2008 concerning Sharia Banking as amended by UU P2SK.
4. Collection of Fatwas from the National Sharia Board - Indonesian Ulema Council.
5. Regulations of the Financial Services Authority (POJK) and Circular Letters of the Financial Services Authority (SEOJK), particularly concerning Governance, Annual Reports, Risk Management, and various OJK regulation and SEOJK related to the implementation of governance, include:
  - POJK No. 18/POJK.03/2014 regarding the Implementation of Integrated Governance for Financial Conglomerates.
  - POJK No. 8/POJK.03/2014 concerning the Assessment of the Soundness Level of Sharia Commercial Banks and Sharia Business Units.
  - POJK No. 33/POJK.04/2014 regarding the Board of Directors and Board of Commissioners of Issuers or Public Companies.
  - POJK No. 34/POJK.04/2014 regarding the Nomination and Remuneration Committee of Issuers or Public Companies.
  - POJK No. 35/POJK.04/2014 concerning the Corporate Secretary of Issuers or Public Companies.
  - POJK No. 21/POJK.04/2015 concerning the Application of Guidelines for Open Company Governance and its amendments.

  - SEOJK No. 15/SEOJK.03/2024 concerning Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units.
  - SEOJK No. 14/SEOJK.03/2025 of 2025 concerning the Application of Governance for Commercial Banks.
  - Other related OJK Regulation and OJK Circular Letter.
6. Regulation of the Minister of State-Owned Enterprises (SOE) of the Republic of Indonesia (PERMEN BUMN), regulating SOEs subsidiaries, such as PERMEN BUMN No. PER-3/MBU/03/2023 concerning Organs and Human Resources of State-Owned Enterprises (SOE).
- Moreover, the Bank adopts various best governance standards that apply both domestically and internationally and increases the scope of GCG implementation, including as follows:
1. Principles of Corporate Governance developed by the Organization for Economic Cooperation and Development (OECD).
  2. ASEAN Corporate Governance (CG) Scorecard issued by the ASEAN Capital Market Forum (ACMF).
  3. Guidelines for Indonesian Corporate Governance (PUGKI) developed by the National Governance Policy Committee (KNKG).
  4. Principles for Enhancing Corporate Governance issued by the Basel Committee on Banking Supervision.

# ROADMAP CORPORATE GOVERNANCE

## 2021

Awareness of and commitment to the implementation of Good Corporate Governance (GCG) at BSI began as early as the merger process for the establishment of Bank Syariah Indonesia. During this integration stage, BSI adopted various best practices from each of the legacy banks, which were then aligned, refined, and implemented across all corporate activities. Subsequently, BSI has continued to improve the implementation of GCG through the following initiatives:

- Establishment of committees under the coordination of the Board of Commissioners, namely:
  - » Audit Committee
  - » Risk Monitoring Committee
  - » Remuneration and Nomination Committee
- Establishment of the Corporate Secretary.
- Conducting the General Meeting of Shareholders in accordance with the prevailing laws and regulations applicable to public companies.
- Carrying out timely Information Disclosure, including in the publication of Financial Statements, Information, as well as material events or facts.
- Preparing the Annual Report in a timely, adequate, clear, and accurate manner, while taking into account the interests of minority shareholders.

In addition, BSI is also strongly committed to implementing anti-gratification principles, as evidenced by the signing of an Integrity Pact by all employees. BSI has also obtained ISO 37001:2016 certification on the Anti-Bribery Management System (ABMS) for the Procurement & Fixed Asset Group area.

In order to evaluate the quality of corporate governance implementation, BSI participates in a corporate governance research and rating program, namely the Corporate Governance Perception Index (CGPI), organized by an independent institution. In the 2020 CGPI program conducted in 2021 under the theme "Building Corporate Resilience within the Good Corporate Governance Framework," BSI succeeded in obtaining the "Highly Trusted" predicate with a score of 88.89.

## 2022

- Conducted a Rights Issue to strengthen BSI's capital structure.
- Became the first Islamic Bank to obtain ISO 37301:2021 Compliance Management System certification.
- In continuing the process of enhancing governance practices and as a demonstration of commitment and consistency in its implementation, BSI aligned its governance practices by adopting principles developed by the Organisation for Economic Cooperation and Development (OECD) and endorsed by the ASEAN Capital Market Forum (ACMF), known as the ASEAN Corporate Governance (CG) Scorecard..

## 2023

- BSI successfully maintained the ISO 37301:2021 Compliance Management System certification.
- BSI successfully maintained the ISO 37001:2016 Anti-Bribery Management System certification at the Procurement & Fixed Asset Group.
- BSI once again achieved the “Highly Trusted” predicate with a score of 91.50 in the Corporate Governance Perception Index (CGPI) assessment.
- Conducted four (4) dissemination sessions on strengthening gratification control in collaboration with the Corruption Eradication Commission (KPK).

## 2024

- BSI once again successfully maintained the ISO 37301:2021 Certification for the Compliance Management System.
- BSI successfully completed the recertification of ISO 37001:2016 Anti-Bribery Management System at the Procurement & Fixed Asset Group and expanded the scope of ISO 37001:2016 Anti-Bribery Management System at BSI University.
- As a manifestation of BSI’s commitment to implementing Good Corporate Governance and as a public company that practices information transparency, BSI discloses its best practices adopting the ACGS principles on the Company’s website.
- For the first time, BSI conducted a compliance maturity assessment, reflecting the level of BSI’s compliance with internal and external regulations as well as prevailing laws.

## 2025

- BSI once again maintained the ISO 37001:2016 Anti-Bribery Management System Certification at the Procurement & Fixed Asset Group and expanded the scope of ISO 37001:2016 Anti-Bribery Management System at BSI University.
- BSI successfully completed the recertification of ISO 37301:2021 Compliance Management System.
- BSI again obtained the “Highly Trusted” predicate with a score of 92.25 in the Corporate Governance Perception Index (CGPI) assessment.
- BSI improved the maturity measurement methodology through the addition of assessment dimensions, increased indicator depth, as well as expanded respondent coverage encompassing all group work units at the head office. This update was designed to produce a more comprehensive, representative, and accurate compliance maturity evaluation, so that it can be used as a basis for decision-making in strengthening compliance governance throughout the organization.
- In 2025, BSI once again demonstrated its commitment to Good Corporate Governance and information transparency through the disclosure of best practices based on the principles of the ASEAN Corporate Governance Scorecard (ACGS) on the Company’s website.

# CORPORATE GOVERNANCE IMPLEMENTATION IN 2025 & PLANS FOR 2026

## Corporate Governance Implementation in 2025

Throughout 2025, BSI continued to strengthen its corporate governance practices through the following initiatives:

1. Continuous enhancement of the implementation of corporate governance to ensure alignment with regulatory requirements and best practices.
2. Fulfilment of the ASEAN Corporate Governance Scorecard (ACGS) framework as part of benchmarking governance performance at the regional level.
3. Implementation of self-assessments of corporate governance implementation across the Bank.
4. Participation in external governance assessments, including the Corporate Governance Perception Index, to measure governance quality and credibility.
5. Implementation of anti-corruption socialisation programmes to strengthen integrity and compliance with applicable laws and regulations.
6. Deepening understanding of the Insider Trading Policy to ensure transparency and compliance in securities transactions by internal parties.
7. Enhancement of Training and Development policies to strengthen human capital competencies and foster a professional, accountable, and ethical work environment.
8. Strengthening the Compliance Culture through the measurement of the Compliance Maturity Index (CMI).

## Corporate Governance Initiatives for 2026

To strengthen the quality of corporate governance implementation, BSI has established the following governance initiatives for 2026:

1. Continuing the continuous improvement of good corporate governance implementation.
2. Conducting self-assessments of the implementation of good corporate governance.
3. Fulfillment of the ASEAN Corporate Governance Scorecard (ACGS) framework and self-assessment as part of benchmarking governance performance at the regional level.
4. Participation in external governance assessments, including the Corporate Governance Perception Index, to measure the quality and credibility of governance.
5. Conducting dissemination related to the implementation of anti-gratification principles to strengthen integrity and compliance with prevailing laws and regulations.

6. Strengthening Training and Development policies to enhance human resource competencies and build a professional, accountable, and ethical work environment.
7. Strengthening the Compliance Culture through the measurement of the Compliance Maturity Index (CMI).
8. Expanding the scope of ISO 37301:2021 Compliance Management System within the Compliance Group.
9. Conducting Surveillance Audit II for ISO 37001:2016 Anti-Bribery Management System (ABMS).

## Implementation of Governance within the Bank Business Group

BSI is a member of Bank Mandiri's Bank Business Group (KUB), which is implemented consistently and sustainably to ensure the application of corporate governance principles. In 2025, the structure of Bank Mandiri's KUB was as follows:

| Parent Company                | Subsidiaries |                               |                                 |
|-------------------------------|--------------|-------------------------------|---------------------------------|
|                               | No           | Company Name                  | % Percentage of Share Ownership |
| PT Bank Mandiri (Persero) Tbk | 1            | PT Bank Syariah Indonesia Tbk | 51,47%                          |
|                               | 2            | PT Bank Mandiri Taspen        | 51,098%                         |
|                               | 3            | Bank Mandiri (Europe) Limited | 100,00%                         |

## Implementation of Governance in the Bank's Strategic Plan

In preparing the Bank's Strategic Plan, BSI always prioritizes the implementation of corporate governance in accordance with the applicable provisions. The presentation of the Bank's strategic plan and its realization has been set out in the Management Discussion and Analysis chapter on Corporate Strategy.

## Implementation of Sustainable Finance

The Bank's commitment to implementing sustainable finance principles is realized through the integration of environmental, social, and governance aspects into its business strategy and banking operations. This step represents the Bank's tangible contribution in supporting Environmental, Social, and Governance (ESG) principles and creating long-term added value for all stakeholders. Further information regarding the Implementation of Sustainable Finance is set out in the Social and Environmental Responsibility chapter.

# GOVERNANCE GUIDELINES PRACTICES FOR PUBLIC COMPANIES

## Implementation of Aspects and Principles of Governance for Public Companies in Accordance with Financial Services Authority Provisions

BSI consistently implements the aspects and principles of Corporate Governance for Public Companies by referring to POJK No. 21/POJK.04/2015 dated 16 November 2015 on Corporate Governance Guidelines Practices for Public Companies, as further elaborated in SEOJK No. 32/SEOJK.04/2015 dated 17 November 2015 on Corporate Governance Guidelines for Public Companies. These regulations serve as the foundation for BSI in strengthening its corporate governance structure, processes, and practices. The following section outlines the implementation of corporate governance aspects and principles at BSI:

| Principle                                                                                                 | Recommendation                                                                                                                                      | Implementation at Bank BSI                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <b>Aspect 1: Relationship Between the Public Company and Shareholders in Ensuring Shareholder Rights.</b> |                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Principle 1:<br/>Increasing the Value of Holding the General Meetings of Shareholders (GMS).</b>       | <b>1.1<br/>Public Companies have technical methods or procedures for collecting votes, both openly and secretly, which prioritize independence.</b> | At both the Annual General Meeting of Shareholders (AGMS) and the Extraordinary General Meeting of Shareholders (EGMS), Bank Syariah Indonesia (BSI) has implemented voting procedures conducted either openly or by secret ballot as stipulated in the Rules of the GMS. Voting is carried out by shareholders attending physically through the system provided by the Company's Share Registrar, as well as by shareholders attending electronically through the Electronic General Meeting System (eASY.KSEI) provided by KSEI. At the Annual GMS held in 2025, the voting mechanism was conducted whereby shareholders or their proxies who cast abstention votes or votes against a proposal were requested to raise their hands and submit their voting cards, while those who did not raise their hands were deemed to have approved the proposal under discussion. Voting was also conducted electronically (e-voting) for shareholders who did not attend physically or who granted their proxies electronically (e-proxy) through the eASY.KSEI facility provided by KSEI. The vote counting process was conducted by an independent party, namely the Share Registrar, PT Datindo Entrycom. Accordingly, the independence and interests of shareholders were safeguarded throughout the voting process. The Company has prepared the Rules of the GMS, which can be downloaded from the Company's website together with the GMS invitation at the time of the meeting. The Rules of the GMS are also made available to shareholders for download during the GMS via a QR code provided, and the key provisions of the Rules of the GMS are read out prior to the commencement of the GMS.<br><b>Status: Comply</b> |

# CORPORATE GOVERNANCE ASSESSMENT

BSI conducts a comprehensive assessment of its corporate governance implementation through two approaches, namely periodic internal self-assessments and external evaluations by independent parties. External assessments are carried out through participation in the Corporate Governance Perception Index (CGPI) and compliance with the ASEAN Corporate Governance Scorecard (ACGS). These approaches ensure that BSI's governance practices are objectively measured and aligned with best practices at both the national and regional levels.

## INTERNAL PARTY ASSESSMENT

### Self-Assessment

As a form of commitment to implementing good governance, BSI routinely conducts self-assessments of GCG implementation. This assessment is carried out every semester, namely at the end of June and December, to assess the quality of the implementation of GCG principles in accordance with regulatory provisions. The self-assessment results are classified into five ratings, namely Rating 1 to Rating 5.

### Assessment Criteria

The implementation of the self-assessment of GCG implementation refers to the SEOJK No.10/SEOJK. 03 /2014 Circular Letter, which covers 3 (three) governance aspects, namely governance structure, governance process, and governance outcome. In Semester I 2025, the assessment of these three governance aspects was carried out on:

1. Implementation of duties and responsibilities of the Board of Commissioners.
2. Implementation of duties and responsibilities of the Board of Directors.
3. Completeness and performance of committee duties.
4. Implementation of duties and responsibilities of the Sharia Supervisory Board.
5. Implementation of sharia principles in fund collection and distribution activities as well as services.
6. Handling of conflicts of interest.
7. Implementation of compliance functions.
8. Implementation of internal audit function.
9. Implementation of external audit function.
10. Legal Lending Limit (LLL).
11. Transparency of financial and non-financial condition of Sharia Commercial Banks, Good Corporate Governance implementation

reports, and internal reporting.

In Semester II 2025, the assessment of the three Governance aspects was carried out on:

1. Implementation of the duties, responsibilities, and authorities of the Board of Directors,
2. Implementation of the duties, responsibilities, and authorities of the Board of Commissioners,
3. Implementation of the duties, responsibilities, and authorities of the Board of Commissioners,
4. Completeness and implementation of committee duties;
5. Handling of conflicts of interest,
6. Implementation of the compliance function,
7. Implementation of the internal audit function,
8. Implementation of the external audit function,
9. Implementation of risk management, including the internal control system,
10. Provision of remuneration,
11. Provision of funds to related parties and large exposures,
12. Integrity of reporting and information technology systems,
13. The Bank's strategic plan,
14. Shareholder aspects,
15. Implementation of anti-fraud strategy, including anti-bribery,
16. Implementation of sustainable finance, including the implementation of social and environmental responsibility;
17. Implementation of governance within KUB.

### Assessors

The assessment of GCG implementation is conducted through a self-assessment carried out by the Compliance Group.

### Assessment Score

## CORPORATE GOVERNANCE ASSESSMENT

**GOOD CORPORATE GOVERNANCE FACTOR ASSESSMENT**  
**The First Semester of 2025**

|                   | Rating   | Rating Definition                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Individual</b> | <b>2</b> | The Bank's management has implemented Good Corporate Governance in a manner that is generally considered GOOD. This is reflected in the adequate application of Good Corporate Governance principles. Any weaknesses identified in the implementation of Good Corporate Governance principles are generally not significant and can be addressed through normal corrective actions by the Bank's management. |

**Analysis**

Based on the self-assessment results of the Governance Structure, Governance Process, and Governance Outcome across the eleven (11) assessment factors of GCG implementation for the position as of Semester I of 2025, the Bank's management has implemented GCG in a manner that is generally considered GOOD, as reflected in the following:

| Factors | Assessment Factors                                                                 | Implementation Results for 1st Semester of 2025                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.      | <b>Implementation of duties and responsibilities of the Board of Commissioners</b> | <p>a. Effective members of the Board of Commissioners are domiciled in Indonesia and do not hold concurrent positions except for matters stipulated under the prevailing provisions, and do not have family relationships with fellow members of the Board of Commissioners and/or members of the Board of Directors. Members of the Board of Commissioners possess adequate integrity, competence, and financial reputation to support the execution of their duties and responsibilities, in addition to the ongoing efforts made in continuous learning.</p> <p>b. Effective members of the Board of Commissioners do not have financial, management, ownership, or family relationships with fellow members of the Board of Commissioners, the Board of Directors, and/or the Bank's Controlling Shareholders.</p> <p>c. The Board of Commissioners has established Rules of Procedure for the Board of Commissioners in accordance with the prevailing laws and regulations as well as governance best practices.</p> <p>d. The execution of duties and responsibilities in the form of supervision, evaluation, and independence by the Board of Commissioners has been satisfactory, including ensuring the implementation of Governance principles in every business activity of the Bank at all organizational levels or tiers, among others through meetings of the Board of Commissioners or meetings of the Board of Commissioners together with the Board of Directors or Directors on a regular basis to ensure that operational activities have been conducted properly and in accordance with Governance principles. All meeting results are set out in meeting minutes and properly documented. Throughout Semester I of 2025, the following meetings were held:</p> <div> <div>Internal Board of Commissioners Meetings<br/>8 (eight) times</div> <div>Board of Commissioners Meetings with the Board of Directors<br/>5 (five) times</div> <div>Joint Meetings with the Board of Directors and the Sharia Supervisory Board<br/>2 (two) times</div> </div> |

## CORPORATE GOVERNANCE ASSESSMENT

| Factors      | Assessment Factors                                                                               | Implementation Results for 1st Semester of 2025                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |                     |            |    |    |   |
|--------------|--------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|---------------------|------------|----|----|---|
| 2.           | <b>Implementation of duties and responsibilities of the Board of Directors</b>                   | <p>a. The Bank has an effective number of Directors that fulfills the minimum requirements stipulated under the prevailing provisions. All effective members of the Board of Directors are domiciled in Indonesia and fulfill all requirements set out under the prevailing provisions, including those relating to independence, integrity, competence, and good financial reputation to support the execution of their duties and responsibilities as Directors.</p> <p>b. None of the effective Directors violates the provisions regarding concurrent positions as regulated under the prevailing regulations.</p> <p>c. None of the effective Directors has:</p> <ol style="list-style-type: none"> <li>Share ownership in another company amounting to 25% (twenty-five percent) or more of the paid-up capital of that company.</li> <li>Financial, management, ownership, or family relationships with fellow members of the Board of Directors, the Board of Commissioners, and/or the Bank's Controlling Shareholders.</li> </ol> <p>d. The Board of Directors has established the Internal Audit Work Unit, the Risk Management Work Unit, and the Compliance Work Unit, and has followed up on the findings of the Bank's internal audit, external auditors, and the results of supervision by OJK and/or other authorities and institutions.</p> <p>e. The Board of Directors has established the Rules of Procedure for the Board of Directors in accordance with the prevailing laws and regulations as well as governance best practices.</p> <p>f. The Board of Directors has determined strategic policies and decisions through Board of Directors meetings effectively and efficiently, and every decision of the Board of Directors Meeting is set out in the Minutes of the Board of Directors Meeting. During Semester I of 2025, a total of 23 (twenty-three) Board of Directors meetings were held.</p> <p>g. The Board of Directors has managed the Bank based on prudential principles, sharia principles, and Governance principles. Audit findings have been followed up, and other matters related to the governance process have been fulfilled with optimal results.</p> |              |                     |            |    |    |   |
| 3.           | <b>Completeness and implementation of Committee duties</b>                                       | <p>a. The Bank has established an Audit Committee, Risk Monitoring Committee, and Nomination &amp; Remuneration Committee, and has also established Charters/guidelines for carrying out their duties and responsibilities.</p> <p>b. All Committees perform their duties independently and effectively through meetings held regularly involving relevant work units in order to obtain comprehensive input regarding operational activities.</p> <p>c. Members of the Independent Board of Commissioners' committees have carried out their duties, responsibilities, and authorities with integrity, upheld independence, demonstrated relevant competence, and maintained the Company's reputation.</p> <p>d. The Committees have carried out their functions in accordance with the prevailing provisions by regularly submitting reports or recommendations in accordance with their duties to the Board of Commissioners.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |                     |            |    |    |   |

| 6.      | <b>Conflicts of Interest Management</b>              | <ul style="list-style-type: none"> <li>a. The Bank already has internal provisions aimed at preventing transactions that may potentially involve conflicts of interest, including the Corporate Governance Policy of Bank Syariah Indonesia, the Anti-Fraud Policy of Bank Syariah Indonesia, and Human Capital Standard Operating Procedures (SOP).</li> <li>b. During Semester I of 2025, there were no conflict of interest transactions involving the Board of Directors, the Board of Commissioners, or the DPS, either directly or indirectly.</li> <li>c. The Bank's internal policy regarding conflicts of interest is able to prevent conflicts of interest from occurring, so that no losses arise for the Bank.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 7.      | <b>Implementation of Compliance Function</b>         | <ul style="list-style-type: none"> <li>a. The Compliance Director does not hold a concurrent position as President Director and does not oversee business and operational functions, treasury, finance and accounting, logistics and procurement of goods/services, or internal audit. The compliance work unit is independent from operational work units and reports directly to the Compliance Director.</li> <li>b. In order to ensure that every internal provision and product launched by the Bank is in accordance with the prevailing laws and regulations, every internal provision issued is first subjected to a compliance review.</li> <li>c. The Bank has submitted the principal report on the implementation of the duties of the Director overseeing the Compliance Function in a timely manner. The scope of the report on the implementation of the duties of the Director overseeing the Compliance Function is in accordance with regulatory provisions.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 8.      | <b>Implementation of Internal Audit Function</b>     | <ul style="list-style-type: none"> <li>a. The adequacy of the Governance structure aspect related to the implementation of the internal audit function has been adequate and is reflected as follows: <ul style="list-style-type: none"> <li>1. The Bank has established an Internal Audit Work Unit (SKAI) that reports directly to the President Director and is able to communicate directly with the Board of Commissioners and/or the Audit Committee.</li> <li>2. The Bank also has an Internal Audit Charter as well as internal provisions related to Internal Audit, including the Internal Audit Policy of Bank Syariah Indonesia, the Internal Audit Control Standard Procedure, and the Online Monitoring Follow-Up List (DMTL) PTO.</li> <li>3. The fulfillment and improvement of the quality of SKAI human resources continue to be carried out in coordination with the human resources work unit.</li> </ul> </li> <li>b. The effectiveness of the Governance process related to the implementation of the internal audit function has been adequate and is reflected as follows: <ul style="list-style-type: none"> <li>1. The Board of Directors together with SKAI seeks to ensure the implementation of internal control at every management level through the performance of examinations and actively encourages the completion of follow-up actions on SKAI examination results.</li> <li>2. SKAI findings in the Audit Result Reports have received disposition and direction from the Board of Directors as well as follow-up actions monitored by SKAI and reported to the Board of Commissioners.</li> <li>3. SKAI has carried out its supervisory function independently, with an adequate scope of duties and in accordance with the implementation plan and monitoring of audit results.</li> </ul> </li> <li>c. The quality of the outcome of the implementation of the internal audit function has been adequate and has met stakeholders' expectations, as reflected in the reports submitted by SKAI to the Board of Commissioners through the Audit Committee on a regular basis, namely the realization of the audit plan, significant recommendations and findings, as well as the completion of follow-up actions on audit results, and the dispositions of the Board of Directors.</li> </ul> |
| 9.      | <b>Implementation of the External Audit Function</b> | <ul style="list-style-type: none"> <li>a. The Bank has carried out the external audit function by public accountants and/or public accounting firms.</li> <li>b. The audit carried out by the public accounting firm has been effective and has met the stipulated criteria.</li> <li>c. The appointment of the Public Accountant/Public Accounting Firm has been in accordance with the minimum requirements stipulated under the prevailing provisions. The audit was conducted by an independent Public Accountant/Public Accounting Firm.</li> <li>d. Financial and non-financial reports have also been submitted to regulators and stakeholders in accordance with the prevailing provisions.</li> <li>d. The scope of financial and non-financial information is available in a timely and complete manner in accordance with the prevailing provisions.</li> <li>e. d. The Governance Implementation Report has been submitted to stakeholders in a timely manner in accordance with the prevailing provisions. The 2024 Financial Year Governance Implementation Report was submitted to OJK through letter No. 05/802-3/DIR-CPG, dated April 24, 2025.</li> </ul> |

Considering the conclusions outlined above, the strengths and weaknesses of GCG implementation at Bank Syariah Indonesia are explained below:

## 1. The Strength of GCG Implementation

### a. Governance Structure

In general, the Bank has established a comprehensive governance structure and infrastructure in compliance with applicable regulations to support the implementation of GCG principles across all work lines and operations, aiming to achieve outcomes that meet stakeholder expectations.

### b. Governance Process

In general, the implementation of GCG has been in accordance with applicable regulations, as reflected in the Bank's compliance with its obligations to regulators and the fulfillment of its responsibilities to all stakeholders.

### c. Governance Outcome

The outcome of GCG implementation at Bank Syariah Indonesia can be observed through the Bank's financial and non-financial achievements. Financially, this is reflected in the key financial performance indicators up to June 2024 (unaudited), as presented in the following table.

## CORPORATE GOVERNANCE ASSESSMENT

| Sector                     | June       | Description                                                                                                                                                                                                                                                                                                                                                                |

| 1  | Anggoro Eko Cahyo    | President Director                           |
| 2  | Arief Adhi Sanjaya   | Director of Compliance & Human Capital       |
| 3  | Kemas Erwan Husainy  | Director of Retail Banking                   |
| 4  | Muharto Hadi Suprpto | Director of Information Technology           |
| 5  | Firman Nugraha       | Director of Treasury & International Banking |

## CORPORATE GOVERNANCE ASSESSMENT

**Board of Commissioners:**

| No. | Name                    | Position                 |
|-----|-------------------------|--------------------------|
| 1   | Muhadjir Effendy        | President Commissioner   |
| 2   | Kamaruddin Amin         | Commissioner             |
| 3   | Mochamad Agus Rofiudin  | Commissioner             |
| 4   | Nizar Ahmad Saputra     | Independent Commissioner |
| 5   | Addin Jauharudin        | Independent Commissioner |
| 6   | Muhammad Syafii Antonio | Independent Commissioner |
| 7   | Meidy Ferdiansyah       | Commissioner             |

2. In relation to the condition in point 1 (one) above, we convey the following:
  - a. The Bank does not yet have a President Commissioner who has been effectively serving.
  - b. The total number of members of the Board of Commissioners does not yet meet the minimum requirement of at least 3 (three) persons.
  - c. The Chair of the Audit Committee, the Chair of the Remuneration and Nomination Committee, and the Chair of the Risk Monitoring Committee are held by the same 1 (one) Independent Commissioner, namely Ms. Felicitas Tallulembang, thereby not complying with the prohibition on holding concurrent positions as chairperson in more than 1 (one) committee.
  - d. The Bank does not yet have a President Director and a Director overseeing the Compliance Function who are effectively serving.

The Bank will accelerate the fit & proper test process for the Board of Commissioners and Board of Directors so that the minimum adequacy requirements and concurrent position restrictions referred to above can be fulfilled.

3. The dismissal of the Director overseeing the Compliance Function and the Independent Commissioner before the expiry of their term of office, as carried out at the Annual GMS on 16 May 2025, had not yet obtained approval from OJK. The Bank will improve coordination with shareholders in the event that there are board members to be appointed or dismissed who are required to

obtain OJK approval, so that approval from OJK is obtained prior to the implementation of the GMS.

4. Based on the self-assessment results on governance process, there were still fund-raising and/or fund-disbursement activities that were not yet fully in accordance with Sharia principles, although all Bank products were in accordance with DSN-MUI Fatwas and DPS Opinions, and all related SOPs had been prepared through an adequate mechanism. Mapping of the root causes of non-conformity in the implementation of sharia principles in fund-raising and/or fund-disbursement activities was carried out, among others, through optimizing sharia compliance, sharia risk management, and sharia audit, where awareness and competency aspects, as the dominant issues, were followed up through the implementation of sharia collaborative forums, competency certification on sharia aspects for network employees, as well as literacy for the three pillars (risk – operational – business).
5. There were still fines from regulators that need to be followed up and require management's attention. At present, the Bank has carried out root cause analysis identification, which is used to determine follow-up actions in an effort to mitigate the recurrence of similar fines in the subsequent period.

## CORPORATE GOVERNANCE ASSESSMENT

| Assessment of Good Corporate Governance Factors<br>The Second Semester of 2025 |        |                                                                                                                                                                                                                                                                                                                                                                                                              |

| 2.      | <b>Implementation of the duties and responsibilities of the Board of Commissioners</b>   | <p>a. Effective members of the Board of Commissioners are domiciled in Indonesia and do not hold concurrent positions except for matters stipulated under the prevailing provisions, and do not have family relationships with fellow members of the Board of Commissioners and/or members of the Board of Directors. Members of the Board of Commissioners possess adequate integrity, competence, and financial reputation to support the execution of their duties and responsibilities, in addition to the ongoing efforts made in continuous learning.</p> <p>b. Effective members of the Board of Commissioners do not have financial, management, ownership, and family relationships with fellow members of the Board of Commissioners, the DPS, the Board of Directors, and/or the Bank's Controlling Shareholders.</p> <p>c. The Board of Commissioners has established Rules of Procedure for the Board of Commissioners in accordance with the prevailing laws and regulations as well as governance best practices.</p> <p>d. In the context of implementing sharia governance, the Board of Commissioners has held joint meetings with the DPS and the Board of Directors and has ensured that the Board of Directors follows up on recommendations resulting from DPS supervision.</p> <p>e. The execution of duties and responsibilities in the form of supervision, evaluation, and independence by the Board of Commissioners has been adequate, including ensuring the implementation of governance principles in every business activity of the Bank at all organizational levels or tiers, among others through meetings of the Board of Commissioners or meetings of the Board of Commissioners together with the Board of Directors or Directors on a regular basis to ensure that operational activities have been conducted properly and in accordance with governance principles. All meeting results are set out in meeting minutes and properly documented. During Semester II of 2025, the following meetings were held:</p> <div> <div>Internal Board of Commissioners Meetings</div> <div>Board of Commissioners Meetings with the Board of Directors</div> <div>Joint Meetings with the Board of Directors and the Sharia Supervisory Board</div> </div> <div> <div>8 (eight) times</div> <div>5 (five) times</div> <div>4 (four) times</div> </div> |
| 3.      | <b>Implementation of the duties and responsibilities of the Sharia Supervisory Board</b> | <p>a. The competence, reputation, and independence of the DPS are in accordance with the prevailing provisions so that it is able to carry out its duties and responsibilities properly.</p> <p>b. The appointment/replacement of DPS members as well as the execution of duties and responsibilities have been carried out properly in accordance with Governance principles and the prevailing provisions.</p> <p>c. During Semester II of 2025, the DPS held 14 (fourteen) DPS meetings and issued 32 (thirty-two) DPS Opinions.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4.      | <b>Completeness and implementation of committee duties</b>                               | <p>a. The Bank has established an Audit Committee, Risk Monitoring Committee, and Nomination &amp; Remuneration Committee and has also established Charters/guidelines for carrying out their duties and responsibilities.</p> <p>b. All Committees perform their duties independently and effectively through meetings held regularly involving relevant work units in order to obtain comprehensive input regarding operational activities.</p> <p>c. Members of the Board of Commissioners' committees from Independent Parties have carried out their duties, responsibilities, and authorities with integrity, upheld independence, demonstrated relevant competence, and maintained the Company's reputation.</p> <p>d. The Committees have carried out their functions in accordance with the prevailing provisions by regularly submitting reports or recommendations in accordance with their duties to the Board of Commissioners.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## CORPORATE GOVERNANCE ASSESSMENT

| Factors | Assessment Factors                                   | Implementation Results for 2nd Semester of 2025                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 5.      | <b>Handling of conflicts of interest</b>             | <ul style="list-style-type: none"> <li>a. The Bank already has internal provisions aimed at preventing transactions that may potentially involve conflicts of interest, including the Corporate Governance Policy of Bank Syariah Indonesia, the Anti-Fraud Policy of Bank Syariah Indonesia, and Human Capital Standard Operating Procedures (SOP).</li> <li>b. During Semester II of 2025, there were no conflict of interest transactions involving the Board of Directors, the Board of Commissioners, or the DPS, either directly or indirectly.</li> <li>c. The Bank's internal policy regarding conflicts of interest is able to prevent conflicts of interest from occurring so that no losses arise for the Bank.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 6.      | <b>Implementation of the compliance function</b>     | <ul style="list-style-type: none"> <li>a. The Compliance Director does not hold a concurrent position as President Director and does not oversee business and operational functions, treasury, finance and accounting, logistics and procurement of goods/services, or internal audit. The compliance work unit is independent from operational work units and reports directly to the Compliance Director.</li> <li>b. In order to ensure that every internal provision and product launched by the Bank is in accordance with the prevailing laws and regulations, every internal provision issued is first subjected to a compliance review.</li> <li>c. The Bank has established the Sharia Compliance Function under the member of the Board of Directors overseeing the compliance function. This function carries out monitoring, review, and control over the implementation of sharia principles in all business activities independently. In addition, this unit coordinates periodically with the Sharia Supervisory Board (DPS) to ensure the conformity of products, activities, and policies with the provisions of DSN-MUI fatwas.</li> <li>d. The Bank has submitted the principal report on the implementation of the duties of the Director overseeing the Compliance Function in a timely manner. The scope of the report on the implementation of the duties of the Director overseeing the Compliance Function is in accordance with regulatory provisions.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 7.      | <b>Implementation of the internal audit function</b> | <ul style="list-style-type: none"> <li>a. The adequacy of the Governance structure aspect related to the implementation of the internal audit function has been adequate and is reflected as follows: <ul style="list-style-type: none"> <li>4. The Bank has established an Internal Audit Work Unit (SKAI) that reports directly to the President Director and is able to communicate directly with the Board of Commissioners and/or the Audit Committee.</li> <li>5. The Bank also has an Internal Audit Charter as well as internal provisions related to Internal Audit, including the Internal Audit Policy of Bank Syariah Indonesia, the Internal Audit Control Standard Procedure, and the Online Monitoring Follow-Up List (DMTL) PTO.</li> <li>6. The fulfillment and improvement of the quality of SKAI human resources continue to be carried out in coordination with the human resources work unit.</li> </ul> </li> <li>b. The effectiveness of the governance process related to the implementation of the internal audit function has been adequate, as reflected in the following: <ul style="list-style-type: none"> <li>1. The Board of Directors together with SKAI seeks to ensure the implementation of internal control at every management level through the performance of examinations and actively encourages the completion of follow-up actions on SKAI examination results.</li> <li>2. SKAI findings in the Audit Result Reports have received disposition and direction from the Board of Directors, and follow-up actions are monitored by SKAI and reported to the Board of Commissioners.</li> <li>3. SKAI has carried out its supervisory function independently, with an adequate scope of duties and in accordance with the implementation plan and monitoring of audit results.</li> </ul> </li> <li>c. The quality of the outcome of the implementation of the internal audit function has been adequate and has met stakeholders' expectations, as reflected in the reports submitted by SKAI to the Board of Commissioners through the Audit Committee on a regular basis, namely the realization of the audit plan; significant recommendations and findings; as well as the completion of follow-up actions on audit results and the dispositions of the Board of Directors.</li> <li>d. The Bank has established the Sharia Internal Audit Function within the SKAI work unit under the member of the Board of Directors and responsible for the effectiveness of the implementation of the sharia internal audit function. The sharia internal audit function is supported by an Executive Officer who reports directly to the member of the Board of Directors overseeing the internal audit function.</li> </ul> |

| 16.     | <b>Implementation of Sustainable Finance, including the Implementation of Social and Environmental Responsibility</b> | <ul style="list-style-type: none"> <li>a. The Bank has a Sustainable Finance Action Plan (RAKB) with coverage in accordance with the prevailing provisions and it has been submitted to OJK.</li> <li>b. The Bank has business and investment strategies that integrate environmental, social, and governance values.</li> <li>c. The Board of Directors, the Board of Commissioners, and work units within the Bank have roles and responsibilities for managing climate-related risks, whereby in 2024 the Bank carried out the 1st pilot project of Climate Risk Stress Testing (CRST) on 51.63% of its financing portfolio consisting of mandatory sectors from the regulator and other operational sectors.</li> <li>d. The Bank has identified, monitored, and managed climate-related financial risks that may affect financial conditions by identifying the resilience of the Bank's strategy and business model using Climate Risk Stress Testing (CRST) through the Risk Management Committee.</li> </ul> |
| 17.     | <b>Implementation of Governance within KUB</b>                                                                        | <ul style="list-style-type: none"> <li>a. The Bank has implemented synergy within the Bank Business Group (KUB), supported by cooperation agreements set out in writing and in accordance with the prevailing laws and regulations. Such cooperation agreements have regulated the scope, implementation mechanisms, rights and obligations of the parties, as well as risk management in order to ensure the effectiveness of synergy and the implementation of integrated governance within the KUB.</li> <li>b. The Bank has written policies and procedures governing the coordination, supervision, and evaluation mechanisms for the implementation of Integrated Governance within the Bank Business Group to ensure effective, consistent, and aligned governance implementation with the prevailing provisions, as well as to support the strengthening of internal control, integrated risk management, and protection of stakeholder interests.</li> </ul>                                                |

Considering the above conclusions, the strengths and weaknesses of GCG implementation at Bank Syariah Indonesia are as follows:

## 1. The Strength of CGC Implementation

### a. Governance Structure

In general, the Bank has established a comprehensive governance structure and infrastructure that complies with applicable regulations. This framework supports the implementation of GCG principles across all work lines and operations, aiming to achieve outcomes that meet the expectations of the Bank's stakeholders.

### b. Governance

Process In general, the implementation of GCG has been in accordance with applicable regulations, as reflected in the Bank's compliance with its obligations to regulators and the fulfillment of its responsibilities to all stakeholders.

### c. Governance Outcome

The outcomes of GCG implementation at Bank Syariah Indonesia can be observed through the Bank's financial and non-financial achievements. Financially, this is reflected in the key financial performance indicators of the Bank as of December 2024 (unaudited), as presented in the following table:

| OHC               | 13,572       | 1,908        | 16.36% |                                                                                                                                                                                                                                                                                                                                                                                  |
| Financing         | 318,844      | 40,363       | 14.49% |                                                                                                                                                                                                                                                                                                                                                                                  |
| Third-party funds | 380,488      | 53,034       | 16.20% |                                                                                                                                                                                                                                                                                                                                                                                  |
| a. Giro           | 71,828       | 15,492       | 27.50% |                                                                                                                                                                                                                                                                                                                                                                                  |
| b. Savings        | 162,628      | 22,093       | 15.72% |                                                                                                                                                                                                                                                                                                                                                                                  |
| c. Deposit        | 146,033      | 15,449       | 11.83% |                                                                                                                                                                                                                                                                                                                                                                                  |
| CASA              | 61,62%       | 60,12%       | 1.50%  |                                                                                                                                                                                                                                                                                                                                                                                  |

On a non-financial basis during Semester II 2025, the Bank received a total of 58 (fifty-eight) awards, including:

1. The Best Digital Transformation in Human Capital Award (First Indonesia)
2. Best Contact Center in Asia Pacific (Contact Center World)
3. The Most Profitable Bank (Infobank)
4. The Excellent Performance Bank - KBMI 3 (Infobank)
5. Best Performance Bank - Sharia Category (Bisnis Indonesia)
6. Bullion Bank Strategy Innovation for Sustainable Growth (IDX Channel)
7. Best Contributing Bank in Intermediation Driving the Economy (Bank Indonesia)
8. Best Participant in BI-RTGS, BI-SSSS and BI-ETP Systems (Bank Indonesia)
9. The Best of Hajj Registration & AUM Contribution Bank 2025 - 1st Best (BPKH)
10. The Most Trusted Company (SWA).

## 2. Weaknesses in GCG Implementation

1. There were 3 (three) members of the Board of Commissioners appointed at the Annual GMS on 16 May 2025 who were still in the process of undergoing the fit and proper test by OJK, namely:

| No | Name                    | Position                 |
|----|-------------------------|--------------------------|
| 1  | Meidy Ferdiansyah       | Commissioner             |
| 2  | Muhammad Syafii Antonio | Independent Commissioner |
| 3  | Addin Jauharudin        | Independent Commissioner |

2. The composition of effective Independent Commissioners has not yet met the minimum requirement of 50% of the total number of effective members of the Board of Commissioners (three Commissioners compared to two Independent Commissioners).
3. Based on the self-assessment results on governance process, there were still fund-raising and/or fund-disbursement activities that were not yet fully in accordance with Sharia principles, although all Bank products were in accordance with DSN-MUI Fatwas and DPS Opinions, and all related SOPs had been prepared through an adequate mechanism. Mapping of the root causes of non-conformity in the implementation of sharia principles in fund-raising and/or fund-disbursement activities was carried out, among others, through optimizing sharia compliance, sharia risk management, and sharia audit, where awareness and competency aspects, as the dominant issues, were followed up through the implementation of sharia collaborative forums, competency certification on sharia aspects for network employees, as well as literacy for the three pillars (risk – operational – business).
4. There were still fines from regulators that need to be followed up and require management's attention. At present, the Bank has carried out root cause analysis identification, which is used to determine follow-up actions in an effort to mitigate the recurrence of similar fines in the subsequent period.

# ASSESSMENT OF GCG IMPLEMENTATION BY EXTERNAL PARTIES

## Assessment of GCG Implementation by External Parties

### Corporate Governance Perception Index (CGPI)

In 2025, BSI participated for the fifth time in the corporate governance assessment organized by Indonesia Independen Cipta Governansi (IICG), known as the Corporate Governance Perception Index (CGPI). CGPI is the first GCG research and ranking program in Indonesia aimed at assessing the quality of corporate governance in companies, including publicly listed companies (issuers), state-owned enterprises (SOE), banking institutions, and other private companies.

Through this program, IICG invites all parties in the government business ecosystem, business actors, the public, and supporting parties to work together in creating ethical, integrity-based, and dignified business practices. Participating companies are encouraged to improve their governance structures, systems, and processes, and to ensure that improvements in governance quality always go hand in hand with value creation for all stakeholders.

Thus, the CGPI program is expected to motivate the business world to implement the concept of Corporate Governance (CG) while also encouraging wider community participation so that they

can work together to develop and implement GCG. In addition, the CGPI program aims to encourage companies to improve the quality of GCG through continuous improvement, so that the CGPI program can become a strategic tool for compiling databases, mapping CG conditions in Indonesia, and serving as a benchmark for GCG implementation in public, state-owned, and private companies in Indonesia.

The Company's participation can provide benefits in measuring and improving governance practices, as well as efforts to enhance the Company's overall reputation, create attractiveness for stakeholders, and support the potential for long-term success in the market. Additionally, CGPI participant companies can identify and address internal organizational factors that may not yet align with or support the implementation of GCG. This serves as a key consideration in improving corporate governance, encouraging all company members to apply GCG principles more effectively within their business scope. The CGPI results reflect the commitment of Indonesian companies to enhancing the quality of GCG principles implementation. Several benefits that can be obtained by companies participating in the CGPI include:

## CORPORATE GOVERNANCE ASSESSMENT

### Assessment Criteria

CGPI 2024, with the theme “Building Corporate Dynamic Capabilities within the Good Corporate Governance Framework,” was assessed based on the fulfillment of assessment aspects and indicators, comprising 3 assessment aspects which were then detailed into 25 assessment indicators. The detailed explanation is as follows:

#### 1. Governance Structure Aspect

This aspect constitutes an assessment of the completeness of the Company's organs, structure, and governance infrastructure in building the Company's dynamic capabilities in accordance with principles, values, and compliance in order to create value and ensure sustainable growth in an ethical and dignified manner.

In detail, this governance structure aspect consists of the following indicators:

- Shareholders & GMS
- Board of Commissioners
- Board of Directors
- Supporting Organs of the Board of Commissioners
- Complementary Organs of the Board of Directors
- Functional Management

#### 2. Governance Process Aspect

This aspect constitutes an assessment of governance mechanisms in building the Company's dynamic capabilities in accordance with principles, values, and compliance, in order to create value and ensure sustainable growth in an ethical and dignified manner. In detail, the governance process aspect consists of the following indicators:

- Governance Mechanism of Shareholders and the GMS
- Governance Mechanism of the Board of Commissioners and the Board of Directors

- Governance Mechanism of Organizational Behavior
- Governance Mechanism of Disclosure and Information Transparency
- Governance Mechanism of Risk
- Governance Mechanism of Compliance
- Governance Mechanism of Internal Control
- Governance Mechanism of Internal and External Supervision
- Governance Mechanism of Strategic Planning
- Governance Mechanism of Corporate Resources
- Governance Mechanism of Sustainable Development Goals
- Governance Mechanism of Creativity and Innovation
- Governance Mechanism of Building Corporate Dynamic Capabilities

#### 3. Governance Outcome Aspect

This aspect constitutes an assessment of the quality of outputs, achievements, impacts, and benefits that are effective and useful from the governance structure and process in building the Company's dynamic capabilities in accordance with principles, values, and compliance, creating value and ensuring sustainable growth in an ethical and dignified manner. In detail, the governance outcome aspect consists of the following indicators:

- Governance Outcomes of the Company's Organs
- Governance Outcomes of the Conformity of Organizational Behavior
- Governance Outcomes of Disclosure and Information Transparency
- Governance Outcomes of Risk, Compliance, Control, and Supervision
- Governance Outcomes of Sustainable Development Goals
- Governance Outcomes of Building Corporate Dynamic Capabilities.

### Stages in the CGPI 2025 assessment

## CORPORATE GOVERNANCE ASSESSMENT

### Assessors

The party that carried out the CGPI assessment was the Indonesia Independen Cipta Governansi (IICG).

### Assessment Score

The detailed scores for each assessment aspect in the CGPI 2025 for the 2024 assessment year achieved by PT Bank Syariah Indonesia Tbk.

The CGPI 2024 result obtained by PT Bank Syariah Indonesia Tbk with the predicate "Highly Trusted"

illustrates that the Company's organs and all members of PT Bank Syariah Indonesia Tbk have demonstrated a high and consistent commitment in implementing the principles and system of good corporate governance (Good Corporate Governance/GCG) through the scope of compliance with prevailing rules, principles, and control systems; conformance with ethical values, applicable norms, and existing quality standards; as well as performance achievement. The CGPI 2024 result also illustrates that PT Bank Syariah Indonesia Tbk has built the Company's dynamic capabilities within the GCG framework through the development of the Company's abilities and competencies in responding to and navigating the complexity of change dynamics (VUCA, BANI, TUNA, FLUX) effectively, possessing an adaptive structure, agile processes, and outcomes that provide long-term value.

strengthening the governance structure, governance process, and governance outcome aspects, particularly in relation to optimizing the roles of the Company's organs, the effectiveness of governance mechanisms, as well as the consistency of implementing GCG principles and values across all lines. Although most indicators are already in the very good category, BSI sees that several areas still require strengthening, such as enhancing adaptive leadership competencies, developing a more agile organizational culture, and updating strategic policies so that they remain relevant to industry dynamics. The Company is also expected to strengthen control mechanisms, information transparency, integrated risk management, as well as the effectiveness of the whistleblowing system in order to maintain the Company's integrity and resilience in facing change.

In line with these recommendations, BSI reaffirms its commitment to continuously strengthening

### Recommendations and Follow-Up Actions

The recommendations provided by IICG include

## CORPORATE GOVERNANCE ASSESSMENT

its governance system as the foundation of the Company's sustainability. Efforts to enhance dynamic capabilities, starting from the ability to detect opportunities and threats, capture strategic opportunities, to the ability to transform internal processes, will become development priorities at all levels of the organization. BSI believes that strong and competitive governance is not only a compliance tool, but also a key driver for ethical and dignified long-term growth. Accordingly, BSI will continue to follow up on every recommendation from IICG as part of its commitment to strengthening GCG practices, increasing value for stakeholders, and ensuring business sustainability amid increasingly complex environmental dynamics.

### ASEAN Corporate Governance Scorecard (ACGS)

In order to continue the process of improving Governance as well as to demonstrate commitment and consistency in its implementation, Bank Syariah Indonesia aligns its Governance practices by adopting the principles developed by the Organization for Economic Cooperation and Development (OECD) and agreed upon by the ASEAN Capital Market Forum (ACMF), known as the ASEAN Corporate Governance (CG) Scorecard.

The ASEAN CG Scorecard is used to assess the Governance practices of public listed companies in ASEAN countries. The assessment is based on publicly available information, including the Annual Report, Audited Financial Statements, Sustainability Report, Notices and Invitations of the General Meeting of Shareholders, the Company's Website, as well as other public information.

### Assessment Criteria

The components of the ASEAN CG Scorecard assessment are as follows:

- a. Rights and Equitable Treatment of Shareholders
- b. Sustainability and Resilience
- c. Disclosure and Transparency
- d. Responsibilities of the Board of Directors and the Board of Commissioners

### Party Conducting the Assessment

The assessment is conducted by the ACMF through

the Domestic Ranking Body (DRB) appointed by the regulator of each country as the representative in each participating country. The DRB conducts the assessment at the national scale, which is then subject to peer review by the DRB of other ASEAN member countries. Since 2016, OJK has appointed PT RSM Indonesia Konsultan (RSM) as the DRB to conduct the assessment in Indonesia.

### Assessment Score

More than 80% of the governance practices implemented by BSI have adopted the principles set out in the ASEAN CG Scorecard. BSI has been assessed as being able to exceed compliance with the minimum requirements of international standards and governance practices that are far above the average implementation of issuers or public companies (Tbk) included in the 100 largest market capitalizations on the stock exchange (Big Cap).

### Recommendations and Follow-Up Actions

BSI continuously strives to make improvements, including in best practices for governance. Therefore, several recommendations resulting from the assessment by external parties continue to be followed up on an ongoing basis. For BSI, this certainly represents a form of commitment shared by management and employees in making improvements to the implementation of governance practices going forward, particularly for several assessment indicators that still require refinement. BSI believes that minimizing the gap between governance practices and the standard principles set out in the ASEAN CG Scorecard will have an impact on BSI's long-term existence.

# CORPORATE GOVERNANCE STRUCTURE AND MECHANISM

## Corporate Organ Structure

BSI strengthens its governance structure by optimising the complementary roles of all governance organs to establish an effective control environment and safeguard the integrity of information used for reporting and decision-making. Through this integrated approach, the Bank reinforces the three lines model as a robust defence mechanism, supporting sound risk management, accountability, and oversight. This structure enables BSI to pursue healthy and sustainable growth while achieving its strategic objectives without compromising the interests of stakeholders.

The BSI GCG structure is broadly divided into main and supporting bodies, each of which is supported by policies and procedures. More specifically, the Bank's governance organizational structure includes:

1. General Meeting of Shareholders (GMS);
2. Board of Commissioners;
3. Sharia Supervisory Board;
4. Board of Directors;
5. Committees under the Board of Commissioners;
6. Sharia Committee
7. Committees under the Board of Directors.

### Governance Structure

To continuously enhance the quality and scope of sustainable governance, BSI has formulated and implemented a governance structure to regulate relationships among governance organs within the Bank. This structure ensures that the roles, responsibilities, and authorities of each organ are clearly defined and exercised in accordance with prevailing regulations, GCG principles, sound business ethics, and recognised best practices. The governance soft structure reflects

## CORPORATE GOVERNANCE STRUCTURE AND MECHANISM

the internalisation of GCG into BSI's business processes, serving as a complementary element that strengthens and refines the Bank's overall GCG infrastructure.

BSI Governance Structure is used as a framework and governance in the preparation of policies and implementation of Bank activities, including:

1. The Bank's Articles of Association, which have been amended several times, most recently amended based on the Deed of the General Meeting of Shareholders (GMS) Decision No. 37 dated May 17, 2024, drawn up by Ashoya Ratam, S.H., M.Kn., Notary in South Jakarta, and approved by the Ministry of Law and Human Rights of the Republic of Indonesia, No. AHU-0035266.AH.01.02.Year 2024.
2. Rules of Procedure of the Board of Commissioners as ratified in the decision of the Board of Commissioners Number: KEP. KOM/001/2021 dated February 1, 2021.
3. Rules of Procedure of the Board of Directors as ratified in the decision of the Board of Directors No.01/006-KEP/DIR dated February 1, 2021.
4. Guidelines and Rules of Work (Charter) of the Audit Committee of PT Bank Syariah Indonesia Tbk No.04/KEP- KOM/002/2024, ratified by the Board of Commissioners on July 1, 2024.
5. Guidelines and Rules (Charter) of the Risk Monitoring Committee of PT Bank Syariah Indonesia Tbk No.04/KEP- KOM/001/2024, ratified by the Board of Commissioners on July 1, 2024.
6. Guidelines and Rules of Work (Charter) of the Nomination and Remuneration Committee, ratified in the Joint Decree (SKB) of the Board of Directors and the Board of Commissioners of PT Bank Syariah Indonesia Tbk No.01/001-SKB/Dirkom dated February 01, 2021 regarding the Establishment of the Guidelines and Rules of Work (Charter) of the Nomination and Remuneration Committee of PT Bank Syariah Indonesia Tbk.
7. Code of Ethics (Code of Conduct) of PT Bank Syariah Indonesia Tbk.
8. Internal Audit Charter of PT Bank Syariah Indonesia Tbk, ratified by the President Commissioner and President Director of PT Bank Syariah Indonesia Tbk on September 27, 2022.
9. Corporate Governance Policy of PT Bank Syariah Indonesia Tbk.
10. Anti-Fraud Policy of PT Bank Syariah Indonesia Tbk.
11. Risk Management Policy of PT Bank Syariah Indonesia Tbk.
12. Policy on the Supplier/Vendor Selection Process for Goods and Services Providers of PT Bank Syariah Indonesia Tbk.
13. Operational Technical Guidelines for the Whistleblowing System (WBS) of PT Bank Syariah Indonesia Tbk.
14. Fund and Services Policy of PT Bank Syariah Indonesia Tbk.
15. Anti-Bribery Commitment of PT Bank Syariah Indonesia Tbk, aligned with the Anti-Bribery Management System Standard (ISO 37001:2016).

### CORPORATE GOVERNANCE MECHANISM

#### Shareholders

Shareholders are individuals or legal entities that legally own shares of the Bank. The Company's shares are registered shares issued in the name of the owner recorded in the Company's Shareholders Register, consisting of:

1. Series A Dwiwarna Shares, which are special shares that may only be owned by the Republic of Indonesia;
2. Series B Shares, which are ordinary shares that can be owned by the Republic of Indonesia and/or the public.

#### Shareholders' Rights

##### General Shareholders' Rights

Series A Dual-color Shareholders and Series B Shareholders have the same rights, namely, each share grants 1 (one) voting right. Unless otherwise specified in the Company's Articles of Association, both Series A Dual-color shareholders and Series B shareholders have the same rights outside of the Special Rights of Series A Dual-color Shares, including the following:

1. Rights related to the GMS:
  - a. Requesting the convening of a GMS by 1 (one) or more shareholders representing at least 1/10 (one-tenth) of the total number of shares with voting rights.
  - b. Proposing agenda items for the GMS by 1 (one) or more shareholders representing at least 1/20 (one-twentieth) of the total number of shares with voting rights.

## CORPORATE GOVERNANCE STRUCTURE AND MECHANISM

- c. Approving matters in the GMS, including:
  - Appointment and dismissal of members of the Board of Commissioners, Board of Directors, and Sharia Supervisory Board of the Bank.
  - Approving proposals for changes to the Bank's Articles of Association while considering the quorum requirements for decisions.
  - Approving the annual performance reports of the Bank's Directors and the supervision reports of the Bank's Board of Commissioners.
  - Approving the remuneration of the Bank's Board of Commissioners, Board of Directors, and Sharia Supervisory Board.
  - Approving proposals for the allocation of the Bank's profits, including dividend distributions.
- d. Shareholders, either individually represented by proxy, have the right to attend the GMS and use their voting rights at the GMS in proportion to the number of shares they own.
- e. Obtaining the publication of GMS materials, no later than 21 (twenty-one) days before the GMS is held.
- f. Receiving explanations procedures before the GMS begins.
- g. The opportunity to ask questions or express relevant opinions on each agenda item discussed at the GMS.
2. Other Rights:
  - a. Receiving dividends and the remaining assets from liquidation in accordance with applicable regulations.
  - b. Transferring share rights according to applicable regulations and the Articles of Association.
  - c. The opportunity to participate in the Company's capital increase according to applicable regulations.
  - d. Receiving Company information that is required to be disclosed and/or announced to the public by laws and regulations.
  - e. Receiving equal treatment from BSI.
  - f. Exercising other rights and/or authorities based on the BSI's Articles of Association and applicable laws and regulations.

### Special Rights of Series A Dual-color Shares

Series A Dual-color Shareholders have special rights that are exclusive and only held by the Republic of Indonesia, namely:

1. The right to approve matters in the GMS as follows:
  - a. Changes to the Company's Articles of Association;
  - b. Changes to capital;
  - c. Mergers, consolidations, separations; and
  - d. Dissolution and takeover of the Company by another company.
2. The right to establish the Company's strategic guidelines organically and non-organically.
3. Propose the convening of GMS and its agenda items.
4. Requesting and accessing Company data.

### Shareholder Aspect

Shareholders play an important role in supporting BSI's sound business activities and maintaining the sustainability of the Bank's operations. This role is reflected through their commitment to strengthening the capital structure, including approval of capital planning to support business continuity, as well as the prudent management of capital and liquidity risks. Shareholders exercise their responsibilities in accordance with prevailing regulations, ensuring that strategic support is aligned with the Bank's prudential principles and long-term objectives.

In implementing good corporate governance, shareholders respect the independence of BSI's governance and management structures by refraining from intervention in strategic and operational decision-making. Shareholders do not seek personal or group benefits, avoid conflicts of interest, and uphold transparent and fair processes in matters such as appointments and changes to the Board of Commissioners, Board of Directors, and Sharia Supervisory Board. BSI also upholds shareholder rights, including minority shareholder protection, through transparent disclosure of financial information, fair treatment in corporate actions, voting rights in the General Meeting of Shareholders, and dividend distribution in accordance with regulatory provisions and decisions of the GMS, under the oversight of the OJK.

# GENERAL MEETING OF SHAREHOLDERS

The General Meeting of Shareholders (GMS) is the highest governance organ of BSI, holding authorities that are not delegated to the Board of Commissioners or the Board of Directors in accordance with prevailing laws and regulations. Through the GMS, shareholders exercise their rights to make strategic decisions, including approval of annual reports, appointment and dismissal of members of the Board of Commissioners, Board of Directors, and Sharia Supervisory Board, determination of dividend policy, and approval of other material corporate actions. The GMS serves as a key forum to ensure accountability, transparency, and alignment between shareholder interests and the Bank's long-term strategy and sustainability objectives.

## GMS Establishing Process

The GMS consists of the Annual GMS (AGMS) and the Extraordinary GMS (EGMS). The AGMS is convened annually no later than 6 (six) months after the end of the financial year, in accordance with prevailing regulations. Meanwhile, the EGMS may be convened at any time as required to address specific matters in the best interests of the Company.

## GMS Venue

1. The GMS must be held within the territory of the Republic of Indonesia.
2. The Company is required to determine the venue and timing of the GMS.
3. The venue of the GMS must be held at:
  - a. The Company's domicile.
  - b. The location where the Company conducts its principal business activities.
  - c. The provincial capital of the province where the Company's domicile or principal business activities are located.
  - d. The province where the Stock Exchange on which the Company's shares are listed is located

## GMS Notification

1. The Company must first submit notification of the meeting agenda to the OJK no later than 5 (five) working days before the announcement of the GMS, excluding the date of the GMS announcement.
2. The meeting agenda must be disclosed clearly and in detail.

3. In case any change in the meeting agenda occurs, the Company must submit the change in the agenda to the OJK no later than the time of the GMS invitation.

## GMS Announcement

1. The Company must announce the GMS to shareholders no later than 14 (fourteen) calendar days before the invitation to the GMS, excluding the announcement and the invitation dates.
2. The announcement of the GMS must contain at least:
  - a. Provisions regarding shareholders entitled to attend the GMS.
  - b. Provisions regarding shareholders entitled to propose agenda items for the meeting.
  - c. The date of the GMS.
  - d. The date of the GMS notice of meeting.
  - e. Information stating that the Company is convening the GMS at the request of shareholders or the Board of Commissioners, if the GMS is held upon such request.
3. The announcement of the GMS to shareholders must at least be made through the e-GMS provider's website, the stock exchange's website, and the Company's website, in both Indonesian and English.

## GMS Agenda Proposal

GMS agenda proposals may be submitted with the following provisions:

1. Shareholders may submit proposed agenda in writing to the Board of Directors no later than 7 (seven) calendar days prior to the date of the GMS invitations.
2. Shareholders eligible to propose agenda items are as follows:
  - a. Series A Dwiwarna shareholders.
  - b. 1 (one) or more shareholders representing 1/20 (one twentieth) or more of the total shares with voting rights

## GENERAL MEETING OF SHAREHOLDERS

### GMS Invitations

1. The Company must issue invitations to shareholders no later than 21 (twenty-one) calendar days prior to the GMS date, excluding the invitations and GMS dates.
2. GMS invitations to shareholders are at least made through the website of the e-GMS provider, the website of the stock exchange and the Company's website in Bahasa Indonesia and English versions.

### IMPLEMENTATION OF GMS IN 2025

The Company held GMS, namely: 1 (one) Annual GMS (AGMS) which was held on May 16, 2025.

The Company held the 2025 AGMS for 2024 fiscal year with shareholders attending both physically and electronically.

For shareholders attending electronically, the Company provides electronic facilities through the e-RUPS provider, the KSEI Electronic General Meeting System (eASY.KSEI) at the link <https://akses.ksei.co.id/>, thereby ensuring that shareholders attending online have the same rights to exercise their voting rights.

### Implementation Process

#### Annual GMS for Fiscal Year 2024

|                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

**The Resolution of the Second Meeting Agenda** Approved the use of the Company's Net Profit for the 2024 financial year amounting to Rp7,005,888,311,206.00- (seven trillion five billion eight hundred eighty eight million three hundred eleven thousand two hundred and six rupiah), as follows:

- 20% (twenty percent) of the Company's Net Profit or Rp1,401,177,662,241.00,- (one trillion four hundred and one billion one hundred and seventy-seven million six hundred and sixty-two thousand two hundred and forty-one rupiah) is set aside as the Company's mandatory reserves.
- 15% (fifteen percent) of the Company's Net Profit or Rp1,050,883,246,681.00,- (one trillion fifty billion eight hundred eighty three million two hundred forty six thousand six hundred eighty one rupiah) is determined as Dividends, or Rp22.781273 (twenty two point seven eight one two seven three rupiah) per share is determined as Cash Dividends. Payment is carried out with the following provisions:
  - Dividends for the 2024 Financial Year will be paid proportionally to each Shareholder whose name is recorded in the Shareholder Register on the recording date.
  - The Board of Directors is given authority and power with the right of substitution to carry out:
    - Determination of the schedule and procedures for distribution relating to the payment of Dividends for the 2024 Financial Year in accordance with applicable provisions.
    - Dividend tax deductions according to applicable tax regulations.
    - Other technical matters in accordance with applicable provisions.
- As much as 65% (sixty five percent) or an amount of Rp4,553,827,402,284.00 (four trillion five hundred fifty three billion eight hundred twenty seven million four hundred two thousand two hundred and eighty four rupiah), is used as retained earnings balance.

**Realization** Has been realized.

**Resolution and Realization of The 2023 Annual GMS****First Agenda**

Approval of the Annual Report and the Supervisory Duties Report of the Board of Commissioners and Ratification of the Company's Financial Statements for the fiscal year ending on December 31, 2023, including granting full release and discharge (volledig acquit et de charge) to members of the Board of Directors and members of the Board of Commissioners of the Company in connection with the management and supervision of the Company that had been conducted during the fiscal year ending on December 31, 2023, as long as these activities were reflected in the Annual Report.

**Voting Results**

Agree: 43,669,226,396 votes or 99.6947192% of all shares with voting rights present at the Meeting. Abstain: 102,741,680 votes or 0.2345543% of all shares with voting rights present at the Meeting.

Disagree: 30,980,313 votes or 0.0707265% of all shares with voting rights present at the Meeting.

None of questions or opinions from Shareholders was available.

## GENERAL MEETING OF SHAREHOLDERS

### Decision

1. Approving the Company's Annual Report including the Supervisory Report of the Company's Board of Commissioners for the fiscal year ending on December 31, 2023 and ratifying the Company's Financial Statements for the fiscal year ending on December 31, 2023, having been audited by the Public Accounting Firm Tanudiredja, Wibisana, Rintis & Rekan (a member firm of the PricewaterhouseCoopers Global network) in accordance with its report No.00026/2.1025/AU.1/07/0222-3/1/1/2024 dated January 30, 2024, with a fair opinion in all material respects.
2. Due to the approval of the Company's Annual Report including the Supervisory Report of the Company's Board of Commissioners for the fiscal year ending on December 31, 2023 and the ratification of the Company's Financial Statements for the fiscal year ending on December 31, 2023, the General Meeting of Shareholders granted full release and discharge (volledig acquit à décharge) to members of the Board of Directors for their management of the Company and to the Board of Commissioners for their supervisory actions of the Company that had been carried out during the fiscal year ending on December 31, 2023, as long as such actions did not constitute a criminal act and were reflected in the foregoing reports.

**Follow-up:** Realized

### Second Agenda

Approval of the use of the Company's net profit for the fiscal year ending December 31, 2023.

### Voting Results

Agree: 43,700,583,339 votes or 99.7663056% of all shares with voting rights present at the Meeting Abstain: 102,023,550 votes or 0.2329148% of all shares with voting rights present at the Meeting Disagree: 341,500 votes or 0.0007796% of all shares with voting rights present at the Meeting

None of questions or opinions from Shareholders was available.

### Decision

Approving the use of the Company's Net Profit for the 2023 Fiscal Year as of IDR 5,703,743,109,251,- (five trillion seven hundred three billion seven hundred forty three million one hundred nine thousand two hundred fifty one Rupiah), as follows:

1. 20% (twenty percent) or IDR 1,140,748,621,850,- (one trillion one hundred forty billion seven hundred forty eight million six hundred twenty one thousand eight hundred fifty Rupiah) was set as mandatory reserves.
2. 15% (fifteen percent) or IDR 855,561,466,388,- (eight hundred fifty five billion five hundred sixty one million four hundred sixty six thousand three hundred eighty eight Rupiah) or IDR 18,5470451 (eighteen point five four seven zero four five one Rupiah) per share was determined as Cash Dividends. The payment was carried out with the following provisions:
  - a) Dividends for the 2023 Fiscal Year were paid proportionally to each Shareholder whose name was registered in the Shareholders Register on the recording date.
  - b) The Board of Directors was granted the authority and power with the right of substitution to perform:
    - Stipulation of the schedule and distribution procedures related to the payment of Dividends for the 2023 Fiscal Year in accordance with applicable provisions.
    - Dividend tax deductions in accordance with applicable tax regulations.
    - Other technical matters in accordance with applicable provisions.
3. 65% (sixty five percent) or IDR 3,707,433,021,013,- (three trillion seven hundred seven billion four hundred thirty three million twenty one thousand thirteen Rupiah) was used as retained earnings.

**Follow-up:** Realized

### GMS Resolution in The Fiscal Year And 1 (One) Year Before The Fiscal Year Realized Into The Fiscal Year

All resolutions of the 2023 GMS had been realized in 2024 and the 2022 GMS had been realized in 2023. Therefore, there were no resolutions of the 2023 GMS and 2022 GMS that had not been realized in 2024.

# BOARD OF COMMISSIONERS

The Board of Commissioners serves as the supervisory organ of the Company, carrying out collective oversight and providing strategic guidance to the Board of Directors. This role includes overseeing policies, performance, and overall management, while ensuring that GCG is consistently embedded across all organizational levels and structures of BSI. In performing its duties, the Board of Commissioners is appointed by and accountable to the GMS. Such accountability reflects the Board's commitment to effective and independent oversight of the Company's management, in support of the consistent implementation of GCG principles.

## BOARD OF COMMISSIONERS APPOINTMENT BASIS

The appointment of members of the Board of Commissioners is carried out through the GMS in accordance with the Company's Articles of Association and prevailing laws and regulations. Appointments become effective upon approval from the OJK following the Fit and Proper Test and the fulfilment of other regulatory requirements.

## BOARD OF COMMISSIONERS COMPOSITION

Pursuant to the AGMS resolution on May 16, 2025, the Board of Directors composition was changed to 8 (eight) members, comprising 1 (one) President Commissioner, 3 (three) Commissioners, and 4 (four) Independent Commissioners. Thereby the Board composition as of December 31, 2025 is as follows:

### Board of Commissioners Composition as of December 31, 2025

| Name                    | Position                 | Basis of Appointment       | Effective Date                           | Period      |
|-------------------------|--------------------------|----------------------------|------------------------------------------|-------------|
| Muhadjir Effendy        | President Commissioner   | Annual GMS on May 16, 2025 | September 1, 2025                        | 2025 - 2028 |
| Meidy Ferdiansyah       | Commissioner             | Annual GMS on May 16, 2025 | Effective upon obtaining approval of OJK | 2025 - 2028 |
| Mochamad Agus Rofiudin  | Commissioner             | Annual GMS on May 16, 2025 | December 12, 2025                        | 2025 - 2028 |
| Kamaruddin Amin         | Commissioner             | Annual GMS on May 16, 2025 | December 12, 2025                        | 2025 - 2028 |
| Felicitas Tallulembang  | Independent Commissioner | Annual GMS on May 17, 2024 | December 10, 2024                        | 2024 - 2027 |
| Nizar Ahmad Saputra     | Independent Commissioner | Annual GMS on May 16, 2025 | December 12, 2025                        | 2025 - 2028 |
| Muhammad Syafii Antonio | Independent Commissioner | Annual GMS on May 16, 2025 | Effective upon obtaining approval of OJK | 2025 - 2028 |
| Addin Jauharudin        | Independent Commissioner | Annual GMS on May 16, 2025 | Effective upon obtaining approval of OJK | 2025 - 2028 |

## BOARD CHARTER OF THE BOARD OF COMMISSIONERS

In exercising its authorities and responsibilities, the Board of Commissioners is guided by the Board of Commissioners Charter. The Charter serves as a binding framework for all members of the Board of Commissioners in performing their oversight and advisory functions in an effective, efficient, transparent, independent, and professional manner.

## BOARD OF COMMISSIONERS

The Board of Commissioners Charter is established in line with the provisions of Bank Indonesia and OJK and is reviewed and updated periodically to remain aligned with regulatory developments and organisational needs, as stipulated in the Company's Board of Commissioners Decision No. DEC.COM/001/2021. The Charter is intended to enhance clarity in roles, duties, and working mechanisms, thereby supporting a more focused and effective execution of the Board of Commissioners' responsibilities, as well as serving as one of the tools for evaluating the Board's performance.

The Board of Commissioners Charter governs various aspects related to the Board of Commissioners, including the following:

1. General Provisions
2. Structure of the Board of Commissioners
3. Duties of the Board of Commissioners
4. Obligations of the Board of Commissioners
5. Rights and Authorities of the Board of Commissioners
6. Bank Confidentiality and Conflict of Interest
7. Committees and Other Supporting Bodies
8. Types and Quorum of Meetings
9. Participants in Board of Commissioners Meetings
10. Meeting Chairperson
11. Meeting Materials
12. Meeting Decisions
13. Meeting Minutes
14. Meeting Organization
15. Secretary of the Board of Commissioners
16. Division of Routine Tasks
17. Commissioners' Working Hours
18. Document Signing
19. Business Trips
20. Continuing Education Management Report
21. Evaluation of the Board of Commissioners' Performance
22. Amendments
23. Conclusion

### CRITERIA OF THE BOARD OF COMMISSIONERS MEMBERS (AND INDEPENDENT COMMISSIONER)

The requirements of the members of the Board of Commissioners must meet the following conditions:

- a. Limited Liability Company Law;

- b. Laws and regulations in the field of capital market;
- c. Laws and regulations in the field of Sharia Banking; and
- d. Other applicable laws and regulations related to the Company's business activities.

Parties eligible as members of the Board of Commissioners are individuals who meet the following criteria at the time of appointment and while in office:

- a. Shall have good morals, intentions and integrity
- b. Shall be able to take legal actions
- c. Within 5 (five) years prior to appointment and during office:
  - 1) Has never been declared bankrupt
  - 2) Has never been a member of the Board of Directors and/ or a member of the Board of Commissioners convicted guilty for causing a company to be declared bankrupt.
  - 3) Never been convicted of committing a criminal act that is detrimental to state finances and/or related to the financial sector.
  - 4) Has never been a member of the Board of Directors and/ or member of the Board of Commissioners who while in office:
    - i. Failed to hold an annual GMS
    - ii. His accountability as a member of the Board of Directors and/or member of the Board of Commissioners was once not accepted by the GMS or has never provided his accountability as a member of the Board of Directors and/or member of the Board of Commissioners to the GMS.
    - iii. Has once caused a company that obtained a permit, approval or registration from the OJK to fail to meet its obligation to submit an annual report and/or financial report to the OJK.
- d. Shall have a commitment to comply with regulatory provisions.
- e. Shall have knowledge and/or expertise in the field required by the Company:
- f. Exclusively for Independent Commissioners
  - i. is not a President Director and a member of the Board of Directors who is under the supervisory function or an Executive Officer who performs the supervisory function of the Company within the last 6 (six) months,

## BOARD OF COMMISSIONERS

- ii. is not a Board of Directors or Executive Officer who has a relationship with the Company within the last 1 (one) year and/or,
- iii. is not be Non-Independent Commissioner in the Company or business group within the last 1 (one) year, except for reappointment as an Independent Commissioner of an Issuer or Public Company in the next period;
- g. Meet other requirements as specified in paragraph (4) of Article 21 of the Company's Articles of Association.

The fulfillment of the requirements as a member of the Board of Commissioners must be contained in a statement signed by the prospective member of the Board of Commissioners and submitted to the Company.

In addition to meeting the criteria as intended, the appointment of members of the Board of Commissioners is carried out by considering integrity, dedication, understanding of company management issues related to one of the management functions, having adequate knowledge in the Company's field of business, and being able to provide sufficient time to carry out their duties and other requirements based on laws and regulations.

For Independent Commissioners, in addition to fulfilling the provisions in paragraph (4) and paragraph (5) of Article 21 of the Articles of Association, they must also meet the requirements as an Independent Commissioner as specified in the applicable OJK and Bank Indonesia regulations (as relevant).

### BOARD OF COMMISSIONERS DUTIES AND AUTHORITIES

The Board of Commissioners is an assembly and each member of the Board of Commissioners cannot act individually, but based on the decision of the Board of Commissioners.

- The Board of Commissioners is tasked with supervising the management policy, the course of management in general, both regarding the Company and the Company's business carried out by the Board of Directors, as well as providing advice to the Board of Directors including supervision of the implementation of the Company's long-term plan, the Company's

work plan and the provisions of the Articles of Association and Resolutions of the GMS, as well as applicable laws and regulations, the interests of the Company and in accordance with the Company's intentions and objectives.

In reference with SEOJK 14/2025, in performing its oversight function, the Board of Commissioners does not engage in decision-making related to the Company's operational activities. Such involvement is only permitted under specific circumstances, including the provision of funds to related parties in accordance with Financial Services Authority regulations on maximum credit exposure and large exposure limits for commercial banks and Sharia commercial banks, as well as in other matters expressly stipulated in the Company's Articles of Association or prevailing laws and regulations.

- The Board of Commissioners is authorized to:
  1. View and examine books, letters, and other documents, checking cash for verification purposes, etc. such as securities and checking the Company's wealth;
  2. Enter yards, buildings, and offices used by the Company;
  3. Request an explanation from the Board of Directors and/or other officials regarding all issues related to the management of the Company;
  4. Know all policies and actions that have been and will be carried out by the Board of Directors;
  5. Request the Board of Directors and/or other officials under the Board of Directors with the knowledge of the Board of Directors to attend the meeting of the Board of Commissioners;
  6. Appoint and dismiss the Secretary of the Board of Commissioners if deemed necessary;
  7. Temporarily dismiss members of the Board of Directors in accordance with the provisions the Company's Articles of Association;
  8. Use experts for certain matters and within a certain period of time at the Company's expense, if deemed necessary;
  9. Carry out the management of the Company under certain circumstances for a certain period of time in accordance with the provisions of the Company's Articles of

## BOARD OF COMMISSIONERS

Association and the applicable laws and regulations;

10. Attend the Board of Directors Meeting and provide views on the matters discussed;
  11. Exercise other supervisory authority as long as it does not conflict with laws and regulations, the Articles of Association, and/or the resolution of the GMS;
  12. Approve the appointment and dismissal of the Head of the Internal Audit Unit.
- Based on the BOC Charter, the Board of Commissioners is authorized to give written approval to the decision of the Board of Directors for the following actions (Article 5 of the BOC Charter):
    - a. Buying, selling, renting or otherwise acquiring or relinquishing rights to immovable goods, including buildings and rights to land and corporations in excess of a certain amount determined by the Board of Commissioners;
    - b. Borrowing or lending money on behalf of the Company that exceeds the rupiah value limit from time to time set by the Board of Commissioners, provided that taking from the loan or debt account that has been made is not considered a loan for the purposes of this provision;
    - c. Mortgage, guarantee or otherwise ensure the Company's assets that exceed the rupiah value limit determined from time to time by the Board of Commissioners;
    - d. Binding the Company as a guarantor (borg or guarantor) that exceeds the rupiah value limit determined from time to time by the Board of Commissioners;
    - e. Listing the Company's shares in the Capital Market;
    - f. Do not collect again, transfer or release the right to collect on bad principal receivables that have been written off, with the provision that from time to time the GMS determines the amount of write-off that can be used, either to write off bad principal receivables that have been deleted from the book or to write off the bill for the difference between the principal value and the value of the payment or release of rights on bad principal receivables that have been written off.

In reference with SEOJK 14/2025, the Board of Commissioners has the authority to report

to OJK no later than 5 (five) business days from the discovery of any violation of laws and regulations in the financial and banking sectors, including those related to the Company's business activities, and/or upon becoming aware of any condition or potential condition that may jeopardise the Company's business continuity..

- The Board of Commissioners is obliged to:
  1. Provide advice to the Board of Directors in carrying out the management of the Company;
  2. Research, review, and sign the Company's Long-Term Plan and the Company's work plan prepared by the Board of Directors in accordance with the provisions of the Company Articles of Association;
  3. Provide opinions and suggestions on the Company's long-term plans and work plans;
  4. Provide approval for the Company's long-term plans and work plans;
  5. Follow the development of the Company's activities, to provide opinions and suggestions to the GMS on every issue that is considered important for the management of the Company;
  6. Report to the shareholders of Series A Dwiwarna and the controlling shareholders in the event of a symptom of declining performance of the Company;
  7. Propose to the GMS the appointment of a Public Accountant and/or Public Accounting Firm who will conduct an audit of the Company's books;
  8. Examine and review the periodic reports and annual reports prepared by the Board of Directors and sign the Annual Report;
  9. Provide explanations, opinions and suggestions to the GMS on the Annual Report, when requested;
  10. Prepare the annual work program of the Board of Commissioners and include it in the Company's work plan;
  11. Establish an Audit Committee, Risk Monitoring Committee and Remuneration and Nomination Committee;
  12. Prepare the Minutes of the Board of Commissioners Meeting and keep a copy thereof;
  13. Report to the Company regarding his/her and/or family's shareholding in the Company and other Companies;

## BOARD OF COMMISSIONERS

14. Provide a report on supervisory tasks that have been carried out during the recent financial year to the GMS;
  15. Provide explanations of all matters that are asked or requested by the shareholders of Series A Dwiwarna and the controlling shareholders by paying attention to the applicable laws and regulations, especially those in the field of Capital Markets;
  16. Direct, monitor, and evaluate the implementation of governance, risk management, and compliance in an integrated manner as well as the Bank's strategic policies, in accordance with the provisions of laws and regulations, the Articles of Association, and/or the resolution of the GMS.
  17. Carry out other obligations in the context of supervision and advisory duties, as long as it does not conflict with the Laws and Regulations, Articles of Association, and/or resolutions of the GMS.
- In carrying out their duties, each member of the Board of Commissioners must:
    - a. Comply with the Articles of Association and laws and regulations, as well as the principles of professionalism, efficiency, transparency, independence, accountability, accountability, and fairness;
    - b. In good faith, full of prudence and responsibility in carrying out supervisory duties and providing advice to the Board of Directors for the benefit of the Company and in accordance with the Company's purposes and objectives.
  - Under certain conditions, the Board of Commissioners is obliged to hold the Annual GMS and Extraordinary GMS in accordance with its authority as stipulated in the Laws and Regulations and Articles of Association.
  - Members of the Board of Commissioners are obliged to carry out their duties and responsibilities as intended in paragraph (1) of this Article in good faith, full of responsibility, and prudence.
  - The Board of Commissioners is obliged to evaluate the performance of the committee that assists in the implementation of its duties and responsibilities as intended in paragraph (2) b number 11 of this Article at the end of each financial year.
  - The Board of Commissioners together with the Board of Directors shall compile:
    - a. Guidelines that bind each member of the Board of Commissioners and Board of Directors, in accordance with the provisions of applicable laws and regulations.
    - b. The Code of Ethics applies to all members of the Board of Commissioners and members of the Board of Directors, employees/ employees, and supporters of organs owned by the Company, in accordance with the provisions of the applicable laws and regulations.
  - Each member of the Board of Commissioners is fully and jointly liable for the Company's losses caused by the mistakes or negligence of the members of the Board of Commissioners in carrying out their duties..

### BOARD OF COMMISSIONERS OVERSIGHT ASSIGNMENT OF DUTIES

To enhance the effectiveness of the Board of Commissioners in performing its oversight and advisory functions, specific roles are assigned to individual members based on their respective competencies and experience. Such assignments are intended to strengthen focus and the quality of supervision, without limiting the rights, obligations, responsibilities, or authorities of each member in carrying out their collective duties. The assigned roles are as follows:

| Name                   | Position               | Assignment of Duties                                                                   |
|------------------------|------------------------|----------------------------------------------------------------------------------------|
| Muhadjir Effendy       | President Commissioner | Member of Remuneration and Nomination Committee<br>Member of Risk Monitoring Committee |
| Meidy Ferdiansyah*     | Commissioner           | Member of Risk Monitoring Committee                                                    |
| Mochamad Agus Rofiudin | Commissioner           | Member of Risk Monitoring Committee                                                    |

## BOARD OF COMMISSIONERS

## RESOLUTIONS THE REQUIRING APPROVAL OF THE BOARD OF COMMISSIONERS

Resolutions requiring the written approval of the Board of Commissioners have been stipulated in the Company's Articles of Association, while remaining in compliance with prevailing laws and regulations. In this regard, the Board of Directors is required to first obtain written approval from the Board of Commissioners for certain actions that have strategic, governance, or financial implications for the Company.

The actions of the Board of Directors that require the written approval of the Board of Commissioners include the following:

1. Releasing, transferring, and/or encumbering the Company's assets with criteria and value exceeding a certain amount as determined by the Board of Commissioners, excluding the Company's assets used in the conduct of the Company's business activities, while taking into account the provisions in the Capital Market sector and the Islamic Banking sector.
2. Determining and changing the Company's logo.
3. Making capital participation, divesting capital participation, including changes in the capital structure of other companies, subsidiaries, and joint ventures that are not carried out in the context of loan recovery, with a certain value as determined by the Board of Commissioners and with due regard to prevailing laws and regulations.
4. Carrying out mergers, consolidations, acquisitions, spin-offs, and dissolutions of subsidiaries and joint ventures with a certain value as determined by the Board of Commissioners, with due regard to provisions in the Capital Market sector, Islamic Banking, and other relevant regulations.
5. Carrying out transfers, including sales, assignment of collection rights, and/or discontinuation of collection of written-off bad debts or non-performing principal obligations, either partially or wholly, in accordance with the policy of the Board of Directors that has been approved by the Board of Commissioners and within the write-off ceiling determined by the GMS.
6. Entering into cooperation with business entities or other parties in the form of joint operations, management contracts, licensing agreements, Build, Operate and Transfer (BOT), Build, Operate and Owned (BOO), as well as other similar agreements, which have a material financial impact on the Company and are valid for a period of more than 1 (one) year or 1 (one) business cycle, or whose value exceeds the threshold determined by the Board of Commissioners.
7. Appointing and dismissing the Head of Internal Audit.
8. Proposing the Company's representative to become a candidate member of the Board of Directors and/or the Board of Commissioners of a subsidiary.

## BOARD OF COMMISSIONERS

9. Establishing subsidiaries and/or joint ventures with a certain value as determined by the Board of Commissioners, with due regard to prevailing laws and regulations.
10. Issuing bonds or other debt instruments exceeding a certain value threshold as determined by the Board of Commissioners.

### BOARD OF COMMISSIONERS TERM OF OFFICE

Members of the Board of Commissioners are appointed and dismissed by the GMS. The appointment of members of the Board of Commissioners must obtain approval from the Authority (Financial Services Authority).

Members of the Board of Commissioners who have fulfilled the requirements in accordance with the prevailing laws and regulations are appointed by the GMS for a term commencing from the closing of the GMS that appoints them or from another time determined by the GMS, and ending at the closing of the 3rd (third) Annual GMS after their appointment, without prejudice to the right of the GMS to dismiss them at any time before the end of their term of office with due observance of the provisions in the Capital Market and Sharia Banking sectors.

After their term of office has expired, Board members may be reappointed for 1 (one) term in accordance with the GMS decision.

A member of the Board of Commissioners may resign from his position before the end of his term of office, by being obliged to submit a written request for resignation to the Company regarding his intentions, no later than 90 (ninety) calendar days before the effective date of his desired resignation.

The term of office of a person appointed to replace a member of the Board of Commissioners who is dismissed or resigns or fills a vacancy or increases the number of new members of the Board of Commissioners shall be from the close of the GMS appointing him or any other date fixed by the GMS and ending at the close of the 3rd (third) Annual GMS after his appointment, unless otherwise specified by the GMS.

The term of office of a member of the Board of Commissioners ends when:

- a. His resignation has been effective, as intended in the Articles of Association;
- b. Passed away;
- c. Term of office ended;
- d. Dismissed based on the decision of the GMS; or
- e. Declared bankrupt by the Commercial Court which has permanent legal force or is placed under guardianship based on a court decision; or
- f. No longer meet the requirements as a member of the Board of Commissioners based on the provisions of the Articles of Association and Laws and Regulations.

In reference with SEOJK No. 14/SEOJK.03/2025, the dismissal or replacement of members of the Board of Commissioners prior to the end of their term of office is carried out by prioritising the best interests of the Bank and in full compliance with prevailing laws and regulations. Such actions, including temporary suspension by the GMS, are implemented with due regard to the scope of authority as stipulated under applicable provisions. Decisions on dismissal or temporary suspension may be based on various considerations, including personal reasons, performance evaluation, recommendations from regulators or shareholders, as well as legal issues that may affect the effective discharge of duties and responsibilities.

### MECHANISM OF RESIGNATION AND DISMISSAL OF THE BOARD OF COMMISSIONERS

#### Resignation

- a. A member of the Board of Commissioners may resign before the end of their term of office by submitting a written resignation request to the Company at least 90 (ninety) calendar days prior to the intended effective date of resignation.
- b. The Company is required to convene a GMS to decide on the resignation request of the relevant member of the Board of Commissioners no later than ninety (90) calendar days after receipt of the resignation letter, in compliance with applicable regulations in the capital market and Sharia banking sectors.

## BOARD OF COMMISSIONERS

- c. The Company is required to disclose the resignation to the public and notify the OJK no later than 2 (two) business days after receipt of the resignation request as referred to in point (a) and after the outcome of the GMS as referred to in point (b).
- d. Prior to the resignation becoming effective, the relevant member of the Board of Commissioners remains obligated to carry out and complete their duties and responsibilities in accordance with the Articles of Association and prevailing laws and regulations.
- e. A member of the Board of Commissioners who resigns as described above may remain accountable for their actions as a member of the Board of Commissioners from the date of appointment until the date on which the resignation is approved by the GMS.
- f. The release and discharge of liability of a resigning member of the Board of Commissioners shall be granted upon approval by the Annual GMS.
- a. Unable to perform its duties properly;
- b. Violating the provisions of the Articles of Association and/or applicable laws and regulations;
- c. Committing acts that violate ethics and/or propriety that should be respected as a member of the Board of Commissioners;
- d. Engaging in actions that are detrimental to the Company and/or the state;
- e. Found guilty by a court decision that has permanent legal force;
- f. Other reasons that are considered appropriate by the GMS are in the interests and objectives of the Company.

- A resolution on dismissal for the reasons as referred to in paragraph (20) letters a, b, c, d, and/or f of Article 21 of the Articles of Association shall be adopted after the relevant member has been given the opportunity to present a defence at the GMS.
- Dismissal for reasons as referred to in paragraph (20) letter d- and/or letter e of Article 21 of the Articles of Association is dishonorable dismissal.
- While the dismissal process as referred to in paragraph (21) of Article 21 of the Articles of Association is ongoing and has not yet been decided by the GMS in accordance with the Articles of Association, the relevant member of the Board of Commissioners remains obligated to perform their duties as required..

**Dismissal of the Board of Commissioners**

- Members of the Board of Commissioners are appointed and dismissed by the GMS. The appointment of Board members is subject to approval from the competent authority, the Financial Services Authority.
- Members of the Board of Commissioners are appointed and dismissed by the GMS in accordance with the attendance and decision quorum as stipulated in the Company Articles of Association.
- Resolutions of the GMS regarding the appointment and dismissal of members of the Board of Commissioners shall also determine the effective date of such appointment and dismissal. If the GMS does not specify the effective date, the appointment and dismissal shall take effect as of the closing of the GMS.
- Members of the Board of Commissioners may be dismissed at any time based on a resolution of the GMS, with the reasons clearly stated.
- The grounds for the dismissal of a member of the Board of Commissioners as referred to in paragraph 19 of Article 21 of the Articles of Association shall apply if, based on factual circumstances, the relevant member of the Board of Commissioners, among others:

## BOARD OF COMMISSIONERS

### BOARD OF COMMISSIONERS CONCURRENT POSITIONS

Members of the Board of Commissioners are prohibited from holding concurrent positions as:

- Members of the Board of Directors of State-Owned Enterprises, Regional-Owned Enterprises, Private-Owned Enterprises;
- Political party administrators, legislative members and/or regional heads/deputy regional heads;
- Candidates for legislative members and/or candidates for regional heads/deputy regional heads;
- Other positions in accordance with the provisions of the applicable laws and regulations;
- Other positions that can cause conflicts of interest.

In addition, in reference with SEOJK 14/2025, members of the Board of Commissioners are prohibited from holding concurrent positions as follows:

- As members of the Board of Directors, Board of Commissioners, Sharia Supervisory Board, or executive officers in financial institutions or companies, whether banking or non-banking;
- As members of the Board of Directors, Board of Commissioners, Sharia Supervisory Board, or executive officers in more than 1 (one) non-financial institution or company, whether domiciled in Indonesia or abroad;
- In functional positions within banking or non-banking financial institutions, whether domiciled in Indonesia or abroad;
- In any other position that may create a conflict of interest in carrying out their duties as members of the Board of Commissioners; and/or
- In other positions as regulated by applicable laws and regulations.

The following are exceptions to the prohibition on holding concurrent positions:

- Members of the Board of Commissioners serving as members of the Board of Directors, Board of Commissioners, or executive officers performing supervisory functions in 1 (one) non-bank subsidiary controlled by the Bank;
- Non-Independent Commissioners performing functional duties on behalf of the Bank's shareholder that is a legal entity in the Bank

and/or a Financial Conglomeration (KUB); and/or

- Members of the Board of Commissioners holding positions in non-profit organizations or institutions, provided that such positions do not interfere with the performance of their duties and responsibilities as members of the Board of Commissioners.

### CONFLICT OF INTEREST POLICY

BSI implements a Conflict of Interest Policy to ensure that all decisions are made objectively, fairly, and in the best interests of the Bank. The policy applies to members of the Board of Directors, the Board of Commissioners, Bank committees, the Sharia Supervisory Board (SSB), Executive Officers, and all employees.

BSI consistently identifies, prevents, and manages potential conflicts of interest arising from its business activities. Any party with a conflict of interest is required to disclose such conflict and is prohibited from participating in decisions or actions that may be detrimental to or reduce the Bank's interests. All disclosures are properly recorded and documented, including in meeting minutes, as part of the Bank's commitment to transparency and accountability.

As a preventive measure, BSI ensures that transactions with related parties are conducted on an arm's length basis and are not more favourable than transactions with other parties under comparable conditions. Through this policy, BSI strengthens the integrity of its governance practices and upholds stakeholder trust.

### MANAGEMENT OF THE BOARD OF COMMISSIONERS CONFLICTS OF INTEREST

Among the members of the Board of Commissioners and among the members of the Board of Commissioners and members of the Board of Directors, it is prohibited to have family relations up to the third degree, either according to straight lines or sideways, including relationships arising from marital ties (including sons-in-law or brother-in-law).

## BOARD OF COMMISSIONERS

Every member of the Board of Commissioners is prohibited from taking personal benefits either directly or indirectly from the Company's activities other than legitimate income.

### BOARD OF COMMISSIONERS AFFILIATED RELATIONS

BSI applies transparency and independence in managing affiliated relations among members of the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board (SSB), both with other members of the governing bodies and with the Bank's Controlling Shareholders. This arrangement forms part of the Bank's implementation of Good Corporate Governance and compliance with regulatory requirements.

Affiliated relations encompass financial and/or family relationships that may give rise to conflicts of interest and affect the objectivity of decision-making. Such relations may include:

- Family relationships by marriage or lineage up to the second degree, both horizontally and vertically.
- Financial relationships reflecting direct or indirect economic interests.
- Management or supervisory relationships with the Bank's Controlling Shareholders.
- Share ownership relationships of members of the Board of Directors, the Board of Commissioners, and/or the SSB in the Bank's Controlling Shareholders as legal entities.

During the reporting period, members of the Board of Commissioners had no affiliated relations with other members of the Board of Commissioners, the Board of Directors, the Sharia Supervisory Board, and/or the Bank's Controlling Shareholders. Accordingly, the Board of Directors was able to perform its duties and responsibilities independently and professionally.

Details of the affiliated relations of the Board of Commissioners are presented in the table below.

### Affiliations of the Board of Commissioners

## BOARD OF COMMISSIONERS

### INDEPENDENT COMMISSIONER

An Independent Commissioner is a member of the Board of Commissioners who has no financial, management, share ownership, and/or family relationships with members of the Board of Directors, other members of the Board of Commissioners, and/or the Controlling Shareholders. In addition, the Independent Commissioner has no relationship with the Bank that may impair the ability to act objectively, independently, and free from conflicts of interest.

Referring to the provisions of SEOJK No. 14/SEOJK.03/2025, Independent Commissioners must constitute at least 50% (fifty percent) of the total members of the Board of Commissioners. Of the total 8 (eight) members of BSI's Board of Commissioners, 4 (four) members are Independent Commissioners who were appointed based on the resolution of the AGMS dated May 16, 2025.

#### Independent Commissioners Criteria

BSI establishes and applies the criteria for Independent Commissioners in accordance with SEOJK No. 14/SEOJK.03/2025. In the appointment process, candidates for Independent Commissioner are required to acquire adequate knowledge of banking that is relevant to the oversight role. In addition, candidates must have experience in the banking sector and/or the financial industry.

Fulfilment of these requirements is cumulative and forms the basis for assessing the eligibility of Independent Commissioner candidates. Through the application of these criteria, BSI ensures that Independent Commissioners are equipped with the necessary competence, independence, and capability to perform their supervisory functions effectively and objectively in line with their roles and responsibilities.

| Independent Commissioner Criteria                                                                                                                                                                                         | Independent Commissioner |                     |                          |                   |

## BOARD OF COMMISSIONERS

### Independence of Independent Commissioners

BSI implements the independence requirements for Independent Commissioners in accordance with SEOJK No. 14/SEOJK.03/2025. Independent Commissioners must be free from financial, management, share ownership, and/or family relationships with members of the Board of Directors, other members of the Board of Commissioners, the Sharia Supervisory Board (SSB), and the Bank's Controlling Shareholders up to the ultimate controlling shareholders. In addition, they must have no relationship with the Bank that may impair their ability to act objectively and independently.

### Fit & Proper Test for Independent Commissioner Candidates

BSI requires all Independent Commissioner candidates to undergo a Fit and Proper Test in accordance with regulatory provisions. Applications for the assessment are submitted after the completion of the required cooling-off period, at the earliest 90 (ninety) days after the commencement of the cooling-off period, to ensure compliance with integrity, competence, and independence requirements.

### Change of Status From Non-Independent Commissioner to Independent Commissioner

Any change of status from a Non-Independent Commissioner to an Independent Commissioner at BSI is subject to prior approval from the Financial Services Authority. Candidates are required to submit an independence declaration and fulfil all applicable independence criteria. The Financial Services Authority may request additional supporting documents, including statements from Controlling Shareholders, to confirm the candidate's independence.

### Dismissal or Replacement of Independent Commissioners

The dismissal or replacement of an Independent Commissioner prior to the end of the term of office requires prior approval from the Financial Services Authority before being decided at the GMS. BSI submits the application together with supporting reasons and documentation, including performance considerations, legal matters, or other factors that may affect the effective discharge of duties and responsibilities. Independent Commissioners who have not obtained regulatory approval are prohibited from exercising their roles and authorities.

### Concurrent Positions of Independent Commissioners

Independent Commissioners of BSI are prohibited from holding concurrent positions as public officials, whether in structural or functional roles. This restriction is implemented to prevent conflicts of interest and to ensure that Independent Commissioners maintain full independence and the capacity required to perform their supervisory duties effectively.

### Independent Commissioner Independence Statement

BSI ensures that all Independent Commissioners have signed an Independence Statement confirming their compliance with all required criteria and independence requirements in accordance with prevailing laws and regulations. Such statements have been submitted to the Financial Services Authority as part of the Bank's regulatory compliance and Good Corporate Governance implementation.

The following is the statement of independence of the Independent Commissioner:

I hereby declare that I:

1. Do not have any financial relationship, management relationship, ownership relationship, and/or family relationship with members of the Board of Directors, members of the Board of Commissioners, and/or controlling shareholders, or any relationship with the bank that may affect my ability to act independently as regulated under the Financial Services Authority Regulation concerning the implementation of governance for commercial banks.
2. Do not hold concurrent positions in accordance with Article 46 of the Financial Services Authority Regulation concerning the implementation of governance for commercial banks.
3. Have not had any relationship with the bank within the past 1 (one) year that may affect my ability to act independently.

## BOARD OF COMMISSIONERS

4. If at any time it is found that I have a relationship as referred to in point 1 and concurrent positions as referred to in point 2, I am willing to resign from my position as Independent Commissioner and agree to be replaced.

## BOARD OF COMMISSIONERS MEETING

The procedures and requirements for BSI Board of Commissioners meetings are regulated in the Articles of Association and the BOC Charter.

The main conditions for this meeting are as follows:

1. A meeting of the Board of Commissioners may be held at any time as deemed necessary by one or more members of the Board of Commissioners, or upon a written request from the Board of Directors specifying the matters to be discussed.
2. Meeting Frequency:  
The Board of Commissioners is required to hold regular meetings at least once (1) each month, at which the Board of Commissioners may invite members of the Board of Directors to attend.
3. Joint Meeting with the Board of Directors:  
The Board of Commissioners shall hold regular meetings with the Board of Directors at least once in 3 (three) months.

## BOARD OF COMMISSIONERS

4. **Quorum Requirements:**  
A meeting of the Board of Commissioners may be convened, deemed valid, and authorised to adopt binding resolutions if it is attended by or represented by more than one-half (1/2) of the total members of the Board of Commissioners.
5. **Meeting Invitations:**  
Meetings of the Board of Commissioners are convened by the President Commissioner. In the event that the President Commissioner is unavailable, one member of the Board of Commissioners appointed by the President Commissioner is authorised to convene the meeting. Meeting notices must be delivered to all members of the Board of Commissioners no later than five (5) calendar days prior to the meeting, excluding the date of notice and the meeting date, or within a shorter period in urgent circumstances, namely at least one (1) calendar day prior to the meeting, as determined by the President Commissioner. If all members of the Board of Commissioners are present, prior notice is not required. The meeting notice must state the agenda, date, time, and venue of the meeting.
6. **Meeting Chairman:**  
Meetings of the Board of Commissioners are chaired by the President Commissioner. In the absence of the President Commissioner, the meeting shall be chaired by a Commissioner appointed to do so.
7. **Meeting Materials:**  
Meeting materials are distributed to participants no later than 5 (five) days prior to the meeting. If the meeting is held outside the regular schedule, the materials may be provided prior to the meeting.
8. **Meeting Convention:**  
If a member of the Board of Commissioners is unable to attend the meeting in person, the member may participate through teleconference, video conference, or other electronic communication media in accordance with prevailing regulations.
9. **Meeting Decision-Making:**  
Resolutions of the Board of Commissioners' meetings shall, in principle, be adopted through deliberation to reach consensus. In the event that consensus cannot be achieved, resolutions shall be passed by a majority vote, being approved by more than one-half (1/2) of the members of the Board of Commissioners present or represented at the meeting.
10. **Meeting Results:**  
The results of the meeting must be recorded in meeting minutes, signed by the members of the Board of Commissioners and the members of the Board of Directors in attendance, and circulated to all members of the Board of Commissioners and the Board of Directors. If any member of the Board of Directors and/or the Board of Commissioners does not sign the minutes, the relevant member is required to provide a written explanation in a separate letter to be attached to the meeting minutes. The meeting minutes constitute valid evidence of the resolutions adopted at the relevant Board of Commissioners' meeting, both for the members of the Board of Commissioners and for third parties..
11. **Meeting Documentation:**  
The meeting minutes must be properly documented and maintained by the Company.

## BOARD OF COMMISSIONERS

### Internal Board of Commissioners Meeting Plan

The Board of Commissioners determines the meeting plan for the 2025 financial year as follows:

| No. | Month     | Agenda                                                                                                                                               |
|-----|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.  | January   | 1. Performance Evaluation for December 2024<br>2. Project Progress Update/Other Materials (if needed)                                                |
| 2.  | February  | 1. Performance Evaluation for January 2025<br>2. Project Progress Update/Other Materials (if needed)                                                 |

\* Ended the term of office on May 16, 2025

\*\* Commence the term of office on May 17, 2025

### RECOMMENDATIONS AND IMPLEMENTATION OF THE BOARD OF COMMISSIONERS' DUTIES

In reference with the Company's Articles of Association, the Board of Commissioners carries out oversight of management policies and the overall conduct of the Company's affairs by the Board of Directors, encompassing both corporate governance and business operations. This role includes providing advice to the Board of Directors, as well as monitoring the implementation of the Company's long-term plan, annual work plan, compliance with the Articles of Association and resolutions of the GMS, adherence to prevailing laws and regulations, and alignment with the Company's objectives and best interests.

In fulfilling its responsibilities, the Board of Commissioners emphasises the importance of sustaining performance to support BSI's long-term resilience and growth. As such, the Board of Commissioners provides its views, guidance, and recommendations to Management in relation to BSI's performance as at 31 December 2025, as outlined below:

## BOARD OF COMMISSIONERS

| 1.  | Performance | <p>The Board of Commissioners appreciates BSI's performance which, during the 2025 period, demonstrated financial performance that in general achieved the targets in accordance with the established Bank Business Plan (RBB), including:</p> <ol style="list-style-type: none"> <li>1. Total Assets grew to Rp456 trillion or increased by 11.64% compared to the previous year.</li> <li>2. Return on Equity (RoE) of 16.85%.</li> <li>3. Net profit of Rp7.57 trillion, increased by 8.02% compared to the previous year (achieving 100.96% of the target).</li> <li>4. Financing amounted to Rp318.84 trillion, growing 14.49% year-on-year (achieving 102.73% of the target).</li> <li>5. Third Party Funds (DPK) of Rp380.5 trillion recorded growth of 16.20% year-on-year (achieving 109.07% of the target).</li> <li>6. Financing quality remained well maintained with the gross non-performing financing (NPF) ratio at 1.81%.</li> <li>7. The gold segment became one of the main growth drivers, increasing by 78.6% to Rp22.9 trillion.</li> <li>8. The realization of several strategic initiatives, such as BSI becoming a Bullion Bank, obtaining a principal license for a branch office in Saudi Arabia, the launch of BEWIZE as a service for corporate (wholesale) customers, and others.</li> </ol> |

## BOARD OF COMMISSIONERS

| No. | Subject           | Board of Commissioners' Directions/Advice/Recommendations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2.  | Third Party Funds | <ol style="list-style-type: none"> <li>The acquisition of Third Party Funds (DPK) in December 2025 amounted to Rp380.5 trillion (achievement of 109.07%) or increased by Rp13 trillion month-to-month. The DPK growth consisted of current accounts amounting to Rp3.0 trillion, savings amounting to Rp9.8 trillion, and time deposits amounting to Rp239 billion. With this DPK growth, the CASA percentage in December 2025 reached 61.62%, an increase from November 2025 at 60.33%, but still below the target of 62.20%. Therefore, going forward, more significant efforts are required to increase CASA through increasing current account and savings balances, implementing close-loop strategies, and optimizing BSI's role as a transaction bank, particularly for low cost of fund (CoF) DPK in the retail segment (micro, ISE, SME, and RDG segments).</li> <li>Savings growth month-to-month (November 2025 – December 2025) amounted to Rp9.8 trillion, which is expected to continue and not decline in the first quarter of 2026, considering that growth over 11 months (December 2024 – November 2025) reached Rp12.3 trillion or an average monthly growth of Rp1.1 trillion. For information, based on last year's data, there was a decline in savings at the beginning of the year amounting to Rp4.2 trillion from Rp140.5 trillion (December 2024) to Rp136.3 trillion (January 2025). Therefore, this savings growth should be closely monitored, particularly in the first quarter of 2026.</li> <li>The growth of Hajj Savings in December 2025 (month-to-month) was negative Rp964 billion, caused by the settlement schedule of Hajj pilgrims departing in 2026, although the number of NOA continued to increase. Therefore, BSI should continue to develop appropriate programs to increase Hajj Savings balances and the number of NOA.</li> <li>The growth of priority customer funds in December 2025 amounted to Rp1,551 billion (month-to-month) and is expected to be sustainable. Going forward, this growth should be maintained through optimization of both intensification and extensification programs for priority customers, supported by competent human resources and strict monitoring.</li> </ol> |
| 3.  | Financing         | <ol style="list-style-type: none"> <li>The growth rate of BSI's financing as of December 31, 2025 was 14.49%, which was above the national credit growth of 7.74% YoY (November 2025, based on OJK data), and should be maintained through sound financing and in accordance with the target market.</li> <li>Wholesale segment financing as of December 2025 amounted to Rp90.80 trillion, increasing month-to-month by Rp5.85 trillion and year-on-year by Rp13.58 trillion, and achieved the target (110.66%) with a composition of 28.5% of total financing. Going forward, the growth of the wholesale segment business can become BSI's core business, without neglecting the MSME segment, through the development of the wholesale segment business, particularly those included in the Islamic Ecosystem (ISE), to obtain broader derivative business (value chain) so that more wholesale segments can conduct business in accordance with sharia principles while increasing BSI's financing market share in the national banking industry.</li> <li>The performance of Micro financing, both Micro KUR and Non-KUR, only achieved 91.51% and 86.17% of the target, respectively, due to improvements in business processes whose implementation was carried out in mid-2025. With improved business processes, it is expected that the growth of the Micro segment in the future will improve with better risk management, thereby maintaining its quality.</li> <li>BSI should utilize benevolent funds more optimally, namely by using the Bank's benevolent funds for the benefit of the community, for example by paying insurance premiums for MSME customers, which can ease the burden on MSME customers, particularly to reduce the risk of non-performing financing in the future.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## BOARD OF COMMISSIONERS

| No. | Subject    | Board of Commissioners' Directions/Advice/Recommendations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.  | Net Profit | <ol style="list-style-type: none"> <li>BSI's net profit as of December 2025 reached Rp7.56 trillion or increased by 8.02% YoY; however, it experienced slower growth compared to the previous period. This was mainly due to an increase in three major costs/expenses, namely profit-sharing expenses and bonuses (CoF), which increased by 15.73% YoY, overhead costs (OHC), which increased by 16.36% YoY, and allowance for impairment losses (CKPN/CoC), which increased by 24.45% YoY. The increase in CKPN was particularly due to the restructuring program resulting from the Aceh and Sumatra disasters.</li> <li>The excess realization of overhead costs in December 2025 compared to the budget (Rp13,572 billion vs Rp12,810 billion) should receive attention and serve as an evaluation point going forward, particularly during budget preparation and in controlling and managing overhead costs in a more integrated and stricter manner to improve the Cost Efficiency Ratio (CIR) and BOPO ratio.</li> <li>To ensure that the productivity of employees within the network continues to increase, the realization of Contribution Margin per branch, Contribution Margin per employee, or other ratios indicating productivity should be monitored in a disciplined and continuous manner and reported regularly in the Monthly Performance Report.</li> </ol> |
| 5.  | Others     | <ol style="list-style-type: none"> <li>Conduct an evaluation of all strategic work plans for 2025 that have not been realized as well as those that are carried over (multiyears) to ensure that the strategic work plans for 2026 that have been planned can be executed in accordance with the established plan and timeline targets.</li> <li>With regard to the gold business, the Bank should remain vigilant and prepare appropriate strategies to anticipate fluctuations in gold prices that are highly likely to occur in 2026 and beyond.</li> <li>Although the Macroprudential Inclusive Financing Ratio (RPIM) as of December 2025 was 33.86%, which remains above the regulatory requirement of 30%, this achievement was below the RBB target of 35.24% and declined compared to December 2024 (35.23%) and November 2025 (33.91%). The decline in RPIM was also in line with the decrease in the MSME financing ratio, which as of December 31, 2025 reached 16.52%, declining from 18.86% in December 2024. Therefore, going forward, efforts should be made to ensure that RPIM achieves the established target so that the Bank can contribute more significantly to inclusive financing (particularly for MSMEs) while maintaining better risk management.</li> </ol>                                                                                            |

Throughout 2025, the Board of Commissioners carried out its oversight function over the Bank's policies and management by the Board of Directors in accordance with prevailing laws and regulations, the Company's Articles of Association, and the Work Plan approved at the beginning of the year. To ensure alignment with the Bank's strategic direction and GCG principles, the Board of Commissioners undertook the following supervisory activities:

- Supervised the Implementation of the Bank Business Plan (RBB):
  - Directed, monitored, and evaluated the implementation of the Bank's strategic policies for 2024-2026, including assessments of the Corporate Plan, RBB, and financial performance on a monthly basis.

- Oversaw the achievement of the RBB, particularly key business plan objectives such as credit distribution, asset quality improvement, third-party fund collection, productivity, and efficiency.
  - Reviewed the Revised RBB for 2024-2026.
  - Evaluated the realization of the RBB as reported to the Financial Services Authority (OJK) on a semi-annual basis and submitting the RBB supervision report to OJK.
  - Reviewing and approving the Bank Business Plan (RBB) for 2025-2027.
- Reviewed Financial Information: Analyzing financial reports to be issued by the Company, as prepared by Public Accounting Firms (KAP) or other external parties.

## BOARD OF COMMISSIONERS

3. Supervised Internal Control at BSI:
  - a. Ensured that BSI's internal control system is operating effectively.
  - b. Ensured that the Board of Directors monitors the effectiveness of the Internal Audit Business Unit (SKAI).
  - c. Overseeing the implementation of the Internal Audit Business Unit's (SKAI) duties.
4. Supervised the Bank's Soundness Level: Conducting supervision, monitoring, and evaluation of the Bank's financial soundness on a semi-annual basis and supporting the Board of Directors in taking necessary actions to maintain and/or improve the Bank's soundness level.
5. Supervised the Risk Management Unit: Monitoring risk management strategies to ensure the Bank operates within acceptable risk tolerance levels
6. Supervised Compliance Implementation at BSI:
  - a. Evaluated BSI's compliance function, ensuring it is effectively implemented, and providing recommendations to the Board of Directors to enhance compliance quality.
  - b. Reviewed compliance function reports and updates on the duties of the Compliance Director, as periodically submitted by the Board of Directors.
  - c. Monitored the implementation of the Anti-Fraud Strategy, Anti-Money Laundering and Counter-Terrorism Financing (AML-CFT) Program, and Customer Due Diligence Principles.
  - d. Ensured the adoption of Good Corporate Governance (GCG) principles and practices at all levels, including overseeing GCG implementation, reviewing GCG reports submitted by the Board of Directors, and monitoring the results of the GCG self-assessment.
7. Evaluation and Supervision of Information Technology: Evaluating, directing, and monitoring the Bank's IT strategic plans and IT-related policies at BSI.
8. Monitored Human Resource (HR) Development: Overseeing and evaluating the management and development of human resources (HR), particularly in relation to strategic HR functions that support the Bank's performance objectives.

9. Approved Matters Requiring Board of Commissioners' Approval: Granting approval for matters that require Board of Commissioners' consent, as stipulated by applicable regulations and the Company's Articles of Association.
10. Conducted Supervisory Visits. In 2025, the Board of Commissioners conducted supervisory visits to 1 (one) Regional Offices, including Regional and/or Branch Offices located in Region III (Palembang) to ensure effective implementation of policies, regulatory compliance, and operational efficiency across the Bank's branches.
11. Supervised implementation of Policy and Internal Control Procedures of the Bank Financial Reporting.

### ORIENTATION PROGRAM FOR NEW COMMISSIONERS

In view of the diverse professional backgrounds of the members of the Board of Commissioners, BSI conducts an orientation program for newly appointed Commissioners. The program is designed to provide a comprehensive understanding of BSI's overall condition, strategy, and governance framework, while fostering effective collaboration and cohesion among members of the Board of Commissioners as a unified supervisory body.

In line with the BOC Charter, the orientation program for the Board of Commissioners includes:

1. Corporate introduction covering Corporate Strategy, Vision, and Mission
2. Sharia Banking Training
3. Risk Management Training
4. Training on GCG for Public Companies

In 2025, BSI appointed 3 (three) new members of the Board of Commissioners, namely Nizar Ahmad Saputra, Muhammad Syafii Antonio, and Addin Jauharudin. All newly appointed Commissioners have completed the orientation program in accordance with applicable provisions, with details of the program schedule and materials presented in the table below.

## TRAINING AND/OR COMPETENCY DEVELOPMENT FOR MEMBERS OF THE BOARD OF COMMISSIONERS

Policies on enhancing the competence of the Board of Commissioners are governed by the Human Capital Standard Operating Procedures, aimed at ensuring that each member possesses adequate knowledge and skills to perform their duties and responsibilities. Competency development programs include training, workshops, and other activities designed to strengthen capabilities in line with developments in the Bank's industry and business. Members of the Board of Commissioners are required to participate in competency development programs on a regular basis to maintain relevant understanding and sound decision-making.

The participation of the Board of Commissioners in competency development activities during 2025 is as follows.

| Name                    | Position                  | Training                                                                                                                                                                                       | Data/Place                     | Organizer                     |

## BOARD OF COMMISSIONERS PERFORMANCE ASSESSMENT

The Board of Commissioners periodically conducts a self-assessment of the performance of its supervisory function, including that of the committees under the Board of Commissioners. As part of this process, the Board of Commissioners may seek input from the Board of Directors to assess the effectiveness of the oversight carried out. The performance of this supervisory function and its assessment represent the Board of Commissioners' accountability in accordance with Law No. 40 of 2007 on Limited Liability Companies.

### Performance Assessment Procedure of the Board of Commissioners

The performance assessment of the Board of Commissioners conducted through the GMS is carried out as follows:

1. The Board of Commissioners submits its performance report to be evaluated by the Shareholders at the GMS.
2. The performance of the Board of Commissioners is assessed based on predetermined indicators that are aligned with its duties and responsibilities.
3. The results of the self-assessment of each member of the Board of Commissioners serve as one of the considerations for Shareholders in deciding on the dismissal and/or reappointment of the relevant member, and are also used as a means to evaluate and enhance the effectiveness of the Board of Commissioners.

### Kriteria Penilaian Kinerja Dewan Komisaris

| No. | Indicator                                                                                                                                                        | Assessment Weight |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 1.  | The Board of Commissioners holds at least four (4) Board meetings annually                                                                                       | 10%               |
| 2.  | The Board of Commissioners holds at least four (4) joint meetings with the Board of Directors annually.                                                          | 10%               |
| 3.  | The Board of Commissioners holds at least one (1) joint meeting with the Sharia Supervisory Board (DPS) annually.                                                | 10%               |
| 4.  | The Board of Commissioners participates in at least one (1) seminar or training per year to enhance knowledge, expertise, and skills in their respective fields. | 10%               |

### PERFORMANCE ASSESSMENT OF COMMITTEES UNDER THE BOARD OF COMMISSIONERS AND ITS BASIS

The Board of Commissioners ensures that all committees under its oversight, namely the Audit Committee, the Risk Monitoring Committee, and the Remuneration and Nomination Committee, have performed their duties and functions effectively and in compliance with applicable regulations. The performance of these committees is assessed annually by the Board of Commissioners as part of its commitment to maintaining effective oversight and strengthening GCG practices.

The performance assessment criteria for the committees include, among others:

1. Conduct of committee meetings and the implementation of committee work plans.
2. Attendance levels and active participation of members in committee meetings.
3. Submission of review results and recommendations to the Board of Commissioners.

4. Timely preparation and submission of committee reports.

Throughout 2025, the Board of Commissioners assessed that all committees demonstrated good overall performance. This assessment was based on an evaluation of the execution of their duties, the effectiveness of their roles in supporting the Board of Commissioners' supervisory function, and their contributions to enhancing governance, risk management, and regulatory compliance.

#### Audit Committee

Throughout 2025, the Audit Committee has carried out its duties and responsibilities well. The Audit Committee has held 22 (twenty-two) meetings and carried out its duties, including:

1. Reviewed the implementation of audits by internal and external auditors, and supervising the implementation of follow-up actions by the Board of Directors on the auditor's findings;
2. Provided Recommendations for the Proposal for the Appointment of a Public Accounting Firm (KAP) and Public Accountant (AP) for the

Audit of the Annual Financial Report of PT Bank Syariah Indonesia Tbk in 2025;

3. Provided the recommendation to the Board of Commissioners regarding the approval of the Audit Service Honorarium for BSI's Financial Statements for the 2025 Fiscal Year;
4. Provided the recommendation to the Board of Commissioners regarding the approval of Published Financial Statements throughout 2025.
5. Monitored and evaluated the implementation of the Anti-Fraud Strategy throughout 2025.
6. Evaluated the realization of the implementation of Internal Control Over Financial Reporting (ICOFR) throughout 2025.
7. Conducted specific monitoring and evaluation of strategic issues throughout 2025, such as:
  - a. Evaluation of the development of the Islamic Ecosystem (ISE) program
  - b. Evaluation of the progress of Information Technology development

## BOARD OF COMMISSIONERS

- c. Evaluation of readiness for Eid al-Fitr (operations and IT)
- d. Evaluation of the implementation of sharia combined assurance in 2025
- e. Evaluation of the development of the Operational Excellence program
- f. Evaluation of the development of data analytics initiatives
- g. Evaluation of the implementation of customer care
- h. Evaluation of readiness for the 2025 year-end holiday and the beginning of 2026
- 8. Jointly with the Risk Monitoring Committee, discussed and evaluated:
  - a. Monthly Performance Evaluation at the Board of Commissioners and Board of Directors Meeting.
  - b. Approval of the Bank Business Plan (RBB) and revisions to the RBB at the Joint Meeting of the Board of Commissioners, Board of Directors, and Sharia Supervisory Board.
- a. Report on the Duties & Responsibilities of the Director overseeing Compliance / Compliance Report,
- b. Integrated Compliance Report & Integrated Governance Report,
- c. Anti-Money Laundering and Counter-Terrorism Financing (AML-CFT) Report;
- 5. Monitoring the Recovery & Resolution Plan reporting.
- 6. Overseeing risk management related to corporate actions or other initiatives, such as proposals for Threshold Limits (Board of Directors' authority requiring Board of Commissioners' approval).
- 7. Overseeing the implementation of the 2026 Sustainable Finance Action Plan.
- 8. Supervising and evaluating:
  - a. The Bank's Human Resource Development Strategy.
  - b. The Retail Banking Strategy incl. Bullion Bank.
  - c. The Consumer Banking Strategy.
  - d. The Treasury & International Banking Strategy.
  - e. The Wholesale Banking Strategy incl. Handling High Risk Account Customer.
  - f. The Product Development and Marketing Communication.
  - g. The Network Development Strategy.
- 9. Discuss with Chief Economist and evaluation

**Remuneration and Nomination Committee**

Throughout 2025, the Remuneration and Nomination Committee has carried out its duties and responsibilities well. The Remuneration and Nomination Committee has held 4 (four) meetings and carried out its duties, including:

1. Proposal for the 2025 Management Remuneration and 2024 Performance Bonus (Tantiem).
2. Recommendation for Candidates for the Company's Management.
3. Reviewed the Bank's Human Resources Policy.

**Risk Monitoring Committee**

Throughout 2025, the Risk Monitoring Committee has carried out its duties and responsibilities well. The Risk Monitoring Committee has held 25 (twenty five) meetings and carried out its duties, including:

1. Conducted an evaluation of the suitability between risk management policies and the implementation of Bank policies;
2. Conducted monitoring and evaluation of the implementation of the duties of the Risk Management Committee and risk management work units;
3. Oversaw and evaluated the Bank's Financial Soundness Report on a semi-annual basis;
4. Supervised and evaluated Compliance Reports, including:

# REMUNERATION AND NOMINATION OF THE BOARD OF DIRECTORS, BOARD OF COMMISSIONERS, AND SHARIA SUPERVISORY BOARD

## **GUIDELINES FOR THE NOMINATION OF THE BOARD OF DIRECTORS, BOARD OF COMMISSIONERS, AND SHARIA SUPERVISORY BOARD**

One of the duties of the Remuneration and Nomination Committee is to establish a nomination system for members of the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board of the Company. This system forms part of the Company's GCG policy and serves as a guideline for the Board of Commissioners and the GMS in determining the nomination of members of the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board.

### **1. Basic Principles**

#### **a. Eligibility Requirements**

Candidates for the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board must meet the requirements stipulated in the Company's Articles of Association and prevailing laws and regulations, including the Limited Liability Companies Law, the Sharia Banking Law, the Capital Market Law, and other applicable provisions.

#### **b. Nomination and Submission of Candidates**

Candidates for the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board are proposed through a selection process that takes into account the eligibility requirements referred to above.

### **2. Selection Procedures**

- a. The Remuneration and Nomination Committee identifies candidates who meet the established criteria.
- b. Based on the recommendations of the Remuneration and Nomination Committee, the Board of Commissioners submits the proposed candidates for the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board to the General Meeting of Shareholders.
- c. The selection process is conducted prior to the end of the term of office, upon the request of the Board of Commissioners, or in the event of a vacancy.

# IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

## BSI REMUNERATION POLICY

BSI's remuneration policy is implemented in accordance with the prevailing regulations, namely:

- OJK Regulation No. 59/POJK.03/2017 on Governance in the Provision of Remuneration for Sharia Commercial Banks and Sharia Business Units and its appendices;
- Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia No. PER-04/MBU/06/2020 on the Amendment to the Regulation of the Minister of State-Owned Enterprises No. PER-03/MBU/2012 on Guidelines for the Appointment of Members of the Board of Directors and Members of the Board of Commissioners of State-Owned Enterprise Subsidiaries;
- Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia No. PER-3/MBU/03/2023 on the Organs and Human Resources of State-Owned Enterprises;
- Mandiri Subsidiaries Management Principles Guideline (MSMPG) 2024; and
- The Bank's Articles of Association.

BSI's remuneration policy consistently applies the principles of good corporate governance applicable to the Bank as a sharia bank and a publicly listed company, prioritising the implementation of the prudential principle and compliance with sharia principles, while taking into account fairness within the industry in providing balanced and measurable compensation in line with the performance of each Bank employee. This is intended to encourage prudent risk-taking and employee productivity, thereby supporting the achievement of the Bank's business targets in an optimal, sustainable, and long-term manner in line with the Bank's vision and mission.

The formulation of the remuneration policy takes into account:

- The creation of effective risk management;
- The Bank's financial stability;
- The adequacy and strengthening of the Bank's capital;
- Short-term and long-term liquidity needs;
- The Bank's potential future income; and
- Compliance with sharia principles.

The remuneration policy includes:

- A remuneration structure covering remuneration scales based on levels and positions, as well as remuneration components in the form of:
  - Salary;
  - Honorarium;
  - Incentives; and/or
  - Fixed and/or variable allowances.
- Methods and mechanisms for determining remuneration. In accordance with the Bank's Articles of Association, the determination of remuneration for the Board of Commissioners, Board of Directors, and Sharia Supervisory Board is decided by the General Meeting of Shareholders, taking into account the recommendation of the Bank's Remuneration and Nomination Committee.

## Monitoring of Remuneration Policy Implementation

In monitoring the implementation of the remuneration policy, the Bank periodically carries out the following activities:

- Evaluating salary scales and bonuses on a periodic basis to ensure that the Bank's remuneration system remains competitive with the market.
- Reviewing employee benefit facilities based on implementation data obtained from relevant work units and market data derived from surveys conducted by competent and independent institutions appointed by the Bank, using benchmarks directly against peer institutions.
- Holding coordination forums with relevant work units to ensure these units have a proper understanding of employee benefit facilities, so that the implementation of such benefits is carried out in accordance with applicable provisions.
- Monitoring organisational adjustments and position grading, employee development programs, and workforce planning, and ensuring their implementation complies with Human Capital provisions.

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

- e. Monitoring the entire employee fulfilment process, starting from candidate sourcing, selection, and confirmation through to placement, and ensuring compliance with Human Capital provisions.
- f. Monitoring employee training and development.
- g. Monitoring the implementation of industrial relations within the Bank.
- h. Monitoring the reward system.
- i. Monitoring talent management and succession planning.

### Scope of the Remuneration Policy Based on Specific Criteria

To create alignment and encourage improved employee motivation in light of differences in work locations, risk levels, and job capacities, the Bank measures and determines its remuneration policy by prioritising the prudential principle through benchmarking against peers.

Variable income is a component of employee remuneration received in varying amounts based on specific criteria.

Variable income consists of the following:

- a. Non-Fixed Allowances  
Non-fixed allowances are cash allowances granted to certain employees, calculated based on position, nature of work, and/or work location. These allowances may change (increase or decrease) or cease to be provided if the employee no longer holds the relevant position or is no longer assigned to the respective work location. These allowances consist of:
  - 1) Position Allowance  
A position allowance is granted to positions with specific characteristics due to particular expertise, responsibilities, or business risks undertaken, which are not taken into account in job grading considerations or in the annual guaranteed cash positioning against the market.
  - 2) Communication Allowance  
A communication allowance is provided as a subsidy where the job requires intensive communication with external parties using personal communication devices.
  - 3) Location Allowance  
A location allowance is granted based on geographical considerations reflecting differences in living costs.

#### 4) Transportation Allowance

A lump-sum allowance granted to Area Segment and Business Manager positions to support mobility in carrying out their duties. This allowance ceases if the employee no longer holds the relevant position.

#### b. Bonus

A bonus represents the Bank's appreciation for performance achievements or specific conditions. Performance bonuses are awarded in recognition of employee performance achievements over a certain period. Bonuses are determined based on individual employee performance, work unit performance, and the Bank's overall performance, taking into account the Bank's business strategy and financial capacity.

#### c. Incentives

Incentives represent the Bank's appreciation for achieving sales and/or operational income targets within certain limits and/or criteria. Incentives consist of:

##### 1) Regular Incentives

Incentives granted on a regular basis in cash form based on the achievement of sales per unit/product or collection results in accordance with the applicable incentive schemes.

##### 2) Long-Term Incentives

Incentives granted over a certain period (more than one year) to employees who are able to increase the Company's value over a defined period, such as share ownership options or other long-term incentive schemes.

### Risk-Linked Remuneration

By prioritising the prudential principle, the Bank determines performance measurement methods and risk types in setting variable remuneration, taking into account the scale and complexity of the Bank's business.

The granting of variable remuneration to the Board of Directors and the Board of Commissioners takes into consideration performance, namely management performance, employee performance, business unit performance, and the Bank's overall performance, as well as the risks faced by the Bank.

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

In determining risks linked to variable remuneration, the Bank considers the most influential risks in its business activities as principal risks, in reference to the regulations of the Financial Services Authority governing the assessment of the soundness level of Islamic commercial banks and sharia business units.

The Bank provides variable remuneration in the form of shares or share-based instruments issued by the Bank, representing a certain percentage of variable remuneration. The percentage of remuneration granted in the form of shares or share-based instruments may differ across position levels, taking into account, among other factors, the roles and responsibilities of the respective parties in managing the Bank.

The risk-linked remuneration policy is intended to:

1. Prevent the emergence of moral hazard and prioritize prudential principles in bank management.
2. Maintain the soundness of the Bank on an individual basis.
3. Mitigate excessive risk-taking by decision-makers.

Furthermore, there is an implementation of deferred variable remuneration (Malus) or the recovery of variable remuneration that has already been paid (Clawback) to managerial personnel classified as Material Risk Takers (MRT), in accordance with the provisions of Article 26 of POJK No. 45/POJK.03/2015 concerning the Implementation of Governance in the Provision of Remuneration for Commercial Banks.

### Positions and Number of Material Risk Takers (MRT)

All members of the Board of Commissioners and the Board of Directors of BSI are Material Risk Takers. The number of members of the Board of Directors and the Board of Commissioners serving during the 2025 financial year was 18 individuals.

### Name of External Consultant and Consultant Engagement Related to the Remuneration Policy

In 2025, the Bank did not engage external consultants in the formulation of its remuneration policy. The Bank's remuneration policy was developed in reference to prevailing regulations in the banking and capital market sectors, as well as the Bank's internal provisions as a subsidiary of Bank Mandiri, while also taking into account internal market analysis conducted by the Bank.

## POLICIES AND PROCEDURES OF REMUNERATION FOR THE BOARD OF COMMISSIONERS, BOARD OF DIRECTORS, AND SHARIA SUPERVISORY BOARD

One of the duties of the Remuneration and Nomination Committee is to establish a remuneration system for members of the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board. This system forms part of the Company's GCG policy and serves as a guideline for the Board of Commissioners and the GMS in determining remuneration.

### 1. Basic Principles

- a. The remuneration policy is a key factor in attracting and retaining competent and qualified employees, Executive Officers, members of the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board.
- b. In determining remuneration for employees, Executive Officers, the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board, the Committee considers, among others:
  - 1) Benchmarking of remuneration against comparable industry peers.
  - 2) The size and complexity of the Company's operations.
  - 3) Remuneration components consisting of salary/honorarium and standardized benefits, including religious holiday allowance (THR), annual leave, official residence, official vehicle, health facilities, utilities, and other benefits. Performance-based remuneration includes bonuses/incentives for employees and the Sharia Supervisory Board, and tantiem for the Board of Directors and the Board of Commissioners.
  - 4) Remuneration policies must at least take into account:
    - a) Financial performance and compliance with the establishment of provisions as required under prevailing regulations.
    - b) Individual performance to ensure fairness between performance outcomes and rewards.
      - a) Reasonableness compared to peer groups.
      - b) The Bank's long-term targets and strategic objectives.

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

### 2. Remuneration Components

Remuneration components consist of:

- a. Short-Term Remuneration, comprising:
  - 1) Salary and honorarium (Board of Commissioners and Sharia Supervisory Board).
  - 2) Benefits.
  - 3) Bonuses/incentives (employees and Sharia Supervisory Board) and tantiem (Board of Directors and Board of Commissioners).
- b. Long-Term Remuneration  
Remuneration components designed to support the Company's going concern, comprising:
  - 1) Stock Option Plans.
  - 2) Post-employment benefits.

### 3. Remuneration Determination Procedures

- a. The Committee submits proposals or recommendations on appropriate remuneration policies to the Board of Commissioners.
- b. Proposals or recommendations on remuneration for the Board of Directors, the Sharia Supervisory Board, and the Board of Commissioners, after review by the Board of Commissioners, are submitted to the GMS.
- c. Proposals or recommendations on remuneration for employees and Executive Officers are submitted by the Committee to the Board of Commissioners and subsequently conveyed to the Board of Directors.
- d. The Committee conducts a review of the remuneration policy at least once a year, whether requested or not by the Board of Commissioners.

### Remuneration Determination Indicators

In determining the structure and level of remuneration for the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board, to be proposed to the Board of Commissioners, the Remuneration and Nomination Committee considers the following key factors:

- a. Remuneration practices prevailing in the banking industry and the Bank's scale on a peer-to-peer basis within the national banking industry in general and the Islamic banking industry in particular;
- b. The duties, responsibilities, and authorities of each member of the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board, as linked to the achievement of the objectives and performance of the Issuer or Public Company;
- c. The achievement of the Bank's performance targets on a bank-wide basis;
- d. The achievement of performance targets or Key Performance Indicators (KPIs) of each member of the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board;
- e. The risks and complexity of duties of the Sharia Supervisory Board in accordance with the roles and responsibilities of its members;
- f. Proportionality of remuneration for the Board of Commissioners by taking into account the comparison of risks and complexity of duties between the Sharia Supervisory Board and the Board of Commissioners; and
- g. The balance between fixed and variable components of remuneration.

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

The structure, policy, and level of remuneration as referred to above apply for one financial year period in accordance with the GMS resolution. The Remuneration and Nomination Committee is required to evaluate the remuneration policy at least once a year and to resubmit the proposed structure and level of remuneration for the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board to the GMS at each Annual General Meeting of Shareholders of the Bank.

### Structure and Nominal Amount/Components of Remuneration

The remuneration policy and other facilities (remuneration package) for the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board are determined by the Annual GMS, among others:

- a. Remuneration, being income in financial form (non-cash), including salary, net allowances, share-based compensation, bonuses, and other forms of remuneration.
- b. Other facilities in non-financial form (in-kind) for the Board of Commissioners and the Board of Directors, including:
  1. Religious Holiday Allowance (THR)
  2. Post-employment benefits
  3. Housing and utility allowances
  4. Official vehicle facilities and transportation allowance
  5. Health facilities
  6. Club membership and professional association membership
  7. Communication expense facilities
  8. Non-inventory office facilities
  9. Business travel facilities
  10. Legal assistance facilities
  11. Leave entitlements
- c. Other facilities in non-financial form (in kind) for the Sharia Supervisory Board, including:
  - a. Religious Holiday Allowance (THR)
  - b. Post-employment benefits
  - c. Health facilities
  - d. Business travel facilities

### EMPLOYEE REMUNERATION POLICY

These governance principles are also applied in the provision of remuneration for all Bank employees, as stipulated in the Human Capital Standard Operating Procedures of BSI (SPO HC).

Unlike the remuneration policy for management, which requires a resolution of the GMS, the employee remuneration policy is determined by the Board of Directors with oversight from the Board of Commissioners and the Sharia Supervisory Board.

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

In accordance with the SPO HC, the Remuneration and Nomination Committee also plays a role in providing recommendations on the overall employee remuneration policy to be submitted to the Board of Commissioners, taking into account:

- Financial performance;
- Fulfillment of the establishment of Allowance for Impairment Losses;
- Fairness in comparison with peer Head Office work units; and
- Consideration of the Bank's long-term targets and strategies.

Information related to employee remuneration is presented in the Remuneration subsection under the Human Capital chapter of this Annual Report.

### VARIABLE REMUNERATION

The Bank also provides variable compensation, including Location Allowances, allowances for certain positions, Appearance Allowances for frontliner employees, Overtime Compensation, performance achievement bonuses, sales incentives, retention programs, and Long-Term Incentive programs in the form of shares. Specifically, Independent Commissioners receive remuneration in cash in accordance with the provisions of OJK Regulation No. 59/POJK.03/2017. To support official duties, the Bank provides official facilities for employees, including official housing, reimbursement of utility expenses, telephone allowances, and leased official vehicles. To support employees' needs for home ownership, vehicles, and other personal needs, the Bank provides Employee Welfare Loan facilities.

### Deferral of Variable Remuneration

Variable remuneration is subject to deferral under the following provisions:

- For parties designated as Material Risk Takers (MRT), a portion of their variable remuneration shall be deferred.
- The minimum deferral for MRT who are members of the Board of Directors and Board of Commissioners is 10% of their variable remuneration.

### Establishment of Deferral Policy

The implementation of a deferral (malus) or recovery (clawback) policy shall apply under the following circumstances:

- Proven Individual Fraud.
- Restatement of the Company's financial statements that form the basis for determining the variable remuneration.
- The Company's risk rating in the last Quarter prior to the payment of deferred variable remuneration is rated 4 (Moderate to High) or lower.

### Number of Recipients and Total Amount of Unconditionally Guaranteed Variable Remuneration

During 2025, there were no recipients and no total amount of variable remuneration that was unconditionally guaranteed to be granted by the Bank to prospective members of the Board of Directors, prospective members of the Board of Commissioners, and/or prospective employees during the first one (1) year of employment, as referred to in OJK Regulation No. 59/POJK.03/2017.

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

### Total Amount of Deferred Variable Remuneration

| MRT                    | Deferred Variable Remuneration |                | Information                                                                                                             |
|------------------------|--------------------------------|----------------|-------------------------------------------------------------------------------------------------------------------------|

| Board of Commissioners | -                              | 4,354,744,000  | Total blocked shares x closing trading price at the end of 2025 (as of December 31, 2025): 1,952,800 shares x IDR 2,230 |
| Board of Directors     | -                              | 16,964,976,990 | Total blocked shares x closing trading price at the end of 2025 (as of December 31, 2025): 7,607,613 shares x IDR 2,230 |

### Total Amount of Deferred Variable Remuneration Paid During 1 (One) Year

| MRT                    | Deferred Variable Remuneration |             |
|------------------------|--------------------------------|-------------|
|                        | Cash                           | Share (IDR) |
| Board of Commissioners | -                              | 2,310,420   |
| Board of Directors     | -                              | 8,262,417   |

### SHARE OPTION PROGRAM FOR THE BOARD OF DIRECTORS, BOARD OF COMMISSIONERS, SHARIA SUPERVISORY BOARD, AND EXECUTIVE OFFICERS

BSI did not implement or issue any share option program for the Board of Directors, the Board of Commissioners, or employees throughout 2025.

### HIGHEST AND LOWEST SALARY RATIOS

1. Ratio of the highest and lowest salaries of the Board of Directors: 1.6:1
2. Ratio of the highest and lowest salaries of the Board of Commissioners: 1.1:1
3. Ratio of the highest and lowest salaries of the Sharia Supervisory Board (DPS): 1.46:1
4. Ratio of the highest and lowest employee salaries: 53.0:1
5. Ratio of the highest salary of the Board of Directors to the highest employee salary: 1.68:1

## IMPLEMENTATION OF GOVERNANCE IN PROVIDING REMUNERATION FOR SHARIA COMMERCIAL BANKS

### RETIREMENT SEVERANCE

In 2025, there were employees whose employment ended due to reaching retirement age. The Bank paid severance in accordance with the applicable laws and regulations, with the details as follows:

| No. | Total Nominal Severance Paid per Person in 1 (one) Year | Number of Employee |
|-----|---------------------------------------------------------|--------------------|
| 1   | >1 Billion                                              | 4                  |
| 2   | >500 Million – 1 Billion                                | 7                  |
| 3   | <500 Million                                            | 84                 |

Furthermore, in 2025, there were employees whose employment ended due to Bank policies such as mergers, consolidations, acquisitions, and streamlining of the Bank's organizational structure. The severance payments were made in reference with applicable laws and regulations, with details as follows:

| No. | Total Nominal Severance Paid per Person in 1 (one) Year | Number of Employee |
|-----|---------------------------------------------------------|--------------------|
| 1   | >1 Billion                                              | -                  |
| 2   | >500 Million – 1 Billion                                | -                  |
| 3   | <500 Million                                            | -                  |

# BOARD OF DIRECTORS, BOARD OF COMMISSIONERS, AND SHARIA SUPERVISORY BOARD DIVERSITY POLICY

BSI regulates diversity for the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board through its Articles of Association and implements this policy in compliance with prevailing regulations on Sharia banking, capital markets, and requirements applicable to SOE subsidiaries. The policy ensures that each member possesses the knowledge, expertise, and competencies required by the Bank.

In its implementation, BSI refers to relevant governance regulations and guidelines, including those issued by the Financial Services Authority, the Ministry of SOEs, and the Mandiri Subsidiaries Management Principles Guideline (MSMPG) 2024.

The composition of the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board reflects a balanced mix of individual characteristics, including expertise, knowledge, professional experience, educational

background, age, gender, integrity, and understanding of Sharia banking, to support effective management and oversight.

During the nomination process, the Remuneration and Nomination Committee identifies the required diversity profile before submitting recommendations to the Shareholders and the GMS. For Sharia Supervisory Board candidates, recommendations from the National Sharia Council of the Indonesian Ulema Council are also obtained.

The current composition of BSI's Board of Directors, Board of Commissioners, and Sharia Supervisory Board has met the established diversity criteria. In 2025, this diversity is reflected in a balanced combination of age, educational background, professional experience, and gender representation, as presented in the table below:

## Diversity of the Board of Commissioners Composition

| Aspect                         | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Education                      | <ul style="list-style-type: none"><li>Members of the Board of Commissioners have diverse educational backgrounds, covering Law, Economics, Accounting, Finance, Management, Public Administration, Engineering, Medicine, Islamic Studies, Communication Studies, and Computer Science.</li><li>Academic qualifications range from diploma and bachelor's degrees to master's and doctoral degrees from leading national and international universities.</li></ul>                                                                                                                             |

### PURCHASE/SALE OF SHARES OF THE BOARD OF COMMISSIONERS AND DIRECTORS

Any share ownership transactions carried out by members of the Board of Directors and the Board of Commissioners are reported to the Regulator in accordance with OJK Regulation No. 4 of 2024 on the Reporting of Share Ownership or Any Changes in Share Ownership of Public Companies and the Reporting of Share Pledging Activities. Members of the Board of Directors and/or the Board of Commissioners who hold voting shares, whether directly or indirectly, are required to disclose such ownership and any changes in voting share ownership of the Bank to the OJK.

Reports on share ownership or any changes thereto are submitted through the OJK's electronic reporting system and must be filed no later than 3 (three) business days from the occurrence of the share ownership or any change in the Bank's voting share ownership.

# ORGAN AND COMMITTEES UNDER THE BOARD OF COMMISSIONERS

As part of its Good Corporate Governance implementation, Bank Syariah Indonesia (BSI) supports the Board of Commissioners' oversight function through committees established under the Board of Commissioners. These committees are formed to enhance the effectiveness of supervision and to support the provision of strategic guidance to Management.

The establishment of committees under the Board of Commissioners refers to applicable POJK and SEOJK regulations, including POJK No. 55/POJK.04/2015, POJK No. 34/POJK.04/2014, POJK No. 17/POJK.03/2023, and SEOJK No. 14/SEOJK.03/2025.

In performing its oversight role, the Board of Commissioners of BSI is currently supported by 3 (three) committees, namely the Audit Committee, the Remuneration and Nomination Committee, and the Risk Monitoring Committee. These committees provide in-depth reviews, recommendations, and inputs to assist the Board of Commissioners in carrying out comprehensive and effective supervision.

In accordance with SEOJK No. 14/SEOJK.03/2025, the Board of Commissioners may also establish additional committees, subject to the Bank's needs and business complexity, to further strengthen oversight.

Each committee is supported by independent parties to safeguard objectivity and integrity in decision-making. BSI ensures compliance with independence requirements through document verification, including integrity statements, while regulating concurrent positions of committee chairs and members in line with applicable provisions.

# COMMITTEE AUDIT

## Purpose of Establishment

The Audit Committee is established to support the Board of Commissioners by providing independent opinions on matters requiring the Board's attention, in accordance with GCG principles and applicable laws and regulations. The Audit Committee oversees the effectiveness of internal control systems, the internal audit function, and the financial reporting process to ensure that the Bank is managed with transparency, accountability, responsibility, independence, and fairness.

## Legal Basis for Establishment

The Company's Audit Committee is established in compliance with:

- OJK No. 17 of 2023 on Governance Practices for Commercial Banks;
- SEOJK No. 14/SEOJK.03/2025 on Governance Practices for Commercial Banks.
- OJK Regulation No. 55/POJK.04/2015 on the Establishment and Work Guidelines of Audit Committees; and
- The Articles of Association of PT Bank Syariah Indonesia Tbk.

## Audit Committee Membership

Referring to Bank Indonesia Regulation No. 11/33/PBI/2009 dated 7 December 2009 on the Implementation of Good Corporate Governance for Sharia Commercial Banks and Sharia Business Units, particularly Articles 36, 38, 42, and 43, as well as in reference with SEOJK No. 14/SEOJK.03/2025 – VI.4:

1. The Audit Committee shall consist of at least: 1 (one) Independent Commissioner serving as Chair and member, 1 (one) Independent Party with expertise in finance or accounting, and 1 (one) Independent Party with expertise in law or (Sharia) banking.
2. Independent Commissioners and Independent Parties as referred to in point 1 shall constitute at least 51% of the total Audit Committee members.
3. An Audit Committee member who is an Independent Commissioner shall be appointed as Chair of the Audit Committee. If more than 1 (one) Independent Commissioner serves as a member of the Audit Committee, one of them shall be appointed as Chair.
4. Members of the Board of Directors are prohibited from serving as members of the Audit Committee.

As a Sharia Commercial Bank, BSI may also appoint one (1) member of the Sharia Supervisory Board as a member of the Audit Committee. Independent Parties serving on the Audit Committee are deemed competent when supported by relevant professional certifications and a minimum of five (5) years of work experience in finance, accounting, law, banking, or Sharia banking, as applicable. Through this composition, BSI ensures that the Audit Committee possesses adequate expertise to effectively support the Board of Commissioners' oversight function.

## Membership Requirements

1. Audit Committee members must have high integrity, good ethics and morals, and adequate capability, knowledge, and experience in accordance with their educational background, and be able to communicate effectively.
2. Have sufficient knowledge to read and understand financial statements.
3. Have adequate knowledge of regulations related to Sharia banking activities.
4. Must not be a person from a Public Accounting Firm that has provided audit and non-audit services to Bank Syariah Indonesia within the last 1 (one) year prior to appointment as an Audit Committee member.
5. Must not hold shares in Bank Syariah Indonesia, either directly or indirectly.
6. Must not have any affiliated relationship with Bank Syariah Indonesia, members of the Board of Commissioners, members of the Board of Directors, or the controlling shareholders of Bank Syariah Indonesia.
7. Must not have any business relationship, either directly or indirectly, with Bank Syariah Indonesia.

## Committee Membership Composition

The Audit Committee of BSI was appointed pursuant to the Board of Directors' Decree No. KEP:05/440-KEP/DIR on the Amendment of Audit Committee Membership of PT Bank Syariah Indonesia Tbk, effective 19 June 2025, as follows:

## COMMITTEE AUDIT

**Audit Committee Composition as of 31 December 2025**

| Name                     | Position in the Committee      | Position in the Company  | Period      |
|--------------------------|--------------------------------|--------------------------|-------------|
| Felicitas Tallulembang   | Chairman concurrently a Member | Independent Commissioner | 2024 - 2027 |
| Nizar Ahmad Saputra      | Member                         | Independent Commissioner | 2025 - 2028 |
| Muhammad Syafii Antonio* | Member                         | Independent Commissioner | 2025 - 2028 |
| Addin Jauharudin         | Member                         | Independent Commissioner | 2025 - 2028 |

| Mahfud Sholihin          | Member                         | Independent Party        | 2024 - 2027 |

\*) effective upon obtaining approval from OJK on fit and proper test

**Audit Committee Tenure**

The term of office of Audit Committee members originating from the Board of Commissioners shall not exceed the term of the Board of Commissioners as stipulated in the Articles of Association, and they may be reappointed for 1 (one) subsequent term. Meanwhile, Audit Committee members originating from Independent Non-Commissioner parties may serve for a maximum term of 3 (three) years and may be reappointed for up to 2 (two) additional years, without prejudice to the Board of Commissioners' authority to dismiss them at any time.

**Audit Committee Profile**

The profile of the Audit Committee members as members of the Board of Commissioners is presented in Chapter 3 Profile of the Board of Commissioners in this Annual Report. The following are profile of the Audit Committee members as non-Commissioner Independent Parties.

## COMMITTEE AUDIT

### Audit Committee Charter

The Company has established an Audit Committee Charter through the Board of Commissioners' Decree of PT Bank Syariah Indonesia Tbk No. 04/KEP-KOM/002/2024 on the Guidelines and Rules of Procedure (Charter) of the Audit Committee of PT Bank Syariah Indonesia Tbk, dated July 1, 2024. This Charter represents an update to the previous Audit Committee Charter as stipulated in Decree No. 01/003-SKB/Dirkom dated February 1, 2021. The Audit Committee Charter serves as the primary reference for carrying out the Audit Committee's duties and responsibilities in a transparent, competent, objective, and independent manner, ensuring accountability and acceptance by all stakeholders. In general, the Charter outlines the roles, authorities, responsibilities, composition, and working procedures of the Audit Committee:

1. General Objective of Establishment
2. Authority
3. Membership
4. Membership Criteria
5. Duties and Responsibilities
6. Employment Relations
7. Meeting
8. Reporting
9. Term of Office and Compensation
10. Bank Confidentiality
11. Closing

### Audit Committee Duties and Responsibilities

The Audit Committee is tasked and responsible for monitoring the adequacy of internal control system, adequacy and accuracy of financial reporting process, and effectiveness of internal and external auditors. The Committee also identifies matters requiring attention of the Board of Commissioners, prepares analyses related to its oversight function, and performs other duties as assigned by the Board of Commissioners, including the following:

1. Financial Statements
  - a. Monitoring and evaluating financial information to be issued by PT Bank Syariah Indonesia Tbk, including financial statements, projections, and other financial disclosures.
  - b. Conducting an in-depth review of the Company's Work Plan and Budget and the Long-Term Plan.
  - c. Conducting an in-depth review of interim and annual financial statements, whether audited or unaudited.
2. Internal Control
 

Monitoring and evaluating the effectiveness of implementation and audit results conducted by the Internal Audit Unit and External Auditors on the application of the internal control system.

  - a. Reviewing and ensuring that PT Bank Syariah Indonesia Tbk has an established internal control system in accordance with prevailing practices.
  - b. Conducting an in-depth review of examination reports issued by the Internal Audit Unit and External Auditors examining PT Bank Syariah Indonesia Tbk to ensure that internal controls have been properly implemented.
  - c. Holding periodic meetings with work units related to the internal control system and its implementation.
  - d. Monitoring and evaluating the implementation of follow-up actions by the Board of Directors on audit findings and supervisory results from the Financial Services Authority, the Internal Audit Unit, the Sharia Supervisory Board, and External Auditors.
  - e. Reporting periodically on the results of its monitoring and providing input on matters that require the attention of the Board of Commissioners.
3. Conducting an in-depth review of significant changes in balance sheet and profit or loss accounts.
4. Conducting an in-depth review of other asset and liability accounts in detail.
5. Conducting an in-depth review of the realization of the Company's Work Plan and Budget and examining items with significant variances.
6. Holding periodic meetings with relevant work units and the External Auditor of PT Bank Syariah Indonesia Tbk to obtain additional information and clarification on accounting and financial matters.
7. Reporting periodically on the results of its monitoring activities and providing input on matters that require the attention of the Board of Commissioners.

## COMMITTEE AUDIT

## 3. Internal Audit

Monitoring and evaluating the implementation of duties of the Internal Audit Unit.

- a. Evaluating the annual work plan of the Internal Audit Unit.
- b. Conducting an in-depth review of all significant findings resulting from internal audit examinations.
- c. Evaluating the audit program and scope in relation to the implementation of the annual work plan of the Internal Audit Unit.
- d. Evaluating the implementation of audits conducted by the Internal Audit Unit to ensure that the audit program has been carried out with the appropriate scope.
- e. Holding periodic meetings with the Internal Audit Unit to discuss significant audit findings and to provide input deemed necessary in the conduct of audits by the Internal Audit Unit.
- f. Requesting assistance from the Internal Audit Unit to conduct special audits/ investigations if there are audit findings and/or information related to violations of laws and applicable regulations.
- g. Reporting periodically on the results of its monitoring and providing input on matters that require the attention of the Board of Commissioners.

## 4. External Audit

- a. Conducting an in-depth review of all significant findings from the audits performed by the External Auditor and other auditor institutions.
- b. Reviewing the name and/or reputation of the Public Accounting Firm (KAP) to be invited to participate in the tender.
- c. Reviewing any potential relationships between the Public Accounting Firm to be invited to participate in the tender, including its officials and staff, and PT Bank Syariah Indonesia Tbk, which include:
  - 1) A relationship as a non-audit service provider to PT Bank Syariah Mandiri Tbk.
  - 2) A relationship as a shareholder of PT Bank Syariah Indonesia Tbk in a material or controlling amount.
  - 3) A close family relationship with key employees in the accounting and finance functions at PT Bank Syariah Indonesia Tbk.

- 4) One of the officials and/or auditors of the Public Accounting Firm invited to participate in the tender is a former key employee in the accounting and finance function at PT Bank Syariah Indonesia Tbk who left less than 1 (one) year prior.
- 5) One of the key employees in the accounting and finance function at PT Bank Syariah Indonesia Tbk is a former official/auditor of the Public Accounting Firm invited to participate in the tender who left less than 1 (one) year prior.
- d. Reviewing and ensuring that PT Bank Syariah Indonesia Tbk has standardized procedures that comply with applicable regulations in the selection of the Public Accounting Firm.
- e. Reviewing and ensuring that the selection process of the Public Accounting Firm has been conducted properly in accordance with established procedures.
- f. Reviewing the Request for Proposal and Terms of Reference submitted to the Public Accounting Firm designated as the prospective external auditor of PT Bank Syariah Indonesia Tbk.
- g. Reviewing the audit planning and scope submitted by the selected/appointed Public Accounting Firm to ensure that the audit plan and scope are in accordance with the Request for Proposal and Terms of Reference and have considered all material risks.
- h. The Audit Committee provides recommendations regarding the appointment of the Public Accountant and Public Accounting Firm to the Board of Commissioners for submission to the GMS.
- i. Conducting periodic communications with the Public Accounting Firm auditing PT Bank Syariah Indonesia Tbk to discuss matters that need to be communicated, including:
  - 1) Progress of the audit implementation.
  - 2) Significant findings.
  - 3) Changes in accounting and financial recording regulations issued by the relevant authorities.
  - 4) Adjustments arising from the audit results.
  - 5) Constraints or obstacles encountered during the audit process.

## COMMITTEE AUDIT

- j. Reporting periodically on the results of its monitoring and providing input on matters requiring the attention of the Board of Commissioners..

### Duties and Responsibilities of Audit Committee Chairman

The Chairman of the Audit Committee is tasked and responsible for:

1. Determining the annual work plan.
2. Preparing reports on the Committee's activities and matters requiring the attention of the Board of Commissioners.
3. Appointing a non-Board of Commissioners Audit Committee member or other third party as Committee Secretary to record Committee meetings and prepare the minutes of meetings.
4. Attending meetings.
5. Taking an active role and contributing to every Audit Committee meeting.

### Duties and Responsibilities of Audit Committee Members

Audit Committee members are tasked and responsible for:

1. Reviewing meeting materials in advance.
2. Attending meetings, actively participating, and contributing to all Audit Committee meeting activities.

As stipulated in the updated Audit Committee Charter, Audit Committee members are required to monitor and evaluate the following matters:

1. Audit Planning and Implementation: Monitoring follow-up actions on audit results to assess the adequacy of internal controls, including the financial reporting process.
2. Internal Control Evaluation: Evaluating the adequacy of internal controls at BSI.
3. Review of Financial Information: Reviewing financial information to be disclosed by BSI to the public and/or regulatory authorities, including financial statements and related reports.
4. Regulatory Compliance: Reviewing compliance with laws and regulations related to BSI's activities.
5. Independent Opinions: Providing independent opinions in the event of differences of opinion between management and the Public Accountant.
6. Recommendation on the Appointment of Public Accounting Firms: Providing recommendations

to the Board of Commissioners regarding the appointment of Public Accounting Firms based on independence, scope of engagement, and fees.

7. Internal Audit Examination: Reviewing the implementation of internal audit examinations and supervising the follow-up actions taken by the Board of Directors on internal audit findings.
8. Accounting and Financial Reporting Complaints: Reviewing complaints related to BSI's accounting and financial reporting processes.
9. Potential Conflicts of Interest: Reviewing and providing advice to the Board of Commissioners regarding potential conflicts of interest at BSI.

### Authorities of the Audit Committee

The Audit Committee has the authority to carry out the following:

1. Providing opinions to the Board of Commissioners regarding financial statements and/or other matters submitted by the Board of Directors.
2. Communicating with Heads of Work Units and other relevant parties within PT Bank Syariah Indonesia Tbk, as well as with the Public Accounting Firm auditing PT Bank Syariah Indonesia Tbk, to obtain information, clarification, and to request necessary documents and reports.
3. Requesting audit reports from internal auditors, external auditors, and other supervisory/auditor institutions.
4. Requesting internal and/or external auditors to conduct special audits/investigations if there are strong indications of fraud, legal violations, or breaches of applicable laws and regulations.
5. Accessing records or information relating to employees, funds, assets, and other corporate resources relevant to the performance of its duties.

### Audit Committee Education Qualifications and Professional Experience

The qualifications and professional experience of the Chairman and Members of the Audit Committee are as follows.

## AUDIT COMMITTEE MEETING

### Audit Committee Meeting Policy

Based on the Audit Committee Charter, the Audit Committee Meeting Policies include:

1. The Audit Committee meeting is held at least once in 1 (one) month.
2. The Audit Committee Meeting is considered valid if attendance is at least 51% of the total number of members including a Commissioner and an independent party.
3. The meeting shall be chaired by the Chairman of the Audit Committee or the appointed member, if the Chairman of the Audit Committee is unable to attend.
4. The decision of the Meeting is made based on consensus deliberation.
5. In the event that there is no consensus deliberation as intended, decision making is made based on the majority vote.
6. Dissenting opinions that occur in the committee meeting must be clearly stated in the minutes of meeting with the reasons for the disagreement.
7. The Audit Committee meeting must be stated in the minutes of meeting signed by all members present and well documented.

### Audit Committee Meeting Agenda

### Performance Assessment Mechanism and KPI Achievement

The performance of BSI's Audit Committee is evaluated annually by the Board of Commissioners to assess the effectiveness of its duties and responsibilities. The evaluation covers self-assessment results, work program realization, the quality of recommendations, meeting attendance and participation, and contributions to strengthening governance, internal controls, and compliance.

Throughout 2025, BSI's Audit Committee demonstrated effective performance in line with the 2025 Work Plan. KPI targets were achieved, as reflected in the successful implementation of work programs, relevant recommendations, and effective coordination with the Board of Commissioners, the Board of Directors, and relevant work units.

### Audit Committee Work Program and Implementation of Duties in 2025

The Audit Committee held 22 (twenty-two) meetings as listed in the Audit Committee Meeting register and carried out its duties, which included the following:

1. Reviewed the implementation of audits conducted by both internal and external auditors and oversaw the follow-up actions taken by the Board of Directors on the auditors' findings.
2. Provided recommendations for the appointment of the Public Accounting Firm and Public Accountant for the Annual Financial Statement Audit of PT Bank Syariah Indonesia Tbk for the 2025 financial year.
3. Provided recommendations from the Audit Committee to the Board of Commissioners regarding the approval of audit service honorarium for BSI's Financial Statement Audit for the 2025 financial year.
4. Provided recommendations from the Audit Committee to the Board of Commissioners regarding the approval of the Quarterly Financial Statement Publications during 2025.
5. Prepared the report on the implementation of the Anti-Fraud Strategy.
6. Reviewed and approved the Annual Internal Audit Work Program as part of the oversight function over the planning and implementation of internal audit activities.
7. Reviewed and evaluated the report on the realization of the implementation of Internal Control over Financial Reporting (ICoFR) to ensure the adequacy and effectiveness of internal controls in the financial reporting process.
8. Conducted monthly performance evaluations.
9. Approved the Bank Business Plan (RBB) and its revisions.
10. Conducted visits to Area Offices/Branches to accompany the Board of Commissioners in carrying out its supervisory function, as well as observing and monitoring activities at the Area Offices/Branches and receiving inputs.

# REMUNERATION AND NOMINATION COMMITTEE

## Purpose of Establishment

The Remuneration and Nomination Committee is established by and accountable to the Board of Commissioners to support the oversight function and provide recommendations on the Company's remuneration policies and nomination processes, in accordance with applicable laws and regulations.

## Legal Basis for Establishment

The Company's Remuneration and Nomination Committee is established in compliance with:

- OJK No. 17 of 2023 on Governance Practices for Commercial Banks;
- OJK Regulation No. 59/POJK.03/2017 dated December 18, 2017 on Governance in the Provision of Remuneration for Sharia Commercial Banks and Sharia Business Unit;
- OJK Regulation No. 34/POJK.04/2014 dated December 8, 2014 on the Nomination and Remuneration Committee of Issuers or Public Companies;
- SEOJK No. 14/SEOJK.03/2025 on Governance Practices for Commercial Banks.
- The Articles of Association of PT Bank Syariah Indonesia Tbk;
- Relevant laws and regulations..

## Committee Membership

1. Members of the Remuneration and Nomination Committee must at least meet the following qualifications:
  - a. Acquire high integrity, objectivity, and ethical standards.
  - b. Acquire strong competencies, including at a minimum:
    - i. Have adequate knowledge including prevailing rules and regulations and legislation;
    - ii. A comprehensive understanding of human capital management concepts and knowledge of the Bank's remuneration and/or nomination system and succession planning.
  - c. Be able to act independently by performing duties professionally without conflicts of interest or undue influence/pressure from any parties that are inconsistent with applicable laws and regulations and sound corporate principles.

2. The Remuneration and Nomination Committee consists of at least 2 (two) Independent Commissioners, 1 (one) Commissioner as a voting member, as well as a Human Capital official of PT Bank Mandiri and the Head of the Human Capital Division serving as Committee Secretary and non-voting member.
3. The Committee is chaired by an Independent Commissioner.
4. Members of the Board of Directors are prohibited from serving as Committee members.
5. The majority of Commissioners serving as members of the Remuneration and Nomination Committee must be Independent Commissioners.
6. The Chairman of the Committee may concurrently serve as Chairman of no more than 1 (one) other committee.
7. Where necessary, the Remuneration and Nomination Committee may appoint members from external parties who are independent of PT Bank Syariah Indonesia Tbk.
8. The appointment of Committee members is determined by the Board of Directors based on the resolution of the Board of Commissioners' meeting.

## Membership Structure

The Remuneration and Nomination Committee of PT Bank Syariah Indonesia Tbk was appointed pursuant to the Board of Directors' Decree No. KEP:05/441-KEP/DIR on the Amendment of the Membership of the Remuneration and Nomination Committee of PT Bank Syariah Indonesia (Persero) Tbk, effective 19 June 2025, as follows:

## REMUNERATION AND NOMINATION COMMITTEE

### Remuneration and Nomination Committee Charter

The Company's Remuneration and Nomination Committee has established a Remuneration and Nomination Committee Charter issued through the Joint Decree (SKB) of the Board of Directors and the Board of Commissioners of BSI No. 01/001-SKB/Dirkom dated February 1, 2021 on the Establishment of the Guidelines and Rules of Procedure of the Remuneration and Nomination Committee of PT Bank Syariah Indonesia Tbk. The Charter serves as a reference for the Committee in carrying out its duties and responsibilities in a transparent, competent, objective, and independent manner, ensuring accountability and acceptance by all stakeholders.

The Remuneration and Nomination Committee Charter regulates, among others, the following matters: Background, Purpose and Objectives, Scope, Legal Basis, Organization, Code of Ethics, Duties, Authorities, Obligations and Responsibilities, Working Time/Attendance, Division of Work, Meetings and Decision-Making, Reporting, Remuneration, Knowledge Enhancement, Correspondence, Official Travel, Leave, and Work Programs.

### Remuneration and Nomination Committee Duties and Responsibilities

The Committee is tasked and responsible for carrying out the following matters:

1. Related to the remuneration function:
  - a. Providing recommendations to the Board of Commissioners regarding remuneration structure, remuneration policy and remuneration amount.
  - b. Assisting the Board of Commissioners in carrying out performance assessments in accordance with the remuneration received by each member of the Board of Directors, members of the Board of Commissioners, and/or members of the Sharia Supervisory Board.
2. Related to the nomination function:
  - a. Providing recommendations to the Board of Commissioners regarding:
    - Composition of positions of members of the Board of Directors, members of the Board of Commissioners, and/ or members of the Sharia Supervisory Board.
    - Policies and criteria required in the Nomination process.
    - Performance for evaluation policy members of the Board of Directors, members of the Board of Commissioners, and/or members of the Sharia Supervisory Board.

- b. Assisting the Board of Commissioners in assessing the performance of members of the Board of Directors, members of the Board of Commissioners, and/or members of the Sharia Supervisory Board based on benchmarks that have been prepared as evaluation material.
  - c. Providing recommendations to the Board of Commissioners regarding capacity development programs for members of the Board of Directors, members of the Board of Commissioners, and/or members of the Sharia Supervisory Board.
  - d. Providing proposals for candidates who meet the requirements as members of the Board of Directors, members of the Board of Commissioners, and/or members of the Sharia Supervisory Board, to the Board of Commissioners to be submitted to the GMS.
  - e. Providing recommendations to the Board of Commissioners regarding Independent Parties who are prospective members of the Audit Committee and Risk Monitoring Committee.
  - f. Developing capability development programs for members of the Board of Directors, members of the Board of Commissioners, and/or members of the Sharia Supervisory Board.
3. Developing concepts and analysis related to the function of the Remuneration and Nomination Committee.
  4. Assisting the Board of Commissioners in determining general Human Resources policies.
  5. Assisting the Board of Commissioners in obtaining and analyzing data on prospective Board of Directors from the talent pool of officials one level below the Directors.
  6. Assisting the Board of Commissioners in providing recommendations regarding options to the Board of Commissioners, Board of Directors, Sharia Supervisory Board and Employees, including stock options and monitoring their implementation.
  7. Have a data base and talent pool for prospective members of the Board of Commissioners, Board of Directors and Sharia Supervisory Board.

### Remuneration and Nomination Committee Authorities

1. Requesting PT Bank Syariah Indonesia Tbk. to conduct surveys according to the needs of the Remuneration and Nomination Committee.
2. Requesting necessary information from various parties both internal and external to PT Bank Syariah Indonesia Tbk.

## REMUNERATION AND NOMINATION COMMITTEE

### Remuneration and Nomination Committee Independence

In line with the Remuneration and Nomination Committee Charter, the Committee performs its duties and responsibilities in a professional and independent manner to support the Board of Commissioners in evaluating and overseeing the nomination process, the determination of remuneration, and the implementation of GCG in accordance with applicable provisions. Committee members are independent parties with no financial, management, shareholding, and/or family relationships with the Board of Commissioners, the Board of Directors, and/or controlling shareholders, and have no relationships with the Bank that could affect their independence and objectivity, thereby ensuring that oversight and evaluation functions are carried out free from conflicts of interest.

The independence qualifications of Risk Monitoring Committee members must meet the following criteria:

| Independence Aspect                                                                  | Felicitas Tallulembang | Muhadjir Effendy | Nizar Ahmad Saputra | Muhammad Syafii Antonio* | Addin Jauharudin* | Kamaruddin Amin | Teszy Mira Ekakusma |
|--------------------------------------------------------------------------------------|------------------------|------------------|---------------------|--------------------------|-------------------|-----------------|---------------------|
| Has no financial relationship with the Board of Commissioners and Directors          | √                      | √                | √                   | √                        | √                 | √               | √                   |
| Has no management relationships in the company, subsidiaries or affiliated companies | √                      | √                | √                   | √                        | √                 | √               | √                   |

## REMUNERATION AND NOMINATION COMMITTEE MEETINGS

### Remuneration and Nomination Committee Meeting Policies

- Meetings are attended by all members and, where necessary, may be attended only by members with voting rights.
- Meetings may only be held if attended by at least 51% of the total members, including one Independent Commissioner as Chair of the Committee and a Human Capital official.
- Remuneration and Nomination Committee meetings are convened as required and based on assignments from the Board of Commissioners, and at least once every 4 (four) months.
- Meetings are chaired by the Chairman of the Committee or by a member appointed by the attending members if the Chairman is unable to attend.
- Meeting decisions are made through deliberation to reach consensus. If consensus cannot be reached, decisions are made by majority vote.
- Meeting results or decisions must be documented in minutes of meeting signed by all attending members, properly archived, and submitted in writing to the Board of Commissioners.
- Any dissenting opinions arising in meetings must be clearly stated in the minutes of meeting, along with the reasons for such dissent.
- The Committee must submit reports to the Board of Commissioners for each assignment given and/or for any matters identified that require the attention of the Board of Commissioners, or at least 2 (two) times within 1 (one) year.

\*) effective upon obtaining approval from OJK on fit and proper test

### Performance Assessment Mechanism and KPI Achievement

The performance of BSI's Remuneration and Nomination Committee is evaluated periodically by the Board of Commissioners to assess the effectiveness of its duties and responsibilities. The evaluation considers the realization of the Committee's Work Plan, the quality of recommendations provided, and the effectiveness of coordination and communication with the Board of Commissioners, the Board of Directors, and relevant work units.

Throughout 2025, the Remuneration and Nomination Committee successfully implemented all programs set out in the 2025 Work Plan. KPI achievement was reflected in relevant and constructive recommendations that supported the Board of Commissioners' strategic decision-making, particularly in relation to remuneration and nomination policies. The evaluation results indicate that the Committee functioned effectively and contributed to strengthening BSI's governance and sustainable performance.

### Work Program and Implementation of Duties of the Remuneration and Nomination Committee In 2025

Throughout 2025, the Remuneration and Nomination Committee carried out its duties and responsibilities well. The Remuneration and Nomination Committee has held 4 (four) meetings and carried out its duties, including:

1. Proposed Management Remuneration and 2023 Performance Bonus;
2. Proposed Candidates for the Sharia Supervisory Board (DPS) of BSI in 2024;

## REMUNERATION AND NOMINATION COMMITTEE

3. Recommendations for Candidates for Company Management.
4. Discussion on Human Capital Policy

### Remuneration of Members of the Remuneration and Nomination Committee

The honorarium for members of the Remuneration and Nomination Committee originating from the Board of Commissioners forms part of the honorarium of the Board of Commissioners as a whole, and therefore no separate honorarium is provided.

## BOARD OF DIRECTORS SUCCESSION POLICY

### Basic Principles

1. Requirements for the Board of Directors, Board of Commissioners, and Sharia Supervisory Board.
2. Candidates for members of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board must meet the applicable statutory requirements such as the Limited Liability Company Law, the Sharia Banking Law and the Capital Market Law as well as other provisions.
3. Nomination and Submission of Candidates for Directors, Board of Commissioners and Sharia Supervisory Board Candidates for members of the Board of Directors, Board of Commissioners and Sharia Supervisory Board are submitted through a selection process by taking into account the requirements above.

### Selection Procedure

- a. The Remuneration and Nomination Committee identifies candidates who meet the criteria.
- b. The Board of Commissioners submits, based on the recommendations of the Remuneration and Nomination Committee, proposals for candidates for the Board of Directors, Board of Commissioners and Sharia Supervisory Board to the GMS.
- c. The selection is carried out before the end of the term of office or requested by the Board of Commissioners or if there is a vacant position.

### Requirements and Criteria

The requirements and criteria for prospective members of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board as stipulated in the Company's Articles of Association and other applicable provisions, are as follows:

- Board of Commissioners and Directors
- Prospective members of the Board of Commissioners and prospective members of the Board of Directors must meet the

requirements of integrity, competence, and financial reputation.

- Integrity requirements for prospective members of the Board of Commissioners and prospective members of the Board of Directors include:
  - 1). have good morals and ethics, among others demonstrated by an attitude of complying with applicable provisions, including never having been convicted of committing a Certain Criminal Act within the last 20 (twenty) years before being nominated;

    - 2). Financial reputation, which at least includes:
      - not included in the bad loan/financing fund; and
      - never declared bankrupt or become a shareholder, member of the Board of Commissioners, or member of the Board of Directors who is found guilty of causing a company to be declared bankrupt, within the last 5 (five) years before being nominated,
  - Member of the Audit Committee and Risk Monitoring Committee.
    - 1). In providing recommendations regarding Independent Parties who will become members of the Audit Committee and/or Risk Monitoring Committee, the Committee must pay attention to the Bank's vision and mission, the principles of Good Corporate Governance and the provisions of applicable laws and regulations.
    - 2). The Committee submits recommendations regarding candidate members of the Board of Directors, Sharia Supervisory Board, and Board of Commissioners to the Board of Commissioners in writing to be submitted to the GMS no later than 1 (one) week before the GMS is held.

# RISK MONITORING COMMITTEE

## Purpose of Establishment

The Risk Monitoring Committee is established to assist the Board of Commissioners in carrying out its oversight function, particularly in matters related to the formulation, implementation, and evaluation of the Company's risk management policies, to ensure effective risk management in accordance with applicable regulations.

## Legal Basis for Establishment

The Company's Risk Monitoring Committee is established in compliance with:

- SEOJK No. 14/SEOJK.03/2025 on Governance Practices for Commercial Banks.
- OJK No. Regulation 17 of 2023 on Governance Practices for Commercial Banks;
- The Articles of Association of PT Bank Syariah Indonesia Tbk.
- Relevant Laws and Regulations.

## Membership Structure and Criteria

1. The Committee shall consist of at least 3 (three) members.
2. The Committee shall at least comprise 1 (one) Independent Commissioner serving as Chairman and member, 1 (one) Independent Party with expertise in Sharia banking, and 1 (one) Independent Party with expertise in risk management.
3. An Independent Party member of the Committee is deemed to have expertise in Sharia banking if the following criteria are met:
  - a. Acquires knowledge in economics, finance, and/or Sharia banking; and
  - b. Has at least 5 (five) years of work experience in economics, finance, and/or Sharia banking.
4. An Independent Party member of the Committee is deemed to have expertise in risk management if the following criteria are met:
  - a. Acquires knowledge in risk management; and/or
  - b. Has at least 2 (two) years of work experience in risk management.
5. Former members of the Board of Directors, Executive Officers of the Bank, or parties having relationships with the Bank that may affect their ability to act independently may not serve as Independent Parties as members of the Committee of PT Bank Syariah Indonesia Tbk before completing a cooling-off period as stipulated in applicable Bank Indonesia regulations.

6. Each Committee member has one equal voting right.
7. Employees of PT Bank Syariah Indonesia Tbk may serve as Committee members without voting rights (non-voting members).
8. Committee members are appointed and dismissed by the Board of Commissioners.
9. The term of Committee membership corresponds to the term of the Board of Commissioners; however, the Board of Commissioners may dismiss members at any time if justified reasons exist.
10. If the Chairman of the Committee ceases to serve before the end of their term as a Commissioner of the Company, the Chairman shall be replaced by another Independent Commissioner.
11. One of the Committee members may be appointed as Executive Secretary.
12. Committee members originating from external parties must meet the following requirements:
  - a. Have no business relationship with the Bank.
  - b. Have no family relationship with members of the Board of Directors, Board of Commissioners, or the controlling shareholders.
  - c. Acquire high integrity, adequate capability, knowledge, and experience in their respective fields, and have an understanding of banking.

## Committee Composition

The composition of the Risk Monitoring Committee of PT Bank Syariah Indonesia Tbk was appointed pursuant to the Board of Directors' Decree No. 05/835-KEP/DIR on the Amendment of the Membership of the Risk Monitoring Committee of PT Bank Syariah Indonesia Tbk, effective 29 December 2025, as follows::

## RISK MONITORING COMMITTEE

**Risk Monitoring Committee Composition as of 31 December 2025**

## RISK MONITORING COMMITTEE

### Risk Monitoring Committee Charter

The Risk Monitoring Committee has established a Risk Monitoring Committee Charter pursuant to the Board of Commissioners' Decree of PT Bank Syariah Indonesia Tbk No. 04/KEP-KOM/001/2024 on the Guidelines and Rules of Procedure (Charter) of the Risk Monitoring Committee of PT Bank Syariah Indonesia Tbk, dated July 1, 2024. This Charter represents an update to the previous Risk Monitoring Committee Charter.

The Risk Monitoring Committee Charter serves as a reference for the Committee in carrying out its duties and responsibilities in a transparent, competent, objective, and independent manner, ensuring accountability and acceptance by all stakeholders.

The Risk Monitoring Committee Charter regulates a number of matters including:

1. Background
2. Risk Monitor
3. Definition, Vision and Mission, Responsibilities and Authorities
4. Membership Structure
5. Confidentiality
6. Committee Member Rewards
7. Committee Meetings
8. Changes
9. Closing

### Risk Monitoring Committee Duties and Responsibilities

Pursuant to the Risk Monitoring Committee Charter, the following are duties and responsibilities of the Risk Monitoring Committee:

1. Monitoring and evaluating at least:
  - a. The alignment between risk management policies and their implementation.
  - b. The implementation of the work plan and duties of the Risk Management Committee and the Risk Management Unit.
  - c. The adequacy of risk identification, measurement, monitoring, control processes, and risk management information systems.
  - d. The Bank's compliance with the Articles of Association, regulations of the Banking and Capital Market Supervisory Authorities, and other laws and regulations related to risk management.

2. Monitoring and reviewing at least:
  - a. Risk Profile Reports.
  - b. Risk-based Bank Soundness Level Reports.
  - c. Other reports related to the management of 10 (ten) types of risk, namely:
    - Credit Risk
    - Market Risk
    - Operational Risk
    - Liquidity Risk
    - Legal Risk
    - Compliance Risk
    - Reputational Risk
    - Strategic Risk
    - Return Risk
    - Investment Risk
  - d. The Bank's Financing Policy and other policies required by the Regulator to be submitted by the Board of Directors to the Board of Commissioners.
3. Providing recommendations to the Board of Commissioners at least on:
  - a. Matters that support the enhancement of the effectiveness of risk management implementation at the Bank.
  - b. The alignment between the Bank's risk management policies and their implementation to ensure that risks are managed adequately.
  - c. The implementation of the work plan and duties of the Risk Management Committee and the Risk Management Unit.
4. Holding periodic meetings with relevant work units to discuss matters within the scope of its oversight.
5. Reporting periodically on the results of monitoring and review activities and providing input on matters requiring the attention of the Board of Commissioners.
6. Preparing the Guidelines and Rules of Procedure of the Risk Monitoring Committee and conducting periodic reviews at least once every 3 (three) years.

### Duties and Responsibilities of the Chairman and Members of the Risk Monitoring Committee

The Chairman of the Risk Monitoring Committee is responsible for coordinating all Committee activities to achieve the Committee's objectives. The Chairman and members of the Risk Monitoring Committee are responsible for:

## RISK MONITORING COMMITTEE

1. Determining the annual work plan.
2. Preparing reports on the Committee's activities and matters requiring the attention of the Board of Commissioners.
3. Appointing non-Commissioner Committee members or other third parties as Committee Secretary to support Committee activities, including Committee meetings and the preparation of meeting minutes.
4. Attending meetings.
5. Actively participating and contributing to all Committee meeting activities.
2. Accessing records or information relating to employees, funds, assets, and other corporate resources relevant to the performance of its duties.
3. Obtaining Risk Profile Reports, Bank Soundness Level Reports, Risk Appetite Statements, and other reports related to the implementation of the Bank's risk management.
4. Obtaining input and/or advice from external parties related to its duties.
5. Exercising other authorities granted by the Board of Commissioners.

**Risk Monitoring Committee Authorities**

1. Communicating with Heads of Units and other parties within the Bank to obtain information, clarification, and to request necessary documents and reports.

**Risk Monitoring Committee Education Qualifications and Professional Experience**

The qualifications and professional experience of the Chairman and Members of the Risk Monitoring Committee are as follows.

**Risk Monitoring Committee Educational Qualifications and Professional Experience**

| Name                     | Position | Education                                                                                                                                                                                                                           | Professional Experience                                                                 |

\*) effective upon obtaining approval from OJK on fit and proper test

### Independence of The Risk Monitoring Committee

The Risk Monitoring Committee performs its duties and responsibilities in a professional and independent manner by providing objective and accountable opinions and recommendations, free from any influence or pressure. Committee members are independent parties with no financial, management, shareholding, and/or family relationships with the Board of Commissioners, the Board of Directors, and/or controlling shareholders, and have no relationships with the Bank that could impair their independence and objectivity, thereby ensuring risk oversight and evaluation are conducted free from conflicts of interest.

The independence qualifications of Risk Monitoring Committee members must meet the following criteria:

| Independence Aspect                                                                                                                    | Independent Commissioner |                  |                        |                        |                          |                   |                    |       |           |                         |
|----------------------------------------------------------------------------------------------------------------------------------------|--------------------------|------------------|------------------------|------------------------|--------------------------|-------------------|--------------------|-------|-----------|-------------------------|
|                                                                                                                                        | Nizar Ahmad Saputra      | Muhadjir Effendy | Felicitas Tallulembang | Mochamad Agus Rofiudin | Muhammad Syafii Antonio* | Addin Jauharudin* | Meidy Ferdiansyah* | Fauzi | Noor Anis | Rahmatina Awaliah Kasri |

## RISK MONITORING COMMITTEE MEETING

### Risk Monitoring Committee Meeting Policy

According to the Risk Monitoring Committee Charter issued through the Decree of the Board of Commissioners of PT Bank Syariah Indonesia Tbk No.04/KEP-KOM/001/2024, the following are the policies of the Risk Monitoring Committee Meetings:

1. The Risk Monitoring Committee holds regular meetings at least 1 (one) time in 1 (one) month.
2. The Risk Monitoring Committee meetings can only be held if attended by at least 51% (fifty-one percent) of the committee members, including 1 (one) Independent Commissioner and 1 (one) Independent Non-Commissioner.
3. Decisions of the Risk Monitoring Committee meetings are made by means of deliberation to reach a consensus.
4. If no consensus is reached, the decision shall be made based on a majority vote.
5. The meeting is chaired by the Chairman of the Risk Monitoring Committee or a designated member if the Chairman of the Risk Monitoring Committee is absent.
6. Each meeting of the Risk Monitoring Committee shall be recorded in the minutes, including any dissenting opinions, signed by all members of the Committee present, and submitted to the Board of Commissioners.
7. Meetings can be conducted either face-to-face or virtually via teleconferencing media or other media facilities that allow all participants of the Committee Meeting to see and/or hear each other directly and participate in the meeting.

### Risk Monitoring Committee Meeting Agenda

Throughout 2025, the dates, agendas and participants of the Risk Monitoring Committee meetings were as follows.

\*) effective upon obtaining approval from OJK on fit and proper test

#### Performance Assessment Mechanism and KPI Achievement

The performance of BSI's Risk Monitoring Committee is evaluated periodically by the Board of Commissioners to assess the effectiveness of the Committee's duties in supporting oversight. The evaluation considers the realization of the Committee's Work Plan, the quality and effectiveness of recommendations, and the level of communication and coordination with the Board of Commissioners, the Board of Directors, and relevant work units.

Throughout 2025, BSI's Risk Monitoring Committee successfully implemented all programs set out in the 2025 Work Plan. KPI achievement was reflected in relevant, value-adding recommendations that strengthened risk governance and supported the Board of Commissioners' strategic decision-making on risk management initiatives proposed by the Board of Directors. Consistent and constructive communication ensured timely and effective follow-up, supporting BSI's resilience and sustainability.

#### Risk Monitoring Committee's Work Program and Implementation of Duties In 2025

Throughout 2025, the Risk Monitoring Committee performed its duties and responsibilities effectively. The Risk Monitoring Committee held 25 (twenty five) meetings and carried out its duties, which included, among others:

1. Evaluated the alignment of risk management policies with the implementation of the Bank's policies;
2. Monitored and evaluated the implementation of duties by the Risk Monitoring Committee and Risk Management Business Unit;
3. Supervised and evaluated the results of the Bank's Soundness Level Report on a semesterly basis;
4. Supervised and evaluated the results of Compliance Implementation Reports, which included:
  - a. Report on the Implementation of Duties & Responsibilities of the Director in charge of Compliance Function/Compliance Report,
  - b. Report on Integrated Compliance & Integrated Governance,
  - c. Report on AML-CTF;
5. Supervised and evaluated the strategy of Human Resource Development
6. Supervised report on Recovery & Resolution Plan
7. Oversaw risks related to proposed corporate actions or other actions, such as proposals for Thresholds (limits of the Board of Directors' authority requiring approval from the Board of Commissioners).
8. Conducted monthly performance evaluations.
9. Approved the Bank Business Plan (RBB) and its revisions.
10. Conducted visits to Area Offices/Branches to accompany the Board of Commissioners in carrying out its supervisory function, as well as observing and monitoring activities at the Area Offices/Branches and receiving inputs.

# SHARIA GOVERNANCE IMPLEMENTATION REPORT AND SHARIA GOVERNANCE ASSESSMENT

## SHARIA GOVERNANCE IMPLEMENTATION REPORT

BSI implements Sharia Governance consistently in accordance with Sharia Principles, in compliance with applicable regulatory provisions, including POJK No.2 of 2024 on the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units, along with its implementing regulation, SEOJK No. 15/SEOJK.03/2024. This implementation is further aligned with SEOJK No. 14/SEOJK.03/2025 on the Implementation of Governance for Commercial Banks and Law No. 40 of 2007 on Limited Liability Companies.

## SHARIA GOVERNANCE COMPLIANCE

All members of the Board of Directors and the Board of Commissioners are responsible for the development and management of BSI's Sharia-based business activities. To ensure adherence to Sharia Principles, the Bank appoints a Head of Compliance Function overseeing Sharia Business Compliance, who is responsible for managing and ensuring that all Sharia-related activities are conducted in accordance with applicable regulations. The Directors overseeing Sharia compliance, Sharia risk management, and Sharia internal audit are accountable for the effectiveness of these functions and maintain ongoing coordination with the Sharia Supervisory Board.

In practice, the Sharia Compliance function ensures that all Bank products and services, including their operational guidelines, comply with the Fatwas of the National Sharia Council (DSN) and the opinions of the DPS. This function also provides assistance in the development of new products and activities, major financing transactions under the authority of the Board of Directors, and the review of proposed policies and Board decisions to ensure alignment with Sharia Principles. Compliance assurance is conducted through both ex-ante and ex-post processes, including collaboration with the Internal Audit Unit (SKAI) and periodic sampling reviews at branch offices to ensure consistent implementation of Sharia Principles across the Bank's operations.

As an integral component of the Sharia Governance framework, the Sharia Supervisory

Board (DPS) plays a critical role in ensuring that all Bank activities consistently adhere to Sharia Principles. The DPS carries out independent oversight, advisory, and Sharia opinion functions to strengthen Sharia compliance and safeguard the integrity of the Bank's operations.

## Part Two: Self-Assessment by the Bank on the Implementation of Sharia Governance

### Article 43

- a. The Bank is required to conduct a self-assessment of the implementation of Sharia Governance at least 2 (two) times within 1 (one) year.
- b. The results of the Bank's self-assessment of the implementation of Sharia Governance as referred to in paragraph (1) constitute an integral part of the governance implementation report in accordance with the Financial Services Authority Regulation concerning the implementation of governance for commercial banks.
- c. Provisions regarding the self-assessment of the implementation of Sharia Governance as referred to in paragraph (1) shall be determined by the Financial Services Authority.

## SHARIA GOVERNANCE SELF-ASSESSMENT

As a Sharia Commercial Bank, BSI conducts periodic Sharia Governance Self-Assessments as part of its prudential practices and efforts to strengthen Sharia governance. Up to December 2025, BSI carried out one Sharia Governance Self-Assessment, referring to OJK Regulation No. 2 of 2024 on the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units, along with its implementing regulations.

Based on the results of the second-semester 2025 self-assessment, the implementation of Sharia Governance at BSI was rated Rank 2 (Good), with no significant weaknesses identified. This outcome reflects the active role of the Board of Directors and the Sharia Supervisory Board (DPS) in ensuring compliance with Sharia Principles across all business activities, as well as the strong commitment of all BSI personnel and relevant units to consistently uphold effective and sustainable Sharia governance practices

# SHARIA SUPERVISORY BOARD

The Sharia Supervisory Board (DPS) is a Bank organ responsible for providing advice and guidance to the Board of Directors and overseeing the Bank's activities to ensure continuous compliance with Sharia Principles. Through this role, the DPS ensures that all products, services, and operational activities are conducted in accordance with Sharia requirements, including the implementation of fatwas issued by the National Sharia Council.

In carrying out its duties, the DPS works in close coordination with the Compliance Function (SKKP) and the Internal Audit Unit (SKAI) to strengthen oversight and ensure consistent application of Sharia compliance across all Bank operations. Members of the DPS are appointed and approved through the GMS based on recommendations from the National Sharia Council of the Indonesian Ulema Council (DSN-MUI).

## Sharia Supervisory Board Composition and Profiles

In reference with POJK No. 2 of 2024 and SEOJK 15/SEOJK.03/2024 on the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units, the Sharia Supervisory Board of BSI is designated as the Bank's key party and is required to obtain approval from the OJK through a fit and proper test, based on a recommendation from the DSN-MUI.

BSI complies with the requirements on the number and structure of the DPS, with a minimum of 3 (three) members and a maximum of 50% (fifty percent) of the number of Directors. The DPS is led by a Chairman selected from among its members and, where necessary, may be supported by a Vice Chairman. As of December 31, 2025, BSI's DPS comprised 5 (five) members, consisting of 1 (one) Chairman and 4 (four) members.

Detailed profiles of Chairman and Members of BSI DPS is presented in the Chapter 3 Company Profile in this Annual Report.

| Name                                  | Position |
|---------------------------------------|----------|
| Prof. Dr. KH. Hasanudin, M.Ag         | Chairman |
| DR. H. Mohamad Hidayat, MBA, M.H      | Member   |
| Dr. H. Oni Sahroni, MA                | Member   |
| Dr. KH. Abdul Ghofur Maimoen, M.A.    | Member   |
| Prof. Dr. Jaih Mubarak, SE, M.H, M.Ag | Member   |

## Sharia Supervisory Board Criteria

During their tenure, DPS members must demonstrate criteria that includes:

1. Demonstrating high integrity.
2. Acquiring knowledge and experience in sharia muamalah, as well as an understanding of sharia banking and/or general finance.
3. Having a good financial reputation.

## Requirements of the Sharia Supervisory Board

The requirements for members of the Sharia Supervisory Board are regulated and determined by the National Sharia Council. Members of the Sharia Supervisory Board who have obtained a recommendation from the Indonesian Ulema Council and meet the requirements are appointed and dismissed by the GMS. The appointment of members of the Sharia Supervisory Board becomes effective after obtaining approval from the regulator (OJK).

The requirements for members of the Sharia Supervisory Board are subject to the provisions of:

- a. Sharia Banking Law;
- b. Bank Indonesia Regulations;
- c. Financial Services Authority (OJK) Regulations;
- d. Decisions of the National Sharia Council of the Indonesian Ulema Council; and
- e. Other applicable laws and regulations.

Members of the Sharia Supervisory Board who have obtained a recommendation from the Indonesian Ulema Council and meet the requirements as referred to in paragraph (15) of Article 24 of the Company's Articles of Association are appointed and dismissed by the GMS. The appointment becomes effective after obtaining approval from the competent authority (OJK).

The requirements for members of the Sharia Supervisory Board are also regulated and determined by the National Sharia Council.

## Sharia Supervisory Board Members Independence

The independence of Sharia Supervisory Board members is maintained by ensuring that no DPS member has a family relationship up to the second degree with members of the Board of Directors, the Board of Commissioners, and/or fellow DPS members. In addition, DPS members do not hold concurrent positions as members of the

## SHARIA SUPERVISORY BOARD

Board of Directors, the Board of Commissioners, or Executive Officers in banks, companies, and/or other institutions that may give rise to conflicts of interest. These requirements enable the DPS to perform its supervisory role in a professional, objective, and independent manner.

#### Sharia Supervisory Board Members Concurrent Position Policy

In implementing POJK No.2 of 2024 and dan SEOJK 15/SEOJK.03/2024, BSI ensures the independence of the Sharia Supervisory Board by restricting concurrent positions that may give rise to conflicts of interest. DPS members do not hold concurrent positions as members of the Board of Directors, Board of Commissioners, Executive Officers, public officials, or other positions in financial or non-financial institutions that could compromise their

independence. DPS members are also limited to serving on no more than 1 (one) other bank's DPS and no more than 2 (two) Sharia supervisory boards of non-bank financial institutions. Limited exceptions are permitted, including positions in non-bank subsidiaries controlled by the Bank, non-profit organizations, or entities within the same financial conglomeration, provided these do not interfere with DPS duties. Any DPS member holding concurrent positions is required to submit a formal commitment to uphold integrity, avoid conflicts of interest, and ensure compliance with prudential principles and Sharia Principles.

The following are concurrent positions of DPS members as of December 31, 2025:

| Name                               | Position | Position in Other Companies/<br>Agencies                     | Company Name/ Other Institution                            |
|------------------------------------|----------|--------------------------------------------------------------|------------------------------------------------------------|
| Prof. Dr. KH. Hasanudin, M.Ag      | Chairman | Member of Sharia Supervisory Board                           | Sharia Business Unit of PT Bank Danamon Indonesia          |
|                                    |          | Chairman of Sharia Supervisory Board                         | PT Toyota Astra Finance Services                           |

### Sharia Supervisory Board Tenure

Members of DPS are appointed and dismissed by the GMS. The appointment becomes effective upon obtaining approval from the regulator (OJK).

The appointment of members of the Sharia Supervisory Board is for a term commencing from the closing of the GMS that appoints them or another date determined by the GMS, and ending at the closing of the third Annual GMS following their appointment, subject to the prevailing laws and regulations in the capital market sector. Notwithstanding the foregoing, the GMS reserves the right to dismiss members of the Sharia Supervisory Board at any time prior to the end of their term of office, in accordance with applicable capital market and Islamic banking regulations.

Such dismissal becomes effective as of the closing of the relevant GMS, unless another effective date of dismissal is determined by the GMS.

Members of the Sharia Supervisory Board whose term of office has expired may be reappointed, subject to the prevailing laws and regulations.

### Resignation and Termination Mechanisms of Sharia Supervisory Board

#### Resignation

A member of the Sharia Supervisory Board may resign before the end of their term of office by submitting a written resignation notice to the Company at least 90 (ninety) calendar days prior to the intended effective date of resignation, subject to the following provisions:

- The Company must convene a GMS to decide on the resignation of the relevant Sharia Supervisory Board member no later than

90 (ninety) calendar days after receipt of the resignation letter.

- Prior to the resignation becoming effective and valid in accordance with applicable regulations, the relevant member of the Sharia Supervisory Board remains obliged to perform their duties and responsibilities in accordance with the Articles of Association and prevailing laws and regulations.
- A resigning member of the Sharia Supervisory Board is released from liability only after obtaining a discharge and release from responsibility from the Annual GMS.

### Dismissal of the Sharia Supervisory Board

The dismissal and/or resignation of a member of the Sharia Supervisory Board becomes effective as of the closing date of the relevant General Meeting of Shareholders (GMS), unless another effective date is determined by the GMS and/or otherwise stipulated under the applicable regulations.

The term of office of a member of the Sharia Supervisory Board shall automatically end if the relevant member:

- Loses Indonesian citizenship;
- Resigns and such resignation becomes effective;
- Is declared bankrupt or placed under guardianship based on a court decision;
- No longer meets the requirements stipulated under the prevailing laws and regulations;
- Holds concurrent positions that are prohibited for members of the Sharia Supervisory Board under provisions of the National Sharia Council and/or prevailing laws and regulations;
- Passes away;
- Is dismissed by the GMS; or
- Is included in the list of non-performing credit/financing.

## SHARIA SUPERVISORY BOARD

If a member of the Sharia Supervisory Board resigns or is dismissed before the end of their term of office, the term of office of the replacement member shall commence from the closing of the GMS that appoints them or another date determined by the GMS, and shall end at the closing of the third Annual GMS following their appointment, unless otherwise determined by the GMS.

In the event of an addition of members to the Sharia Supervisory Board, the term of office of such members shall commence from the closing of the GMS that appoints them or another date determined by the GMS, and shall end at the closing of the third Annual GMS following their appointment, unless otherwise determined by the GMS.

### Fit & Proper Test for the Sharia Supervisory Board

Members of BSI DPS are classified as the Bank's Key Parties and are required to obtain approval from the OJK through a Fit & Proper Test prior to performing their duties and functions. This process is conducted in accordance with the Sharia Governance POJK and refers to the applicable POJK and SEOJK on Fit & Proper Test for Key Parties of Financial Institutions. The test is carried out by OJK based on the Bank's self-assessment and recommendations from the committee performing the nomination function, covering integrity, competence (in sharia muamalah, banking and/or finance), and financial reputation. DPS candidates must also obtain a recommendation from the National Sharia Council of the Indonesian Ulema Council. The OJK determines the assessment outcome as Approved or Not Approved, and the appointment of DPS members by the GMS may only proceed after OJK approval and subsequent regulatory reporting in accordance with prevailing regulations.

### Guidelines and Work Procedures of the Sharia Supervisory Board

In carrying out its duties, the Sharia Supervisory Board refers to the Articles of Association and the Decree of the Sharia Supervisory Board of PT Bank Syariah Indonesia Tbk No. 05/DPS-BSI/2025, which stipulate the requirements for the Sharia Supervisory Board, its duties, responsibilities and main functions, prohibitions applicable to the

Sharia Supervisory Board, term of office, dismissal, and meeting policies.

### Sharia Supervisory Board Duties and Responsibilities

In carrying out business activities based on Sharia Principles, the Sharia Supervisory Board is appointed by the GMS upon the recommendation of the National Sharia Council of the Indonesian Ulema Council, with due observance of the provisions of the OJK or its successor, the regulations of the National Sharia Council, and other applicable laws and regulations.

The Sharia Supervisory Board has the following main duties, responsibilities, and functions, among others:

1. Acting as the representative of the National Sharia Council within the Company.
2. Supervising the Company's Sharia-related activities to ensure compliance with applicable Sharia Principles.
3. Providing advice and recommendations to the Board of Directors on matters related to Sharia Principles.
4. Acting as a mediator between the Company and the National Sharia Council in communicating proposals and recommendations for the development of products and services that require review and fatwa from the National Sharia Council.
5. Assessing and ensuring compliance with Sharia Principles in the Company's operational guidelines and products.
6. Supervising the development process of new products issued by the Company.
7. Requesting fatwa from the National Sharia Council for new products that do not yet have an established fatwa.
8. Conducting periodic reviews of Sharia compliance in fund-raising activities, fund disbursement, and service provision of the Company.
9. Requesting data and information related to Sharia aspects from the Company's work units for the purpose of carrying out its duties.
10. Implementing GCG principles in the execution of its duties and responsibilities in accordance with applicable laws and regulations.

## SHARIA SUPERVISORY BOARD

In performing its functions, the Sharia Supervisory Board is required to:

- a. Comply with the fatwas issued by the National Sharia Council.
- b. Report the Company's business activities to OJK or its successor in accordance with the provisions stipulated by OJK or its successor.

### DPS EVALUATION MECHANISM IN THE DPS CHARTER

#### Bank Policies and Procedures Evaluation Mechanism

In carrying out its evaluation function over the Bank's policies and procedures to ensure compliance with Sharia Principles, the DPS may coordinate with relevant work units, including the following:

1. With respect to policies, provisions, procedures, and other Standard Operating Procedures (SOPs related to the Bank's existing products and/or new products, including profit-sharing distribution policies, Sharia accounting treatment, zakat calculation, and the use of funds that may not be recognized as income, the technical review process, analysis, and request for feedback from relevant units are carried out by the Sharia Regulatory & Review function.
2. With respect to risk management policies and procedures related to compliance with Sharia Principles, technical evaluations are conducted by the Sharia Risk Management function and supported by the Sharia Compliance function, at least once a year or at any time in the event of changes that significantly affect business activities.
3. The results of the evaluations referred to in points 1 and 2 above may be supplemented by a written DPS opinion, if necessary.

#### Review Mechanism for Operations, Transactions, and Processes in the Bank's Business Activities

1. In conducting the review process, the DPS may review both on an ex-ante basis (prior to a policy being established and/or implemented) and on an ex-post basis (after a policy has been implemented).
2. In implementing the ex-ante review function over operations, transactions, and processes in the Bank's business activities related to Sharia

aspects, the DPS coordinates with the Sharia Compliance function to review documents (including promotional and marketing materials, whether for the Bank's own products or products resulting from cooperation with Bank partners) and business transactions, either on its own initiative or at the request of DPS, the Board of Commissioners, or the Board of Directors, as well as the systems used by the Bank.

3. In implementing the ex-post review function over operations, transactions, and processes in the Bank's business activities related to Sharia aspects, the DPS coordinates with the Sharia Audit function under the Internal Audit Unit.

#### Sharia Governance Implementation Evaluation Mechanism

1. In relation to the authority of the DPS under Article 3 paragraph (3) letter (c), the SSB provides direction on Sharia Governance and coordinates with Executive Officers of the CPG, ERM, and WCA units in preparing comprehensive evaluation materials covering policy, risk, and Sharia compliance aspects.
2. Meetings related to the evaluation of Sharia governance as referred to in point 1 above form part of Limited Meetings.
3. The implementation of such Limited Meetings, in addition to being held at the request of the DPS, is conducted in accordance with the applicable laws and regulations.
4. External reviews of Sharia Governance are conducted periodically at least once every three years, with reference to OJK regulations and other applicable provisions.

#### Shariah Supervisory Board Meetings

##### Meeting Policy

The Sharia Supervisory Board is required to convene meetings at least once a month. Decisions of the Sharia Supervisory Board are made through deliberation to reach consensus. All resolutions and outcomes of Sharia Supervisory Board meetings must be documented in formal minutes and constitute collective decisions of all members of the Sharia Supervisory Board. The minutes of meetings must be properly documented and maintained by the Company.

## SHARIA SUPERVISORY BOARD

The Bank shall hold joint meetings of DPS with the Board of Directors and Board of Commissioners at least once every 4 (four) months. Such meetings may be convened provided they are attended by a majority of DPS members and a majority of members of the Board of Directors and Board of Commissioners.

### Sharia Supervisory Board Meeting Recapitulations

The following were the DPS meeting recapitulations during 2025:

### Sharia Supervisory Board Meeting Attendance

**Management of Conflicts of Interest of the Sharia Supervisory Board**

In carrying out its duties, responsibilities, and functions, the Sharia Supervisory Board are prohibited from:

1. Using the Company for personal interests, the interests of family members, and/or other parties that may reduce the Company's assets and/or profitability.
2. Obtaining and/or receiving personal benefits from the Company, other than remuneration and other facilities as approved by the GMS.
3. Holding concurrent positions as prohibited under the prevailing laws and regulations.

## SHARIA SUPERVISORY BOARD

### Sharia Supervisory Board Affiliated Relations

Members of the DPS do not have any affiliation, whether financial or familial, with members of the Board of Commissioners, Board of Directors, and/or the Bank's Controlling Shareholders, thereby enabling them to perform their duties and functions independently and objectively.

### Remuneration Policy of Sharia Supervisory Board Members

The remuneration policy for BSI's DPS is formulated and implemented in accordance with OJK regulations on the application of governance in remuneration for Islamic commercial banks. The determination of DPS remuneration takes into account the level of risk and complexity of the DPS' duties and responsibilities, including the issuance of sharia opinions on the Bank's products and business activities, the designation of the DPS as the Bank's key party, and the strengthened role of the DPS within the Sharia Governance framework. The policy also considers proportionality with the remuneration of the Board of Commissioners. In addition, BSI periodically reviews and evaluates the SSB remuneration policy and its implementation to ensure alignment with regulatory requirements, responsibilities, and the complexity of the role performed.

### Sharia Supervisory Board Supervisory Report

The Sharia Supervisory Board (SSB) of PT Bank Syariah Indonesia (Persero) Tbk (BSI) has prepared the performance and activity report for the period of January 1, 2025, and for the period of July 1 to December 31, 2025. This report is prepared in accordance with the provisions of Financial Services Authority Regulation (POJK) No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks, POJK No. 2 of 2024 concerning the Implementation of Sharia Governance for Islamic Commercial Banks and Islamic Business Units, Financial Services Authority Circular Letter (SEOJK) No. 15/SEOJK.03/2024 concerning the Implementation of Sharia Governance for Islamic Commercial Banks and Islamic Business Units, as well as SEOJK No. 14/SEOJK.03/2025 concerning the Implementation of Governance for Commercial Banks.

Throughout 2025, the SSB carried out its duties in overseeing the Bank's policies and the management conducted by the Board of Directors to ensure compliance with Sharia principles, and is responsible for such supervision. The SSB also provides advice to the Board of Directors, including issuing sharia opinions related to the Bank's activities as referred to in Article 20 paragraph (1) of POJK No. 2 of 2024 on Sharia Governance, which include, among others:

- a) Supervision of policies and management conducted by the Board of Directors to ensure compliance with Sharia principles, by:
  - 1. Evaluating the Bank's policies and procedures to ensure alignment with Sharia principles;
  - 2. Reviewing the Bank's operations to ensure compliance with Sharia principles; and
  - 3. Directing, monitoring, and evaluating the implementation of Sharia Governance, including the application of sharia compliance, sharia risk management, and sharia internal audit in an integrated manner;
- b) Providing advice, including sharia opinions, to the Board of Directors, by:
  - 1. Providing recommendations related to the fulfillment of Sharia principles based on the SSB's supervisory results;
  - 2. Providing opinions on strategic matters and/or matters required by regulations to ensure they do not contradict Sharia principles, including the implementation of banking synergy as referred to in the Financial Services Authority Regulation on Islamic commercial banks, as well as recovery action plans and remedial plans as referred to in the Financial Services Authority Regulation regarding supervisory status and handling of problems in commercial banks;

## SHARIA SUPERVISORY BOARD

3. Providing opinions on the development of new products as regulated in the Financial Services Authority Regulation on the implementation of commercial bank products, including:
  - a. Compliance with DSN-MUI fatwas;
  - b. Standard operating procedures for new Bank products; and/or
  - c. Results of the review of contract concepts/agreements/application forms for new Bank products; and
4. Coordinating and providing guidance to the sharia compliance function, sharia risk management function, and sharia internal audit function;
- c) Providing an opinion regarding the fulfillment of Sharia principles to the committees supporting the duties of the Board of Commissioners as referred to in Article 26 of the Sharia Governance POJK; and
- d) Coordinating with fatwa authorities and/or regulators, where necessary.

Furthermore, to strengthen the culture of Sharia compliance across the entire network, the Sharia Supervisory Board (SSB) has carried out various enhancement activities, which were conducted at:

## Sharia Supervisory Board Recommendations

Throughout 2025, DPS of BSI provided input and recommendations to the Board of Directors as part of its Sharia oversight function. These recommendations covered, among others, the enhancement of policies and operational procedures to ensure continuous alignment with Sharia Principles, the strengthening of controls over Sharia-based products and business activities, and the improvement of the overall quality of Sharia governance implementation across the Bank. Below are the details:

## Recapitulation of Directions and Recommendations of the Sharia Supervisory Board

| No. | DPS Opinion Title                                                                                   | No. Register            | Date      |

## SHARIA COMPLIANCE FUNCTION

The Sharia Compliance Function at BSI (the Bank) was established as part of the compliance work unit under the Director overseeing the compliance function. The Director overseeing the compliance function is responsible for the effectiveness of the implementation of the sharia compliance function in ensuring that all the Bank's policies, provisions, systems, procedures, and business activities consistently comply with Sharia Principles. In its implementation, this function is supported by an Executive Officer who reports directly to the relevant Director and has fulfilled the requirements of the Financial Services

## SHARIA SUPERVISORY BOARD

Authority, including possessing adequate knowledge and understanding of sharia banking operations as well as the fatwas of the National Sharia Council–Indonesian Ulama Council.

The sharia compliance function was established to ensure that the policies, provisions, systems and procedures, as well as business activities carried out by the Bank, are in accordance with Sharia Principles.

The sharia compliance function coordinates with the DPS in carrying out its duties and responsibilities as regulated under POJK No. 2 of 2024 concerning the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units and SEOJK No. 15/SEOJK.03/2024 concerning the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units, to the knowledge of the Director overseeing the compliance function.

### SHARIA RISK MANAGEMENT FUNCTION

BSI has implemented a Sharia Risk Management Function as an integral part of the Bank's overall risk management framework. This function is supported by an Executive-level officer with adequate knowledge and understanding of Sharia banking operations, enabling effective risk management that is aligned with Sharia Principles across all business activities. The Board of Directors is responsible for ensuring the effectiveness of this function in maintaining a balance between business performance and Sharia risk control.

The duties and responsibilities of the Sharia Risk Management Function are carried out in line with Financial Services Authority regulations on risk management implementation for Sharia Commercial Banks. In practice, this function has been implemented align with POJK No. 2 of 2024 on Sharia Governance Practices for Sharia Commercial Banks and Sharia Business Units, as well as SEOJK No. 15/SEOJK.03/2024, to ensure that risk management is conducted comprehensively, in an integrated manner, and consistently with regulatory requirements and Sharia banking prudential principles.

### SHARIA INTERNAL AUDIT FUNCTION

BSI has implemented a Sharia Internal Audit Function as an integral part of the Bank's internal control system. This function is supported by an Executive-level officer with adequate knowledge and understanding of Sharia banking operations, enabling the internal audit process to be conducted professionally, objectively, and in accordance with Sharia Principles. The Board of Directors is responsible for ensuring the effectiveness of the Sharia Internal Audit Function in supporting sound Sharia governance practices.

In its implementation, internal audit reports related to the fulfilment of Sharia Principles are submitted to the Sharia Supervisory Board, the President Director, and the Board of Commissioners as part of a layered oversight mechanism. The duties and responsibilities of the Sharia Internal Audit Function are carried out in accordance with Financial Services Authority regulations on the implementation of internal audit functions in commercial banks, and have been aligned with POJK No. 2 of 2024 on the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units, as well as SEOJK No. 15/SEOJK.03/2024, to ensure compliance with prudential banking principles, regulatory requirements, and Sharia Principles.

### EXTERNAL REVIEW OF SHARIA GOVERNANCE

BSI conducts an external review of the implementation of Sharia governance as part of its commitment to ensuring continuous compliance with Sharia Principles and regulatory requirements. The external review is carried out by a public accountant and/or public accounting firm registered with the Financial Services Authority, in reference to POJK No. 2 of 2024 on the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units. The results of the external review serve as an important input for evaluating and enhancing the Bank's Sharia governance practices.

# BOARD OF DIRECTORS

The Board of Directors is the governing body responsible for managing and conducting the day-to-day operations of Bank Syariah Indonesia in accordance with the Bank's vision, mission, and strategic objectives. Acting under the oversight of the Board of Commissioners, the Board of Directors formulates and implements business strategies, ensures effective risk management and internal control systems, and upholds compliance with applicable laws, regulations, and Sharia principles. Through accountable leadership and prudent decision-making, the Board of Directors plays a central role in driving sustainable growth, safeguarding stakeholder interests, and maintaining the integrity of the Bank's operations.

## Board of Directors Appointment Basis

The appointment of members of the Board of Directors is conducted through the GMS in accordance with the Company's Articles of Association and prevailing laws and regulations. Appointments become effective upon approval from the OJK following the Fit and Proper Test and the fulfilment of other regulatory requirements.

## Board of Directors Composition

The appointment of members of the Board of Directors is carried out through the GMS in accordance with the Company's Articles of Association and the prevailing laws and regulations. The appointment of the Board of Directors becomes effective after obtaining OJK approval through the fit and proper test assessment and fulfillment of other regulatory requirements.:

## BOARD OF DIRECTORS

**Board of Directors Division of Duties**

1. The Bank is managed and led by the Board of Directors appointed by the GMS, as stipulated in the Bank's Articles of Association, and operates under the supervision of the Board of Commissioners.
2. The allocation of duties and authorities of the members of the Board of Directors is determined by the GMS. In the event that the GMS does not stipulate such allocation, the duties and authorities are determined through a separate Board of Directors' Decree. The details of functions, responsibilities, and authorities of each member of the Board of Directors are set out in individual job descriptions.
3. In the event that a member of the Board of Directors is unable to perform their duties, the Board of Directors shall appoint another member to act as a substitute, carrying out the same duties, responsibilities, and authorities as the replaced Director, in line with the provisions on alternate Directors as stipulated in a separate Board of Directors' Decree.

The allocation of duties of the Board of Directors is as follows.

**Board of Directors Division of Duties**

| Name                       | Position                                  | Assigned Duties                                                                                                                                                                                                                                                                                              |

### Board of Director's Term of Office

1. Directors are appointed by the GMS for a period starting from the closing of the GMS that appoints them or as otherwise determined by the GMS, and ending at the closing of the third Annual GMS after their appointment. However, this does not diminish the right of the GMS to terminate a Director before the end of their term by stating the reasons. Such termination takes effect from the closing of the GMS, unless otherwise determined by the GMS.
  2. The appointment of Directors will be effective after obtaining approval from the OJK or upon fulfillment of the requirements stipulated in the OJK approval letter related to the Fit and Proper Test, and other relevant authorities (if any), and has been approved by the Shareholders through the GMS.
  3. Directors whose terms have expired may be reappointed for a maximum of 2 (two) consecutive terms, or a maximum of 6 (six) years since their appointment, subject to applicable regulations.
  4. BSI applies provisions on the tenure of members of the Board of Directors in accordance with the Articles of Association. In situations where a Director's term has ended and a successor has not yet been appointed through the GMS, the incumbent Director continues to carry out the same duties, authorities, and responsibilities until the appointment of a replacement is formally resolved by the GMS.
- a. A member of the Board of Directors may resign from his position before the end of his term of office, by being obliged to submit a written request for resignation regarding his intention to the Company, no later than 90 (ninety) calendar days before the effective date of his desired resignation.
  - b. The Company is obliged to hold a GMS to decide on the application for the resignation of the relevant Board of Directors members within a period of no later than 90 (ninety) calendar days after the receipt of the resignation letter, while still paying attention to other related provisions in the field of capital market and Islamic banking.
  - c. In the event that the members of the Board of Directors resign resulting in the number of members of the Board of Directors being less than 3 (three) people, then the resignation is valid if it has been determined by the GMS and a new member of the Board of Directors has been appointed.
  - d. The Company is obliged to disclose information to the public and submit to the OJK no later than 2 (two) working days after the receipt of the application for resignation of the Board of Directors as intended in letter a of this paragraph and no later than 2 (two) working days after the results of the GMS as intended in letter b above
  - e. Before the resignation becomes effective, the members of the Board of Directors concerned are still obliged to complete their duties and responsibilities in accordance with this Articles of Association and applicable laws and regulations.
  - f. A member of the Board of Directors who resigns as mentioned above can still be held accountable as a member of the Board of Directors from the appointment of the person concerned until the date of approval of his resignation in the GMS.
  - g. The exemption from responsibility of members of the Board of Directors who resign is granted after the Annual GMS releases them.

### MECHANISM OF RESIGNATION AND DISMISSAL OF DIRECTORS

#### Resignation of the Board of Directors

- a. A member of the Board of Directors may resign from his position before the end of his term of office, by being obliged to submit a written request for resignation regarding his intention to the Company, no later than 90 (ninety)

## BOARD OF DIRECTORS

### Dismissal of the Board of Directors

Any proposal for the appointment, dismissal, and/or replacement of members of the Board of Directors by the Board of Commissioners to the GMS must take into account the recommendations of the Nomination and Remuneration Committee.

The resolution of the GMS regarding the appointment and dismissal of members of the Board of Directors also determines when the appointment and dismissal will take effect.

In the event that the GMS does not determine, the appointment and dismissal of the members of the Board of Directors will take effect from the close of the GMS.

- a. The GMS may dismiss the members of the Board of Directors at any time by stating the reason.
- b. The reason for the dismissal of a member of the Board of Directors as referred to in letter a is if based on the facts, the members of the Board of Directors concerned:
  - 1) is not/is unable to fulfill its obligations that have been agreed in the management contract;
  - 2) not being able to perform his duties properly;
  - 3) violates the provisions of the Articles of Association and/or applicable laws and regulations;
  - 4) commit acts that violate ethics and/or propriety that should be respected as a member of the Board of Directors;
  - 5) engaging in actions that are detrimental to the Company and/or the state;
  - 6) found guilty by a court decision that has permanent legal force;
  - 7) other reasons that are considered appropriate by the GMS for the benefit and purpose of the Company.
- c. The decision to dismiss as referred to in letter b numbers 1, 2, 3, 4, 5 and/or number 7 above is taken after the members of the Board of Directors concerned are given the opportunity to defend themselves in the GMS, except for letter b number 6 above. If the dismissed member of the Board of Directors is not present at the GMS after being summoned in writing, then the dismissed member of the Board of Directors is deemed not to have exercised his or her right to defend himself or herself in the GMS and has accepted the decision of the GMS.

- d. In the event that the decision to dismiss a member of the Board of Directors is made in the GMS, the self-defense as referred to in letter c above is carried out in the GMS.
- e. Dismissal for reasons as referred to in letters b numbers 5 and 6 above is dishonorable dismissal.
- f. The dismissal of the members of the Board of Directors is effective from:
  - 1) The closure of the GMS; or
  - 2) Other dates set in the resolution of the GMS.
- g. Between the members of the Board of Directors and between the members of the Board of Directors and the members of the Board of Commissioners are prohibited from having family relations up to the third degree, either according to a straight line or a sideways line, including relationships arising from marriage (including sons-in-law or brother-in-law).

### Temporary Dismissal of the Board of Directors

Members of the Board of Directors may be temporarily dismissed at any time by the Board of Commissioners stating the reasons if they act contrary to this Articles of Association or there are indications of committing acts that are detrimental to the Company or neglecting their obligations or there are urgent reasons for the Company, taking into account the following provisions:

- a. The temporary dismissal must be notified in writing to the relevant members of the Board of Directors along with the reason that caused the action with a copy of the Board of Directors;
- b. The notification as referred to in letter a above shall be submitted no later than 2 (two) working days after the determination of the temporary suspension;
- c. Members of the Board of Directors who are temporarily dismissed are not authorized to carry out the management of the Company for the benefit of the Company in accordance with the Company's purposes and objectives and represent the Company both in and out of court;

## BOARD OF DIRECTORS

- d. Within a period of no later than 90 (ninety) calendar days after the temporary dismissal in question, the Board of Commissioners shall hold a GMS to revoke or strengthen the decision of temporary dismissal;
- e. With the expiration of the period of holding the GMS as referred to in letter d above or the GMS cannot make a decision, then the temporary dismissal becomes null and void;
- f. The limitation of authority in letter c above applies from the decision of temporary dismissal by the Board of Commissioners to the following:
  - 1) There is a resolution of the GMS that strengthens or cancels the temporary dismissal in letter d above; or
  - 2) The past period in the letter d above.
- h. In the GMS as referred to in letter d above, the members of the Board of Directors concerned are given the opportunity to defend themselves;
- i. Temporary suspension cannot be extended or re-established for the same reason, if the temporary suspension is declared null and void as referred to in letter e above;
- j. If the GMS cancels the temporary dismissal or the circumstances as referred to in letter e above, the members of the Board of Directors concerned are obliged to carry out their duties as they should;
- g. In the event that the GMS strengthens the decision to temporarily dismiss, the members of the Board of Directors concerned shall be dismissed indefinitely.
- k. If the members of the Board of Directors who are temporarily dismissed are not present at the GMS after being summoned in writing, then the members of the Board of Directors who are temporarily dismissed are considered not to have exercised their right to defend themselves in the GMS and have accepted the decision of the GMS.
- l. The Company is obliged to disclose information to the public and convey to the Financial Services Authority about:
  - 1) Temporary dismissal decision, and
  - 2) The results of the GMS as referred to in letter d above or information regarding the cancellation of the temporary dismissal by the Board of Commissioners due to the non-holding of the GMS until the expiration of the period as referred to in letter e above no later than 2 (two) working days after the occurrence of the event.

### Alternate Directors Appointment

As implemented by BSI in reference to SEOJK 14/2025, the Bank applies a structured mechanism for the appointment and management of Alternate Directors to ensure continuity of leadership and effective governance. Alternate Directors are designated for each Director's scope of responsibility, taking into account potential conflicts of interest and the three lines of defence framework to maintain sound risk management and internal control. Appointments are fulfilled from internal candidates, including serving Directors, and are carried out for a limited period in accordance with regulatory provisions, with extensions subject to approval from the OJK.

In cases of early dismissal, replacement, or temporary suspension of members of the Board of Directors, BSI prioritises the best interests and continuity of the Bank. The process is conducted in an orderly manner under the oversight of the Board of Commissioners and, where required, with prior approval from OJK, particularly for the President Director and Directors overseeing the compliance function. All decisions are supported by proper assessment, documentation, and regulatory review to ensure alignment with prudential principles, governance standards, and applicable laws and regulations.

### President Director Independence

In reference to SEOJK 14/2025, BSI stipulates that the President Director is appointed from an independent party with no financial, management, ownership, or family relationships with the Bank's controlling shareholders, including ultimate shareholders as determined by the OJK. This independence is applied to ensure objective leadership, sound decision-making, and the protection of the Bank's interests in accordance with prudent governance principles.

## BOARD OF DIRECTORS

To support the assessment of independence, BSI requires the President Director to submit a Statement of Independence as part of the Fit and Proper Test process in accordance with OJK regulations. Where necessary, additional supporting documents may be provided to OJK to substantiate the independence assessment, ensuring compliance with regulatory requirements and reinforcing the integrity of the Bank's governance framework.

**SURAT PERNYATAAN INDEPENDENSI**  
**PT BANK SYARIAH INDONESIA TBK**

Saya yang bertanda tangan di bawah ini:

Nama : Anggoro Eko Cahyo

Jabatan :  
Nama perusahaan :  
Nomor telepon perusahaan :

Dengan ini menyatakan bahwa saya:

1. Tidak memiliki hubungan keuangan, hubungan kepengurusan, hubungan kepemilikan, dan/atau hubungan keluarga dengan anggota Direksi, anggota Dewan Komisaris, dan/atau pemegang saham pengendali atau hubungan dengan Bank, yang dapat mempengaruhi kemampuan saya untuk bertindak independen sebagaimana diatur dalam Peraturan Otoritas Jasa Keuangan mengenai penerapan tata kelola bagi bank umum.
2. Tidak memiliki rangkap jabatan sesuai dengan Pasal 15 Peraturan Otoritas Jasa Keuangan mengenai penerapan tata kelola bagi bank umum.
3. Selama 1 (satu) tahun terakhir tidak memiliki hubungan dengan Bank yang dapat mempengaruhi kemampuan saya untuk bertindak independen.
4. Apabila kemudian hari ditemukan bahwa saya memiliki hubungan sebagaimana dimaksud pada angka 1 dan rangkap jabatan sebagaimana dimaksud pada angka 2 maka saya bersedia melepaskan jabatan Direktur Utama saya dan bersedia untuk diganti.

Demikian pernyataan independensi saya, yang telah saya buat dengan sebenar-benarnya.

Jakarta, 28 Mei 2025

Mengandatangani:  
Felicitas Tulluembang  
Komisaris Independen -  
PT Bank Syariah Indonesia Tbk

Anggoro Eko Cahyo

Each member of the Board of Directors must not violate the provisions on concurrent positions. All Directors do not hold concurrent positions either in other companies or other institutions.

The following positions held by members of the Board of Directors are not categorized as multiple directorships, provided that they do not interfere with the performance of duties and responsibilities as Directors:

1. Responsibility for overseeing the Bank's equity participation in subsidiaries;
2. Serving in a functional capacity as a member of the Board of Commissioners of non-bank subsidiaries controlled by the Bank;
3. Responsibility for supervising pension funds or serving as a member of the supervisory board of pension funds owned by the Bank;
4. Performing duties as an Alternate Director; and/or
5. Holding positions in non-profit organizations or institutions, provided that such positions do not result in the neglect of duties and responsibilities as a member of the Board of Directors.

### Management of Conflicts of Interest – Board of Directors

As implemented by BSI, members of the Board of Directors are required to avoid and properly manage any conflicts of interest that may arise in the performance of their duties. BSI has established and implemented an internal conflict of interest policy to identify, mitigate, manage, document, and disclose potential or actual conflicts of interest in decision-making processes, in line with Good Corporate Governance principles and applicable regulations.

### Board of Directors Concurrent Position Policy

Members of the Board of Directors are prohibited from holding other positions as stated below:

1. As a member of the board of directors, member of the board of commissioners, member of the sharia supervisory board, or executive officer at a bank, company, and/or other institution;
2. In the field of functional duties at a bank financial institution and/or non-bank financial institution domiciled in or outside the country;
3. In other positions that may give rise to a conflict of interest in carrying out duties as a member of the Board of Directors; and/or
4. In other positions in accordance with the provisions of laws and regulations

In the event that a conflict of interest arises between the Bank's interests and the personal interests of a member of the Board of Directors, the Bank is represented by another Director who does not have a conflict of interest. Where the interests of the Bank conflict with the interests of all members of the Board of Directors, the Bank is represented by the Board of Commissioners or a party appointed by the Board of Commissioners. If no member of the Board of Commissioners is available, the General Meeting of Shareholders appoints one or more parties to represent the Bank. All conflicts of interest and related transactions are disclosed and documented in meeting minutes

## BOARD OF DIRECTORS

and governance reports in accordance with regulatory requirements, including transparency on related-party transactions.

### AFFILIATED RELATIONS OF THE BOARD OF DIRECTORS

BSI applies transparency and independence in managing affiliated relations among members of the Board of Directors, the Board of Commissioners, and the Sharia Supervisory Board (SSB), both with other members of the governing bodies and with the Bank's Controlling Shareholders. This arrangement forms part of the Bank's implementation of Good Corporate Governance and compliance with regulatory requirements.

Affiliated relations encompass financial and/or family relationships that may give rise to conflicts of interest and affect the objectivity of decision-making. Such relations may include:

- Family relationships by marriage or lineage up to the second degree, both horizontally and vertically.

- Financial relationships reflecting direct or indirect economic interests.
- Management or supervisory relationships with the Bank's Controlling Shareholders.
- Share ownership relationships of members of the Board of Directors, the Board of Commissioners, and/or the SSB in the Bank's Controlling Shareholders as legal entities.

During the reporting period, members of the Board of Directors had no affiliated relations with other members of the Board of Directors, the Board of Commissioners, the Sharia Supervisory Board, and/or the Bank's Controlling Shareholders. Accordingly, the Board of Directors was able to perform its duties and responsibilities independently and professionally.

Details of the affiliated relations of the Board of Directors are presented in the table below.

## Board of Directors Meeting

## Meeting Policy

The Board of Directors has a meeting policy that has been regulated in the Board of Directors' Rules of Procedure. The Board of Directors' meeting policy is as follows:

- The Board of Directors' Meeting may be held at any time if:
  - It is deemed necessary by one or more members of the Board of Directors; or
  - Upon written request from one or more members of the Board of Commissioners.
- The Board of Directors is required to convene meetings on a regular basis at least once every month, joint meetings between the Board of Directors and the Board of Commissioners at least once every 4 (four) months, and joint meetings between the Board of Directors and the Sharia Supervisory Board (SSB) at least once every 4 (four) months, in accordance with the provisions applicable to Sharia Commercial Banks and Commercial Banks with Sharia Business Units.
- The Board of Directors' Meeting as referred to in point (2) of this Article may be held, is valid, and has the right to make binding resolutions if attended by more than 1/2 (one half) of the total members of the Board of Directors present or represented at the meeting.
- The presence of members of the Board of Directors at meetings must be disclosed in the Company's annual report.
- The Board of Directors must schedule a meeting for the following year before the end of the fiscal year.
- At scheduled meetings, meeting materials are submitted to participants no later than 5 (five) calendar days before the meeting is held.
- In case a meeting is held outside the scheduled time, the meeting materials will be submitted to the meeting participants no later than before the meeting is held.
- The invitations for the Board of Directors' Meeting shall be made by a member of the Board of Directors, who is entitled to represent the Board of Directors. The summons for the Board of Directors' Meeting must be delivered by any means in written form to each member of the Board of Directors no later than 5 (five) calendar days before the Meeting is held, excluding the date of the Summons and the date of the Meeting, or within a shorter time if in urgent circumstances. If all members of the Board of Directors are present or represented, the prior Summons is not required and the Board of Directors' Meeting shall be entitled to make valid and binding resolutions.
- The invitations must include the agenda, date, time, and venue of the meeting.
- Board of Directors meetings are held at the Company's domicile or at the place of business activities, at the domicile of the Stock Exchange, at the place where the Company's shares are listed, or at another place within the territory of the Republic of Indonesia.
- The Board of Directors Meeting is chaired by the President Director. In case the President Director is absent or prevented from attending the Board of Directors Meeting for any reason, which does not need to be proven to a third party, one of the members of the Board of Directors, who is present and selected at the Board of Directors Meeting, may chair the Board of Directors' Meeting.
- A member of the Board of Directors may be represented at a Board of Directors' Meeting only by another member of the Board of Directors based on a power of attorney.

## BOARD OF DIRECTORS

13. Each member of the Board of Directors present is entitled to cast 1 (one) vote and an additional 1 (one) vote for each other member of the Board of Directors represented by him/her based on a power of attorney.
14. Each member of the Board of Directors who personally in any way, either directly or indirectly, has an interest in a transaction, contract or proposed contract, in which the Company is one of the parties, must state the interest in the Board of Directors' Meeting and is not entitled to participate in voting on matters relating to the transaction or contract, unless the Board of Directors' Meeting determines otherwise.
15. Decision-making at the Board of Directors Meeting is based on deliberation and consensus.
16. In case any decision is not reached by deliberation and consensus, the decision is made based on the majority vote, such as the approval of more than 1/2 (one half) of the members of the Board of Directors present.
17. Dissenting opinions that occur in decisions of the Board of Directors' Meeting must be clearly stated in the minutes of the Board of Directors' Meeting along with the reasons for the dissenting opinions.
18. The results of the meeting are stated in the minutes of the meeting, signed by all members of the Board of Directors present, and submitted to all members of the Board of Directors.
19. The results of the meeting are stated in the minutes of the meeting, signed by the members of the Board of Directors and members of the Board of Commissioners present, and submitted to all members of the Board of Directors and members of the Board of Commissioners.
20. In the event that a member of the Board of Directors and/or the Board of Commissioners does not sign the meeting minutes, the relevant member is required to provide a written explanation stating the reasons, in a separate letter to be attached to the minutes of the meeting.
21. Minutes of the Board of Directors' Meeting must be documented by the Company.
22. Minutes of the Board of Directors' Meeting are valid evidence of the Decisions taken in the relevant Board of Directors' Meeting, both for the members of the Board of Directors and for third parties. Blank votes (abstain) are deemed to approve the proposal submitted in the meeting.
23. Invalid votes are deemed to not exist and are not counted in determining the number of votes cast in the meeting.
24. The Board of Directors may also make valid and binding decisions without holding a Board of Directors' Meeting, provided that all members of the Board of Directors have been notified in writing of the said proposals and members.
25. The Board of Directors grants approval for proposals submitted in writing and signs such approval accordingly.
26. Resolutions taken in this manner have the same legal standing as resolutions taken legally in a Board of Directors' Meeting.

Meetings of the Board of Directors may also be conducted through teleconference, video conference, or other electronic communication media that allow all participants to see and/or hear each other directly and participate in the meeting. The minutes of meetings conducted through teleconference or similar communication facilities shall be prepared in writing and circulated to all participating members of the Board of Directors for signature. Decisions taken through such means shall have the same legal force and effect as decisions validly adopted at meetings of the Board of Directors. Provisions regarding meetings of the Board of Directors that are not stipulated in the Articles of Association shall refer to OJK regulations and other applicable laws and regulations.

## BOARD OF DIRECTORS

**Board of Directors Decisions**

Decisions of the Board of Directors are made in accordance with established guidelines and the Board of Directors Charter, which are binding on and remain the collective responsibility of all members of the Board of Directors. In the event of differing opinions, any dissenting views are clearly recorded in the minutes of the Board of Directors' meeting along with the underlying reasons. Copies of the signed meeting minutes are subsequently distributed to all members of the Board of Directors, either in hard copy or electronic form.

**Board of Directors' Meeting Plan**

The Board of Directors' Meeting plan in 2025 was as follows:

| Month     | Agenda                                                                                                                    |
