

PROGRAM  
*of the*  
SOUTHERN MEDICAL  
ASSOCIATION  
SIXTH ANNUAL MEETING

JACKSONVILLE, FLORIDA  
NOVEMBER 12, 13 AND 14  
1912

**PROGRAM OF ENTERTAINMENTS.**

---

(Official Badges for Members and Guests will be Required for Admission.)

---

Tuesday at 5:30 p. m., Alumni Reunions. (Announcement of meeting places for the alumni of various colleges will be made at the opening session.)

Tuesday evening at 9 o'clock an entertainment will be tendered the members, their families and guests by the Board of Trade in its building, Main and Adams streets. The entertainment will be opened by an address of welcome by the President of the Board of Trade, response to which will be made by President James M. Jackson in behalf of the Southern Medical Association. Following these addresses there will be a vaude-program and refreshments.

Wednesday afternoon an automobile ride and reception at the Florida Country Club will be given the ladies.

Wednesday evening at 9:30 (after the public session), a banquet will be served to the members.

### Registration.

The Registration Desks will be found in the Exhibit Hall of the Hotel Seminole, where badges and invitations to social functions will be issued. All matters concerning dues, registration, changes of address and error in initials, etc., and general information are referred to those in charge of the Registration Desks.

Please register before attending the meetings.

---

### Scientific and Commercial Exhibits.

In the Convention Hall of the Seminole Hotel the scientific and commercial exhibits will be placed. There will be a larger number of exhibitors than at any previous meeting, and capable demonstrators will have charge. Most of these exhibits are the same as at the Atlantic City meeting of the American Medical Association, and will, no doubt, prove interesting to physicians and surgeons.

Tulane University's School of Medicine will present a photographic exhibit of work done in its various departments. The photographs of experimental pellagra and beri-beri in animals by Wellman and Bass of the Department of Tropical Medicine are of particular interest.
