SUMMARY OF PROGRAM

Monday, November 12

- First General Session (Addresses of Welcome, President's Address, Orations, Etc.), Continental Memorial Hall (D.A.R. Building), 8:00 p. m.
- Section on Medicine, New Willard Hotel, Ball Room, 2:00 p. m.
- Section on Radiology, Washington Hotel, Hall of Nations, 2:00 p. m.
- Section on Dermatology and Syphilology, Washington Hotel, Room A, 2:00 p. m. Section Dinner, Metropolitan Club, 6:30 p. m.
- Southern States Association of Railway Surgeons, Raleigh Hotel, Ball Room, 9:30 a. m. and 2:00 p. m. Conference of Chief Surgeons, 5:00 p. m.
- Section on Bone and Joint Surgery. Clinics at Baltimore 9:00 a. m. and 2:00 p. m.
- National Malaria Committee, New Ebbitt Hotel, Crystal Room, 2:00 p. m.
- Southern Association of Anesthetists, Burlington Hotel, 8:30 a. m. and 2:00 p. m.
- Conference of Southern States Statisticians, New Ebbitt Hotel, Red Parlor, 10:00 a. m.
- Luncheon Meeting of Board of Trustees, New Willard Hotel, 12:30 p. m.
- Dinner of ex-Presidents of the Southern Medical Association, New Willard Hotel, 6:00 p. m.
- Tea for Women Physicians, The Rochambeau, 5:00-7:00 p. m.
- Golf at Columbia Country Club, Chevy Chase, Md.
- Scientific Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 6:30 p. m.
- Commercial Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 6:30 p. m.

Tuesday, November 13

- Section on Medicine, New Willard Hotel, Ball Room, 2:00 p. m.
- Section on Pediatrics, Washington Hotel, Rose Room, 9:30 a. m.
- Southern Gastro-Enterological Association, New Willard Hotel, Ball Room, 9:30 a. m.
- Section on Radiology, Washington Hotel, Hall of Nations, 2:00 p. m.
- Section on Surgery, Raleigh Hotel, Ball Room, 9:30 a. m.
- Section on Bone and Joint Surgery, Raleigh Hotel, Ball Room, 2:00 p. m.
- Section on Obstetrics, Washington Hotel, Rose Room, 2:00 p. m.
- Section on Urology, Shoreham Hotel, Ball Room, 2:00 p. m.
- Section on Eye, Ear, Nose and Throat, Washington Hotel, Hall of Nations, 9:30 a. m.
- Section on Public Health, New Ebbitt Hotel, Crystal Room, 9:30 a. m.
- Section on Dermatology and Syphilology—Clinics at Baltimore, 2:00 p. m.
- National Malaria Committee, New Ebbitt Hotel, Crystal Room, 2:00 p. m.
- Conference on Medical Education, New Willard Hotel, Parlor 127, 9:30 a. m.
- Southern Association of Anesthetists, Burlington Hotel, 9:00 a. m. and 2:00 p. m. Dinner, 7:00 p. m.
- Reception and Tea for Ladies, Washington Club, 4:00-7:00 p. m.
- Dinner of Presidents and Secretaries of State Medical Associations and State Health Officers, New Ebbitt Hotel, Grill Room, 6:30 p. m.
- Dinner for Visiting Women Physicians, National Club, 6:30 p. m.
- Luncheon Meeting of the Council, New Willard Hotel, 12:30 p. m.
- Women Physicians of the Southern Medical Association, National Club, 5:00 p. m.
- Reception for the President, Members and Guests of the Southern Medical Association, New National Museum, 9:00-11:00 p. m.
- Golf at Columbia Country Club, Chevy Chase, Md.
- Scientific Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 6:30 p. m.
- Commercial Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 6:30 p. m.

2 Program Southern Medical Association

Wednesday, November 14

- Section on Medicine, New Willard Hotel, Ball Room, 2:00 p. m.
- Section on Pediatrics, Washington Hotel, Rose Room, 9:30 a. m. Smoker, University Club, 9:15-11:00 p. m.
- Section on Neurology and Psychiatry, Shoreham Hotel, Ball Room, 9:30 a. m.
- Section on Surgery, Raleigh Hotel, Ball Room, 9:30 a. m.
- Section on Bone and Joint Surgery, Raleigh Hotel, Ball Room, 2:00 p. m.
- Section on Obstetrics, Washington Hotel, Rose Room, 2:00 p. m.
- Section on Urology, Shoreham Hotel, Ball Room, 2:00 p. m.
- Section on Eye, Ear, Nose and Throat, Washington Hotel, Hall of Nations, 9:30 a. m.
- Southern Gastro-Enterological Association, New Willard Hotel, Ball Room, 9:30 a. m.
- Section on Public Health, New Ebbitt Hotel, Crystal Room, 9:30 a. m.
- Southern Association of Anesthetists, Laboratory Demonstrations and Clinics (time and place to be announced).
- Dinner and Round Table of Superintendents and Assistant Physicians of State Insane Hospitals, New Ebbitt Hotel, 6:30 p. m.
- Luncheon Meeting of the Council, New Willard Hotel, 12:30 p. m.
- Alumni Reunions and Dinners.
- Section on Dermatology and Syphilology—Clinics at offices of H. H. Hazen and F. J. Eichenlaub, Washington, 2:00 p. m.
- Joint Dinner Meeting, Section on Surgery and Section on Radiology, Raleigh Hotel, Ball Room, 6:30 p. m.
- Exhibition cavalry and artillery drill, automobile drive and tea for ladies, 1:15 p. m. Automobiles will leave the "Zero Milestone" just south of the White House.
- Golf at Columbia Country Club, Chevy Chase, Md.
- Scientific Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 6:30 p. m.
- Commercial Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 6:30 p. m.

Thursday, November 15

- Section on Surgery, Raleigh Hotel, Ball Room, 9:30 a. m.
- Section on Eye, Ear, Nose and Throat, Washington Hotel, Hall of Nations, 9:30 a. m.
- Section on Pediatrics, Washington Hotel, Rose Room, 9:30 a. m.
- Section on Neurology and Psychiatry, Shoreham Hotel, Ball Room, 9:30 a. m.
- Section on Pathology, New Willard Hotel, Ball Room, 9:30 a. m.
- Section on Public Health, New Ebbitt Hotel, Crystal Room, 9:30 a. m.
- Symposium of the New Born, Washington Hotel, Rose Room, 2:00 p. m.
- Last General Session (Election of Officers, Report of Council, Etc.), Washington Hotel, Rose Room, 2:00 p. m.
- Reception to Members and Guests by the President of the United States at the White House, 12:30 p. m.
- Golf at Columbia Country Club, Chevy Chase, Md.
- Scientific Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 1:00 p. m.
- Commercial Exhibits, New Willard Hotel, Ball Room, 8:00 a. m. to 1:00 p. m.

Friday, November 16

- Program at Baltimore—Clinics, 9:00 a. m. and 2:00 p. m. Dinner, 7:00 p. m.
- Program at University, Va.—Clinics at University of Virginia Hospital, 2:00 p. m.

Saturday, November 17

- Program at Baltimore—Clinics, 9:00 a. m.
- Program at University, Va.—Clinics at University of Virginia Hospital, 9:00 a. m. Football game, University of Virginia vs. Virginia Polytechnic Institute.

PROGRAM OF ENTERTAINMENTS

Tuesday, November 13, 9:00-11:00 p. m. Reception for the President, Members and Guests of the Southern Medical Association, New National Museum.

Thursday, November 15, 12:30 p. m. Reception to Members and Guests of the Southern Medical Association by the President of the United States at the White House.

Golf. Golf at the Columbia Country Club, Chevy Chase, Maryland, each day of the meeting. Dr. H. A. Fowler, 1621 Connecticut Avenue, N. W., is Chairman of the Golf Committee.

Entertainment for Visiting Ladies

Tuesday, November 13, 4:00-7:00 p. m. Reception and tea at the Washington Club, 1701 K Street, N. W. Mrs. Woodrow Wilson will be the guest of honor.

Tuesday, November 13, 9:00-11:00 p. m. Reception for the President, Members and Guests of the Southern Medical Association, New National Museum.

Wednesday, November 14, 1:15 p. m. Exhibition cavalry and artillery drill, automobile drive and tea. Automobiles will leave the "Zero Milestone" on the Ellipse directly south of the White House at 1:15 p. m.

Thursday, November 15, 12:30 p. m. Reception to Members and Guests of the Southern Medical Association by the President of the United States at the White House.

Entertainment for Visiting Women Physicians

Monday, November 12, 5:00-7:00 p.m. Tea for women physicians by the President of the Woman's Medical Society of the District of Columbia, The Rochambeau, 1815 Connecticut Avenue, N. W.

Tuesday, November 13, 6:30 p. m. Complimentary dinner to visiting women physicians by the Woman's Medical Society of the District of Columbia, National Club, American Association of University Women, 1634 Eye Street, N. W.

SPECIAL MEETINGS

Monday, November 12, 12:30 p. m. Luncheon meeting of the Board of Trustees, New Willard Hotel.

Monday, November 12, 6:00 p. m. Dinner of the ex-Presidents of the Southern Medical Association and their wives, New Willard Hotel.

Tuesday, November 13, 12:30 p. m. Luncheon meeting of the Council, New Willard Hotel.

Tuesday, November 13, 6:30 p. m. Dinner meeting of the Presidents and Secretaries of State Medical Associations and State Health Officers, New Ebbitt Hotel.

Tuesday, November 13, 5:00 p. m. The Ninth Annual Meeting of the Women Physicians of the Southern Medical Association will be held at the National Club, American Association of University Women, 1634 Eye Street, N. W. The meeting will be followed by a complimentary dinner given by the Woman's Medical Society of the District of Columbia.

Wednesday, November 14, 12:30 p. m. Luncheon meeting of the Council, New Willard Hotel.

Wednesday, November 14, 6:30 p. m. Dinner and round table of Superintendents and Assistant Physicians of State Insane Hospitals, New Ebbitt Hotel.

Alumni Reunions and Dinners. The Medical schools in the territory of the Southern Medical Association and some of the larger schools of the East are arranging for alumni dinners for Wednesday evening. The time and place of these various dinners will be announced at the General Session and in the sections.

SCIENTIFIC EXHIBITS

The Scientific Exhibits are on the Ball Room floor of the New Willard Hotel, on F Street side, on same floor with the General Headquarters (Registration Department). There are exhibits here of interest to all. No one attending the meeting should leave without first spending some time with the Scientific Exhibit.

The Army Medical Museum and Library (the Surgeon-General's Library), 7th and B Streets, S. W., will be open to the visiting physicians, 9:00 a. m. to 4:30 p. m. The officers in charge have extended a most cordial invitation to those attending our meeting to visit the Museum and Library and make full use of the wealth of information there.

A permanent health exhibit will be found in the Arts and Industries Building of the National Museum located on the north side of the Mall between 7th and 10th Streets, S. W. Visitors are most cordially invited to view this exhibit. Open from 9:00 a. m. to 4:30 p. m.

COMMERCIAL EXHIBITS

Our Commercial Exhibits this year are more numerous and of greater variety than at previous meetings. The exhibits have a real scientific value, and if you wish to keep abreast of the times, if you wish to know the latest in the drugs and medical appliances, you should visit the exhibits, and plan to take your time in these exhibits. You will be surprised at the great amount of information you can get from a conversation with the men in charge. Most of these exhibits have nothing to sell you; they are there to inform you about their products. Those that have items for sale will gladly give you full information about their wares whether you buy or not.

We urge all who attend the meeting to spend time, spend it leisurely, in the Commercial Exhibits.

A list of the exhibitors and their space numbers will be found on page 74.

ALUMNI REUNIONS AND DINNERS

Time and places of the various alumni reunions and dinners will be announced at the General Session and in the sections, and information regarding them is available at Registration Headquarters. Tickets for the dinners can be procured at Registration Headquarters.

GENERAL HEADQUARTERS

Ball Room, New Willard Hotel

Registration, Information, Mail, Etc.

Make use of our General Headquarters—our Registration and Information Departments. Ask anything you want to know, and if our Informations cannot answer they will try to find out for you.

See that your doctor friends register. We want to know the name of every doctor in attendance.

BALTIMORE PROGRAM

If you plan to go to Baltimore for the Clinics and evening entertainment be sure to register promptly. Those in charge of the Baltimore program must know by Wednesday morning how many to provide for. *Be sure to register at Registration Headquarters.*

Friday, November 16, 9:00 a. m.

University of Maryland Hospital
Medical Clinics
Surgical Clinics
Specialties

Friday, November 16, 2:00 p. m.

Mercy Hospital
Medical Clinics
Surgical Clinics
Specialties

Johns Hopkins University School of Hygiene

Friday, November 16, 7:00 p. m.

Supper and General Entertainment, Medical and Chirurgical Faculty Building. A good supper, good music and general fraternizing—no formality, no dress suits, no speeches, unless spontaneous and called out on the moment.

Saturday, November 17, 9:00 a. m.

Johns Hopkins Hospital
Medical Clinics
Surgical Clinics
Specialties

The Pimlico races are on at this time and those who wish to enjoy some recreation along with the Clinics will have this added attraction at Baltimore.

UNIVERSITY OF VIRGINIA PROGRAM (Charlottesville)

**Friday, November 16, 2:00 p. m., and Saturday,
November 17, 9:00 a. m.**

University of Virginia Hospital
Medical Clinics
Surgical Clinics
Specialties

On Saturday there will be one of the big football games of the season at the University of Virginia—the University of Virginia plays Virginia Polytechnic Institute. This promises to be one of the most important games of the season and is an added attraction for a stop-over at Charlottesville.

FIRST GENERAL SESSION

Continental Memorial Hall
(D. A. R. Building)

Monday, November 12, 8:00 p. m.

Called to order by Chairman of Committee on Arrangements, Dr. Thos. A. Groover.

Invocation: Dr. Clovis G. Chappell, Pastor, Mt. Vernon Place Methodist Episcopal Church, South.

Address of Welcome in behalf of the Medical Society of the District of Columbia, Dr. Luther H. Reichelderfer, President.

Response to the Address of Welcome in behalf of the Southern Medical Association, Dr. A. T. McCormack, State Health Officer, Louisville, Ky.

President's Address: "Modern Problems of Preventive Medicine," Dr. W. S. Leathers, University, Miss.

Address: "Medicine as an International Influence," Dr. Geo. E. Vincent, President, Rockefeller Foundation, New York, N. Y.

Oration on Public Health: "Potentialities of Public Health as an Influence for Medical Organization," Dr. W. S. Rankin, State Health Officer, Raleigh, N. C.

Oration on Surgery: "The Surgeon—His Obligations," Dr. J. W. Barksdale, Jackson, Miss.

Oration on Medicine: "William Osler, Clinician-Teacher," Dr. Stewart R. Roberts, Atlanta, Ga.

Report of Committee on Arrangements.

SECOND GENERAL SESSION

Washington Hotel, Rose Room

Thursday, November 15, 2:00 p. m.

Report of the Council
New Business
Unfinished Business
Report of Nominating Committee
Election of Officers

SYMPOSIUM OF THE NEW BORN

L. T. Royster, Vice-President, University, Va.,
Presiding

1. "Some Problems in the Care and Feeding of New Born Infants," C. G. Grulee, Chicago, Illinois.
2. "Better Pediatrics for the New Born," J. C. Litzenberg, Minneapolis, Minn.
3. "The Care of the New Born from the Public Health Point of View," J. H. Mason Knox, Jr., Baltimore, Md.
4. "The Diagnosis and Treatment of Intracranial Hemorrhage in the New Born," John Foote, Washington, D. C.

Discussion opened by L. R. DeBuys, New Orleans, La.; J. D. Love, Jacksonville, Fla.; W. A. Mulherin, Augusta, Ga.; J. H. Park, Houston, Tex.; F. J. Underwood, Jackson, Miss.

MEMORANDA

SECTION ON MEDICINE

New Willard Hotel, Small Ball Room

Officers of Section

Chairman—Allan Eustis, New Orleans, La.
V.-Ch'n—Douglas VanderHoof, Richmond, Va.
Secretary—Sydney R. Miller, Baltimore, Md.
Stenographer—Wm. Whitford, Chicago, Ill.

Monday, November 12, 2:00 p. m.

1. Chairman's Address: "A Plea for the More General Consideration of Intestinal Toxemia in the Diagnosis and Treatment of Disease" (Lantern Slides), Allan Eustis, New Orleans, La.

In typhoid fever, asthma, urticaria, often leads to correct diagnosis. Cases of uremia, liver disease and diabetes. Conclusions: plea for more consideration. Whipple's work on blood in determination of conjugate and fall phenols.

2. "Myxoedema and Hypothyroid States" (Lantern Slides), John T. King, Jr., Baltimore, Maryland.

Discussion opened by T. P. Sprunt, Baltimore, Md.; S. A. White, Washington, D. C.; T. N. Barnett, Richmond, Va.

3. "The Etiology and Treatment of the Usual Gastric Symptoms of Pulmonary Tuberculosis," R. McBrayer, Shelby, N. C.

Discussion opened by A. W. Calloway, Asheville, N. C.; F. B. Adams, Washington, D. C.; C. L. Minor, Asheville, N. C.; L. B. McBrayer, Sanatorium, N. C.

4. "Endocarditis as a Factor in Acute Infections," C. A. Ray, Charleston, W. Va.

Discussion opened by Manfred Call, Richmond, Va.; W. S. Thayer, Baltimore, Md.

5. "Clinical Study of Hypertension," Robert Wilson, Jr., Charleston, S. C.

Discussion opened by L. F. Barker, Baltimore, Md.; M. L. Graves, Galveston, Tex.

6. "Focal Infection: Is It a Practical Theory?" W. T. Wootton, Hot Springs, Ark.

Discussion opened by M. L. Graves, Galveston, Tex.; B. W. Fontaine, Memphis, Tenn.

7. "The Importance of Intensive Diagnostic Study," W. A. Dearman, Long Beach, Miss.

Discussion opened by Stewart R. Roberts, Atlanta, Ga.; Randolph Lyons, New Orleans, La.

Tuesday, November 13, 2:00 p. m.

SYMPOSIUM ON INSULIN

8. "The Insulin Treatment of Diabetes," R. T. Woodyatt, Chicago, Ill.
Discussion opened by A. L. Walters, Indianapolis, Ind.
9. "Insulin in the Treatment of Severe Diabetes" (Lantern Slides), J. E. Paullin, Atlanta, Ga.
Discussion opened by J. S. McLester, Birmingham, Ala.; I. I. Lemann, New Orleans, La.
10. "The Use of Insulin by the General Practitioner," Seale Harris, Birmingham, Ala.
Discussion opened by J. E. Paullin, Atlanta, Ga.; Chas. McCann, Baltimore, Md.
11. "The Parasitism of Fat," K. H. Beall, Fort Worth, Tex.
Discussion opened by J. E. Paullin, Atlanta, Ga.; Seale Harris, Birmingham, Ala.; A. E. Greer, Houston, Tex.
12. "Clinical Studies of the Pancreatic Enzymes in Duodenal Contents" (Lantern Slides), Daniel N. Silverman, New Orleans, La.
Discussion opened by S. K. Simon, New Orleans, La.; T. R. Brown, Baltimore, Md.
13. "The Creatinin Test for Renal Function" (Lantern Slides), Ralph Major, Kansas City, Mo.
Discussion opened by Louis Hamman, Baltimore, Md.; J. S. McLester, Birmingham, Ala.
14. "Spirochetosis Bronchialis. Report of Case" (Lantern Slides), A. E. Greer, Houston, Tex.
Discussion opened by Louis Hamman, Baltimore, Md.; C. C. Bass, New Orleans, La.

Wednesday, November 14, 2:00 p. m.

15. "Multiple Myeloma, with Report of Two Cases" (Lantern Slides), John W. Scott, Lexington, Ky.
Discussion opened by Louis Hamman, Baltimore, Md.; J. C. Flippin, University, Va.; Randolph Lyons, New Orleans, La.
16. "Vascular Crises in the Cerebral Circulation," Lewis M. Gaines, Atlanta, Ga.
Discussion opened by Randolph Lyons, New Orleans, La.; B. W. Fontaine, Memphis, Tenn.; G. Canby Robinson, Baltimore, Md.

17. "A Study of Eczema as an Allergic Phenomenon," W. T. Vaughan, Richmond, Va.
Discussion opened by H. S. Bernton, Washington, D. C.; Sydney R. Miller, Baltimore, Md.
18. "Some Important Etiological Factors in the Production of Cardiovascular Diseases," Noble P. Barnes, Washington, D. C.
Discussion opened by L. F. Barker, Baltimore, Md.; Maurice Pincoffs, Baltimore, Md.; L. T. Royster, University, Va.
19. "A Survey of the Intestinal Parasites Found in Territory Supplied by St. Thomas' Hospital, Nashville, Tenn." (Lantern Slides), J. A. Witherspoon and Jack Witherspoon, Nashville, Tenn.
Discussion opened by K. M. Lynch, Dallas, Tex.; Geo. M. Niles, Atlanta, Ga.; S. K. Simon, New Orleans, La.
20. "The Differential Leucocyte Count in a Subtropical Climate," J. B. Wallace, Tampa, Fla.
Discussion opened by W. P. Adamson, Tampa, Fla.; R. H. McGinnis, Jacksonville, Fla.; S. R. Miller, Baltimore, Md.

Election of Officers.

MEMORANDA

SECTION ON PEDIATRICS

Washington Hotel, Rose Room

Officers of Section

Chairman—W. McKim Marriott, St. Louis, Mo.
V.-Chairman—H. Leslie Moore, Dallas, Tex.
Secretary—Oliver W. Hill, Knoxville, Tenn.
Stenographer—Miss Margaret I. Maloney, Chicago, Ill.

Tuesday, November 13, 9:30 a. m.

1. Chairman's Address: "The Treatment of the Child," W. McKim Marriott, St. Louis, Mo.
2. "Tuberculosis in Infancy," Oscar Schloss, New York, N. Y.
3. "Tongue-Tie, an Important Factor in the Bottle Fed Baby," S. A. Visanska, Atlanta, Ga.

An infant is never thoroughly examined unless you look for this condition. The breasts must be stimulated and emptied if you desire an adequate milk supply.

Discussion opened by Wm. Weston, Columbia, S. C.; W. L. Funkhouser, Atlanta, Ga.

4. "Pyrexias of Obscure Origin," Philip F. Barbour, Louisville, Ky.

Differential points in the recognition of inanition fever, septic infection of the newborn, tuberculosis, malaria and the relation of the infected tonsils, adenoids, sinuses, middle ear diseases and other local infections to obscure fever.

Discussion opened by Ludo Von Meysenbug, New Orleans, La.; R. J. Estill, Lexington, Kentucky.

5. "Further Observations Upon the Shadows of the Thymus and the Heart" (Lantern Slides), L. R. DeBuys and E. C. Samuels, New Orleans, La.

Additional studies by means of the x-ray upon the shadows of the thymus and the heart at birth. These same cases studied also at the sixth and the twelfth months. Comparisons. Some shadows of especial interest.

*Discussion opened by Wm. Engelbach, St. Louis, Mo.; Wm. Weston, Columbia, S. C.

6. "Endocrine Therapy in Infancy and Childhood," John Howland, Baltimore, Md.

A consideration of the principles underlying such therapy.

Discussion opened by Philip F. Barbour, Louisville, Ky.; Chas. Boynton, Atlanta, Georgia.

Wednesday, November 14, 9:30 a. m.

SYMPOSIUM ON DIARRHEA

7. "Bacteriology of Diarrhea," Wilburt C. Davison, Baltimore, Md.

Relation of the duodenal flora to diarrhea. Lack of correlation between fermentative and putrefactive stool flora, and nutritional disturbances. Relation of the reaction (pH) of the stomach and duodenum to nutritional disturbances. The relation of the amylase, rennet and trypsin content of the stomach and duodenum to digestive disturbances. Effect of external atmospheric temperatures on digestion.

8. "Predisposing and Exciting Causes of Diarrhea," Owen H. Wilson, Nashville, Tenn.

Diarrhea, a preventable disease. Prevention means education of mothers and physicians to increase resistance by proper hygiene and feeding, and by prompt attention to dietetic disorders. Regulations to be observed in the presence of pre-disposing causes.

Discussion opened by D. Lesesne Smith, Spartanburg, S. C.; Eugene Rosamond, Memphis, Tenn.

9. "Treatment of Diarrhea," N. C. Womack, Jackson, Miss.

1. Medical treatment. 2. Dietary treatment. 3. Serum treatment. 4. Symptomatic treatment, combating exhaustion, acidosis, etc., supporting the patient, etc.

Discussion opened by R. M. Pollitzer, Charleston, S. C.; W. L. Funkhouser, Atlanta, Ga.

10. "Therapeutic Value of the Bacteriophage in the Treatment of Bacillary Dysentery" (Charts), Ralph C. Spence and Earl B. McKinley, Dallas, Tex.

Twenty-six cases of bacillary dysentery were treated with the bacteriophage. The stools were cultured at the time the treatment was begun and were found positive for either *B. dysenteriae* Shiga or *B. dysenteriae* Flexner in all cases included in this series. Each case was treated with the bacteriophage, lytic for both of these strains was given by mouth in 10 c.c. doses, three times per day. The blood and mucous disappeared from the stools and the temperature subsided in from three to five days after the treatment was begun, and the stools became normal in number and character with complete recovery of the patient in from five to ten days. Suitable controls are included with the series.

Discussion opened by Arthur G. Jacobs, Memphis, Tenn.; E. A. Hines, Seneca, S. C.

11. "Chronic Heart Disease in Childhood Without Rheumatic Fever," Hugh McCulloch, St. Louis, Mo.

Definition of rheumatic fever. Description of course of heart disease occurring in children who do not have such rheumatic fever. Relation to nasal and paranasal sinus infection, respiratory infection and malnutrition. Nephritis. Prognosis and treatment.

Discussion opened by Edward Clay Mitchell, Memphis, Tenn.; Lewis W. Elias, Asheville, N. C.

12. "Pediatrics Popularized," J. Ross Snyder, Birmingham, Ala.

A frank expose of the tendency to "pink tea" pediatrics displayed by many confreres and as exhibited in family magazines, handbooks, treatment by long distance, etc.

Discussion opened by Chas. Boynton, Atlanta, Ga.; Frank H. Richardson, Black Mountain, N. C.

Wednesday, November 14, 9:15 p. m.

Pediatric Smoker, 9:15 to 11:00 p. m. University Club, 15th and Eye Streets, N. W.

Thursday, November 15, 9:30 a. m.

13. "Malnutrition of School Children," Noble D. McCormack, Ft. Smith, Ark.

The large number of undernourished children, seen by the pediatrician and general practitioner. Extreme importance of correct feeding in first and second years of life. Careful supervision of habits at all times. School surveys. Various factors tending to cause malnutrition and their correction.

Discussion opened by J. Buren Sidbury, Wilmington, N. C.; W. A. Mulherin, Augusta, Georgia.

14. "Sickle Cell Anemia" (Lantern Slides), V. P. Sydenstricker, Augusta, Ga.

This condition has been observed only in negroes. The principle symptoms are: muscle and joint pains, dyspnoea, epigastric and hypochondriac pain (left side) with occasional nausea and vomiting. There is scleral jaundice of a peculiar type, general glandular enlargement, a diagnostic blood picture and urobilinuria. The degree of anaemia varies greatly and the disease may exist in a latent form recognizable as an acholitic jaundice with characteristic changes in the erythrocytes under test conditions. The condition is familial and hereditary and may be a cause of severe anaemia in negro children.

Discussion opened by John Huck, Baltimore, Md.; W. A. Mulherin, Augusta, Ga.

15. "Therapeutic Fetishes in Pediatrics," John Foote, Washington, D. C.

Many drugs and medicines used because of custom. Careful study of their pharmacology omitted. Modern methods and modern knowledge have rendered the use of some of these illogical. Pharmaceutical habits as enduring as any other kind. Some examples of prescription habits. "Therapeutics of each generation may be ridiculous to the succeeding one."

Discussion opened by W. M. Barton, Washington, D. C.; John Zahorsky, St. Louis, Missouri.

CASE REPORT SESSION

A time limit of five minutes will be strictly enforced during this session for the presentation of each case. Two minutes will be allowed for discussion.

1. "Tetany in a Breast Fed Baby with a Decided Increase in Convulsions After Receiving Saline Hypodermoclysis," Charles Conrad, Harrisonburg, Va.

Discussion opened by Arthur W. Shawkey, Charleston, W. Va.; I. W. Faison, Charlotte, N. C.

2. "Anemia in the New Born with Report of a Case," H. H. Donnally, Washington, D. C.
Discussion opened by Borden S. Veeder, St. Louis, Mo.; T. D. Parke, Birmingham, Ala.

3. "Two Cases of Pylorospasm," James H. Atlee, Chattanooga, Tenn.

Discussion opened by W. W. Harper, Selma, Ala.; Edward Clay Mitchell, Memphis, Tenn.

SECTION ON PATHOLOGY

New Willard Hotel, Small Ball Room

Officers of Section

Chairman—A. G. Kelley, Atlanta, Ga.
V.-Chairman—F. M. Johns, New Orleans, La.
Secretary—Kenneth M. Lynch, Dallas, Tex.
Stenographer—F. H. Monk, Washington, D. C.

Thursday, November 15, 9:30 a. m.

1. Chairman's Address: "The New Section," A. G. Kelley, Atlanta, Ga.
2. Organization Address: "The Place of Pathology in the Medical Sciences," William G. MacCallum, Baltimore, Md.
3. "The Pathology of Experimentally Induced Dengue Fever," C. W. Duval, New Orleans, La.
Discussion opened by H. T. Marshall, University, Va.; Leon S. Lippincott, Vicksburg, Miss.
4. "Factors Regulating Cellular Growth and Their Importance in the Explanation of Cancer" (Lantern Slides), Montrose T. Burrows, St. Louis, Mo.

Our observations have indicated that the loss of the property of an independent active growth in early embryonic life is the direct result of the separation of the cell by the developing intercellular materials and blood vessels. A careful study of growth in the tissue culture has shown definitely that this act in the body cells depends on the accumulation of a catalysing substance about the cells. This substance is soluble in the circulating fluids of the body. It is a product of the normal energy-producing reactions in the cell. In the normal adult organism this substance is removed constantly and cannot accumulate in quantities sufficient to produce growth except after injury or when the production of these products is increased like in increased function. Cancer is the result of anything which like coal tar and many other substances or conditions builds again a cellular mass like that peculiar to early life. Such displaced cells in the organism cannot develop intracellular substances but simply reproduce themselves. Growth is continuous in this mass as long as food material is supplied by the body. Metastases are possible. Cancer is the normal outcome therefore of any substance or condition which builds densely cellular tissue in any part of the organism.

Discussion opened by W. McKim Marriott, St. Louis, Mo.; J. A. Lanford, New Orleans, La.; W. R. Pinnell, Lexington, Ky.

5. "The Opportunity in the South for Medical and Public Health Laboratories, as Exemplified by the Pathological Institute of the University of Tennessee, College of Medicine. (1) The Federation of Laboratories Constituting the Pathological Institute. (2) The Demand Upon These Laboratories and Their Growth During the Two Years of Existence of the Pathological Institute," Harry C. Schmeisser and William Krauss, Memphis, Tenn.

Discussion opened by Stewart Graves, Louisville, Ky.; Elizabeth Bass, New Orleans, Louisiana.

Election of Officers.

MEMORANDA

**SECTION ON NEUROLOGY AND
PSYCHIATRY**

Shoreham Hotel, Ball Room

Officers of Section

Chairman—W. G. Somerville, Memphis, Tenn.
V.-Chairman—Beverley R. Tucker, Richmond, Va.
Secretary—G. H. Benton, Miami, Fla.
Stenographer—(Wed.) F. H. Monk, Washington,
D. C.; (Thurs.) Wm. Whitford, Chicago, Ill.

Wednesday, November 14, 9:30 a. m.

1. Chairman's Address: "Who is Responsible for the Drug Addict?" William G. Somerville, Memphis, Tenn.

2. "The Present Status of Intraspinial Therapy in the Treatment of Neurosyphilis," Lewis M. Gaines, Atlanta, Ga.

Brief resume of various intraspinal methods. An effort is made to ascertain whether there has been a crystallization of opinion in regard to standardization. Results of questionnaire submitted to a selected list of neurologists and syphiologists is given. The author's experience with selected illustrative cases is appended. Conclusions as a result of this study.

Discussion opened by C. M. Byrnes, Baltimore, Md.; M. L. Graves, Galveston, Tex.

3. "Sugar Content of Cerebrospinal Fluid in Syphilis of the Nervous System," A. G. Kelley, Atlanta, Ga.

4. "Tic Douloureux with Suggestions for Treatment," James H. Randolph, Jacksonville, Fla.

Definition. Historic highpoints. Accepted methods of treatment. Author's method. Report of case. Conclusion—advantage of this method.

5. "The Clinical Spread of Lethargica Encephalitis (Based Upon the Encephalitic Material at the Barnes Hospital)," Sidney I. Schwab, St. Louis, Mo.

6. "The Parkinsonian Syndrome, a Late Sequel of Epidemic Encephalitis," G. Wilse Robinson, Kansas City, Mo.

Occurs in most instances many months after the acute attack. Is there a subacute process which continues active in the globus pallidus, or is the virus quiescent during the intervening period, and this sequelle a result of renewed activity? Case reports. Treatment discussed.

Discussion opened by J. Cheston King, Atlanta, Ga.; John W. Stevens, Nashville, Tenn.

Thursday, November 15, 9:30 a. m.

7. "Extensor Rigidity Following a Penetrating Wound of Both Hemispheres" (Lantern Slides), C. C. Coleman, Richmond, Va.

The patient, young adult, received a wound from a bullet which entered the right motor cortex, traversing the roof of the right lateral ventricle and subcortical motor area of the left hemisphere. The case afforded a basis for clinical application of certain experimental observations on the condition of decerebrate rigidity.

Discussion opened by G. W. Brown, Williamsburg, Va.; Beverley R. Tucker, Richmond, Va.

8. "Situation Psychoses and Their Management," Tom A. Williams, Washington, D. C.

Discussion opened by Adolph Meyer, Baltimore, Md.; J. K. Hall, Richmond, Va.; James Terrill, Dallas, Tex.

9. "Antisocial Behavior: Its Genesis and Treatment," Louis E. Bisch, Asheville, N. C.

Definitions and terms. What constitutes antisocial behavior. Economic loss, legislation, and law enforcement entailed through the antisocial behavior of a relatively small part of the population. Contrast between former and present attitudes of society toward offenders. Justification for considering all forms of antisocial behavior disease processes or developmental maladjustments of various forms. Author's statistics and observations in the Psychopathic Laboratory at the New York Police Department. Author's suggested classification for various kinds of antisocial behavior. Exposition and amplification. Differentiation between antisocial behavior secondary to diseased or undeveloped cortical cells and antisocial behavior that may be termed "sui generis." Deficiencies of society's provisions of former class. Plea for medical treatment of the latter.

Discussion opened by Wm. A. White, Washington, D. C.; Ralph Greene, Jacksonville, Fla.

10. "Mental Hygiene in St. Louis," M. A. Bliss, St. Louis, Mo.

A unique opportunity is presenting itself to neuropsychiatrists in the awakening of the public mind to the part played by mental disease and defect in public health, and in the various phases of community welfare. There is a large gain in cooperating with public officials who are now seeking guidance in the successful management of their problems. Various phases of dependency and delinquency necessitate the study of the mental factors. Description of steps taken in the creation of a central psychiatric.

Discussion opened by W. D. Partlow, Tuscaloosa, Ala.; G. H. Benton, Miami, Fla.

11. "Focal Infection and Toxemias in Disorders and Diseases of the Nervous System, with Some Remarks on Therapy," Curran Pope, Louisville, Ky.

The recognition of the factor of focal infection as a primary cause of distinctive neural states. Its influence secondarily upon certain endocrine disturbances and physical states. The neglect of the present-day clinician to appreciate toxemia and infection from the colon. Toxemias as a factor in many so-called "nervous" ("neurasthenoid") and fatigue neurosis. Its influence upon psychic states. Therapy many times a failure. Too much medicine (chemicals), too little common sense. Hygiene, diet, exercise, vaccines, proteins, serums, chemicals, psychotherapy (of all kinds) and physiotherapy are the modern means to an end in neural diseases and disorders. Tentative conclusions: Focal infection does play a part generally in neurology. Toxemia (bacterial or otherwise) an important part, little appreciated. The colon and its disorders, a frequent causative factor that neurologists rarely, if ever, investigate and practically never treat. Treatment along the lines outlined, employing all measures before enumerated offers a wide field for successful therapy.

The Army Medical Museum will exhibit neurological preparations.

Election of Officers.

Chairman—D. Y. Keith, Louisville, Ky.
Vice-Chairman—J. W. Landham, Atlanta, Ga.
Secretary—W. R. Bethea, Memphis, Tenn.
Stenographer—Miss Margaret I. Maloney, Chicago, Ill.

Monday, November 12, 2:00 p. m.

1. Chairman's Address: "Roentgen Aid in the Acute Abdomen," D. Y. Keith, Louisville, Kentucky.
2. "Roentgen Diagnosis in Urology" (Lantern Slides), Robert H. Lafferty, Charlotte, N. C.
Discussion opened by John Armentrout, Roanoke, Va.; Leon J. Menville, New Orleans, La.
3. "Spontaneous Pneumothorax," J. A. Meadows, Birmingham, Ala.
Discussion opened by John D. MacRae, Asheville, N. C.; Everett S. Lain, Oklahoma City, Okla.
4. "Sinus Development and Roentgen Findings" (Lantern Slides), John J. Shea, Memphis, Tenn.
Discussion opened by Wm. O. Ford, Nashville, Tenn.; D. A. Rhinehart, Little Rock, Ark.

Lantern Slides and Case Reports.

Tuesday, November 13, 2:00 p. m.

5. "A Practical Method for the Application of X-Ray Dosage" (Lantern Slides), Henry J. Walton, Howard E. Ashbury and Chas. R. Edwards, Baltimore, Md.
Discussion opened by Chas. A. Waters, Baltimore, Md.; E. A. Merritt, Washington, D. C.
6. "The Management and Measurement of X-Ray Radiation in Deep Seated Malignancies" (Lantern Slides), E. C. Ernst, St. Louis, Mo.
Discussion opened by R. H. Millwee, Dallas, Tex.; H. G. McCormack, Laurel, Miss.
7. "Fractional Dose Method in the X-Ray Treatment of Skin Malignancies" (Lantern Slides), J. M. Martin and C. L. Martin, Dallas, Tex.
Discussion opened by E. C. Samuel, New Orleans, La.; J. W. Landham, Atlanta, Ga.

8. "Effect of Irradiation on Malignancy and Patient," S. S. Marchbanks, Chattanooga, Tenn.

Discussion opened by A. L. Gray, Richmond, Va.; J. H. Walters, Ocala, Fla.

Lantern Slides and Case Reports.

Election of Officers.

Wednesday, November 14, 6:30 p. m.

Raleigh Hotel, Ball Room

Plate Dinner—Joint Session with the Section on Surgery—Price per plate \$3.00. Tickets at Registration Headquarters

"Presentation of Radiation in the Female Breast with Special Reference to the Radiation Before and After Surgical Operation."

Radiology: George E. Pfahler, Philadelphia, Pa.

Surgery: W. E. Sistrunk, Rochester, Minn.

The members of all other sections are extended a cordial invitation to attend the dinner, and are urged to make reservations early in order that adequate arrangements may be made.

SECTION ON DERMATOLOGY AND
SYPHILOLOGY

Washington Hotel, Room A

Officers of Section

Chairman—J. B. Shel mire, Dallas, Tex.
V.-Ch'n—J. L. Kirby-Smith, Jacksonville, Fla.
Secretary—J. M. King, Nashville, Tenn.
Stenographer—Miss F. E. Dillan, Indianapolis,
Ind.

Monday, November 12, 2:00 p. m.

1. Chairman's Address: "Dermatology in the South," J. B. Shel mire, Dallas, Tex.
2. "Purpura" (Lantern Slides), Everett S. Lain and Marion M. Roland, Oklahoma City, Okla.

Not a specific disease, but a symptom. Etiology may be due to several factors. Case history. Treatment depending upon etiologic factor.

Discussion opened by Wm. R. Bathurst, Little Rock, Ark.

3. "Hair Growth," Thomas W. Murrell, Richmond, Va.

When a department of medicine does not fulfill its mission quackery is the result. The beauty parlor treatments of falling hair is due to the insufficiency of dermatology. Hair growth is of extreme importance to the laity. Lack of physiological knowledge leads them to adopt fallacious ideas. Hair growth must come from endocrine stimulation. Hair loss or superfluous hair can be due to faulty endocrine action. The different types of hair and endocrine control. Secondary factors in stimulating hair growth. Methods of stimulation.

Discussion opened by C. Augustus Simpson, Washington, D. C.

4. "A Treatment of Epidermomycoses of the Feet and Hands," Andrew L. Glaze, Birmingham, Ala.

Methods of treatment in general use unsatisfactory. The author's so-called "radical treatment." Advantages. Comparative results.

Discussion opened by Miller B. Hutchins, Atlanta, Ga.; J. M. King, Nashville, Tenn.; Marcus Haase, Memphis, Tenn.

5. "A Remarkable Absence of Arsphenamin Reactions in a Large Syphilis Clinic," Marcus Haase and C. H. Marshall, Memphis, Tenn.

Brief discussion of the mild and severe arsphenamin reactions. Discussion of author's experience with arsphenamin (old) in the University of Tennessee clinic for the past four years. About 18,000 injections have been given with no severe reactions and a negligible number of mild reactions.

Discussion opened by H. H. Hazen, Washington, D. C.; Joseph A. Elliott, Charlotte, N. C.

6. "Treatment of Syphilis in Dispensary Practice," Earl D. Crutchfield, Galveston, Tex.

Review of three to four hundred cases treated. Number previously treated for other conditions. Number seen in various stages. Number who take adequate treatment. Results of treatment. Social aspect of syphilis. Control of patients and treatment. Number clinically cured. Number relapses and pathological location. Conclusion as to results and possible results in dispensary practice.

Discussion opened by I. L. McGlasson, San Antonio, Tex.; M. L. Graves, Galveston, Tex.; F. J. Eichenlaub, Washington, D. C.

6:30 p. m.

Annual Dinner, Metropolitan Club, 17th and H Streets, N. W.

Presiding, H. H. Hazen, Washington, D. C.

Address: "Modern Dermatologic Therapy" (Lantern Slides), Howard Fox, New York, N. Y.

Tuesday, November 13, 2:00 p. m.

Clinic, Dermatology and Syphilis, Medical and Chirurgical Faculty Building, Baltimore. Lloyd W. Ketron, Baltimore, Md.

Wednesday, November 14, 2:00 p. m.

Clinic, Dermatology and Syphilis, Offices of H. H. Hazen and F. J. Eichenlaub, 1912 R Street, N. W., Washington, D. C.

2. "Further Observations on Urinary Antisepsis," Hugh H. Young, Baltimore, Md.
Discussion opened by Francis R. Hagner, Washington, D. C.; Montague L. Boyd, Atlanta, Ga.
3. "The Presenting Symptoms, Findings and Ultimate Diagnosis in Five Hundred Consecutive Cases Presented for Ureteral Catheterization" (Lantern Slides), Raymond Thompson and Lester C. Todd, Charlotte, N. C.
Discussion opened by John T. Geraghty, Baltimore, Md.; Edgar G. Ballenger, Atlanta, Georgia.
4. "Intra-Ureteral Manipulations," George R. Livermore, Memphis, Tenn.
Discussion opened by John R. Caulk, St. Louis, Mo.; H. W. E. Walther, New Orleans, La.
5. "Indications for Nephrectomy in Non-Malignant Diseases of the Kidney," Austin I. Dodson, Richmond, Va.
Discussion opened by Jos. F. Geisinger, Richmond, Va.; E. G. Ballenger, Atlanta, Ga.

Wednesday, November 14, 2:00 p. m.

6. "The Surgical Treatment of Benign Prostatism," W. Calhoun Stirling, Winston-Salem, N. C.
Discussion opened by John T. Geraghty, Baltimore, Md.; H. A. Fowler, Washington, D. C.
7. "Diagnosis and Treatment of Certain Conditions of the Vesical Neck," E. G. Ballenger and O. F. Elder, Atlanta, Ga.
Discussion opened by H. A. Fowler, Washington, D. C.; George R. Livermore, Memphis, Tenn.; Montague L. Boyd, Atlanta, Georgia.

8. "Experimental Nephrotomies," Albert E. Goldstein and Wm. J. Carson, Baltimore, Maryland.

Discussion opened by H. A. Fowler, Washington, D. C.; Geo. R. Livermore, Memphis, Tenn.

9. "An Experimental Study of Ureteral Transplantation Into the Lower Bowel" (Lantern Slides), A. I. Folsom and George T. Caldwell, Dallas, Tex.

Discussion opened by H. G. Greditzer, St. Louis, Mo.; Raymond Thompson, Charlotte, N. C.; Austin I. Dodson, Richmond, Va.

Election of Officers.

SECTION ON OBSTETRICS

Washington Hotel, Rose Room

Officers of Section

Chairman—John T. Altman, Nashville, Tenn.
Vice-Chairman—Edward Speidel, Louisville, Ky.
Secretary—Jas. R. Garber, Birmingham, Ala.
Stenographer—Miss F. E. Dillan, Indianapolis, Ind.

Tuesday, November 13, 2:00 p. m.

1. Chairman's Address: "Progress in Obstetrics," John T. Altman, Nashville, Tenn.
2. "Diagnosis and Management of Hemorrhages in the Later Months" (Lantern Slides), John Osborn Polak, Brooklyn, N. Y.
3. "Practical Points in Pelvic Surgery" (Lantern Slides), Thomas S. Cullen, Baltimore, Maryland.
Discussion opened by Cunningham Wilson, Birmingham, Ala.; Lucius E. Burch, Nashville, Tenn.
4. "The Treatment of Eclampsia and Nephritis Complicating Pregnancy" (Lantern Slides), Greer Baughman, Richmond, Va.
Discussion opened by M. P. Rucker, Richmond, Va.; B. H. Gray, Richmond, Va.
5. "Prophylaxis in Obstetrics," Ivan Proctor, Raleigh, N. C.
Discussion opened by M. P. Rucker, Richmond, Va.; Oren Moore, Charlotte, N. C.
6. "Hyperemesis," G. Fraser Wilson, Charleston, S. C.
Discussion opened by Edward Speidel, Louisville, Ky.; Burnley Lankford, Norfolk, Va.

Wednesday, November 14, 2:00 p. m.

7. "Post-Natal Care," Buford G. Hamilton, Kansas City, Mo.
Discussion opened by M. P. Rucker, Richmond, Va.
8. "End Results in Obstetrics," J. W. Bourland, Dallas, Tex.
Discussion opened by G. V. Morton, Fort Worth, Tex.; George H. Lee, Galveston, Tex.
9. "The Etiology and Pathology of a Relaxed Vaginal Outlet Following Childbirth," Lucius E. Burch, Nashville, Tenn.
Discussion opened by Hubert Royster, Raleigh, N. C.; Guy L. Hunner, Baltimore, Md.

10. "Management of Lactation with Special Reference to Use of Electric Breast Pumps," Carter S. Fleming, Fairmont, W. Va.
11. "Fatalities in Obstetrics," J. George Dempsey, Registrar, Bureau of Vital Statistics, State Board of Health, New Orleans, La.
Discussion opened by Edward Speidel, Louisville, Ky.; W. A. Plecker, State Registrar of Vital Statistics, Richmond, Va.

CASE REPORTS—If time permits there will be an open session each day for the presentation of cases. A time limit of five minutes will be enforced for presenting the case; two minutes for discussion.

Election of Officers.

MEMORANDA

MEMORANDA

SECTION ON OPHTHALMOLOGY, RHINOLOGY, OTOTOLOGY AND LARYNGOLOGY

Washington Hotel, Hall of Nations

Officers of Section

Chairman—John H. Foster, Houston, Tex.
Vice-Chairman—John J. Shea, Memphis, Tenn.
Sec'y—H. Marshall Taylor, Jacksonville, Fla.
Stenographer—Miss F. E. Dillan, Indianapolis, Ind.

Tuesday, November 13, 9:30 a. m.

1. Chairman's Address: "Post-Diphtheritic Laryngeal Stenosis," John H. Foster, Houston, Tex.
2. "Paroxysmal Cough, a Frequent Symptom of Infection of the Para-Nasal Sinuses" (Illustrated), C. G. Coakley, New York, N. Y.
3. "Persistent Infantile Ethmo-Sphenoidal Sinuses" (Lantern Slides), John J. Shea, Memphis, Tenn.

The study of the development of the para-nasal sinuses and the influences they suffer from the infections of childhood. The advantages of this knowledge in diagnosis and prognosis of adult sinus disease.

Discussion opened by W. B. Mason, Washington, D. C.; Jos. Heitger, Louisville, Ky.; W. P. Reaves, Greensboro, N. C.

4. "Diagnosis and Treatment of Sinus Disease," M. F. Arbuckle, St. Louis, Mo.

Discussion of proper examination and equipment required. Comparison of normal and inflamed mucous membrane and discussion of inflammation without pus. Importance of recognizing facts upon which diagnosis may be based. Differential diagnosis and cooperation with other branches in study of complications. Occurrence in children much more frequent than generally thought. Results of treatment better if taken early. Treatment of chronic inflammation of the sinuses. Results.

Discussion opened by Robert Caldwell, Little Rock, Ark.; G. B. Tribble, Washington, D. C.; F. E. Hasty, Nashville, Tenn.

5. "A Recapitulation of the Indications, Technic and Final Results of the Frontal Sinus Operation Which Has Given Me the Best Results" (Lantern Slides), Robert C. Lynch, New Orleans, La.

1. Further observations on the indications for radical pansinus operation. 2. The consideration of the pathology of a chronically inflamed and degenerated sinus mucous membrane. 3. The scrupulous attention to the detail of technique as illustrated by lantern slides. 4. Final results from functional and cosmetic standpoint and final analysis of cases operated on for more than two years.

Discussion opened by Virginus Dabney, Washington, D. C.; Lee Cohen, Baltimore, Md.; C. W. Richardson, Washington, D. C.

6. "Some of the Causes of Excessive Bleeding After Tonsillectomies," Samuel Kirkpatrick, Selma, Ala.

Troublesome hemorrhages following tonsillo-adenoidectomy, both primary and secondary, are more prevalent than the literature on the subject shows, as only fatal cases are reported. Mortality from this cause is too high. In addition to local causes, such as anatomical variations and faulty technique, there is a constitutional cause which can usually be foretold. All hookworm patients are potential bleeders and furnish the greatest number of late hemorrhages. Coagulation time and bleeding time are not synonymous. All cases with slow coagulation time are very likely to give trouble, but conversely, a normal coagulation time does not insure safety. Specialists should endeavor to standardize the operation of tonsillectomy.

Discussion opened by Jos. B. Greene, Asheville, N. C.; F. C. Schrieber, Washington, D. C.; J. F. Townsend, Charleston, S. C.

Wednesday, November 14, 9:30 a. m.

Exhibition of New Instruments and Appliances

7. "Sixth Nerve Paralysis in Suppurative Affections of the Middle Ear, and Its Complications," Homer Dupuy, New Orleans, La.

Dorrello's canal and the sixth nerve. The influence of pressure and toxic neuritis in causing this paralysis. A deep-seated cerebral abscess and sixth nerve function. Does the sixth nerve paralysis always indicate deep-seated suppuration?

Discussion opened by Oscar Wilkinson, Washington, D. C.; W. A. Weiss, Baton Rouge, La.; E. G. Gill, Roanoke, Va.

8. "Cicatricial Stenosis of the Esophagus: Its Prevention and Treatment" (Lantern Slides and Motion Pictures), Chevalier Jackson, Philadelphia, Pa.

9. "Laryngeal Abscess," John B. Wright, Raleigh, N. C.

1. Anatomical relations of the larynx. 2. The box structure of the larynx makes a moderate degree of edema of serious consequence possible. 3. Report of two cases in which staphylococci were dominant organisms in both abscesses and tonsils. 4. Interesting coincident; both cases had an abscess of the tonsils, one before the laryngeal abscess formed and the other immediately afterwards.

Discussion opened by E. W. Carpenter, Greenville, S. C.; M. C. Pincoffs, Baltimore, Md.; G. M. Maxwell, Roanoke, Va.

10. "The Relationship Between Disease of the Eye and Ear," Dunbar Roy, Atlanta, Ga.

This subject is one of more importance than one would be led to believe judging the paucity of literature. Much has been written concerning the relationship between disease of nasal cavities with their accessory sinuses and diseased conditions of the eye, but with the exception of the ophthalmoscopic appearances of the optic disc in its relationship to brain abscess of otitic origin. The diseased relationship between these two organs has seldom been mentioned. The subject of otolaryngology has been entirely divorced from the eye in the practice of many men doing this special work, and yet a familiarity with both of these branches is almost a sine qua non for the eminently skilled specialist in these branches. This is attested by the pioneer work of such familiar names as Knapp, Cruaning, Sattler, Kipp and others. The writer would divide the subject into two heads: 1. Affections of the eye which can be attributed as the cause of, or at least closely related to, certain aural disturbances. 2. Affections of the ear which can be attributed as the cause of certain ocular disturbances. These two divisions will be considered in the light of the literature and clinical reports as an aid to the present oto-laryngologist in a further study of this important subject.

Discussion opened by E. B. Cayce, Nashville, Tenn.; C. M. Miller, Richmond, Va.; E. Gatewood, Richmond, Va.

11. "Importance of the Systemic Treatment in Pathologic Conditions of the Eye, Ear, Nose and Throat," J. A. Stucky, Lexington, Ky.

Danger of overlooking and neglecting dealing scientifically with causes producing conditions requiring surgical treatment. Too much special attention given to relieving local symptoms and not enough to removing the cause of many ophthalmological and oto-rhinological conditions. Danger of becoming expert technicians and underdeveloped helpless practitioners. In large percent of cases relief must come from what is done within the body. Need surgical judgment and technique as well as insight and far sight of family physician. Summary of illustrative cases.

Discussion opened by M. M. Cullom, Nashville, Tenn.; H. H. McGuire, Winchester, Va.; Seale Harris, Birmingham, Ala.

12. "The Value of Nasal Surgery in Reflex Asthma," E. L. Posey, Jackson, Miss.

Nasal obstruction and hypertrophied tonsils and adenoids may produce reflex asthma. In some cases there is a sensitization to their own sinus discharge. A thorough examination of the upper respiratory tract is imperative in all asthmatic patients. Case reports.

Discussion opened by Edward A. Looper, Baltimore, Md.; C. A. McWilliams, Gulfport, Miss.; W. P. Greening, Paul's Valley, Okla.

Thursday, November 15, 9:30 a. m.

13. "Removal of Intra-Ocular Foreign Bodies," Norman M. Heggie, Jacksonville, Fla.

The purpose of this paper is to deal with intraocular foreign bodies (principally those amenable to magnet) and their method of extraction; with emphasis on accurate history taking, ophthalmic examination and thorough X-ray study of the case, with removal of body through the wound of entrance when possible.

Discussion opened by William S. Manning, Jacksonville, Fla.; Clyde A. Clapp, Baltimore, Md.; R. S. Lamb, Washington, D. C.

14. "A Thesis on the Etiology of Glaucoma—And a New Operation" (Lantern Slides), J. W. Jervey, Greenville, S. C.

The etiology of glaucoma is not definitely known, but vitreous enlargement though today as an at least tentatively accepted fact in typical glaucoma, and many operations have been devised to relieve the pressure behind the intraocular diaphragm. Re-establishment of patency of Schlemm's canal must of course remain as an essential feature in the relief of intraocular pressure, but the usual methods of iridectomy, trephining, etc., seem lacking to some extent both in technical design and therapeutic effect. The author has worked out an operative procedure combining in simple technique, anterior sclerotomy, vitreous decompression and a somewhat unique method of retroversive iridectomy which seem to him to meet the essential operative demands. He has designated the operation "Sclero-post-iridectomy." It is applicable only to cases of chronic glaucoma of non-congestive type. A report of seven eyes operated on by this method is incorporated in the paper.

Discussion opened by J. W. Burke, Washington, D. C.; Louis S. Green, Washington, D. C.; Henry Dickson Bruns, New Orleans, Louisiana.

15. "Some Problems in the Diagnosis and Treatment of Choroiditis," Hiram Woods, Baltimore, Md.

The aim of the paper will be to present the etiologic factors which have to be looked for; some of the uncertainties in the search for cause, and some dangers. Treatment when a probable etiology has been found, and therapeutic management when after painstaking search we are forced to classify the case as "idiopathic."

Discussion opened by E. C. Ellett, Memphis, Tenn.; Edward H. Cary, Dallas, Tex.; H. H. Briggs, Asheville, N. C.

16. "Traumatic Cataract," John O. McReynolds, Dallas, Tex.

The paper reviews the mechanism of the production of traumatic cataract, the varying degree of involvement, the time and rapidity of development, the methods of management with special reference to the indications for watchful waiting or for prompt surgical intervention and the immediate and final results.

Discussion opened by Harry Friedenwald, Baltimore, Md.; Joseph A. White, Richmond, Va.; J. McC. Hogshead, Chattanooga, Tenn.

17. "Parenteral Injections of Milk in the Therapeutics of Eye Diseases," T. W. Moore, Huntington, W. Va.

A review of the literature. Personal observations with report of cases. An explanation of the varied results obtained in different localities.

Discussion opened by Halstead S. Hedges, Charlottesville, Va.; W. Herbert Adams, Jacksonville, Fla.; J. C. McDougal, Atlanta, Ga.

18. "Anesthetics in Ophthalmic Surgery," Emory Hill, Richmond, Va.

Several aids to complete anesthesia and abolition of muscular spasm deserve emphasis. They are not new, but are not universally practiced as they deserve to be. (1) Paralysis of the facial nerve by deep injection of novocaine to prevent spasm of the orbicularis. (2) Sub-conjunctival injection of cocaine for anesthesia of the iris. (3) Deep orbital injection of novocaine for paralysis of the ciliary nerves in enucleations, avoiding a general anesthetic.

Discussion opened by W. H. Wilmer, Washington, D. C.; H. H. Martin, Savannah, Ga.; Harold Bailey, Springfield, Mo.

Election of Officers.

MEMORANDA

SECTION ON PUBLIC HEALTH

New Ebbitt Hotel, Crystal Room

Officers of Section

Chairman—Henry Boswell, Sanatorium, Miss.
V.-Chairman—E. B. Wise, Chattanooga, Tenn.
Secretary—Roy K. Flannagan, Richmond, Va.
Stenographer—Miss Mary Robinson, Raleigh,
N. C.

Tuesday, November 13, 9:30 a. m.

1. Chairman's Address: "The Purposes of a Public Health Section," Henry Boswell, Director Bureau of Tuberculosis, Sanatorium, Miss.
2. Address: Royal S. Copeland, United States Senator, New York, N. Y.
3. "The Elements of a Good Health Department," C. Hampson Jones, Chief Health Officer, Baltimore, Md.
Discussion opened by R. C. Turck, State Health Officer, Jacksonville, Fla.; W. W. McDonell, City Health Officer, Jacksonville, Fla.
4. "Communicable Disease Control in the Rural Districts," H. S. Mustard, Health Officer, Kingwood, W. Va.
Discussion opened by Carl A. Grote, Greensboro, N. C.; L. L. Lumsden, Hygienic Laboratory, Washington, D. C.
5. "Control of Hookworm Disease in South Alabama," W. G. Smillie, Andalusia, Ala.
Discussion opened by W. S. Keister, Health Officer, Charlottesville, Va.; S. W. Welch, State Health Officer, Montgomery, Ala.
6. "Diphtheria Control," C. C. Hudson, Chief Health Officer, Richmond, Va.
Discussion opened by J. S. Mitchener, Epidemiologist, State Board of Health, Raleigh, N. C.

Wednesday, November 14, 9:30 a. m.

7. "Public Health Education—A Duty of Health Departments," G. M. Cooper, Assistant Secretary, State Board of Health, Raleigh, N. C.
Discussion opened by Roy K. Flannagan, Assistant Health Commissioner, Richmond, Va.; E. A. Hines, Seneca, S. C.
8. "Deaths from Violence in Some of the Larger Southern Cities," J. J. Durrett, Health Officer, Memphis, Tenn.
Discussion opened by J. P. Kennedy, Atlanta, Ga.; John Callan, New Orleans, La.; J. D. Dowling, Birmingham, Ala.

9. "Public Health Value of Periodic Examinations of Apparently Healthy Individuals," A. T. McCormack, State Health Officer, Louisville, Ky.
10. "The Present Status of Public Health Work," Oscar Dowling, State Health Officer, New Orleans, La.
11. "Child Hygiene and the Sheppard-Towner Fund," Ethel M. Watters, Associate Director of Maternal and Infant Hygiene, Children's Bureau, Department of Labor, Washington, D. C.

Discussion opened by Mary E. Brydon, Director Child Welfare, State Board of Health, Richmond, Va.; F. J. Underwood, Director, Bureau of Child Welfare, State Board of Health, Jackson, Miss.

12. "A Food Poisoning Outbreak Apparently Due to Bacilli of the Enteritidis Group," J. E. Noble, Health Department, Washington, D. C.

Discussion opened by A. Parker Hutchins, Major, Medical Corps, U. S. A., Washington, D. C.; C. S. Butler, Captain, Medical Corps, U. S. N., Washington, D. C.

Thursday, November 15, 9:30 a. m.

13. "An Adventure in State (?) Medicine," J. A. Hayne, State Health Officer, Columbia, S. C.
14. "The Value of Complete and Accurate Vital Statistics," W. A. Plecker, Registrar of Vital Statistics, State Board of Health, Richmond, Va.

Discussion opened by J. G. Dempsey, Registrar of Vital Statistics, State Board of Health, New Orleans, La.; W. S. Rankin, State Health Officer, Raleigh, N. C.; William Travis Howard, School of Hygiene, Johns Hopkins University, Baltimore, Md.

15. "Observation on Wassermann Test," H. M. Smith, Director of Laboratory, South Carolina State Board of Health, Columbia, S.C.
16. "The Organization of the Joint City and County Health Department," Wm. S. Keister, Health Officer, Joint Health Department, Charlottesville, Va.

Discussion opened by Harry T. Marshall, University, Va.; I. C. Riggins, Director, Nansemond-Suffolk Unit, Suffolk, Va.

17. "Present Status of Social Hygiene Work in the United States," Mark White, Assistant Surgeon-General, U.S.P.H.S., Washington, D. C.

Election of Officers.

**NATIONAL MALARIA COMMITTEE
(Conference on Malaria)**

Acting as the Malaria Division of the Section on
Public Health

New Ebbitt Hotel, Crystal Room

Officers

Honorary Chairman—H. R. Carter, Assistant
Surgeon - General, U.S.P.H.S., Washington,
D. C.

Chairman—S. W. Welch, State Health Officer,
Montgomery, Ala.

Secretary—L. D. Fricks, Surgeon, U.S.P.H.S.,
Memphis, Tenn.

Stenographer—Miss Mary Robinson, Raleigh,
N. C.

Monday, November 12, 2:00 p. m.

1. Chairman's Address: "Some Difficulties from
an Administrative Standpoint in the Con-
trol of Malaria," S. W. Welch, State Health
Officer, Montgomery, Ala.

Discussion opened by L. D. Fricks, Surgeon,
U.S.P.H.S., Memphis, Tenn.; J. A. Le-
Prince, Senior Sanitary Engineer, U.S.P.
H.S., Memphis, Tenn.

2. "The Effect of Change of Level of Impounded
Water on Anopheles Production," H. R.
Carter, Assistant Surgeon-General, U.S.P.
H.S., Washington, D. C.

3. "Malaria Control in the United States—
Retrospect and Prospect," L. D. Fricks,
Surgeon, U.S.P.H.S., Memphis, Tenn.

Discussion opened by John A. Ferrell, Inter-
national Health Board, New York, N. Y.

4. "Seasonal Incidence of Types of Malaria Par-
asites in the Southern States" (Lantern
Slides), M. A. Barber, U.S.P.H.S., Crow-
ley, La.

Discussion opened by C. C. Bass, New Or-
leans, La.

5. (a) "Mosquito Infection Under Natural Con-
ditions and Their Blood-Feeding Habits,"
W. V. King, Bureau of Entomology, Mound,
Louisiana.

(b) "The Preferential Feeding Habits of
Anopheles Quadrimaculatus Monquitoes"
(Lantern Slides), Carroll G. Bull, Balti-
more, Md.

Discussion opened by F. W. O'Connor, Inter-
national Health Board, New York, N. Y.

6. "The Spleen Index in Malaria," S. T. Dar-
ling, International Health Board, New
York, N. Y.

Discussion opened by K. F. Maxcy, U.S.P.H.
S., Montgomery, Ala.

Tuesday, November 13, 2:00 p. m.

CONFERENCE OF SOUTHERN STATES
STATISTICIANS OF THE BUREAUS
OF VITAL STATISTICS

New Ebbitt Hotel, Red Parlor

Officers

President—W. A. Davis, Atlanta, Ga.

Secretary—R. W. Hall, Jackson, Miss.

Monday, November 12, 10:00 a. m.

The third annual Conference of the Southern Statisticians will be called to order by its President, W. A. Davis, with some introductory remarks.

1. "The Organization of a Model State Bureau with Reference to the Employees," Carl F. Raver, State Statistician, Charleston, West Virginia.
2. "Odds and Ends of Each Day in a Bureau of Vital Statistics," F. M. Register, State Director, Raleigh, N. C.
3. "The Importance of Autopsy Before Death Certificates Are Received," J. Geo. Dempsey, State Registrar, New Orleans, La.
4. "How Best to Obtain Death Certificates When No Undertaker is in Charge," W. A. Plecker, State Registrar, Richmond, Va.
5. "Resident and Non-Resident Deaths," S. G. Thompson, State Director, Jacksonville, Fla.
6. "The Sub-Division of Classification of Tetanus Through the Bertillon System," Wm. H. Davis, Chief Statistician, Washington, D. C.
7. "Securing the Cooperation of the Physicians and the Public in Vital Statistics," P. E. Blackerby, State Director, Louisville, Ky.
8. "Dual Causes of Death," H. L. Baugh, State Registrar, Nashville, Tenn.
9. "Discussion of Classification of Death Certificates When Deceased Was Not Attended by a Physician," W. A. Davis, State Director, Atlanta, Ga.
10. "The Problem of Population in Establishing Rates," R. W. Hall, State Director, Jackson, Miss.
11. "Some Benefits that Would Accrue to the South if All Her States Were Accepted Into the Birth and Death Registration Areas of the Bureau of the Census," Wm. H. Davis, Chief Statistician, Washington, D. C.

Election of Officers.

MEMORANDA

SOUTHERN ASSOCIATION OF ANESTHETISTS

Burlington Hotel

Officers

President—Ansel M. Caine, New Orleans, La.
1st V.-Pres.—Olin W. Rogers, Knoxville, Tenn.
2d V.-Pres.—Nettie Klein, Texarkana, Ark.
Secretary—W. Hamilton Long, Louisville, Ky.
Honorary Sec'y—F. H. McMechan, Avon Lake, O.

Monday, November 12, 8:30 a. m.

Address of Welcome and Presentation of Gavel,
Chas. Stanley White, Washington, D. C.

Response on Behalf of the Associated Anesthetists of the United States and Canada, F. H. McMechan, Avon Lake, Ohio.

Response on Behalf of the Southern Association of Anesthetists, Ansel M. Caine, President, New Orleans, La.

SCIENTIFIC SESSION

1. "Pulmonary Infarction Following Gynecological Operations: A Clinical and Roentgenological Study" (Lantern Slides), Lawrence R. Wharton and John W. Pierson, Baltimore, Md.
Discussion opened by G. Brown Miller, Washington, D. C.; Gordon Wilson, Baltimore, Maryland.
2. "Post-Operative Pneumonias," Herman Elwyn, New York, N. Y.
3. "The Importance of Teaching the Signs and Phenomena of General Anesthesia in Detail to Our Medical and Dental Students," J. G. Poe, Dallas, Tex.
4. "The Elimination of Operative and Post-Operative Risk of Mental and Nervous Accidents," D. J. McCarthy, Philadelphia, Pa.

General discussion.

Monday, November 12, 2:00 p. m.

5. "The Control of Post-Operative Hyperthyroidism and Acidosis by the Intravenous Use of Glucose Solution," Emil Goetsch and E. I. Browder, Brooklyn, N. Y.
6. "The Desperate Risk Goitre in Relation to Operation and Anesthesia," Martin B. Tinker, Ithica, N. Y.
7. "Ether Anesthesia and the Acid Base Balance," Harold Austin and G. E. Cullen, Philadelphia, Pa.
8. "Oxygen Supply and Demand in General Anesthesia," Robt. C. Whitehead, Norfolk, Va.

9. "The Effect of Changes in the Blood Chemical Environment of the Kidney on Kidney Function and Pathology" (Lantern Slides), Wm. deB. MacNider, Chapel Hill, N. C.
10. "Anesthesia in Bad Operative Risks," Everett Tyler, Philadelphia, Pa.

General discussion.

Tuesday, November 13, 9:00 a. m.

BUSINESS SESSION

Report of Secretary-Treasurer and of Secretary-General of Associated Anesthetists. General discussion of matters pertaining to the welfare of the Association.

SCIENTIFIC SESSION, 10:00 a. m.

11. "General and Local Anesthesia for Face and Jaw Surgery," Arch L. Miller, D.D.S., Washington, D. C.
12. "Value of Nitrous-Oxide in Oral Surgical Operations" (Lantern Slides), Sterling Mead, D.D.S., Washington, D. C.
13. "Conductive Anesthesia: Its Field and Limitations," Wilbur S. Benedict, D.D.S., Washington, D. C.
14. "The Incidence of Cardio-Vascular Renal Disease in Oral Sepsis," Geo. H. Lathrop, Newark, N. J.

General discussion.

Tuesday, November 13, 2:00 p. m.

15. President's Address: "Ethylene: An Advance, but Not Perfection," Ansel M. Caine, New Orleans, La.
16. "Ethylene-Oxygen Anesthesia-Clinical Experience," S. Griffith Davis, Baltimore, Md.
17. "Laboratory Experiments with Ethylene Dichloride," Cline Chipman and O. B. Hunter, Washington, D. C.
18. "Laboratory Experiments with Ethylene and Other Hydrocarbon Gases," Jas. T. Gwathmey, New York, N. Y.

General discussion.

19. "Iso-Agglutinins Before and After Ether Anesthesia," J. G. Huck, Baltimore, Md.
20. "Further Studies of the Blood Before and After Anesthesia," Mary Gage Day, Kingston, N. Y.

General discussion.

Program Southern Medical Association 73

Tuesday, November 13, 7:00 p. m.

Annual Dinner, Burlington Hotel, \$2.50 per cover.
Impromptu Speeches. Music.

EXCERPTS FROM THE BY-LAWS

Sec. 3. Except by special vote, the order of exercises, papers and discussions as set forth in the official program shall be followed from day to day until it has been completed, and all papers omitted will be recalled in regular order.

Sec. 4. No address or paper before the Association, except the addresses of the President and Orators, shall occupy more than twenty minutes in its delivery; and no member shall speak longer than five minutes nor more than one time on any subject, provided each essayist be allowed ten minutes in which to close the discussion.

Sec. 5. All papers read before the Association shall be the property of the Association for publication in the official journal. Each paper shall be deposited with the Secretary when read, or within ten days thereafter, and if this is not done it shall not be published.

No papers shall be published except upon recommendation of the Publication Committee, which shall consist of the Secretary-Editor as Chairman, with the Chairman and Secretary of each section as its constant members.
