Southern Medical Association

SOUTHERN MEDICAL ASSOCIATION

86TH ANNUAL SCIENTIFIC ASSEMBLY

"SHARE THE VISION"

SCIENTIFIC PROGRAM

November 12-15, 1992
San Antonio Convention Center
San Antonio, Texas

Includes pre-meeting activities November 11, 1992

FUTURE ANNUAL MEETINGS OF THE SOUTHERN MEDICAL ASSOCIATION

87th Annual Scientific Assembly
New Orleans, Louisiana
October 28-31, 1993

88th Annual Scientific Assembly
Orlando, Florida
November 3-6, 1994

89th Annual Scientific Assembly
Kansas City, Missouri
November 16-19, 1995

90th Annual Scientific Assembly
Baltimore, Maryland
November 21-24, 1996

The Southern Medical Association is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

86TH ANNUAL SCIENTIFIC ASSEMBLY
PURPOSE AND OBJECTIVES

In keeping with the Southern Medical Association's mission, which is to develop and foster the art and science of medicine, the Scientific Assembly is the Association's premier annual educational activity. Dedicated to meeting the educational needs of the multi-specialty membership, the Assembly strives to develop and promote continuing medical education, with the ultimate goal of enhancing patient care.

The 86th Annual Scientific Assembly of the Southern Medical Association will provide physicians the opportunity to update their medical knowledge and enhance their clinical skills by offering a multi-faceted curriculum of activities. The major objectives of the Annual Scientific Assembly are:

- To afford specialty physicians the opportunity to present research and clinical experience through the submission of abstracts and presentation of papers to the specialty sections;
- To afford primary and specialty physicians the opportunity to participate in peer-directed specialty sections and to interact in interdisciplinary joint section meetings;
- To complement specialty section meetings with lectures presented by internationally known faculty;
- To present updates and overviews on state-of-the-art techniques and innovative procedures by offering postgraduate courses for both specialists and primary care physicians;
- To complement the postgraduate courses and specialty section meetings through presentation of scientific and clinical symposia, addressing current clinical concerns, presented by nationally recognized experts;
- To promote the role of residents and fellows in clinical research, by providing a forum for their submission and presentation of abstracts, and recognition of their contributions to the educational process;
- To address practical medical concerns and afford physicians the opportunity to exchange clinical information through interactive round table discussions;
- To facilitate the sharing of clinical and research findings, encompassing new and emerging techniques, procedures, and results, through scientific exhibits and poster presentations.

The Southern Medical Association is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

ACCREDITED ACTIVITIES

Pages 6-12

AMA CATEGORY 1

AAFP PRESCRIBED

AOA CATEGORY 2-A

ACEP CATEGORY 1

ACOG COGNATES

AAD CATEGORY 1

The Southern Medical Association is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians. This program was planned and produced in accordance with ACCME Essentials for Continuing Medical Education.

AMA CATEGORY 1, CME CREDIT

The Southern Medical Association designates this continuing medical education activity as Category 1 of the Physician's Recognition Award of the American Medical Association. One credit hour may be claimed for each hour of participation.

Credit hours for the sessions are listed on pages 6-9, and also follow each program.

AMERICAN ACADEMY OF FAMILY PHYSICIANS, CME CREDIT

This program has been reviewed and is acceptable for 43 PRESCRIBED hours by the American Academy of Family Physicians. One credit hour may be claimed for each hour of participation.

Credit hours for the sessions are listed on pages 6-9, and also follow each program.

AOA CATEGORY 2-A—CME CREDIT

This program has been approved by the American Osteopathic Association for 43 hours in Category 2-A. One credit hour may be claimed for each hour of participation.

Credit hours for the sessions are listed on pages 6-9, and also follow each program.

To receive credit, the physician must complete an "Individual Certificate Form," and send it along with a copy of the printed program to the AOA Division of Continuing Medical Education. Forms may be obtained in the SMA Business Office, Room 103.

CME CREDIT HOURS

SMA'S PRESIDENT'S MESSAGE

Dear Colleague:

John F. Redman, M.D.

Welcome to Southern Medical Association's 86th Annual Scientific Assembly! This year we bring to you an even more extensive array of educational, social, and recreational programs than in any year past. We have expanded our Postgraduate Courses to cover 33 different and cutting edge topics. With the success of the Round Table Luncheon Sessions last year in Atlanta, we are bringing you a total of 27 this year. To add to your local experience, we are fortunate to have two prominent Texas natives joining our meeting. John Stoessinger will address our Opening Ceremony festivities, and Dr. Red Duke our President's-Doctors' Day Awards Luncheon. The exciting state of Texas will further be spotlighted at our President's Reception held at San Antonio's own Institute of Texas Cultures. And as always, we have a terrific night of entertainment in store for you featuring well known entertainer John Denver at the President's Night Dinner Dance.

This year we are pleased to inaugurate our Youth Program, complete with activities and entertainment for the younger members of your family. We are offering child care services again this year for children aged three months to 12 years.

You see, SMA's Annual Scientific Assembly has something for everyone. We are glad you have joined us to experience the vibrance of San Antonio, and our meeting!

MEETING DETAILS

WHO MAY ATTEND

All scientific activities, meetings, and exhibits at SMA's annual meetings are open to physicians who are eligible for membership in their local and state medical societies. Scientific meetings and exhibits are also open to residents, fellows, medical students, nurses, technicians, and other paramedical personnel.

REGISTRATION

The San Antonio Convention Center will be headquarters for all scientific activities and exhibits, Wednesday, November 11 - Saturday, November 14. You may pick up your badge and other material in the Gallery adjacent to the North Exhibit Hall. Registration hours are from 8:00 a.m. - 5:00 p.m., daily, Wednesday, November 11 - Friday, November 13; and 8:00 a.m. - 3:00 p.m. on Saturday, November 14. Scientific Sessions on Sunday, November 15, will be held at the Marriott Rivercenter Hotel. Registration hours on Sunday are 7:00 - 11:00 a.m., and will be located outside Salons B and C.

REGISTRATION FEES

Registration fees will be assessed to all meeting attendees as follows:

Physician members—$75	ON SITE FEE: $90
Physician nonmembers—$200	ON SITE FEE: $215
Physician/Surgeon Assistant—$175	
Nurse—$75	
Technician—$75	
Spouse/Companion/Staff—$25	

TICKETS

Tickets to all SMA sponsored events may be purchased prior to the event at the SMA registration desks at the San Antonio Convention Center, North Exhibit Hall, Wednesday, November 11 - Saturday, November 14.

REFUND POLICIES

Annual Meeting Registration Fee—Full refund if cancellation received before 5:00 p.m. on Tuesday, November 10. No refunds thereafter.

Postgraduate Courses—Full refund ten days before the meeting date, less a $25 processing charge; 50% refund, less $25 processing charge five to ten days before the meeting date. No refunds thereafter.

Round Table Luncheon Sessions—Full refund less a $10 processing charge, if requested prior to Thursday, November 12. No refunds thereafter.

Social Functions—Full refund until 5:00 p.m. day before the event. No refunds thereafter.

Recreational Activities—Full refund until 5:00 p.m. day before the event. No refunds thereafter.

Auxiliary Programs—Full refund until 5:00 p.m. day before the event. No refunds thereafter.

MEETING DETAILS

MESSAGE CENTER/FAX CENTER

A Message Center will be maintained for the convenience of members and guests of the Southern Medical Association in the SMA registration area, San Antonio Convention Center, North Exhibit Hall. Thanks to Roche Laboratories for sponsoring the SMA Message Center.

THE SAN ANTONIO DIRECTORY

The San Antonio Directory is a complete complimentary reservation and information service that can assist members, guests, and exhibitors in making restaurant reservations. Literature on local tourist attractions will also be available. For reservations, recommendations, and information about fine dining in San Antonio, where to go and what to see, stop at the San Antonio Directory in the Registration Area of the North Exhibit Hall.

SMA OFFICES

EXECUTIVE OFFICE

The Executive Office of the Executive Vice-President and staff will be located at the Marriott Rivercenter Hotel, in Room 530. Office hours are from 8:00 a.m. until 5:00 p.m., Monday, November 9-Saturday, November 14, and from 8:00 a.m. until 12:00 noon on Sunday, November 15.

BUSINESS OFFICE

The Business Office will be located at the San Antonio Convention Center, Room 103, and will be open from 7:00 a.m. until 5:00 p.m., Wednesday, November 11-Saturday, November 14.

SMA PRESS ROOM

The SMA Press Room will be located in the South End of Isle 600 in the Exhibit Hall. SMA Staff will be following and announcing the meeting's exciting events as they unfold. Stop by to complete a release form to let your hometown or alumni group know you have attended the nations' largest multispecialty medical meeting.

SPEAKERS' READY ROOM

For the convenience of those speakers wishing to preview their slide presentations, there will be a Speakers' Ready Room located at the San Antonio Convention Center, Room 106, Wednesday, November 11-Saturday, November 14, 6:30 a.m.-5:00 p.m.

FIRST AID

The first aid room will be located at the San Antonio Convention Center, Gallery Area, adjacent to Registration.

MEETING DETAILS

TAPING OF SCIENTIFIC ACTIVITIES

The Executive Committee of the Council of the Southern Medical Association has adopted a policy whereby no scientific activities may be taped without written permission by the Executive Committee.

Selected sessions will be audiotaped, and will be available for purchase during the Annual Scientific Assembly. Tapes may be ordered and purchased at the Nationwide Recording Services, Inc. booth, located at the SMA Hospitality Center, Exhibit Hall, adjacent to the Education area.

Each registrant may select one (1) FREE audiocassette of any symposium, scientific session, or joint meeting listed on the 1992 order form in your registration information packet. *This free gift is provided by an educational grant from Roche Laboratories.*

The conference special FREE gift will be available only on-site and will not be honored post-meeting.

On-site orders for specific sessions will be taken only through Saturday, November 14 at 1:00 pm; on-site purchases and pick-up will be available through Sunday, 11:00 am, at the President's Symposium.

NON-SMOKING POLICY

The Southern Medical Association has enacted a policy which prohibits smoking in all scientific sessions and the exhibit hall. Smoking is permitted in designated areas located adjacent to the exhibit hall and meeting rooms. Your compliance and cooperation are appreciated.

CME CONCIERGE

A CME Concierge, located in the registration area of the North Exhibit Hall, will be available to provide information about the Scientific Program and CME opportunities for attendees.

SHUTTLE BUS SERVICE

Shuttle bus service will be available to the San Antonio Convention Center from the designated hotels during the following hours:

Wednesday, November 11	8:00 a.m. - 6:00 p.m.
Thursday, November 12	6:30 a.m. - 6:00 p.m.
Friday, November 13	6:30 a.m. - 7:00 p.m.
Saturday, November 14	6:30 a.m. - 6:00 p.m.
Sunday, November 15*	6:30 a.m. - 12:30 p.m.

*Sunday shuttle service is to and from the Marriott only.

All buses will drop off at the Gallery entrance of the San Antonio Convention Center (facing South Alamo Street). Shuttle service is scheduled approximately every 15 minutes.

Hotels
Marriott Rivercenter
Hilton Palacio del Rio
Hyatt Regency

Shuttle service sponsored by SMA Services, Inc., Insurance Marketing.

MEETING DETAILS

CHILDCARE FACILITY

A fully equipped childcare facility with a professionally trained staff is being offered to attendees during the Scientific Assembly. The organization handling the childcare facility, *Accent on Arrangements,* is both bonded and insured. The childcare facility will be located at the Marriott Rivercenter Hotel, and will be available each day, November 12 - November 15, at a daily rate of $7.00 per hour, with a minimum of 10 hours. Evening rates are also available for $8.00 per hour with a minimum of 4 hours. On-site registration will be accepted on a space-available basis. For more information, please contact the SMA Executive Office, located at the Marriott Rivercenter, Room 530.

DISCLOSURE

In planning and developing this year's scientific program, the Southern Medical Association recognized physicians' diverse educational needs for in depth information related to recent advances in medical practice, technology and state-of-the-art procedures. During the course of the meeting, presentations may include discussions about drug interventions, whether FDA approved or unapproved. Therefore, it is incumbent on physicians attending this program to be aware of these factors in interpreting the program contents and evaluating recommendations. Moreover, views of presenters do not necessarily reflect the opinions of the Southern Medical Association. Every effort has been made to encourage presenters to disclose any commercial relationship or personal benefit which may be associated with their presentation. Titles of presentations having a • represent those presenters who have voluntarily acknowledged such a relationship. This disclosure in no way implies that the information presented is biased or of lesser quality. It is provided for informational purposes only.

DISCLAIMER

The primary purpose of the SMA's annual scientific assembly is educational. Information presented and techniques discussed are intended to inform physicians of medical knowledge, clinical procedures and experiences of physicians willing to share such information with colleagues. It is recognized that a diversity of professional opinions exists in the contemporary practice of medicine which influence the selection of methods and procedures. The views and approaches of presenters are offered solely for educational purposes.

The SMA disclaims any and all liability for injury or other damages to any individual attending the Annual Meeting and for all claims which may result from the use of techniques and procedures presented at this meeting.

EXHIBIT HALL ACTIVITIES

- Refreshments provided in Hospitality Area all day—every day
- "Register with Exhibitors for Prizes"—every day
- Drawing for 1993 Mazda MX6—10:15 a.m., Saturday, November 14, 1992
- Texas Tea Party—Friday, November 13, 3:30-5:00 p.m.

EXHIBIT HALL HOURS

Thursday, November 12	8:00 a.m. - 5:00 p.m.
Friday, November 13	8:00 a.m. - 5:00 p.m.
Saturday, November 14	8:00 a.m. - 3:00 p.m.

PHYSICIANS' HOSPITALITY AREA

The Physicians' Hospitality Area is located in the center of the Exhibit Hall. Free refreshments will be provided daily in this area. Physicians are encouraged to visit the Southern Medical Association's Education, Insurance, Physicians' Purchasing Program, and Member Services booths located there. Be sure to pick up your FREE GIFTS in the Hospitality Area.

COMPLIMENTARY REFRESHMENTS

Delicious refreshments will be offered daily. Just one more reason to stop by and view the many interesting exhibits on display. Daily refreshments are sponsored by a grant from Roerig Division, Pfizer Pharmaceuticals.

AMERICAN PHYSICIANS ART ASSOCIATION

The APAA will again present an excellent art exhibit in the Exhibit Hall on Thursday through Saturday during exhibit hours. APAA's 55th Annual Meeting and Exhibition is held in conjunction with SMA's 86th Annual Scientific Assembly.

TEXAS TEA PARTY

The Texas Tea Party will take place Friday, November 13, from 3:30 until closing in the Hospitality Area of the Exhibit Hall. Take this opportunity to view the exhibits while enjoying the complimentary hors d'oeuvres, margaritas, and long-necks. The Texas Tea Party is sponsored by a grant from Pfizer Laboratories, Pfizer Pharmaceuticals.

SMA CAFETERIA

The SMA Cafeteria will be open from 11:00 a.m. until 2:00 p.m. on Thursday through Saturday. A full lunch menu, at reasonable prices, will be provided for physicians, spouses, guests, and exhibitors.

EXHIBIT HALL ACTIVITIES

FREE GOLF CLINIC

A free golf clinic, conducted by golf professional Dave Marr, will be held on Friday, November 13, 9:30 a.m. Sponsored by a grant from Whitby Pharmaceuticals, Inc.

1992 CAR GIVE-AWAY

A 1993 Mazda MX6 will be given away to a lucky SMA physician on Saturday morning, November 14, 10:15 a.m., in the Exhibit Hall. Located in each physician's registration packet is one free raffle ticket for the car give-away. Additional tickets may be purchased for a $50 tax-deductible donation to the Southern Medical Research and Education Foundation in the Registration Area. All tickets must be deposited in a tumbler at the Physicians' Purchasing Booth located in the Hospitality Area prior to the time of the drawing at 10:15 a.m. on Saturday morning. You must be present at the drawing to win the new automobile. Sponsored in part by SMA Services, Inc., Physicians' Purchasing Program.

REGISTER WITH EXHIBITORS FOR PRIZES

Fabulous prizes are being offered for those physicians who participate in the "Register with Exhibitors for Prizes" sweepstakes. By visiting the exhibits you have the opportunity to see and learn about the most up-to-date pharmaceutical products, medical items and services available. In turn, your completed sweepstakes folder, filled out with the required number of booth representative's signatures, makes you eligible for valuable prizes given away daily. Your participation also makes you eligible for the Grand Prize Drawing. Only physicians may participate and gather signatures.

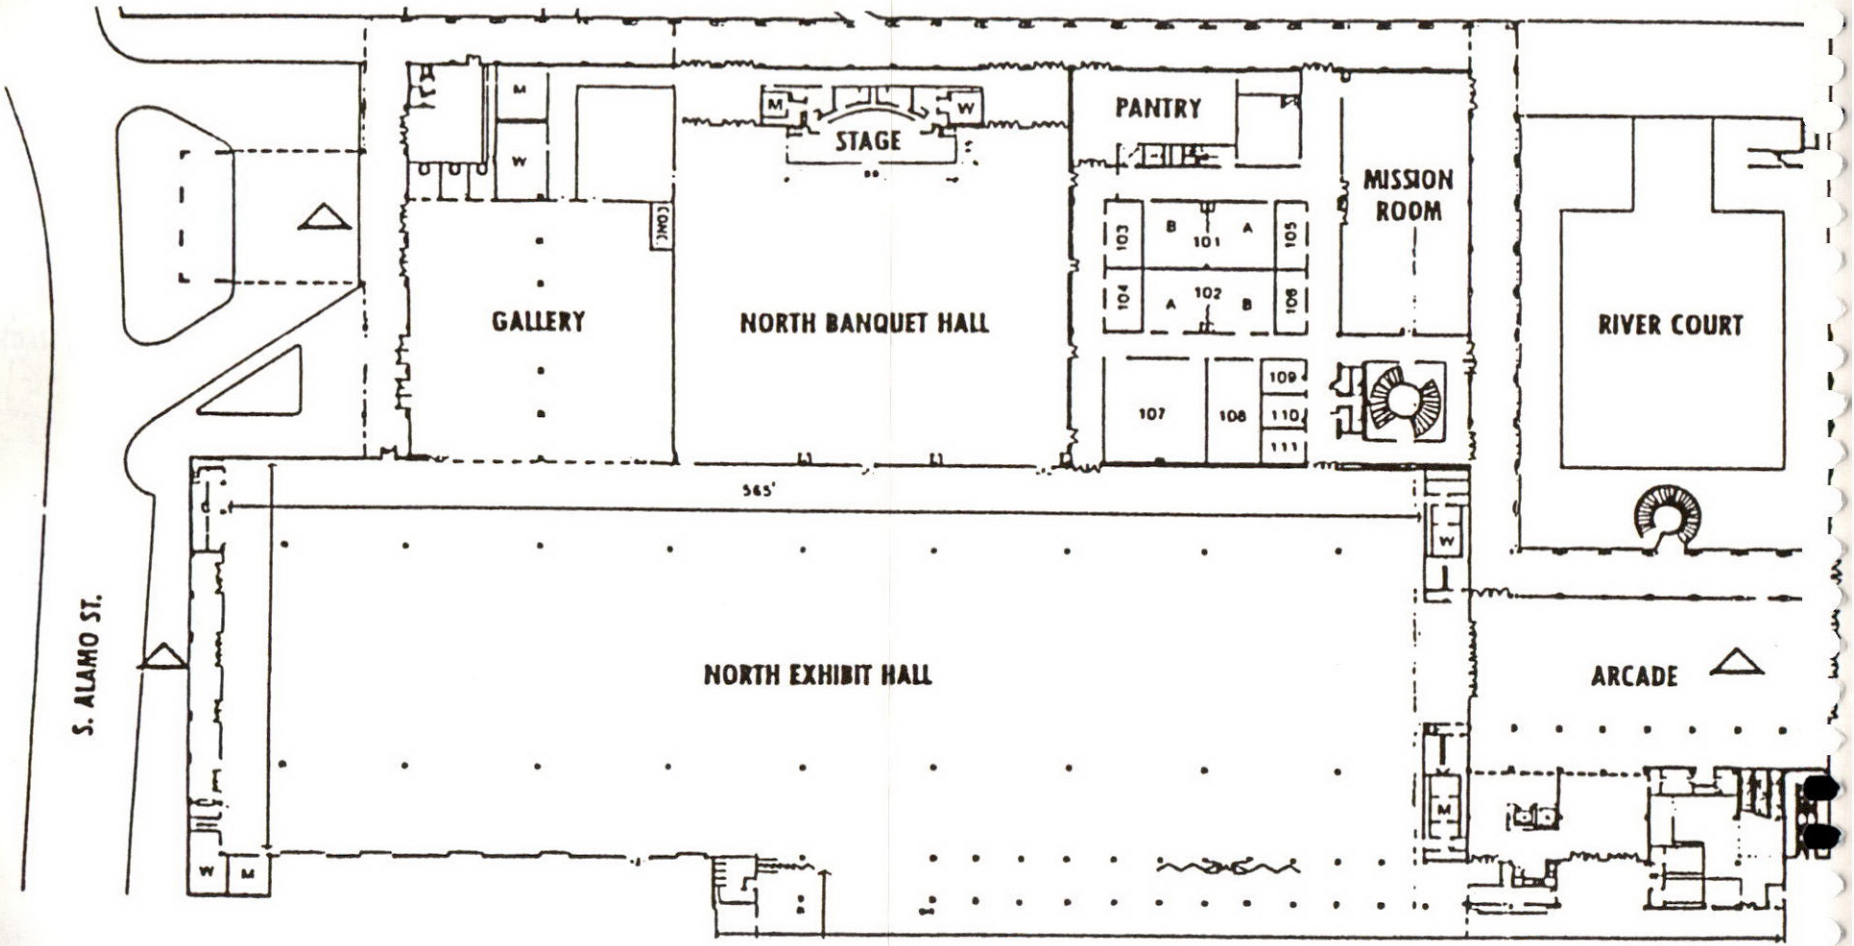

RECEPTION FOR SCIENTIFIC EXHIBITORS AND POSTER PRESENTERS

Please plan to view the Scientific Exhibits and Posters during a special reception on Friday, November 13, 5:00-6:30 p.m. in the Exhibit Hall. Sponsored in part by SMA Services, Inc., Insurance Marketing.

PLEASE VISIT THE
TECHNICAL AND SCIENTIFIC
EXHIBITS AND POSTERS
WHENEVER POSSIBLE.

COURSE T1

NEONATAL RESUSCITATION CERTIFICATION COURSE

University of Texas Health Science Center

THURSDAY, NOVEMBER 12
8:30 AM - 4:30 PM

Bus will depart the Marriott promptly at 7:30 a.m.

PURPOSE AND OBJECTIVES: This course has been developed in conjunction with the American Academy of Pediatrics and The American Heart Association to provide information and training necessary for health professionals in neonatal resuscitation according to AHA-AAP guidelines. The course will be devoted to validating the knowledge and skills of the individual participants and discussing what needs to be done to implement the program at the individual regional or hospital staff level. Each participant will receive a manual prior to the course. Because this training course is given within a compressed time frame, it will be necessary that each person read all the material, pass each of the cognitive post-tests and practice the skills utilizing the performance check-list prior to arriving at the course.

TARGET AUDIENCE: Pediatricians, Emergency Physicians, Obstetricians, Nurses, Family Practitioners, and those responsible for the resuscitation of the newborn.

COURSE DIRECTOR: Rajam S. Ramamurthy, M.D., Associate Professor of Pediatrics, University of Texas Health Science Center at San Antonio, TX.

FEES: Members—$175; Nonmembers—$250; Non-physicians—$160
(Course limited to 30 participants)

SESSION T2

COURSE T2

POSITIVE PRESSURE MECHANICAL VENTILATORY SUPPORT

THURSDAY, NOVEMBER 12
10:45 AM - 6:00 PM

San Antonio Convention Center
Centro C Room
Demonstration Room-Centro B

PURPOSE AND OBJECTIVES: This course will provide a physiologically-oriented, basic overview of management of patients requiring mechanical ventilation. It is designed to provide a comprehensive review for physicians who wish to refresh their knowledge of the current physiological approaches to mechanical ventilatory support. Course faculty will emphasize the importance of physiological bases of mechanical ventilation—the indications and goals, and the choice of appropriate ventilator mode and settings. Faculty will also encourage physicians to adopt a patient-oriented rather than ventilator-oriented approach to mechanical ventilation. At the conclusion of the course, the participant should have a sound knowledge of the physiological indications and goals of mechanical ventilatory support; the current physiological principles for choosing an appropriate primary mode and ventilator settings; the potential complications of mechanical ventilatory support; the use and abuse of positive and expiratory pressure (PEEP); and "weaning" procedures, with emphasis on "weaning difficulties." The pros and cons of various "older" and "newer" modes of mechanical ventilation will be discussed, as well as comments on currently available mechanical ventilators, in terms of characteristics, usefulness, and cost.

TARGET AUDIENCE: Primary care physicians and pulmonologists.

COURSE DIRECTOR: William A. Speir, M.D., Professor of Medicine and Chief, Section of Pulmonary Diseases, Medical College of Georgia, Augusta, GA.

FACULTY: Rolando Berger, M.D., Associate Professor of Medicine, University of Kentucky, Director, Medical Intensive Care Unit, University of Kentucky Medical Center, Lexington, KY; Nausher K. Burki, M.D., PH.D., Professor of Medicine and Chief, Division of Pulmonary and Critical Care Medicine, University of Kentucky, Lexington, KY; Bashir A. Chaudhary, M.D., Professor of Medicine, Section of Pulmonary Diseases, Medical College of Georgia, Augusta, GA; and Stephen S. Lefrak, M.D., Professor of Medicine, Director, Program for the Humanities in Medicine, Washington University, Director, Medical Intensive Care Unit, Jewish Hospital, St. Louis, MO.

FEES: Members—$175; Nonmembers—$235; Non-physicians—$150

The Southern Medical Association acknowledges Siemens Patient Care Systems Division and Purtian Bennett for an unrestricted educational grant in support of this course, and appreciates their interest in continuing medical education.

SESSION T3

COURSE T3

NEGOTIATING IN TODAY'S MEDICAL MARKET PLACE

THURSDAY, NOVEMBER 12
10:45 AM - 12:45 PM

San Antonio Convention Center
Room 208

PURPOSE AND OBJECTIVES: In today's medical market place, the need to negotiate is essential to survival. Negotiating is a specialized art requiring unique skills which can be learned quickly and easily. In this fast paced and content filled seminar, physicians will learn timely negotiation of strategies used by the world's most effective negotiators. More and more of your success in medicine depends on your ability to negotiate well with hospitals, HMO's, PPO's, IPA's, major third-party payors, and government-sponsored reimbursement organizations. You'll learn how to become an effective negotiator at this informative session.

TARGET AUDIENCE: All physicians and office managers

COURSE DIRECTOR: Roger Dawson, Author of *You Can Get Anything You Want,* is a full-time speaker and writer who has trained managers and sales personnel in the U.S., Canada, and Australia. His negotiating techniques are quickly learned and easily adaptable by corporate executives and professionals. He has also written the "Secrets of Power Performance," "The Secrets of Power Persuasion," and "Conflict Decision Making." His publications are frequently cited as the best information ever written on negotiating skills.

FEES: Members—$150; Nonmembers—$175; Non-physician—$125

SESSION T4

COURSE T4

COMPUTERIZING YOUR MEDICAL PRACTICE

THURSDAY, NOVEMBER 12
10:45 AM - 12:45 PM

San Antonio Convention Center
Room 101

PURPOSE AND OBJECTIVES: This course is designed to help determine the right computer solution for your practice. Topics covered: Why you must computerize; what are the benefits of computerization; upcoming federal regulations regarding computerization; choosing the correct hardware and software for your practice; and making your purchase cost effective.

TARGET AUDIENCE: All practicing physicians considering computerizing his/her medical practice.

COURSE DIRECTORS: W. Ross Lawler, M.D., moderator, Associate Professor, Department of Family Practice; James D. Legler, M.D., Assistant Professor, Department of Family Practice, University of Texas Health Science Center, San Antonio, TX; • Kimberly Garrahy, Garrahy & Associates Medical Consultants, San Antonio, TX; and • Steve Noll, S.W. Regional Manager, Quality Systems, Inc., San Antonio, TX.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

FEES: Members—$50; Nonmembers—$75; Non-physicians—$50

SESSION T5

COURSE T5

MANAGING YOUR MONEY MANAGER

THURSDAY, NOVEMBER 12
2:30 - 4:00 PM

San Antonio Convention Center
Fiesta A Room

PURPOSE AND OBJECTIVES: Managing a growing portfolio in today's complex financial environment is an increasingly difficult task. Proficient knowledge of the markets and investment expertise are necessities and, as an investor, you must commit a large measure of your time, energy and resources just to keep up. Many serious investors have turned to a Professional Investment Advisor for help with these decisions. The program on managing your money manager was designed to provide guidelines to assure proper selection and subsequent evaluation of an investment advisor. The program will explore topics including: the advantages and disadvantages of using an investment advisor; setting realistic performance and service expectations; the importance of defining your goals and setting objectives to meet your goals; an overview of the different management styles; how to determine your ideal asset allocation model; and what you can expect to pay for an investment advisor.

TARGET AUDIENCE: The program is appropriate for all Southern Medical Association members, spouses, and guests.

FACULTY: Kenneth R. Parham, Investment Broker and Professional Money Manager Consultant with A.G. Edwards & Sons, Inc., Greenville, SC; and Thomas C. Feilke, Atlanta, GA.

FEES: Members—$25; Nonmembers—$35; Non-physicians—$20

SESSION T6

COURSE T6

INDICATIONS, TECHNIQUES, AND INTERPRETATIONS FOR NON-ENDOSCOPIC GI DIAGNOSTIC TESTING

THURSDAY, NOVEMBER 12
2:30 - 5:30 PM

San Antonio Convention Center
Patio A Room
Demonstrations-Patio B Room

PURPOSE AND OBJECTIVES: The purpose of this course is to address the rapidly expanding number of diagnostic tests that can help the clinician and should be available in an up-to-date modern gastrointestinal diagnostic laboratory. Topics to be discussed include: Indications and actual methodologies used in studies ranging from motility evaluation of the esophagus, stomach, small bowel and colon, including anorectal motility; esophageal pH monitoring both on a short and long-term basis; the concept of ambulatory esophageal motility testing as well as ambulatory aspects of motility testing of the upper gastrointestinal tract and colon; gastric analysis and its role in 1992; tests for the diagnosis of *Helicobacter pylori;* evaluation of serum gastrin levels in the role of the secretin provocative test; studies of pancreatic function and small bowel absorption; breath tests to help diagnose bacterial overgrowth lactose intolerance and gastrointestinal small bowel transit. Additionally, analyses of these studies and how these findings can be interpreted regarding differential diagnosis and implications for treatment approaches will be addressed. Areas of therapy that will be discussed include: Biofeedback for anorectal disturbances including incontinence and constipation; provocative testing in the esophagus which can address the concept of non-cardiac chest pain; follow-up esophageal pH studies and gastric analyses studies to evaluate the effects of appropriate acid suppression; and the effects of prokinetic agents on motility of the gastrointestinal tract. Participants will be afforded the opportunity of hands on experience with computerized motility equipment and there will be demonstrations also possible for the equipment and methods used in other gastrointestinal laboratory studies. At the conclusion of the course, participants should have an understanding of the appropriate indications and expected gains that can be obtained by utilizing a G.I. diagnostic laboratory, and will appreciate what is involved when a patient is referred for these studies and will reassure physicians who refer their patients that these tests are very patient friendly, and well tolerated by the patient, as well as being accomplished in an outpatient ambulatory setting.

TARGET AUDIENCE: Internal Medicine, Family Practitioners, Gastroenterologists, Radiologists, and Colon and Rectal Surgeons.

COURSE DIRECTORS: Richard W. McCallum, M.D., FACP, FACG, Professor of Medicine, Chief, Division of Gastroenterology, University of Virginia Health Science Center, Charlottesville, VA; and Dennis R. Sinar, M.D., Professor of Medicine, Head, Section of Gastroenterology, East Carolina University School of Medicine, Greenville, NC.

FEES: Members—$75; Nonmembers—$105; Non-physicians—$50

SESSION T7

COURSE T7

RISK MANAGEMENT FOR PHYSICIANS PRACTICING IN NURSING HOMES

THURSDAY, NOVEMBER 12
2:30 - 5:30 PM

San Antonio Convention Center
Room 101

PURPOSE AND OBJECTIVES: The purpose of this course is to provide the participant with information about the recent changes in federal law that have resulted in nursing home litigation, which is one of the fastest growing areas of litigation in the country. Some of the more common subjects of lawsuits including decubiti and falls, and also what physicians can do to reduce the risk of being sued will be discussed. Some of the "red flags" that make a suit more likely and common mistakes that doctors make when defending suits will additionally be addressed.

TARGET AUDIENCE: Physicians who provide care for patients in nursing homes.

COURSE DIRECTOR: Malcolm R. Fraser, M.D., is a practicing geriatrician in St. Petersburg, Florida. He is also President of Bay Geriatrics, which provides consulting and risk management services to nursing homes. He has principally testified on behalf of nursing homes in lawsuits.

FACULTY: David Marks, is one of the foremost plaintiff's attorney in nursing home litigation in this country. He is also Chairman of the Nursing Home Litigation Section of the American Lawyers Association. In 1991, he Won over $3 million for his clients in decubiti cases alone. He has extensive experience in all aspects of nursing home litigation.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75

FLEXIBLE SIGMOIDOSCOPY: SCREENING FOR COLORECTAL CANCER

THURSDAY, NOVEMBER 12
2:30 - 5:30 PM

San Antonio Convention Center
Room 210
Demonstrations - Room 209

PURPOSE AND OBJECTIVES: The purpose of this course is to provide both didactic instruction and hands-on practice in the use of flexible sigmoidoscopy for the purpose of early detection of colon and rectum cancer. The program focuses on risk assessment, screening guidelines, indications for use of the scope, and normal and abnormal findings, and consists of lecture, videotape, and discussion, followed by practice with scopes and colon models.

TARGET AUDIENCE: Primary Care Physicians, Family Physicians, Internists, and Obstetricians/Gynecologists.

FACULTY: Allan H. Bailey, M.D., Clinical Instructor, University of Tennessee School of Medicine, Private Practice, Nashville Gastrointestinal Specialists, Inc., Nashville, TN; and Ronald E. Pruitt, M.D., Clinical Instructor, University of Tennessee School of Medicine, Private Practice, Nashville Gastrointestinal Specialists, Inc., Nashville, TN.

FEES: Members—$100; Nonmembers—$140; Non-physicians—$75
(Course limited to 25 participants)

SESSION T9 A-B

COURSE T9 A-B

INTRODUCTION TO CLINICAL HYPERBARIC MEDICINE

Brooks Air Force Base
Building 160

THURSDAY, NOVEMBER 12 (A)
1:00 - 4:00 PM

FRIDAY, NOVEMBER 13 (B)
9:00 AM - 12:00 noon

This course will be offered twice during the Assembly.
Please indicate day A or B when registering.

Bus departs promptly at 12:30 p.m. on Thursday from the San Antonio Convention Center. Bus departs promptly at 8:30 a.m. on Friday from the Marriott Rivercenter Hotel.

PURPOSE AND OBJECTIVES: This course will provide the participant with a basic familiarity of the field of Clinical Hyperbaric Medicine. The program will provide information on the history of diving and hyperbaric medicine, basic pressure physics and physiology, accepted indications for hyperbaric oxygen (HBO) therapy, contraindications to HBO therapy, and types of hyperbaric treatment facilities. At the conclusion of the course, participants should understand the rationale for the use of HBO therapy for a variety of conditions, including problem wounds, selected infections, carbon monoxide poisoning, chronic radiation injuries, and decompression sickness. The course includes a tour of the hyperbaric chamber complex at the Hyperbaric Medicine Division at Brooks Air Force Base.

TARGET AUDIENCE: Primary care physicians, family practitioners, emergency medicine physicians, and surgeons.

COURSE DIRECTOR: Frederick W. Rudge, M.D., Chief of Medical Operations and Director of the Fellowship in Clinical Hyperbaric Medicine, Hyperbaric Medicine Division, Armstrong Laboratory, Brooks Air Force Base, TX.

FACULTY: E. George Wolf, M.D., Chief of Clinical Investigations, Hyperbaric Medicine Division, Armstrong Laboratory, Brooks Air Force Base, TX.

FEES: Members—$75; Nonmembers—$105; Non-physicians—$50
(Each course is limited to 25 participants)

SESSION T10

COURSE T10

PEDIATRIC IMMUNIZATION UPDATE

THURSDAY, NOVEMBER 12
2:30 - 5:30 PM

San Antonio Convention Center
Fiesta C Room

PURPOSE AND OBJECTIVES: This course provides a comprehensive update in the three areas of significant recent changes in recommendations for routine childhood immunizations. This includes: 1) pertussis, and development and licensure of new acellular pertussis vaccines; 2) *H. Influenzae* type B, and development and licensure of several different protein-conjugate vaccines; and 3) hepatitis B, and recommendations for universal implementation of hepatitis B vaccination in all children. Current issues, clinical implementation, and future directions for these three areas of immunization will be presented by authoritative faculty. A question and answer session will follow the three discussions.

TARGET AUDIENCE: Primary Care Physicians, Pediatricians, and Family Physicians.

COURSE DIRECTOR: Hal B. Jenson, M.D., Chief, Pediatric Infectious Diseases, University of Texas Health Science Center at San Antonio, TX.

FACULTY: R. Palmer Beasley, M.D., Dean and Professor, University of Texas School of Public Health, Houston, TX; James D. Cherry, M.D., Chief, Pediatric Infectious Diseases, University of California at Los Angeles, CA; and Robert S. Daum, M.D., Chief, Pediatric Infectious Diseases, The University of Chicago, IL.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75

The Southern Medical Association acknowledges Lederle Laboratories, Merck, Sharp & Dohme, and S. K. Beecham Pharmaceuticals for an unrestricted educational grant in support of this course, and appreciates their interest in continuing medical education.

SESSION T11

COURSE T11

COMPUTER LITERACY FOR THE COMPUTERPHOBE

THURSDAY, NOVEMBER 12
2:30 - 5:30 PM

San Antonio Convention Center
Room 108

PURPOSE AND OBJECTIVES: Do you still think the best available technology for writing and figuring is the number 2 pencil, even though your associates are running circles around you with their computers? Perhaps you suffer a touch of computerphobia. This session is designed to cure you. You'll learn the difference between computer hardware and software, how an operating system makes your computer more than just a paperweight, how to navigate a computer keyboard, and how program applications enable you to increase your productivity. This course will be oriented towards IBM compatible computers. Personal computers will be available for hands-on participation by attendees.

TARGET AUDIENCE: Physicians wanting to learn basic computer literacy.

COURSE DIRECTOR: W. Ross Lawler, M.D., moderator, Associate Professor, Department of Family Practice; James D. Legler, M.D., Assistant Professor, Department of Family Practice, University of Texas Health Science Center, San Antonio, TX; Robert Wood, Instructor, Computer Resources, University of Texas Health Science Center, San Antonio, TX.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75
(Course limited to 24 participants)

SESSION T12

COURSE T12

MAXIMIZING HUMAN RESILIENCE: STRESS MANAGEMENT FOR PHYSICIANS

THURSDAY, NOVEMBER 12
2:30 - 5:30 PM

San Antonio Convention Center
Fiesta B Room

PURPOSE AND OBJECTIVES: There is no life totally without stress, but even busy physicians can learn effective ways of managing and relieving stress. This course will help participants learn about themselves and their usual stress-coping styles, the adverse health effects of prolonged stress, the difference between physiological relaxation and apparent "relaxation" from alcohol and other drugs, and strategies for building better coping skills. This course will begin with each participant completing a "Stress Management Questionnaire" to help assess current stress level and related health risks. This information, followed by practical exercises, didactic presentation, and group discussion, will teach participants new understandings and helpful tips for becoming "psychologically hardy."

TARGET AUDIENCE: Family Physicians, Internal Medicine, Obstetrician/Gynecologists, Neurologists, General Practitioners, Psychiatrists, Nurse Practitioners, Physician Assistants.

COURSE DIRECTOR: Dan Baker, Ph.D., Senior Psychotherapist; Director, Life Enhancement Program, Canyon Ranch Behavioral Health Department, Tucson, AZ.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75

COURSE T13

OPERATIVE HYSTEROSCOPY

FRIDAY, NOVEMBER 13
8:00 AM - 5:00 PM

San Antonio Convention Center
Rehearsal Hall
Demonstrations-VIP Room

PURPOSE AND OBJECTIVES: This course will provide the participant with an overview of the current "state-of-the-art" diagnostic and therapeutic modalities for uterine pathology. The following entities will be discussed: abnormal uterine bleeding; adenomyosis; congenital abnormalities, and Asherman syndrome. Live surgical demonstrations, which will include endometrial ablation and myomectomy, will be performed in the operating room at St. Luke's Hospital, and transmitted live via satellite to a lecture room at the convention center. Course participants can ask questions while viewing the procedures by means of an interactive audio/video network. If possible, septum transection and synechiolysis may also be demonstrated.

TARGET AUDIENCE: Surgeons, Gynecologists, and OR Personnel.

COURSE DIRECTOR: Thierry G. Vancaillie, M.D., Clinical Assistant Professor, Obstetrics and Gynecology, The University of Texas Health Science Center at San Antonio, TX.

FACULTY: David L. Olive, M.D., Moderator, Associate Professor, Chief, Reproductive Endocrinology and Infertility, Yale University School of Medicine, New Haven, CT; and Hugh T. Lefler, Jr., M.D., Private Practice, Ft. Worth, TX.

FEES: Members—$550; Nonmembers—$650; Non-physicians—$350

The Southern Medical Association acknowledges the following companies for an unrestricted, educational grant and appreciates their interest in continuing medical education:

Bard Reproductive Systems
Davol, Inc.
Everest Medical
Karl Storz Endoscopy America, Inc.
Mead Johnson Pharmaceuticals
Roerig, Division of Pfizer Pharmaceuticals
Smith & Nephew Dyonics, Inc.

SESSION T14

COURSE T14

COMPLIANCE WITH CLIA AND OSHA REGULATIONS

FRIDAY, NOVEMBER 13
9:00 AM - 5:00 PM

San Antonio Convention Center
Centro B Room

PURPOSE AND OBJECTIVES: The new OSHA standards for the control of blood-borne pathogens apply to all medical facilities that may "reasonably anticipate" that employees will be in contact with blood or potential infectious materials. Effective dates extend to July 6, 1992 and the penalties for noncompliance are severe. The purpose of this course is to help develop new or improve an existing compliance program that can be immediately and reasonably implemented. On September 1, 1992, the Clinical Laboratory Improvement Amendment will be effective and a CLIA certificate will be required for continued lab operation. Compliance is mandatory for all physician office and medical labs with few exceptions. By initiating compliance now, medical facilities will experience a smoother, less costly and more expedient transition as all requirements of the law become effective. This course will also provide participants with a basis for developing a compliance plan that is financially and operationally effective as well as legally acceptable.

TARGET AUDIENCE: Physicians and selected office staff, clinical, laboratory, nursing, business and testing management and personnel.

COURSE DIRECTOR: Robyn Lee. Ms. Lee is a principal in the Lee-Brooks Consulting Firm and a recognized authority on medical facility legal compliance, laboratory development and quality assurance. Her laboratorian experience is extensive including the development of a blood freezing laboratory for the American Red Cross and a leukophoresis laboratory for the Michael Reese Foundation. She earned her degree in medical technology at Germantown Hospital, Philadelphia. Ms. Lee presently concentrates her efforts on physician office lab quality and productivity improvement through medical staff and physician group assignments.

FEES: Members—$150; Nonmembers—$200; Non-physicians—$125

COURSE T15

THREE THREATS TO TODAY'S INCOME INVESTOR

FRIDAY, NOVEMBER 13
9:00 - 10:30 AM

San Antonio Convention Center
Fiesta A Room

PURPOSE AND OBJECTIVES: Interest rates on bank Certificates of Deposit (CDs) have fallen 56% since 1989 and a full 75% since 1981, yet inflation continues to reduce the purchasing power of our dollar and taxation erodes that dollar even more. The purpose of this program is to review the main threats to today's income investor and provide participants with a number of sound income alternatives, ranging from Government bonds to high yielding stocks. The program will address the importance of balancing risk and reward, determining the relative safety of available investments, tax considerations, and strategies for benefiting from low interest rates. Through a review of historical rates, the program will attempt to provide direction for gauging future interest rate trends.

TARGET AUDIENCE: This program is appropriate for all Southern Medical Association members, spouses, and guests.

FACULTY: Kenneth R. Parham, Investment Broker and Professional Money Manager, Consultant with A.G. Edwards & Sons, Inc., Former Banking Officer, NationsBank, Greenville, SC; and Rodney Smith, Regional Vice President, American Funds Group, Dallas, TX.

FEES: Members—$25; Nonmembers—$35; Non-physicians—$20

SESSION T16

COURSE T16

UPDATE ON OCULAR AND ORBITAL TUMORS

FRIDAY, NOVEMBER 13
9:00 AM - 12:00 noon

San Antonio Convention Center
Fiesta C Room

PURPOSE AND OBJECTIVES: The purpose of this course is to update physicians on the diagnosis and management of ophthalmic tumors. The risks and benefits of available medical, surgical, and radiation therapies will be discussed. At the conclusion of the course, participants should be able to recognize the clinical and radiologic characteristics of patients afflicted with ocular and orbital tumors.

TARGET AUDIENCE: Family Practitioners, Pediatricians, Radiologists, Radiation Oncologists, and Ophthalmologists.

COURSE DIRECTOR: Barrett G. Haik, M.D., Professor of Ophthalmology, Tulane University School of Medicine, New Orleans, LA.

FACULTY: George S. Ellis, Jr., M.D., Associate Professor of Ophthalmology and Strabismus, Pediatric Ophthalmology/Adult Eye Muscle Disorders, Tulane University School of Medicine, New Orleans, LA.

COURSE T17

SPORTS MEDICINE FOR THE PRIMARY CARE PHYSICIAN

FRIDAY, NOVEMBER 13
9:00 AM - 12:00 noon

San Antonio Convention Center
Fiesta B Room

PURPOSE AND OBJECTIVES: This program is designed as an update for the primary care physician and will feature sports injuries most commonly treated in the physician's office. Discussions will focus on imaging techniques and treatment techniques of sports injuries particularly repetitive stress injuries, bracing, pre-participation physical exams and rehabilitation. In addition to lectures presented in plenary sessions, small group sessions will afford attendees opportunities to present and discuss special cases and to participate in hands-on techniques and demonstrations on ankle sprains, knee exams and select cases involving MRI and X-rays in diagnosing and treating injuries.

TARGET AUDIENCE: Primary Care Physicians.

COURSE DIRECTOR: Angus M. McBryde, Jr., M.D., Professor and Vice-Chairman, Department of Orthopaedic Surgery, University of South Alabama, Mobile, AL.

FACULTY: Gary Suhr, M.D., Assistant Professor of Radiology, University of South Alabama College of Medicine, Mobile, AL; Thomas L. Pope, Jr., M.D., Associate Professor of Radiology and Orthopaedics, Bowman Gray School of Medicine, Wake Forest University, Winston-Salem, NC; David F. Martin, M.D., Assistant Professor of Orthopaedic Surgery, Bowman Gray School of Medicine, Wake Forest Sports Medicine Unit, Team Physician, Guilford College, Winston-Salem, NC; George McCluskey, III, M.D., Staff Orthopaedic Surgeon, Hughston Orthopaedic Clinic, P.C., Columbus, GA; and Monte Hunter, M.D., Assistant Professor, Emergency Medicine/Sports Medicine, Bowman Gray School of Medicine, Wake Forest Sports Medicine Unit, Team Physician, Catowba College, Winston-Salem, NC.

COURSE T18

GRATEFUL MED: BIOMEDICAL LITERATURE AT YOUR FINGERTIPS

FRIDAY, NOVEMBER 13
9:00 AM - 12:00 noon

San Antonio Convention Center
Room 108

PURPOSE AND OBJECTIVES: Participants will learn how to search the National Library of Medicine's (NLM) collection of medical and health science databases with Grateful Med and how to retrieve the articles with Loansome Doc. Microcomputers will be available for hands-on practice and participants will become competent in using the software to meet their clinical information needs.

COURSE DIRECTOR: W. Ross Lawler, M.D., moderator, Associate Professor, Department of Family Practice; James D. Legler, M.D., Assistant Professor, Department of Family Practice, University of Texas Health Science Center, San Antonio, TX; Lisa Ann LoVullo, Outreach Coordinator, The National Network of Libraries of Medicine, Southeastern/Atlantic Region, University of Maryland Health Sciences Library, Baltimore, MD.

SESSION T19 A-B

COURSE T19 A-B

THE STATE OF YOUR ESTATE: AN OVERVIEW OF ESTATE PLANNING STRATEGIES AND ISSUES

FRIDAY, NOVEMBER 13 (A)
2:00 - 3:30 PM

SATURDAY, NOVEMBER 14 (B)
10:45 AM - 12:15 PM

San Antonio Convention Center
Fiesta A Room

This course will be offered twice during the Assembly.
Please indicate day A or B when registering.

PURPOSE AND OBJECTIVES: Proper estate planning is not a static event. With recent changes in the tax code, it is imperative that individuals approach estate planning as a life-long process. The program on estate planning strategies and issues was designed to provide an update on taxation issues affecting an individual's estate. The program will address topics including estate and income tax implications of retirement plans; the use of charitable remainder trusts and integrating planning opportunities for estate, gift and income taxation for physicians. At the conclusion of the session, participants should be able to: review the realities of estate taxes; establish guidelines for identifying potential estate tax problems; and present alternatives for minimizing the individual's ultimate financial obligation to the federal government. A personalized estate consultation and evaluation will be available to program participants at no cost.

TARGET AUDIENCE: This program is appropriate for all Southern Medical Association members, spouses, and guests.

FACULTY: Timothy P. Cherry, CPA, Tax Partner, Elliot, Davis & Company, CPA's, Past Chairman, Tax Committee of South Carolina Association of Certified Public Accountants, Greenwood, SC; and Kenneth R. Parham, Investment Broker and Professional Money Manager Consultant with A.G. Edwards & Sons, Inc., Former Banking Officer, NationsBank, Greenville, SC.

FEES: Members—$25; Nonmembers—$35; Non-physicians—$20

SESSION T20

COURSE T20

CARE OF THE THERMALLY INJURED PATIENT

FRIDAY, NOVEMBER 13
9:00 AM - 12:00 noon

San Antonio Convention Center
Patio A Room

PURPOSE AND OBJECTIVES: The purpose of this course will be to update the participant on the current treatment of thermally injured patients, starting at initial care and followed through to closure of the burn wound. At the conclusion of the course, participants should have updated knowledge of: epidemiology and pathophysiology of burn injury; fluid resuscitation; diagnosis and treatment of inhalation injury; prevention, diagnosis, and treatment of infection; closure of the burned wound; outpatient treatment of minor burns; and aeromedical transfer and disaster burn care.

TARGET AUDIENCE: Emergency physicians and surgeons.

COURSE DIRECTOR: William G. Cioffi, Jr., M.D., FACS, Chief, Burn Study Branch, U.S. Army Institute of Surgical Research, Fort Sam Houston, San Antonio, TX.

FACULTY: Basil A. Pruitt, Jr., M.D., FACS, Commander and Director; Theresa A. Graves, M.D., Staff Surgeon; William F. McManus, M.D., FACS, Chief, Clinical Division; David Mozingo, M.D., Staff Surgeon, and John C. Fitzpatrick, M.D., Staff Surgeon, U.S. Army Institute of Surgical Research, Fort Sam Houston, San Antonio, TX.

SESSION T21

COURSE T21

PHYSICIAN-PATIENT COMMUNICATION WORKSHOP

FRIDAY, NOVEMBER 13
2:00 - 5:00 PM

San Antonio Convention Center
Room 208

PURPOSE AND OBJECTIVES: This course is designed to identify key communication skills and, by building those strengths, teach communication even more effectively. The course will identify five critical areas of communication between physician and patients, which are: 1) diagnosis; 2) adherence; 3) malpractice; 4) physician satisfaction; and 5) patient satisfaction. This course presents information on physician-patient communication including procedures for inquiry, instruction and empathy. It demonstrates effective communication techniques with videotape simulations and small group exercises, and provides opportunities for practice using difficult cases drawn from the participants' experience. Upon completion of the course, the participant should see results in all five critical areas: improved diagnostic information, increased likelihood of adherence to therapeutic regimens, reduced malpractice exposure, increased physician satisfaction, and increased patient satisfaction.

TARGET AUDIENCE: The physician-patient communication workshop is designed for small groups of physicians to provide an appropriate forum for short presentations, demonstrations and structured discussions of clinical situations. Participants engage actively in the program through clinical case example, videotapes, written exercises, and clinical practice sessions.

COURSE DIRECTOR: Steve Booton, M.D., Miles Trainer, Medical Director, University Clinic, University of Texas Health Science Center at San Antonio, TX.

FEES: Members—$30; Nonmembers—$60; Non-physicians—$30

CME CREDIT HOURS: The Miles Physician-Patient Communication Workshop designates this continuing medical education activity for 3 credit hours in Category 1 of the Physician's Recognition Award of the American Medical Association. The Miles Physician-Patient Communication Workshop is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

SESSION T22

COURSE T22

FACIAL AND BODY REJUVENATION: NEW OPTIONS FOR THE '90'S

FRIDAY, NOVEMBER 13
2:00 - 5:00 PM

San Antonio Convention Center
Plaza D Room

PURPOSE AND OBJECTIVES: The purpose of this presentation is to inform the primary health care provider with the knowledge of commonly performed cosmetic procedures as well as the new procedures in the field. These new procedures will be described, photographic results shown and information disseminated as to what the patient can expect and what can be accomplished. New procedures of the face and neck as well as the body will be discussed. Newer procedures about the face to obtain facial rejuvenation instead of or in combination with conventional procedures such as facelift, browlifts and blepharoplasty will be covered. The procedures using contouring of the face and neck including liposculpting, the use of autologous fat to correct contour deficiencies and the new treatments of skin correction for complexion and fine wrinkles. Newer methods of liposuction where the indications have been extended to patients with flaccid skin and the treatment of cellulite, as well as new methods of superficial liposculpting will be demonstrated. The information can be seen and imagined preoperatively. The audience will be included in the decision making process as a patient would in a preoperative evaluation.

TARGET AUDIENCE: Primary Care Physicians, Paramedical Personnel, and Spouses of Physicians.

COURSE DIRECTOR: Carson M. Lewis, M.D., FACS, Private Practice of Plastic and Reconstructive Surgery, Senior Staff Member, Scripps Memorial Hospital, LaJolla, CA; and Assistant Clinical Professor of Plastic Surgery, University of California School of Medicine, San Diego, CA.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75

SESSION T23

COURSE T23

NEW APPROACHES TO THE MANAGEMENT OF CHRONIC PAIN SYNDROMES

FRIDAY, NOVEMBER 13
2:00 - 5:00 PM

San Antonio Convention Center
Fiesta B Room

PURPOSE AND OBJECTIVES: Chronic pain is one of the most common reasons people seek medical care and medication. Pain symptoms diminish quality of life for millions, and result in billions of dollars in health care utilization, lost time from work and reduced productivity. Yet these disorders can be particularly difficult to treat and frustrating for both physicians and patients. New multifaceted approaches offer help to reduce suffering and improve overall functioning. This course is designed as an interactive, experiential workshop for the primary care physician or specialist who treats a variety of chronic pain problems: myofascial neck/back pain, chronic headaches, pelvic pain syndromes, diabetic neuropathic pain, post-herpetic neuralgias, arthralgia/myalgias, etc. Physiological and psychological differences between acute and chronic pain will be presented, along with discussion of nonaddictive medication options, and how to combine additional therapeutic modalities such as physical therapy, biofeedback, hypnotherapy, acupuncture, massage therapy, hydrotherapy, body mechanics, exercise and stress management. The specific adverse effects of alcohol, nicotine, narcotics, and other drugs in chronic pain will be reviewed, and practical tips presented to help physicians motivate patients to implement healthy strategies to reduce chronic pain. Format will be a combination of didactic presentation, and clinical "problem-solving" time followed by summary discussions. Actual case vignettes will be provided as a basis for discussion to highlight common clinical situations and prescribing problems encountered in primary care settings.

TARGET AUDIENCE: Family Physicians, Internal Medicine, Obstetrician/Gynecologists, Neurologists, Orthopaedic Surgeons, General Practitioners, Psychiatrists, Nurse Practitioners, and Physician Assistants.

COURSE DIRECTOR: • Elizabeth Lee Vliet, M.D., Clinical Assistant Professor, Eastern Virginia Medical School, Departments of Psychiatry and Family Medicine, Norfolk, VA; Pain Management Consultant, Canyon Ranch Medical Department, Diplomate, American Academy of Pain Management, Tucson, AZ.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

COURSE T24

APPEALING UNFAIR PAYMENTS: HOW TO ASK MEDICARE AND INSURANCE CARRIERS FOR MORE AND GET IT!

FRIDAY, NOVEMBER 13
2:00 - 5:30 PM

San Antonio Convention Center
Fiesta C Room

PURPOSE AND OBJECTIVES: The U.S. General Accounting Office has reported that Medicare carriers chronically underpay claims. Only 6% of medicare claims are appealed but over 60% of appeals result in more money for the doctor and the patient. And it's not just Medicare. Workers' Compensation claims administrators, the Blue plans, PPOs, IPAs, and other middlemen seem to drag their feet and pay as little as possible. This course is designed to teach you effective solutions and techniques to help maximize your insurance payments, and will instruct you and your staff in practical and easy ways to get more when payments are disappointing. At the conclusion of the workshop, the participant should have a thorough knowledge of the ins and outs of insurance filing.

COURSE DIRECTORS: Judy Bee has consulted with 600 physicians and conducted over 500 workshops, gaining a substantial reputation in the industry. Judy is President of Practice Performance Group. Jeffrey J. Denning entered the professional practice management field in 1971 and has worked in a consulting capacity representing over 800 physicians. Jeff has conducted more than 500 workshops, seminars and speaking engagements, and has written over 30 feature articles for leading industry publications. Jeff is a principal of Practice Performance Group.

TARGET AUDIENCE: Physicians, Medical Practice Managers, and Insurance Personnel.

FEES: Members or Staff of Members—$100;
Nonmembers or Staff of Nonmembers—$200

SESSION T25

COURSE T25

ADVANCED TRAUMA LIFE SUPPORT COURSE
Wilford Hall USAF Medical Center

SATURDAY, NOVEMBER 14
7:30 AM - 5:15 PM

SUNDAY, NOVEMBER 15
7:30 AM - 6:00 PM

(Bus departs Marriott promptly at 7:00 a.m. each day)

PURPOSE AND OBJECTIVES: The Advanced Trauma Life Support Course (ATLS) teaches established standards of trauma care and practical, lifesaving skills. This course is designed for the physician who does not treat victims of major trauma regularly and does not have immediate access to sophisticated emergency care facilities. Physicians treating trauma patients in emergency or surgical departments will also benefit from the course training. Upon completion of the ATLS program, the physician should be able to: demonstrate concepts and principles of primary and secondary patient assessment; establish management priorities in a trauma situation; initiate primary and secondary management necessary in the early hours of emergency care; and demonstrate skills used in the initial assessment and management of the patient with multiple injuries.

TARGET AUDIENCE: Pediatricians, Surgeons, Family Practitioners, and Emergency Medicine Physicians.

COURSE DIRECTOR: David E. Beck, M.D., Lt. Col., USAF, MC, Chairman, Department of General Surgery, Department of the Air Force, Wilford Hall USAF Medical Center (ATC), Lackland AFB, TX.

FEES: Members—$550; Nonmembers—$650
(Course limited to 32 participants)

SESSION T26

COURSE T26

PEDIATRIC ADVANCED LIFE SUPPORT COURSE
University of Texas Health Science Center

SATURDAY, NOVEMBER 14 - SUNDAY, NOVEMBER 15
8:00 AM - 5:00 PM

(Bus departs Marriott promptly at 7:30 a.m. each day)

PURPOSE AND OBJECTIVES: The purpose of the Pediatric Advanced Life Support Course (P.A.L.S.) is to provide the student with: 1) information and strategies for preventing cardiopulmonary arrest in infants and children; 2) the information for recognizing the infant or child at risk of cardiopulmonary arrest; and 3) the cognitive and psychomotor skills necessary for resuscitation and stabilizing the infant or child victim of cardiopulmonary arrest. The course is intended for healthcare providers with responsibilities for the well-being of infants and children. Lecture time is minimal so that hands-on experience can be emphasized. Technical skills and cognitive processes are first taught separately in small groups using 1 hour sessions. Practical application of these skills and knowledge in critical situations is then emphasized by using multiple case presentations. At the conclusion of the P.A.L.S. course, participants should be able to: recognize respiratory failure and shock; prevent cardiopulmonary arrest; and demonstrate skills used in neonatal resuscitation in the emergency room. The University of Texas Health Science Center is designated by the American Heart Association, Texas Affiliate, as one of ten P.A.L.S. Training Centers in Texas. This course meets the criteria for certification by the American Heart Association.

TARGET AUDIENCE: Pediatricians, housestaff, emergency physicians, family physicians, nurses, and paramedical personnel.

FEES: Members—$350; Nonmembers—$450; Non-physicians—$175
(Course limited to 40 participants)

CME CREDIT HOURS: The University of Texas Health Science Center at San Antonio designates this continuing medical education activity for 13 hours credit in Category 1 of the Physician's Recognition Award of the American Medical Association.

SESSION T27

COURSE T27

FEE AND CLAIMS ANALYSIS TECHNIQUES

SATURDAY, NOVEMBER 14
9:00 AM - 4:00 PM

San Antonio Convention Center
Room 107
Lunch - Mission Room

PURPOSE AND OBJECTIVES: This course is designed for physicians, medical practice managers, and insurance personnel to identify appropriate fees and to maximize reimbursement results. Additionally, it will teach proven techniques on how to analyze your fees so that carriers do not determine your revenues. At the conclusion of the session, participants should be able to: determine what to look for in EOBs (Explanation of Benefits) and profiles to maximize fee revenues; learn the five steps in developing a winning fee strategy; manage reimbursement with various managed care programs; use profile information to select fee "minimums"; enhance profitability from the managed care programs; use conversion factor to analyze current fees and to set new ones; assess when fee changes should be made to get the most benefit; interpret the EOB "remarks"; understand how claims analysis can improve revenues; avoid costly errors on superbills; understand the importance of the physicians' Medicare profile; and learn the importance of coding in claims development.

TARGET AUDIENCE: Physicians, Medical Practice Managers, and Insurance Personnel.

COURSE DIRECTOR: This course is conducted by MaryLee Dennie of Conomikes Associates, Inc., nationally known productivity consultants for health professions and the firm responsible for the accredited Workshops on Practice Management and Productivity, attended by over 50,000 physicians and 90,000 medical assistants in major medical fields.

FEES: Members and Staff of Members $195;
Nonmembers and Staff of Nonmembers—$255
(Fee includes lunch)

SESSION T28

COURSE T28

SHOCK AND HEMODYNAMIC SUPPORT

SATURDAY, NOVEMBER 14
9:00 AM - 5:00 PM

San Antonio Convention Center
Centro C Room

PURPOSE AND OBJECTIVES: This course is designed as a practical review of the diagnosis, monitoring, and treatment of shock and hypoperfusion states. At the conclusion of the course, participants should have a practical understanding of the basic pathophysiology of different types of shock, as well as the clinical implications of this pathophysiology in terms of differential diagnosis and eventual treatment. Invasive and non-invasive monitoring techniques for these patients will be reviewed, with special emphasis on the practical considerations of what to monitor, and how and when to do it. Practical examples will be "worked out" with the audience to illustrate how to interpret monitoring data to establish a diagnosis and/or to choose/guide further therapy in different clinical scenarios. The limitations and potential pitfalls of available diagnostic and monitoring techniques and devices, whether technical or biologic in nature, will also be reviewed with emphasis on recognition, avoidance, and/or troubleshooting of these problems. Special attention will be given to hemodynamic monitoring with Swan-Ganz catheters, cardiac output measurements by methods other than thermodilution, continuous monitoring of Sv02, and timely use of serum electrolytes and lactic acid levels. The concept of "matched vs unmatched" oxygen delivery and consumption and its practical implications of shock therapy will be discussed, as well as the proper use of intravenous fluids, blood products, and/or vasoactive and inotropic drugs.

TARGET AUDIENCE: This course is intended for physicians, nurses, and other health professionals who must deal with patients who suffer from significant hemodynamic compromise (i.e., emergency physicians, surgeons, obstetricians, internal medicine, family practice, cardiology, and critical care.)

COURSE DIRECTOR: •Rolando Berger, M.D., FACP, FCCP, Associate Professor of Medicine, Division of Pulmonary and Critical Care, Director of MICU, University of Kentucky Medical Center, Lexington, KY.

FACULTY: •Karen M. Wolf, M.D., F.C.C.P., Assistant Professor of Medicine, Director of MICU, VA Medical Center; Paul Kearney, M.D., Assistant Professor of Surgery, Director of the Division of Trauma Critical Care; and •Steven B. Johnson, M.D., Assistant Professor of Surgery, Division of Trauma Critical Care, University of Kentucky Medical Center, Lexington, KY.

FEES: Members—$275; Nonmembers—$335; Non-physicians—$250

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

COURSE T29

EMERGENCY DEPARTMENT ULTRASONOGRAPHY

SATURDAY, NOVEMBER 14
9:00 AM - 5:00 PM

San Antonio Convention Center
Room 207
Demonstrations-Room 208

PURPOSE AND OBJECTIVES: This course is designed to enable practicing emergency physicians and primary care specialists to better understand the uses and limitations of modern ultrasonography in emergency situations. An introduction to basic ultrasound principles and emergency applications is supplemented by small group, hands-on sonography sessions using state-of-the art instrumentation, including Doppler and color flow imaging.

TARGET AUDIENCE: Emergency and Primary Care Physicians.

COURSE DIRECTOR: Roger W. Boswell, M.D., Assistant Professor of Medicine and Surgery, Division of Emergency Services, University of Texas Medical Branch, Galveston, TX.

FACULTY: Lori L. Barr, M.D., Assistant Professor of Radiology and Pediatrics, University of Cincinnati College of Medicine, and Children's Hospital Medical Center, Cincinnati, OH

FEES: Members—$160; Nonmembers—$220; Non-physicians—$100

SESSION T30

COURSE T30

OPERATIVE LAPAROSCOPY

SATURDAY, NOVEMBER 14
8:00 AM - 5:30 PM

San Antonio Convention Center
Rehearsal Hall
Demonstrations - VIP Room

PURPOSE AND OBJECTIVES: This course will provide the participant with an overview of current state-of-the-art surgical procedures involving laparoscopy for pelvic pathology. The following entities will be discussed: hysterectomy, adenectomy; lymphadenectomy; bladderneck suspension, vaginal vault suspension, endometriosis resection and presacral nerve resection. Live surgical demonstrations, include hysterectomy and bladderneck suspension, will be performed in the operating room at St. Luke's Hospital, and transmitted live via satellite to a lecture room at the convention center. Course participants can ask questions while viewing the procedures by means of an interactive audio/video network. If possible, other surgical procedures will also be demonstrated.

TARGET AUDIENCE: Surgeons, Gynecologists, and OR Personnel.

COURSE DIRECTOR: Thierry G. Vancaillie, M.D., Clinical Assistant Professor, Obstetrics and Gynecology, The University of Texas Health Science Center at San Antonio, TX.

FACULTY: David L. Olive, M.D., moderator, Associate Professor, Chief, Reproductive Endocrinology and Infertility, Yale University School of Medicine, New Haven, CT; • Harry Reich, M.D., FACOG, Wyoming Valley GYN Associates, Kingston, PA, and Director of Gynecologic Surgery, Department of Gynecology, The Graduate Hospital, Philadelphia, PA; and Alan Johns, M.D., Director, GYN Laparoscopic Center, Harris Methodist, Ft. Worth, TX, and Clinical Associate Professor, Department Ob/Gyn, Division of Reproductive Endocrinology, University of Texas Southwestern Medical Center at Dallas, TX.

FEES: Members—$550; Nonmembers—$650; Non-physicians—$350

The Southern Medical Association acknowledges the following companies for an unrestricted, educational grant and appreciates their interest in continuing medical education:

Davol, Inc.
Everest Medical
Karl Storz Endoscopy America, Inc.

COURSE T31

PRACTICAL APPROACHES IN PSYCHOPHARMACOLOGY

SATURDAY, NOVEMBER 14
9:00 AM - 12:00 NOON

San Antonio Convention Center
Patio A Room

PURPOSE AND OBJECTIVES: This course is designed as an interactive, experiential workshop for the primary care physician or specialist who treats anxiety and depressive disorders, chronic pain syndromes and other syndromes requiring the use of psychotropic medications: antidepressants, anxiolytics, and neuroleptics. Each category of medications will be discussed regarding 1) classes of agents available, especially newer drugs; 2) indications for use in various disorders and syndromes; 3) side effect profiles; 4) cautions for use in patients with concurrent medical illnesses; 5) potential drug-drug interactions; 6) methods of enhancing compliance; and 7) prescribing pitfalls to avoid. Format will be a combination of didactic presentation, videotaped case vignettes, and small group case vignette clinical "problem-solving" time followed by summary discussions. Participants may bring their own case vignettes to discuss, but written discussion materials will also be provided to highlight common clinical situations and prescribing problems encountered in primary care settings. Neurologists may find this workshop helpful with regard to new approaches with nonaddictive psychotropic medications in headache patients and other neuropsychiatric syndromes.

TARGET AUDIENCE: Family Physicians; Internal Medicine, Obstetrician/Gynecologists, Neurologists, General Practitioners, Psychiatrists, Nurse Practitioners, and Physician Assistants.

COURSE DIRECTOR: •Elizabeth Lee Vliet, M.D., Clinical Assistant Professor, Eastern Virginia Medical School, Departments of Psychiatry and Family Medicine, Norfolk, VA; Pain Management Consultant, Canyon Ranch Medical Department, Diplomate, American Academy of Pain Management, Tucson, AZ.

FEES: Members—$100; Nonmembers—$130; Non-physicians—$75

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

COURSE T32

QUALITY ASSURANCE: FROM INTRODUCTION TO GRADUATION

SATURDAY, NOVEMBER 14
2:00 - 5:00 PM

San Antonio Convention Center
Centro D Room

PURPOSE AND OBJECTIVES: The purpose of this course is to provide introductory, intermediate, and advanced levels of topics on Quality Assurance (QA). Topics for the introductory level will include history, concept, and definition of QA, followed by an intermediate level which will consist of the actual design of a QA program involving clinical and support services. An advanced level of the course will describe information on Medical Malpractice and Utilization Review and focus on actual case histories which will exemplify various issues. Objective discussions of all of the components of Medical Malpractice, including physicians, attorneys, tort reform, expert witnesses, and alternative dispute resolutions will be discussed. At the conclusion of the course, participants should be able to understand, design, implement, and evaluate a QA program as it applies to everyday practice.

TARGET AUDIENCE: All Practicing Physicians.

COURSE DIRECTOR: William J. Morton, M.D., J.D., Private Practice, Urology, President, American Board of Quality Assurance and Utilization Review Physicians, Atlanta, GA.

FEES: Members—$75; Nonmembers—$105; Non-physicians—$50

SESSION T33

COURSE T33

DIVING AND HYPERBARIC MEDICINE

SATURDAY, NOVEMBER 14
2:00 - 5:00 PM

San Antonio Convention Center
Room 101

PURPOSE AND OBJECTIVES: This program will provide guidance for primary care practitioners treating recreational SCUBA divers. The program includes the evaluation of patients new to diving for their fitness to dive, and the evaluation of experienced divers who develop health problems related to their diving activities. The program also provides an overview of the field of Clinical Hyperbaric Medicine, including the selection of patients, indications and contraindications for treatment, and types of hyperbaric facilities.

TARGET AUDIENCE: Primary Care Physicians.

COURSE DIRECTOR: Frederick W. Rudge, M.D., Chief of Medical Operations and Director of the Fellowship in Clinical Hyperbaric Medicine, Hyperbaric Medicine Division, Armstrong Laboratory, Brooks Air Force Base, TX.

FACULTY: E. George Wolf, M.D., Chief of Clinical Investigations, Hyperbaric Medicine Division, Armstrong Laboratory, Brooks Air Force Base, TX.

New Orleans, LA

ROUND TABLE LUNCHEON SESSIONS

FRIDAY, NOVEMBER 13, 1992
12:15 - 1:45 PM
San Antonio Convention Center
Mission Room

PURPOSE AND OBJECTIVES: The purpose of the Round Table Luncheon Sessions is to promote clinical discussions and interaction on selected topics. Participants are invited to present case studies and participate in interactive discussions. At the conclusion of the session, the participant should be more familiar with the diagnosis and treatment of common problems frequently encountered by colleagues.

NOTE: Each table is limited to 10 participants, one of which is the discussion leader. The leader's purpose is to ensure the discussion is kept "on tract," focusing on the assigned topic.

TICKETS: $30.00 each, may be purchased in the SMA Registration Area, located in the Exhibit Hall of the San Antonio Convention Center, during registration hours anytime prior to the event. This fee includes lunch. Tickets will be sold on a first-come, first-served basis.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

SESSION L1

NATIONAL ASTHMA EDUCATION PROGRAM

DISCUSSION LEADER: Steven L. Kagen, M.D., Milwaukee, WI

DESCRIPTION: This discussion will review the newly published "Guidelines for the Diagnosis and Treatment of Asthma" as published by the National Heart Lung, Blood Institute.

TARGET AUDIENCE: Primary Care Physicians, Pediatricians.

CME CREDIT HOURS:

SESSION L4	1.0	1.0	0	0	1.0

SESSION L5

PHOTOPROTECTION: HOW, WHEN, AND WHY

DISCUSSION LEADER: Lynn A. Drake, M.D., Boston, MA.

DESCRIPTION: Ultraviolet radiation has serious consequences for our patients including premature aging and skin cancer. As the population ages and individuals spend more time in the sun, it is imperative that we advise and counsel our patients on how to prevent photodamage. This discussion will center on sun protection, sun avoidance, and sunscreen, and how to use them. What does labeling mean (SPF) and how we can be effective advocates for our patients.

TARGET AUDIENCE: All Practicing Physicians.

87th Annual Scientific Assembly

October 28-31, 1993

New Orleans, Louisiana

Preliminary Call for Abstracts is available in the Education Booth, located in the Hospitality Area in the Exhibit Hall

or call SMA

1-800-423-4992

Some Advice

to Retire On.

SMA's Retirement Seminars Can Help You Find Financial Security.

Again this year, Southern Medical Association's Retirement Division will have the financial advice you are dreaming of. For a nominal fee, you can take advantage of one of our two seminars at the 86th Annual Scientific Assembly in San Antonio. Our "Talk to the Pros" seminar, will give you the opportunity to consult one-on-one with our Retirement Planning Specialist to analyze your individual situation. "The Nuts and Bolts of Retirement Planning" seminar/luncheon will outline strategies for retirement investment and cover current issues that will affect your retirement planning. To register or for more information, call (800) 423-4992.

SECTION ON ALLERGY & IMMUNOLOGY

OFFICERS

Chairman . . . . . LEWIS BROWN, *Missouri City, TX*

Secretary . . . . . WILLIAM W. FAWCETT, IV, *Beaumont, TX*

Guest Speaker . . . . . STEVEN L. KAGEN, *Milwaukee, WI*

PURPOSE:

The program for the section on Allergy & Immunology was designed to provide an update and review of selected topics, clinical applications, introduction of selected research, and an opportunity to interact with peers on subjects of concern and common interest in medicine.

OBJECTIVES:

To provide a program of interest and educational value for physicians working in this field and for primary care physicians.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of selected topics in the field of allergy and immunology and new areas of research in immunology.

TARGET AUDIENCE:

This meeting is designed for allergy/immunology, pulmonology, rheumatology, and primary care, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times, other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

SESSION 34

SATURDAY, NOVEMBER 14, 9:00 AM
San Antonio Convention Center
Fiesta B Room

9:00 AM
Update on Stinging Insect Allergies

STEVEN L. KAGEN
Milwaukee, WI

Guest Speaker
Section on Allergy & Immunology

10:00 AM
INTERMISSION—VISIT EXHIBITS

10:30 AM
Public Health Aspects of the African Honey Bee

WILLIAM ROBERT McKENNA
Harlingen, TX

11:10 AM
Cutaneous Manifestations of Adverse Drug Reactions

SUZANNE BRUCE
Houston, TX

12:00 NOON
Adjourn

SESSION 35

SATURDAY, NOVEMBER 14, 2:00 PM
San Antonio Convention Center
Fiesta B Room

2:00 PM
The Effects of Immunotherapy on the Late Phase Response to Antigen

ERNEST NEAL CHARLESWORTH, WILLIAM A. NISH, and Z. KRISTEN LEIFERMAN
San Antonio, TX

Presentation by Dr. Charlesworth

2:40 PM
Imported Fire Ants (Solenopsis Invicta) Natural History Study

JAMES TRACY, DO*, JEFFREY DEMAIN, and THEODORE FREEMAN
Lackland AFB, TX

DONALD HOFFMAN, PhD
Greenville, NC

Presentation by Dr. Tracy

3:00 PM
Persistent Anaphylaxis from a Retained Catfish Spine

PATRICK V. HICKLE and W. RHETT WEAVER
Keesler AFB, MS

Presentation by Dr. Hickle

3:20 PM
Lymphocyte Proliferation Studies in 5 Pediatric AIDS Patients Infected with Mycobacterium Avium-Intracellulare

TANYA E. REID*, MARK W. KLINE,
HOWARD M. ROSENBLATT, and WILLIAM T. SHEARER
Houston, TX

Presentation by Dr. Reid

3:40 PM
INTERMISSION

4:00 PM
Immunomodulation in the Treatment of Multiple Sclerosis and Amyotrophic Lateral Sclerosis (A Model for Autoimmune Disorders)

RAJKO MEDENICA, TERESA HUSCHART, RN,
JOANNE KOFFSKEY, BSRT, and WENDY CORBITT, BAMT
Charleston, SC

KENNETH ALONSO
Riverdale, GA

Presentation by Dr. Medenica

4:20 PM
Polyethylene Glycol (PEG 3350) Induced Anaphylaxis: A Case Report

DOUGLAS DENHAM, DO*, and JOSEPH D. DIAZ
San Antonio, TX

Presentation by Dr. Denham

4:40 PM
Business Meeting
Section on Allergy & Immunology

NOTES

SECTION ON ANESTHESIOLOGY

OFFICERS

Chairman . . . . . DENNIS DOHERTY, DO, *Atlanta, GA*

Vice-Chairman . . . . . MARK NEWMAN, *Lackland AFB, TX*

Secretary . . . . . JOANNE M. CONROY, *Charleston, SC*

Guest Speaker . . . . . NORBERT de BRUIJN, *Durham, NC*

PURPOSE:

The program for the section on Anesthesiology was designed to provide an update on clinical advances and an opportunity to interact with peers on subjects of common professional interest as well as modern ethical dilemmas.

OBJECTIVES:

This program will offer an opportunity to discuss new technology as well as clinical problems facing the private practitioner. Presentations will be made by physicians in training, private practitioners, and university affiliated anesthesiologists.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a greater understanding of the indications and uses for advanced intraoperative monitoring, current concepts in postoperative pain control and the changing focus and direction of obstetrical anesthesia.

TARGET AUDIENCE:

This section meeting is designed for anesthesiologists, physicians'-in-training, and all other members of the anesthesia care team.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

SESSION 36

FRIDAY, NOVEMBER 13, 9:00 AM
San Antonio Convention Center
Room 102

DENNIS DOHERTY, DO, Chairman
Atlanta, GA, moderator

9:00 AM
Perioperative Management of the Patient with Latex Allergy

NANCY I. FALLER, DO*, ELIZABETH D. RITTENBERG, MELINDA K. BAILEY, JOANNE M. CONROY, GARY R. HAYNES, and J. DAVID BAKER, III
Charleston, SC

Presentation by Dr. Faller

9:15 AM
Comparison of Air and Lidocaine in the Identification of the Epidural Space Using a Modified Loss of Resistance Technique

ANGEL M. GOMEZ*, WILLIAM E. ACKERMAN, MUSHTAQUE JUNEJA, and BENJAMIN P. RIGOR
Louisville, KY

Presentation by Dr. Gomez

9:30 AM
Factors Predisposing to Epidural Abscess Post Epidural Blockade

JUDY KAMEOKA*, MELINDA K. BAILEY, BYRON BAILEY JOANNE M. CONROY, and B. HUGH DORMAN
Charleston, SC

Presentation by Dr. Kameoka

9:45 AM
Treatment of Postoperative Shivering in Outpatients

PATRICIA L. BAUMANN* and YUNG-FONG SUNG
Atlanta, GA

Presentation by Dr. Baumann

10:00 AM
INTERMISSION—VISIT EXHIBITS

10:30 AM
A Comparison of Epidural Fentanyl and Sufentanil for the Management of Postdelivery Pain During Cesarean Section

VICTORIA C. CASES-CRISTOBAL*, WILLIAM E. ACKERMAN, MUSHTAQUE M. JUNEJA, M. F. HEINE, R. P. URELLA, and B. M. RIGOR, SR.
Louisville, KY

Presentation by Dr. Cases-Cristobal

10:45 AM
A Randomized Double Blind Trial Comparing Bupivacaine Paracervical Block with Placebo for Postoperative Analgesia Following Laser Ablation of the Endometrium

FAIZ HASHAM*
Louisville, KY

PAUL MOONEY, MANMOHAN KOKRI, and RAY GARRY
Cleveland, U.K.

Presentation by Dr. Hasham

11:00 AM
Application of the Transesophageal Echocardiography in the Operating Room

NORBERT de BRUIJN
Durham, NC

Guest Speaker
Section on Anesthesiology

12:00 NOON
Adjourn

SESSION 37

FRIDAY, NOVEMBER 13, 2:00 PM
San Antonio Convention Center
Room 102

MARK NEWMAN, Vice-Chairman
San Antonio, TX, moderator

2:00 PM
The Effects of DDAVP & 6% Hetastarch on Factor VIII

RICHARD L. FISHMAN*, JOANNE M. CONROY, MELINDA K. BAILEY, B. HUGH DORMAN, and J. DAVID BAKER, III
Charleston, SC

Presentation by Dr. Fishman

2:15 PM
A Comparison of Wound Installation and Caudal for Analgesia Following Pediatric Inguinal Herniorrhaphy

JOANNE M. CONROY, H. BIEMANN OTHERSEN, B. HUGH DORMAN, JAY D. GOTTESMAN, CHARLES T. WALLACE, and NORMAN H. BRAHEN
Charleston, SC

Presentation by Dr. Conroy

2:30 PM

NOTES

SECTION ON CHEST DISEASES

OFFICERS

Chairman . . . . . KAREN M. WOLF, *Lexington, KY*

Vice-Chairman . . . . . WILLIAM A. SPEIR, *Augusta, GA*

Chairman-Elect . . . . . JAMES F. DONOHUE, *Chapel Hill, NC*

Secretary . . . . . ROLANDO BERGER, *Lexington, KY*

Guest Speaker . . . . . DEBORAH SHURE, *San Diego, CA*

Paul A. Turner Lecturer . . . . . BASHIR A. CHAUDHARY, *Augusta, GA*

PURPOSE AND OBJECTIVES:

The program for the section on Chest Diseases was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern within the practice of medicine.

EDUCATIONAL OUTCOMES:

At the conclusion of the scientific activities, the participants should have a better understanding of the immunologic abnormalities in silicosis, the normal ventilatory control, the value of two "D" echo for diagnosing intracardiac tumors, as well as insight into the treatment of septic shock, the value of routine cultures for AFB and fungus during bronchoscopy, and the difference between assist-control and pressure-controlled ventilation. A review on the workup of a solitary lung nodule and the use of cardiac pacemakers in a large referral cardiology practice, will also be presented and should provide the attendees with a general understanding of these topics.

TARGET AUDIENCE:

This section meeting is designed for primary care physicians, pulmonary specialists, and internists, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

SESSION 41

FRIDAY, NOVEMBER 13, 9:00 AM
San Antonio Convention Center
Centro C Room

KAREN M. WOLF, Chairman
Lexington, KY, moderator

9:00 AM
Antinuclear Antibodies in Silicosis

ARMANDO HUARINGA and JAIME SIGNES-COSTA
Houston, TX

Presentation by Dr. Huaringa

9:15 AM
Hypoxic Response or Hypercapneic Response?

CHRIS L. STAUBER, JOHN R. THOMPSON,
and NAUSHERWAN K. BURKI
Lexington, KY

Presentation by Dr. Stauber

9:30 AM
Primary Fibrosarcoma of the Heart with Distant Metastases: Diagnosis by 2-D Echo

SECTION ON COLON & RECTAL SURGERY

OFFICERS

Chairman . . . . . DAVID E. BECK, *Lackland AFB, TX*

Vice-Chairman . . . . . SERGIO W. LARACH, *Orlando, FL*

Secretary . . . . . STEVEN D. WEXNER, *Ft. Lauderdale, FL*

Guest Speaker . . . . . ALAN G. THORSON, *Omaha, NE*

PURPOSE:

The program for the section on Colon & Rectal Surgery was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within the practice of medicine.

OBJECTIVES:

To update general and colorectal surgeons and gastroenterologists on clinical advances in colon and rectal surgery.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of functional disorders, endoscopy, laparoscopy, colonic neoplasia, and surgical techniques.

TARGET AUDIENCE:

This section meeting is designed for practicing general and colorectal surgeons and gastroenterologists. Information presented may also be of benefit to physicians in training, nurses, and other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

SESSION 43

THURSDAY, NOVEMBER 12, 10:45 AM
San Antonio Convention Center

The Dermatology Section program, except for the Dermatology: Clinical and Dermatopathologic Seminar, has been approved by the American Academy of Dermatology, as program number 067-100, for 13 hours Category 1 CME credit.

The Dermatology: Clinical and Dermatopathologic Seminar has been separately approved as program number 426-100 for 4 hours Category 1 CME credit.

NOTES

SECTION ON EMERGENCY MEDICINE

OFFICERS

Chairman . . . . . FREDERICK B. CARLTON, JR., *Jackson, MS*

Vice-Chairman . . . . . MARC NEWQUIST, *Auburndale, FL*

Secretary . . . . . JAMES H. CREEL, JR., *Ft. Oglethorpe, GA*

Secretary-Elect . . . . . CHARLES A. FARMER, *Tulsa, OK*

Guest Speaker . . . . . PETER ROSEN, *San Diego, CA*

PURPOSE:

The program for the section on Emergency Medicine was designed to provide an update on clinical advances, an overview of emerging health care trends, and the opportunity to interact with peers on subjects of concern and common interest within the practice of emergency medicine.

OBJECTIVES:

Presentations in the section on Emergency Medicine should address the issues of importance in emergency medicine today, discuss the provision of emergency care outside the hospital setting, and review diagnostic and therapeutic challenges seen in practice.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of controversies in pre-hospital care; healthcare challenges of the 1990's; and selected clinical topics.

TARGET AUDIENCE:

This section meeting is designed for emergency physicians and other primary care providers, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians' in-training competition.

NOTES

SECTION ON FAMILY PRACTICE

OFFICERS

Chairman . . . . . HERBERT L. MUNCIE, *Baltimore, MD*

Vice-Chairman . . . . . MAUREEN AARON, *Martinsville, VA*

Secretary . . . . . WESLEY EASTRIDGE, *Gate City, VA*

Guest Speaker . . . . . HENRY PERKINS, *San Antonio, TX*

PURPOSE:

The topics in the section on Family Practice presented in 6 different formats, cover the most current problems facing the physician in his/her daily practice. Subjects were selected in addition because of their practical nature with answers needed by the family physician on a daily basis.

OBJECTIVES:

To provide the basic understanding of common daily issues faced by the family physician, and to provide the appropriate skills and steps to diagnose and treat these problems.

EDUCATIONAL OUTCOMES:

After participating in the meetings, participants should learn up-to-date facts and trends in medical knowledge, and gain new insights on the practice of medicine.

TARGET AUDIENCE:

This section meeting is designed for family physicians, general practitioners, general internists, and all physicians doing primary care, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

NOTES

SECTION ON GASTROENTEROLOGY

OFFICERS

Chairman . . . . . DENNIS R. SINAR, *Greenville, NC*

Secretary . . . . . RICHARD W. McCALLUM, *Charlottesville, VA*

Secretary-Elect . . . . . EAPEN THOMAS, *Johnson City, TN*

Guest Speaker . . . . . PAUL D. WEBSTER, III, *Augusta, GA*

PURPOSE:

This program is intended to provide an update on clinical advances in Gastroenterology and a forum for the discussion of clinical research interests of the membership. The program will present abstracts, posters, a postgraduate course, and a symposium, as well as a guest speaker, to provide a broad overview of the specialty.

OBJECTIVES:

To educate the membership of the Southern Medical Association on clinical advances and new therapies in gastroenterology, hepatology, nutrition, and endoscopy.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of the current issues that are important in the field as well as the research that is being conducted for future breakthroughs.

TARGET AUDIENCE:

This program will be of benefit to surgeons, radiologists, and gastroenterologists at all levels of training. The audience is assumed to be patient-care physicians with an interest in gastrointestinal problems, liver diseases, and aspects of nutrition. The program will present topics of interest to physicians of all specialties.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

NOTES

SECTION ON GYNECOLOGY

OFFICERS

Chairman . . . . . ERNEST G. MOORE, *Birmingham, AL*

Vice-Chairman . . . . . SAMUEL BELINSKY, *Vienna, VA*

Secretary . . . . . SAMUEL M. GOODRICH, *Milledgeville, GA*

Secretary-Elect . . . . . WILLIAM W. MAXWELL, *Ft. Worth, TX*

Guest Speaker . . . . . RICHARD E. BLACKWELL, *Birmingham, AL*

PURPOSE:

The program for the section on Gynecology was designed to provide an update on clinical advances, an overview on emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within the practice of medicine.

OBJECTIVES:

To provide a forum whereby the participants can interact with their colleagues in the discussion of old as well as new therapies and new technologies resulting in positive influence on their individual practices.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of the local, regional and national issues in the field of gynecology and medicine in general.

TARGET AUDIENCE:

This section meeting is designed for the clinical obstetrician and gynecologist. The information presented will also benefit physicians in training and physicians interested in cancer screening in women.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

NOTES

SECTION ON MEDICINE

OFFICERS

Chairman . . . . . JAN N. BASILE, *Charleston, SC*

Vice-Chairman . . . . . CARL J. LAVIE, *Metairie, LA*

Secretary . . . . . VERONICA K. PIZIAK, *Temple, TX*

Guest Speaker . . . . . PETER W. F. WILSON, *Framingham, MA*

PURPOSE:

The purpose of the program for the section on Medicine is to update the participants in developments of internal medicine over the past year and provide a forum for medical research presentations.

OBJECTIVES AND EDUCATIONAL OUTCOMES:

To acquaint the practicing physician with controversies in coronary risk reduction, motility disorders in diabetes, liver disease, its diagnosis and management, fine needle aspiration biopsies, pathology and technique, and the update on ethics, particularly advanced directives. Presentations of interesting internal medicine cases and research developments will also be made.

TARGET AUDIENCE:

This program is designed for physicians practicing general internal medicine; however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

SESSION 72

THURSDAY, NOVEMBER 12, 10:45 AM
San Antonio Convention Center
River B Room

JAN N. BASILE, Chairman
Charleston, SC, moderator

10:45 AM
Significant Left Ventricular Hypertrophy in Subjects with Normal Resting Pressures but an Exaggerated Pressure Response During Light Exertion

CHRISTOPHER E. CANNON, MS, ALLEN F. BOWYER, and ROSEMARY A. THOMAS
Greenville, NC

Presentation by Mr. Cannon

11:00 AM
Autotransplantation as a Cause of Recurrent Hyperparathyroidism

GEOFFREY GATES, BRUCE PEARSON, JAMES WOLFE, and STEPHEN F. HOGAN
Jacksonville, FL

Presentation by Dr. Gates

11:15 AM
Cardiac Tamponade as a Result of Hypothyroid Pericardial Effusion

TOM SAUERWEIN* and GEORGE E. POWELL, III
Kessler AFB, MS

Presentation by Dr. Sauerwein

11:30 AM
Failure of Increased Calcium Intake to Suppress Circulating 1,25-Dihydroxyvitamin D: Further Evidence for Abnormal Vitamin D Metabolism in Normocalcemic Patients with Sarcoidosis

JAN N. BASILE, YAIR LIEL, JUDITH R. SHARY, MS, and NORMAN H. BELL
Charleston, SC

Presentation by Dr. Basile

11:45 AM
Estimating Creatinine Clearance Based on Age and Weight: How Accurate?

THOMAS E. HERCHLINE, SHARI KOGAN, and JOSEPH O'GORMAN

NOTES

SECTION ON NEUROLOGY & PSYCHIATRY

OFFICERS

Chairman . . . . . JAMES A. GREENE, *Knoxville, TN*

Vice-Chairman . . . . . JODIE L. EDGE, *Norman, OK*

Secretary . . . . . HAROLD NARAMORE, *Asheville, NC*

Guest Speaker . . . . . TRACY GORDY, *Austin, TX*

PURPOSE:

The program for the section on Neurology & Psychiatry was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subject of concern and common interest within the practice of medicine.

OBJECTIVES:

To present an overview of current research and clinical applications in the treatment of those with emotional, mental and neurological disorders from childhood to old age and to address some of the related philosophies to their illnesses.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of depression awareness, recognition, and treatment; an updated knowledge of learning disabilities and related conditions in the pediatric patient; and understand CPT coding for psychiatry.

TARGET AUDIENCE:

This section meeting is designed for psychiatrists, neurologists, pediatricians, and family practitioners, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

SECTION ON NEUROSURGERY

OFFICERS

Chairman . . . . . W. CRAIG CLARK, *Dalton, GA*

Secretary . . . . . GARY C. DENNIS, *Washington, DC*

Guest Speaker . . . . . JAMES T. ROBERTSON, *Memphis, TN*

PURPOSE:

The program for the section on Neurosurgery was designed to provide an update of general neurosurgical problems and research.

OBJECTIVES:

To provide an update on CNS trauma research and sports injuries of head, neck and spine.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meetings, participants should be able to perform an evaluation of a patient presenting with sports injuries of the head, neck and spine; and the treatment of spinal infections and instability, indications for radiosurgery of both malignant gliomas and arteriovenous malformation.

TARGET AUDIENCE:

This section meeting is designed for neurosurgeons, neurologists, family practitioners, radiologists, emergency medicine physicians, and orthopaedists, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTES

SECTION ON OCCUPATIONAL MEDICINE

OFFICERS

Secretary . . . . . DAVID L. BARNES, *Atlanta, GA*

Guest Speaker . . . . WILLIAM W. BURGIN, JR., *Corpus Christi, TX*

PURPOSE:

The occupational medicine program will provide a broad panorama of information on those health problems associated with the workplace. These presentations will enhance the knowledge and appreciation of physicians for health hazards associated with work.

OBJECTIVES:

Dr. Alice Hamilton wrote "If the recording interne would only treat the poison from which the man is suffering with as much interest as he gives to the coffee the patient has drunk or the tobacco he has smoked, if he would ask as carefully as too the length of time he was exposed to the poison as about the age at which he had measles, the task of the searcher for the truth about industrial poisons would be made so much easier". These words, published in 1907, continue to be important today. The physical stresses and chemical exposures of the workplace are often contributors to the etiology of health problems.

The primary objective of this section is to improve the knowledge base of those physicians restricting their practice to the health effects associated with the workplace. A second objective of equal importance is to make physicians in other fields of specialization alert to workplace hazards as potential sources of the maladies suffered by their patient/workers. The third objective is to provide scientific parameters which will enable an attending physician to make the diagnosis of occupational disease/injury as a primary diagnosis, not a diagnosis of exclusion. Finally, it is paramount that the efforts of this section focus on improving working conditions by encouraging research into the hazards of the workplace and through increased awareness, promote remediation of them and the prevention of ill health.

EDUCATIONAL OUTCOMES:

Upon conclusion of this section meeting participants will have been exposed to several occupational related health problems. In addition, the proposed solutions and treatment methods will be of benefit to physicians who encounter working patients.

TARGET AUDIENCE:

This section is targeted for physicians who either practice occupational medicine or who treat patients who work.

NOTE: Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

Secretary . . . . . C. RONALD KERSH, *Newport News, VA*

Guest Speaker . . . . . PEYTON T. TAYLOR, *Charlottesville, VA*

PURPOSE:

The program for the section on Oncology was designed to convey practical information on cancer prevention and screening in coordination with the sections on Family Practice and Gynecology.

OBJECTIVES:

Through a combination of multi-disciplinary conferences, the section meeting will explore aspects of cancer prevention and screening in females.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meetings, physicians should be updated in the area of screening, prevention, and treatment of breast cancer, ovarian cancer, and vulvar cancer.

TARGET AUDIENCE:

This meeting is designed for oncologists, family practitioners, gynecologists, and radiologists. Information presented may also be of benefit to physicians in training and other health care professionals.

SECTION ON OPHTHALMOLOGY

OFFICERS

Chairman . . . . . JEAN E. HOLT, *San Antonio, TX*

Vice-Chairman . . . . . RALPH E. WESLEY, *Nashville, TN*

Secretary . . . . . GEORGE S. ELLIS, *New Orleans, LA*

Guest Speaker . . . . . DANIEL ARON ROSA, *Paris, France*

PURPOSE:

The program for the section on Ophthalmology was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within the practice of medicine.

OBJECTIVES:

This section program has been developed as a comprehensive review of general medical topics, focusing on ophthalmologic manifestations, diagnosis, and management.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of new and emerging technologies in ophthalmology.

TARGET AUDIENCE:

This section meeting is designed for ophthalmologists, practitioners, and residents, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

- All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

NOTES

SECTION ON ORTHOPAEDIC & TRAUMATIC SURGERY

OFFICERS

Secretary . . . . . DAVID F. MARTIN, *Winston-Salem, NC*

Program

Co-Chairman . . . . ROBERT C. SCHENCK, JR., *San Antonio, TX*

Guest Speaker . . . . . PAUL P. GRIFFIN, *Charleston, SC*

PURPOSE:

The section on Orthopaedic & Traumatic Surgery was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity for orthopaedic physicians to present current research and clinical data on subjects of common interest within the practice of orthopaedics.

OBJECTIVES:

Through presentations, participants should increase their knowledge in general and specialty orthopaedics, emerging techniques, and new research efforts.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants will be afforded the opportunity to gain a better understanding of current orthopaedic research, clinical treatment, and surgical techniques in the practice of orthopaedics.

TARGET AUDIENCE:

This meeting is designed for practicing orthopaedic surgeons, traumatologists, and academicians, however, information presented will also be of benefit to physicians in training, and to physicians who come in contact with the patient population in discussion.

NOTE:

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

SESSION 86

THURSDAY, NOVEMBER 12, 6:30 AM
San Antonio Convention Center
Room 107

9th Annual Residents and Fellows' Conference of the Southern Orthopaedic Association

Members of the Section on Orthopaedic & Traumatic Surgery are invited to attend

See program on page 309

SESSION 87

SECTION ON OTOLARYNGOLOGY—HEAD & NECK SURGERY

OFFICERS

Chairman . . . . . KEITH L. KREUTZIGER, *New Orleans, LA*

Vice-Chairman . . . . . KAREN H. CALHOUN, *Galveston, TX*

Secretary . . . . . TIMOTHY B. MOLONY, *New Orleans, LA*

Guest Speaker . . . . . NICHOLAS CASSISI, *Gainesville, FL*

PURPOSE:

The program for the section on Otolaryngology—Head & Neck Surgery provides an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within the practice of medicine, and to update participants in the current techniques and advances in the specialty of Otolaryngology—Head & Neck Surgery.

OBJECTIVES:

To present lectures on various topics pertaining to Otolaryngology—Head & Neck Surgery and related fields.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of the recent advances in otolaryngology, otology, neurotology, head and neck cancers, and pediatric otolaryngology.

TARGET AUDIENCE:

This section meeting is designed for otolaryngology—head & neck surgeons, pediatricians, family physicians, general surgeons, plastic surgeons, and radiologists, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for the physicians'-in-training competition.

NOTES

SECTION ON PATHOLOGY

OFFICERS

Chairman . . . . . JEFFERSON D. MORGAN, *Miami Beach, FL*

Secretary . . . . . BHAGIRATH MAJMUDAR, *Atlanta, GA*

Guest Speaker . . . . . KENT BOTTLES, *Iowa City, IA*

PURPOSE:

The program for the section on Pathology was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within the practice of medicine.

OBJECTIVES:

To present special topics of interest to the general pathologist and to provide pathology residents with a forum in which to present their work.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of special topics and recent trends in the practice of pathology.

TARGET AUDIENCE:

The section meeting is designed for pathologists, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times, other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

SECTION ON PLASTIC & RECONSTRUCTIVE SURGERY

OFFICERS

Chairman . . . . . SUMAN K. DAS, *Jackson, MS*

Vice-Chairman . . . . . VALENTIN GRACIA, *Fort Worth, TX*

Secretary . . . . . KEVIN F. HAGAN, *Nashville, TN*

Guest Speaker . . . . . DAVID W. FURNAS, *Orange, CA*

PURPOSE:

The program for the section on Plastic & Reconstructive Surgery is designed to provide an interactive forum for the presentation of clinical and laboratory work, an overview of establishing emergent techniques, and give an opportunity to interact with peers in related specialties on subjects of concern and common interests in the practice of medicine.

OBJECTIVES:

The program is designed to provide useful information to the clinical practitioner of plastic surgery. To this end, ample opportunity is allowed for discussion of various topics and presented techniques. A broad range of topics will be discussed, including reconstructive surgery, aesthetic surgery, and maxillofacial/craniofacial surgery. There will be a joint session with Dermatology.

EDUCATIONAL OUTCOMES:

The material presented will enhance the armamentarium of the plastic surgeon in clinical practice. New and emerging techniques will be discussed, as well as comprehensive summations of more established techniques.

TARGET AUDIENCE:

This program is designed for plastic surgeons. Portions of the section meeting will be of interest to general surgeons, otolaryngologists, dermatologists, family physicians, emergency physicians, and physicians in training.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

NOTES

SECTION ON RADIOLOGY

OFFICERS

Chairman . . . . . RAMESH PATEL, *Jackson, MS*

Vice-Chairman . . . . . J. GILBERT BROCK, *Newport, TN*

Secretary . . . . . ALLAN E. GREEN, *Mobile, AL*

Guest Speaker . . . . . ERIC vanSONNENBERG, *San Diego, CA*

RSNA Guest Speaker . . . . . LEE F. ROGERS, *Chicago, IL*

PURPOSE:

The program for the section on Radiology was designed to provide an update on clinical advances, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within the practice of medicine.

OBJECTIVES:

To review traditional concepts in general radiology, to present applications of new technology, and to present a forum for discussing practice problems.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of traditional radiological knowledge and a familiarity with newer emerging technology.

TARGET AUDIENCE:

This section meeting is designed for the academic or practicing diagnostic radiologist, however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for the physicians'-in-training competition.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

NOTES

SECTION ON RHEUMATOLOGY

OFFICERS

Chairman . . . . . LEONARD SEREBRO, *New Orleans, LA*

Vice-Chairman . . . . . JEFFREY S. SCHEIB, *Knoxville, TN*

Secretary . . . . . GERONIMO LLUBERAS-ACOSTA, *Marietta, GA*

Guest Speaker . . . . . JACK WAXMAN, *New Orleans, LA*

PURPOSE:

The program for the section on Rheumatology was designed to provide a forum for the presentation of recent clinical and laboratory investigations, an overview of emerging technologies, and the opportunity to interact with peers on subjects of concern and common interest within these areas of medicine.

OBJECTIVES:

To provide a basic and clinical update in areas of special and emerging interests and to promote clinical and laboratory research.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of areas of active research within the field of Rheumatology and, through the guest lecturer, an overview of approaches in prostaglandin research.

TARGET AUDIENCE:

This section meeting is designed for rheumatologists, immunologists, physiatrists, internists, family practitioners and other health care specialists; however, information presented may also be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTES

SECTION ON SURGERY

OFFICERS

Chairman . . . . . R. NEAL GARRISON, *Louisville, KY*

Vice-Chairman . . . . . WILLIAM O. RICHARDS, *Nashville, TN*

Secretary . . . . . JONATHAN SACK, *Birmingham, AL*

Guest Speaker . . . . . DONALD E. FRY, *Albuquerque, NM*

PURPOSE:

The program for the section on Surgery will provide a large and varied educational program of information on topics of interest to the general surgical practitioner. These topics will keep the practitioner current in the opportunity to interact with peers on subjects of common interest in the practice of medicine and surgery.

OBJECTIVES:

Discussion of topics in general surgery, trauma, vascular surgery, critical care, oncologic surgery, gastrointestinal surgery, pancreaticobiliary surgery, endocrine surgery, laparoscopic surgery and transplantation will provide clinically relevant scientific information of practical value to the surgical practitioner concerning current controversies, new procedures and techniques and standards of care for a variety of surgical diseases. Specifically, opportunities for dissemination and discussion of information concerning the rapidly evolving areas of multisystem organ failure and interventional radiology techniques will be provided.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should be able to outline treatment options and outcomes for the procedures discussed and describe the new techniques in the current practice of general surgery.

TARGET AUDIENCE:

This section meeting is designed for practicing surgeons, however, information presented may be of benefit to physicians in training, physicians with occasional contact with the patient population in discussion, and at times other health care professionals.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

NOTES

SECTION ON UROLOGY

OFFICERS

Chairman . . . . . DONALD L. LAMM, *Morgantown, WV*

Vice-Chairman . . . . . FREDERICK KLEIN, *Knoxville, TN*

Secretary . . . . . JOHN A. MATA, *Shreveport, LA*

Guest Speaker . . . . . JAMES E. MONTIE, *Detroit, MI*

Section Host . . . . . WILLIAM P. FITCH, III, *San Antonio, TX*

PURPOSE:

The program for the section on Urology is designed to provide an overview of new technologies, an update on clinical advances, and an opportunity for faculty to interact with their colleagues on subjects of concern and common interest. Topics such as pediatric urology, urinary tract infection, and benign prostatic hyperplasia management will be presented, as well as additional material on urinary incontinence and impotence. The program should provide resident physicians and practitioners with a solid update and review on selected topics in adult and pediatric urology.

OBJECTIVES:

The objectives for the program of the section on Urology include creating an environment conducive for discussion of topics of broad emphasis in urology with special interests on urologic oncology and pediatric urology. The participants should be able to outline treatment options for the procedures discussed and describe new trends in the practice of urology.

EDUCATIONAL OUTCOMES:

At the conclusion of the section meeting, participants should have a better understanding of the current diagnosis and treatment of adult and pediatric urology conditions discussed. Participants should also have an updated understanding of "issues in the early detection of prostate cancer, the development and refinement of BCG immunotherapy for bladder cancer, and the dilemma of bladder preservation versus bladder reconstruction for bladder cancer."

TARGET AUDIENCE:

This section is designed for urologists and related specialists such as radiologists, oncologists, primary care physicians, and surgeons. Material presented will also be of benefit to physicians-in-training and any physician with occasional contact with the patient population under discussion.

NOTE:

All names followed by an asterisk indicate eligibility for physicians'-in-training competition.

Titles of presentators having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

A JOINT MEETING OF THE SECTIONS ON PEDIATRICS & ADOLESCENT MEDICINE AND OTOLARYNGOLOGY—HEAD & NECK SURGERY

SESSION 92

FRIDAY, NOVEMBER 13, 9:00 AM
San Antonio Convention Center
Room 205

The Southern Medical Association acknowledges Lederle Laboratories for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

The purpose of this joint meeting is to provide pediatricians, family practitioners and otorhinolaryngologists a forum for idea exchange to enable appropriate medical care of children. At the conclusion of this meeting, participants should be able to: 1) describe the use of BEAM for evaluation of children with central auditory processing dysfunction; 2) discuss the results of tympanostomy in children; 3) describe the presentation of vascular masses in the middle ear; 4) list the indications for functional endoscopic sinus surgery in children; and 5) list the differential diagnosis of dizziness in children.

TARGET AUDIENCE:

Pediatricians, Family Practitioners, Otorhinolaryngologists, and other physicians who care for children.

CLINICAL AND SCIENTIFIC SYMPOSIA

The 86th Annual Scientific Assembly of the Southern Medical Association affords physicians a variety of opportunities to update their medical knowledge and enhance their clinical skills by offering a multi-faceted curriculum of activities. These symposia were developed to complement the postgraduate courses and specialty section meetings, and address current clinical concerns presented by nationally recognized experts.

PHYSICIANS WHO ARE REGISTERED FOR THE ANNUAL MEETING MAY ATTEND SYMPOSIA AT NO ADDITIONAL CHARGE. For the luncheon symposia sessions, meals will be provided complimentary for the first 100 physician participants on a first-come, first-serve basis. Spouses and non-physicians will be accommodated only on a space available basis.

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

THE SOUTH AS THE STROKE BELT: EPIDEMIOLOGY THROUGH REHABILITATION

SESSION 112

THURSDAY, NOVEMBER 12
7:00 - 8:30 AM
San Antonio Convention Center
River B Room

The Southern Medical Association acknowledges Syntex Pharmaceutical Company and The Upjohn Company for unrestricted educational grants and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium, developed by the SMA Section on Medicine, will discuss the epidemiology, therapy, and rehabilitation of cerebrovascular accidents, particularly as they apply to the southern section of the United States. At the conclusion of this program, participants should be able to (1) recognize patients at risk for stroke (particularly those in the south); (2) utilize the most current diagnostic tools and therapeutic options; and (3) suggest appropriate rehabilitation after a stroke.

TARGET AUDIENCE:

Primary Care Physicians

•7:00 AM
Introductions and Epidemiology of Stroke in the South
VERONICA K. PIZIAK
Temple, TX

•7:10 AM

DIABETES IN THE MINORITY POPULATION

SESSION 113

THURSDAY, NOVEMBER 12
1:00 - 2:30 PM
Luncheon Session
San Antonio Convention Center
Centro D Room

The Southern Medical Association acknowledges Hoechst-Roussel Pharmaceuticals, Inc. for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium, developed by the SMA Section on Medicine, will address the incidence and consequences of diabetes in minority patients including African-Americans, Hispanics, and Native Americans. Discussion will focus on epidemiology and therapeutic options.

TARGET AUDIENCE:

Primary Care Physicians

1:00 PM
Introductions and Program Overview

WHAT'S NEW IN ANTIBIOTICS?

SESSION 114

THURSDAY, NOVEMBER 12
1:00 - 2:30 PM

Luncheon Session

San Antonio Convention Center
Mission Room

The Southern Medical Association acknowledges Miles Inc. for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium will offer an update on antibiotic agents and treatment options germane to the primary care physician. Also included will be a discussion of susceptibility and resistance patterns related to antibiotic therapies.

TARGET AUDIENCE:

Primary Care Physicians

1:00 PM
Introductions and Program Overview

HOW TO HELP YOUR PATIENT STOP SMOKING: TREATMENT OF NICOTINE DEPENDENCY

SESSION 115

THURSDAY, NOVEMBER 12
1:00 - 2:30 PM

Luncheon Session

San Antonio Convention Center
Room 102

The Southern Medical Association acknowledges CIBA-GEIGY Corporation for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This session, developed by the SMA Section on Medicine, will highlight the epidemic risk of smoking and will discuss behavioral, psychological, and physiological means of addressing this addiction. The role of nicotine replacement therapy will be discussed. At the conclusion of this presentation, physicians should understand their role in treating this dependency by complementing behavioral with pharmacological therapy.

TRANSMISSION OF INFECTIOUS DISEASES IN THE HEALTH CARE SETTING— MINIMIZING THE RISKS

SESSION 116

FRIDAY, NOVEMBER 13
7:00 - 9:00 AM

San Antonio Convention Center
River A Room

The Southern Medical Association acknowledges Roerig Division, Pfizer Pharmaceuticals for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

The purpose of this program is to communicate an understanding of the magnitude of problems and the risk for HIV and TB transmission in health care settings. Discussions will focus on transmission from patient to provider, clinician to patient, and patient to patient with emphasis on how to minimize risk of infection.

TARGET AUDIENCE:

ADVANCES IN CANCER THERAPIES

SESSION 117

FRIDAY, NOVEMBER 13
7:00 - 9:00 AM

San Antonio Convention Center
Centro A Room

The Southern Medical Association acknowledges Roche Laboratories for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium is designed to provide an overview of recent advances in cancer therapies. At the conclusion of this program, participants should be able to more effectively manage/treat patients with gynecologic, colorectal and/or skin cancer.

CURRENT TRENDS IN THE MANAGEMENT OF OSTEOPOROSIS

SESSION 118

FRIDAY, NOVEMBER 13
7:00 - 9:00 AM

San Antonio Convention Center
Fiesta D Room

The Southern Medical Association acknowledges Sandoz Pharmaceuticals for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium is designed to acquaint the primary care physician with new developments in the management of osteoporosis. At the conclusion of the program, participants should be able to: diagnose osteoporosis utilizing clinical examination, history, laboratory investigations, radiology, bone densitometry and CT scan; manage osteoporosis through hormone replacement and calcium supplements in the early post-menopausal patient; and understand the benefits and risks of various therapeutic modalities.

DERMATOLOGY UPDATE FOR PRIMARY CARE PHYSICIANS

SESSION 119

FRIDAY, NOVEMBER 13
7:00 - 9:00 AM

San Antonio Convention Center
Fiesta E Room

The Southern Medical Association acknowledges Glaxo Dermatology—Division of Glaxo Pharmaceuticals, Inc. for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium will provide a dermatology update for primary care physicians. At the conclusion of this program, participants should be able to (1) diagnose and treat common skin conditions (including acne, eczema, warts, and psoriasis) encountered in the primary care practice setting; (2) utilize current therapeutic options to prevent and treat precancerous lesions and skin cancer; and (3) assess skin problems as markers of systemic diseases, emphasizing infections, metabolic disorders, and malignancies.

DEPRESSION AWARENESS, RECOGNITION AND TREATMENT (I)

SESSION 120

FRIDAY, NOVEMBER 13
7:00 - 9:00 AM

San Antonio Convention Center
Plaza D Room

The Southern Medical Association acknowledges the National Institute of Mental Health and Duke University's Depression/Awareness, Recognition and Treatment (D/ART) Project for their full support of and participation in this symposium, as well as appreciate their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium acknowledges the central role of primary care physicians in the diagnosis and treatment of patients with depression. At the conclusion of this symposium, participants should be able to (1) recognize the extensive morbidity and mortality surrounding anxiety/depression and its treatment in primary care; (2) identify conditions for modification of psychotropic treatment regimens for the elderly; and (3) utilize current reference/syllabus materials to more effectively deal with patients who are depressed.

TARGET AUDIENCE:

Following this symposium, the Joint Meeting of Family Practice and Neurology & Psychiatry will continue this discussion of depression from 9:00 a.m.-12:00 Noon. It will cover current treatment approaches and special difficulties encountered with depressed patients who have other medical problems. At the conclusion of that meeting, participants should be able to (1) draw on both traditional/newer pharmacologic and alternative therapeutic options in the treatment of their depressed patients; (2) suggest solutions to treatment obstacles they encounter; and (3) employ strategies for diagnosing and treating patients with minor depression. Please refer to page 253 for the complete program.

PROSTATE CANCER ISSUES FOR PRIMARY CARE PHYSICIANS

SESSION 121

FRIDAY, NOVEMBER 13
9:00 AM - 12:00 NOON

San Antonio Convention Center
River A Room

The Southern Medical Association acknowledges Schering Laboratories for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium is designed to provide state-of-the-art clinical information on issues related to prostate cancer. At the conclusion of the meeting, participants should be able to (1) understand the etiology and pathophysiology of prostate cancer; (2) screen patients for and diagnose those with prostate cancer; and (3) employ current therapeutic options for treatment of patients with prostate cancer.

UPDATE ON ESTROGEN REPLACEMENT THERAPY FOR POST-MENOPAUSAL PATIENTS

SESSION 122

SATURDAY, NOVEMBER 14
7:00 - 9:00 AM

San Antonio Convention Center
River B Room

The Southern Medical Association acknowledges Wyeth-Ayerst Laboratories for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium, developed by the SMA Section on Medicine, will offer an update on estrogen replacement therapy for post-menopausal patients. Through participation in this program, physicians should gain a better understanding of benefits and risks associated with estrogen replacement therapy, focusing on lipid changes, prevention of osteoporosis, and malignancy risk.

CURRENT CONCEPTS IN THE DIAGNOSIS AND MANAGEMENT OF ASTHMA

SESSION 123

SATURDAY, NOVEMBER 14
7:00 - 9:00 AM

San Antonio Convention Center
Fiesta B Room

The Southern Medical Association acknowledges Fisons Pharmaceuticals for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium is designed to provide physicians with current clinical information concerning the diagnosis and management of asthma. Participants should gain a better understanding of the pathophysiology, clinical diagnosis, pharmacologic interventions, and new therapeutic approaches to asthma.

UPDATE ON THE MANAGEMENT OF CHRONIC PAIN

SESSION 124

SATURDAY, NOVEMBER 14
7:00 - 9:00 AM

San Antonio Convention Center
Fiesta D Room

The Southern Medical Association acknowledges Wyeth-Ayerst Laboratories for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

Whether the result of an injury, illness, surgery, and/or cancer, chronic pain accounts for an extraordinary amount of physician time, diagnostic testing, and analgesic use and abuse. Therefore, this symposium, developed by the SMA Section on Anesthesiology, provides an update on chronic pain. At the conclusion of this symposium, participants should be able to (1) diagnose, manage, and treat patients with chronic pain, particularly low back pain and sympathetically mediated pain, and (2) incorporate the essential components of a chronic pain program in their practice setting.

NEW DIRECTIONS IN GI PHARMACOLOGY AND THERAPEUTICS

SESSION 65

SATURDAY, NOVEMBER 14
7:00 - 9:00 AM

San Antonio Convention Center
Centro B Room

The Southern Medical Association acknowledges Merck Sharp & Dohme for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium, developed by the SMA Section on Gastroenterology, will provide an overview of new directions in GI pharmacology and therapeutics. Through participation in this program, physicians should gain a better understanding of and more effectively utilize therapeutic options in the treatment of patients with acid peptic, gastrointestinal motility disorders, chronic pancreatitis, and diarrhea.

INSULIN RESISTANCE SYNDROME

SESSION 125

SATURDAY, NOVEMBER 14
7:00 - 9:00 AM

San Antonio Convention Center
Fiesta E Room

The Southern Medical Association acknowledges Parke-Davis and The Upjohn Company for unrestricted educational grants and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium, developed by the SMA Section on Medicine, will discuss the risks of hyperinsulinemia and therapy for the hypertensive and hylerlipidemic states, which may result from this condition. At the conclusion of this program, participants should be able to identify the risks of hyperinsulinemia and recommend remedial therapies that may be used to prevent the consequences of hyperinsulinemia.

SEX, DRUGS, AND ROCK 'N ROLL: A GENERATION IN JEOPARDY

SESSION 126

SUNDAY, NOVEMBER 15
7:00 - 9:00 AM

Marriott Rivercenter Hotel
Salon A/B Room

The Southern Medical Association acknowledges Pfizer Labs for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium, developed by the SMA Section on Pediatrics and Adolescent Medicine, focuses on several different addictions common among today's adolescents and young adults. Addictions to be discussed include eating disorders, smoking, alcohol abuse, illegal and legal drug use, and sexually transmitted diseases. At the conclusion of this program, participants should be able to (1) identify reasons why this generation is particularly at risk for developing addictions and (2) employ various strategies for managing addictions in their daily practices.

ALZHEIMER'S DISEASE: A PRIMARY CARE PHYSICIAN'S GUIDE

SESSION 127

SUNDAY, NOVEMBER 15, 1992
7:00 - 9:00 AM

Marriott Rivercenter Hotel
Salon C/D Room

The Southern Medical Association acknowledges Hoechst-Roussel Pharmaceuticals, Inc. for an unrestricted educational grant and appreciates their interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This symposium will provide primary care physicians with a state-of-the-art guide on Alzheimer's Disease. At the conclusion of this program, physicians should be able to utilize various criteria to clinically diagnose Alzheimer's Disease and select from the most current treatment options, as well as offer useful strategies for managing the Alzheimer's patient and caring for the caregiver.

8th Annual President's Symposium

FRONTIERS IN SPACE BIOMEDICINE

SESSION 128

SUNDAY, NOVEMBER 15
9:00 - 11:00 AM

Marriott Rivercenter Hotel
Salon E Room

PURPOSE AND OBJECTIVES:

The purpose of this symposium is to present several of the most challenging examples of today's ambitious space research program. Current research and data collected in outer space will be presented by an active astronaut focusing on the Space Adaptation Syndrome and other biomedical research activities on shuttle missions. Psychological and behavioral adaptation to confined, isolated environments as experienced in space travel will be explained, including crew interaction, sleep, reproduction and health maintenance. Moreover, psychological considerations for long-duration space flight will be presented by an active researcher and former astronaut. Plans for providing acute and traumatic medical care aboard the Space Station Freedom will be explained, as well as a description of the Station's proposed medical treatment facility. At the conclusion of the symposium, participants will have an in-depth understanding of ongoing and future biomedical space research activities and a vision of the next generation in medical care.

SPECIAL PROGRAMS

AVIATION MEDICAL CERTIFICATION STANDARDS AND PROCEDURES WORKSHOP

WEDNESDAY, NOVEMBER 11
8:00 AM-4:30 PM

San Antonio Convention Center
Mission Room
Breakout - Room 101

PURPOSE AND OBJECTIVES:

This workshop was developed by the Federal Aviation Administration in cooperation with the Southern Medical Association. As an Aviation Medical Examiner, the effort and expertise of you and your staff in performing your duties in the area of Aviation Medicine are of great value. Course attendees will learn how to efficiently manage the paper flow associated with their responsibilities as an Aviation Medical Examiner. At the completion of the workshop, participants should have a better understanding of their role in terms of interfacing with the FAA; the need for accurately completing FAA Form 8500-8; how office staff can effectively decrease error rates; and how to answer questions posed by the airman applicant. Participants are also welcome to attend the AME Seminar.

TARGET AUDIENCE:

Attendance at an Aviation Medical Certification Standards and Procedures Workshop and a Federal Aviation Administration Seminar is required prior to appointment as an Aviation Medical Examiner. Attendance at a seminar every 5 years thereafter is required for retention of AME appointment. For clarification of AME certification eligibility for your geographic area, please contact the FAA directly, attention Doug R. Burnett, 405-680-4881.

CONTINUING MEDICAL EDUCATION CREDIT:

The Federal Aviation Administration will issue CME credit for the Workshop and Seminar.

AVIATION MEDICAL EXAMINERS SEMINAR

THURSDAY, NOVEMBER 12 - SATURDAY, NOVEMBER 14
8:00 AM - 6:00 PM

San Antonio Convention Center
Room Plaza B/C

PURPOSE AND OBJECTIVES:

This seminar is designed to fulfill the FAA certification requirements of Aviation Medical Examiners. At the conclusion of the seminar, physicians should have a better understanding of the role of the Aviation Medical Examiner in FAA medical certification. In that role, the AME: represents the administrator in the performance of delegated functions (acts as a FAA official); examines applicants to obtain information essential to determining their qualifications for medical certification (obtains facts); decides whether applicants meet the pertinent medical standards prescribed in Federal Aviation Regulations, Part 67 (makes discretionary decisions); and issues or denies airman medical certificates (initiates FAA action). Through successful completion of this seminar, physicians should be eligible for appointment or reappointment as an AME.

TARGET AUDIENCE:

Attendance at an Aviation Medical Certification Standards and Procedures Workshop and a Federal Aviation Administration Medical Seminar is required prior to appointment as an Aviation Medical Examiner. Attendance at a seminar every 5 years thereafter is required for retention of AME appointment. For clarification of AME certification eligibility for your geographic area, please contact the FAA directly, attention Doug R. Burnett, 405/680-4881.

CONTINUING MEDICAL EDUCATION CREDIT:

The Federal Aviation Administration will issue CME credit for the Workshop and Seminar.

Room 107

SYMPOSIUM ON CARDIOVASCULAR DISEASE IN THE AGING PATIENT

The Southern Medical Association and the Southern Association for Geriatric Medicine gratefully acknowledge Astra Pharmaceutical Products, Inc. for an unrestricted educational grant in support of this program and appreciate Astra's interest in continuing medical education.

PURPOSE AND OBJECTIVES:

This program offers state-of-the-art information on cardiovascular disease in the aging patient who is physically and mentally capable and who is living independently. At the conclusion of this program, participants should be able to:

- Identify aging patients at risk for cardiovascular disease;
- Offer suggestions for reducing their risk of developing cardiovascular disease;
- Diagnose cardiovascular disease before serious complications develop;
- Use appropriate interventions and therapeutic options in the management of cardiovascular disease in aging patients;
- Inform aging patients about the likely prognosis of cardiovascular disease; and
- Utilize contemporary, therapeutic options for treating cardiovascular disease.

TARGET AUDIENCE:

This program is designed for physicians interested in and/or encountering aging patients as part of their practice. Information presented may be of benefit to family practitioners, internists, and other health care professionals providing services to aging patients.

FEES:

SMA Annual Meeting registration is a prerequisite for enrollment in the SAGM Sectional Meeting. Registration fee for this symposium is $25 for SAGM members, $65 for SAGM nonmembers.

2:00 - 5:30 PM

San Antonio Convention Center
Room 102

Who Cares for the Caregiver?
Life Enhancement Strategies for Young Physicians

PURPOSE AND OBJECTIVES:

This program examines lifestyle issues which young physicians may face and offers practical approaches for enhancing their personal and professional lives. Small group discussions afford participants an opportunity to share their particular concerns. A panel presentation will summarize common concerns.

At the conclusion of this program, participants should be able to identify:

- Sources of physical and psychological stress experienced in starting a practice and associated with lifestyle habits;
- Potential health habits that can reduce stress and improve wellness;
- Personal communication styles and patterns practiced in interpersonal relationships; and
- Ways in which the demands of medicine impact on personal relationships.

In addition, participants should be able to develop:

- Insights about the impact of various communication styles on relationships;
- Strategies for constructively changing communication patterns; and
- Skills for solving relationship difficulties.

TARGET AUDIENCE:

This program is designed for senior residents, fellows, and physicians within their first five years of practice. Participants in this program (not already in training and receiving a complimentary membership) will be given a one-year, complimentary membership to the Southern Medical Association.

SOUTHERN ORTHOPAEDIC ASSOCIATION'S RESIDENTS & FELLOWS' CONFERENCE

OFFICERS

Program Chairmen . . . . . FRED G. CORLEY, *San Antonio, TX*

PETER J. McGANITY, *San Antonio, TX*

Guest Speaker . . . . . KAYE E. WILKINS, *San Antonio, TX*

PURPOSE:

The 9th Annual Residents and Fellows' Conference is designed to provide an update of clinical advances, an overview of emerging technologies and the opportunity for surgeons-in-training to present current research and clinical data to their peers on scientific subjects of common interest within the practice of orthopaedics.

OBJECTIVES:

Through residents and fellows' presentations, participants should increase their knowledge in general and specialty orthopaedics, emerging technologies and new research efforts.

EDUCATIONAL OUTCOMES:

Through participation in this conference, participants will be afforded the opportunity to gain a better understanding of current orthopaedic research, clinical treatment, and surgical techniques in the treatment of orthopaedic problems of the upper and lower extremities and spine.

TARGET AUDIENCE:

This meeting is designed for surgeons in orthopaedic training and practicing orthopaedic surgeons. Information presented may also be of benefit to physicians or surgeons who treat musculoskeletal problems of the extremities and spine.

NOTE:

Titles of presentations having a • represent presenters who have voluntarily disclosed commercial relationship(s) with their presentation. See explanation on page 27.

WEDNESDAY, NOVEMBER 11, 6:30-8:00 PM
Marriott Rivercenter Hotel
Salon I

There will be a cocktail buffet reception for residents and fellows, members, spouses, and guests of the Section and the Southern Orthopaedic Association. Please make plans to attend.

DISABILITY EVALUATION UNDER SOCIAL SECURITY

sponsored by
The Social Security Administration

FRIDAY, NOVEMBER 13
2:00 - 5:00 PM
River B Room

DESCRIPTION: This presentation will acquaint the treating physician with the Social Security Disability Program. It explains the process that is followed to determine who meets the definition of disability. The emphasis of the presentation will be on the role of the treating physician as primary provider of medical evidence needed to adjudicate disability claims. The types of information that are required from the claimant's treating sources and why it is critical that this information be submitted in a certain way and as timely as possible will be explained. The ways in which physicians can help their patients who file for disability benefits and obtain accurate and timely decisions on their claims will be discussed.

FACULTY: Albert Vickers, M.D., Chief, Medical Consultant Emeritus, Texas Disability Determination Services; Tom Ross, Director, Medical Relations, Texas Disability Determination Services; and James E. Payne, M.D., Medical Director, Texas Disability Determination Services.

TARGET AUDIENCE: All Physicians

FEES: Participants must be registered to attend the Annual Scientific Assembly. There is no additional fee to attend this program.

CME CREDIT: CME Credit for this course will be awarded by the Social Security Administration.

TWENTY-SECOND ANNUAL GEORGE PAPANICOLAOU MEMORIAL SEMINAR IN GYNECOLOGIC PATHOLOGY

SESSION 71

SATURDAY, NOVEMBER 14, 2:00 PM
San Antonio Convention Center
Centro A Room

The Seminar will consist of presentations and discussions of interesting cases submitted by physicians from various medical centers, as listed below. The presenters, audience and panel will take part in the discussion of clinical, pathological and therapeutic aspects of each disease.

Guest Modarator:
DEBRA BELL, M.D.
Acting Director of Cytopathology
Harvard Medical School
Massachusetts General Hospital
Boston, MA

Chairman:
MANUEL A. PENALVER
Miami, FL

Mixed Mullerian Tumor of the Ovary with Metastasis

MARIANA E. BERHO, ROBERT J. POPPITI, JR., and STEVEN R. POLIAKOFF
Miami Beach, FL

Presentation by Dr. Poppiti

4:36 PM
Pure Squamous Cell Carcinoma of the Endometrium

PARVIN GANJEI, SHERI HAMMERSLEY, and MANUEL A. PENALVER
Miami, FL

Presentation by Dr. Ganjei

4:48 PM
Crohn's Disease of the Vulva

MARK S. GELDER and SHAHLA MASOOD
Jacksonville, FL

Presentation by Dr. Masood

5:00 PM
Adjourn

SESSION 71	2.5	2.5	0	3.0	2.5

NOTES

SCIENTIFIC EXHIBITS

The Scientific Exhibits and Posters, located in the Exhibit Hall, will be open on Thursday, November 12, and Friday, November 13, from 8:00 a.m. until 5:00 p.m., and on Saturday, November 14, from 8:00 a.m. until 3:00 p.m. Name in bold indicates presenter.

Titles of Exhibits or Posters having a • represent presenters who have voluntarily disclosed commercial relationship(s) associated with their presentation. See explanation on page 27.

EMERGENCY MEDICINE

Booth #—299
Exhibit #—E01
CLINICAL FORENSIC MEDICINE IN THE EMERGENCY DEPARTMENT.
William S. Smock, University of Louisville School of Medicine, Louisville, KY and George R. Nichols, II, The Kentucky Medical Examiner's Office, Louisville, KY.

FAMILY PRACTICE

Booth #—297
Exhibit #—E02
BONE AND SOFT TISSUE INFECTIONS SECONDARY TO PUNCTURE WOUNDS IN ADULT DIABETICS.
Lawrence A. Lavery, DPM, Lawrence B. Harkless, DPM, Kim Felder-Johnson, DPM, and Sandra Mundine, DPM, The University of Texas Health Science Center at San Antonio, San Antonio, TX.

Booth #—289
Exhibit #E03
•**MANAGEMENT OF THE ALCOHOL-WITHDRAWAL SYNDROME USING DRUG AND NON-DRUG ALTERNATIVES.**
Ronald J. Dougherty and Rosemary Gates, Syracuse, NY

Booth #—287
Exhibit #—E04
•**UPDATE ON NONSTEROIDAL ANTI-INFLAMMATORY DRUGS: PHARMACOLOGIC BASICS FOR DRUG SELECTION AND SAFE CLINICAL USE.**
Peter Amadio, Jr., Jefferson Medical College of Thomas Jefferson University, Philadelphia, PA, Doyle M. Cummings, Pharm.D., East Carolina University School of Medicine, Greenville, NC, Patricia B. Amadio, Lancaster General Hospital, Lancaster, PA.

Booth #—285
Exhibit #—E05
TOTAL ELDER CARE: ESTABLISHMENT OF A GERIATRIC EVALUATION UNIT WITH A COMPREHENSIVE OUTPATIENT REHABILITATION FACILITY IN A SMALL COMMUNITY HOSPITAL.
Paul A. DeVore, Leland Memorial Hospital, Riverdale, MD.

SCIENTIFIC EXHIBITS

GYNECOLOGY

Booth #—384
Exhibit #—E06

- **HORMONE REPLACEMENT THERAPY AND BREAST CANCER.**
  R. Don Gambrell, Jr. and Ana-Zully Teran, Medical College of Georgia, Augusta, GA.

MEDICINE

Booth #—396
Exhibit #—E07

- **EFFICACY OF FLUCONAZOLE IN TREATING MULTIPLE THRUSH INFECTIONS IN AIDS PATIENTS.**
  Spencer W. Redding, D.D.S., M.Ed., Jean Smith, George Farinacci, DDS, Michael Rinaldi, Ph.D., and Ms. Annette Fothergill, University of Texas Health Science Center at San Antonio, San Antonio, TX.

Booth #—388
Exhibit #—E09
HEMATOLOGY OF THE ELDERLY.
Paul D. Cook, D.O., Edward S. Rappaport, Scott and White Clinic, Temple, TX, and Barbara J. Helbert, MT, (ASCP), Brownwood, TX.

Booth #—398
Exhibit #—E10

- **DIFFERENTIAL INTERACTIONS BETWEEN SALT INTAKE AND ANTIHYPERTENSIVE THERAPY ON BLOOD PRESSURE.**
  Myron H. Weinberger, Friedrich C. Luft, Erlangen, Federal Republic Germany, and Naomi S. Fineberg, Ph.D., Indiana University Medical Center, Indianapolis, IN.

Booth #—399
Exhibit #—E11
STUDIES OF AMPICILLIN AND CEFOPERAZONE IN COMBINATION WITH SULBACTAM AGAINST GRAM-NEGATIVE RODS.
Henry D. Isenberg, Ph.D. and **Ernestine Vellozzi, Ph.D.,** Long Island Jewish Medical Center, New Hyde Park, NY.

Booth #—397
Exhibit #—E12
MANAGEMENT OF DRUG FAILURE IN TYPE II DIABETES (NIDDM).
Vasti L. Broadstone, Anne Ries, R.D., M.S., C.D.E., University of Louisville, Louisville, KY, Alan Peiris, Robin Ewart, VA Medical Center, Louisville, KY.

NEUROSURGERY

Booth #—389
Exhibit #—E13
MINIMALLY INVASIVE NEUROSURGICAL INTERVENTION.
W. Robert Hudgins, University of Texas Southwestern Medical School, Dallas, TX.

SCIENTIFIC EXHIBITS

ONCOLOGY

Booth #—387
Exhibit #E15
TECHNICAL APPLICATION OF INTRALUMINAL BRACHYTHERAPY FOR ENDOBRONCHIAL TUMORS.
Hong W. Chin, Overton Brooks VA Medical Center, Shreveport, LA.

Booth #–385
Exhibit #E16
CLINICAL STUDY OF BRONCHOGENIC CARCINOMA IN THE OLDER PATIENTS.
Hong W. Chin, Overton Brooks VA Medical Center, Shreveport, LA, F. L. Ampil, F. S. Bahrassa, Louisiana State University Medical Center, Shreveport, LA.

Booth #—484
Exhibit #—E17
ROLE OF STEREOTACTIC, INTERSTITIAL CEREBRAL IRRADIATION IN THE MANAGEMENT OF MALIGNANT BRAIN TUMORS.
Hong W. Chin, Overton Brooks VA Medical Center, Shreveport, LA.

Booth #—486
Exhibit #—E18
CONTROL OF EXTENSIVE MALIGNANT MELANOMA OF THE SKIN USING EXTERNAL-BRAM RADIATION THERAPY.
Hong W. Chin, Overton Brooks VA Medical Center, Shreveport, LA, F. L. Ampil, Louisiana State University Medical Center, Shreveport, LA.

OPHTHALMOLOGY

Booth #—488
Exhibit #—E19
OPHTHALMIC CONCAVE MIRRORS.
Thomas J. Schermerhorn, Atlanta, GA.

Booth #—490
Exhibit #—E20
KTP LASER REVISION OF FAILED LACRIMAL DRAINAGE PROCEDURES.
Marc Sanders, Richard Hesse, and R. Brent Butcher, Ochsner Clinic, New Orleans, LA.

ORTHOPAEDIC & TRAUMATIC SURGERY

Booth #—496
Exhibit #—E21
- **ULTRASOUND IN BLUNT ABDOMINAL-THORACIC TRAUMA: A TEACHING MODEL FOR THE NON-RADIOLOGIST TO ACHIEVE CLINICAL PROFICIENCY.**
David P. Milzman, Colette M. Magnant, and Joseph Newsome, Georgetown University Medical Center, Washington, DC, Bernard R. Boulanger and Aurelio Rodriguez, Sunny Brook Hospital, Toronto, Ontario, Canada.

SCIENTIFIC EXHIBITS

PEDIATRICS & ADOLESCENT MEDICINE

Booth #—498
Exhibit #—E22
TUBEROUS SCLEROSIS & INFANTILE SPASMS: OVERLOOKED DIAGNOSES.
William G. Ward, Bowman Gray School of Medicine, Winston-Salem, NC.

PLASTIC & RECONSTRUCTIVE SURGERY

Booth #—491
Exhibit #—E23
CLEFT PALATE SPEECH REHABILITATION.
Valentin Gracia and Walter D. Gracia, Fort Worth, TX.

RADIOLOGY

Booth #—489
Exhibit #—E24
GAS CONTRAST COMPUTED TOMOGRAPHY.
Carl Gene Coin, Long Key, FL.

SURGERY

Booth #—487
Exhibit #—E25
AN ALTERNATIVE APPROACH TO THE RETROPERITONEAL AORTA.
J.R. Evans, **C.A. Floresguerra,** I.W. Browder, East Tennessee State University, Quillen College of Medicine, Johnson City, TN.

Booth #—485
Exhibit #—E26
• **GASTROSTOMY: EVALUATION OF A NEW TUBE USING AN OLD TECHNIQUE.**
William A. Shaver, Jeffrey A. Herold, Roanoke Memorial Hospital, Roanoke, VA.

SCIENTIFIC POSTERS

ALLERGY & IMMUNOLOGY

P01

IMMUNOMODULATION IN THE TREATMENT OF MULTIPLE SCLEROSIS AND AMYOTROPHIC LATERAL SCLEROSIS (A MODEL FOR AUTOIMMUNE DISORDERS).

Rajko D. Medenica, Teresa Huschart, RN, Jo Anne Koffskey, BSRT, Wendy Corbitt, BAMT, Cancer Immuno-Biology Laboratory, Charleston, SC, Kenneth Alonso, Riverdale, GA.

ANESTHESIOLOGY

P02

•CHOLINE-MAGNESIUM TRISALICYLATE WITH AND WITHOUT CODEINE AS AN ANALGESIC IN POST-OPERATIVE PAIN.

Robert Grandy, MS, The Purdue Frederick Company, Norwalk, CT, Thomas G. Kantor, New York University School of Medicine, New York, NY, and Ellen Tom, RN, New York University Medical Center, New York, NY.

P03

•NASAL USE OF THE AUGUSTINE STYLET IN A PATIENT WITH KNOWN DIFFICULT AIRWAY SECONDARY TO TREACHER-COLLINS SYNDROME.

Anthony L. Kovac, Kansas University Medical Center, Kansas City, KS.

P04

PREOP DROPERIDOL VERSUS PROMETHAZINE: COMPARING SEDATION LEVEL, RECOVERY AND DISCHARGE TIMES.

Anthony L. Kovac, Frances McGinnis, CRNA, Phyllis L. Steer, John Calkins, Kansas University Medical Center, Kansas City, KS.

P05

TREATMENT OF POSTOPERATIVE SHIVERING IN OUTPATIENTS.

Patricia L. Baumann and Yung-Fong Sung, The Emory Clinic, Atlanta, GA.

CHEST DISEASES

P06

PRIMARY FIBROSARCOMA OF THE HEART WITH DISTANT METASTASES: DIAGNOSIS BY 2-D ECHO.

Mala Bakshi, Mikel Smith, **Julia Popham,** Stephen Reed, Todd Robinson, University of Kentucky Medical Center, Lexington, KY.

P07

CARDIAC ARRHYTHMIAS AND ARTERIAL DESATURATION DURING ROUTINE PERFORMANCE OF FLOW-VOLUME LOOP.

Cheryl L. Fields, Thomas M. Roy, Miguel A. Ossorio, Ryland P. Byrd, Jr., Mark V. Burns, University of Louisville School of Medicine and Veteran's Hospital, Louisville, KY.

SCIENTIFIC POSTERS

P08

THE USE OF CARDIAC PACEMAKERS IN A LARGE REFERRAL CARDIOLOGY PRACTICE.

Robin Girdhar, Abe W. Friedman, Rodney C. Lipman, Saul J. Silver, Ricci A. Minella, Shadyside Hospital and The University of Pittsburg, Pittsburgh, PA.

P09

METASTATIC OLIGODENDROGLIOMA TO THE MEDIASTINUM.

James V. Palazzolo, J. Kim, R. Kathuria, David Alyono, Samuel V. Spagnolo, George Washington University Medical Center, Washington, DC.

P10

SPONTANEOUS CHYLOTHORAX PRECEDING OCCULT BRONCHOGENIC CARCINOMA.

James V. Palazzolo, I. Kim, Samuel V. Spagnolo, VAMC, Washington, DC.

P11

ACUTE RESPIRATORY FAILURE ASSOCIATED WITH MYOSITIS.

David J. Mock, Jeffrey W. Jundt, Frank Perez-Guerra, Douglas L. Hurley, Scott & White Clinic, Temple, TX.

EMERGENCY MEDICINE

P12

IMPACT OF EMERGENCY MEDICINE RESIDENCY PROGRAM ON ROTATORS' EMERGENCY MEDICINE EDUCATION.

Robert A. Schwab, Thomas P. Kuhlmann, University of Virginia Health Sciences Center, Yi Hua Fan, MS, Graduate School of Arts and Sciences, Charlottesville, VA.

FAMILY PRACTICE

P14

EARLY DETECTION OF CERVICAL CANCER IN FAMILY PHYSICIAN'S OFFICES IN THE RIO GRANDE VALLEY.

Kathy Oleszkowicz, BS, Diane Romagnoli-Smith, BBA, G. Michael Kresch, BBA, Jack L. Franklin, Ph.D., Joseph T. Painter, The University of Texas MD Anderson Cancer Center, Houston, TX.

P15

RAMIFICATIONS OF BENZODIAZEPINES BEING PLACED ON TRIPLICATE PRESCRIPTION STATUS (SCHEDULE II).

Ronald J. Dougherty, Syracuse, NY.

P16
•A MULTICENTER TRIAL OF THE TREATMENT OF LOWER RESPIRATORY TRACT INFECTIONS CAUSED BY SUSCEPTIBLE PATHOGENS UTILIZING AN OUT-PATIENT DRUG DELIVERY DEVICE.
Javier Morales, Ashford Presbyterian Hospital, Conado, Santurce, PR, Henry Snead, Waterloo, IA, Jaime Carrizosa, Florida Hospital, Altamonte Springs, FL, Jose Angel, Mercy Hospital, Des Moines, IA.

P17
STRATEGIES FOR ASSISTING HIV+ PARENTS IN IMPLEMENTING FUTURE PLANS FOR THEIR HIV- CHILDREN.
Mark Evans, MSW, Carol Cohen, RN, BS, Geraldine Hoban, Ph.D., Ariel Shidlo, Ph.D., Pascal J. de Caprariis, Janet Mackey, RN, BS, Lutheran Medical Center, Brooklyn, NY.

P18
GUIDELINES FOR WORKING WITH HIV SERONEGATIVE CHILDREN WHOSE PARENTS HAVE HIV-RELATED DISEASE.
Ariel Shidlo, Ph.D., **Mark Evans, MSW,** Carol Cohen, RN, BS, Pascal J. de Caprariis, Ernest Visconti, Lutheran Medical Center, Brooklyn, NY.

P19
MANAGEMENT OF NEEDLE PHOBIA IN OFFICE PRACTICE.
James G. Hamilton, Nancy Hamilton, RN, Alexandria, LA, Everett H. Ellinwood, Duke University, Durham, NC.

P20
AUTOMATED MEDICAL RECORDS TO IMPROVE PHYSICIAN EFFICIENCY.
Allen F. Bowyer, Rosemary A. Thomas, Greenville, NC.

GASTROENTEROLOGY

P21
POST-ENDOSCOPY MONITORING—HOW LONG SHOULD THEY WAIT?
Gavin S. Young, Donald C. Clement, Wilford Hall Medical Center, Lackland AFB, TX.

P22
MASSIVE BLEEDING FROM A ZENKER'S DIVERTICULUM: CASE REPORT AND REVIEW OF THE LITERATURE.
Kelly P. Kensing, Lubbock Digestive Disease Associates, Lubbock, TX, **Joseph G. White,** Walter P. Dyck, Scott & White Clinic, Temple, TX.

P23
STRONGYLOIDES STERCORALIS.
William E. Passodelis, Marc A. Subik, Marshall University School of Medicine, Huntington, WV.

SCIENTIFIC POSTERS

P24
GRANULOMATOUS HEPATITIS: A PRESENTATION OF HODGKIN'S DISEASE.
Aslam Ahmad, Nadeem Haq, Marc A. Subik, **Raed A. Jitan,** Marshall University School of Medicine, Huntington, WV.

P25
FATAL GASTRIC PERFORATION AND LYMPHOMA PANCREATITIS.
Raed A. Jitan, Marc A. Subik, Marshall University School of Medicine, Huntington, WV.

P26
ALCOHOL ENHANCES THE DESIALYLATION OF TRANSFERRIN BY LIVER ENDOTHELIUM IN THE RAT.
Anastasios A. Mihas and Mehdi Tavassoli, VAMC and the University of Mississippi School of Medicine, Jackson, MS.

P28
NON OPERATIVE MANAGEMENT OF TRAUMATIC DISRUPTION OF THE PANCREATIC DUCT.
Giuseppe Aliperti, Jeffrey Hallett, Michael Darcy, Washington University School of Medicine, St. Louis, MO.

P29
APPENDICEAL INTUSSUSCEPTION.
Raymond LaRue, Louis Raider, Byron G. Brogdon, University of South Alabama, Mobile, AL.

P30
VITAMIN B12 MALABSORPTION IN HIV INFECTED PATIENTS WITH CHRONIC DIARRHEA.
Eli D. Ehrenpreis, Cleveland Clinic of Florida, Ft. Lauderdale, FL, Stephen J. Carlson, Robert M. Craig, Chicago, IL.

GYNECOLOGY

P31
EVOLUTION OF THE MANAGEMENT OF ECTOPIC PREGNANCY IN A COMMUNITY HOSPITAL.
Paul J. Meyers, William Mann, Newport News, VA.

SCIENTIFIC POSTERS

MEDICINE

P32

• A MULTICENTER TRIAL OF THE TREATMENT OF BONE AND JOINT INFECTIONS CAUSED BY SUSCEPTIBLE PATHOGENS UTILIZING AN OUT-PATIENT DRUG DELIVERY DEVICE.

Arthur Mauceri, North Florida Regional Hospital, Gainesville, FL, Jaime Carrizosa, Florida Hospital, Altamonte Springs, FL, David Williams, Park Nicollet Medical Center, Minnepolis, MN.

P34

ESTABLISHING A SUCCESSFUL COMPREHENSIVE INFECTIOUS DISEASES MANAGMENT PROGRAM IN A COMMUNITY HOSPITAL.

Ernest Visconti, **Pascal J. deCaprariis,** Rudgard Yap, Margaret Kuhn, Alan Ditchek, John Curran, Maureen Quinlan, Bernadine Wixted, Luthern Medical Center, Brooklyn, NY.

P35

PROVIDER-PATIENT COMMUNICATION AND METABOLIC CONTROL OF DIABETES MELLITUS.

Veronica K. Piziak, Richard Street, Ph.D., Wilma Carpenter, Ph.D., RN, **Jean Herzog, RN,** Gladys Skinner, RD, Joyce Hejl, RN, Lynn McHorse, RN, Lorie Pettigrew, RN, Scott & White Clinic, Temple, TX.

P36

OBSTRUCTION OF LEFT MAIN STEM BRONCHUS WITH VENTILATION DEFECT ON V-Q SCAN, DUE TO PULMONARY ARTERY ANEURYSM: AN UNUSUAL PRESENTATION.

Yogesh R. Patel, Jeff Farrow, Johnson City Medical Center, Johnson City, TN.

P37

SEVERE PNEUMONIA WITH SEPSIS DUE TO METHYLOBACTERIUM EXTORQUENS.

Yogesh R. Patel, J. H. Quillen College of Medicine, Johnson City, TN, Charles Gutierrez, BS, VA Medical Center, Mountain Home, TN.

P38

ACUTE, SEVERE PULMONARY EDEMA: AN UNUSUAL COMPLICATION DURING FIBEROPTIC BRONCHOSCOPY ON A 31-YEAR-OLD FEMALE.

Yogesh R. Patel, Jeff Farrow, J. H. Quillen College of Medicine, Johnson City, TN.

P39

EFFECTS OF EXOGENOUS DEHYDROEPIANDROSTERONE ON HEPATIC TYROSINE AMINOTRANSFERASE ACTIVITY AND FOOD INTAKE IN THE OBESE ZUCKER RAT.

Gonzalo Correa, New Orleans, LA, Frank Svec, LSU Medical Center, New Orleans, LA, Johnny R. Porter, Ph.D., LSU School of Dentistry, New Orleans, LA.

SCIENTIFIC POSTERS

P40
RECTAL ULCERS AS A RARE CAUSE OF MASSIVE HEMORRHAGE IN A PATIENT WITH END-STAGE RENAL DISEASE: A CASE REPORT.
Susan Best, Charles J. Foulks, Scott & White Clinic, Temple, TX.

NEUROLOGY & PSYCHIATRY

P41
ALCOHOLISM IN THE ELDERLY: A 'SILENT' PROBLEM.
Andrew N. Dentino, West Virginia University School of Medicine, Morgantown, WV.

P42
STEROID INDUCED MANIA IN HEART TRANSPLANT PATIENTS.
Stephen Brannan, The University of Texas Health Science Center at San Antonio, San Antonio, TX.

P43
SURVEY OF MEDICAL STUDENT SUBSTANCE USE AND PARENTAL ALCOHOL USE.
Lon R. Hays, John Ranseen, Ph.D., David Metzler, University of Kentucky Medical Center, Lexington, KY.

P44
GUIDELINES FOR HELPING NONPROFESSIONAL VOLUNTEERS OF HOSPITALIZED AIDS/HIV+ PATIENTS COPE WITH COUNTER-TRANSFERENTIAL FEELINGS AND ISSUES.
Pascal J. de Caprariis, M. Geraldine Hoban, Ph.D., Carol Cohen, RN, BS, **Rev. Jack Stouffer,** Lutheran Medical Center, Brooklyn, NY.

NEUROSURGERY

P45
GAMMA KNIFE TREATMENT OF METASTATIC DISEASE: EFFECTIVE PALLIATION.
Michael Louis Goodman, Norman E. Jones, H. Dale Richardson, Mark Jones, Carlos H. Carbini, MS, Gregory Robertson, CORT, Jane Roberts, RN, Piedmont Hospital, Atlanta, GA.

P46
MR EVALUATION OF POSTOPERATIVE MYELOMENINGOCELE REPAIR TETHERING IN PEDIATRIC AGE GROUP.
Lucy C. Love, F. Reed Murtagh, John A. Arrington, Marc Griffey, Tampa, FL.

OCCUPATIONAL MEDICINE

P47
CARE OF THE PROFESSIONAL CARE GIVER: THE IMPORTANCE OF AN ORGANIZED SUPPORT STRUCTURE IN A COMMUNITY HOSPITAL.
Pascal J. de Caprariis, Carol Cohen, RN, BS, **Rev. Jack Stouffer,** Mark Evans, MSW, Lutheran Medical Center, Brooklyn, NY.

SCIENTIFIC POSTERS

ONCOLOGY

P48
CLINICAL PROGNOSTIC FACTORS IN PATIENTS WITH METASTATIC CARCINOMA WITH UNKNOWN PRIMARY.
Armando Sardi, Ochsner Clinic, New Orleans, LA, **Carl Weiss,** Tulane University Medical Center, New Orleans, LA.

P49
UNUSUAL MUSCULOSKELETAL PRESENTATIONS OF METASTATIC BONE DISEASE.
Floyd R. Jaggears, Chesapeake, VA, Frank J. Frassica, Naval Hospital, Portsmouth, VA.

P50
CEREBELLAR METASTASIS FROM RECTAL ADENOCARCINOMA.
Roberto Verzaro, Francesco Recchia, Peretti Giancarlo, Francesco Serafini, L'Aquila, Italy.

P51
COMMON MALIGNANCIES: CURRENT TRENDS IN INITIAL HEMATOLOGIC MANIFESTATIONS.
Jonathan Edwards, C. W. Clanton, V. O. Speights, DO, M. Riggs, Ph.D., Scott & White Clinic, Temple, TX.

OPHTHALMOLOGY

P52
CONJUNCTIVAL IMPRESSION CYTOLOGY OF THERMALLY INJURED PATIENTS.
Mary Catherine Conaway, Ben Chacko, Tom DeNapoli, Dave Harrell, Brooke Army Medical Center, Ft. Sam Houston, TX., Karen Jaceldo, MS, Richard Yee, David Mozingo, William G. Cioffi, and William F. McManus, San Antonio, TX.

P54
PARAPROTEIN-LIKE CORNEAL DEPOSITS IN A PATIENT WITH NO SYSTEMIC FINDINGS OF GAMMOPATHY.
Michael J. Borne, James H. Elliott, Alan D. Glick, Vanderbilt University Medical Center, Nashville, TN.

P55
COMPLICATIONS OF RETINAL ARTERIAL MACROANEURYSMS REQUIRING PARS PLANA VITRECTOMY—A CASE SERIES.
Mark Gonce, B. David Brent, James G. Diamond, Tulane University Medical Center, New Orleans, LA.

ORTHOPAEDIC & TRAUMATIC SURGERY

P56
ARTHROSCOPIC REPAIR OF SUPERIOR LABRAL DETACHMENT LESIONS OF THE SHOULDER. TECHNIQUE AND CLINICAL RESULTS.
Larry D. Field, Ridgeland, MS, F. H. Savoie, III, Jackson, MS.

SCIENTIFIC POSTERS

P57
THE RESULTS OF IN-SITU SCREW FIXATION FOR SEVERE SLIPPED CAPITAL FEMORAL EPIPHYSES.
Larry D. Field, Ridgeland, MS, Ronald J. Kendig, Luther C. Fisher, Jackson, MS.

P58
A COMPARISON OF PATELLAR TENDON ANTERIOR CRUCIATE LIGAMENT RECONSTRUCTIONS WITH AND WITHOUT A SUPPLEMENTAL LIGAMENT AUGMENTATION DEVICE.
Larry D. Field, Ridgeland, MS, Gene R. Barrett, Jackson, MS.

P59
INTRA-ARTICULAR FRACTURES OF THE CALCANEUS—THE UTMB EXPERIENCE.
Jason H. Calhoun, Merrill W. Reuter, Robert B. Lowery, Gregory Peare, **Diane M. Anger, BS,** University of Texas Medical Branch, Galveston, TX.

P60
VERTEBRAL OSTEOMYELITIS.
Jason H. Calhoun, Burt Mortiz, BS, Billy R. Ledbetter, BS, Jon T. Mader, **Diane M. Anger, BS,** University of Texas Medical Branch, Galveston, TX.

P61
TREATMENT OF INFECTED PILON NONUNIONS WITH SMALL PIN EXTERNAL FIXATORS.
Jason H. Calhoun, Billy R. Ledbetter, BS, Peter J. Stasikelis, Jon T. Mader, **Diane M. Anger, BS,** University of Texas Medical Branch, Galveston, TX.

P62
TREATMENT OF OSTEOMYELITIS WITH THE ILIZAROV EXTERNAL FIXATOR.
Jason H. Calhoun, **Diane M. Anger, BS,** Billy R. Ledbetter, BS, Jose A. Cobos, Jon T. Mader, University of Texas Medical Branch, Galveston, TX.

P63
POSTERIOR ANKLE IMPINGEMENT.
Mark Hedrick, **Angus M. McBryde, Jr.,** University of South Alabama Medical Center, Mobile, AL.

P64
EXCHANGE NAILING.
Greg Rennirt, David Seligson, Zdenek Zlezl, Stephen L. Henry, University of Louisville School of Medicine, Louisville, KY.

P65
EARLY ONSET OF REFLEX-SYMPATHETIC DYSTROPHY.
Christine Indech, Atlanta, GA.

P66
COMPARISON OF POSTERIOR VERSUS ANTERIOR REPAIR FOR SYMPTOMATIC PSEUDARTHROSIS OF ANTERIOR INTERBODY FUSIONS OF THE CERVICAL SPINE.
Momtaz A. Khalil, St. Luke's Episcopal Hospital, Houston, TX, Alexander E. Brodsky (deceased), Walter R. Sassard, Houston, TX, Bernard Newman, Paramus, NJ.

P67
SEGMENTAL ("FLOATING") LUMBAR SPINE FUSIONS.
Momtaz A. Khalil, St. Luke's Episcopal Hospital, Houston, TX, Alexander E. Brodsky (deceased), Terri T. Brotzman, PA-C, Houston, TX, Randall L. Hendricks, Tulsa, OK, Bruce V. Darden, Charlotte, NC.

P68
DEGENERATIVE SPONDYLOLISTHESIS (PSEUDOSPONDYLOLISTHESIS).
Momtaz A. Khalil, St. Luke's Episcopal Hospital, Houston, TX, Alexander E. Brodsky (deceased), Gottfried R. Kaestner, Houston, TX.

OTOLARYNGOLOGY—HEAD & NECK SURGERY

P69
OTO-AUDIOLOGIC FINDINGS IN A SINGLE CASE OF CYSTICERCOSIS.
Randolph A. McKenzie, Jr., Kansas City, MO, Leslie W. Dalton, Jr., Ph.D., Hickory, NC.

PATHOLOGY

P70
DIAGNOSIS OF SYSTEMIC HISTOPLASMOSIS IN AIDS: TRUMAN MEDICAL CENTER EXPERIENCE.
Ron Thomas, MSV, University of Missouri Kansas City School of Medicine, Kansas City, MO, C. M. Zarabi, Litton Laboratory, Blue Springs, MO, Adekunle Adesokan, North Brunswick, NJ.

P71
GUNSHOT RESIDUE.
Wanda Grace, AA, ASCP, Steven Hayne, Rankin Medical Center, Brandon, MS.

P72
COMPARISON OF A STANDARD CHEMILUMINESCENCE ASSAY PERFORMED ON FRESH AND REFRIGERATED NEUTROPHILS.
M. Qasim Ansari, University of Texas Southwestern Medical Center, Dallas, TX, Linda K. Siddens, MT, Parkland Memorial Hospital, Dallas, TX.

SCIENTIFIC POSTERS

PEDIATRICS & ADOLESCENT MEDICINE

P73

EPIDEMIOLOGY OF HUMAN PARVOVIRUS (B19) INFECTIONS AND APLASTIC CRISIS IN PATIENTS WITH HEREDITARY HEMOLYTIC ANEMIAS TREATED IN A TERTIARY CARE CENTER.

J. Clinton Smith, G. C. Megason, R. V. Iyer, J. D. Pullen, University of Mississippi Medical Center, Jackson, MS.

P74

FEVER PHOBIA REVISITED.

Peter D. Rumm, San Antonio, TX, Howard Heiman, Brook Army Medical Center, Fort Sam Houston, TX, Angela Martin, Noble Army Hospital, Fort McClellan, AL.

PLASTIC & RECONSTRUCTIVE SURGERY

P75

REPAIR OF THORACOABDOMINAL ECTOPIA CORDIS WITH MYOCUTANEOUS FLAPS AND INTRAOPERATIVE TISSUE EXPANSION.

Julio Hochberg, **David Genecov,** Robert Gustafson, Gordon Murray, West Virginia University, Health Sciences Center, Morgantown, WV.

P76

MANAGEMENT OF INFECTED VASCULAR CONDUITS WITH MUSCLE FLAP COVERAGE.

William O. Thomas, Randall W. Powell, Gregory McGee, Charles B. Rodning, University of South Alabama, Mobile, AL, Samuel W. Parry, Tulane University, New Orleans, LA.

P77

INFANT MONITORING RESULTING IN BURNS—TISSUE DAMAGE LITERATURE REVIEW AND CASE REPORT AND POSTER.

Gary L. Baker, Kansas University Medical Center, Kansas City, KS and William Robert Reynolds, Rowland Park, KS.

RADIOLOGY

P78

MRI EVALUATION OF THE SHOULDER.

John A. Kalmar, Kenneth D. Miller, Patrick B. Leopard, Ochsner Medical Institutions, New Orleans, LA.

P79

PEDIATRIC BRAIN MR IMAGING IN A GENERAL HOSPITAL: SPECTRUM OF DISEASES.

Mardjohan Hardjasudarma, Rebecca Penny Megison, Louisiana State University Medical Center, Shreveport, LA.

SCIENTIFIC POSTERS

P80
THE ADDED GRADIENT ECHO PULSE SEQUENCE TECHNIQUE: APPLICATION TO TMJ FLUID IMAGING.
Kenneth A. Bell, Jerome P. Jones, Ph.D., Deena Al-Refai, Kenneth D. Miller, Ochsner Medical Institutions, New Orleans, LA.

P81
HIATAL HERNIA IN ACHALASIA: PREVALENCE AND POTENTIAL IMPLICATIONS.
David Ott, Richard Hodge, Michael Chen, Wallace Wu, David Gelfand, Bowman Gray School of Medicine, Winston-Salem, NC.

P82
THERAPEUTIC ERCP: INDICATIONS, TECHNIQUES, RESULTS AND COMPLICATIONS IN 60 CONSECUTIVE PATIENTS.
David Ott, Michael Chen, Richard Mitchell, David Gelfand, Bowman Gray School of Medicine, Winston-Salem, NC, Garrett Young, University of South Alabama, Mobile, AL.

P83
EFFICACY OF HYSTEROSALPINGOGRAPHY IN EVALUATING ENDOMETRIOSIS.
David Ott, Kent Johnson, Michael Chen, Jamil Fayez, David Gelfand, Bowman Gray School of Medicine, Winston-Salem, NC.

P84
ENDOSCOPIC ULTRASONOGRAPHY OF THE ESOPHAGUS: EXPERIENCES IN 16 PATIENTS.
David Ott, Neil Wolfman, Donna Donati, Michael Chen, Wallace Wu, Bowman Gray School of Medicine, Winston-Salem, NC.

P85
PREVALENCE AND CLINICAL CORRELATION OF OPPORTUNISTIC ESOPHAGITIS IN HIV-POSITIVE PATIENTS.
Michael Chen, Richard Hodge, David Ott, David Gelfand, Bowman Gray School of Medicine, Winston-Salem, NC.

P86
CORRELATION OF ESOPHAGEAL PH TESTING AND RADIOGRAPHIC FINDINGS IN GASTROESOPHAGEAL REFLUX DISEASE.
Michael Chen, David Ott, Wallace Wu, Jane Sinclair, PA, David Gelfand, Bowman Gray School of Medicine, Winston-Salem, NC.

P87
REALISTIC THREE-DIMENSIONAL VISUALIZATION OF JOINT SURFACES AND SOFT TISSUE FROM CT DATA.
Steve O. Stephenson, Kevin C. Wright, Christopher J. Meoli, DO, Fong Y. Tsai, University of Missouri-Kansas City School of Medicine, Kansas City, MO.

SCIENTIFIC POSTERS

P88
UTILIZATION OF SCINTIGRAPHY IN EVALUATION OF ACUTE AND CHRONIC INTRASCROTAL PATHOLOGY.
Bharti R. Patel, University of Mississippi Medical Center, Jackson, MS.

P89
EVALUATION OF INFLAMMATORY AND NEOPLASTIC LESIONS BY GALLUM^{67} CITRATE SCINTIGRAPHY.
Bharti R. Patel, University of Mississippi Medical Center, Jackson, MS.

RHEUMATOLOGY

P90
OSTEITIS PUBIS IN AEROBICS: IS THIS A COMMOM OCCURRENCE?
Stephen Kishner, **Jack Waxman,** Linda Roussel, DSN, CRRN, New Orleans, LA.

P91
METASTATIC SYNOVIAL INVOLVEMENT IN A PATIENT WITH SMALL CELL CARCINOMA OF THE LUNG: A CASE REPORT.
Christopher R. Morris, Medical College of Georgia, Augusta, GA, Edward J. Pisko, Lakeland, FL.

P92
•**SAFETY OF ETODOLAC IN PATIENTS RECEIVING WARFARIN.**
Daniel E. Hilleman, Pharm.D., Cardiac Center of Creighton University, Omaha, NE.

P93
UNCOMMON MANIFESTATIONS OF A COMMON DISEASE: A UNIQUE CASE OF GOUT WITH A MOST UNUSUAL PRESENTATION.
Arun Sharma, Jeffrey Lisse, Mary Shepherd, John York, University of Texas Medical Branch, Galveston, TX.

SURGERY

P95
HEREDITARY NON-POLYPOSIS COLON CANCER: REPORT OF A PEDIGREE.
Edward H. Kincaid, BA, Brian W. Loggie, Bowman Gray School of Medicine, Winston-Salem, NC.

P96
IS NASOGASTRIC TUBE PLACEMENT NEEDED IN THE MANAGEMENT OF UGI HEMORRHAGE?
James E. White, Gordon T. Hardy, Daniel F. Fisher, Jr., University of Tennessee School of Medicine-Chattanooga Unit, Chattanooga, TN.

P97
GIANT CYST OF THE PARATHYROID GLAND: CASE REPORT AND REVIEW OF THE LITERATURE.
Steve Eubanks, Albert A. Clairmont, Georgia Baptist Medical Center, Atlanta, GA.

TECHNICAL EXHIBITS

Please take time to visit the Exhibits whenever possible. The Southern Medical Association is thankful for the support of all Technical Exhibitors.

The Exhibits and Exhibit Hall activities will take place in the North Exhibit Hall. Badges are required for admission to the Exhibit Hall.

Make sure and visit the SMA information center located in the Physician's Hospitality Area.

EXHIBIT HALL HOURS:

Thursday, November 12—8:00 a.m. to 5:00 p.m.
Friday, November 13—8:00 a.m. to 5:00 p.m.
Saturday, November 14—8:00 a.m. to 3:00 p.m.

EXHIBIT HALL ACTIVITIES
