## BRANDING DESIGN

From the logo to letterhead and email signature to business cards, you will need many things. We will create the best appearance that suits your business and personality. Branding design means more than just logo design, as we will dress up the logo we create with a graphic environment that fits your business.

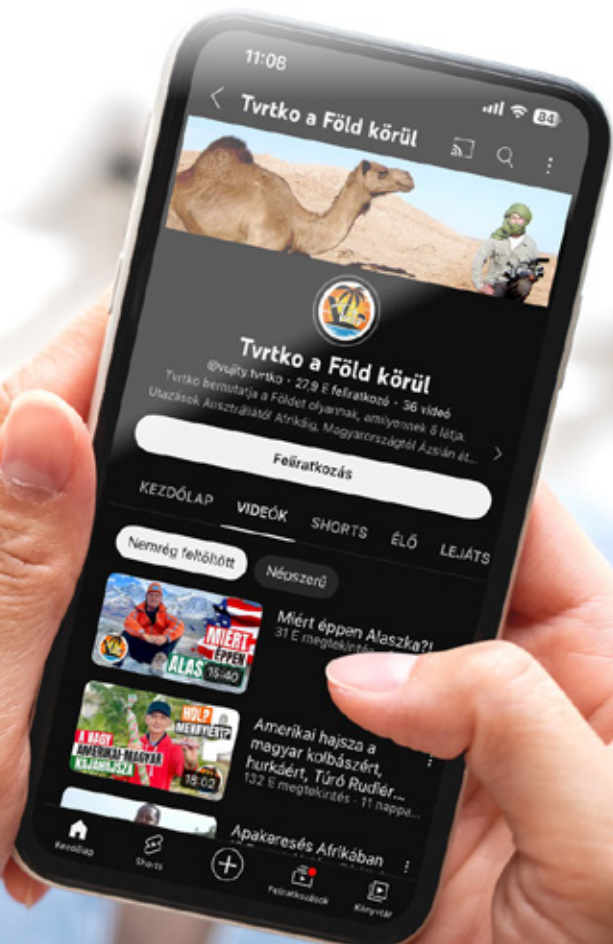

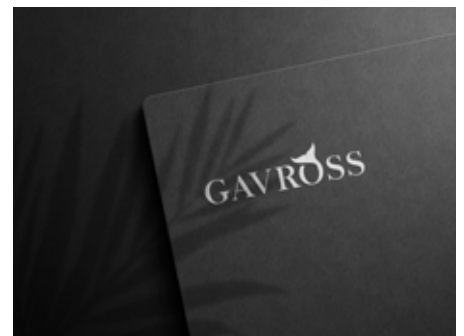

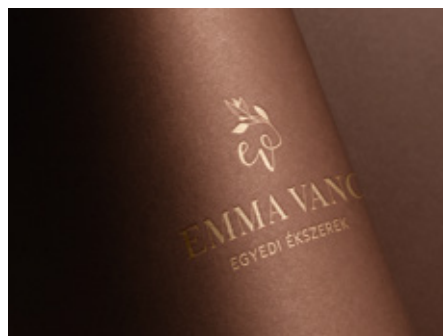

*„It is important for everyone who is in the public eye to provide interesting and valuable content for their audience; this is what brings uniqueness and memorability.*

*One element of such uniqueness is the emblem, for the design of which I personally asked Halász Dóra Krisztina. Dóra designed a logo for me that I not only called a "PERFECT HIT", but I also use it everywhere from my YouTube channel to my nearly seven hundred thousand-strong Facebook page.*

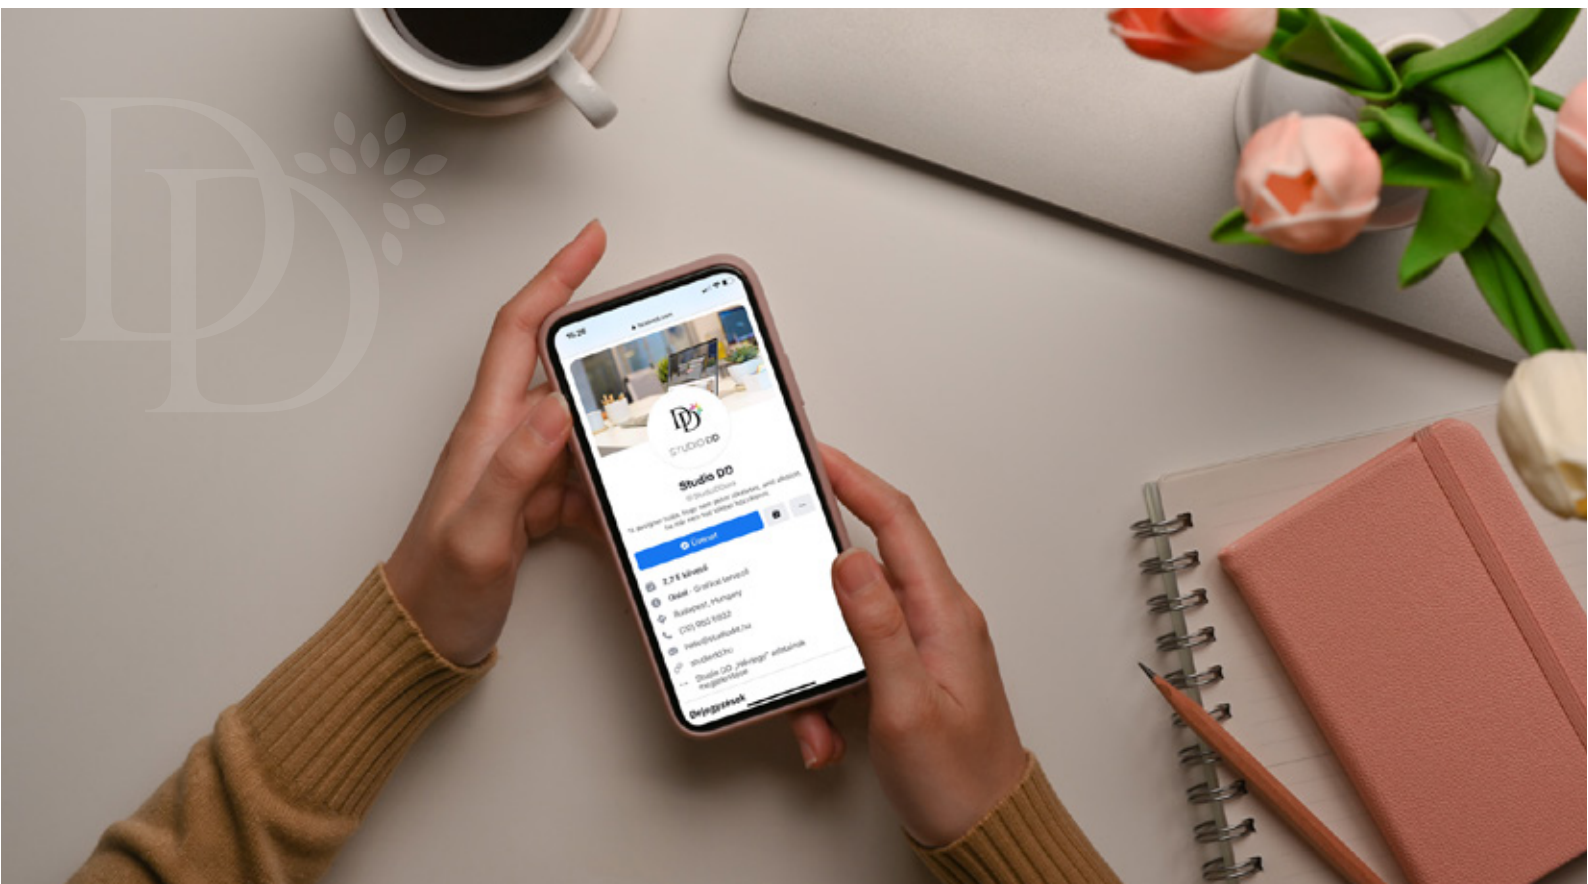

*I would like to take this opportunity to thank Dóra for her professional work and recommend her to everyone's kind attention!*

*With friendship: Vujity Tvrtko”  
journalist, writer, reporter*

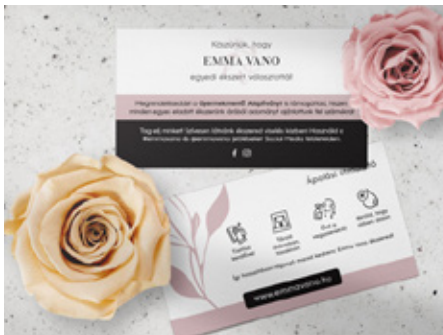

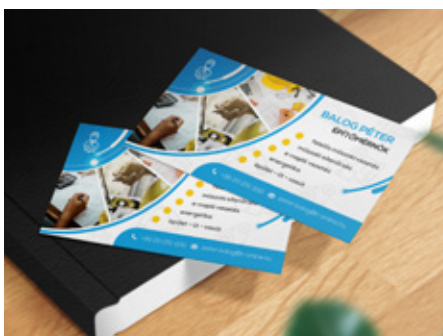

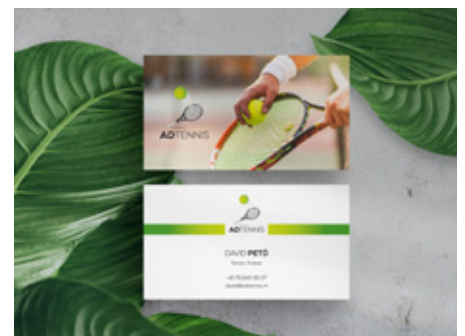

A polished, unique, and creative **BUSINESS CARD OR THANK YOU CARD** is like an invaluable customer magnet.

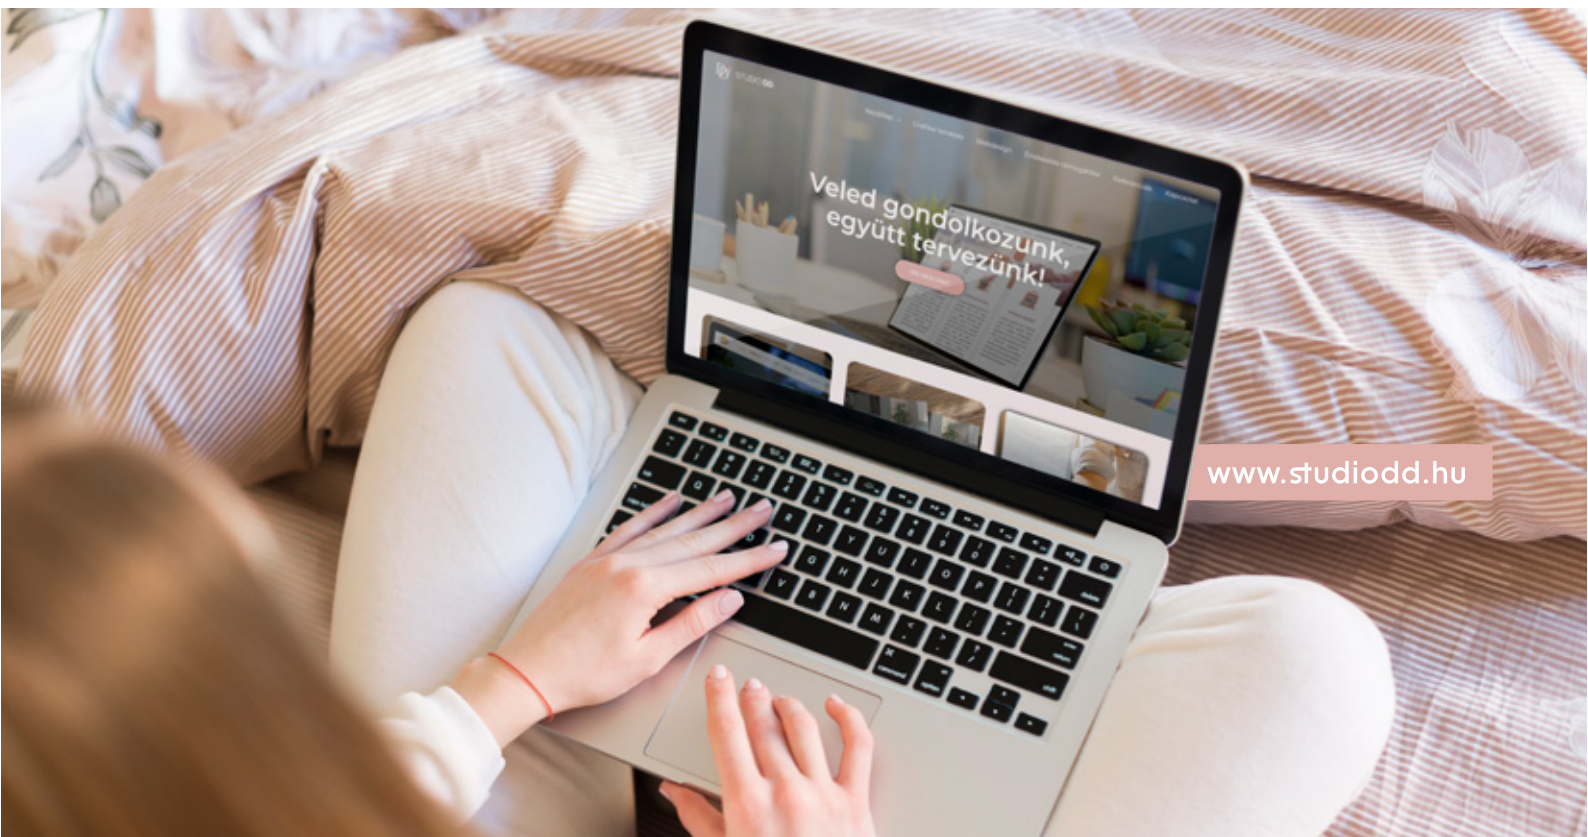

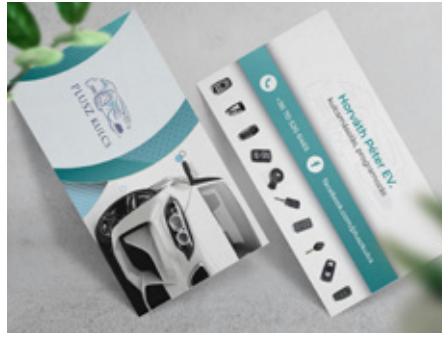

It is particularly important that it deeply reflects our own personality and the branding of our business.

It should be concise, short, and clear. We must always strive to maintain balance.

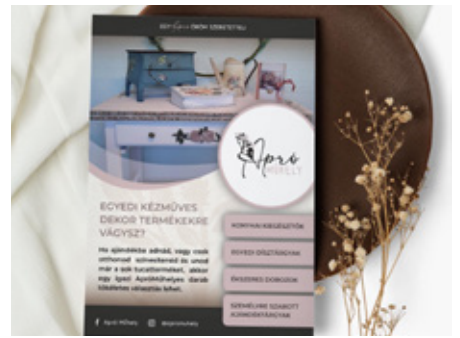

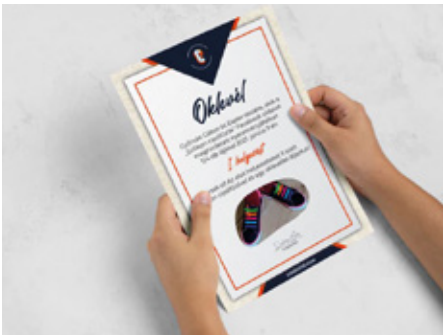

## BROCHURE DESIGN

Make it memorable, but no clutter. A well-designed brochure or event branding with a good color scheme, graphics, and text can have outstanding marketing value. A well-designed graphic, a punchy message, and hitting the target product. Whether it's attention-grabbing, spectacular, or straightforward and informative material, we help you make your brochure stand out from the many useless ones.

„I love working with Dóri. She provides outstanding quality and precision, works quickly, and handles her clients and their needs with a high level of professionalism.

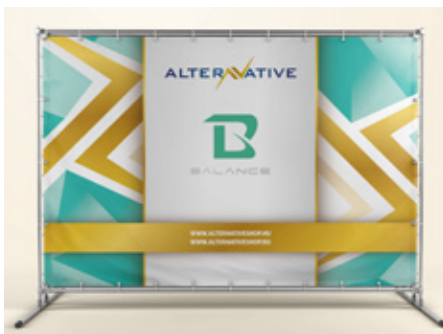

The design she created for HR Fest was crucial for promoting our application, but we also had to ensure that the colorful and attention-grabbing appearance did not overshadow the content. Dóri did an amazing job balancing the content and design harmony.

With her help, the application was downloaded 500+ times at the conference, which resulted in acquiring new clients. It cannot be emphasized enough how important good design is in expanding potential customer base.

Dóri worked fantastically with our team, and we owe our success to her work as well. There is no question that we will be happy to use her services in the future!”

## INSTAGRAM PUZZLE FEED

The first step to succeeding on Instagram is content planning. Since Instagram is a visual platform, the first thing to do is to design the look of your feed and the mood of your profile.

We help make posting enjoyable for you. Attention-grabbing and exciting puzzle-type cohesive, yet separate images.
