THE GLOBAL GOALS

SDG'S TARGETED BY MACCORP

The Sustainable Development Goals (SDGs), also known as Global Goals, are integrated and interrelated goals are to protect the planet and to ensure that humanity enjoys peace and prosperity by 2030.

At The Mac Corp, we are deeply committed to the Sustainable Development Goals (SDGs) as part of our core mission to create a positive impact on the world. We integrate these global goals into our business strategies and operations, focusing on areas such as sustainable innovation, ethical sourcing, and community engagement. Our initiatives are designed to contribute to goals like quality education, clean energy, and responsible consumption and production.

Macpac Films Limited (MFL) is shifting the packaging market paradigm by being a pioneer of BOPP and CPP films manufacturing and providing multilayered premium packaging solutions

The Green Ark (TGA) is transforming post-industrial waste into the valuable resources along with the initiatives focusing on environment sustainability and waste management practices

A GLIMPSE OF OUR COMPANIES

Toyo Packaging Private Limited (TPL) the one stop solution for all types of flexible packaging needs of local and international businesses

Ugao Agritech aims to leverage union of sustainable agriculture initiatives with technological innovations to improve agricultural industries

Mac Business Solutions (MBS) is creating value chain in the circular economy by exploring execution and growth to serve the business community

TOYO PACKAGING (PVT) LTD.

Toyo Packaging has been a cornerstone of Pakistan's flexible packaging industry since its inception in 1989. Over the past three decades, we have established ourselves as a leading provider of innovative packaging solutions, specializing in gravure printing, anti-counterfeiting holographic films, and stand-up pouches. Our extensive expertise allows us to serve a wide array of industries, including Fast-Moving Consumer Goods (FMCG), tea, confectionery, cakes, snacks, ice creams, textiles, pharmaceuticals, and the automotive sector, making us a trusted partner for businesses across these diverse markets.

Quality Assurance

MACPAC FILMS LTD.

Macpac Films Ltd. is a leading force in Pakistan's packaging industry, with over three decades of expertise in manufacturing BOPP and CPP films. As the country's foremost producer, we specialize in high-quality, sealable, plain, and value-added films that cater to a wide range of industries, including food, confectionery, and pharmaceuticals. Our innovative film-based packaging solutions ensure product safety, durability, and freshness, making us the preferred choice for manufacturers nationwide.

With a strong commitment to sustainability and advanced technology, Macpac Films Ltd. continuously sets new benchmarks in packaging excellence. Our state-of-the-art facilities and focus on research and development enable us to deliver cutting-edge products that meet and exceed industry standards.

BOPP FILMS

BOPP (Biaxially Oriented Polypropylene) films are high-performance materials known for their excellent clarity, strength, and moisture resistance. They are widely used in packaging, labeling, and laminating, offering superior barrier properties and durability, making them ideal for preserving the freshness and integrity of various products

- ▶ Plain
- ▶ Biodegradable BOPP
- ▶ Overwrap
- ▶ Matte
- ▶ Pearl white for labels
- ▶ Pearllized
- ▶ Sealable
- ▶ Hologrammable
- ▶ Metalized
- ▶ Metalizable
- ▶ Pearl white opaque
- ▶ Sheet lamination

CPP FILMS

CPP (Cast Polypropylene) films are versatile, flexible plastic films made through a cast extrusion process. Known for their high clarity, chemical resistance, and excellent heat-sealing properties, they are ideal for packaging, labeling, and laminating in industries like food, pharmaceuticals, and textiles. CPP films offer superior gloss and transparency, enhancing product presentation while ensuring reliable protection.

- ▶ Transparent
- ▶ Metalized
- ▶ Opaque/Milky
- ▶ Other specialized films

MAC BUSINESS SOLUTIONS

Mac Business Solutions (MBS) is a leading firm focused on enhancing business efficiency through strategic innovation and sustainability. Established to drive value within the circular economy, MBS offers a broad range of services, including expert business consultancy, supply chain optimization, and the seamless integration of sustainable practices. Committed to fostering growth and operational excellence, MBS collaborates with clients across various industries, helping them optimize resources, reduce costs, and align their operations with long-term sustainability goals.

PRODUCTS OFFERED BY MBS

- ▶ Specialty Chemicals
- ▶ Advanced Polymers and Plastics
- ▶ High-Performance Elastomers (Rubbers)
- ▶ Industrial Minerals
- ▶ Strategic Metals and Alloys
- ▶ Agro-based Raw Materials
- ▶ Commodity Products and Raw Materials
- ▶ Pharmaceutical Active Ingredients (APIs) and Excipients
- ▶ Petrochemicals instead of specialty chemicals
- ▶ Polyolefins instead of advanced polymers and plastics
- ▶ Lube Base Oils

Providing Sustainable Sourcing & Consultancy Services

TGA SUSTAINABILITY (PVT) LTD.

The Green Ark is a recycling company that stands at the forefront of sustainable waste management. With a strong commitment to environmental consciousness and a passion for transforming waste into valuable resources, TGA has built a reputation for its comprehensive approach to waste reduction, recycling, and upcycling. At TGA, we offer a range of solutions that encompass recycling post-industrial waste, creating eco-friendly building materials, promoting sustainable practices, and crafting exquisite lifestyle products. Our state-of-the-art facility incorporates advanced technology and machinery to transform waste into valuable resources. Through our sustainable practices, we minimize waste sent to landfills, reducing the environmental impact, and promoting the circular economy.

TGA RESIN

TGA Resin focuses on recycling post-industrial plastic waste at TGA's Facility. We aspire to redirect plastic waste in the most efficient manner and to leave a greener footprint while promoting a circular economy.

TGA BUILD

TGA Build is a project that converts non-recyclable multi-layered plastic into building materials, such as Pavers, Tiles. Through this intervention, we aim to redirect non-recyclable Post Industrial waste away from landfills and oceans and to commit to a greener planet.

TGA LIFESTYLE

TGA Lifestyle brings to life the Trash is Treasure approach. Plastic waste is used to create lifestyle products to transform consumer's perception of waste.

TGA INITIATIVE

TGA Initiative aims to bring awareness of redirecting plastic waste and efficient disposal of plastic waste. We do this through sensitisations and awareness sessions along with carrying out impact based events such as clean up or plantation drives. Our goal is to transform perceptions of waste of our partner's employees.

UGAO AGRITECH

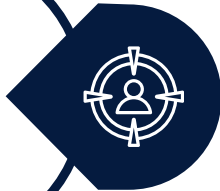

At Ugao, we envision to empower farming communities to foster collaborative thinking to further drive farm innovation. By closing the loop and leveraging sustainable farming methods, we aim to help businesses grow organically and nurture a high yield health first mindset ensuring food security in the World.

WHY MACCORP?

Customer-Centric Approach

Our clients are our priority. We deliver customized, effective solutions that build long-term relationships based on trust and satisfaction.

Legacy of Excellence

With roots dating back to 1989, MACCORP has built a trusted reputation for delivering high-quality products and services across diverse industries.

Global Reach and Local Impact

We combine global expertise with local knowledge, ensuring our solutions are relevant and impactful in every market we serve.

Commitment to Innovation

Innovation drives our success. We leverage cutting-edge technologies to offer advanced solutions, staying ahead of industry trends and continuously improving our offerings.

Dedicated Team of Experts

Our skilled and dedicated professionals bring deep industry knowledge, ensuring the highest quality in every project.

Sustainable Practices

Sustainability is integral to our operations. We actively contribute to the Sustainable Development Goals (SDGs) and lead in promoting environmental stewardship across our businesses.

Proven Track Record

With decades of experience, MACCORP has a history of successful projects and satisfied clients, proving our reliability and expertise.

Diverse Industry Expertise

Our broad portfolio spans packaging, films, business solutions, waste management, real estate, and agriculture, allowing us to offer tailored solutions for each sector.

Vision for the Future

MACCORP is committed to driving transformative growth and sustainability, focused on building a more resilient and sustainable future.

Strategic Partnerships

We collaborate with leading organizations to enhance our capabilities, offering integrated solutions and driving mutual growth.

INNOVATION AND TECHNOLOGY

Advanced Manufacturing Processes

Our companies, including Toyo Packaging and Macpac Films utilize state-of-the-art manufacturing processes and high-performance machinery to produce top-quality packaging materials. These advanced technologies enable us to achieve precision, efficiency, and consistency in our products, ensuring the highest standards of quality.

Agricultural Technology

Ugao Agritech integrates modern agricultural technology to enhance farm productivity and sustainability. We use data-driven farming techniques, precision agriculture tools, and advanced irrigation systems to help farmers achieve higher yields and improve crop quality. Our model farms serve as examples of how technology can be harnessed to promote sustainable farming practices.

Pioneering Recycling Techniques

The Green Ark is at the forefront of recycling innovation, employing advanced techniques to transform waste into valuable resources. Our recycling facilities are equipped with the latest technology to ensure efficient waste processing and maximum resource recovery, promoting a circular economy.

SUSTAINABILITY & CSR

At The Mac Corp, sustainability and corporate social responsibility (CSR) are at the core of our business operations. We are committed to contributing to the Sustainable Development Goals (SDGs) and creating a positive impact on the environment and society.

CSR INITIATIVES

Our CSR programs focus on empowering communities, supporting education, and promoting environmental conservation

OUR COMMITMENT TO SUSTAINABILITY

We integrate sustainable practices across all our companies, from reducing waste in our packaging processes at Toyo Packaging and Macpac Films to promoting circular economy principles through Mac Business Solutions and The Green Ark.

SHAPING FUTURES ONE SCHOOL AT A TIME

We have a partnership with The Citizen Foundation (TCF), a renowned non-profit organization dedicated to providing quality education to underprivileged communities. Together, we have taken on the noble responsibility of supporting one of their schools, where young minds gather to unlock their full potential and shape their destinies.
