Csquare Colocation

Scalable, highly reliable solutions designed for maximum security and reliability built on a decades-long track record of success.

With a footprint spanning 80 data centers across 30 key markets, we serve thousands of diverse customers across all industries. Csquare provides maximum uptime, rock-solid security, and built-in redundancy to keep your mission-critical operations running smoothly.

Customized, Flexible Solutions

Csquare offers customized solutions and flexible colocation services for needs ranging from a single cabinet to extensive cage deployments for hundreds of cabinets. Our telco-grade facilities power high performance, security, and reliability, backed by a 100% availability SLA and on-demand access to our expert technical support team. And we'll stay by your side every step of the way.

Security and Compliance

- **Advanced security measures:** Mantraps, biometric authentication, and 24/7 access control and security staff, safeguarding your infrastructure
- **Certified and compliant:** ISO 27001, SOC1 and SOC2 certifications ensure adherence to the highest industry standards

Reliability and Performance

- **Guaranteed 100% uptime:** Robust SLAs to ensure systems are always running
- **Redundant power infrastructure:** Minimum N+1 backup configuration of UPS and generators for continuous operations
- **Seamless consistency:** Uniform standards and performance across all data center locations and markets

Cloud and Connectivity

- **Carrier and cloud neutral:** Flexibility to connect to your preferred providers
- **Extensive ecosystem:** 200+ network and technology service providers
- **On-demand internet connectivity:** Scalable, fully redundant internet access – provisioned within minutes

The Csquare Digital Exchange™

Connecting physical and digital environments

Transform the way you build, operate and scale dedicated infrastructure through the Csquare Digital Exchange, an automated software-defined network platform. Monitor, manage, and control internet access, storage and virtual connections that seamlessly extend your data center environment with one-click provisioning.

- **IP Connect:** Rapidly provision fault-tolerant connectivity via multiple Tier 1 IP backbones
- **Metro-to-Metro Connect:** Deploy point-to-point connections between your colocation environments in different Csquare metropolitan areas throughout North America and the U.K.
- **Cloud Connect:** Direct, secure connections to public cloud service providers—AWS, Azure, GCP, OCI—in near real time
- **Enterprise Storage:** Get convenient, flexible, enterprise-class storage with a pay-as-you-go, fully managed cloud solution

The Csquare Advantage

Unwavering Reliability

- Consistent 99.999+% availability for more than two decades
- Telco-grade facilities built with greater redundancy than modern data centers and continuously upgraded with the latest technologies
- Tenured staff with average 15+ years of experience

Unmatched Flexibility

- Solutions designed to solve customer problems, not just fulfill orders from a fixed service menu
- Prescriptive approach to innovation and careful consideration of eco-system to bring the best providers to solve our customers' problems
- 80 data center locations with over 500MW of power and a range of choices to find the best fit for your needs across our portfolio

Superior Customer Care

- Every customer is assigned an expert customer success manager
- Dedicated customer portal designed to support and enhance your experience
- At-the-ready 24x7x365 support steeped in an unwavering commitment to service excellence
