Self-paced: time-limited exam with questions drawn from the relevant curriculum.

Exclusive to Service Contracts and Programs that include Acceleration Plan Enterprise entitlements

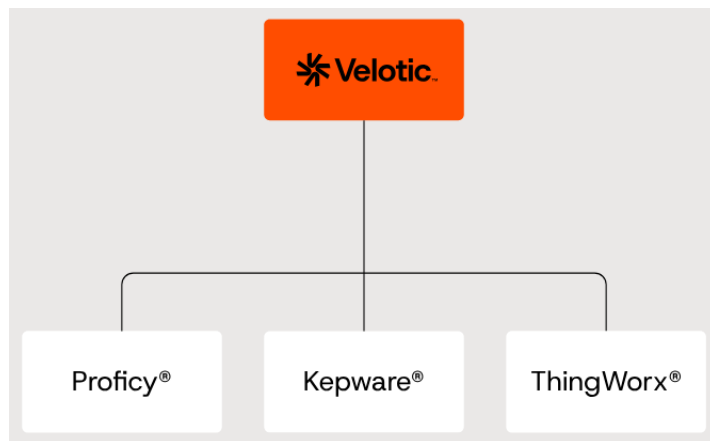

Select content is only available for certain programs and service contracts and are assigned to your student profile when eligible. Students will need to login to our learning platform to find them.

About Velotic

Web: www.velotic.com

We are a new industrial software company formed by bringing Proficy (formerly of GE Vernova) and Kepware and ThingWorx (formerly of PTC) into a unified organization.

By combining leading industrial connectivity software, high-performance HMI/SCADA and MES platforms, and a rapid IIoT application development platform, Velotic is creating a more integrated ecosystem to connect systems, orchestrate data, and scale industrial operations across the enterprise.

About Velotic Education Services

All training delivery happens via our online platform. This includes both publicly available courses and private sessions.

Public activities

Public activities are available for self-enrolment by all holders of a learning platform account.

Includes:

- eLearning and video-based training
- Acceleration Plan curriculums
- Instructor-led classroom courses
- Instructor-led distance learning courses
- Badges and certifications

Private sessions

Private sessions can be requested. These allow more control over delivery schedule and topic selection and let larger teams sit the training together at a lower overall cost. Contact us by email for details.

- Instructor-led classroom courses
- Instructor-led distance learning courses

Email: training.ip@gevernova.com
