STATISTICS

regarding landed properties in the Island of St. Croix from 1816 to 1857 with a table showing the quantity of sugar shipped from 1835 to 1840 and from 1850 to 1857.

These elucidations are obtained from various sources. The names of the estates, their numbers, quarters, districts and jurisdictions, the present owners, for what prices they have been sold and to whom, are all taken from the Upper Court's registers, by the sanction of the authorities. The number of acres in canes and other cultivation in 1816 and 1857, and the number of slaves in 1816 and 1847 are extracted from the Royal Treasurer's matriculs, with the consent of the proper authorities. The number of steam sugar mills, their power and where placed, are furnished by Mr. Mc'William, engineer.

There are 40,000 square feet to an acre, and the taxes to the State Treasury are calculated thus: 64 cents per acre for land in sugar cultivation and 21⅓ cents for other cultivation; 16 cents to the Land Treasury for every acre in cane cultivation. There are 226 estates in the island, 147 of which number grow canes; 61 steam sugar mills, 7 small steam engines for pumping water, besides a small engine of 4 horse power for engineering purposes.

Those estates, which were sold during the period from 3d July 1848, when the emancipation took place, to the 23d July 1853, when the compensation of 50 dollars for every slave without distinction of age or sex was awarded by law, reservation was made for the compensation money.

The labourers in the country are paid according to law of 26th January 1849 : 1st class labourers receive 10 cents pr. diem, free house for themselves and children, provision ground 30 feet square and provisions which consist of 6 quarts corn meal with a suitable quantity of herrings or salt fish weekly, 2d class labourers 5 cents and provisions, 3d class provisions alone—provisions at the rate of 5 cents daily. The working days are 5—Saturday excepted—and from sun rise to sun set, one hour for breakfast and two for dinner ; for extra work on Saturday, 20 cents to 1st class labourers, 13 to 2d, and 7 to 3d for the day ; extra work during breakfast or noon time is paid for separately.

The export duties on sugar, rum and molasses are as follow : sugar, in danish vessels to Denmark 5 pr. ct., to other places 10 pr, ct. ; in foreign vessels, in every case, 10 pr. ct.— Rum and molasses : in danish vessels, to Denmark, 3 pr. ct., to other places 6 pr. ct., ; in foreign vessels, in every case, 6 pr. ct.

The following table shows the quantity of produce shipped from this island from 1840 to 1854, viz :

	SUGAR.	RUM.	MOLASSES.
	Nett lbs.	Gallons.	Gallons.
1840.....	19,380,465	1,109,458	21,752
