**S1000 CODING & SABRE TEST PLANS**

**All Hartridge Sabre Test Plans:**

Access over 500 comprehensive test plans for all major common rail manufacturers (Bosch, Delphi, DENSO, and Continental/VDO).

These are the OEM-validated test parameters you need to perform precise diagnostics and repairs on the Hartridge Sabre machine.

Historically, Merlin test plans were priced at £40 each, while the **£1000** investment for the full coding option would see you break even after just 25 injectors.

This incredible return on investment is a must for any workshop looking to expand or fulfil customers requirements.
